Wanted bookie Chawla to be extradited from UK to India soon

ADITI KHANNA
London

This would mark the first high-profile extradition of its kind under the India-UK Extradition Treaty

Scotland Yard officers are preparing to hand over alleged bookie Sanjeev Chawla to their counterparts in Delhi Police by Thursday to face match-fixing charges in Indian courts.

The 59-year-old British national is a key accused in the match-fixing scandal involving former South African cricket captain Hansie Cronje in 2000.

According to officials familiar with the extradition proceedings, the final legal paperwork in the case is now being concluded for the handover to take place at Heathrow Airport this week.

"We can only issue a statement when the extradition has taken place," the Metropolitan Police said in a statement on Wednesday. Chawla, who was on bail, will be

taken back into custody by the Met Police before the handover to Indian authorities.

On being flown back to Delhi, he is expected to undergo the requisite medical examinations before being taken to Tihar Jail and held in custody in accordance with the Indian government's assurances to the UK courts.

This would mark the first high-profile extradition of its kind under the India-UK Extradition Treaty, signed in 1992.

A previous extradition of Samirbhai Vinubhai Patel, wanted in connection with the Godhra riots in Gujarat, from the UK to India in October 2016 had been uncontested and therefore did not have to go through various levels

of appeals in the UK courts.

Chawla had taken his appeal against being extradited to India right up to the European Court of Human Rights (ECHR), which rejected his application for an interim measure last week and paved the way for him being put on a flight to India.

Chawla had lost a last-ditch High Court appeal on human rights grounds against former UK Home Secretary Sajid Javid's extradition order at a hearing in the Royal Courts of Justice in London last month, with a court order dated January 23 setting a 28-day deadline for him to be extradited to India.

He had approached the Strasbourg, France, based ECHR on

Chawla is a key accused in the match-fixing scandal involving former South African cricket captain Hansie Cronje in 2000.

the basis of the European Convention on Human Rights, to which the UK is a signatory and relied on Article 3, relating to pro-

hibition of inhuman or degrading treatment, of convention in his plea.

The ECHR had sought additional assurances from the British High Commission in New Delhi that Chawla's rights as a British citizen would be upheld, including regular consular access.

"The Secretary of State signed the order for Sanjeev Chawla's extradition to India in February 2019. Due process will now be followed," the UK Home Office said.

Chawla had sought to argue against his extradition to India on human rights grounds in the UK courts ever since his arrest back in June 2016.

Most recently, at an appeal hearing on January 16, a two-member

High Court panel said they accepted the assurances provided by the Indian government that the accused will be accommodated in a cell to be occupied exclusively by him, with proper "safety and security" and complying with the "personal space and hygiene requirements" the court expects.

India had also made further guarantees on medical facilities and protection from intra-prisoner violence in Delhi's Tihar Jail, where he is to be held ahead of his trial.

"Nothing suggests that there is any real risk of injustice, nor are the circumstances exceptional. Indeed, the material does not even demonstrate reasonably arguable grounds for contending that there would be a real risk of ill-treat-

ment contrary to Article 3 ECHR," Justices David Bean and Clive Lewis said in their judgment handed down last month.

Following an extradition trial in October 2017, Westminster Magistrates' Court in London had concluded that while Chawla had a prima facie case to answer, his human rights could not be guaranteed in Tihar. This ruling was successfully challenged in the High Court by the Crown Prosecution Service (CPS), arguing on behalf of the Indian authorities.

According to court documents in the case, Chawla is described as a Delhi-born businessman who moved to the UK on a business visa in 1996, where he has been based while making trips back and forth to India. After his Indian passport was revoked in 2000, he obtained a UK passport in 2005 and became a British citizen. —PTI

Pandya hits NCA nets

BENGALURU: India all-rounder Hardik Pandya, who is recovering from a back injury, underwent a productive net session at the National Cricket Academy (NCA) here on Wednesday.

Pandya was seen facing throwdown in the nets and mainly played with a straight bat. It is not yet clear if he makes a comeback in the South Africa ODIs next month or the subsequent IPL.

Earlier this month, Pandya was ruled out of the upcoming Test series against New Zealand after failing to regain full match fitness.

The decision was taken after the 26-year-old consulted spinal surgeon James Allibone in the United Kingdom.

Pandya underwent a successful surgery in October last year to treat an acute lower-back injury and has remained out of action since.

He last played for India during the T20 International series against South Africa, taking part in the third match in Bengaluru. He has not played Test cricket since the Southampton match against England in September 2018.

'Arre RCB, googly?'

BENGALURU: Indian Premier League (IPL) franchise Royal Challengers Bangalore (RCB) on Wednesday removed their profile picture and posts from various social media accounts, sending not only fans but their star leg-spinner Yuzvendra Chahal in a tizzy. "Arre @rcbtweets, what googly is this? Where did your profile pic and Instagram posts go?" Chahal tweeted on his way back from New Zealand where he failed to inspire India to an ODI series win as they lost 0-3. Chahal was part of India's 5-0 T20I series whitewash prior to the ODIs. RCB, led by India skipper Virat Kohli, changed the name of their official Twitter handle raising a few eyebrows. The account removed its display picture and cover picture while the name was changed to just 'Royal Challengers'.

'Shattered' Maxwell out

MELBOURNE: Australia's dashing all-rounder Glenn Maxwell is set to miss the beginning of the IPL after an elbow injury on Tuesday ruled him out of the upcoming ODIs and T20 Internationals in South Africa. The tour of South Africa starts on February 21. Maxwell will undergo surgery on his left elbow and will be replaced by D'Arcy Short in both squads. Cricket Australia said he might require at least six to eight weeks to attain full match fitness, which means he is likely to miss the beginning of the IPL too, which is starting on March 29. The 31-year-old is representing Kings XI Punjab in the franchise-based league. A "shattered" Maxwell said the decision to withdraw from the South African tour was difficult.

"I was not confident that I could perform at international level with my elbow in its current state and have decided to undergo surgery straight away to fix the issue," Maxwell said in a statement.

"I would like to thank Justin Langer, Ben Oliver, Trevor Hohns and the whole Australian squad for their understanding."

Average salary offer at IIM-Calcutta at record ₹28 lakh

WHO OFFERED WHAT

- Consulting sector made for 35% of all offers; ITC, McKinsey & Co, Bain & Co were top recruiters
- PE-VC firms made 17% of all offers, with BGC, Merill Lynch, Barclays as top recruiters
- 30% of total offers were from general management and sales departments, with TCS, AB Group, M&M as top recruiters
- 22% of all offers were from product management, IT, analytics and operations domains, with Microsoft, Google, Salesforce as top recruiters

WHY? HOW?

IIM Calcutta (IIM-C) has seen an all-time high average salaries for the top 100 per cent and top quartile of the class for the outgoing batch of 2020. The figures stand at ₹54.5 lakh and ₹41.8 lakh (annual), respectively. The annual average salary is also a record at ₹24.46 lakh, with the median figure at ₹23.5 lakh. In all, 4,94 students secured 492 offers from 136 firms. Recruiters could also select from a larger pool and make offers to the most suitable candidates in accordance with their choice. The institute adopted a platform

for the Registrar, enabling over 100,000 campus placements end-to-end and help employees hire from colleges across the country. Abhishek Ghosh, chairman of the Institute's Career Development and Placement Office, said its introduction "has not only improved our recruitment and efficiency, but also helped us improve our placements, hold in October 2019, consultancy firms were the largest recruiters with 31 per cent of all offers. The Institute Consulting Group, McKinsey & Co, Bain & Co, Kearney, PwC, Deloitte, EY, and Accenture were the top recruiters in the sector. Marquee finance and private equity

venture capital (PE/VC) firms made 18 offers, constituting 17 per cent of the total offers. Bank of America, Merrill Lynch, Barclays, Goldman Sachs, Axis Investment Management, GSK Capital and JP Morgan Chase also remained from the campus. General management and sales and marketing roles comprised 30 per cent of the total offers. Those recruiting for such roles included TCS, Aditya Birla Group, Mahindra & Mahindra, Alliance Healthcare, Infosys, Hindustan Unilever, Colgate-Palmolive, ITC, AkzoNobel and HUL. The other 22 per cent of overall offers

were in product management, IT, analytics and operations. Recruiters included Microsoft, Google, Salesforce, Amazon, IBM, SAP, Oracle, LinkedIn, American Express, BCG, UnitedHealth Group, Uber, and Mastercard. Ansh Sethi, Director of IIM-C, said, "Such covered employment offers demonstrate the high value of the education here and our students' skills and capabilities." IIM-C was established as the first national institute for post-graduate studies and research in management by the Government of West Bengal in November 1960, in collaboration with the All India Management School, AMBA, the Government of West Bengal, the Ford Foundation and Indian business.

Wendell Rodricks dies at 59

HEAVENLY CREATOR OF INDIA
Feb 12, 2020

Renowned fashion designer Wendell Rodricks (59-year-old) died in his residence in Colaba village in Goa on Wednesday, a police official said. Deputy Superintendent of Police, Mapusa, Gitanan Prabhakar confirmed the death of Rodricks, who was 59.

Prabhakar said Rodricks died after collapsing at his residence in North Goa. A Padma Shri awardee, Rodricks was also an author, environmentalist and a social activist. Although nameless, Rodricks' "Deeply wanted to hear about the golden center of my very good friend and designer, Wendell Rodricks. His generosity in his work and skills are irreplaceable and that's always be cherished." "We will truly miss him. My heartfelt condolences to his family and dear ones," Rame added in the tweet.

Union minister Sushil Kumar Shinde paid tributes to Rodricks and hailed him as one of India's most renowned designers. Shocked to hear about the untimely demise of Wendell Rodricks, one of the India's most renowned designers, my heartfelt condolences to his loved ones. May his soul rest in peace," she tweeted.

