## Chairman's Message

## RattanIndia

India continues to shine against a backdrop of trade wars and trade restrictions among several countries, and a general economic slowdown across the world. According to the International Monetary Fund, India is expected to grow at 7.3% in 2019 and will remain the fastest growing economy. The Central Government has set an ambitious target of making India a USD 5 trillion economy by 2024-25. This can only be achieved through a sustainable real GDP growth of 8%, enabled through the virtuous cycle of savings, investments and exports. Private investment will be the key component driving demand creation, capacity additions, increasing labour productivity, introduction of new technology and in job creation.

India is firmly set on the path of economic growth that will bring all-round prosperity like never before. This economic growth will be built on the back of energy availability and sustainability. India's per capita energy consumption has doubled in past 15 years but is still one third of the global averages. Reaching the global average is a huge challenge but also a great opportunity.

The Government of India is focused on making India a preferred investment destination whilst simultaneously driving the "Make in India" campaign. Over the past few years, the Government has consistently started adopting & implementing international best practices

Mr. Rajiv Rattan Chairman

to enhance the business atmosphere in the country including reduction in number of approvals for incorporating a new business, reduction in approvals for grant of construction permits, reduction in time & cost associated with documentary compliances for cross border trading, etc. As a result of the sustained efforts of the Government, India's rank is constantly improving among the 190 countries tracked by Work Bank for Doing Business. In the World Bank's Doing Business Report dated October 31, 2018, India is placed at 77<sup>th</sup> position; an improvement of 23 places as compared to the prior year.

Whilst, the government has done incredible work in improving the business atmosphere; prima facie the focus has been limited to sectors where the government is a facilitator for e.g. in the power sector the end consumer deals with power distribution companies while government plays the role of a regulator to facilitate the following: applicability of tariffs, procedures for billing and supply of electricity, settlement of disputes, etc. However, the sector wherein the Government is a supplier or consumer of goods has been totally ignored. For e.g. Independent Power Producers (IPPs) procure coal from Coal India Limited; Coal Transportation is primarily through Indian Railways and electricity generated by IPPs is supplied to Power Distribution Companies. Ministry of Coal through Coal India Limited controls the concessional coal supplied to IPPs, Ministry of Railways controls the rakes allocated to IPPs and Power Distribution Companies are under the control of State Government. Here, supplier of raw material (coal), Services (transportation) and Procurer of electricity are directly under Central or State Governments. To improve the business atmosphere in the power sector a lot of work needs to be done to improve the quality and quantity of coal supplied to IPPs, allotment of rakes by Indian Railways, timely payment of bills by Distribution Companies, etc.

Today, the infrastructure sector has slowed down with a large number of mega projects either facing stress or have been termed non-performing, with many of the project developers facing acute liquidity crisis. The situation for the power sector has been possibly the worst, with a large number of projects being stressed and on the verge of either becoming non performing or have already become NPAs. The Ministry of Power constituted a High Level Empowered Committee to understand the systemic issues plaguing the power sector and to suggest necessary recommendations to reduce the stress in the power sector. A few of the key reasons identified by the HLEC contributing to stress in the sector as highlighted in its report include: inability of the governmentowned Coal India to supply full committed coal quantity to power plants, delayed payments from Discoms to generators and delay in adjudicating disputes by the regulatory commissions/tribunal –factors prima facie outside the control of power generating companies, including RattanIndia. The Committee recommended several steps for reducing stress in the power sector like increasing the coal quantity allocated for special forward e-auction for power sector, creation of facility for discounting power supply bills by PFC, REC & other public finance institutions, procurement of medium term bulk power by nodal agencies, etc. - most of which are approved by the Cabinet Committee on Economic Affairs (CCEA). Further, Ministry of Power with effect from 1-Aug-2019 has made it mandatory for all Discoms to provide and maintain Letters of Credit against all PPAs with Independent Power Producers (IPPs). This is a welcome move that will ensure that IPPs selling power to DISCOMs under long term PPAs are paid for all the power sold. Any Distribution Company not fulfilling the requirements will be barred from all power procurement, including from short term power markets. This will go a long way in improving the liquidity position of power generators and reduce stress in the system. Ministry of Power has also proposed rationalization of consumer tariffs and elimination of cross subsidy surcharges, which would further boost industrial demand for power in the times to come. The Ministry should now ensure that state regulators take actual implementable steps for rationalising tariffs and reducing the ACS-ARR gap.

The power supply position of the country continues to improve with each passing year. During the 12<sup>th</sup> five year plan, electricity generation grew at a compounded growth of 5.74%. Peak power demand recorded was 164 GW, of which 160 GW was met. Per-

## Chairman's Message (contd.)

capita consumption of electricity has increased to 1,122 units and is expected to increase further as the government focus on manufacturing initiatives during the years will start paying-off. This increasing demand for power can only be satisfied by ensuring that the country keeps on adding new generation capacity, much of which is likely to come from the private sector. Although, the current focus of government policies is tilted towards renewable energy sources and reducing the carbon footprint of the country, more than 65% of power requirement is still met from thermal power plants. Thermal power plants are the base load plants and will continue to play an important role in the future too. This has also been ratified by Niti Aayog, which estimates 45% to 50% of the total power requirement will be met from conventional sources even in 2047.

India's energy sector has witnessed rapid growth, thanks to policy interventions, reforms and investments. Various policy initiatives taken in the past, like 100% electrification and electricity for all, will continue to be the key drivers contributing to the future increase in electricity demand in India. Demand for electricity is expected to grow further with the Government's commitment to move India to an ecosystem of electric vehicles. With no new investments being planned in the thermal generation sector, and without any base load capacity addition in sight, our Nashik power plant is extremely well positioned to cater to this projected demand. We would also try to enhance profitability from selling our untied capacity from the plant in the short term open market at comparatively higher tariffs.

The future of the power sector looks very optimistic and we remain fully committed in doing our part. Various Government initiatives for improving the domestic coal availability to the power plants should lead to the reduction in overall cost of power generation and also enhance availability and generation capability. These initiatives, along with other initiatives like the revised tariff policy and the proposed amendments to the Electricity Act will improve the financial health of the Discoms, thereby creating a conducive environment.

RattanIndia Power Limited is one of the top 10 power generation companies with 2,700 MW of commissioned capacities (1,350 MW at Amravati and 1,350 MW at Nashik). Amravati Plant is supplying power to Maharashtra State Electricity Distribution Company Limited (MSEDCL) through a long term PPA and Sinnar Thermal Power Limited (STPL) has received a Letter of Intent from MSEDCL for the supply of 507 MW power on long term basis (25 years). The two plants are among the very few in the country today, which have all clearances in place, including adequate water and coal linkages.

Due to the financial stress faced by both Amravati Thermal Power Projects (Amravati TPP) and Sinnar Thermal Power Projects (hereinafter known as Sinnar or Nashik Thermal Power Project) (Sinnar TPP), the respective Project Lenders are in process of forming a suitable Resolution Plan for both the projects. Your company is leaving no stone unturned to deal with the existing structural challenges and is working diligently in addressing the same, with an aim of optimising the returns for our shareholders. The Company is focused on continuous improvement in plant efficiency and availability and has the requisite expertise to ensure that we have some of the most efficient power plants in the country.

Lastly I take this opportunity to warmly thank all our Shareholders, Customers, Vendors, Employees, Bankers, Financial Institutions and partner for reposing their faith in us and motivating us to excel across all facets of our business. I would like to end by reiterating our commitment to excellence in everything we do.

Thank you

Sd/-Rajiv Rattan Chairman

## **Management Discussion and Analysis**

### **ECONOMIC SCENARIO**

In the backdrop of global headwinds, economic growth in India is still expected to remain robust over the next couple of years. Post demonstrating strong economic growth of 3.5% in the year 2017 and 3.6% in 2018; global economic activity slowed down in the second half of 2018. The decline in growth is attributed to the trade tensions / sanctions, political uncertainty (likes of Brexit) and overall softening of demand. According to the International Monetary Fund (IMF), global growth is set to moderate over the near term: 3.3% for 2019, down from 3.6% in 2018. Growth for 2020 is expected to move back upto 3.6%. As per IMF projections, India is an outlier and is expected to grow at 7.3% in 2019 - the fastest growing economy in the world. India is powering ahead as the key economic growth engine in Asia, even as the largest Asian economy (China) is showing signs of slowdown. According to a Boston Consulting Group (BCG) report, India is expected to become the third largest consumer economy, with consumption exected to triple to US\$ 4 trillion by 2025. Further, it is also estimated to become the second largest economy in terms of Purchasing Power Parity (PPP) by the year 2040, according to a report by PwC. However, rising crude oil prices and an increase in Non-Performing Assets in the banking system pose a considerable downside risk for the economy, along with tightening liquidity, if not addressed effectively on time. In the backdrop of a strong and stable political outlook for India, it is expected that sectorial reforms will gain pace and drive growth over the coming years.

Sustainable development of a country can only be achieved through a robust and efficient infrastructure sector that garners appropriate investment. Infrastructure projects are capital intensive with long gestation periods and rely on long term financial assistance from the banking system. Hence, a stable and enabling banking system is essential for achieving long term sustainable development of the country. Several infrastructure projects are currently under stress and categorized as NPA's – this is more acute in the power sector.

The Ministry of Coal through Coal India Limited, controls the concessional coal supplied to the IPPs, Ministry of Railways controls the rakes allocated to IPPs and the Discoms are mostly under the control of State Governments. Here, the Supplier of raw material (coal), Services (transportation) and Procurer of electricity are directly under control of either Central Government or State Government. The Government of India has already recognized the issues being faced by the power sector and has already set in motion many positive reforms initiatives for addressing the same.

### SECTOR AND POLICY OVERVIEW

Electricity is an essential constituent of infrastructure and a key contributor to economic growth of the Country. As per the advance estimates of National Income for the Financial Year 2018-19 released by the Govt of India, the Power sector contributed approximately 2.6% to the GDP. Total installed capacity of the country as on 31 March, 2019 was 356 GW, of which 226 GW is thermal, 78 GW is renewable, 45 GW hydel, and the rest nuclear. As per the National Electricity Plan presented by the Central Electricity Authority, the national electrical energy requirement is expected to be 2,047 Gigawatthours, with a peak demand of 299 GW by the year 2026-27.

A majority of the coal supplied to the Independent Power Producers (IPPs) is under the control of Coal India Limited (CIL), a Government of India Company. Between April-2018 and March 2019, CIL supplied 488 million tonnes of coal to the power utilities as compared to 454 tonnes during the corresponding period last year. Although, this represents an increase of 7.5% in coal dispatches, the power plants continued to suffer coal shortages during the peak electricity demand periods.

The Reserve Bank of India on 12<sup>th</sup> February 2018 issued a "Resolution of Stressed Assets – Revised Framework" Circular that established the procedure to be followed by Banks and Financial Institutions for resolution of NPAs, including classification of default for one day's delay, requirement of 100% lender approval and mandatory reference to NCLT upon expiry of 180 days. Inspite of all our best efforts to mitigate risk, your Company underwent financial stress prima facie due to sectorial issues, which were beyond its control. Based on a quick assessment of the potential risks to the Company based on the Circular, your management proactively filed writ petitions before Hon'ble Supreme Court and Hon'ble Allahabad High Court. The Hon'ble Supreme Court of India, while hearing on one such matter, ordered the transfer of all such pending cases before various courts to the Supreme Court. Post hearing all the parties, the Supreme Court on 2<sup>nd</sup> April 2019, struck down the RBI Circular. Subsequently, the RBI published a revised circular on 7<sup>th</sup> June 2019. The broad contours of this new circular includes early recognition of any stress, complete discretion of lenders to decide on the Resolution Plan, signing of binding Inter-Creditor Agreement to finalize and implement the Resolution Plan, etc. Referening the case to the IBC (Insolvency and Bankruptcy Code) was left to the discretion of the lenders.

To better understand the root cause/reasons for stress in the power sector, the Government of India constituted a High Level Empowered Committee (HLEC) in July-2018, headed by the Cabinet Secretary, with representation from various ministries (Railways, Coal, Power, Petroleum & Natural Gas), departments (Economic Affairs, Financial Services), and leading financial institutions of the country (SBI, PNB, PFC, REC & ICICI) to address issues related to Stressed Thermal Power Projects. The HLEC submitted its

report on 12-November-2018. The Committee, in its report, highlighted a few key reasons leading to stress in the sector, including: a) inability of Coal India Limited to supply in full the committed coal quantity to power plants; b) slow down in demand for electricity, delayed payments to generators from the Discoms and c) delay in adjudicating disputes by the regulatory commissions/tribunal.

Some of the key recommendation of HLEC for reducing the stress in the power sector relate to increasing the quantity of coal allocation for special forward auction for the power sector, discounting of receivables from DISCOMs by Public Financial Institutions such as PFC and REC, grant of coal linkage at notified coal prices to the IPPs having PPAs entered through competitive bidding, grant of coal linkage to power plants for sale of power under short term PPAs, etc. Cabinet Committee on Economic Affairs on 7-March 2019 approved most of the recommendations made by HLEC. With implementation of these recommendations, many of the issues affecting the Thermal Power Sector are likely to get resolved.

Further, Ministry of Power with effect from 1-August 2019 has made it mandatory for all Distribution Companies to provide and maintain Letters of Credit against all PPA's (Power Purchase Agreements) with Independent Power Producers (IPPs'). This is a welcome move that will ensure that IPPs selling power to DISCOMs under long term PPAs are paid for all the power sold. Any Distribution Company not fulfilling the requirements will be barred from any power procurement from short term power markets. This will go a long way in improving the liquidity position of power generators and reduce stress in the system.

### **DEMAND - SUPPLY POSITION**

The gross energy generation target for 2019-20 is 1,330 BU. During the 12th five year plan, electricity generation grew at a compounded growth of 5.74%, with per-capita consumption of electricity increasing to 1,122 units. Per-capita consumption is expected to increase further with new government initiatives to increase power demand. The planned capacity expansion targets, along with the reduction in transmission and distribution losses, will further reduce the supply demand gap in the future. Peak power demand recorded was 164 GW and peak power demand met was 160 GW.

All India generation during FY 2018-19 was 1,376 BU, out of which only 126.76 BU (i.e., approx. 9.21% of total generation) was from renewable sources. Now, even if an additional 100 GW of new renewable capacity is added to the system over the next 5 years, the generation from renewables is expected to increase to approx. 300 BU against the expected all India generation of approx. 1,650 BU. This means that, even after 5 years from now, the generation from renewables shall only be ~18% of total generation. However, if the addition from renewables is only 50GW then the corresponding share of Renewables shall be 200 BUs (~12% share). Even NitiAayog's report on Energising India estimates that coal will continue to be the major contributor, contributing at as much as 50% of the total mix by 2047. Accordingly, it can be reasonably concluded that in India, coal fired power plants will continue to serve as the primary source providing electricity to more than a billion people in the Country.

### **RISKS AND CONCERNS**

The Power Sector directly or indirectly impacts almost all the sectors contributing to the growth of the nation. Setting up of a power project requires huge capital investments and take years of concentrated efforts for successful completion and commissiong. Hence, any slowdown in the power sector has a domino effect on overall economic growth. Critical issues impacting the performance of the sector are mentioned below:

### Fuel

Fuel forms approximately 55% - 60% of the total electricity cost. Hence, availability of coal of appropriate quality at a reasonable price is one of the key components for long term success of this sector. Supply of domestic coal has improved over the past couple of years. Coal India accounts for 80% of total domestic coal production in the country. The government is targeting coal production of 1.5 billion tonnes by 2030. Better coal availability will result in improved PAF of power plants. However, issues related to quality of coal still need to be addressed effectively. Allowing commercial mining of coal in the country would further improve coal availability for the thermal power plants . Further, regulatory issues pertaining to pass-through of coal prices has to be addressed in a expeditious manner to enhance cost recovery of power producers.

### Inadequate transmission network

Large parts of India continue to remain power deficit despite huge capacity additions over the last several years. One of the major reasons for this situation is inadequate transmission capacity that limits flow of electricity to power deficit areas. Power evacuation remains a bottleneck in the power supply chain of the country resulting in frequent back downs of plants as requested by State/Regional Load Dispatch Center leading to under utilization of the generation capacity.

With the industry moving towards enhanced competition, and in an era of open access, demand for power is expected to increase, putting additional stress on the already stretched transmission network across the country. If India's transmission capacity is not augmented in a timely manner, this problem is expected to further aggravate.

According to the CEA, during the year 2018-19, 22,437 circuit-km of transmission lines were added against planned 22,647 circuit-km lines, while enhancing the transformation capacity by an additional 72,705 MVA, against a plan of 62,600 MVA to the nation's transmission grid. With the commissioning of these new transmission lines, congestion in transmission of electricity within inter-state and intra-state grids will reduce.

### Financial health of state Discoms

Poor financial health of discoms is one of the major risks faced by power producers. To bail out debt-laden distribution utilities, the Power Ministry implemented the Ujwal DISCOM Assurance Yojana (UDAY). A total of 27 states and 5 UTs have adopted UDAY scheme till date. UDAY states have reduced book losses to ₹ 15,049 crore in FY 2017-2018 from ₹ 51,480 Cr in FY 2015-2016. This is likely to improve the financial health of discoms that would further help in reducing the stress of generation projects. The primary reason for poor financial health is huge AT&C losses, operational inefficiencies and populist schemes.

### **Distribution Reforms**

The Distribution Sector plays a crucial role in the overall functioning of the Power Sector as it provides final connectivity of power to consumers and generates the cash flow for the entire value chain. The Government is putting significant effort to improve the financial health of utilities so as to enable them to provide reliable and quality power supply and universal access to power. Government has done a remarkable job in reducing the time taken by any person to obtain a new electricity connection, improving the connectivity of villages with the state grids under the scheme for electrification of all villages, etc. We hope that the steps taken by government will help in ameliorating the current situation. In this regard, impending segregation of content from carriage will be a game changer for the Indian power distribution sector.

### **BUSINESS REVIEW**

Your company has a well formulated strategy to tackle the challenges that the sector is facing currently. Both the plants of the Company have all key resources in place - viz., land, fuel linkage, water, financing arrangements, etc.

With 2,700 MW commissioned capacity, the Company is amongst the top 10 Private Power Producers in the country. Amravati Thermal Power Plant (Amravati TPP) has a long term arrangement for supply of 1,200 MW to the Maharashtra State Electricity Distribution Company Ltd (MSEDCL) and all the five units of Amravati TPP are available for supplying power. Sinnar Thermal Power Plant (Sinnar TPP) was commissioned in June-2017. Sinnar TPP has received a Letter of Intent from MSEDCL for the supply of 507 MW power under a long term PPA for a period of 25 years from this plant. As on the date of issuance of notice to the memebrs for Annual General Meeting, the Company was in the process of arranging the necessary Bank Guarantee for signing of PPA and operationalization of the power project.

