MANAGEMENT DISCUSSION AND ANALYSIS

1. ECONOMIC & BUSINESS ENVIRONMENT:

Economic overview

Global economy

In CY 2023, the global economy showcased remarkable resilience, growing by 2.7% which was just slightly above the 2.5% threshold and is often associated with a global recession. This growth prevented a slight outright contraction and several major economies like the US, China and India registered solid economic performance.

However, this growth was primarily driven by private consumption, surpassing income growth. This suggested that it was largely fuelled by debt accumulation. At the same time, private investment remained dismal in 2023 and is expected to be even worse in 2024.

Meanwhile, pressing challenges like climate change, rising inequality and lack of development progress are growing more severe but lack coordinated solutions. Carbon emissions continue rising, workers' share of income is shrinking in both developed and developing countries and years of underinvestment are hindering sustainable development efforts, especially in developing nations facing fiscal constraints and mounting debt burdens. However, the anticipated easing of monetary policy could provide some relief on debt servicing costs.

Indian economy

The Indian economy has witnessed remarkable growth as it established itself as the world's fastest-growing major economy. The country recorded an impressive growth rate of above 8.2%. This expansion was driven by strong infrastructure development, a thriving services sector and innovative welfare programmes.

The government has paved the way for a unified national market by prioritising the expansion of physical and digital infrastructure. With 149 airports, which is double the number from a decade ago and the addition of 10,000 km of roads and 15 GW of solar energy capacity annually, India is increasing its connectivity and embracing renewable energy. Moreover, India has made efforts to build intangible infrastructure, such as digital payment systems, modern capital markets, banks and a unified digital tax system, enabling businesses to capitalise on economies of scale.

Additionally, the government has also announced further reforms in one of the budgets, including a reduction in corporate tax rates from 30% to 22%, the establishment of new railway and port corridors and a focus on developing tourism infrastructure on islands like Lakshadweep to boost employment opportunities. The budget also highlighted government's efforts to attract foreign direct investment (FDI) in the tourism sector. India's services sector, particularly in information technology and related domains, has emerged as a global powerhouse. Indian IT firms have established "global capability centres" that offer multinational corporations a wide range of services, including research and development, legal and accounting services. This sector has been a driving force behind the country's economic growth and position as a services export hub

2. TOURISM AND MOBILITY

Industry structure and development i.e. THE INDIAN PARKS INDUSTRY

The economic growth and prosperity of the nation is primarily driven by many factors. The tourism and hospitality sector is one such factor, serving as a fundamental towards the growth of India's service industry. This dynamic sector acts as a catalyst for job creation, rapid development, and the stimulation of multi-use infrastructure growth, including world-class hotels, resorts, restaurants, transportation networks, and healthcare facilities.

India possesses a rich tapestry of geographical diversity, including awe-inspiring world heritage sites and niche tourism offerings. From cruise tourism and adventure tourism to medical tourism and eco-tourism, these unique experiences have led to an exponential increase in tourist arrivals, opening up vast employment opportunities across the country.

The recent 2023 Union Budget recognised the importance of the tourism sector and placed it in the spotlight. The Ministry of Tourism is on a mission to promote the industry through active participation from all states, the convergence of government programmes and the establishment of impactful public-private partnerships.

The tourism industry is one of the leading employers of women, due to the increasing focus on diversity and gender empowerment. The government collaborates with stakeholders to create a conducive work environment that fosters equal opportunities and celebrates the contributions of female employees. Furthermore, the year 2023 has been designated as the 'Visit India' year, inviting the world to witness the splendour and magnificence that our nation has to offer.

3. INDUSTRY OVERVIEW:

Global amusement park industry

The market size for the global amusement park industry has experienced exceptional growth. It was valued at USD 48.8 billion in 2023. The open-air leisure and entertainment areas, focused on fictional characters and themes, cater to people of all ages.

