## Meson Valves India Secures License Agreement with Georg Schunemann GmHH

**Mumbai, April 25, 2024** - Meson Valves India Limited (BSE CODE: 543982), a leading player in specialist valves with Industrial, marine, and defence applications, has signed a significant agreement with Georg Schunemann GmHH (the Licensor) of Bremen, Germany.

Meson Valves and its subsidiaries are exclusively authorized to utilize essential expertise concerning filters, manufactured products, and inserts with the additional benefit of seeking assistance from Georg Schunemann GmHH to ensure optimal technology utilization.

The agreement empowers Meson Valves to proactively anticipate and champion '**Make in India**' as the premier choice for global manufacturing. This exclusive arrangement grants the company a unique competitive advantage within its market segment. Additionally, further allows the company to cater to a more diverse range of industries such as Aerospace, Water Treatment, HVAC, Oil and Gas, Automotive, and others.

Through acquiring valuable expertise spanning manufacturing techniques, assembly processes, marketing strategies, and sales tactics, Meson Valves is positioned to **enhance its product offerings and bolster its market presence**.

Commenting on the licensing, **Mr. Brijesh M. Manerikar, Chairman and Managing Director of Meson Valves India Limited** said, "We are thrilled about the exclusive rights we have been granted. The collaborative opportunities are particularly exciting, and we anticipate that they will streamline our operations and enhance our product offerings.

This agreement provides us with a strategic advantage within the Indian market. This will allow us to elevate our product offerings and strengthen our presence by opening new avenues for growth and enabling us to cater to a broader industrial spectrum. Additionally, we are committed to proposing innovative improvements, demonstrating our dedication to delivering high-quality products to our customers.

This license agreement delineates the terms between Meson Valves India Limited and Georg Schunemann GmbH, laying the foundation for a mutually beneficial collaboration in the realm of valve manufacturing and related applications.

### About Georg Schunemann GmHH:

Georg Schunemann GmHH is a renowned manufacturer with over 80 years of experience in the development, production, and testing of special fittings, filters, and filtration systems. With a focus on in-house expertise and customer-centric solutions, the company has established itself as a trusted partner in delivering high-quality products for diverse industrial applications.

## About Meson Valves India Limited:

Established in 2016, Meson Valves India Limited (MESON) emerges as a prominent global player in the manufacturing of high-quality valve products across various industries. Their expertise spans the Defence, Marine, Industrial, Oil & Gas, and Power sectors, showcasing their versatility and commitment to meeting diverse market demands.

They leverage cutting-edge technologies to innovate in valve solutions, meeting evolving industry demands. With a strong global presence, MESON offers a comprehensive range of valves in various materials, backed by experienced engineers providing tailored automation systems.

As an ISO 9001 certified company, MESON prioritizes quality assurance, registering with reputed firms and supplying valves for critical applications, including defence projects.