The Company continued to operate at sub-optimal levels due to lower demand of electricity form MSEDCL. Pursuant to this sub-optimal operation of plant, Company has been under financial stress. With an aim to resolve the severe financial stress, the Promoters along with the Company offered Binding One Time Settlement Proposal to the Lenders on 6-Dec-2018 (Binding Settlement Proposal). Company also received the letter of intent from Lenders with respect to the Binding Settlement Proposal. Subsequently, the Company submitted a revised Settlement Proposal to the lenders which is currently under discussion between Lenders, Investors and the Company. It is expected that such discussion will be concluded soon.

### **COMPETITIVE STRENGTHS**

Your company has the following competitive strengths amongst other which will enable it to achieve a strong position in the Power Sector:

### Statutory and Non-statutory Clearances

Your company has obtained all required clearances, necessary for the sucessfull operations of the Amravati Thermal Power Project and Sinnar Thermal Power Project.

For the Amravati Thermal Power Project, the Company has leased 1,350 acres of land from Maharashtra Industrial Development Corporation (MIDC), signed a Fuel Supply Agreement for 5.493 MTPA coal with South Eastern Coalfields Limited, obtained 87.6 million cubic meter water allocation from upper Wardha dam from Vidharbha Irrigation Development Corporation and has secured the consent to operate from Maharashtra State Pollution Control Board.

For Sinnar Thermal Power Project, Sinnar Thermal Power Limited has leased 1,069.35 acres of land in Nasik SEZ developed by Indiabulls Industrial Infrastructure Ltd, has coal allocation for total 5.226 MTPA coal from South Eastern Coalfields Limited & Mahanadi Coalfields Limited and 36.5 million cubic meter water allocation from Water Resource Department, Nasik.

### Financial Closure

Amravati and Nasik power projects have achieved financial closure.

### **Power Purchase Agreement**

Amravati thermal power project has a 1,200 MW PPA with MSEDCL. Further, the Company has received a letter of Intent from MSEDCL for signing of PPA for supplying 507 MW from Nasik thermal power project for 25 years.

### **Fuel Security**

Your Company has Fuel Supply Agreements (FSA) with Coal Companies, supplying coal at prices notified by Ministry of Coal. This puts your Company in a very strong competitive position as compared to the present mechanism wherein coal linkages are granted through e-auction process where bidders either offer premium over notified prices of coal or offer discount on the tariff for supply of power under PPA.

### **Execution Team**

One of the key strengths of your company is the team of experts who have vast experience of constructing, commissioning and operating large power projects. Senior management of the Company comprises of people from Navratna Companies such as like NTPC, BHEL to name a few and who have vast experiences in the implementation and operation of thermal power projects. This team is capable of addressing the challenges currently being faced by thermal power projects in the country.

### **STRATEGY**

The key elements of the Company's strategy include:

### Capitalizing on the opportunities in Indian power generation sector

Your Company has planned significant long term initiatives to capitalize on the huge potential presented by the Indian power sector. With a growing economy, there will be an increase in electricity demand and therefore, significant investment will be required across generation, transmission and distribution assets to fulfill this demand and fulfill Government of India's ambitious target of providing 'Power for All'. We have the expertise, ability to raise capital and execute large scale power projects to reap the benefits of growth in the sector.

### Leveraging of project execution and operating skills

Your Company has developed good project planning and project execution capabilities and keeping in mind the complexity of power projects, we have hired project managers with the ability and skill sets to drive projects to successful completion and commissioning. Your Company has a robust workforce with good project execution and plant operating skills that will enable the Company to build world class power plants with a focus on operational efficiency.

### Ensuring fuel security

Your Company has adequate coal linkages/FSA with Coal India Limited to ensure a steady supply of coal to fire the power plants. Further, any shortfall in coal supply will be met through the use of imported coal in line with prevailing procurement guidelines and the PPAs.

### Engaging in an optimal mix of off-take arrangements with state-owned and industrial consumers

Your Company intends to maintain an appropriate mix of off-take arrangements. Your Company believes that secured off-take arrangements will provide a level of committed revenues whilst short-term arrangements will enable the Company to realize higher tariffs from time to time, depending upon market conditions. The Company intends to utilize its marketing and trading capacities and capabilities to secure off-take arrangements with state-run utility companies and industrial consumers, as well as carry out merchant sales of power at market rates. The Company intends to enter into bilateral contracts on a term-ahead basis with industrial consumers and Discoms through open access. Government of India has created the DEEP portal through MSTC for conducting bid process for short term purchase of power by Discoms. Your Company is also exploring opportunities for short term sale through this portal.

### Operating power plant at the highest availability:

It is vital that a power station has a high plant availability factor (PAF), which is a necessary pre-condition to achieving a higher Plant Load Factor (PLF). Unplanned outages can result in loss of revenue. Your Company has in place a team of very experienced and skilled O&M experts to run its power plants smoothly with the highest possible availability.

### **HUMAN RESOURCES**

Your Company's human resource policy provides an environment that motivates its employees to realize their full potential. Your Company respects each employee, motivates them and tries to offer opportunities based on their skill-sets, and in this process builds mutually benefiting relations between the Company and its employees. Your Company has put in place a policy that not only increases productivity but also increases job satisfaction of its employees.

Your company has established systems, which aim to provide training to employees at every level of the organization that leads to quality work output in turn helping in improving the bottom-line of your company.

In addition to this, proper remuneration, regular appraisal and development opportunities provided to the employees have enabled your Company to achieve its goal in a highly competitive market. Your Company believes that its employees are most productive when they have a good work-life balance to enable them to meet their responsibilities outside work and minimizes employee turnover.

### CORPORATE SOCIAL RESPONSIBILITY

Corporate Social Responsibility Policy (CSR Policy) was framed in the year 2014 and a Corporate Social Responsibility Committee comprising members from the Board of Directors of the Company was formed. The committee is entrusted with the responsibility of effectuating and operationalizing the CSR Policy of the Company.

### INTERNAL CONTROL SYSTEMS

The Company has a system of internal controls commensurate with the nature and size of its operations, which effectively and adequately encompasses every facet of its operations and functional areas.

The system involves a compliance management team with established policies, norms and practices as also the applicable statutes and rules and regulations with an inbuilt system of checks and balances, so that appropriate and immediate corrective actions are initiated in right earnest in the event of any deviations from the stipulated standards and parameters.

The effectiveness and deliverability of the internal control system is reviewed periodically so that measures, if any, needed for strengthening of the same, with the changing business needs of the Company, can be taken.

### **BUSINESS REVIEW**

Your company has a well formulated strategy to tackle the challenges that the sector is facing currently. Both the plants of the Company have all key resources in place - viz., land, fuel linkage, water, financing arrangements, etc.

With 2,700 MW commissioned capacity, the Company is amongst the top 10 Private Power Producers in the Country. Amravati Thermal Power Plant (Amravati TPP) has a long term arrangement for supply of 1,200 MW to the Maharashtra State Electricity Distribution Company Ltd (MSEDCL) and all the five units of Amravati TPP are available for supplying power. Sinnar Thermal Power Plant (Sinnar TPP) was commissioned in June-2017. Sinnar TPP has received a Letter of Intent from MSEDCL for the supply of 507 MW power under a long term PPA for a period of 25 years from this plant. As on the date of issuance of notice to the memebrs for Annual General Meeting, the Company was in the process of arranging the necessary Bank Guarantee for signing of PPA and operationalization of the power project.

The Company continued to operate at sub-optimal levels due to lower demand of electricity form MSEDCL. Pursuant to this suboptimal operation of plant, Company has been under financial stress. With an aim to resolve the severe financial stress, the Promoters along with the Company offered Binding One Time Settlement Proposal to the Lenders on 6-Dec-2018 (Binding Settlement Proposal). Company also received the letter of intent from Lenders with respect to the Binding Settlement Proposal.

Subsequently, the Company submitted a revised Settlement Proposal to the lenders which is currently under discussion between Lenders, Investors and the Company. It is expected that such discussion will be concluded soon.

### **CHANGE IN NATURE OF BUSINESS**

During FY 2018-19, there was no change in the nature of Company's. business.

### DIRECTORS/ KEY MANAGERIAL PERSONNEL (KMP) DETAILS

Mr. Rajiv Rattan, Director (DIN:00010849) retires by rotation at the ensuing annual general meeting and being eligible for reappointment, offers himself for the same.

Of all the Independent Directors on the Board of the Company, the term of Mr. Narayanasany Jeevagan, Mr. Sanjiv Chhikara, Mr. Sharad Behal, and Mr. Debashis Gupta expires on the day of the ensuing Annual General Meeting.

Mr. Debashis Gupta has communicated to the Company his inability to offer himself for the second term, due to prior commitments.

As regards the other Independent Directors given their valuable contributions to the Company from time to time during their current tenure, which helped the Company maintain a steady and stable course, when the entire power sector has been facing turbulent times, your directors feel that it is imperative that the said Independent Directors be reappointed for a second consecutive term of five years commencing from the date of this AGM till the 17th annual general meeting of the Company.

The Nomination and Remuneration Committee has evaluated the performance of each individual Director seeking reappointment/ appointment in the ensuing Annual General Meeting including fulfillment of their independence criteria prescribed under SEBI listing regulations. The Nomination and Remuneration Committee has placed a report on performance evaluation of Independent Director, before the Board of Directors' of the Company, for review.

Necessary resolutions are being proposed to the re-appointment of Mr. Narayansany Jeevagan, Mr. Sharad Behal and Mr. Sanjiv Chhikara as Independent Directors at the ensuing Annual General Meeting.

During the financial year 2018-19, the members of the Company in 11th Annual General Meeting held on September 28, 2018 had approved the appointment of Mr. Yashish Dahiya (DIN: 00706336), as an Independent Director of the Company, for a period of five years w.e.f. September 28, 2018.

It would be pertinent to mention here that the Independent Directors have already submitted with the Company (i) their consents to act as directors if so appointed (ii) declarations in terms Section 149(7) of the Companies Act, 2013 to the effect that they fulfill the criteria for independence as laid down under Section 149 and shall continue to fulfill the said criteria if re-appointed as Independent Directors for a second consecutive term of five years.

Post the closure of the financial year March 31, 2019, the following changes took place in the Key Managerial Personnel of the Company:

- (a) Mr. Sameer Hasmukhlal Darji was appointed as the Chief Financial Officer of the Company, w.e.f April 15, 2019 filling the vacancy caused by the resignation of Mr. Samir Taneja, who had resigned as CFO of the Company effective October 16, 2018.
- (b) Mr. Gaurav Toshkhani, Company Secretary and Key Managerial Personnel of the Company resigned from his position as such on May 20, 2019 was replaced by Mr. Lalit Narayan Mathpati, from the same date.
- (c) Mr. Aman Singh was appointed as Chief Executive Officer and Mr. Jayant Kawale (DIN:00076038) the Managing Director of the Company resigned from the office of Director and Managing Director of the Company, with effect from May 20, 2019.

### COMPANY'S POLICY ON APPOINTMENT AND REMUNERATION OF DIRECTORS

The Company's Nomination and Remuneration Policy for Directors and Key and Senior Managerial Personnel can be accessed on the Company's website at the web-link http://www.rattanindia.com/rpl/policies.

The basic tenets of the Policy seek to ensure that with the applicable legal and regulatory requirements and the corporate governance norms as the premises, the persons sought to be inducted on the Board of the Company as Directors and into the Company as Key or Senior Management Personnel, are so chosen that commensurate with the nature, size and intricacies of its business and operations, those chosen for such offices are people with the best of knowledge and talent and rich in experience.

In remunerating the Directors (in the case of executive directors), Key and Senior Management Personnel, meticulous planning and hard work goes into drawing up the remuneration packages which while ensuring adequate compensation to the persons chosen, in line with the market standards and prevailing economic scenario, does not lead to any unfairness or imbalances in the overall remuneration structure of the Company across different hierarchical levels.

### **EVALUATION OF PERFORMANCE OF THE BOARD, ITS COMMITTEES AND INDIVIDUAL DIRECTORS**

The corporate philosophy and work culture of the Company, have dictated the need for proper periodic evaluation of the performance at every level and in every of organizational functioning and operations and the Board of Directors of the Company is no exception to this.

Thus for the Company, the evaluation of the performance of the Board of Directors as a whole, the various committees thereof and of the Chairperson of the Board and the individual directors is something which emanates from the very philosophy and culture of the Company rather than being a mere mandatory requirement in terms of Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended upto date.

An annual evaluation of performance of the Board, the various Board Committees and the individual directors, involved the following:

- (a) at the outset, a review of the laid down performance standards in the light of changes in the applicable legal/ regulatory requirements, the prevailing socio-economic scenario and the business circumstances of the Company and making all the directors aware of the same as being the basic premises against which their performance, individually and as a part of the Board of Directors as a whole or various committees thereof, collectively.
- (b) at periodic intervals, circulation of questionnaires and query sheets among the directors, requiring them to describe their performance against the relevant questions/queries, against the back drop of opportunities available to them and the bottlenecks faced by them, mentioning in detail the efforts undertaken by them, to accomplish the goals set for them.
  - The responses received from the Directors were thoroughly evaluated.
- (c) Additionally the extent and level of participation of various Directors in the various Board and Committee meetings was also used as a measure of evaluation of performance.
  - It would be pertinent to mention here that performance evaluation of the Non-Independent Directors and of the Chairperson of the Board was carried out by Independent Directors who also assessed the quantity, quality and timeliness of flow of information between the Company management and Board.
  - The Nomination and Remuneration Committee has evaluated the performance of each individual Director seeking reappointment/appointment in the ensuing Annual General Meeting including fulfillment of their independence criteria prescribed under SEBI listing regulations. The Nomination and Remuneration Committee has placed a report on performance evaluation of Independent Director, before the Board of Directors' of the Company, for review.

### **DECLARATIONS FROM INDEPENDENT DIRECTORS**

The Company has received declarations from all the Independent Directors of the Company confirming that they meet the criteria of independence as prescribed both under Section 149(6) of the Companies Act, 2013 read with schedule IV thereof and the Regulation 16(1)(b) SEBI (LODR) Regulations, 2015.

### MEETINGS OF THE BOARD OF DIRECTORS

During the year under review 7 (Seven) meetings of the Board of Directors of the Company were held. The details as to the dates of such meetings and the attendance of various directors of the Company thereat, have been provided in the Corporate Governance Report.

Additionally a meeting of the Independent directors of the Company was held on March 16, 2019.

### CORPORATE SOCIAL RESPONSIBILITY

The Company has always been conscious of the fact that no corporate entity can exist or survive in isolation and that since the society around it has an enormous role in its success and growth, it is imperative for the entity to reciprocate in appropriate measure, which in turn entails the discharge by the entity, of its corporate social responsibility.

The discharge of corporate social responsibility besides being mandated under Section 135 of the Companies Act, 2013 for companies with certain quantum of networth, turnover and profitability, has always been an area close to the heart of the Company which is why the Company has in place a very well defined Corporate Social Responsibility Policy ("CSR Policy"), drawn up by the Corporate Social Responsibility Committee ("CSR Committee") constituted by its Board of Directors which has duly approved the policy framed and recommended by the CSR Committee.

The Corporate Social Responsibility Committee (CSR Committee) of the Company consists of three directors namely Mr. Sanjiv Chhikara and Mr. Debashis Gupta, Independent Directors and Ms. Namita a non-independent director. Mr. Sanjiv Chhikara is the

Chairman of the Committee and has the primary responsibility of implementing and monitoring the CSR Policy of the Company under the control and supervision of the Board of Directors.

It would be pertinent to mention here that the terms of Mr. Debashis Gupta and Mr. Sanjiv Chhikara, the Independent Directors forming a part of the CSR Committee, expire on the day of the ensuing Annual General Meeting (AGM). However, Mr. Gupta has conveyed to the company, his inability to continue as a Director of the Company post the expiry of his term, the other Independent Director Mr. Sanjiv Chhikara, has expressed his desire to be re-appointment as such, for second consecutive term of five years expiring on the day of this AGM to which effect necessary resolution is set out in the Notice convening the ensuing AGM. In view of the above, the CSR activities Committee of the Board of Director shall have to be reconstituted post the forthcoming AGM.

The CSR Policy of the Company has been uploaded on the website of the Company and is available at the link: http://www.rattanindia.com/rpl/policies.

The Annual report on CSR Activities forms a part of the Directors Report and is annexed hereto as Annexure A.

### INTERNAL FINANCIAL CONTROLS AND THEIR ADEQUACY

Your Company attaches utmost importance to the internal control systems in force in the Company, always striving to ensure that all facets of Company's functioning and operations are adequately and efficiently scrutinized and regulated by the control systems in force, such systems in turn, being subject to regular periodic reviews to gauge their efficacy and usefulness. This is more so in the case of internal financial controls.

The Internal control systems and in particular the internal financial controls aim to ensure that the standards of performance in terms of efficiency, quality and ethics are adhered and the provisions of the applicable laws are complied with under all circumstances, with deviations if any being identified without any loss of time and the necessary rectifications being instantly initiated

Towards this end the Company has a very robust internal audit framework commensurate with and aligned to the nature and size of the business of the Company which is approved, implemented and reviewed by the Audit Committee, aided by the highly efficient internal control department, IT systems and risk management framework, all of which seek to ensure that there is absolute and truthfulness in the recording and reporting of all the financial or other information and no transactions are undertaken without proper authority and adherence to the laid down norms and rules.

### RISK MANAGEMENT

Risks pertinent to and associated with the thermal power generation industry are peculiar in nature as distinguished from the risks associated with the industrial sector in the country in general, emanating from the problems which the thermal power generation sector has been facing over the last few years due to factor such as bottlenecks in the receipt of coal supplies, low power off take and the resultant low plant factors, poor health of power distribution companies which constitute the buyers for

power generation companies and many other related factors all of which lead to lower or negative revenue streams and cash crunch, in turn impacting the debt service obligations of the power generators.

This coupled with the general slump in the industrial sector of the country in general, are the considerations based on which a carefully considered and well thought out risk management policy in the Company has been drawn up, seeking to provide for way outs, which would allow the Company to tide over the crisis successfully while at the same time concentrating on alternative recourses available to ensure continuity in power production and release of the withheld revenues

Towards the effectuation of the Risk Management Policy, an internal team has been created which evaluates the risks which have arisen or could be reasonable anticipated to arise in future and suggesting the measures to be taken for mitigating their impact, within the framework of the risk management policy of the Company..

It would be pertinent to mention here that the terms of Mr. Narayanasany Jeevagan, Mr. Sanjiv Chhikara and Mr. Debashis Gupta, the Independent Directors forming a part of the Audit Committee, expire on the day of the ensuing Annual General Meeting (AGM). With the exception of Mr. Debashis Gupta who has conveyed to the Company, his inability to continue as a Director of the Company post the expiry of his term, the other Independent Directors as aforementioned, have expressed their desire to be reappointed as such for a second consecutive term of five years expiring on the day of this annual general meeting to which effect the necessary resolutions shall be set out in the notice convening the ensuing Annual General Meeting. In consequence of the above, the Audit Committee of the Board of Directors shall have to be reconstituted post the forthcoming AGM.