They offer a diverse range of experiences, including mechanical rides, water parks, theme parks, arcades, casinos, hotels, resorts and refreshment areas. Amusement parks have also evolved to provide immersive cinematic experiences with high-definition light and sound performances, as well as theatrical productions appealing to both adults and children.

Some of the major industry drivers include rapid urbanization and the accompanying growth in the travel and tourism sector. The availability of cutting-edge rides, accommodations and licensed merchandise within these parks have further accelerated their expansion. Visitors are drawn to amusement parks by the accommodations, merchandise and innovative rides, catering to individuals of all ages. The industry is also expected to grow due to an increase in the number of tourists, especially children and parents, as these parks are based on fictional characters, allowing young visitors to interact with costumed characters from popular films.

Outlook for global amusement parks

Amusement park companies are witnessing positive momentum towards pre-pandemic levels of business after facing covid induced headwinds in the recent years. The growth is due to the rearrangement of operations and recovery from pandemic restrictions involving social distancing, remote working and closure of commercial activities.

The global amusement park market is poised for substantial growth, projected to reach USD 79.26 billion by 2031, expanding at a CAGR of 4.97%. The Asia-Pacific region is expected to hold a significant market share due to the presence of major players and increasing consumer interest in the region.

The growing usage of social media and mass media is having a positive impact on the amusement park market. As an increasing number of visitors share their experiences on social media platforms, it helps in promoting the parks to potential customers. As a result, social media has become an effective marketing tool for amusement parks to attract new customers. The extensive use of social media is expected to drive the growth of the amusement park industry and companies are leveraging this tool to acquire new customers.

Amusement parks are incorporating virtual and augmented reality technology to enhance the overall customer experience. These technologies offer an immersive experience by creating a computer-generated environment that can interact with a person or by placing virtual objects in the real world. Rides and theatre-based attractions are among the areas where this technology is being implemented to enhance the visitors' experience.

4. **INDUSTRY OVERVIEW:**

AJWA is a leading player in the Indian amusement park industry and continues to grow and innovate to provide visitors with unforgettable experiences. **AJWA** parks have been visited by over 10 million visitors since 2000, making us the most visited amusement park in India. The Company has nearly two decades of expertise in administering parks in Vadodara.

5. **DIGITAL TRANSFORMATION:**

The Company is embracing digitization to improve internal processes and increase efficiency, safety, and productivity. The organisation runs frequent training programmes to provide its employees with the skills needed to adapt to new digital platforms that are released on a regular basis.

6. **OPPORTUNITIES AND THREATS:**

The Company has ability to leverage the ‘first-mover advantage’ through Fun world and resort. There are significant barriers to entry in the business of theme and Resort in India and it is difficult to replicate a project of similar scale and size in India. Among the most important of these barriers is the need for significant capital expenditure to set up theme and Resort, the difficulty to identify and purchase large and suitable parcels of land on commercially viable terms and the long lead-time from the conceptualization to the launch of rides and attractions. The Company believes that its location off the VADODARA, the large parcel of land owned by the Company, Its rides and attractions of quality and standards and its qualified management and operations team provide the Company with a significant competitive advantage over any new park.

7. **OUTLOOK AND OPPORTUNITIES:**

The all-round India growth story continues to remain strong and attractive. Both IMF and World Bank (WB) have predicted the Indian economy is growing in very fast phase. The key drivers of growth for the India economy are in place for a sustained and uninterrupted growth in the future. Both favorable macroeconomic factors as well as dynamic demographics indicate to a period of assured uptrend and growth in the Indian amusement parks industry. Against this positive and optimistic outlook of the economy, the outlook for the Company is extremely favorable and exciting, with a high potential for accelerated growth and expansion. The company is adopting the following business strategies to grow the business in the future and due to the covid effect the business of the company is being completely stopped.

Annexure A

Responsibilities for Audit of Standalone Ind AS Financial Statement

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has internal financial controls with referenceto Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern. Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