Vision Fund losses wipe out profit of SoftBank

SoftBank Group reported a near-total wipe out in quarterly profit on Wednesday, after the Japanese technology investor was hit by a sharp decline in a recently coronavirus quarter by losses at its \$102 billion Vision Fund.

The dire results by SoftBank deepened concerns about the company's investment strategy. The Vision Fund posted an operating loss of \$2.5 billion (₹15,500 crore) for the quarter, compared to ₹2.6 billion profit in the same period a year earlier. But SoftBank is known for its confidence and optimism. The company was last year's biggest

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore power to ships to cut costs and emissions as well

FRANDS

The dozen state-owned major ports in the country have reached an renewable energy to meet their carbon requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry has directed all the major ports to install solar and wind power projects to facilitate day-to-day operations

including supplying shore power to visiting ships.

The 12 State-owned ports are: Deendayal Port Trust, Mumbai Port Trust, Jawahar Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, AG Chittambaram Port Trust, Visakhapatnam Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings: Shore-power, also known as cold-ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets.

maximise power, enable ships at dock or in dry dock to use shore-side electricity for on-board systems, such as lighting, ventilation, communication, cargo prisms and other critical equipment, while turning off their auxiliary engines. The electricity comes from

the local power grid. Shore power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berth are estimated to be about 10 times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the landside," said a Ministry official. Ships when berthed at

ports, will consume a large amount of energy to meet various functions, starting from the ship's auxiliary power for ventilation and accommodation, loading and unloading of cargo, cooking, provisions and so on.

Routing these on-ship-powered generators results in noise, vibrations and emissions to the ports. The supply of shore-side electricity is therefore considered environment-friendly.

Lowering costs: The government has enabled the major ports to develop the necessary infra-

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

WRITERS

Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, defeating Joe Biden by a narrow margin in the state's caucus.

Joe Biden, the former mayor of South Bend, Indiana, who edged out Sanders in last week's caucus, lost to Sanders in a close second after splitting much of the caucus vote with Sen. Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,232 people and searching for a port to disembark is being rejected by countries along its route.

The death toll from the pathogen, limited to at least 1,112 as of Thursday, is the lowest daily level this week.

In the US, the State Department issued a travel advisory for Hong Kong in Level 2, which means "Exercise Increased Caution." The advisory said it would be non-essential personnel and their families based there leave if they want to. Last month, the State Department warned Americans not to travel to all mainland China.

Nissan sues Ghosn over \$21 million over financial misconduct

Nissan Motor Co on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn seeking 760 billion yen (\$6.62 billion) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for underpaying himself salary and manipulating company funds, until he fled to Lebanon in December. He denied any wrongdoing.

Nissan said it expects the amount claimed to damages to "increase in future" as it works to recover what it expects to have to pay to regulatory due to Ghosn's alleged misconduct.

Divisional results

Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan said earlier that they anticipated a poor results announcement on Thursday, with one of them calling the figures "bleak".

Guinness Record: 112-year-old Japanese is world's oldest living man

A Japanese man with a sweet tooth who believes in smiles has become the world's oldest male at 112 years and 184 days old, according to Guinness World Records.

Chiroku Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a morning home in the city. Watanabe graduated from agricultural school and then moved to Hawaii to work at Dai Nippon Soda Sugar Co. sugar cane plantation contracts. He lived in Hawaii for 16 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe said: "Don't get angry and keep smiling."

Tata Trusts Appoints Citi India's Ex-boss Pramit Jhaveri as Trustee

Prमित Jhaveri

Mumbai: Tata Trusts on Wednesday named its 14th trustee as Pramit Jhaveri, former CEO of Citi India, to its board of trustees. The appointment was approved at the meeting of the trustees on Wednesday. The appointments take effect from April 1. Jhaveri and Srivastava could not be reached for their comments. The Srivastava Tata Trust owns about 28% of Tata Steel, while the Srivastava Tata Trust owns about 22%. Together, the Tata Trusts and other philanthropic arms control 96% stake in Tata Steel. Jhaveri has been associated with the Tata for more than 20 years and has financial expertise, strong industry network, and knowledge across industries should help the group navigate current challenges. Jhaveri is, in fact, believed to have managed the Tata Steel's operations in India since 2012. He joined the Tata Administrative Services (TAS) in 1996, and has held various assignments, including that of the Tata Communications managing director.

Airport-like user charge for newly redeveloped railway stations

NEWS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL levy an airport-like fee on passengers who use redeveloped stations, which will result in a hike in fares, senior officials said on Wednesday.

Over development for (UDF) is a part of the plan that are paid by an passenger. UDF is charged at various airports and in air various based on market factors.

The fee will vary across the newly developed stations depending on their location, Railway board chairman VK Rajwani said in a press briefing.

He said the ministry will soon notify the amount to be charged.

The railways has floated a request for proposal, seeking bids to redevelop 50 stations through the Indian Railway Station Redevelopment Corporation (IRSDC), including an investment of around ₹52,000 crore in 2020-21.

The user development fee, along the lines of a levy charged by airport operators, will be used to help fund the upgradation of sta-

tions. The charges will be constant," Rajwani said.

He also said that the levy of the fee will only result in marginal increase in fares, which would be compensated by cost efficiency of redeveloped stations.

The Narendra Modi-led NDA government had announced plans to redevelop 400 railway stations in its first term. As per the plan, the cost of the station redevelopment project was to be met by leveraging commercial development of land and air space in and around the stations. The railway stations were taken up for redevelopment based on financial viability.

Third IRCTC Pvt. train to run between Varanasi and Indore from February 20

NEWS TRUST OF INDIA
New Delhi, February 12

THE IRCTC IS all set to introduce the third private train (Pvt) between Varanasi and Indore from February 20. The IRCTC is all set to introduce the third private train (Pvt) between Varanasi and Indore from February 20. The IRCTC is all set to introduce the third private train (Pvt) between Varanasi and Indore from February 20.

By the railway PTV.

Being the first long-distance overnight train, IRCTC has geared up to provide a host of facilities and services to passengers, including high quality vegetarian food, onboard WiFi and business lounge services and onboard security services.

Besides, every passenger travelling on the train will be offered a complimentary travel insurance of ₹10 lakh during the journey," the IRCTC said. On the lines of the Tajair train, the IRCTC booking for the Kashi Mahakal Express can be done only on the IRCTC website and its mobile app 'Irrco Rail Connect'.

MHA asserts NRC data safe; Wipro says service contract not renewed

NEWS TRUST OF INDIA
New Delhi, February 12

THE CENTRE ON Wednesday sought to allay concerns over data of the contentious Assam NRC going offline, asserting that the document is safe through there are some technical issues with IT system. Wipro said its service contract for the project was not renewed after its expiry last October.

"NRC data was not available for a couple of days since it reached panic, mostly among the people excluded from the list as the provision certificates were yet to be issued. The NRC data is safe. Some technical issues are its availability of cloud. These are being resolved soon. A home ministry spokesperson said here. Bengaluru-based Wipro was appointed as the system integrator for the National Register of Citizens (NRC) project in Assam in 2014 after a rigorous tender process."

In a statement, Wipro said it had continued to pay the hosting service fee until January-end "as a gesture of goodwill" and that it is willing to continue providing their services if the agreement is renewed by the authorities. "The project was commissioned by the Registrar General of India and the Ministry of Home Affairs, and was monitored by the Honorable Supreme Court of India."

"As an IT services provider, Wipro was tasked with providing the technical architecture and technology solutions for the project," it said.

"The IT services contract was not renewed by the authorities upon its expiry in October 2019. However, as a gesture of goodwill, Wipro continued to pay the hosting service fee until January-end, 2020," Wipro said.

However, the company did not comment on the quantum of dues or whether discussions were underway to resolve the issue. The company's statement comes two days after the central government said the NRC data in Assam is safe.

NRC state coordinator Hitesh Desai said on Tuesday accepted that the data has been made offline, but refused the allegation of any 'data fide' intent in it. The cloud service for the huge set of data was provided by IT firm Wipro and their contract was till October 19, last year. However, this was not renewed by the previous coordinator.

"So, the data got offline from December 15 after it was suspended by Wipro. Sirma had said. He said the data coordination committee had decided to do necessary formalities in its meeting on January 10 and write to the Wipro in the first week of February."

"Once Wipro makes the data live, it will be available to public. We hope people will be able to access it in the next two-three days," Sirma said. The complete details of exclusion and inclusion of bona fide Indian citizens in the NRC was updated on its official website: <https://www.nrcassam.in> after the final list was published on August 31, 2019. The final NRC was published by excluding 19,06,657 people. A total of 1,11,21,004 names were included out of 3,30,27,661 applicants.

REL 27 / FEB 2020

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

P. MANOJ

Mumbai, February 12
The dozen state-owned major ports in the country have switched to renewable energy to meet their entire power requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry has directed all the major ports to install grid-connected and rooftop solar and wind power projects to facilitate day-to-day operations

including supplying shore power to visiting ships.

The 12 state-owned ports are Deendulal Port Trust, Mumbai Port Trust, Jawaharlal Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, V.O. Chidambaram Port Trust, Visakhapatnam Port Trust, Paradip Port Trust, Kolkata Port Trust and Kattappana Port Ltd.

Shore-power savings
Shore-power, also known as cold ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets.

maritime power, enables ships at dock or in dry dock to use shore-side electricity for on-board systems, such as lighting, ventilation, communication, cargo pumps and other critical equipment, while turning off their auxiliary engines.

The electricity comes from

the local power grid. Shore power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berth are estimated to be about 10 times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the land-side," said a Ministry official.

Ships when berthed at

port, still consume a large amount of energy to meet various functions during their port stay. This could be by running the ship's auxiliary power for ventilation of accommodation, loading and unloading of cargo, cooking, provisions and spaces.