### **COST AUDITORS**

The Board has appointed the M/s Nisha Vats & Co., Cost Accountants, as cost auditors for conducting the audit of cost records as required under Section 148(1) of the Companies Act, 2013, to be made and maintained, of the Company for the financial year 2018-19

### SECRETARIAL AUDITOR & SECRETARIAL AUDIT REPORT

Pursuant to the provisions of Section 204 of Company Act, 2013 read with the rules made thereunder, the Board had appointed M/s S. Khandelwal & Co, Practicing Company Secretaries, to conduct Secretarial Audit of the Company for the financial year 2018-19. SEBI vide its circular CIR/CFD/CMD1/27/2019 dated February 8, 2019, made it compulsory for listed entity and its Unlisted Indian Material Subsidiary Companies to conduct secretarial audit. The Secretarial Audit Report of the Company and its Unlisted Indian Material Subsidiary namely Sinnar Thermal Power Limited for the financial year ended March 31, 2019, is annexed as Annexures - E & F, to this Report. The Secretarial Audit Report does not contain any reservation, qualification or adverse remark.

The Report is self – explanatory and therefore do not call for any further explanation.

### SECRETARIAL STANDARDS

The Company has complied with all applicable Secretarial Standards as stipulated and notified by the Institute of Company Secretaries of India.

### DIRECTORS' RESPONSIBILITY STATEMENT

As required under Section 134 of the Companies Act, 2013, your Directors confirm that:

- 1. in the preparation of the annual financial statements, the applicable accounting standards have been followed and that there are no material departures from the same;
- the Directors had selected such accounting policies and applied them consistently and made judgments and estimates that
  are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as at 31<sup>st</sup> March, 2019
  and the losses of the Company for the year ended on that date;
- the Directors had taken proper and sufficient care for maintaining of adequate accounting records in accordance with the
  provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud
  and other irregularities;
- 4. the Directors had prepared the Annual Financial Statement of the Company on a 'going concern' basis;
- 5. the Directors had laid down internal financial controls to be followed by the Company and such internal financial controls are adequate and were operating effectively; and
- 6. the Directors had devised proper systems to ensure compliance with the provisions of all applicable laws and such systems are adequate and operating effectively.

### PREVENTION, PROHIBITION AND REDRESSAL OF SEXUAL HARASSMENT AT WORKPLACE

The Company since inception, has been following a policy of zero tolerance against sexual harassment of women and in order to ensure this in all it strictness, has in place an Internal Complaints Committee, the constitution whereof, is in complete compliance with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

The anti-sexual harassment of women policy, in force in the Company has very effectively promoted and propagated an environment and culture in the Company which inculcates in the male employees, a spirit of utmost respect for the women workforce at every level. Towards this end training and awareness sessions for employees are held at regular intervals.

Equally important is the fact that the Policy has enough built in safeguards to make sure that no instances of sexual harassment take place in the Company. Towards this end a set of standing orders and rules have been laid down, which stipulate very harsh punitive measures against any employee found guilty of having or attempting to have sexually harassed a female employee, which without prejudice to the other actions taken against the offender, include immediate termination of his services.

The fact that safety and security of the women workforce in the Company has been an area given the paramount importance in the Company explains why the Company can proudly boast or being among the safest work places for women in the Country.

As has been the case in the previous years, during the year under review as well, no complaints under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, were received during the year under review.

ANNEXURE FORMING PART OF THE DIRECTORS' REPORT PURSUANT TO SECTION 134(3)(m) OF THE COMPANIES ACT 2013, READ WITH COMPANIES (ACCOUNT) RULES, 2014 IN RESPECT OF CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

### A. ENERGY CONSERVATION AND TECHNOLOGY ABSORPTION

RattanIndia has optimized the Plant water requirement and saved around 25 % by adopting High Cycle of Concentration for Circulating Water ( $CoC \sim 7$ ), deploying efficient Actiflo & Rapid Gravity Sand Filters in place of conventional Clarifiers and disposal of Bottom Ash mixed with Fly Ash through High Slurry Disposal (HCSD) system. These measures have resulted in corresponding savings in the Pumping power also.

Both Amravati & Nasik Plants are effectively Zero Liquid Discharge Plants; the Plant Effluents are treated & used for Coal Dust suppression, Ash Handling Plant operation and Gardening /Horticulture. The Effluent water is fully utilized within Plant and no water is released outside Plant boundary.

The conventional Air Pre-heater baskets are being replaced with modified design baskets resulting in improved Flue Gas heat transfer & prolonged equipment life.

For further Energy Efficiency improvement, Variable Frequency Drives (VFDs) are being considered for Induced Draft (ID) Fans, Condensate Extraction Pumps (CEPs) and Raw Water Intake Pumps.

- (2) review the performance of the chairperson of the Company taking into account the views of executive directors and non-executive directors and
- (3) assess the quality, quantity and timeliness of flow of information between the management of the Company and its Board of Directors that is necessary for the Board to effectively and reasonably perform its duties.

It would be pertinent to mention here that besides a formal meeting of independent directors, interactions between the Chairman and the Independent Directors of the Company take place on a regular basis.

### (C) Code of Conduct

#### (i) Code of Conduct and ethics

The Company has laid down a Code of Conduct for all Board members and Senior Management Personnel of the Company. The Code of Conduct is available on the website of the Company http://www.rattanindia.com/rpl/policies.

All Board members and Senior Management Personnel have affirmed compliance with the Code of Conduct for the Financial Year 2018-19. A declaration signed by the Mr. Rajiv Rattan, Chairman, to this effect, appears at the end of this Report.

The code of conduct has very effectively served the purpose of ensuring that the Directors and the Senior Management Personnel give their focused and undivided time and attention to the affairs of the Company, with a complete adherence to the provisions of the applicable statutes in essence and intent, as also the organizational values and ethics, at the same time.

### (ii) Code of Conduct for Prevention of Insider Trading

The Company has laid down a Code of Conduct for Prevention of Insider Trading, in accordance with the requirements of The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 and Companies Act, 2013, with a view to regulate trading in Securities of the Company by its directors, designated persons and employees.

## (D) Chart / Matrix of Skills / Expertise / Competence of the Board of Directors in context to Company's business and sector:

We recognize the importance of having a Board comprising of directors who have a range of experiences, capabilities and diverse points of view. This helps us create an effective and well-rounded Board. The capabilities and experiences sought in the Board of Directors of our Company in the areas of strategy, finance, accounting, economics, legal and regulatory matters to efficiently carry on its core businesses

### 3. Familiarization Programmes for directors including Independent Directors

The Company has always looked upon its Board of Directors as the primary or main body to shape its policies and affairs and to guide its operations towards success and progress through a realistic, analysis and evaluation of the prevailing state of affairs and the ongoing operations and devising and operationalizing means and procedure which ensure growth and progress of the Company and its business.

In order to enable the Board to play this role to perfection it is imperative that they be familiar with and deeply understand the Company, its business and operations and their intricacies, be aware of who the various stakeholders of the Company are and understand, their requirements, expectations and demands, be aware of the prevailing socio-economic and political environment especially in so far as the same is relevant to the business of the Company, as also the requirements set out in various statutes, as applicable to the business and operations of the Company.

This is precisely why the Company had always laid emphasis on familiarizing its Directors with the above aspects, even before the same became a mandatory requirement under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Consequently in keeping with the policy of the Company as framed in this regard and in compliance with the requirements of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, a familiarization exercise for Independent Directors of the Company was carried out during the financial year 2018-2019, as it had been carried out in the previous financial year.

Details of the Familiarisation Programme for Independent Directors is posted on the website of the Company and can be viewed at the weblink: http://www.rattanindia.com/rpl/general.

Section 178 of the Companies Act, 2013 mandates similar requirement for every listed entity.

The Stakeholders Relationship Committee as constituted by the Board as on March 31, 2019, comprises of two Non-Executive Independent Directors and one Non – executive promoter director as its members namely Mr. Narayanasany Jeevagan as the Chairman and member, Mr. Sanjiv Chhikara and Mr. Rajiv Rattan as the other two members.

### Terms of reference

While the constitution of the Stakeholders Relationship Committee (Committee) is a requirement mandated by the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Companies Act, 2013. Irrespective of what the statutes mandate, it has always been the endeavor of the Company to ensure that its investors, being the shareholders of the Company get the best of treatments at all times. This could primarily have been ensured through an expeditious and satisfactory redressal of their grievances if any and their requests being properly addressed, for that is what an effective service of the interests of the shareholders is majorly about.

It was with these basic objectives that a Stakeholders Committee has been in place in the Company ever since its establishment as a listed entity.

The Committee in order to meaningfully serve the purpose of its creation and effectively discharge its responsibility works in close coordination with the Company Secretarial Department of the Company and the Registrar and Transfer Agent appointed by the Company. The emphasis is always on working in closely with each other so that not only the investor grievances are resolved meaningfully and in time, to their utmost satisfaction, but also that suitable measures are taken to prevent the possibility of recurrence of such grievances.

Additionally, the Committee has been vested with the responsibility of approving the requests for share transfers and transmissions, requests pertaining to rematerialization of shares/subdivision/consolidation of shares/issue of renewed

and duplicate certificates etc. for which purpose the authority at the basic operational level has been delegated by the Committee to Mr. Narayanasany Jeevagan, the Chairman of the Committee.

#### 6. Disclosures

#### (i) Details on materially significant related party transactions:

In compliance with the requirements of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has in place a well formulated policy on materiality of related party transactions and dealing with related party transactions, as approved by the Board of Directors of the Company. The same is uploaded on the website of the Company at the weblink: http://www.rattanindia.com/rpl/policies.

Apart from the Related Party Transactions in the ordinary course of business and at an arms-length basis, the details of which are given in the notes to the financial statements, no other transactions of such nature were entered into during the year under review. The transactions were not of a nature, as would require any disclosure in the Directors Report in compliance with Section 134(3)(h) of the Companies Act, 2013, in the stipulated form AOC-2.

As regards the related party transactions sought to be entered into during the financial year 2019-2020, the details of the same were placed before the Audit Committee for review and approval wherever required, at the beginning of the financial year. Subsequently the same were also placed before the Board of Directors of the Company for approval.

It would be pertinent to mention here that as regards the proposed related party transactions falling within the category of Material Related Party Transactions, in terms of the Securities And Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and/or falling within the purview of Rule 15(3) of the Companies (Meetings of Board and its Power) Rules, 2014 to the Section 188 of the Companies Act, 2013, approval of the Audit Committee and the Board of Directors was accorded subject to the condition that the same would be effectuated only upon the receipt of approval of the shareholders of the Company.

## (ii) Details of non-compliance, penalties etc. imposed by Stock Exchange, SEBI etc. on any matter related to capital markets, during the last three years:

The Company can proudly boast of a blemish free record vis-à-vis its compliances with the various applicable statutes including those pertinent to a listed entity.

This is adequately substantiated by the fact that since its establishment as a listed entity on October 30, 2009 there has been no instance of any non-compliance on any matter related to capital markets and hence no penalties have ever been imposed or strictures passed against the Company by SEBI or the Stock Exchanges or any other statutory / regulatory authority.

# **Independent Auditors' Report**

To the members of RattanIndia Power Limited (formerly Indiabulls Power Limited.)

Report on the Audit of the Consolidated Financial Statements

### Opinion

- 1. We have audited the accompanying consolidated financial statements of RattanIndia Power Limited (formerly Indiabulls Power Limited.) ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') which comprise the Consolidated Balance Sheet as at 31 March 2019, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information
- 2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the consolidated state of affairs (consolidated financial position) of the Group as at 31 March 2019, and its consolidated loss (consolidated financial performance including other comprehensive income), its consolidated cash flows and the consolidated changes in equity for the year ended on that date.

## **Basis for Opinion**

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Material Uncertainty Related to Going Concern**

4. We draw attention to Note 52 to the consolidated financial statements which indicate that the Group has incurred a net loss of ₹ 326,535.39 lakhs during the year ended 31 March 2019 and, as of that date, the Group's accumulated losses from operations amounted to ₹ 682,068.22 lakhs and its current liabilities exceed current assets by ₹ 671,282.00 lakhs. The Group has also made defaults in repayment of borrowings from banks, including interest, by an amount aggregating ₹ 520,183.10 lakhs up till 31 March 2019. These conditions along with other matters as set forth in such note, indicate the existence of material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern. However, in view of the ongoing discussions relating to restructuring of its borrowings and other debts with the lenders, better financial performance as a result of favourable business conditions expected in future and other mitigating factors mentioned in the aforesaid note, the management is of the view that going concern basis of accounting is appropriate.

In relation to the above key audit matter, our audit work included, but was not restricted to, the following procedures:

- a) Obtained understanding of the management's process for identifying all events or conditions that could impact the Group's ability to continue as a going concern, and the process to assess the corresponding mitigating factors existing against each such event or condition.
- b) Evaluated the design and tested the operating effectiveness of key controls around aforesaid identification of events or conditions and mitigating factors, and controls around cash flow projections prepared by the management.
- c) Tested the appropriateness of the key assumptions in the cash flow projections for next 12 months by considering our understanding of the business, past performance of the Company, external data and market conditions apart from discussing these assumptions with the management and the Audit Committee.
- d) Evaluated the sensitivity analysis performed by the management in respect of the key assumptions discussed above to ensure that there was sufficient headroom with respect to the estimation uncertainty impact of such assumptions on the calculation.
- Tested the arithmetical accuracy of the calculations including those related to sensitivity analysis performed by the management.

- f) Evaluated the historical accuracy of the cash flow projections made by the management in prior periods.
- g) Reviewed the minutes of meetings of lenders, binding offer, correspondence with proposed investors, etc. with respect to the status of OTS offer.
- h) Evaluated the appropriateness of the disclosures made in the financial statements in respect of going concern basis of accounting in accordance with the applicable accounting standards.

Our opinion is not modified in respect of this matter.

## **Emphasis of Matter**

5. We draw attention to Note 53 to the accompanying consolidated financial statements with respect to capital work-inprogress (CWIP) aggregating to ₹ 98,430.35 lakhs outstanding as at 31 March 2019, pertaining to construction of
second 1350 MW power plant (Phase II) of the Holding Company and STPL, which are currently suspended. Based on
expected revival of the project and other factors described in the aforesaid note, the management believes that no
adjustment is required to the carrying value of the aforesaid balances. Our opinion is not modified in respect of this
matter.

## **Key Audit Matter**

- 6. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- In addition to the matter described in the Material Uncertainty Related to Going Concern and Emphasis of Matter sections we have determined the matters described below to be the key audit matters to be communicated in our report.

# Recoverability of amounts due from Maharashtra State Electricity Distribution Company Limited (MSEDCL)

The Holding Company has dues from MSEDCL amounting to ₹ 123,297.03 lakhs as at 31 March 2019.

As detailed in note no 32(C) to the consolidated financial statements, there are certain claims by the Holding Company which are disputed by MSEDCL including claim on account of Compensatory Claim (CCEA) amounting to ₹ 28,658.80 lakhs and Late Payment Surcharge (LPS) thereon and Changein-law (CIL) claims. These are under litigation at various levels of regulatory authorities.

The Holding Company has obtained a legal opinion from an independent counsel with respect to recoverability of Rs. 28,658.80 lakhs on account of CCEA claims and LPS thereon.

Further, in respect of claim related to CIL, the Maharashtra Electricity Regulatory Commission, vide order dated 3 April 2018, has decided a methodology for computing the quantum of claim which is disputed by the Company and the matter is pending for resolution under Appellate Tribunal for Electricity.

Considering the materiality of the balances to the Group's consolidated financial statements and the judgements involved in the estimation of recoverability, this matter is considered to be a key audit matter for the current year audit.

Our audit work in relation to assessment of recoverability of amounts due from MSEDCL included, but was not limited to, the following:

- Obtained an understanding of the nature of litigations and key developments during the year from the management.
- Tested the design, implementation and operating effectiveness of the controls that the Group has established in relation to recoverability of such dues.
- Evaluated the reasonableness of the key assumptions used by the management in determination of recoverable amount based on our knowledge of the business and industry.
- Obtained legal opinion from the Group's external legal counsel and analysed the same in light of the current industry practice.
- Obtained and reviewed the necessary evidence which includes correspondence with the internal legal counsels and where necessary, inspected minutes of case proceedings available in public domain, to support the decisions and rationale for creation of provisions and / or disclosure of receivables in respect of each such litigation selected for testing.
- Ensured appropriateness of disclosures made in the consolidated financial statements with respect to the receivables are in accordance with the applicable accounting standards.

## Impairment of power plants

Refer Note 3 for the accounting policies for impairment of assets. The Group have power generating plant and allied facilities valuing ₹ 1,332,976.31 lakhs and ₹ 80,646.03 lakhs respectively.

In accordance with Ind AS 36, Impairment of assets, the management identified that impairment indicators existed for the power plants owing to the fact that there has been less than full capacity utilisation of the Amravati plant since the commencement of operations, and currently, the plant is operating at around 34% capacity. Also, there are no operations in Nasik power plant due to non-availability of PPA.

The aforesaid assessment of the impairment involves exercising a significant judgement with regard to assumptions and estimates involved in forecasting future cash flows. These assumptions include plant operating level, discount rates, estimation of terminal value.

Changes in the management forecasts or assumptions can impact the assessment of the discounted cash flows and consequently the valuation of such power plants.

A significant amount of audit effort was required particularly as some of these assumptions are dependent on the economic factors and trading conditions in the markets in which the Group operates. Considering the significance of the amounts involved, degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, we have determined impairment of power generating plant as a key audit matter.

### Litigation and contingent liabilities

We refer to the Note 32 of the consolidated financial statements of the Group for the year ended 31 March 2019. The Group operates in an industry which is heavily regulated which increases inherent risk of litigations. There are a number of legal and regulatory cases, of which the most significant ones are claims by the Holding Company on MSEDCL as explained in the KAM on recoverability from MSEDCL, and claims by the vendors / suppliers on the Company.

The eventual outcome of these legal proceedings is dependent on the outcome of future events and unexpected adverse outcomes could significantly impact the Group's reported loss and balance sheet position.

The amounts involved are material and the application of accounting principles as given under Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets, in order to determine the amount to be recorded as a liability or to be disclosed as a contingent liability, in each case, is inherently

Our audit procedures included, but were not limited to, the following:

- Obtained an understanding of the management process, and performed a walkthrough to evaluate design effectiveness and tested the operating effectiveness of key controls for identifying impairment indicators as well as determining the appropriate methodology to carry out impairment testing for plant, property and equipment.
- Evaluated the appropriateness of applying relevant accounting standards in recognising the impairment loss.
- Challenged the management on the underlying assumptions used for the cash flow projections including the implied growth rates, discount rate, estimation of terminal value etc. considering the evidence available to support these assumptions and our understanding of the business and industry.
- Tested the discount rate and plant operating level, used in the forecasts, including comparison to economic and industry forecasts where appropriate.
- Evaluated the sensitivity analysis performed by the management in respect of the key assumptions discussed above to ensure that there was sufficient headroom with respect to the estimation uncertainty impact of such assumptions on the calculation.
- Ensured that disclosures for the aforesaid balances and transactions are adequately disclosed in accordance with the applicable accounting standards.

