The startup will use the capital to expand its team of 100 employees and develop its technology

with participation from both private and institutional investors such as Marshland Capital, Launchpool Labs, Moonrock Capital and other investors.

"Our valuation jump has come from the fact of 12 pending patents that we have and all the other proof of benefit consensus that we've built... The UK-based conglomerate owns about 800 hospitals and a lot of real estates. So, we will also get access to a lot of relationship capital," said co-founder Gauri.

The startup will use the capital to expand its team of 100 employees and develop its technology. It intends to primarily serve businesses with its blockchain.

Gauri added in a statement that "We are on a mission to embed sustainability into blockchain and shift the current paradigm from 'for-profit' to 'for-benefit'".

This latest analysis comes even as Twitter and the central government are engaged in a face-off over the increase in the number of official demands for takedowns and account blocks. Earlier this month, the social media platform approached the Karnataka High Court challenging at least 39 such blocking orders issued by the union IT ministry.

To be sure, while the government claims that its takedown requests are in line with the rise of internet consumption in the country, cybersecurity firms rank the total number of legal demands made by India till 2020 — to social media and other technology platforms — just below that issued by Russia, which leads globally in the number of requests made.

Industry Self-Regulatory Body Aware of Grievances

The company's cofounder Divya Gokulnath, wife of founder Byju Raveendran, also attended the call, they added.

Following this, Gokulnath and senior executives shared a detailed action plan with officials to address the complaints, another person aware of the matter said.

The department officials, the sources added, pointed out during the meeting that they had received 147 consumer complaints against edtech startups. It is expected to share the full list of complaints with the edtech companies soon, they said. "Aggressive mis-selling to parents is something that was discussed, among other issues,

along with certain claims being made in advertisements. Byju's was advised to work closely with the Advertising Standards Council of India (ASCI)," one of the people said.

EDUCATION SECTOR

Industry self-regulatory body ASCI said last month that of the 5,532 advertisements that it had processed in the previous fiscal year, 33% of the complaints were from the education sector, which includes edtech as well as traditional educational institutes.

dia intermediaries, may raise the issue of non-compliance, specifically with respect to its legal and content takedown orders. The ministry is likely to meet (social media) intermediaries on Friday and may raise the issue, according to people aware of the matter.

GLOBAL PERSPECTIVE

Official sources told ET that the IT ministry's detailed report, which is being reviewed at the highest levels within the ministry, reveals that content takedown orders issued by India are "not as high" when viewed from a global context.

Citing data from Twitter's own global transparency data, the MeitY report states that during the first six months of 2021, 95% of the total legal demands directed at Twitter originated from five countries, namely Japan, Russia, Turkey, India, and South Korea.

NOTICE TO SHAREHOLDERS

TRANSFER OF EQUITY SHARES TO INVESTOR EDUCATION & PROTECTION FUND

This Notice is published pursuant to the provisions of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("the Rules") as amended from time to time.

The Rules, inter alia, provide for transfer of all shares in respect of which dividend has remained unclaimed for seven consecutive years to the Investor Education and Protection Fund (IEPF) set up by the Central Government. Accordingly, the shareholders who have not claimed the final dividend for 2014-15 and all other dividends declared by the company for 7 consecutive years thereafter, the shares held by them are liable to be transferred to the IEPF. The Company has sent individual communication on 14.07.2022 to those shareholders at their latest available address. The Company has also uploaded the details of such shareholders along with details of shares due for transfer to IEPF on its website at www.iocl.com. Shareholders are requested to refer to the web link <https://iocl.com/transfer-of-shares-to-iepf> to verify the details of the shares liable to be transferred to IEPF.

Notice is hereby given to all such shareholders to make an application to the Company / Registrar & Transfer Agent ("RTA") viz. KFin Technologies Ltd. by 15.09.2022 for claiming the unpaid dividend for the year 2014-15 onwards so that the shares are not transfer to the IEPF. It may please be noted that if no reply is received by the Company or the RTA by 15.09.2022 the Company will be compelled to transfer the above mentioned unpaid dividend and shares to the IEPF, without any further notice. The shareholders holding shares in physical form and whose shares are liable to be transferred to IEPF authority, may note that upon such transfer the original share certificate(s) lying with them will stand automatically cancelled and deemed non-negotiable. The Company would be issuing new share certificate(s) in lieu of such original share certificate(s) for transfer of the same to IEPF authority.

It may also be noted that the shares transferred to IEPF, including all benefits accruing on such shares, if any, can be claimed back from the IEPF Authority after following the procedure prescribed under the Rules.