Running these on fuel-powered generators results in noise, vibrations and emissions to the ports. The supply of shore-side electricity is therefore considered environment friendly.

Lowering costs
The government has enabled the major ports to develop the necessary infrastructure to supply shore electric power to all types of ships. Using renewable energy also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel and cargo-related charges.

India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that presently cover only a low power supply — up to 150 kW at low voltage.

"Once a port is ready with high voltage supply to meet any power demand of a ship, a new SOP will be issued," a Ministry official said.

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

REPORTERS
New Hampshire, Feb. 12
Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, solidifying his front-runner status in the race to take on Donald Trump and dealing a setback to moderate rival Joe Biden, who finished a disappointing fifth.

Pete Buttigieg, the former mayor of South Bend, Indiana, who edged out Sanders in last week's messy Iowa caucuses, came in a close second after splitting much of the caucusing vote with Senator Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

BLOOMBERG

Geneva, February 12
The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,257 people and searching for a port continues to be infected by countries citing unfounded fears of infected passengers.

The death toll from the pathogen climbed to at least 1,112, as Hubei province at the centre of the outbreak reported 94 more deaths. Huber said there were 1,628 additional cases for February 12, the lowest daily level this month.

In the US, the State Department raised its travel advisory for Hong Kong to level 2, which means visitors should exercise increased caution. The agency said it would let non-essential personnel and their families based there leave if they want to. Last month, the State Department warned Americans not to travel at all to mainland China.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

REPORTERS

Nissan Motor Co. on Wednesday said that it has filed a lawsuit in Japan against former chairman Carlos Ghosn seeking 900 billion yen (\$9.02 billion) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for under-reporting his annual salary and misusing company funds, until he fled to Lebanon in December. He denies any wrongdoing.

Nissan said it expects the amount claimed in damages to "increase in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Dismal' results
Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan said earlier that they anticipated a poor results announcement on Thursday, with one of them calling the figures "dismal".

Guinness Record: 112-year-old Japanese is world's oldest living man

ASSOCIATED PRESS

Osaka, February 12
A Japanese man with a sweet tooth who believes in sodas has become the world's oldest male at 112 years and 344 days old, according to Guinness World Records.

Chitetsu Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a nursing home in the city. Watanabe graduated from agricultural school and then moved to Taiwan to work at Dai-Nippon Meiji Sugar on sugar cane plantation contracts. He lived in Taiwan for 19 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe advised, "Don't get angry and keep smiling."

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

PANAJI

Mumbai, February 12
The dozen state-owned major ports in the country have switched to renewable energy to meet their on-site power requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry had directed all the major ports to install grid-connected and rooftop solar and wind power projects to facilitate day-to-day operations.

Including supplying shore-power to visiting ships.

The 12 state-owned ports are Paradip Port Trust, Mumbai Port Trust, Jawahar Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, V.O. Chidambaram Port Trust, Visakhapatnam Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings
Shore-power, also known as cold ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets.

marine power, enables ships at dock or in dry dock to use shore-side electricity for on-board systems, such as lighting, ventilation, com-

munication, cargo pumps and other critical equipment, while turning off their auxiliary engines. The electricity comes from

the local power grid. Shore-power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berth are estimated to be about 10 times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in port than from port activities on the land-side," said a Ministry official.

Ships when berthed at port, still consume a large amount of energy to meet various functions during their port stay. This could be for running the ships' auxiliary power for ventilation of accommodation, loading and unloading of cargo, cooking, provisions and spares.

Switching these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

Running these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

NEWS

MONTICELLO, N.H., February 11

Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, solidifying his frontrunner status in the race to take on Donald Trump and avoiding a setback to moderate rival Joe Biden, who finished a disappointing fifth.

Pete Buttigieg, the former mayor of South Bend, Indiana, who edged out Sanders in last week's messy Iowa caucus, came in a close second after splitting much of the crossover vote with Senator Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

WASHINGTON

February 12

The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,257 people and searching for a port continues to be rejected by countries citing unquashed fears of infected passengers.

The death toll from the pathogen climbed to at least 1,112, as Hubei province at the centre of the outbreak reported 94 more deaths. Hubei said there were 1,538 additional cases for February 11, the lowest daily level this month.

In the UK, the State Department raised its travel advisory for Hong Kong to level 2, which means visitors should exercise increased caution. The agency said it would let non-essential personnel and their families based there leave if they want to. Last month, the State Department warned Americans not to travel at all to mainland China.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

MUSKOGEE

February 12

Nissan Motor Co on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn seeking ¥6 billion (\$91.02 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for understating his annual salary and mismanaging company funds, until he fled to Lebanon in December. He denies any wrongdoing.

Nissan said it expects the amount claimed in damages to "increase in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Dismal' results

Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan told Reuters that they anticipate a poor results announcement on Thursday, with one of them calling the figures "dismal".

Guinness Record: 112-year-old Japanese is world's oldest living man

ASSOCIATED PRESS

Saito, February 12

A Japanese man with a sweet tooth who believes in zines has become the world's oldest male at 112 years and 144 days old, according to Guinness World Records.

Chitetsu Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a nursing home in the city. Watanabe graduated from agricultural school and then moved to Taiwan to work at Dai Nippon Meiji Sugar on sugar cane plantation contracts. He lived in Taiwan for 16 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe advised: Don't get angry and keep smiling.

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

P. MANI

Special Correspondent

The dozen state-owned major ports in the country have switched to renewable energy to meet their emission requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry had directed all the major ports to install grid-connected and stand-alone solar and wind power projects to facilitate day-to-day operations

including supplying shore-power to visiting ships.

The 12 state-owned ports are Deendulal Port Trust, Mumbai Port Trust, Jawaharlal Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, V.O. Chidambaram Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings
Shore power, also known as cold ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets.

maritime power, enables ships at dock or in dry-dock to use shore-side electricity for on-board systems, such as lighting, ventilation, com-

munication, cargo pumps and other critical equipment, while running off their auxiliary engines. The electricity comes from

the local power grid. Shore-power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berth are estimated to be about 10 times greater than those from the port's own operations. "So, there is a greater potential to reduce greenhouse gas emission from ships in ports than from port activities on the land-side," said a Ministry official.

Ships when berthed at

port, still consume a large amount of energy to meet various functions during their port stay. This could be for running the ship's auxiliary power for ventilation of accommodation, loading and unloading of cargo, cooking, provisions and spares.

Running these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

Lowering costs

The government has enabled the major ports to develop the necessary infra-

structure to supply shore electric power to all types of ships. Using renewable energy also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel and cargo-related charges.

India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that presently cover only a low power supply up to 150 kW at low voltage.

"As a port is ready with high voltage supply to meet any power demand of a ship, a new SOP will be issued," a Ministry official said.

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

Special Correspondent

Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, solidifying his 19th runner status in the race to take on Donald Trump and dealing a setback to moderate rival Joe Biden, who finished a disappointing fifth.

Pete Buttigieg, the former mayor of South Bend, Indiana, who edged out Sanders in last week's messy Iowa caucuses, came in a close second after splitting much of the centrist vote with Senator Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

REKAMANI

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

INDIAN

The dozen state-owned major ports in the country have switched to renewable energy to meet their entire power requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry had directed all the major ports to install grid-connected and roof-top solar and wind power projects to facilitate shore-side operations

including supplying shore power to visiting ships.

The 12 State-owned ports are Deendayal Port Trust, Mumbai Port Trust, Jawaharlal Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, Tuticorin Port Trust, Visakhapatnam Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings, shore-power, also known as cold ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets. Maritime power, enables ships at dock or in dry dock to use shore-side electricity for onboard systems, such as lighting, ventilation, communication, cargo pumps and other critical equipment, while turning off their auxiliary engines. The electricity comes from

the local power grid. Shore power is considered an important way to cut emissions and save costs for shipping companies.

"It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berth are estimated to be about 10 times greater than those from the ports' own operations. So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the land-side," said a Ministry official.

Ships when berthed at port, still consume a large amount of energy to meet various functions during their stay. This could be met by running the ships' auxiliary power for ventilation, accommodation, loading and unloading of cargo, cooking, provisions and spares.

Running these on fuel-powered generators results in noise, vibrations and emissions at the ports. The supply of shore-side electricity is therefore considered environment friendly.

Lowering costs
The government has enabled the major ports to develop the necessary infra-

structure to supply shore electric power to all types of ships. Using renewable energy also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel and cargo-related charges.

India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that previously cover only a low power supply — up to 150 kW at low voltage.

"Once a port is ready with high voltage supply to meet any power demand of a ship, a new SOP will be issued," a Ministry official said.

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

BY MANOJ

Mumbai, February 12
The dozen state-owned major ports in the country have switched to renewable energy to meet their entire power requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry had directed all the major ports to install grid-connected and rooftop solar and wind power projects to facilitate day-to-day operations

including supplying shore-power to visiting ships.

The 12 state-owned ports are Deendulap Port Trust, Mumbai Port Trust, Jawaharlal Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, V.O. Chidambaram Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings: Shore-power, also known as cold ironing, or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets

maritime power, enables ships at dock or in dry dock to use shore-side electricity for on-board systems, such as lighting, ventilation, com-

munication, cargo pumps and other critical equipment, while turning off their auxiliary engines. The electricity comes from

the local power grid. Shore-power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets. Emissions from ships at berth are estimated to be about 30 times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the land-side," said a Ministry official.

Ships when berthed at

port, still consume a large amount of energy to meet various functions during their port stay. This could be for running the ships' auxiliary power for ventilation, accommodation, loading and unloading of cargo, cooking, provisions and spares.

Running these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

Lowering costs

The government has enabled the major ports to develop the necessary infra-

structure to supply shore electric power to all types of ships. Using renewable energy also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel and cargo-related charges.

India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that presently cover only a low power supply — up to 150 kW at low voltage.