Our audit procedures included, but were not limited to, the following:

- Obtained an understanding of the management process for:
  - identification of legal and tax matters initiated against the Group;
  - assessment of accounting treatment for each such litigation identified under Ind AS 37 accounting principles; and
  - for measurement of amounts involved.
- Evaluated the design and tested the operating effectiveness of key controls around above process.
   Obtained an understanding of the nature of litigations pending against the Group and discussed the key developments during the year for key litigations with the management and respective legal counsels handling such cases on behalf of the Group.
- Obtained and reviewed the necessary evidence which includes correspondence with the external and internal legal counsels, wherever applicable and inspected

subjective, and needs careful evaluation and judgement to be applied by the management.

Key judgments are also made by the management in estimating the amount of liabilities, provisions and/or contingent liabilities related to aforementioned litigations.

Considering the degree of judgment, significance of the amounts involved, inherent high estimation uncertainty and reliance on external legal and tax experts, this matter has been identified as a key audit matter for the current year audit.

minutes of case proceedings available in public domain, to support the decisions and rationale for creation of provisions and / or disclosure of contingent liabilities in respect of each such litigation selected for testing. We focused on the developments in the existing litigations and new litigations, which could have materially impacted the amounts recorded as provisions or disclosed as contingent liability in the consolidated financial statements.

- Assessed management's conclusions through discussions held with the in-house legal counsel and understanding precedents set in similar cases.
- Obtained and read the correspondence with the regulatory authorities, including past judgements on the subject matter of specific significant litigations.
- Assessed the appropriateness of methods used, and the reliability of underlying data for the underlying calculations made for quantifying the amounts involved.
   Tested the arithmetical accuracy of such calculations.
- Evaluated the adequacy of disclosures made by the Company in the consolidated financial statements in view of the requirements as specified in the Indian Accounting Standards.

### Information other than the Financial Statements and Auditor's Report thereon

8. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

## Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated state of affairs (consolidated financial position), consolidated profit or loss (consolidated financial performance including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors / management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

- 10. In preparing the consolidated financial statements, management of Holding Company is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
- 11. Those Board of Directors of Holding Company are also responsible for overseeing the Group's financial reporting process.

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

- 12. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
- 13. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for explaining our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management of the Holding Company.
  - Conclude on the appropriateness of management of Holding Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
  - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 14. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Other Matters

17. We did not audit the financial statements of 12 subsidiaries, whose financial statements reflect total assets of ₹ 93,774.21 lakh and net assets of ₹ (10,650.34) lakh as at 31 March 2019, total revenues of ₹ 1,623.16 lakh and net cash outflows

amounting to ₹ 1,585.77 lakh for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

18. We did not audit the financial statements of 3 subsidiaries, whose financial statements reflects total assets of Rs. Nil and net assets of ₹ (12,467.28) lakh as at 31 March 2019, total revenues of Rs. Nil and net cash outflow amounting to Rs. Nil for the year ended on that date, as considered in the consolidated financial statements. These financial statements are unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, and matters identified and disclosed under key audit matters section above and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiaries are based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the management, these financial statements are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the financial statements certified by the management.

Further, of these subsidiaries 3 subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

## **Report on Other Legal and Regulatory Requirements**

# Annexure A to the Independent Auditors' Report

#### Annexure A

# Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the 'Act')

 In conjunction with our audit of the consolidated financial statements of the RattanIndia Power Limited (Formerly known as Indiabulls Power Limited.) (the 'Company') and its subsidiaries incorporated in India, as of and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting (IFCoFR) of the Company and its subsidiary companies incorporated in India, as of that date.

### Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Company and its subsidiary companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company and its subsidiary companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to the company's policies, the safeguarding of the company's assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### **Auditors' Responsibility**

- 3. Our responsibility is to express an opinion on the IFCoFR of the Company and its subsidiary companies incorporated in India based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the IFCoFR of the Company and its subsidiary companies as aforesaid.

## Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# Annexure A to the Independent Auditors' Report

### Opinion

8. In our opinion and based on the consideration of the reports of the other auditors on IFCoFR of the subsidiary companies, the Holding Company, its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company and its subsidiary company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

### Other Matter

9. We did not audit the IFCoFR in so far as it relates to 12 subsidiary companies, which are companies covered under the Act, whose financial statements reflect total assets of ₹ 93,774.21 lakhs and net assets of ₹ (10,650.34 lakhs) as at 31 March 2019, total revenues of ₹ 1,623.16 lakhs and net cash outflows amounting to ₹ 1,585.77 lakhs for the year ended on that date, as considered in the consolidated financial statements. The IFCoFR in so far as it relates to such subsidiary companies have been audited by other auditors whose reports have been furnished to us by the management and our report on the adequacy and operating effectiveness of the IFCoFR for the Holding Company and its subsidiary companies, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary companies is based solely on the reports of the auditors of such companies. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

### 1. Corporate Information

### **Nature of Operations**

RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) (the 'Holding Company' or 'RPL') along with its subsidiaries (together referred to as the 'Group') is principally engaged in the business of dealing in power generation, distribution, trading and transmission and other ancillary and incidental activities.

The Holding Company is in process of setting up a Thermal Power Project at Amravati ("Amravati Project", "the Project") in the State of Maharashtra in two phases of 1,350 MW each, with an ultimate capacity of 2,700 MW. Upon COD of the Company's Amravati Power Project - Unit-I (Phase-I) on 03 June 2013, Unit-II (Phase-I) on 28 March 2014, Unit-III (Phase-I) on 02 February 2015, Unit-IV (Phase-I) on 07 March 2015 and Unit-V (Phase-I) on 13 March 2015, the Plant & equipment and Building - plants of respective units were capitalised on respective CODs.

During the financial year 2014-15 pursuant to the announcements on restructuring of the promoters' inter-se roles, there had been declassifications in respect of certain Promoters/ Promoter Company Entities/ Persons Acting in Concert with Promoters (PACs) of the Holding Company, as was intimated by the Holding Company to NSE and BSE (the Stock Exchanges) on 18 July 2014 and 28 October 2014 respectively.

Pursuant to an understanding arrived at between the erstwhile promoters of the Indiabulls group namely, Mr. Sameer Gehlaut, Mr. Saurabh Mittal and Mr. Rajiv Rattan, during the financial year 2014-2015, Mr. Sameer Gehlaut and Mr. Saurabh Mittal relinquished the ownership rights, management and control as also the supervision of the Power Business. Accordingly Mr. Sameer Gehlaut and Mr. Saurabh Mittal transferred their direct and indirect shareholding in power group entities to Mr. Rajiv Rattan and the entities owned and promoted by him pursuant to an inter-se transfer and subsequently resigned from their directorships and chairmanship/vice chairmanship of the Power Business respectively. Thus the ownership, management and control of the Power Business and its supervision rights came to vest with Mr. Rajiv Rattan who also assumed the Chairmanship of the Power Business.

During the financial year 2014-15, in accordance with the provisions of Section 13 and other applicable provisions of the Companies Act, 2013, the members of the Holding Company through postal ballot declared on 16 October 2014, accorded their approval to change the name of the Holding Company from Indiabulls Power Limited. to RattanIndia Power Limited. The Company received fresh certificate of incorporation consequent upon change of name from the Registrar of Companies, Delhi dated 30 October 2014 in respect of the said change.

## General information and statement of compliance with Ind AS

The consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards as notified under section 133 of the Companies Act 2013 read with the Companies [Indian Accounting Standards ("Ind AS")] Rules 2015 (by Ministry of Corporate Affairs ('MCA')). The Group has uniformly applied the accounting policies during the periods presented.

For all periods up to and including the year ended 31 March 2016, the Group has prepared its consolidated financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP). These consolidated financial statements for the year ended 31 March 2017 are the first which the Group has prepared in accordance with Ind AS (see note 49 for explanation for transition to Ind AS). For the purpose of comparatives, consolidated financial statements for the year ended 31 March 2016 are also prepared under Ind AS.

The consolidated financial statements for the year ended 31 March 2019 were approved by the Board of Directors on 20 May 2019.

### 2. Recent accounting pronouncements

## Application of new and revised Indian Accounting Standard (Ind AS)

Accounting standards or amendments in the accounting standards adopted on/from 1 April 2018 Ind-AS 115, "Revenue from Contracts with Customers" issued on March 28, 2018, which provides a unified five step model for determining the timing, measurement and recognition of revenue. The focus of the new standard is to recognize revenue as performance obligations are met rather than based on the transfer of risks and rewards. Ind-AS 115 includes a comprehensive set of disclosure requirements including qualitative and quantitative information about contracts with customers to understand the nature, amount, timing and uncertainty of revenue.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

The standard supersedes the erstwhile standard, viz., Ind-AS 18 "Revenue" and Ind-AS 11"Construction Contracts". Ind-AS 115 clarifies how to identify a performance obligation, determine whether a company is a principal or an agent. The group's revenue is predominantly derived from the single performance obligation i.e. sale of electricity in which the transfer of risks and rewards of ownership and the fulfilment of the Company's performance obligation occur at the same time. Henceforth, the adoption of this standard did not have a material impact on the financial statements of the group.

#### Insertion of Appendix B to Ind AS 21:

This Appendix applies to a foreign currency transaction (or part of it) when an entity recognizes a non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration before the entity recognizes the related asset, expense or income (or part of it). The amendment to Ind AS 21 requires the entities to consider exchange rate on the date of initial recognition of advance consideration (asset/liability), for recognising related expense/income on the settlement of said asset/liability.

This Appendix does not apply when an entity measures the related asset, expense or income on initial recognition:

- a. At fair value; or
- b. At the fair value of the consideration paid or received at a date other than the date of initial recognition of the non-monetary asset or non-monetary liability arising from advance consideration.

An entity is not required to apply this Appendix to:

- a. income taxes; or
- b. insurance contracts (including reinsurance contracts) that it issues or reinsurance contracts that it holds.

The group does not have its impact on the financial statements.

### Amendment to Ind AS 12

The amendment to Ind AS 12 requires the entities to consider restriction in tax laws in sources of taxable profit against which entity may make deductions on reversal of deductible temporary difference (may or may not have arisen from same source) and also consider probable future taxable profit.

The group does not have its impact on the financial statements.

### Standards issued but not yet effective

### IND AS 116 - Leases

On March 30 2019, the Ministry of Corporate Affairs (MCA) notified Ind AS 116, "Leases" as part of the Companies (Indian Accounting Standards (Ind AS)) Amendment Rules, 2019. Ind AS 116 replaces existing standard on leases i.e. Ind AS 17, with effect from accounting periods starting on or after April 1, 2019. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize a right-of-use asset over the underlying leased asset and a lease liability representing its obligation to make lease payments for all leases with a term of more than 12 months, unless the underlying asset is of low value.

## Other Amendments on the existing standard not yet effective:

A number of other accounting standards have been modified on miscellaneous issues with effect from April 1, 2019. Such changes include clarification/guidance on:

- a) Income tax consequences in case of dividends (Ind AS 12 Income Taxes (amendments relating to Income tax consequences of dividend));
- b) Accounting for Income tax when there is uncertainty over income tax treatment of an item by tax authorities (Ind AS 12 Income Taxes (amendments relating to uncertainty over Income tax treatments));
- Accounting treatment for specific borrowings post capitalization of corresponding qualifying asset (Ind AS 23 Borrowing Costs);
- d) Accounting for plan amendment, curtailment or settlement occurring in-between the reporting periods in case of long term employee benefit plans (Ind AS 19 Plan Amendments, Curtailment of Settlement).

The above amendments will come into force from April 1, 2019. Basis the preliminary evaluation, the group does not expect the effect of this on the financial statements to be material.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

### 3. Summary of significant accounting policies

### a) Overall consideration

The consolidated financial statements have been prepared using the significant accounting policies and measurement basis as summarised below. These were used throughout all periods presented in the financial statements, except where the Group has applied certain accounting policies and exemptions upon transition to Ind AS.

## **Basis of preparation**

The consolidated financial statements have been prepared on going concern basis under the historical cost basis except for the following –

- Certain financial assets and liabilities which are measured at fair value;
- Defined benefit plans liability of which is recognised as per actuarial valuation; and
- Share based payments which are measured at fair value of the options

## Principles of consolidation

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

### b) Revenue recognition

Revenue arises from the supply of power. Revenue is recognised when it is probable that the economic benefits will flow to the Group and it can be reliably measured. Revenue is measured at the fair value of the consideration received/receivable net of rebates and taxes. The Group applies the revenue recognition criteria to each separately identifiable component of the sales transaction as set out below.

Revenue from operation and maintenance of power plant and transmission assets

Revenue from operation of plant is recognised on transfer of significant risks and rewards of ownership of the output of the plant to the buyer which is when delivered, and measured on an accrual basis based on the rates in accordance with the provisions of the Power Purchase Agreements (PPAs) entered into by the Group with the procurer/s of power. Claims for delayed payment charges and other claims are accounted by the Group on accrual basis in accordance with the provisions of the PPAs only when it is reasonable to expect ultimate collection. Sales exclude Sales tax and Value Added Tax, where applicable. Revenue from Power generated during trial runs is accounted on the basis of accruals and is reduced from the cost of the plant.

Refer policy on leased assets for accounting policy of customer contracts that contain a lease.

Service income

Revenue from Power Consultancy/ Advisory Services is recognised when services are rendered.

Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

### c) Borrowing costs

Borrowing costs include interest and amortisation of ancillary costs incurred to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/ development of the qualifying asset up to the date of capitalisation of such asset are added to the cost of the assets. Any income earned on the temporary deployment/ investment of those borrowings is deducted from the borrowing costs so incurred. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use.

### d) Property, plant and equipment

Recognition and initial measurement

Properties plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Any expenditure directly/ indirectly related and attributable to the construction of power projects and incidental to setting up power project facilities, incurred prior to the Commercial Operation Date (COD) of the Power Project, are accumulated under "Capital work-in-progress", to be capitalised on completion of construction of the respective power projects/ COD.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives prescribed in Schedule II to the Companies Act, 2013:

Properties plant and equipment acquired and put to use for the purpose of the Project are capitalised and depreciation thereon is included in capital work-in-progress till the Project is ready for its intended use.

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

### De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

### Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all its property, plant and equipment recognised as at 1 April 2015 measured as per the provisions of Previous GAAP and use that carrying value as the deemed cost of property, plant and equipment.

### e) Intangible assets

Recognition and initial measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortisation)

The cost of capitalized software is amortized over a period in the range of three to five years from the date of its acquisition.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

#### Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all its intangible assets recognised as at 1 April 2015 measured as per the provisions of Previous GAAP and use that carrying value as the deemed cost of intangible assets.

### f) Leased assets

Determining whether an arrangement contains a lease

The Group has certain long term arrangements for sale of power. Such arrangements are evaluated to consider whether it contains a lease. It is considered to contain a lease if based on the substance of the arrangement:

- (i) fulfilment of the arrangement is dependent on the use of a specific asset or assets (the asset); and
- (ii) the arrangement conveys a right to use the asset.

An arrangement is considered to contain a lease if facts and circumstances indicate that it is remote that one or more parties other than the purchaser will take more than an insignificant amount of the output or other utility that will be produced or generated by the asset during the term of the arrangement, and the price that the purchaser will pay for the output is neither contractually fixed per unit of output nor equal to the current market price per unit of output as of the time of delivery of the output.

### Group as a lessee

### Finance leases

Finance leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Lease management fees, legal charges and other initial direct costs are capitalised.

If there is no reasonable certainty that the Group will obtain the ownership by the end of lease term, capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

## Operating leases

Assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straightline basis except where scheduled increase in rent compensates the lessor for expected inflationary costs.

### Group as a lessor

### Finance leases

Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognised as revenue in the period in which they are earned.

## Operating leases

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. The respective leased assets are included in the balance sheet based on their nature. Rental income is recognized on straightline basis over the lease term except where scheduled increase in rent compensates the Group with expected inflationary costs.

### g) Impairment of non-financial assets

At each reporting date, the Group assesses whether there is any indication based on internal/ external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

#### h) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, unless the financial instrument is designated to be measured at fair value through profit or loss or fair value through other comprehensive income.

#### Financial assets

Subsequent measurement

- i. **Financial assets at amortised cost** the financial assets are measured at the amortised cost if both the following conditions are met:
  - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
  - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. All other debt instruments are measured at Fair Value through other comprehensive income or Fair value through profit and loss based on Group's business model. All investment in mutual funds in scope of Ind-AS 109 are measured at fair value through profit and loss (FVTPL).

## De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

### **Financial liabilities**

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings and deposits.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

### **Derivative contracts**

A derivative contract is recognised as an asset or a liability on the commitment date. Outstanding derivative contracts as at reporting date are fair valued and recognised as financial asset/ financial liability, with the resultant gain/ (loss) being recognised in statement of profit and loss.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

## i) Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets carried at amortised cost.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. When estimating the cash flows, the Group considers:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the
  assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

#### Trade receivables

The Group applies simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

### Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, life time impairment loss is provided otherwise provides for 12 month expected credit losses.

### j) Inventories

Inventories are valued at the lower of cost derived on weighted average basis and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of consumption, including octroi and other levies, transit insurance and receiving charges.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated necessary cost to make the sale.

#### k) Income taxes

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax not recognised in OCI or directly in equity.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961 and in the overseas branches/ companies as per the respective tax laws. Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss in OCI or equity depending upon the treatment of underlying item.

Deferred income taxes are calculated using the liability method. Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss in OCI or equity depending upon the treatment of underlying item.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries where the Group is able to control the timing of reversal of temporary differences and it is probable that the differences will not be reversed in the foreseeable future.

# I) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits with banks/ corporations and short-term highly liquid investments (original maturity less than 3 months) that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

### m) Post-employment, long term and short term employee benefits

### Defined contribution plans

The Group makes contribution to the statutory provident fund in accordance with the Employees Provident Fund and Miscellaneous Provision Act, 1952 which is a defined contribution plan and contribution paid or payable is recognised as an expense in the period in which the services are rendered.

## Defined benefit plans

Gratuity is post-employment benefit and is in the nature of a defined benefit plan. The liability recognised in the financial statements in respect of gratuity is the present value of the defined benefit obligation at the reporting date together with adjustments for unrecognised actuarial gains or losses and past service costs. The defined benefit obligation is calculated at or near the reporting date by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to the statement of OCI in the year in which such gains or losses are determined.

### Other long-term employee benefits

Liability in respect of compensated absences becoming due or expected to be availed within one year from the balance sheet date is recognised on the basis of undiscounted value of estimated amount required to be paid or estimated value of benefit expected to be availed by the employees. Liability in respect of compensated absences becoming due or expected to be availed more than one year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the year in which such gains or losses are determined.

### Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

### n) Share based payments

The Company has formulated Employee Stock Option Schemes (ESOS) and Employee Stock Purchase Schemes (ESOP) in accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and are in compliance with the said guidelines and SEBI (Share Based Employee Benefits) Regulation, 2014. The Schemes provide for grant of options to employees of the Company and its subsidiaries to acquire equity shares of the Company that vest in a graded manner and that are to be exercised within a specified period.

### Employee stock Purchase plan (ESOP)

The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit and loss, with a corresponding adjustment to equity.

#### Transition to Ind AS

On transition to Ind AS, the Group has elected to not consider the charge related to employee stock options for which the vesting period is already over.

