Bengaluru, February 9

BIOCON BIOLOGICS, A subsidiary of pharma major Biocon, will focus on consolidating its acquisition of long-time partner Viatris' biosimilars business in the upcoming fiscal, in an effort to set a stage for its next phase of growth, CEO and MD Shreehas Tambe told *FE* on Friday.

The company recently completed the integration of the global biosimilars business of Viatris, which it

"In Europe, where we have seven products approved, the strategy is changing because in the past, it was only two products and two countries that the business was operational in. But now, we will operate with seven products and more than these two countries," Tambe said.

So growth in the third quarter has come from emerging markets significantly through tenders, a lot from retail in Europe and some of the big peers onboarding us in the US, he noted.

In Europe, the company is focusing on five high-growth countries — France, Germany, UK, Spain and Italy.

On Thursday, it's parent Biocon posted a revenue from operations of ₹3,954 crore in Q3, up 34% year-on-year. It swung back to profit in Q3 at ₹660 crore, compared to the loss of ₹42 crore in the year-

The bottomline was mainly strengthened by income from the divesture of two non-core business assets — Biocon Biologics' Dermatology and Nephrology branded formulations business units in India amounting to ₹350 crore and a gain of ₹456 crore from Biocon's stake dilution in Bicara Therapeutics.