"Once a port is ready with high voltage supply to meet any power demand of a ship, a new SOP will be issued," a Ministry official said.

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, solidifying his front-runner status in the race to take on Donald Trump and dealing a setback to moderate rival Joe Biden, who finished a disappointing fifth.
Pete Buttigieg, the former mayor of South Bend, Indiana, who edged out Sanders in last week's messy Iowa caucuses, came in a close second after splitting much of the centrist vote with Senator Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

BY MANOJ

Mumbai, 12
The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,257 people and searching for a port continues to be rejected by countries, often amid extended fears of infected passengers.

The death toll from the pathogen climbed to at least 1,112, as Hubei province at the center of the outbreak reported 94 more deaths. Hubei said there were 1,038 additional cases for February 11, the lowest daily level this month.

In the US, the State Department raised its travel advisory for Hong Kong to Level 2, which means visitors should exercise increased caution. The agency said it would let non-essential personnel and their families, based there leave if they want to. Last month, the state department warned Americans not to travel at all to mainland China.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

BY MANOJ

Mumbai, February 12
Nissan Motor Co on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn seeking \$91 billion (\$91.2 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for under-paying his annual salary and misusing company funds, until he fled to Lebanon in December. He denies any wrongdoing.

Nissan said it expects the amount claimed in damages to "increase in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Dimial' results

Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan told Reuters that they anticipate a poor results announcement on Thursday, with one of them calling the figures "dimial".

Guinness Record: 112-year-old Japanese is world's oldest living man

BY MANOJ

Mumbai, February 12
A Japanese man with a sweet tooth who believes in smiles has become the world's oldest male at 112 years and 344 days old, according to Guinness World Records.

Chiemon Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a nursing home in the city. Watanabe graduated from agricultural school and then moved to Taiwan to work at Dai Nippon Meiji Sugar on sugar cane plantation contracts. He lived in Taiwan for 18 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe advised: Don't get angry and keep smiling.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

REUTERS

Source: February 12
Nissan Motor Co on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn, seeking \$91 million (530.04 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for under-reporting financial subsidies and misleading company officials until his flight to Lebanon in December, the document says.

Nissan said it expects the amount claimed to damages to "increase in future" as it seeks to recover from its expected losses to suit to regulators due to Ghosn's alleged misconduct.

'Dismal' results

Nissan may also regret its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

There's some optimism at Nissan that they anticipate a poor results announcement on Thursday will open up shares calling the degree 'dismal'.

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

P. MANOJ

The dozen state-owned major ports in the country have switched to renewable energy to meet their entire power requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry had directed all the major ports to install grid-connected and rooftop solar and wind power projects to facilitate day-and-night operations,

including supplying shore power to visiting ships.

The 12 State-owned ports are Deendulal Port Trust, Marhal Port Trust, Jawahar Nellore Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, V.O. Chidambaram Port Trust, Visakhapatnam Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings
Shore-power, also known as cold ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets.

maritime power, enables ships at dock or in dry dock to use shore-side electricity for on-board systems, such as lighting, ventilation, communication, cargo pumps and other critical equipment, while turning off their auxiliary engines. The electricity comes from

the local power grid. Shore-power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berth are estimated to be about six times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the land-side," said a Ministry official.

Ships when berthed at

port, still consume a large amount of energy to meet various functions during their port stay. This could be for running the ship's auxiliary power for ventilation of accommodation, loading and unloading of cargo, cooking, provisions and spares.

Running these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

Lowering costs
The government has trialled the major ports to develop the necessary infra-

structure to supply shore electric power to all types of ships, using renewable energy, also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel and cargo-related charges.

India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that presently cover only a low power supply — up to 150 kW at low voltage.

"Once a port is ready with high voltage supply to meet any power demand of a ship, a new SOP will be developed," a Ministry official said.

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

REPORTER
Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, solidifying his front-runner status in the race to take on Donald Trump and ousting a setback to moderate rival Joe Biden, who finished a disappointing fifth.

Pete Buttigieg, the former mayor of South Bend, Indiana, who edged out Sanders in last week's Iowa caucus, came in a close second after splitting much of the center vote with Senator Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

PROBODH
The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,257 people and searching for a port continues to be rejected by countries citing unfounded fears of infected passengers.

The death toll from the pathogen climbed to at least 1,112, as Hubei province at the centre of the outbreak reported 94 more deaths. Hubei said there were 618 additional cases for February 11, the lowest daily level this month.

In the UK, the State Department raised its travel advisory for Hong Kong to Level 2, which means visitors should exercise increased caution. The agency said it would let non-essential personnel and their families based there leave if they want to. Last month, the State Department warned Americans not to travel at all to mainland China.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

REPORTER
Nissan Motor Co on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn, seeking 70 billion (US\$12 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for under-reporting his annual salary and performing company funds, until he fled to Lebanon in December. He denies any wrongdoing.

Nissan said it expects the amount claimed in damages to "increase in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Disma' results
Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan told Reuters that they anticipate a poor results announcement on Thursday, with one of them citing the figures "disma".

Guinness Record: 112-year-old Japanese is world's oldest living man

ASSOCIATED PRESS
A Japanese man with a sweet tooth who believes in smiles has become the world's oldest male at 112 years and 144 days old, according to Guinness World Records.

Chiroshi Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a nursing home in the city. Watanabe graduated from agricultural school and then moved to Taiwan to work at Dai Nippon Meiji sugar cane plantation contracts. He lived in Taiwan for 18 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe advised: "Don't get angry and keep smiling."

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets

P. MANI
Newspaper, February 12

The dozen state-owned major ports in the country have switched to renewable energy to meet their entire power requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

including supplying shore-power to visiting ships.

The 12 state-owned ports are Paradwip Port Trust, Mumbai Port Trust, Jawaharal Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, V.O. Chidambaram Port Trust, Visakhapatnam Port Trust, Paradwip Port Trust, Kolkata Port Trust and Konark Port Ltd.

Shore-power savings
Shore-power, also known as cold ironing is alternative

maritime power, enables ships at dock or in drydock to use shore-side electricity for on-board systems, such as lighting, ventilation, communication, cargo pumps and other critical equipment, while turning off their auxiliary engines.

The electricity comes from

the local power grid. Shore-power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berth are estimated to be about 10 times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the land-side," said a Ministry official.

Ships when berthed at port, still consume a large amount of energy in most various functions during their port stay. This could be for running the ship's auxiliary power for ventilation of accommodation, loading and unloading of cargo, cooking, promotions and spares.

Running these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

structure to supply shore electric power to all types of ships. Using renewable energy also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel and cargo-related charges.

India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that presently cover only a low power supply — up to 150 kW at low voltage.

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

REUTERS
WASHINGTON, Feb. 11

Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, defeating his front-runner status in the race to take on Donald Trump and dealing a setback to moderate rival Joe Biden, who finished a disappointing fifth.

Pete Buttigieg, the former mayor of South Bend, Indiana, who edged out Sanders in last week's Iowa caucus, came in a close second after splitting much of the centrist vote with Senator Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

INCOMING
February 12

The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,237 people and searching for a port continues to be rejected by countries citing unfounded fears of infected passengers.

The death toll from the pathogen climbed to at least 1,112, as Hubei province at the centre of the outbreak reported 94 more deaths. Hubei said there were 1,618 additional cases for February 12, the lowest daily level this month.

In the US, the State Department raised its travel advisory for Hong Kong to Level 2, which means visitors should exercise increased caution. The agency said it would let non-essential personnel and their families based there leave if they want to. Last month, the State Department warned Americans not to travel at all to mainland China.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

REUTERS
Tokyo, February 12

Nissan Motor Co. on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn, seeking 70 billion (\$91.02 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for under-reporting his annual salary and misusing company funds, until he fled to Lebanon in December. He denies any wrongdoing.

Nissan said it expects the amount claimed in damages to "increase in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Dismal' results
Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan told Reuters that they anticipate a poor results announcement on Thursday, with one of them calling the figures "dismal".

Guinness Record: 112-year-old Japanese is world's oldest living man

ASSOCIATED PRESS
Tokyo, February 12

A Japanese man with a sweet tooth who believed in tea has become the world's oldest male at 112 years and 144 days old, according to Guinness World Records.

Chitetsu Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a meeting held in the city. Watanabe graduated from agricultural school and then moved to Taiwan to work at Dai Nippon Meiji Sugar Co sugar cane plantation contracts. He lived in Taiwan for 26 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe advised: "Don't get angry and keep smiling."

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

PANORAMA

The dozen state-owned major ports in the country have switched to renewable energy to meet their energy requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green port' initiative, the Shipping Ministry has directed all the major ports to install grid connected and roof-top solar and wind power projects to facilitate day-to-day operations

including supplying shore-power to visiting ships.

The 12 state-owned ports are Drednath Port Trust, Mumbai Port Trust, Jawahar Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, V.O. Chidambaram Port Trust, Visakhapatnam Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings Shore-power, also known as cold ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets

maritime power, enables ships at dock or in dry dock to use shore-side electricity for on-board systems, such as lighting, ventilation, communication, cargo pumps and other critical equipment, while turning off their auxiliary engines. The electricity comes from

the local power grid. Shore power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets.

Emissions from ships at berths are estimated to be about 10 times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the land-side," said a Ministry official.

Ships when berthed at

port, still consume a large amount of energy to meet various functions during their port stay. This could be for running the ships' auxiliary power for ventilation of accommodation, loading and unloading of cargo, cooking, provisions and spares.

Running these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

Lowering costs The government has enabled the major ports to develop the necessary infra-

structure to supply shore electric power to all types of ships. Using renewable energy also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel- and cargo-related charges.

India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that presently cover only a low power supply — up to 330 kW at low voltage.