### o) Provisions, contingent assets and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

### Contingent liability is disclosed for:

• Possible obligations which will be confirmed only by future events not wholly within the control of the Group or

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

• Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefit is probable, related asset is disclosed.

### p) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### q) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Group that have the most significant effect on the financial statements:

**Determining whether an arrangement contains a lease** – Whether an arrangement contains a lease depends on whether purchaser will take more than an insignificant amount of the output or other utility that will be produced or generated by the asset during the term of the arrangement.

**Recognition of deferred tax assets** – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits or uncertainties under the relevant tax jurisdiction (see note 8).

**Evaluation of indicators for impairment of assets** – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Group enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

**Recoverability of advances/ receivables** – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

**Defined benefit obligation (DBO)** – Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

**Fair value measurements** – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

**Provisions** – At each balance sheet date on the basis of the management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions. However the actual future outcome may be different from this judgement.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

### Significant estimates

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be different.

**Classification of leases** –The classification of the leasing arrangement as a finance lease or operating lease requires several estimates like present value of unguaranteed residual value and present value of minimum lease payments.

### Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow ("DCF") model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Group.

#### Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

### Useful lives of depreciable/ amortisable assets

Management reviews its estimate of the useful lives of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software and other plant and equipment.

<sup>1</sup> The Water Resource Department ('WRD' or "Respondent') vide their letter dated 29 January 2013 raised a demand of ₹ 23,218 lakhs on Company for payment of irrigation restoration charges @ ₹ 1 lakh per hectare as per Government Resolution (GR) dated 6 March 2009 instead of ₹ 0.50 lakh per hectare as provided in circular from Water Resources

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

Department, Government of Maharashtra dated 21 February 2004. The Company had paid ₹ 11,657 lakhs (@ ₹ 0.50 lakh per hectare) and filed a Writ Petition with the Hon'ble Bombay High Court on 13 February 2013 challenging the validity of demand so raised by WRD. The Mumbai bench of Hon'ble Bombay High Court vide its Order dated 3 August 2015 transferred the matter to the Nagpur Bench. The Nagpur bench vide its order dated 5 May 2016 has partly allowed the petition and declared that demand at revised rate i.e. as per GR dated 6 March 2009 from the petitioner is illegal and unsustainable. As per Nagpur Bench order, the rate prescribed in the GR dated 6 March 2009 is applicable prospectively from 1 April 2009 and is not applicable in case of the Company to whom water allocation was finalized on 12 December 2007.

Pursuant to this, Maharashtra State Government filed a Special Leave Petition ("SPL") before the Hon'ble Supreme Court of India. The Hon'ble Court after hearing parties granted time to the Company to file its Counter Affidavit. The Company is ready with its reply which will be filed on or before next date of hearing. The Pecuniary risk in the matter cannot be quantified. Company is confident that the matter will be disposed off in their favour.

- During the year ended 2010-11, the Company entered into a contract with Bharat Heavy Electrical Limited ('BHEL') for erection and supply of certain material for phase II of its power project at Amravati. Subsequent to this contract, BHEL supplied certain materials which were not warranted at that time and there were various communication made by the Company with BHEL to take off these materials from the site. Against this, BHEL initiated arbitration proceeding against the Company, alleging the payment outstanding against the Company in respect of the materials so supplied by them. The Hon'ble High Court also disposed off the petition upon the instruction to the parties that petition before Hon'ble High Court be treated as an application under Section 17 of the Arbitration and Conciliation Act, 1996 before the Arbitral Tribunal. Subsequent to this, BHEL filed the following applications on 14 April 2016 with Arbitral Tribunal:
  - Application under Section 17 of the Arbitration and Conciliation Act, 1996 seeking an interim prayer of release of bank guarantees.
  - 2. Application seeking amendment of the Claim petition.
  - 3. Application under Section 31(6) of the Arbitration and Conciliation Act, 1996 seeking an interim award on the basis of admissions.

On BHEL's application for seeking interim award based on admissions, the tribunal has heard the arguments of both BHEL and the Company and the tribunal has passed an interim award of Rs 11,500 lakh against the Company vide its order dated 27 July 2017.

A Petition has also been filed by BHEL praying the Hon'ble High Court to issue warrants of attachment/ or auction sale of immovable and movable assets of the Company for realizing the amount payable/due as per the Interim award dated 27 July 2017. The matter is listed for hearing post the decision on the validity of the interim award which is slated on 17 July 2018.

The Company filed an appeal against the said interim award on 16 October 2017 before the Hon'ble High Court. The Matter is now listed for proceedings and the next day of hearing in the matter is 26 September 2019. The pecuniary risk involved in the present case cannot be quantified. Company is confident that the matter will be disposed off in their favour.

- The Company had developed a railway line track and constructed a boundary wall around the railway yard and power plant at Amravati on the land allotted to the Company by MIDC. In this respect, Mr. Keshav Puranlal Bundele and others ('Plaintiffs') alleged that the approach road to their land has been obstructed and they are unable to access their land for cultivation. A suit for seeking declaration/ injunction for right of way was been filed before the Civil Judge, Senior Division, Amravati by the Plaintiffs against the Company during the year 2015-16. The Company denied the allegations in its written statement and is contesting the suit and the Hon'ble Court also declined the prayer of the Plaintiffs for grant of temporary injunction.
  - The Plaintiffs then filed a civil appeal with regard to this matter against the Court's order of declining the prayer of the Plaintiffs for grant of temporary injunction. The matter is now listed for steps on 20 June 2019. The pecuniary risk involved in the present case cannot be quantified. ### For Sinnar Thermal Power Limited (formerly known as RattanIndia Nasik Power Limited) (STPL)

- During the year 2010-2011, the Company entered into a contract with Bharat Heavy Electrical Limited ('BHEL') for erection and supply of certain material for phase II of its power project at Nashik. Subsequent to this contract, BHEL supplied certain materials which were not warranted at that time and there were various communication made by the Company with BHEL to take off these materials from the site. Against this, BHEL initiated arbitration proceeding against the company, alleging the payment outstanding against the company in respect of the materials so supplied by them. The Hon'ble High Court also disposed off the petition upon the instruction to the parties that petition before Hon'ble High Court be treated as an application under Section 17 of the Arbitration and Conciliation Act, 1996 before the Arbitral Tribunal. Subsequent to this, BHEL filed the following applications on 14 April 2016 with Arbitral Tribunal:
  - 1. Application under Section 17 of the Arbitration and Conciliation Act, 1996 seeking an interim prayer of release of bank guarantees.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

- 2. Application seeking amendment of the claim petition.
- 3. Application under Section 31(6) of the Arbitration and Conciliation Act, 1996 seeking an interim award on the basis of admissions.

On BHEL's application for seeking interim award based on admissions, the tribunal has heard the arguments of both BHEL and the Company and the tribunal has passed an interim award of ₹ 6,300 lakh against the company vide its order dated 27 July 2017.

A Petition has also been filed by BHEL praying the Hon'ble High Court to issue warrants of attachment/ or auction sale of immovable and movable assets of the company for realizing the amount payable/due as per the Interim award dated 27 July 2017. The matter is listed for hearing post the decision on the validity of the interim award which is slated on 26 September 2019.

The Company filed an appeal against the said interim award on 16 October 2017 with the Hon'ble High Court and based on the legal appraisal of the case, Company is confident that the matter will be disposed off in their favour.

11 The Company has entered into a contract with BHEL for supply of Boiler, Turbine, Generators (BTG) items for Nashik project. The material was supplied by BHEL from its unit in Tamil Nadu during the period 2010-2011. BHEL availed input tax credit against this sale which is rejected by the assessing officer of BHEL and consequently BHEL demanded the said tax amount of ₹ 1,100 lakhs from the Company. The Company rejected the claim by BHEL as the same was for input tax and not on the tax on invoice. Meanwhile during the year 2011-12 Company filed writ petition before the Hon'ble High Court of Madras during the year 2012 against the recovery of the VAT by BHEL. The matter was listed for hearing and the Hon'ble High Court has issued a notice and had ordered for status quo. The notice for the same has been accepted by the state counsel. #### **For Holding Company**

The Company is supplying power to Maharashtra State Electricity Distribution Company Limited (MSDCL) based on two power purchase agreements (PPAs) for supply of 1200 MW (450 MW + 750 MW respectively) of power for the period of 25 years. The PPAs were executed based on the fuel supply agreement (FSA) which provided that domestic coal linkages would be available to meet the fuel requirements. However, adequate coal supply was not made available which adversely impacted cost as Company had to source fuel from alternate sources to meet the shortfall of coal supplied under FSA with coal supplier. The Cabinet Committee of Economic Affairs (CCEA) approved mechanism where after Ministry of Coal amended the National Coal Distribution Policy (NCDP) and communicated its decision to allow pass through of the incremental cost of procuring coal from alternative sources to meet the shortfall in supply of domestic coal under coal linkage.

The Company filed a petition before Maharashtra Electricity Regulatory Commission ('MERC' or 'the Commission') in year 2013 for realizing the shortfall in supply under NCDP. MERC vide its Order on 15 July 2014 laid down methodology to recover compensatory fuel charges and vide Order dated 20 August 2014.

On 28 August 2014, the Company filed a review petition before MERC against the Orders dated 15 July 2014 as well as

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

Order dated 20 August 2014 and MSEDCL further filed review petition against the Orders of MERC dated 20 August 2014. The review petition filed by MSEDCL got dismissed vide Order dated 16 July 2015 and the review petition filed by the Company also got dismissed vide Order 30 October 2015. As at the balance sheet date, the Company has accounted such claim in the books of accounts aggregating to ₹ 28,658.80 lakh and related late payment surcharge thereon.

The Company then filed appeals before Appellate Tribunal for Electricity (APTEL) against Orders dated 15 July 2014, 20 August 2014 and 30 October 2015. The said appeals were disposed off by the Hon'ble Tribunal on 4 May 2017, remanding the matters to the Maharashtra Electricity Regulation Commission ('MERC') for fresh adjudication in the light of the direction of the Hon'ble Supreme Court in case of Energy Watchdog and Ors. v/s CERC and Ors. Dated 11 April 2017. MERC heard the matter on 15 November 2017 and reserved it's Order. Subsequent to the balance sheet date, on 3 April 2018, MERC has passed the said Order, whereby MERC principally held that the Company is entitled to compensation and a methodology to recover compensatory fuel charges has been laid down. The Company filed an appeal before the Hon'ble APTEL vide appeal no. 264 of 2018 against the Ld. MERC order dated 03 April 2018, as in it's view, the order passed by MERC is not fully on the principle of "restoration of the affected party to the same economic position as if the change in law event didn't not occur". The appeal is admitted by APTEL. Pleadings are completed in the said appeal and listed for final arguments on 08 August 2019.

- There has been an increase in cost of power generation owing to increase in various statutory taxes, duties, levies, cess, surcharge etc. Based on various judgements from CERC involving similar situations, management has concluded that these charges are recoverable from MSEDCL under "Change in Law" clause of PPA and during the year the company has recorded revenue of ₹ 189.39 lakhs (31 March 2018: ₹ 1,439.42 lakhs). The Company filed a petition with MERC on 15 June 2016 claiming approval of additional components of costs under change in law. MERC had issued order dated 5 April 2018 in this respect. Company has filed an appeal vide Appeal No. 263 of 2018 against the order dated 05 April 2018 before the Hon'ble Appellate Tribunal for Electricity ("APTEL") on 06 June 2018. Appeal is admitted by the Hon'ble APTEL. Pleadings are completed in the said appeal and listed for final arguments on 11 July 2019.
- The Company has taken large risk insurance policy no 500300/11/4/06/00000170 was for the period 01 June 2014 to 31 May 2015 for business interruption. The generator of unit -2 was damaged on 30 October 2014 and complaint informed to Office of Public Insurance (OPI) of the damaged on 31 October 2014. During the period November 2014 to December 2017 surveyor kept delaying the claim by asking for irrelevant document and information, despite complete cooperation by the company. On date 15/02/2018 OPI repudiated the company claim, through a detail letter dated 11 June 2018, the complainant strongly protested to OPI against the wrongful repudiation of its claim but no avail.

A complaint has been filed dated 04 October 2018 by Rattan India Power Limited against United India Insurance Company Limited & another before National Consumer Disputes Redressal Commission praying that-

- 1. The OPI be held deficient in providing services to the Rattan India Power Limited and the repudiation of the claim under Large Risk Insurance Policy No. 500300/11/14/06/00000170 is without any basis and is invalid.
- 2. The claim amount of along with Interest from 30 October 2014 to be paid to Rattan India Power Limited, and Rattan India Power Limited should also be compensated for harassment and mental agony by the OPI as well as for the litigation costs.

The matter is listed for filling of reply by Bharat Heavy Electricals Limited. The next date of hearing in the matter is 04 July 2019.

- The Company operates a 1350 MW (5x270 MW) coal based power plant located at Nandgaonpeth, Amravati district in the state of Maharashtra, at the time of commissioning the performance guarantee test conducted by BHEL noted that the maximum generation at ratted capacity was upto 277.8MW (in non VWO mode), Which corresponds to ex-bus capacity upto 252 MW. This was further corroborated by the CPRI report. In view of above company requested MSLDC to increase the ex-bus export capacity for all five unit from 252MW to 258 MW, However MSLDC rejected company's request, Accordingly the Company has filed petition vide Case No. 59 of 2018 before the Ld. Maharashtra Electricity Regulatory Commission ("Ld. MERC") under Sections 32, 33 And 86 Of The Electricity Act, 2003 read with the Maharashtra Electricity Regulatory Commission (State Grid Code) Regulations, 2006. The matter was heard by MERC on 3 October 2018 and has reserved its order. The Ld. MERC has dismissed the Case No. 59 of 2018 vide Order dated 23 October 2018. RPL has preferred an appeal against the impugned order of the Ld. MERC before the Hon'ble Appellate Tribunal of Electricity vide Appeal No. 35 of 2019. Appeal has been admitted by the Hon'ble APTEL and pleadings have to be completed. The matter is listed on 29 April 2019, and next date of hearing is to be 06 August 2019.

### For Sinnar Thermal Power Limited (formerly known as RattanIndia Nasik Power Limited) (STPL)

Subsequent to the earlier bidding by Maharashtra State Electricity Distribution Company Limited (MSEDCL) for 2000 MW (+30% / -20%) wherein EMCO Energy Limited was L1, RattanIndia Power Limited was L2, Adani Power Maharashtra Limited (APML) was L3, the company was L4 and Wardha Power Company Limited (WPCL) was L5. MSEDCL required 1090 MW additional power and Government of Maharashtra vide letter dated 1 December 2011 gave approval to MSEDCL for procurement of such additional power and directed MSEDCL to obtain Maharashtra Electricity Regulatory Commission (MERC) approval for the same. MERC vide its order dated 27 December 2012 approved the levelised tariff of ₹ 3.42 per kwh for procurement of additional 1090 MW power by MSEDCL from the company and APML. WPCL filed an appeal before APTEL on 7 March 2013 against the aforesaid order of MERC on the ground that WPCL was not given an opportunity to participate in the process. APTEL vide its order dated 10 February 2015 partly allowed the appeal by WPCL and directed MSEDCL to approach WPCL and Company to seek new offer with respect to quantum to be offered

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

while matching the tariff of Adani. the company filed a review petition against the order of APTEL dated 10 February 2015 for allowing the appeal by WPCL against the order of MERC which approved the procurement of additional quantum of 650 MW power from the Company. The review petition was dismissed by APTEL vide order dated 18 May 2015. The Company filed appeal before the Hon'ble Supreme Court against the orders dated 10 February 2015 as well as 18 May 2015. The Hon'ble Supreme Court on 24 September 2015 passed order of status quo. Subsequent to the balance sheet date, Hon'ble Supreme Court of India vide order dated 10 May 2018, dismissed the company's appeals. Pursuant to this order, APTEL's order dated 10 February 2015 comes into force and hence, the Company and WPCL will be making offers for power supply to MSEDCL in terms of the said order of APTEL.

Further, MREC order dated 19 January 2019 in Case No. 53 of 2012 whereby the Ld. MERC has allocated the quantum of 1090 MW of power on pro rata basis between Adani Power Maharashtra Limited, Sinnar Thermal Power Limited and Sai Wardha Power Company Limited. MSEDCL issued the LOI (Letter of Indent) for purchases the 507 MW power from the Company. The Company arranging the Bank Guarantee for excution of PPA (Power Purchases Agreement). Adani Power Maharashtra Limited has preferred an appeal before the Appellate Tribunal for Electricity against the Ld. The Hon'ble APTEL has admitted the appeal and pleadings yet to be completed. More than 5 years	17,607.71	16,191.88

#### 37 Earnings Per Equity Share (EPS):

The basic earnings per equity share is computed by dividing the net profit/ loss after tax attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the profit/ loss after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per equity share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per equity share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits/reverse share splits, bonus shares and share warrants and the potential dilutive effect of Employee Stock Options Plans, as appropriate.

38 The Group has taken various premises on operating leases/ leave and license and lease payments recognized in the statement of profit and loss and property, plant and equipment amounting to ₹ 277.66 lakhs and ₹ NIL respectively for the year ended 31 March 2019 (31 March 2018: ₹ 524.03 lakhs for statement of profit and loss and ₹ 7.77 lakhs for property, plant and equipment) in respect of the same. The underlying agreements are executed for a period generally ranging from 11 months to three years, renewable at the option of the Group and are cancellable, by giving a notice generally of 30 to 90 days. An agreement is entered into by the Holding Company for a period of 9 years with non-cancellable period of initial 3 years. There are no restrictions imposed by such leases and there are no subleases. The minimum lease rentals outstanding as at Balance Sheet dates are as under:

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

The Holding Company has entered into a Power Purchase Agreement with MSEDCL (Lessee) for the supply of electricity for a term of 25 years, which has been considered to include an embedded lease arrangement for the Group's power plant. Such lease is classified as operating lease, and as such the revenue is recognized on straight line basis. Considering that the capacity charges per unit is higher in the initial years, there is a negative impact to P&L on account of straightlining. Accordingly, capacity charges charged by the Group are treated as lease rentals. The minimum lease payments under non- cancellable operating leases to be charged by the Group are as follows:

### (Amount in ₹ Lakhs)

Particulars	31 March 2019	31 March 2018

### 40 Financial instruments

# i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

**Level 1:** Quoted prices (unadjusted) in active markets for financial instruments.

**Level 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

# ii) Risk Management

The Group is exposed to various risks in relation to financial instruments. The Group's financial assets and liabilities by category are summarised in note 41(i). The main types of risks are market risk, credit risk and liquidity risk. The most significant financial risks to which the Group is exposed are described below:

The Group's risk management is carried out by a central finance department (of the Group) under direction of the Board of Directors. The Board of Directors provides principles for overall risk management, and covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

### A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Group. Credit risk arises from cash and cash equivalents, trade receivables, investments carried at amortised cost and deposits with banks and financial institutions. The Group's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at 31 March, as summarised below:

(Amount in ₹ Lakhs)

Particulars	31 March 2019	31 March 2018
Loans (i)	1,378.26	3,294.82
Trade receivables (ii)	124,936.45	132,714.59
Cash and cash equivalents (iii)	2,249.01	14,914.39
Other bank balances (iii)	2,021.02	3,651.45
Other financial assets (i)	20,642.30	25,898.24

The Group continuously monitors defaults of customers and other counterparties, and incorporates this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties.

