# **Tata Steel shareholders** set for highest dividend

**ADITI DIVEKAR** Mumbai, 30 June

Steel Wednesday said that it strengthened its financial position during the previous financial year (FY21), despite the Covid impact. reducing net debt by ₹29,390 crore in the process.

This took consolidated net debt to ₹75,389 crore as of the end of March 2021, or FY21.

Debt was down 28 per cent from start of the year, said N Chandrasekaran, chairman of Tata Steel, addressing shareholders at the 114th annual general meeting of the company, virtually on Wednesday.

The board recommended the highest-ever dividend in the company's history at ₹25 per fully paid-up equity share, and dividend of ₹6.25

THE FIRM HAS BEEN INVESTING IN DIGITAL ANALYTICS AND TECH TO MAKE THE BUSINESS STRUCTURALLY MORE COMPETITIVE AND AGILE"

N CHANDRASEKARAN Chairman, Tata Steel

for each partly paid-up equity share. During the year. the company's board had also

made the first and final call on the outstanding partly paid-up equity shares and the company received approximately ₹3,500 crore in the form of first and final call Chandrasekaran added.

To simplify business, Tata Steel has rationalised close to 100 legal entities in the last 24 months and advanced the merger process of Tata Steel BSL with Tata Steel, it said. "The company has also

been investing in digital analytics and technology to make business structurally more competitive and agile," said Chandrasekaran.

With regard to the Europe business, the process to separate Tata Steel Netherlands and Tata Steel UK is underway, and the transformation programme is focused on building a profitable, resilient

and sustainable business in

the future, he added. The domestic industry suffered production losses owing to the lockdown, especially in the first two quarters, but managed to recover gradually in the latter two quarters on the back of a strong revival in domestic steel demand and a rebound in manufacturing and infrastructure development activity in the country.

This helped the firm rake in the highest-ever Ebitda of ₹30,892 crore in FY21, a 71 per cent rise from the same period last year.

The management demonstrated strong focus on generating free cash flows through tight working capital management and disciplined capital allocation to record its highest-ever free cash flows of ₹23.748 crore, it said.

# Devas will pursue its rights in courts around the world'

Devas Multimedia is out to enforce a \$1.2-billion international arbitration award arising from a failed contract with Antrix Cornoration, the commercial arm of ISRO, by approaching US courts this week to lay claim on Air India's assets abroad. MATTHEW D MCGILL, partner at Gibson, Dunn & Crutcher, and lead counsel for a number of Devas' shareholders, explains what necessitated this latest move in the US courts, via an e-mail interview to Sudipto Dey. Edited excerpts:

With appeals pending before the National Company Law Appellate Tribunal (NCLAT) and the Supreme Court, what was the urgency for moving courts in the US to lay claim on assets of Air India?

It is a common practice after winning such a decisive arbitration award to act on enforcing a decision, which was binding on the Indian government. The only urgency is coming from the Indian government, which has taken outrageous actions to evade payment of the award, and expropriate Devas.

Cairn Energy has made similar claims on

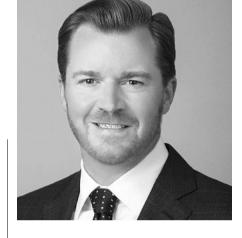

MATTHEW D MCGILL Partner at Gibson, **Dunn & Crutcher** 

assets of Air India in another arbitration matter. What are the chances of Devas Multimedia succeeding in this case? We are confident

that courts operating under the rule of law will enforce the arbitration award to Devas shareholders. Devas will continue to pursue its rights and enforcement actions against India in courts around the world.

What is the current status of various cases that Devas is pursuing in India?

First, on July 8, the NCLAT will hear our appeal on a decision by the National Company Law Tribunal (NCLT) to approve the government's request to appoint a liquidator in order to wind up Devas. Second, we are currently in set aside proceedings in Delhi

that were initiated by the Indian government/Antrix, which is their effort to vacate the ICC Award. These proceedings continue in the Delhi High Court.

India's contention has been that the establishment of fraud and corruption in the initial contract between Antrix and Devas takes this dispute outside the ambit of the Bilateral Investment Treaty (under which the arbitration award was given). Your take?

Let's be clear: The fraud claims are false, and we are confident they will be summarily dismissed by courts that uphold the rule of law. Antrix manufactured these claims specifically to evade payment of the award. In fact, Antrix only made these allegations after the US federal court awarded Devas a judgment of almost \$1.3 billion. It did not raise these allegations in the arbitration proceedings, or its initial set aside application, or the US confirmation proceeding

### Does the initial proposal by Devas Multimedia to resolve this dispute amicably

Devas investors remain committed to resolving this matter amicably. Unfortunately, our letter has been met with silence from the Indian government.