"Once a port is ready with high voltage supply to meet any power demand of a ship, a new SOP will be issued," a Ministry official said.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

NEWS

Nissan Motor Co on Wednesday said that it had filed a lawsuit against former chairman Carlos Ghosn seeking 91 million (\$91 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for misappropriating company funds, much he fled to Lebanon in December. He denies any wrongdoing.

Nissan said it expects the amount claimed in damages to "fluctuate in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Dismal' results

Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan told Reuters that they anticipate a poor results announcement on Thursday, with one of them calling the figures "dismal".

Guinness Record: 112-year-old Japanese is world's oldest living man

ASSOCIATED PRESS

A Japanese man with a sweet tooth who believes in umami has become the world's oldest male at 112 years and 344 days old, according to Guinness World Records.

Chitetsu Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a meeting home in the city. Watanabe graduated from agricultural school and then moved to Taiwan to work at Dai-Nippon Merit Sugar on sugar cane plantation contracts. He lived in Taiwan for 18 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe advised: Don't get angry and keep smiling.

In a world-first, India's dozen major ports now run fully on renewable energy

The state-owned ports offer shore-power to ships to cut costs and emissions as well

By ANAND

NEW DELHI India's 12 state-owned major ports in the country have switched to renewable energy to meet their entire power requirements, making India the first nation to have all government-owned ports running on solar and wind energy.

Under a 'green ports' initiative, the Shipping Ministry had directed all the major ports to install grid-connected and roof-top solar and wind power projects to facilitate day-to-day operations

including supplying shore power to visiting ships.

The 12 state-owned ports are Deendul Port Trust, Mumbai Port Trust, Jawahar Nehru Port Trust, New Mangalore Port Trust, Mormugao Port Trust, Cochin Port Trust, Chennai Port Trust, Tuticorin Port Trust, Visakhapatnam Port Trust, Paradip Port Trust, Kolkata Port Trust and Kamarajar Port Ltd.

Shore-power savings Shore-power, also known as cold ironing or alternative

Shore power is a quicker and cheaper short-term solution that allows shipping companies to meet emission targets

maritime power, enables ships at dock or in dry dock to use shore-side electricity for on-board systems, such as lighting, ventilation, communication, cargo pumps and other critical equipment, while turning off their auxiliary engines. The electricity comes from

the local power grid. Shore power is considered an important way to cut emissions and save costs for shipping companies.

It is also a quicker and cheaper short-term solution for allowing shipping companies to meet emission targets. Emissions from ships at berth are estimated to be about 10 times greater than those from the ports' own operations. "So, there is a greater potential to reduce greenhouse gas emissions from ships in ports than from port activities on the land-side," said a Ministry official. Ships when berthed at

port, still consume a large amount of energy to meet various functions during their port stay. This could be for running the ships' auxiliary power for ventilation or accommodation, loading and unloading of cargo, cooking, provisions and spares. Running these on fuel-powered generators results in noise, vibrations and emissions in the ports. The supply of shore-side electricity is therefore considered environment friendly.

Lowering costs The government has enabled the major ports to develop the necessary infrastructure to supply shore electric power to all types of ships. Using renewable energy also helps ports cut power bills — a key operating cost — which in turn translates into lower vessel- and cargo-related charges. India's maritime administration has framed standard operating procedures (SOP) for shore electric power supply to ships in Indian ports that presently cover only a low power supply — up to 150 kW at low voltage. "Once a port is ready with high voltage supply to meet any power demand of a ship, a new SOP will be issued," a Ministry official said.

Bernie Sanders beats Buttigieg in New Hampshire Democratic primary

By ANAND

NEW HAMPSHIRE Bernie Sanders narrowly won New Hampshire's Democratic presidential primary on Tuesday, solidifying his front-runner status in the race to take on Donald Trump and dealing a setback to moderate rival Joe Biden, who finished a disappointing fifth.

Pete Buttigieg, the former mayor of South Bend, Indiana, who edged out Sanders in last week's messy Iowa caucuses, came in a close second after splitting much of the centrist vote with Senator Amy Klobuchar.

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

By ANAND

GENEVA The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,237 people and searching for a port continues to be rejected by countries citing widespread fears of infected passengers.

The death toll from the pathogen climbed to at least 1,112, as Hubei province at the centre of the outbreak reported 94 more deaths. Hubei said there were 1,618 additional cases for February 11, the lowest daily toll this month.

In the US, the State Department raised its travel advisory for Hong Kong to Level 2, which means visitors should exercise increased caution. The agency said it would let non-essential personnel and their families based there leave if they want to, last month. The State Department warned Americans not to travel at all to mainland China.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

By ANAND

NEW DELHI Nissan Motor Co. on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn seeking ¥91 billion (\$91.92 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for understating his annual salary and misusing company funds, until he fled to Lebanon in December. He denies any wrongdoing.

Nissan said it expects the amount claimed in damages to "increase in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Disarm' results

Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan told Reuters that they anticipate a poor results announcement on Thursday, with one of them calling the figures "dismal".

WHO renames coronavirus as 'Covid-19'; death toll reaches 1,112

GENEVA
The disease caused by the new coronavirus has been officially named Covid-19, while a luxury liner carrying 2,257 people and searching for a port continues to be rejected by countries citing unfounded fears of infected passengers.

The death toll from the pathogen climbed to at least 1,112, as Hubei province at the centre of the outbreak reported 94 more deaths. Hubei said there were 1,038 additional cases for February 11, the lowest daily level this month.

In the US, the State Department raised its travel advisory for Hong Kong to level 2, which means visitors should exercise increased caution. The agency said it would let non-essential personnel and their families based there leave if they want to. Last month, the State Department warned Americans not to travel at all in mainland China.

Nissan sues Ghosn for \$91 million over 'financial misconduct'

TOYO
Nissan Motor Co. on Wednesday said that it had filed a civil lawsuit in Japan against former chairman Carlos Ghosn seeking ¥1 billion (\$91 million) in damages over his alleged financial misconduct.

Ghosn had been facing criminal charges in Japan for concealing his annual salary and submitting company funds, said by the firm in a statement on Wednesday.

Nissan said it expects the amount claimed by damages to "increase in future" as it seeks to recover fines it expects to have to pay to regulators due to Ghosn's alleged misconduct.

'Dismal' results
Nissan may also report its first quarterly loss in over a decade on Thursday because of slumping sales, sources familiar with the company said.

Three senior officials at Nissan told Reuters that they anticipate a poor results announcement on Thursday, with one of them calling the figures "dismal".

Guinness Record: 112-year-old Japanese is world's oldest living man

ASSOCIATED PRESS
A Japanese man with a sweet tooth who believes in smiles has become the world's oldest male at 112 years and 344 days old, according to Guinness World Records.

Eitaro Watanabe, who was born in Niigata in northern Japan in 1907, received a certificate for his accomplishment on Wednesday at a nursing home in the city. Watanabe graduated from agricultural school and then moved to Taiwan to work at Dai-Nippon Meiyo Sugar on sugar cane plantation contracts. He lived in Taiwan for 18 years.

After the end of World War II, Watanabe returned to Niigata and worked for the prefectural government until retirement. Asked about the secret to longevity, Watanabe advised: "Don't get angry and keep smiling."

Average salary offer hits life high of ₹28 lakh at IIM-C

WHO OFFERED WHAT

- Consultancy sector made for 31% of all offers, BCG, McKinsey & Co, Bain & Co were top recruiters
- PE-VC firms made 17% of all offers, with BofA, Merrill Lynch, Barclays as top recruiters
- 36% of total offers were from general management and sales departments, with IAS, AB Group, M&M as top recruiters
- 22% of all offers were from product management, IT analytics, and operations domains, with Microsoft, Google, Salesforce as top recruiters

AVISHER BHARGAVA
New Delhi, 12 February

The MBA graduating batch at Indian Institute of Management Calcutta (IIM-C) has registered an all-time high for average salaries for the top 10 percent and the top quartile of the class, during job placements for the outgoing batch of 2020, at an annual ₹54.5 lakh and ₹41.8 lakh, respectively. The annual average salary is also a record, at ₹28 lakh, with the median figure ₹25.5 lakh. In all, 439 students garnered 492 offers from 156 firms.

It offered "Intern" and "Walk and Hold" options for its students. Recruiters could also select from a larger pool and make offers to the most suitable candidates in their choice.

The institute adopted a platform termed 'Supers', described as an enabling tool to automate campus placements and M&A and helping employers to hire from colleges across the country. Avishek Goel, chairman of the institute's career development and placement office, said its introduction "made our process even more transparent and efficient".

Continuing the trend witnessed in summer intern placements, held in October 2019, the consultancy sector was the largest employer with 31 per cent of all offers. The Boston Consulting Group, McKinsey & Co, Bain & Co, Kearney, PricewaterhouseCoopers and Accenture were top recruiters in the sector.

Management trainee/placement equity venture capital (PE-VC) firms made 85 offers, comprising 17 per cent of the total received. (Baird & Associates/Merrill Lynch, Barclays, Goldman Sachs, Argo Investments Management, GSA Capital and JP Morgan Chase were among these).

General management and sales and marketing roles added to 30 per cent of total offers. Those recruiting for such roles included TCS, Aditya Birla Group, Mahindra & Mahindra, Reliance, Vedanta, TataSteel, Hindustan Unilever, Colgate-Palmolive, ITC, Mondelez and F&T-BE. The other 22 per cent of overall offers

were in product management, IT, analytics and operations domains. Recruiters included Microsoft, Google, Salesforce, Amazon, Flipkart, Unilever, ESI Services, American Express, HCL, UnitedHealth Group (Optum) and Mastercard.

Ana Sethi, director of IIM-C, said: "Such coveted employment offers demonstrate the high value of the education here and our students' skills and capabilities." IIM-C was established as the first national institute for post-graduate studies and research in management by the Centre for New Horizons, in collaboration with the All India Management Institute, the government of West Bengal, the Ford Foundation and Indian business.