The Group's management considers that these financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on-going basis throughout each reporting period. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 30 days past due. A default on a financial asset is when the counterparty fails to make contractual payments when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

(i) The Group's management considers assets other than trade receivables, which are 30 days past due and analyses facts and circumstances surrounding each such defaults separately. If the facts indicate a probability of loss of value, the assets then expected cash flows are plotted in an present value based impairment model to determine the amount of impairment loss. Amounts are written off only in the following circumstances: a) no probable legal recourse is available for recovery, b) the counterparty is bankrupt, c) the cost of recovery is more than the amount or d) after all possible efforts the Group is unable to recover amounts after a period of 3 years.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

- (ii) Group's major trade receivables are only with, government owned counterparty and are recovery under the power purchase agreement and bulk power transmission agreements. Therefore, these trade receivables are considered high quality and accordingly no life time expected credit losses are recognised on such receivables based on simplified approach. Any provisions against such receivables are for liquidated damages and not related to credit worthiness of the counterparty. The Group considers that trade receivables are not credit impaired as these are receivable from Government undertaking.
- (iii) The credit risk for cash and cash equivalents and other bank balances is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

# B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Group maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the entity operates.

### Maturities of financial liabilities

The tables below analyse the Group's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

<sup>\*</sup> Borrowings excludes finance lease obligations, refer note 38 for disclosure of maturity profile of finance lease obligations.

# C) Market Risk

### a) Foreign currency risk

The Group is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Group's functional currency.

# Foreign currency risk exposure:

The Group's exposure to foreign currency risk at the end of the reporting periods is Nil.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

# b) Interest rate risk

# i) Liabilities/assets

The Group's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2019, the Group is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Group's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

# 42 Capital management

The Group's capital management objectives are

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders

The Group monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Group's various classes of debt. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt. The amounts managed as capital by the Group for the reporting periods under review are summarised as follows:

# (Amount in ₹ Lakhs)

The above information and that given in Note 23 - 'Trade Payables' regarding Micro, Small and Medium Enterprises has been determined to the extent such parties have been identified on the basis of information available with the Company. This has been relied upon by the Auditors.

- 48 The Group is engaged in power generation and the setting up of power projects for generating, transmitting and supplying all forms of electrical energy and to undertake allied/ incidental activities in connection therewith. Considering the nature of the Company's business and operations, and the information reviewed by the Chief Operating Decision Maker (CODM) to allocate resources and assess performance, the company has one reportable business segment i.e. "Power generation and allied activities" as per the requirements of Ind AS 108 − 'Operating Segments'. Revenue of ₹ 190,926.97, lakhs (31 March 2018-₹ 201,538.21 lakhs) are derived from a single external customer and the Company operates in one geography.
- 49 In respect of amounts as mentioned under Section 125 of the Companies Act, 2013, there are no delays in transfer of dues required to be credited to the Investor Education and Protection Fund as at 31 March 2019. There were no dues required to be credited to the Investor Education and Protection Fund as at 31 March 2019.
- 50 In previous year, Holding Company has retrospectively amended the Inter Company Deposits (ICD) agreements with certain entities in which KMP has significant influence in respect of ICD interest of earlier periods to the extent not paid upto the date of agreement and thereafter. As per the revised terms unpaid interest, amounting to ₹ 15,016.48 Lakhs up to 31 March 2019, on such loans will accrue and become due only on future uncertain event. Accordingly, during the year ended 31 March 2019, interest amounting of ₹ 8,843.80 lakhs on such ICDs has not been charged to the statement of profit and loss of the group.
- 51 During the current year, one of the lender of the Company adjusted ₹ 394.03 lakhs (31 March 2018: ₹ 7,789.54 lakhs) of its dues on the Company, by selling of 92.28 lakhs shares (31 March 2018: 1,000 lakhs shares) out of total invoked 300 lakhs pledged equity shares (31 March 2018: 1,000 lakhs pledged equity shares) of the Company issued to RR Infralands Limited (RRIL), a Company having significant influence. To replenish it, 'IPL-PPSL scheme trust' transferred 75 lakhs equity shares (31 March 2018: 1,000 lakhs equity shares) to RRIL, and similarly for remaining 225 lakh shares (31 March 2018: Nil), liability towards RRIL has also been recognized by the Company. Pursuant to this transaction, corpus of the 'IPL-PPSL trust' in the books of the Company is reduced by ₹ 75 lakhs (31 March 2018: ₹ 1,000 lakhs) being value of 75 lakhs equity shares (31 March 2018: 1,000 lakhs equity shares) and balance ₹ 245.24 lakhs (31 March 2018: ₹ 6,789.54 lakhs) has been credited to Capital Reserve.
- 52 The Group has incurred a loss of ₹ 326,535.39 lakh during the year ended 31 March 2019 (year ended 31 March 2018 ₹ 164,817.63 lakh), and as of that date, Group's accumulated losses from operations amounts to ₹ 682,068.22 lakh (as of 31 March 2018 ₹ 350,549.44 lakh) and its current liabilities exceed current assets by ₹ 671,282.00 lakh (year ended 31 March 2018 ₹ 397,585.41 lakh). The Holding Company continued to operate at sub-optimal levels due to lower demand form

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

MSEDCL and also short availability of coal during the year resulting in adverse impact on cash flow from operations and STPL is yet to commence operations.

Subsequent to defaults in payment of debt by the Holding Company as well as STPL, the lenders of the Holding Company as well as STPL invoked S4A and SDR respectively. However, subsequent to RBI's notification dated 12 February 2018, all debt restructuring schemes (including S4A and SDR) were repealed with immediate effect which impacted progress made by the Holding Company and STPL under S4A and SDR respectively. The Hon'ble Supreme Court vide its order dated 02 April 2019 has quashed RBI's notification dated 12 February 2018. The Holding Company and STPL are in active discussion with lenders for successful resolution of debt.

These conditions indicate the existence of material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern. However, on expectation of resolution of debt of Company and STPL with Lenders, restoration of full operations of Holding Company on higher demand from MSEDCL and availability of coal, implementation of PPA in STPL soon and other mitigating factors mentioned in the aforesaid notes, these consolidated financial statements have been prepared on a going concern basis.

- 53 The consolidated financial statements include capital work in progress (CWIP) balance of ₹ 98,430.35 lakh as at 31 March 2019 in respect of 1350 MW power plant (Phase II) of the Holding Company as well as one its subsidiary company STPL. The construction activities at both these projects are currently suspended. The management believes that the suspension is temporary and is not likely to lead to impairment of the aforementioned CWIP. For both the Projects, the Group has all necessary environmental clearances and infrastructure like land, railway, water connection and FSA (only in case of Holding Company) which are difficult to secure in the current environment. Further the cost of setting up these plants is significantly lower than setting up a new plant due to common facilities available with the Group.
  - In view of the aforementioned factors along with external factors such as increasing power consumption and related demand in market, management is confident that the Projects are fully viable and hopeful of reviving these Projects at appropriate time. Considering these factors and the ongoing discussion with suppliers, the management believes, no impairment is required to the aforementioned carrying amount of CWIP in these consolidated financial statements.
- **54** The exceptional items include, as per the re-assessment done by the management, an amount of ₹ 132,921.31 lakh provided for/written off during the current year on account of other receivable which are uncertain on their recoverability. Such provision/ write off are not in ordinary course of business of the group and hence considered as exceptional items in nature.

# **Independent Auditors' Report**

To the members of RattanIndia Power Limited (formerly Indiabulls Power Limited.)

Report on the Audit of the Standalone Financial Statements

# **Qualified Opinion**

- We have audited the accompanying standalone financial statements of RattanIndia Power Limited (formerly Indiabulls Power Limited.) ('the Company'), which comprise the Balance Sheet as at 31 March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
- In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matters described in the Basis for Qualified Opinion section of our report, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2019, and its loss (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

# **Basis for Qualified Opinion**

- As explained in Note 55 to the accompanying standalone financial statements, the Company has a non-current investment of ₹ 302,621.55 lakhs in, inter corporate deposits (classified as loans under current financial assets) of ₹ 5,098.36 lakhs and trade receivable of ₹532.65 lakhs recoverable from Sinnar Thermal Power Limited (formerly RattanIndia Nasik Power Limited) (STPL), a wholly-owned subsidiary of the Company, as at 31 March 2019. The subsidiary company has incurred losses since its inception and is yet to commence operations. The accumulated losses in the subsidiary company amount to ₹377,824.45 lakhs as at 31 March 2019 and the management of the subsidiary company has determined that a material uncertainty exists, as at 31 March 2019, that may cast significant doubt about the subsidiary company's ability to continue as a going concern. The management of the Company, based on an internal estimate, has recorded an impairment against carrying value of investment in STPL amounting to ₹ 151,310.77 lakhs and has also written off aforementioned balances of inter corporate deposits amounting to ₹ 4,848.36 lakhs and trade receivables of ₹ 532.65 lakhs. In the absence of evidence for such impairment assessment performed by the management, we are unable to obtain sufficient appropriate evidence to comment on any adjustment that may further be required to be made to the balance carrying value of the above mentioned non-current investment as at 31 March 2019, and the consequential impact thereof on the accompanying standalone financial statements.
- We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

# **Material Uncertainty Related to Going Concern**

We draw attention to Note 53 to the standalone financial statements which indicates that the Company has incurred a net loss of ₹ 279,152.62 lakhs during the year ended 31 March 2019 and, as of that date, the Company's accumulated losses amounts to ₹411,673.83 lakhs and the Company's current liabilities exceed its current assets by ₹285,867.93 lakhs. The Company has also made defaults in repayment of borrowings from banks, including interest, by an amount aggregating ₹ 237,051.14 crores till 31 March 2019. These conditions along with other matters as set forth in such note, indicate the existence of material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. However, in view of withdrawal of the petition before the National Company Law Tribunal (NCLT) under Insolvency and Bankruptcy Code, 2016 by the lender banks on 14 May 2019, the ongoing discussions relating to restructuring of its borrowings and other debts with the lenders which includes a binding One Time Settlement (OTS) offer made by the Company based on identification of new investors and infusion of funds by the promoters, better financial performance as a result of favourable business conditions expected in future and other mitigating factors mentioned in the aforesaid note, the management is of the view that going concern basis of accounting is appropriate for preparation of the accompanying standalone financial statements. Our opinion is not modified in respect of this matter.

The above assessment of the Company's ability to continue as going concern is by its nature considered as key audit matter

in accordance with SA 701 In relation to the above key audit matter, our audit work included, but was not limited to, the following procedures:

- a) Obtained understanding of the management's process for identifying all events or conditions that could impact the Company's ability to continue as a going concern, and the process to assess the corresponding mitigating factors existing against each such event or condition.
- b) Evaluated the design and tested the operating effectiveness of key controls around aforesaid identification of events or conditions and mitigating factors, and controls around cash flow projections prepared by the management.
- c) Tested the appropriateness of the key assumptions in the cash flow projections for next 12 months by considering our understanding of the business, past performance of the Company, external data and market conditions apart from discussing these assumptions with the management and the Audit Committee.
- d) Evaluated the sensitivity analysis performed by the management in respect of the key assumptions discussed above to ensure that there was sufficient headroom with respect to the estimation uncertainty impact of such assumptions on the calculation.
- e) Tested the arithmetical accuracy of the calculations including those related to sensitivity analysis performed by the management.
- f) Evaluated the historical accuracy of the cash flow projections made by the management in prior periods.
- g) Reviewed the minutes of meetings of lenders, binding offer, correspondence with proposed investors, etc. with respect to the status of OTS offer.
- h) Evaluated the appropriateness of the disclosures made in the financial statements in respect of going concern basis of accounting in accordance with the applicable accounting standards.

### **Emphasis of Matter**

6. We draw attention to Note 54 to the accompanying standalone financial statements with respect to capital work-in-progress (CWIP) aggregating to ₹ 54,657.35 lakhs outstanding as at 31 March 2019, pertaining to construction of second 1350 MW power plant (Phase II) of the Company which is currently suspended. Based on expected revival of the project and other factors described in the aforesaid note, the management believes that no adjustment is required to the carrying value of the aforesaid balances. Our audit opinion is not modified in respect of this matter.

# **Key Audit Matter**

- 7. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- 8. In addition to the matter described in the Basis for Qualified Opinionand Material Uncertainty Related to Going Concern sections we have determined the matters described below to be the key audit matters to be communicated in our report.

# Recoverability of amounts due from Maharashtra State Electricity Distribution Company Limited (MSEDCL)

The Company has dues from MSEDCL amounting to Rs. 123,297.03 lakhs as at 31 March 2019.

As detailed in Note no 32(C) to the standalone financial statements, there are certain claims by the Company which are disputed by MSEDCL including claim on account of Compensatory Claim (CCEA) amounting to Rs. 28,658.80 lakhs and Late Payment Surcharge (LPS) thereon and Changein-law (CIL) Claims. These are under litigation at various levels of regulatory authorities.

The Company has obtained a legal opinion from an independent counsel with respect to recoverability of Rs. 28,658.80 lakhs on account of CCEA claims and LPS thereon.

# Our audit work in relation to assessment of recoverability of amounts due from MSEDCL included, but was not limited to, the following:

- Obtained an understanding of the nature of litigations and key developments during the year from the management.
- Tested the design, implementation and operating effectiveness of the controls that the Company has established in relation to recoverability of such dues.
- Evaluated the reasonableness of the key assumptions used by the management in determination of recoverable amount based on our knowledge of the business and industry.
- Obtained legal opinion from the Company's external legal counsel and analysed the same in light of the current industry practice.

Further, in respect of claim related to CIL, the Maharashtra Electricity Regulatory Commission, vide order dated 3 April 2018, has decided a methodology for computing the quantum of claim which is disputed by the Company and the matter is pending for resolution under Appellate Tribunal for Electricity.

Considering the materiality of the balances to the Company's standalone financial statements and the judgements involved in the estimation of recoverability, this matter is considered to be a key audit matter for the current year audit.

- Obtained and reviewed the necessary evidence which includes correspondence with the internal legal counsels and where necessary, inspected minutes of case proceedings available in public domain, to support the decisions and rationale for creation of provisions and / or disclosure of receivables in respect of each such litigation selected for testing.
- Ensured appropriateness of disclosures made in the financial statements with respect to the receivables are in accordance with the applicable accounting standards.

# Impairment of power plant at Amravati

Refer Note 3 for the accounting policies for impairment of assets. The Company has a power generating plant and allied facilities valuing ₹ 639,000.41 lakhs and ₹ 64,591.69 lakhs respectively.

In accordance with Ind AS 36, Impairment of assets, the management identified that impairment indicators existed for the power plant owing to the fact that there has been less than full capacity utilisation of the plant since the commencement of operations, and currently, the plant is operating at around 34% capacity.

The aforesaid assessment of the impairment involves exercising a significant judgement with regard to assumptions and estimates involved in forecasting future cash flows. These assumptions include plant operating level, discount rates, estimation of terminal value.

Changes in the management forecasts or assumptions can impact the assessment of the discounted cash flows and consequently the valuation of such power plant.

A significant amount of audit effort was required particularly as some of these assumptions are dependent on the economic factors and trading conditions in the markets in which the Company operates. Considering the significance of the amounts involved, degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, we have determined impairment of power generating plant as a key audit matter.

# Litigation and contingent liabilities

We refer to the Note 32 of the standalone financial statements of the Company for the year ended 31 March 2019. The Company operates in an industry which is heavily regulated which increases inherent risk of litigations. There are a number of legal and regulatory cases, of which the most significant ones are claims by the Company on MSEDCL as explained in the KAM on recoverability from MSEDCL, and claims by the vendors / suppliers on the Company.

Our audit procedures included, but were not limited to, the following:

- Obtained an understanding of the management process, and performed a walkthrough to evaluate design effectiveness and tested the operating effectiveness of key controls for identifying impairment indicators as well as determining the appropriate methodology to carry out impairment testing for plant, property and equipment.
- Evaluated the appropriateness of applying relevant accounting standards in recognising the impairment loss.
- Challenged the management on the underlying assumptions used for the cash flow projections including the implied growth rates, discount rate, estimation of terminal value etc. considering the evidence available to support these assumptions and our understanding of the business and industry.
- Tested the discount rate and plant operating level used in the forecasts, including comparison to economic and industry forecasts where appropriate.
- Evaluated the sensitivity analysis performed by the management in respect of the key assumptions discussed above to ensure that there was sufficient headroom with respect to the estimation uncertainty impact of such assumptions on the calculation.
- Ensured that disclosures for the aforesaid balances and transactions are adequately disclosed in accordance with the applicable accounting standards.

Our audit procedures included, but were not limited to, the following:

- Obtained an understanding of the management process for:
  - identification of legal and tax matters initiated against the Company;
  - assessment of accounting treatment for each such litigation identified under Ind AS 37 accounting principles; and
  - for measurement of amounts involved.

The eventual outcome of these legal proceedings is dependent on the outcome of future events and unexpected adverse outcomes could significantly impact the Company's reported profits and balance sheet position.

The amounts involved are material and the application of accounting principles as given under Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets, in order to determine the amount to be recorded as a liability or to be disclosed as a contingent liability, in each case, is inherently subjective, and needs careful evaluation and judgement to be applied by the management.

Key judgments are also made by the management in estimating the amount of liabilities, provisions and/or contingent liabilities related to aforementioned litigations.

Considering the degree of judgment, significance of the amounts involved, inherent high estimation uncertainty and reliance on external legal and tax experts, this matter has been identified as a key audit matter for the current year audit.

- Evaluated the design and tested the operating effectiveness of key controls around above process.
- Obtained an understanding of the nature of litigations pending against the Company and discussed the key developments during the year for key litigations with the management and respective legal counsels handling such cases on behalf of the Company.
- Obtained and reviewed the necessary evidence which includes correspondence with the external and internal legal counsels, wherever applicable and inspected minutes of case proceedings available in public domain, to support the decisions and rationale for creation of provisions and / or disclosure of contingent liabilities in respect of each such litigation selected for testing. We focused on the developments in the existing litigations and new litigations, which could have materially impacted the amounts recorded as provisions or disclosed as contingent liability in the standalone financial statements.
- Assessed management's conclusions through discussions held with the in-house legal counsel and understanding precedents set in similar cases.
- Obtained and read the correspondence with the regulatory authorities, including past judgements on the subject matter of specific significant litigations.
- Assessed the appropriateness of methods used, and the reliability of underlying data for the underlying calculations made for quantifying the amounts involved. Tested the arithmetical accuracy of such calculations.
- Evaluated the adequacy of disclosures made by the Company in the financial statements in view of the requirements as specified in the Indian Accounting Standards.