### **Promoters** repay debt of ₹1,596 cr to Macrotech

RAGHAVENDRA KAMATH Mumbai, 30 June

Macrotech Developers (Lodha group) on Wednesday said that the promoters have repaid ₹1,596 crore owed by them to the company.

"Promoters owed the company a sum of ₹1,596 crore as of March 31, 2021. Of this, ₹400 crore was repaid on April 29, 2021. The balance ₹1,196 crore, together with interest accrued thereon, has been repaid today," it said in an exchange filing.

"Thus, the entire debt has been repaid expeditiously, in just over two months from listing. This repayment, combined with our IPO fund raise and continued organic free cash flow generation are helping the company progress further in its deleveraging plans," it said.

Macrotech has targeted a significant reduction in net debt to ₹10,000 crore by the end of FV22, and as of now the firm is on track. It intends to continue focus on its capital-light growth strategy around affordable and midincome housing and digital infrastructure (warehousing, data centres and industrial parks) to deliver continued deleveraging and simultaneous growth, it said.

The promoters have raised these funds by means of a long-term instrument having tenure greater than three years with no repayment obligation prior to that.

# Financial creditors to take 95% haircut on Jet Airways' dues

New Delhi, 30 June

Financial creditors to Jet Airways will be taking around a 95 per cent haircut as the successful bidder, the Jalan-Kalrock consortium, has proposed to pay ₹385 crore against the claim of ₹7,807.74 crore.

Of that, ₹185 crore will be paid upfront within 180 days of resuming operations, whereas ₹195 crore will be through issuing zero coupon bonds, each of ₹1,000 face value, after two years. The consortium has offered ₹391 crore

in the form of non-convertible debentures (NCDs). It has also offered a 9.5 per cent stake to the lenders in Jet Airways and 7.5 per cent in loyalty program Jet Privilege (JPPL). The Jet Airways case follows the trend

of steep haircuts lenders are taking in the case of companies being taken to bankruptcy court. According to the data from the

Insolvency and Bankruptcy Board of India (IBBI), in over 363 major resolutions at the National Company Law Tribunal (NCLT) since 2017, banks have taken an average haircut of 80 per cent. Some large haircuts include Deccan Chronicle (95 per cent), Lanco Infra (88 per cent), Ushdev International (94 per cent), and Zion Steel (99 per cent).

"Service sector companies like airlines which operate on an asset light model with leased aircraft have virtually no assets. In the case of liquidation, the resultant recovered value would have been far less and the company would not have revived," said an executive of a bank involved in the process.

### JALAN CONSORTIUM'S **PAYMENT PLAN**

₹380 cr Financial creditors 9.5% and 7.5% in Jet Airways & Jet

₹10 cr Operational creditors

₹52 cr Workmen ₹25 cr Cost of insolvency

While the airline had shut down operations in April 2019, last October the revival plan presented by Murari Lal Jalan, a Dubai-based businessman, and Florian Fritsch-headed Kalrock Capital Management, a London-based financial advisory, was approved by over 98 per cent votes by the lenders' consortium. It was approved on June 22 by the NCLT.

Various classes of creditors have collectively claimed ₹40,259.12 crore from Jet Airways in the NCLT.

Of these, the resolution professional has admitted claims amounting to ₹22,167.23 crore, including ₹7,807 crore from the financial creditors, including domestic and foreign banks, other financial institutions, corporate guarantors, and lessors.

According to the claims, the domestic

lenders' claims are ₹5,776.71 crore, with State Bank of India having the largest exposure of ₹1,636.22 crore, followed by

YES Bank with ₹1.084.44 crore.

Foreign lenders and financial institution like UAE-based Mashreq bank and France's Natixis SA have claims of ₹563 crore, according to the list of creditors approved by the resolution applicant.

Operational creditors of the company virtually get nothing as the resolution plan approved by the NCLT has said a creditor will get a maximum of ₹15,000, irrespective of the claim amount.

The consortium has proposed to infuse ₹1,375 crore into the company over the next two years. The money will be used for restarting the airline and settling creditor dues. While ₹475 crore will be used to pay the creditors, around ₹975 crore will be for capital expenditure and working capital.

In an earlier interview to Business Standard, Jalan had said the consortium would assure requisite funding to resume operations. "Let me reassure that there will be no dearth of funding for Jet Airways," he had said.

The consortium plans to start operations with 30 aircraft, including five wide body aircraft for international operations.

However, the NCLT has not agreed to retain historic slots of the erstwhile Jet Airways for the new owners, one of the key demands by the consortium. It has asked the government to cooperate with the new owners to make slots available in order to revive the airline.

When it shut down operations, Jet Airways had close to 700 slots, including 116 and 214 in prime airports of New Delhi and Mumbai.