Hafiz Saeed gets 11 yrs in jail for terror financing

PRIME TIME OF INDIA
Lahore, 12 February

Mumbai attack mastermind Hafiz Saeed (pictured) was on Wednesday sentenced to 11 years in jail by an anti-terrorism court in Pakistan in two terror financing cases.

Saeed, a UN designated terrorist whom the US has placed a \$10 million bounty on, was arrested on July 17 in the terror financing case. He is lodged at the Lahore's Kot Lakhpat jail in high security. A court official confirmed to PTI that Saeed was sentenced to 11 years in two terror financing cases registered against him in Lahore and Gujranwala cities on the application of the Counter Terrorism Department of Punjab police.

The court sentenced Saeed to five and a half years and imposed a fine of ₹5,000 in each case. The sentences of both cases will run concurrently. The anti-terrorism court or ATC had indicted Saeed and his close aides on December 11 in the terror financing cases.

Last Saturday, Lahore ATC judge Ashraf Hussain Bhutta deferred the verdict against Saeed in two terror financing cases till February 11. In the two cases, the prosecution produced seven other witnesses in the ATC who testified against Saeed and his close aides for their involvement in terror financing. Saeed pleaded "not guilty" in both the cases.

The Counter Terrorism Department had registered 23 FIRs against Saeed and his accomplices on the charges of terror financing in different cities of Punjab province.

Kejriwal to take oath as Delhi CM on Sunday

AAP supremo Arvind Kejriwal will take oath as the chief minister of Delhi on February 16 for the third consecutive time at the Ramilla Maidan, in a grand ceremony that will be open to public.

Addressing a press conference at the party headquarters, Marishi Shodha, the deputy chief minister in the outgoing government, said all Cabinet ministers will also take oath along with Kejriwal at the event.

An AAP functionary said the party has planned a mass mobilisation of people for the mega event on Sunday at 10 am and all newly-elected party MLAs have been asked to ensure huge participation from their constituencies.

According to the party, no decision has yet been taken on the names who will find a place in the new Cabinet, but sources said Kejriwal is likely to retain all the outgoing ministers. PH

Wendell Rodricks dies at 59

PREST TRUST OF INDIA
Panaji, 12 February

Renowned fashion designer Wendell Rodricks (ipiruzum) died at his residence in Colvale village in Goa on Wednesday, a police official said. Deputy Superintendent of Police, Marissa, Gajanan Prabhudesai confirmed the death of Rodricks, who was 59.

Prabhudesai said Rodricks died after collapsing at his residence in North Goa. A Paula Sibi overdose, Rodricks was also an author, environmentalist and gay rights activist. Goa Health Minister Vishwanath Rane tweeted, "Theoply saddened to hear about the sudden demise of my very good friend and designer, Wendell Rodricks. His excellence in his work and skills are irreplaceable and shall always be cherished." "We will truly miss him. My heartfelt condolences to his family and dear ones," Rane added in the tweet.

Union minister Nirmal Prasad tributes to Rodricks and hailed him as one of India's most renowned designers. Shocked to hear about the untimely demise of Wendell Rodricks, one of the India's most renowned designers, my heartfelt condolences to his loved ones. May his soul rest in peace," she tweeted.

Vision Fund losses wipe out profit of SoftBank

SoftBank Group reported a near-total wipe out in quarterly profit on Wednesday, after the Japanese technology investor was whittled down by a second consecutive quarter by losses at its \$100 billion Vision Fund.

The dire result is likely to deepen concern about founder Masayoshi Son's ability to secure funding for a second Vision Fund, and give room ammunition to activist investor Elliott Management, which has recently emerged as a prominent shareholder.

The numbers are also the latest reminder of the inherent risk in Son's strategy of betting big on untested startups. The Vision Fund posted an operating loss of 226 billion yen (\$2.05 billion) for October-December compared to 176 billion yen profit in the same period a year earlier. But Son, who is known for his ebullience and charisma said the company was already turning the corner.

Hafiz Saeed gets 11 yrs in jail for terror financing

PREMIER TRUST OF INDIA
Lahore, 12 February

Mumbai attack mastermind and Jamaat-ul-Dawa Chief Hafiz Saeed (ph) was on Wednesday sentenced to 11 years in jail by an anti-terrorism court in Pakistan in two terror financing cases.

Saeed, a UN designated terrorist whom the US has placed a \$10 million bounty on, was arrested on July 17 in the terror financing cases. He is lodged at Lahore's Kot Lakhpat jail in high security. A court official confirmed to PTI that Saeed was sentenced to two terror financing cases registered against him in Lahore and Gujranwala cities on the application of the Counter Terrorism Department of Punjab police.

The court sentenced Saeed to five and a half years and imposed a fine of ₹15,000 in each case. The sentence of both cases will run concurrently. The anti-terrorism court or ATC had indicted Saeed and his close aides on December 14 in the terror financing cases.

Last Saturday, Lahore ATC judge Ashraf Hussain Bhatta deferred the verdict against Saeed in two terror financing cases till February 11. In the two cases, the prosecution produced seven 30 or so witnesses in the ATC who testified against Saeed and his close aides for their involvement in terror financing. Saeed pleaded "not guilty" in both the cases.

The Counter Terrorism Department had registered 25 FIRs against Saeed and his accomplices on the charges of terror financing in different cities of Punjab province.

Kejriwal to take oath as Delhi CM on Sunday

AAP supreme Arvind Kejriwal will take oath as the chief minister of Delhi on February 16 for the third consecutive time at the Ramilla Maidan, in a grand ceremony that will be open to public.

Addressing a press conference at the party head-quarters, Manish Sisodia, the deputy chief minister in the outgoing government, said all Cabinet ministers will also take oath along with Kejriwal at the event.

An AAP functionary said the party has planned a mass mobilisation of people for the mega event on Sunday at 10 am and all newly-elected party MLAs have been asked to ensure huge participation from their constituencies.

According to the party, no decision has yet been taken on the names who will find a place in the new Cabinet, but sources said Kejriwal is likely to retain all the outgoing ministers. **PTI**

Average salary offer hits life high of ₹28 lakh at IIM-C

WHO OFFERED WHAT

- Consultancy sector made for 31% of all offers, BCG, McKinsey & Co, Bain & Co were top recruiters
- PE-VC firms made 17% of all offers, with Softa, Norvik Lynch, Barclays as top recruiters
- 30% of total offers were from general management and sales departments, with TAS, AB Group, M&M as top recruiters
- 27% of all offers were from product management, IT/analytics, and operations domains; with Microsoft, Google, Salesforce as top recruiters

ANISH KASHYAP

Rank 10, 12 February

The MBA graduating batch at Indian Institute of Management Changanassery (IIM-C) has registered an all-time high for average salaries for the top 10 per cent and the top quartile of the class, during job placements for the ongoing batch of 2015, at an average of ₹45 lakh and ₹18.5 lakh, respectively.

The annual average salary is also a record, at ₹28 lakh, with the median figure of ₹25.5 lakh. In all, 439 students garnered 492 offers from 136 firms.

It offered "Dream" and "Walk and Talk" options for its students. Recruiters could also select firms a larger pool and make offers to the most suitable candidates as per their choice.

The institute adopted a platform termed 'Superse', designed an enabling tool to substitute campus placements and several class fellowships by key roles in other colleges across the country. Anish Kashyap, chairperson of the institute's career development and placement office, said its introduction "made our process more efficient and transparent."

439 students garnered 492 offers from 136 firms

Continuing the trend witnessed in earlier intern placements, held in October 2015, the consultancy sector was the largest recruiter, with 31 per cent of all offers. The Boston Consulting Group, McKinsey & Co, Bain & Co, Kearney, PricewaterhouseCoopers and Accenture

were top recruiters in the sector.

Management and private equity-venture capital (PE-VC) firms made 83 offers, comprising 17 per cent of the total received. Bank of America Merrill Lynch, Barclays, Goldman Sachs, Arga Investment Management, Gale Capital and JP Morgan Chase were among these.

General management and sales and marketing roles added to 40 per cent of total offers. Those recruiting for such roles included TAS, Aditya Birla Group, Mahindra & Mahindra, Jubilant, Vidanta, BioSiph, Hindustan Unilever, Colgate-Palmolive, ITC, Marico and HUL. The other 24 per cent of offers (107)

were in product management, IT/analytics and operations domains. Recruiters included Microsoft, Google, Salesforce, Amazon, Flipkart, Tata, ESI Service, American Express, HCL, UnitedHealth Group (Optum) and Mastercard.

Anish Seth, director of IIM-C, said, "Such coveted employment offers demonstrate the high value of the education here and our students' skills and capabilities." IIM-C was established as the first national institute for post-graduate studies and research in management by the Centre for Innovation in Management, in collaboration with the Alfred P Sloan School of Management, the government of West Bengal, the Ford Foundation and Indian business.

Hafiz Saeed gets 11 yrs in jail for terror financing

NEWS TRUST OF INDIA
Lahore, 12 February

Mumbai attack mastermind and Jamiat-ud-Dawa Chief Hafiz Saeed (pictured) was on Wednesday sentenced to 11 years in jail by an anti-terrorism court in Pakistan in two terror financing cases.

Saeed, a UN designated terrorist whom the US has placed a \$10 million bounty on, was arrested on July 17 in the terror financing cases. He is lodged at the Lahore's Kot Lakhpat jail in high security.

A court official confirmed to PTI that Saeed was sentenced in two terror financing cases registered against him in Lahore and Gujranwala cities on the application of the Counter-Terrorism Department of Punjab police.

The court sentenced Saeed to five and a half years and imposed a fine of \$15,000 in each case. The sentences of both cases will run concurrently. The anti-terrorism court or ATC had indicted Saeed and his close aides on December 11 in the terror financing cases.