# Information other than the Financial Statements and Auditor's Report thereon

9. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

### Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

10. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs (financial position), loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in

accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

- 11. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
- 12. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibilities for the Audit of the Financial Statements

- 13. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
- 14. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design
    and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
    provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for
    one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
    override of internal control.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for explaining our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
  - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 15. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 16. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 17. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or

when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# **Report on Other Legal and Regulatory Requirements**

- 18. As required by section 197(16) of the Act, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
- 19. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 20. Further to our comments in Annexure A, as required by section 143(3) of the Act, we report that:
- a) we have sought and except for the possible effect of the matter described in the Basis for Qualified Opinion paragraph, obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) the standalone financial statements dealt with by this report are in agreement with the books of account;
- d) except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
- e) the matters described in paragraph 3 under the Basis for Qualified Opinion paragraph and paragraph 5 under Material Uncertainty Related to Going Concern and paragraph 6 under the Emphasis of Matters paragraph, in our opinion, may have an adverse effect on the functioning of the Company;
- f) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of section 164(2) of the Act;
- g) the qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the Basis for Qualified Opinion paragraph;
- h) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 20 May 2019 as per Annexure B expressed modified opinion; and
- i) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
- i. the Company, as detailed in Note 32(A) and 32(B) to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2019;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2019;
- iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2019; and
- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

# Annexure A to the Independent Auditors' Report

Annexure A to the Independent Auditor's Report of even date to the members of RattanIndia Power Limited (formerly Indiabulls Power Limited.) on the standalone financial statements for the year ended 31 March 2019

### Annexure A

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
  - (b) The Company has a regular program of physical verification of its property, plant and equipment under which fixed assets are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
  - (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company except for the following properties:

(Amount in ₹ Lakhs)

Nature of property	Total number of cases	Whether leasehold/ freehold	Gross block as on 31 March 2019	Net block on 31 March 2019
Land	1	Freehold	337.35	337.35

- (ii) In our opinion, the management has conducted a physical verification of inventory at reasonable intervals during the year, except for goods-in-transit and stocks lying with third parties. For stock lying with the third parties at the year-end, written confirmations have been obtained by the management. No material discrepancies were noticed on the aforesaid verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) The Company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, to the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they become payable.
  - (b) There are no dues in respect of income-tax, sales-tax, service tax, duty of customs, duty of excise and value added tax that have not been deposited with the appropriate authorities on account of any dispute.
- (viii) There are no loans or borrowings payable to government and no dues payable to debenture-holders. The Company has defaulted in repayment of loans/borrowings to the following banks and financial institutions:

# Annexure A to the Independent Auditors' Report (contd.)

Statement of defaults in repayment of borrowings from banks and financial institutions that are not paid as at Balance Sheet date:

# Annexure B to the Independent Auditors' Report

Annexure B to the Independent Auditor's Report of even date to the members of RattanIndia Power Limited (formerly Indiabulls Power Limited.) on the standalone financial statements for the year ended 31 March 2019

### Annexure B

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of RattanIndia Power Limited (formerly Indiabulls Power Limited.) ('the Company') as of and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting (IFCoFR) of the company of as of that date.

# Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

# Auditors' Responsibility

- Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

# Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# **Qualified Opinion**

8. We have not been provided sufficient and appropriate audit evidence with respect to assessment of the carrying value of

# Annexure B to the Independent Auditors' Report (contd.)

- investment in a wholly owned subsidiary. In the absence of sufficient audit evidence, we are unable to comment on adequacy and operating effectiveness of controls over the impairment assessment process and it's the potential impact on carrying value of investment and the consequential impact on the accompanying standalone financial statements.
- 9. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI except for the possible effect of the material weakness described above on the achievement of the objectives of the control criteria, the Company's internal financial controls over financial reporting were operating effectively as at 31 March 2019.
- 10. We have considered the material weakness identified and reported above in determining the nature, timing and extent of audit tests applied in our audit of the standalone financial statements of the Company as at and for the year ended 31 March 2019, and the material weakness has affected our opinion on the standalone financial statements of the Company and we have issued a qualified opinion on the standalone financial statements.

# Standalone Notes Part of the Financial Statements (Contd.)

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

### 1. Corporate Information

### **Nature of Operations**

RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) ("the Company", "RPL") is principally engaged in the business of dealing in power generation, distribution, trading and transmission and other ancillary and incidental activities.

### General information and statement of compliance with Ind AS

The standalone financial statements of the Company have been prepared in accordance with the Indian Accounting Standards as notified under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules 2015 (by Ministry of Corporate Affairs ('MCA')). The Company has uniformly applied the accounting policies during the periods presented.

The standalone financial statements for the year ended 31 March 2019 were approved by the Board of Directors on 20 May 2019.

### 2. Recent accounting pronouncements

# Application of new and revised Indian Accounting Standard (Ind AS)

Accounting standards or amendments in the accounting standards adopted on/from 1 April 2018 Ind-AS 115, "Revenue from Contracts with Customers" issued on March 28, 2018, which provides a unified five step model for determining the timing, measurement and recognition of revenue. The focus of the new standard is to recognize revenue as performance obligations are met rather than based on the transfer of risks and rewards. Ind-AS 115 includes a comprehensive set of disclosure requirements including qualitative and quantitative information about contracts with customers to understand the nature, amount, timing and uncertainty of revenue.

The standard supersedes the erstwhile standard, viz., Ind-AS 18 "Revenue" and Ind-AS 11"Construction Contracts". Ind-AS 115 clarifies how to identify a performance obligation, determine whether a company is a principal or an agent. The Company's revenue is predominantly derived from the single performance obligation i.e. sale of electricity in which the transfer of risks and rewards of ownership and the fulfilment of the Company's performance obligation occur at the same time. Henceforth, the adoption of this standard did not have a material impact on the financial statements of the Company.

# Insertion of Appendix B to Ind AS 21:

This Appendix applies to a foreign currency transaction (or part of it) when an entity recognizes a non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration before the entity recognizes the related asset, expense or income (or part of it). The amendment to Ind AS 21 requires the entities to consider exchange rate on the date of initial recognition of advance consideration (asset/liability), for recognising related expense/income on the settlement of said asset/liability.

This Appendix does not apply when an entity measures the related asset, expense or income on initial recognition:

- a. At fair value; or
- b. At the fair value of the consideration paid or received at a date other than the date of initial recognition of the non-monetary asset or non-monetary liability arising from advance consideration.

An entity is not required to apply this Appendix to:

- a. income taxes; or
- b. insurance contracts (including reinsurance contracts) that it issues or reinsurance contracts that it holds.

The Company does not have its impact on the financial statements.

# Amendment to Ind AS 12

The amendment to Ind AS 12 requires the entities to consider restriction in tax laws in sources of taxable profit against which entity may make deductions on reversal of deductible temporary difference (may or may not have arisen from same source) and also consider probable future taxable profit.

The Company does not have its impact on the financial statements.

### Standards issued but not yet effective

### IND AS 116 - Leases

On March 30 2019, the Ministry of Corporate Affairs (MCA) notified Ind AS 116, "Leases" as part of the Companies (Indian Accounting Standards (Ind AS)) Amendment Rules, 2019. Ind AS 116 replaces existing standard on leases i.e. Ind AS 17, with effect from accounting periods starting on or after April 1, 2019. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize a right-of-use asset over the underlying leased asset and a lease liability representing its obligation to make lease payments for all leases with a term of more than 12 months, unless the underlying asset is of low value.

# Other Amendments on the existing standard not yet effective:

A number of other accounting standards have been modified on miscellaneous issues with effect from April 1, 2019. Such changes include clarification/guidance on:

- Income tax consequences in case of dividends (Ind AS 12 Income Taxes (amendments relating to Income tax consequences of dividend));
- Accounting for Income tax when there is uncertainty over income tax treatment of an item by tax authorities (Ind AS 12 Income Taxes (amendments relating to uncertainty over Income tax treatments));
- Accounting treatment for specific borrowings post capitalization of corresponding qualifying asset (Ind AS 23 Borrowing Costs);
- Accounting for plan amendment, curtailment or settlement occurring in-between the reporting periods in case of long term employee benefit plans (Ind AS 19 – Plan Amendments, Curtailment of Settlement).

The above amendments will come into force from April 1, 2019. Basis the preliminary evaluation, the company does not expect the effect of this on the financial statements to be material.

### Summary of significant accounting policies

# a) Overall consideration

The standalone financial statements have been prepared using the significant accounting policies and measurement basis as summarised below. These were used throughout all periods presented in the financial statements, except where the Company has applied certain accounting policies and exemptions upon transition to Ind AS.

# Basis of preparation

The standalone financial statements have been prepared on going concern basis under the historical cost basis except for the following -

- Certain financial assets and liabilities which are measured at fair value;
- Defined benefit plans liability of which is recognised as per actuarial valuation; and
- Share based payments which are measured at fair value of the options

# Revenue recognition

Revenue arises from the supply of power. Revenue is recognised when it is probable that the economic benefits will flow to the Company and it can be reliably measured. Revenue is measured at the fair value of the consideration received/receivable net of rebates and taxes. The Company applies the revenue recognition criteria to each separately identifiable component of the sales transaction as set out below.

# Revenue from operation of plant

Revenue from operation of plant is recognised on transfer of significant risks and rewards of ownership to the buyer which is when delivered, and measured on an accrual basis based on the rates in accordance with the provisions of the Power Purchase Agreements (PPAs) entered into by the Company with the procurer/s of power. Claims for delayed payment charges and other claims are accounted by the Company on accrual basis in accordance with the provisions of the PPAs only when it is reasonable to expect ultimate collection. Excise Duty is not applicable on generation and sale of power. Sales exclude Sales tax and Value Added Tax, where applicable.

# Standalone Notes Part of the Financial Statements (Contd.)

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

Revenue from Power generated during trial runs is accounted on the basis of accruals and is reduced from the Preoperative expenses.

Refer policy on leased assets for accounting policy of customer contracts that contain a lease.

Service income

Revenue from Power Consultancy/ Advisory Services is recognised when services are rendered.

Interest Income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

# c) Borrowing costs

Borrowing costs include interest and amortisation of ancillary costs incurred to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/ development of the qualifying asset up to the date of capitalisation of such asset are added to the cost of the assets. Any income earned on the temporary deployment/ investment of those borrowings is deducted from the borrowing costs so incurred. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use.

# d) Property, plant and equipment

Recognition and initial measurement

Properties plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Any expenditure directly/ indirectly related and attributable to the construction of power projects and incidental to setting up power project facilities, incurred prior to the Commercial Operation Date (COD) of the Power Project, are accumulated under "Capital work-in-progress", to be capitalised on completion of construction of the respective power projects/ COD.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives prescribed in Schedule II to the Companies Act, 2013:

Properties plant and equipment acquired and put to use for the purpose of the Project are capitalised and depreciation thereon is included in capital work-in-progress till the Project is ready for its intended use.

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

# Standalone Notes Part of the Financial Statements (Contd.) RattanIndia

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

### Intangible assets e)

Recognition and initial measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortisation)

The cost of capitalized software is amortized over a period in the range of three to five years from the date of its acquisition.

# Leased assets

Determining whether an arrangement contains a lease

The Company has certain long term arrangements for sale of power. Such arrangements are evaluated to consider whether it contains a lease. It is considered to contain a lease if based on the substance of the arrangement:

- fulfilment of the arrangement is dependent on the use of a specific asset or assets (the asset); and
- (ii) the arrangement conveys a right to use the asset.

An arrangement is considered to contain a lease if facts and circumstances indicate that it is remote that one or more parties other than the purchaser will take more than an insignificant amount of the output or other utility that will be produced or generated by the asset during the term of the arrangement, and the price that the purchaser will pay for the output is neither contractually fixed per unit of output nor equal to the current market price per unit of output as of the time of delivery of the output.

# Company as a lessee

# Finance leases

Finance leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Lease management fees, legal charges and other initial direct costs are capitalised.

If there is no reasonable certainty that the Company will obtain the ownership by the end of lease term, capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

# Operating leases

Assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straightline basis except where scheduled increase in rent compensate the lessor for expected inflationary costs.

### Company as a lessor

### Finance leases

Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognised as revenue in the period in which they are earned.

# Operating leases

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. The respective leased assets are included in the balance sheet based on their nature. Rental income is recognized on straightline basis over the lease term except where scheduled increase in rent compensates the Company with expected inflationary costs.

Such lease is classified as operating lease, and as such the revenue is recognized on straight line basis. Considering that the capacity charges per unit is higher in the initial years, there is a negative impact to P&L on account of straightlining.

# Standalone Notes Part of the Financial Statements (Contd.)

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

# g) Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/ external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

### h) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, unless the financial instrument is designated to be measured at fair value through profit or loss or fair value through other comprehensive income.

## **Financial assets**

Subsequent measurement

- Financial assets at amortised cost the financial assets are measured at the amortised cost if both the following conditions are met:
  - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows,
  - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. All other debt instruments are measured at Fair Value through other comprehensive income or Fair value through profit and loss based on Company's business model. All investments in mutual funds in scope of Ind-AS 109 are measured at fair value through profit and loss (FVTPL).

# De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

# **Financial liabilities**

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings and deposits.

# De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

## **Derivative contracts**

A derivative contract is recognised as an asset or a liability on the commitment date. Outstanding derivative contracts as at reporting date are fair valued and recognised as financial asset/financial liability, with the resultant gain/ (loss) being recognised in statement of profit and loss.

# Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

# Standalone Notes Part of the Financial Statements (Contd.) RattanIndia

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

### i) Investments in subsidiaries, joint ventures associates

The Company has accounted for its investments in subsidiaries and associates, joint ventures at cost in its standalone financial statements in accordance with Ind AS-27, Standalone Financial Statements.

Profit/ loss on sale of investments is recognised on the date of the transaction of sale and is computed with reference to the original cost of the investment sold.

### Impairment of financial assets j)

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive. When estimating the cash flows, the Company considers –

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

### Trade receivables

The Company applies approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

# Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, life time impairment loss is provided, otherwise provides for 12 month expected credit losses.

# **Inventories**

Inventories are valued at the lower of cost derived on weighted average basis and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of consumption, including octroi and other levies, transit insurance and receiving charges.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated necessary costs to make the sale.

### Income taxes

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax not recognised in OCI or directly in equity.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961 and in the overseas branches/ companies as per the respective tax laws. Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss in OCI or equity depending upon the treatment of underlying item.

Deferred income taxes are calculated using the liability method. Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss in OCI or equity depending upon the treatment of underlying item.

# m) Cash and cash equivalents

Cash and cash equivalents comprise Cash on hand, demand deposits with banks/ corporations and short-term highly liquid

# Standalone Notes Part of the Financial Statements (Contd.)

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

investments (original maturity less than 3 months) that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

# n) Post-employment, long term and short term employee benefits

### Defined contribution plans

The Company makes contribution to the statutory provident fund in accordance with the Employees Provident Fund and Miscellaneous Provision Act, 1952 which is a defined contribution plan and contribution paid or payable is recognised as an expense in the period in which the services are rendered.

### Defined benefit plans

Gratuity is in the nature of a defined benefit plan. The liability recognised in the standalone financial statements in respect of gratuity is the present value of the defined benefit obligation at the reporting date together with adjustments for unrecognised actuarial gains or losses and past service costs. The defined benefit obligation is calculated at or near the reporting date by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to the statement of OCI in the year in which such gains or losses are determined.

# Other employee benefits

Liability in respect of compensated absences becoming due or expected to be availed within one year from the balance sheet date is recognised on the basis of undiscounted value of estimated amount required to be paid or estimated value of benefit expected to be availed by the employees. Liability in respect of compensated absences becoming due or expected to be availed more than one year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the year in which such gains or losses are determined.

# Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

### o) Share based payments

The Company has formulated Employee Stock Option Schemes (ESOS) and Employee Stock Purchase Schemes (ESOP) in accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and are in compliance with the said guidelines and SEBI (Share Based Employee Benefits) Regulation, 2014. The Schemes provide for grant of options to employees of the Company and its subsidiaries to acquire equity shares of the Company that vest in a graded manner and that are to be exercised within a specified period.

# Employee stock Purchase plan (ESOP)

The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit and loss, with a corresponding adjustment to equity.

# p) Provisions, contingent assets and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

## Contingent liability is disclosed for:

· Possible obligations which will be confirmed only by future events not wholly within the control of the Company or

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefit is probable, related asset is disclosed.

#### q) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

#### Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the standalone financial statements -

Determining whether an arrangement contains a lease – Whether an arrangement contains a lease depends on whether purchaser will take more than an insignificant amount of the output or other utility that will be produced or generated by the asset during the term of the arrangement.

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits or uncertainties under the relevant tax jurisdiction (see note 9).

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Recoverability of advances/ receivables - At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Defined benefit obligation (DBO) - Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Provisions – At each balance sheet date on the basis of the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions. However the actual future outcome may be different from this judgement.

#### Significant estimates

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be different.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

**Classification of leases** – The classification of the leasing arrangement as a finance lease or operating lease requires several estimates like present value of unguaranteed residual value and present value of minimum lease payments.

#### Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Company.

#### Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

#### Useful lives of depreciable/ amortisable assets

Management reviews its estimate of the useful lives of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

#### b) Rights/restrictions attached to equity shares

Equity shares at the end of the year

The Company has only one class of equity shares with voting rights, having a par value of ₹ 10 per share. Each shareholder of equity shares is entitled to one vote per share held. Each share is entitled to dividend, if declared, in Indian Rupees. The dividend, if any, proposed by Board of Directors is subject to the approval of the Shareholders in the ensuing Annual General Meeting, except in the case of interim dividend. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the Shareholders.

#### 32 Details of contingent liabilities, pending litigations and other matters:

#### A. Contingent Liabilities of pending litigations not provided for in respect of:

The Water Resource Department ('WRD' or "Respondent') vide their letter dated 29 January 2013 raised a demand of ₹ 23,218 lakhs on Company for payment of irrigation restoration charges @ ₹ 1 lakh per hectare as per Government Resolution (GR) dated 6 March 2009 instead of ₹ 0.50 lakh per hectare as provided in circular from Water Resources Department, Government of Maharashtra dated 21 February 2004. The Company had paid ₹ 11,657 lakhs (@ ₹ 0.50 lakh per hectare) and filed a Writ Petition with the Hon'ble Bombay High Court on 13 February 2013 challenging the validity of demand so raised by WRD. The Mumbai bench of Hon'ble Bombay High Court vide its Order dated 3 August 2015 transferred the matter to the Nagpur Bench. The Nagpur bench vide its order dated 5 May 2016 has partly allowed the petition and declared that demand at revised rate i.e. as per GR dated 6 March 2009 from the petitioner is illegal and unsustainable. As per Nagpur Bench order, the rate prescribed in the GR dated 6 March 2009 is applicable prospectively from 1 April 2009 and is not applicable in case of the Company to whom water allocation was finalized on 12 December 2007.

Pursuant to this, Maharashtra State Government filed a Special Leave Petition ("SPL") before the Hon'ble Supreme Court of India. The Hon'ble Court after hearing parties granted time to the Company to file its Counter Affidavit. The Company is ready with its reply which willbe filed on or before next date of hearing. The Pecuniary risk in the matter cannot be quantified. Company is confident that the matter will be disposed off in their favour.

