DSO (Days)

Building for the future

Go to Market

- Sales and delivery organization has been reorganized on vertical lines to create a sharper focus on target industries where we have developed differentiated capabilities over the years
- Focused account management has been initiated for key accounts under leadership of our new CCO – Arun who has joined in January this year

Offerings & Positioning

- Offering & solutions rolled out on cloud platforms related to Gen AI for smart manufacturing and AI for automation
- We have been rated as “major contender” in the Everest Peak Matrix for Software Product Engineering Services

Partnerships

- Investing in partnerships and events to showcase our expertise in AI-powered intelligent integration and automation
- Increased traction with both Microsoft and AWS with 4 solutions registered on AWS marketplace and joint opportunities together with Microsoft in APAC

Leadership

- Chief Marketing Officer (CMO) – Sanjay Sahay joined in April - will bring marketing focus and help elevate our brand

Key Wins Q1 2024

- US based behavioral healthcare solution provider trusted R Systems to set up a COE for its product engineering and digital transformation needs including data science and analytics to augment operational efficiency and value-based care.
- One of the leading fire safety solution providers based in Canada has engaged R Systems to develop a mobility app using .NET Multi-platform App UI, digitalizing their operations for enhanced business efficiency.
- US based digital marketing solution provider has engaged R Systems to upgrade their content management product along with assisting in consolidating their engineering teams for product engineering and modern data platforms/AI needs.
- One of the largest privately owned general insurance companies has engaged R Systems to provide product engineering services to digitalize its in-house products.
- One of the leading distributors of live and frozen seafood in Singapore has engaged R Systems to implement Microsoft Dynamics Business Central and CRM to optimize and digitalize its end-to-end business processes yielding financial visibility and operational excellence across the enterprise.

Summing Up And Looking Head

Focused account management beginning to shows results with increased client traction and pipeline generation through proactive proposals

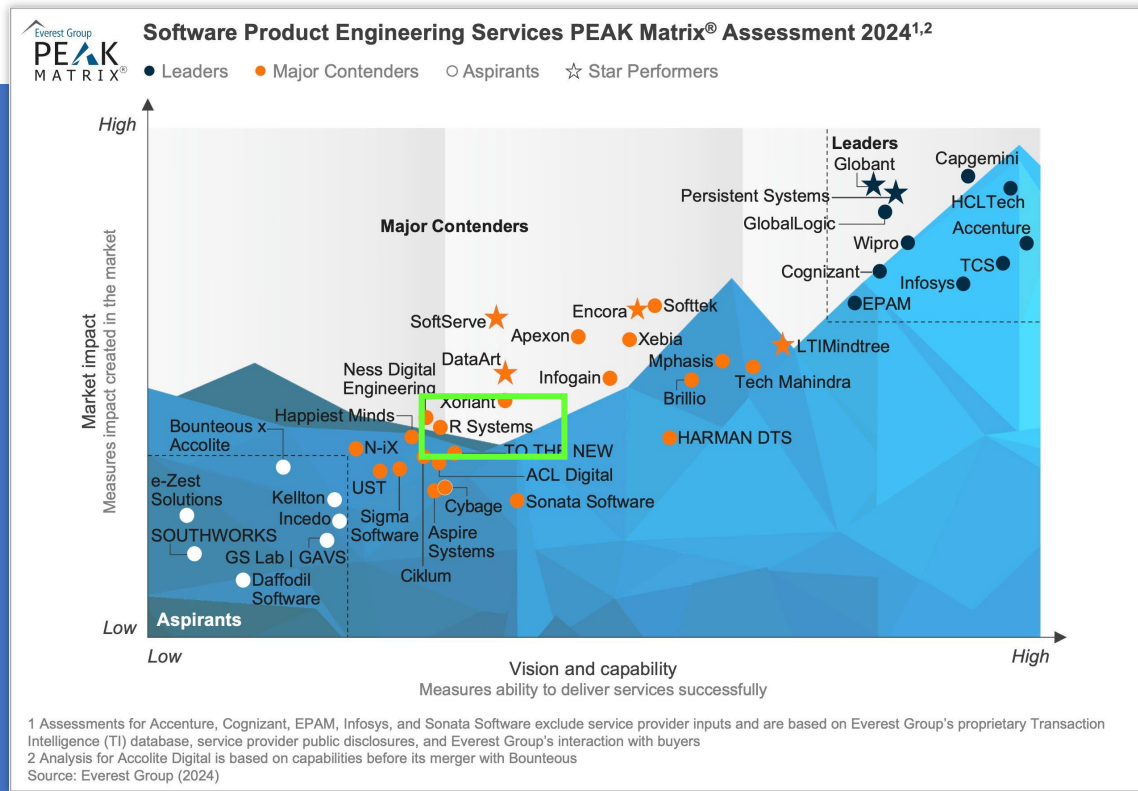

We have signed a strategic partnership with IIT Delhi to create a joint COE for research towards Applied AI and Sustainable solutions

Trends shaping in 2024

- There is increased focus on India as offshoring destination, with clients choosing options like setting up Captives, partnering with Service Providers and quite often both.
- Gen AI will get embedded in the software lifecycle, changing the way we develop software – we have rolled out co-pilot trainings and licenses to our workforce
- While there are sectoral nuances with some evergreen sectors like TMT or BFS being slow, our balanced portfolio across verticals continues to keep us resilient
- We are optimistic of the market sentiment improving in second half of calendar year

Recognition

R Systems have been rated as “Major Contenders” in Software Product Engineering Services Everest PEAK Matrix® Assessment 2024

Key strengths

-  Balanced portfolio across buyer sizes as well as geographies
-  Strong Partner Ecosystem comprising Hyperscalers, data engineering partners & enterprise technology providers
-  Dedicated services for private equity firms and willingness to engage in emerging deal constructs
-  Client appreciation feedback for its technical expertise, effective project management practices & proactiveness in pitching innovative solutions

Everest Group PEAK Matrix® is a proprietary framework for assessment of market impact and vision & capability

- Measure Market impact through sub dimension as Market adoption, portfolio mix across geographies & types of engagement & Value delivered to client base
- Measure ability to deliver services successfully – through Vision for the client and itself; future roadmap and strategy, Depth and breadth of services portfolio across service, Innovation and investment in the enabling areas, e.g., technology IP, industry/domain etc. and Delivery footprint and global sourcing mix.