Last Saturday, Lahore ATC Judge Arshad Hanif Iqbal delivered the verdict against Saeed in two terror financing cases till February 11. In the two cases, the prosecution produced some 20 or so witnesses in the ATC who testified against Saeed and his close aides for their involvement in terror financing. Saeed pleaded "not guilty" in both the cases.

The Counter-Terrorism Department had registered 23 FIRs against Saeed and his accomplices on the charges of terror financing in different cities of Punjab province.

ANIRUJ KASHYAP
Student, February

The MBA graduating batch at Indian Institute of Management Calcutta (IIM-C) has registered an all-time high for average salaries for the top 10 percent and the top quartile of the class, during job placements for the outgoing batch of 2020, at an annual ₹25.5 lakh and ₹18 lakh, respectively. The annual average salary is also a record, at ₹28 lakh, with the median figure ₹25 lakh. In all, 439 students garnered 492 offers from 136 firms.

If offered "Design" and "Wait and Hold" options for its students, students could also select from a larger pool and make offers to the most suitable candidate as per their choice.

The institute adopted a platform-based approach, described as enabling one-to-one campus placements and to expedite helping employers establish connections across the country. Aniruj Kashyap, chairperson of the institute's career development and placement cell, placement officer, said, "In introduction, 'make-or-buy' commission is more transparent and efficient."

Continuing the trend witnessed in summer intern placements, held in October 2019, the consultancy sector was the largest recruiter with 38 percent of all offers. The largest consulting firm, McKinsey & Co, Bain & Co, Kearney, PricewaterhouseCoopers and Accenture

were top recruiters in the MBA. Finance and private equity venture capital (PE-VC) firms made 83 offers, comprising 17 per cent of the total received. Bank of America Merrill Lynch, Barclays, Goldman Sachs, Arpa Investment Management, Gaja Capital and JP Morgan Chase were among these.

General management and sales and marketing roles added to 30 percent of total offers. Those recruiting for such roles included TAS, Aditya Birla Group, Mahindra & Mahindra, Reliance, Vedanta, The North Indian Textiles, Orange Juice, H&M, Mowgli and F&T JEE. The other 22 per cent of overall offers

were in product management, IT, analytics and operations domains. Recruiters include Microsoft, Google, Salesforce, Amazon, Flipkart, Udaan, EMI Service, American Express, IGT, UnitedHealth Group (Optum) and Mastercard.

Anuj Seth, director of IIM-C, said, "Such coveted employment offers demonstrate the high value of the education here and our students' skills and capabilities." IIM-C was established as the first national institute for post-graduate studies and research in management by the Centre in November 1961, in collaboration with the Alfred P Sloan School of Management, the government of West Bengal, the Ford Foundation and Indian business.

Hafiz Saeed gets 11 yrs in jail for terror financing

PRIME MINISTER OF INDIA
New Delhi, February

Mumbai attack mastermind and Jamiat-ul-Dawa Chief (Hafiz Saeed) (right) was on Wednesday sentenced to 11 years in jail by an anti-terrorism court in Pakistan in two terror financing cases.

Saeed, a UN designated terrorist, whom the US has placed a \$10 million bounty on, was arrested on July 17 in the terror financing cases. He is locked up at the Lahore Kot Lakhpat, all in high security.

A court official confirmed to PTI that Saeed was sentenced in two terror financing cases registered against him in Lahore and Islamabad cities on the application of the Counter Terrorism Department of Punjab province.

The court sentenced Saeed to five and a half years and imposed a fine of ₹15,000 in each case. The sentences of both cases will run concurrently. The anti-terrorism court or ATC had indicted Saeed and his close aides on December 11 in the terror financing cases.

Last Saturday, Lahore ATC judge Anhad Hameed Bhutta deferred the verdict against Saeed in two terror financing cases till February 12. In the two cases, the prosecution produced over 20 or so witnesses in the ATC who testified against Saeed and his close aides for their involvement in terror financing. Saeed pleaded "not guilty" in both the cases.

The Counter Terrorism Department had registered 23 FIRs against Saeed and his accomplices on the charges of terror financing in different cities of Punjab province.

Kejriwal to take oath as Delhi CM on Sunday

AAP supreme Arvind Kejriwal will take oath as the chief minister of Delhi on Sunday for the third consecutive time at the Shaheed Jhansi Memorial ground ceremony that will be open to public.

Addressing a press conference at the party headquarters, Manish Sisodia, the acting chief minister in the outgoing government, said all Cabinet ministers will also take oath along with Kejriwal at the event.

An AAP functionary said the party has given a mass mobilisation of people for the mega event on Sunday at 10 am and all newly-elected party MLAs have been asked to ensure huge participation from their constituencies.

According to the party, no decision has yet been taken on the names who will find a place in the new Cabinet, but sources said Kejriwal is likely to retain all the outgoing ministers.

WHO OFFERED WHAT

- Consultancy sector made for 31% of all offers, BCG, McKinsey & Co. B&W & Co were top recruiters
- PE-VC firms made 17% of all offers, with Soft, Merrill Lynch, Barclays as top recruiters
- 36% of total offers were from general management and sales departments, with TAS, AB Group, M&M as top recruiters
- 22% of all offers were from product management, IT/analytics, and operations domains, with Microsoft, Google, Salesforce as top recruiters

ANURAG NASHIKI

Kolkata, February

Indian Institute of Management-Calcutta (IIM-C) has seen an all-time high average salaries for the top 10 per cent and top-quartile of the class for the outgoing batch of 2020. The figures stand at ₹54.5 lakh and ₹41.8 lakh (annual), respectively.

The annual average salary is also a record at ₹28 lakh, with the median figure at ₹25.5 lakh. In all, 490 students secured 992 offers from 136 firms.

Recruiters could also select from a larger pool and make offers to the most suitable candidates in accordance with their choices.

The institute adopted a platform termed 'superior', enabling one-to-one, on-site campus placements end-to-end, and help employers hire from colleges across the country. Ashish Tewari, chairman of the institute's career development and placement office, said its introduction "made our processes even more transparent and efficient".

Containing the trend witnessed in summer Intern placements, held in October 2019, consultancy firms were the largest recruiters with 31 per cent of all offers. The Boston Consulting Group, McKinsey & Co, Bain & Co, Kearney, PricewaterhouseCoopers and Accenture were the top recruiters in the sector. Manpower finance and private equity-

439 students secured 992 offers from 136 firms

venture capital (PE-VC) firms made 63 offers, comprising 12 per cent of the total offers.

Bank of America Merrill Lynch, Barclays, Goldman Sachs, Argus Investment Management, Gaja Capital and JP Morgan Chase also recruited from the campus.

General management and sales and marketing roles comprised 30 per cent of the total offers. Those recruiting for such roles included TAS, Aditya Birla Group, Mahindra & Mahindra, Reliance, Vidanta, TrueNorth, Hindustan Unilever, Colgate-Palmolive, ITC, Mondelez and H&M-REE. The other 22 per cent of overall offers

were in product management, IT/analytics and operations. Recruiters included Microsoft, Google, Salesforce, Amazon, Flipkart, Udaan, J&J Service, American Express, IICI, United Health Group (Optum) and Mastercard.

Anu Seth, director of IIM-C, said, "Such coveted employment offers demonstrate the high value of the education here and our students' skills and capabilities."

IIM-C was established as the first national institute for post-graduate studies and research in management by the Centre in November 1961. In collaboration with the Alfred P Sloan School of Management, MIT, the government of West Bengal, the Ford Foundation and Indian business,

Wendell Rodricks dies at 59

PRESS TRUST OF INDIA

Kolkata, 12 February

Renowned fashion designer Wendell Rodricks (pictured) died at his residence in Colvale village in Goa on Wednesday, a police official said. Deputy Superintendent of Police, Mapusa, Golan Prabhuadas confirmed the death of Rodricks, who was 59.

Prabhuadas said Rodricks died after collapsing at his residence in North Goa. A Padma shri awardee, Rodricks was also an author, environmentalist and gay rights activist. Goa Health Minister Vidhant Rane tweeted, "Deeply saddened to hear about the sudden demise of my very good friend and designer, Wendell Rodricks. His excellency in his work and skills are irreplaceable and shall always be cherished." "We will truly miss him. My heartfelt condolences to his family and dear ones," Rane added in the tweet.

Union minister Smith Ianki paid tributes to Rodricks and hailed him as one of India's most renowned designers. Shocked to hear about the untimely demise of Wendell Rodricks, one of the India's most renowned designers, My heartfelt condolences to his loved ones. May his soul rest in peace," she tweeted.

Vision Fund losses wipe out profit of SoftBank

SoftBank Group reported a near-total wipe out in quarterly profit on Wednesday, after the Japanese technology investor was hit hardest by a second consecutive quarter by losses at its \$100 billion Vision Fund.

The dire result is likely to deepen concern about founder Masayoshi Son's ability to secure funding for a recent Vision Fund, and give more ammunition to activist investor Elliott Management, which has recently emerged as a prominent shareholder.

The numbers are also the latest reminder of the inherent risk in Son's strategy of betting big on untested start-ups. The Vision Fund posted an operating loss of 225 billion yen (\$2.15 billion) for October-December, compared to 176 billion yen profit in the same period a year earlier. But Son, who is known for his ebullience and charisma said his company was slowly turning the corner.

SERVICE RESUME
Kolkata, 13 February

Indian Institute of Management Calcutta (IIM-C) has seen an all-time high average salaries for the top 10 per cent and top quartile of the class for the outgoing batch of 2020. The figures stand at 54.5 lakh and 34.8 lakh (annual), respectively.

The annual average salary is also recorded at 28 lakh, with the median figure at 23.5 lakh. In all, 439 students secured 492 offers from 136 firms.