During the year ended 2010-11, the Company entered into a contract with Bharat Heavy Electrical Limited ('BHEL') for erection and supply of certain material for phase II of its power project at Amravati. Subsequent to this contract, BHEL supplied certain materials which were not warranted at that time and there were various communication made by the Company with BHEL to take off these materials from the site. Against this, BHEL initiated arbitration proceeding against the Company, alleging the payment outstanding against the Company in respect of the materials so supplied by them. #### C. Other pending litigations as on 31 March 2019 are:

The Company is supplying power to Maharashtra State Electricity Distribution Company Limited (MSDCL) based on two power purchase agreements (PPAs) for supply of 1200 MW (450 MW + 750 MW respectively) of power for the period of 25 years. The PPAs were executed based on the fuel supply agreement (FSA) which provided that domestic coal linkages would be available to meet the fuel requirements. However, adequate coal supply was not made available which adversely impacted cost as Company had to source fuel from alternate sources to meet the shortfall of coal supplied under FSA with coal supplier. The Cabinet Committee of Economic Affairs (CCEA) approved mechanism where after Ministry of Coal amended the National Coal Distribution Policy (NCDP) and communicated its decision to allow pass through of the incremental cost of procuring coal from alternative sources to meet the shortfall in supply of domestic coal under coal linkage.

The Company filed a petition before Maharashtra Electricity Regulatory Commission ('MERC' or 'the Commission') in year 2013 for realizing the shortfall in supply under NCDP. MERC vide its Order on 15 July 2014 laid down methodology to recover compensatory fuel charges and vide Order dated 20 August 2014.

On 28 August 2014, the Company filed a review petition before MERC against the Orders dated 15 July 2014 as well as Order dated 20 August 2014 and MSEDCL further filed review petition against the Orders of MERC dated 20 August 2014. The review petition filed by MSEDCL got dismissed vide Order dated 16 July 2015 and the review petition filed by the Company also got dismissed vide Order 30 October 2015. As at the balance sheet date, the Company has accounted such claim in the books of accounts aggregating to ₹28,658.80 lakh and related late payment surcharge thereon.

The Company then filed appeals before Appellate Tribunal for Electricity (APTEL) against Orders dated 15 July 2014, 20 August 2014 and 30 October 2015. The said appeals were disposed off by the Hon'ble Tribunal on 4 May 2017, remanding the matters to the Maharashtra Electricity Regulation Commission ('MERC') for fresh adjudication in the light of the direction of the Hon'ble Supreme Court in case of Energy Watchdog and Ors. v/s CERC and Ors. Dated 11 April 2017. MERC heard the matter on 15 November 2017 and reserved it's Order. Subsequent to the balance sheet date, on 3 April 2018, MERC has passed the said Order, whereby MERC principally held that the Company is entitled to compensation and a methodology to recover compensatory fuel charges has been laid down. The Company filed an appeal before the Hon'ble APTEL vide appeal no. 264 of 2018 against the Ld. MERC order dated 03 April 2018, as in it's view, the order

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

- passed by MERC is not fully on the principle of "restoration of the affected party to the same economic position as if the change in law event didn't not occur". The appeal is admitted by APTEL. Pleadings are completed in the said appeal and listed for final arguments on 08 August 2019.
- There has been an increase in cost of power generation owing to increase in various statutory taxes, duties, levies, cess, surcharge etc. Based on various judgements from CERC involving similar situations, management has concluded that these charges are recoverable from MSEDCL under "Change in Law" clause of PPA and during the year the Company has recorded revenue of Rs. 189.39 lakhs (31 March 2018: Rs. 1,439.42 lakhs). The Company filed a petition with MERC on 15 June 2016 claiming approval of additional components of costs under change in law. MERC had issued order dated 5 April 2018 in this respect. Company has filed an appeal vide Appeal No. 263 of 2018 against the order dated 05 April 2018 before the Hon'ble Appellate Tribunal for Electricity ("APTEL") on 06 June 2018. Appeal is admitted by the Hon'ble APTEL. Pleadings are completed in the said appeal and listed for final arguments on 11 July 2019.

#### 36 Employee benefits

#### **Defined contribution:**

Contributions are made to the Government Provident Fund and Family Pension Fund which cover all regular employees eligible under applicable Acts. Both the eligible employees and the Company make pre-determined contributions to the Provident Fund. The contributions are normally based upon a proportion of the employee's salary. The Company has

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

recognized in the statement of profit and loss an amount of ₹ 34.00 lakhs (31 March 2018: ₹ 34.26 lakhs) and in capital work-in- progress ₹ Nil (31 March 2018: ₹ 0.35 lakhs) towards employer's contribution towards Provident Fund.

#### **Defined benefits:**

Provision for unfunded gratuity payable to eligible employees on retirement/ separation is based upon an actuarial valuation as at the year ended 31 March 2019. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. The commitments are actuarially determined using the 'Projected Unit Credit Method' as at the year end. Gains/ losses on changes in actuarial assumptions are accounted for in the statement of profit and loss/ capital work-in-progress, as applicable and as identified by the management of the Company.

#### Other benefits:

Provision for unfunded compensated absences payable to eligible employees on retirement/ separation is based upon an actuarial valuation as at the year ended 31 March 2019. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. The commitments are actuarially determined using the 'Projected Unit Credit Method' as at the year end. Gains/ losses on changes in actuarial assumptions are accounted for in the statement of profit and loss/ capital work-in-progress, as applicable and as identified by the Management of the Company.

#### 37 Earnings/ (loss) per equity share (EPS):

The basic earnings per equity share is computed by dividing the net profit/ loss after tax attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the profit/ loss after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per equity share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per equity share from continuing ordinary operations or increase the net loss per equity share. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits/ reverse share splits, bonus shares and share warrants and the potential dilutive effect of Employee Stock Options Plans, as appropriate.

#### **Financial instruments** 39

#### Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

#### ii) Risk Management

The Company is exposed to various risks in relation to financial instruments. The Company's financial assets and liabilities by category are summarised in note 40(i). The main types of risks are market risk, credit risk and liquidity risk. The most significant financial risks to which the Company is exposed are described below:

The Company's risk management is carried out by a central finance department (of the Company) under direction of the Board of Directors. The Board of Directors provides principles for overall risk management, and covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

#### A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Company. Credit risk arises from cash and cash equivalents, trade receivables, investments carried at amortised cost and deposits with banks and financial institutions. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at 31 March, as summarised below:

(Amount in ₹ Lakhs)

Particulars	31 March 2019	31 March 2018
Preference shares (i)	-	2,100.00
Loans (i)	17,359.25	37,358.42
Trade receivables (ii)	123,307.42	132,854.90
Cash and cash equivalents (iii)	2,115.59	12,795.16
Other bank balances (iii)	1,413.32	2,995.71
Other financial assets (i)	20,474.73	25,673.61

The Company continuously monitors defaults of customers and other counterparties, and incorporates this information into its credit risk controls. The Company's policy is to deal only with creditworthy counterparties.

The Company's management considers that all of the above financial assets are not impaired and/or past due for each of the above assets reporting dates under review are of good credit quality.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on-going basis throughout each reporting period. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 30 days past due. A default on a financial asset is when the counterparty fails to make contractual payments when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

(i) The Company's management considers assets other than trade receivables, which are 30 days past due and analyses facts and circumstances surrounding each such defaults separately. If the facts indicate a probability of loss of value, the asset's then expected cash flows are plotted in an present value based impairment model to determine the amount of impairment loss. Amounts are written off only in the following circumstances: a) no probable legal recourse is available for recovery, b) the counterparty is bankrupt, c) the cost of recovery is more than the amount or d) after all possible efforts the Company is unable to recover amounts after a period of 3 years.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

- Similarly, substantial part of Company's financial assets, other than trade receivables are recoverable from Company's subsidiaries, which the management of the Company believes are not credit impaired and there are no 12 month expected credit losses that are required to be recognised.
- (ii) The Company has no such assets where credit losses have been recognised as none of the assets are credit impaired. Company's trade receivables are only with a single, government owned counterparty and are to be recovered under the power purchase agreement. Therefore, these trade receivables are considered high quality and accordingly no life time expected credit losses are recognised on such receivables based on simplified approach. Any provisions against such receivables are for liquidated damages and not related to credit worthiness of the counterparty.
- (iii) The credit risk for cash and cash equivalents and other bank balances is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

#### Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

#### Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

#### C) Market Risk

#### a) Foreign currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency.

#### Foreign currency risk exposure:

The Company's exposure to foreign currency risk at the end of the reporting periods are as follows:

<sup>\*</sup> Keeping all other variables constant

#### b) Interest rate risk

#### i) Liabilities/assets

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2019, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

#### Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

Price decrease by 1000 basis points (31 March 2018: 1000 basis points)	(1,920.77)	(50.08)

#### 41 Capital management

The Company's capital management objectives are

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The amounts managed as capital by the Company for the reporting periods under review are summarised as follows:

Particulars	31 March 2019	31 March 2018

- (i) The Company has restricted the recognition of deferred tax asset on unabsorbed depreciation and brought forward business losses to the extent of the corresponding deferred tax liability. The unabsorbed business losses of ₹ 299,843.22 lakhs are available for offset for maximum period of eight years from the incurrence of loss.
- 49 The Company is engaged in power generation and the setting up of power projects for generating, transmitting and supplying all forms of electrical energy and to undertake allied/incidental activities in connection therewith. Considering the nature of the Company's business and operations, and the information reviewed by the Chief Operating Decision Maker (CODM) to allocate resources and assess performance, the company has one reportable business segment i.e. "Power generation and allied activities" as per the requirements of Ind AS 108 'Operating Segments'.

Revenue of ₹ 190,926.97 lakhs (31 March 2018 ₹ 201,538.21: lakhs) are derived from a single external customer and the Company operates in one geography.

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

50 The Company has taken various premises on operating leases/ leave and license and lease payments recognized in the statement of profit and loss and property, plant and equipment amounting to ₹209.04 lakhs and ₹Nil respectively for the year ended 31 March 2019 (31 March 2018: ₹ 472.37 lakhs for Statement of Profit and Loss and ₹ 7.77 lakhs for Property, Plant and Equipment) in respect of the same. The underlying agreements are executed for a period generally ranging from 11 months to three years, renewable at the option of the Company and are cancellable, by giving a notice generally of 30 to 90 days. During the year, company office has been shifted to a new facility, wherein a new agreement is entered into by the Company for a period of 5 years with non-cancellable period of initial 2 years. There are no restrictions imposed by such leases and there are no subleases. The minimum lease rentals outstanding as at Balance Sheet dates are as under:

(Amount in ₹ Lakhs)

Minimum lease rentals payables	31 March 2019	31 March 2018
Within one year	53.10	540.92
One to five years	217.98	Nil
Above five years	Nil	Nil

The Company has entered into a Power Purchase Agreement with MSEDCL (Lessee) for the supply of electricity for a term of 25 years, which has been considered as an embedded lease arrangement for the Company's power plant. Such lease is classified as operating lease, and as such the revenue is recognized on straight line basis. Considering that the capacity charges per unit is higher in the initial years, there is a negative impact to P&L on account of straightlining. Accordingly, capacity charges charged by the Company are treated as lease rentals. The minimum lease payments under non-cancellable operating leases to be charged by the Company are as follows:

(Amount in ₹ Lakhs)

31 March 2019	31 March 2018
98,556.48	98,287.20

- 51 In previous year, Company has retrospectively amended the Inter Company Deposits (ICD) agreements with subsidiary company and certain other entities in which KMP has significant influence in respect of ICD interest of earlier periods to the extent not paid upto the date of agreement and thereafter. As per the revised terms unpaid interest, amounting to ₹26,410.36 lakhs up to 31 March 2019, on such loans will accrue and become due only on future uncertain event. Accordingly, during the year ended 31 March 2019, interest amounting of ₹12,393.19 lakhs on such ICDs has not been charged to the statement of profit and loss.
- 52 In respect of amounts as mentioned under Section 125 of the Companies Act, 2013, there are no delays in transfer of dues required to be credited to the Investor Education and Protection Fund as at 31 March 2019. There were no dues required to be credited to the Investor Education and Protection Fund as at 31 March 2018.
- 53 The Company has incurred a loss of ₹279,152.62 lakhs during the year ended 31 March 2019 (year ended 31 March 2018

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

₹ 41,814.00 lakhs), and as of that date, Company's accumulated losses from operations amounts to ₹ 411,673.83 lakhs (as of 31 March 2018 ₹ 132,521.21 lakhs) and its current liabilities exceed current assets by ₹ 285,867.93 lakhs (as of 31 March 2018 ₹ 243,830.29 lakhs). The Company continued to operate at sub-optimal levels due to lower demand form MSEDCL.

The Company has worked extensively with the Lenders ("Lenders") to implement restructuring of its debt under the various schemes and guidelines issued by the Reserve Bank of India (RBI) to address its burgeoning debt and the financial stress faced by the Company, including under RBI's Scheme for Sustainable Structuring of Stressed Assets (S4A). However, with the issuance of RBI's circular on "Resolution of Stressed Assets – Revised Framework" dated 12 February 2018, the S4A scheme was withdrawn. The Hon'ble Supreme Court vide its order dated 02 April 2019 has quashed RBI's aforesaid notification.

With this background and with an aim to resolve the severe financial stress faced by the Company, the Promoters along with the Company offered Binding One Time Settlement Proposal to the Lenders on 06 December 2018 (Binding Settlement Proposal). The Company received letter of intent (the "LOI") dated 01 February 2019 from Lenders, who had funded its 1350 MW thermal power plant project (Phase I) in Amravati, Maharashtra with respect to the Binding Settlement Proposal. In view of the above and in accordance with the terms of the Binding Settlement Proposal, the Board on meeting held on 04 February 2019 approved the composite debt restructuring proposal.

The Binding Settlement Proposal contemplates payment of ₹ 405,000 lakhs to the Lenders towards settlement of Phase I debt of ₹ 787,435 lakhs. As a composite scheme of restructuring, the objectives of the Binding Settlement Proposal includes: (i) restructuring the outstanding debt owed to the Lenders which is being acquired by the Investor into sustainable and unsustainable portion; (ii) convert a portion of the unsustainable debt into nominal coupon bearing long term instrument; (iii) increase the net-worth of the Company; (iv) providing for settlement of identified liabilities of the Company through funding support from the Promoter Group entities.

Subsequently Management has submitted a revised Settlement Proposal to the lenders which is currently under discussion between Lenders, Investors and the Company. It is expected that such discussion will be concluded soon, subsequent to which Lenders will carry out appropriate process for consummation of Binding Settlement Proposal. As a positive step towards ongoing negotiations, subsequent to the balance sheet date, the Lenders on 14 May 2019 have also withdrawn their petition with National Company Law Tribunal (NCLT) against the Company under Insolvency & Bankruptcy Code.

Conditions explained above, unless resolved as stated above, indicate existence of material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. However, on expectation of resolution of debt with Lenders, restoration of full operations on higher demand from MSEDCL and availability of coal, these financial statements have been prepared on a going concern basis.

- The construction activity at Company's 1350 MW power plant (Phase II) is currently suspended. As of 31 March 2019, Phase II capital work in progress (CWIP) balance is Rs. 54,657.35 lakhs. The management believes that the suspension is not likely to lead to impairment of the aforementioned CWIP balance. The Company has all necessary environmental clearances and infrastructure like Fuel Supply Agreement (FSA), land, railway and water connection which are difficult to secure in the current environment. Further the cost of setting up this plant is significantly lower than setting up a new plant due to common facilities available with the Company.
  - In view of aforesaid factors along with external factors such as increasing power consumption and related demand in market, management is confident that the project is fully viable and hopeful of reviving the project at appropriate time. Considering above factors and the ongoing discussion with suppliers, the management believes, no impairment is required to the aforementioned carrying amount of CWIP in these financial statements.
- 55 The Company has non-current investment of ₹ 302,621.55 lakhs in, and loans under current financial assets of ₹ 5,098.36 lakhs and trade receivables of ₹ 532.65 lakhs recoverable from, Sinnar Thermal Power Limited (Formerly known as RattanIndia Nashik Power Limited) ('STPL'), a wholly-owned subsidiary of the Company.
  - STPL has incurred losses since its inception and is yet to commence operations. Subsequent to defaults in debt repayments, STPL initiated discussion with consortium of lenders for restructuring of debt under Strategic Debt Restructuring Scheme ('SDR') as per the Reserve Bank of India (RBI) guidelines. However, RBI's notification dated 12 February 2018 repealed all debt restructuring schemes (including SDR) which resultantly impacted progress made by STPL under SDR. STPL is in active discussion with lenders for successful resolution of debt. In the meanwhile, PFC (Lead lender) filed an application under IBC before NCLT Delhi on 10 September 2018 which was subsequently withdrawn on 14 May 2019.

Recently on 30 April 2019, MSEDCL has issued letter of intent to STPL for execution of PPA of 507 MW (net capacity). Lenders of STPL have also shown interest in starting operations and in granting required working capital and non-fund based facilities so as to implement aforementioned PPA with MSEDCL.

Conditions explained above, indicate existence of uncertainties that may cast significant doubt on the STPL's ability to continue as a going concern due to which the STPL may not be able to realise its assets and discharge its liabilities in the normal course

of RattanIndia Power Limited (formerly known as Indiabulls Power Limited.) for the year ended 31 March 2019

of business. However, on expectation of resolution of debt with lenders within the available time frame and implementation of PPA soon, management is of the view that STPL's going concern basis of accounting is appropriate. The management of Company had undertaken assessment of recoverability of it's investment in STPL and has created necessary provision in books.

- 57 During the current year, in the light of the direction of the Hon'ble Supreme Court in case of Energy Watchdog dated 11 April 2017, Maharashtra Electricity Regulatory Commission (MERC) vide its order dated 3 April 2018 principally held that the Company is entitled to compensation for procurement of additional coal for fulfilling its obligations under the PPA signed with MSEDCL. MERC also provided mechanism for computation of the compensation. The Company has filed an appeal against the MERC order since the methodology passed by MERC is not fully on the principle of "restoration of the affected party to the same economic position as if the change in law event didn't not occur". Company is confident that, the Hon'ble Tribunal is likely to set out a mechanism for compensation restoring the Company to the same economic position as if such Change in Law has not occurred. Hence, it would not be unreasonable to expect the ultimate collection of an equivalent amount of compensation including related late payment surcharge recorded in books of accounts on account of aforesaid matter.
- 58 Revenue from operations on account of Change in Law events in terms of Power Purchase Agreements (PPA) with MSEDCL is accounted for by the Company based on the best management estimates including orders of Regulatory Authorities in some cases, which may be subject to adjustments on account of final orders of Respective Authorities.
- 59 During the current year revenue from operations include income of ₹4,402 lakhs for the period upto 31 March 2018 recognised based on the notification by CERC relating to annual escalation rates for domestic coal based on the new series of Wholesale Price Index.
- 60 The Company has non-current investment of ₹ 43,277.11 lakhs in, and loan under non-current financial assets of ₹ 12,258.04 lakhs recoverable from Bracond Limited, a wholly-owned subsidiary of the Company. Bracond Limited had further invested in two wholly-owned subsidiaries namely Renemark Limited and Genoformus Limited who had given advances to non-related parties for business purposes. The management has undertaken assessment of recoverability and has created provision of these financial assets wherever necessary.
