The results for the year ended March 31, 2024 have been audited by our statutory auditors. They have expressed an unmodified opinion on the financial results & statements for the year ended March 31, 2024.

The management has conducted a comprehensive review of the deferred tax assets and liabilities arising from timing differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes as of the reporting date. The company has achieved taxable profits during the reporting period from April 1, 2023, to March 31, 2024, and is projected to continue earning taxable profits in the foreseeable future. This positive outlook is a result of the successful revival of the company following the completion of the Corporate Insolvency Resolution Process (CIRP). Given this favorable financial performance and outlook, coupled with substantial unused carryforward tax losses, the company has recognized and recorded the deferred tax assets in its books. This has also contributed to increase in other equity by the said amount as on March 31, 2024.