Recruiters could also select from a larger pool and make offers to the most suitable candidates in accordance with their choice.

The institute adopted a platform

named 'Superset', enabling one-to-one and help responses from colleges across the country. Abhishek Goel, chairman of the institute's career development and placement office, said its introduction "made our processes even more transparent and efficient".

Continuing the trend witnessed in summer intern placements, held in October, 30% consultancy firms were the largest recruiters with 31 per cent of all offers.

The Boston Consulting Group, McKinsey & Co, Bain & Co, Kearney, PricewaterhouseCoopers and Accenture were the top recruiters in the sector.

Megaque finance and private equity

venture capital (PE/VC) firms made 13 offers, comprising 13 per cent of the total offers.

Bank of America Merrill Lynch, Barclays, Goldman Sachs, Aris Investment Management, Gaja Capital and JP Morgan Chase also recruited from the campus.

General management and sales and marketing roles comprised 30 per cent of the total offers. Those recruiting for such roles included TAS, Aditya Birla Group, Mahindra & Mahindra, Reliance, Vedanta, TrueNorth, Hindustan Unilever, Colgate-Palmolive, ITC, Mondelez and F&B-SEE.

The other 22 per cent of overall offers

were in product management, IT/analytics and operations. Recruiters included Microsoft, Google, Salesforce, Amazon, Flipkart, Urban, ECL Service, American Express, HCL, United Health Group (Optum) and Mastercard.

Ashu Seth, director of IIM-C, said: "Such coveted employment offers demonstrate the high value of the education here and our students' skills and capabilities."

IIM-C was established as the first national institute for post-graduate studies and research in management by the Centre in November 1961, in collaboration with the Alfred P Sloan School of Management, MIT, the Government of West Bengal, the Ford Foundation and Indian business.

Wendell Rodricks dies at 59

PRESS TRUST OF INDIA
New Delhi, 12 February

Renowned fashion designer Wendell Rodricks (pronounced) died at his residence in Colvale village in Goa on Wednesday, a police official said. Deputy Superintendent of Police, Mapusa, Ganesh Prabhakar confirmed the death of Rodricks, who was 59.

Prabhakar said Rodricks died after collapsing at his residence in North Goa. A Padma Shri awardee, Rodricks was also an author, environmentalist and gay rights activist.

Goa Health Minister Vishwanath Rane tweeted, "Deeply saddened to hear about the sudden demise of my very good friend and designer, Wendell Rodricks. His excellency in his work and life are irreplaceable and shall always be cherished." "We will truly miss him. My heartfelt condolences to his family and dear ones," Rane added in the tweet.

Union minister Shri Inraji paid tributes to Rodricks and hailed him as one of India's most renowned designers. Shocked to hear about the untimely demise of Wendell Rodricks, one of the India's most renowned designers. My heartfelt condolences to his loved ones. May his soul rest in peace," she tweeted.

Vision Fund losses wipe out profit of SoftBank

SoftBank Group reported a near-total wipe out in quarterly profit on Wednesday, after the Japanese technology investor was whipsawed for a second consecutive quarter by losses at its \$100 billion Vision Fund.

The dire result is likely to deepen concern about SoftBank's ability to secure funding for a second Vision Fund, and give more ammunition to activist investor Elliott Management, which has recently emerged as a prominent shareholder.

The numbers are also the latest reminder of the inherent risk in Soft's strategy of betting big on untested start-ups. The Vision Fund posted an operating loss of 225 billion yen (\$2.6 billion) for the December period compared to 176 billion yen profit in the same period a year earlier. But Son, who is known for his exuberance and charisma said his company was already turning the corner.

Average salary offer hits life high of ₹28 lakh at IIM-C

WHO OFFERED WHAT

- Consultancy sector made for 37% of all offers, BCG, McKinsey & Co, Bain & Co were top recruiters
- PE/VC firms made 17% of all offers, with B&A, Merill Lynch, Barclays as top recruiters
- 30% of total offers were from product management and sales departments, with TAS, AB Group, M&M as top recruiters
- 22% of all offers were from product management, IT analytics, and operations domains, with Microsoft, Google, Salesforce as top recruiters

AVERAGE SALARY
Mumbai, 12 February

The MBA graduating batch at Indian Institute of Management, Calcutta (IIM-C) has registered an all-time high for average salaries for the top 10 percent and the median of the class, during job placements for the outgoing batch of 2020, at an annual ₹54.5 lakh and ₹41.8 lakh, respectively. The annual average salary is also a record, at ₹28 lakh, with the median figure ₹25.5 lakh. In all, 439 students garnered 492 offers from 136 firms.

It offered "flexible" and "wait and hold" options for its students. Recruiters could also select from a larger pool and make offers to the most suitable candidates as per their choice.

The institute adopted a platform termed 'SuperSet' designed to enable one to initiate campus placements and to expand on helping employers hire from colleges across the country. Atmanlok Goid, chairman of the institute's career development and placement office, said the introduction "made our processes even more transparent and efficient".

Continuing the trend witnessed in summer intern placements, held in October 2019, the consultancy sector was the largest recruiter, with 31 percent of all offers. The Boston Consulting Group, McKinsey & Co, Bain & Co, Kearney, PwC, EY, Deloitte, KPMG and Accenture were top recruiters in the sector.

Management and sales departments were in product management, IT analytics and operations domains. Recruiters included Microsoft, Google, Salesforce, Amazon, Flipkart, Udaan, INSL Service, American Express, ICL, UnitedHealth Group (Optum) and Mastercard.

Anil Seth, director of IIM-C, said: "Such coveted employment offers demonstrate the high value of the education here and our students' skills and capabilities." IIM-C was established as the first national institute for post-graduate studies and research in management by the Centre in November 1962, in collaboration with the Ahmed P. Shah School of Management, the government of West Bengal, the Ford Foundation and Indian business.

439 students garnered 492 offers from 136 firms

General management and sales and marketing roles added to 30 per cent of total offers. Those recruiting for such roles included TAS, Aditya Birla Group, Mahindra & Mahindra, Reliance, Vedanta, Tata North, Jindal Steel, Tata Steel, Palmolive, P&G, Mondelez and IIT-JEE. The other 22 per cent of overall offers

Hafiz Saeed gets 11 yrs in jail for terror financing

PRFECT FRONT OF INDIA
Lahore, 12 February

Mumbai attack mastermind and Jamiat-ul-Dawa Chief Hafiz Saeed (pictured) was on Wednesday sentenced to 11 years in jail by an anti-terrorism court in Pakistan in two terror financing cases.

Second, a UN designated terrorist whom the US has placed a \$10 million bounty on, was arrested on July 17 in the terror financing cases. He is lodged at the Lahore's Kot Lakhpat jail in high security. A court official confirmed to PTI that Saeed was sentenced to 11 years in jail for two terror financing cases registered against him in Lahore and Gujranwala cities on the application of the Counter Terrorism Department of Punjab police.

The court sentenced Saeed to five and a half years and imposed a fine of ₹5,000 in each case. The sentences of both cases will run concurrently. The anti-terrorism court of ATC had indicted Saeed and his close aides on December 11 in the terror financing cases.

Last Saturday, Lahore ATC judge Arshad Hissain Bhutta deferred the verdict against Saeed in two terror financing cases till February 12. In the two cases, the prosecution produced more than 200 witnesses in the ATC who testified against Saeed and his close aides for their involvement in terror financing. Saeed pleaded "not guilty" in both the cases.

The Counter Terrorism Department had registered 33 FIRs against Saeed and his accomplices on the charges of terror financing in different cities of Punjab province.

Kejriwal to take oath as Delhi CM on Sunday

AAP supremo Arvind Kejriwal will take oath as the chief minister of Delhi on February 16 for the third consecutive time at the Jamaia Masjid, in a grand ceremony that will be open to public.

Addressing a press conference at the party headquarters, Manish Sisodia, the deputy chief minister in the outgoing government, said all Cabinet ministers will also take oath along with Kejriwal at the event.

An AAP functionary said the party has planned a mass mobilisation of people for the mega event on Sunday at 10 am and all newly-elected party MLAs have been asked to ensure huge participation from their constituencies.

According to the party, no decision has yet been taken on the names who will fill a place in the new Cabinet, but sources said Kejriwal is likely to retain all the outgoing ministers. ■

Airport-like user charge for newly redeveloped railway stations

PRESS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL levy an airport-like fee on passengers who use its redeveloped stations, which will result in a hike in fare, a senior official said on Wednesday.

User development fee (UDF) is a part of the taxes that are paid by an air passenger. UDF is charged at various airports and its rate varies based on various factors.

The fee will vary across the newly developed stations depending on their location, Railway Board chairman VK Yadav said in a press briefing.

He said the ministry will soon notify the amount to be charged.

The railways had floated a request for proposal, seeking bids for redeveloping Agartala, Jorhat, Guwahati and Silchar in Assam. The cost of the project is estimated at ₹1,296 crore.

The government is set to invite bids to redevelop 50 stations through the Indian Railway Station Redevelopment Corporation (IRSDC), entailing an investment of around ₹50,000 crore in 2020-21.

"The user development fee, along with the lines of a levy charged by airport operators, will be used to help fund the upgradation of sta-

tions. The charges will be minimal," Yadav said.

He also said that the levy of the fee will only result in marginal increase in fares, which would be compensated by concessional first-class tickets.

The Narendra Modi-led NDA government had announced plans to redevelop 400 railway stations in five-year term. As per the plan, the cost of the station redevelopment project was to be met by leveraging commercial development of land and airports in and around the stations. The railway stations were taken up for redevelopment based on financial viability.

Third IRCTC pvt train to run between Varanasi and Indore from February 20

PRESS TRUST OF INDIA
New Delhi, February 12

IRCTC will set up private train between Varanasi and Indore from February 20, through a special unit (SU) said on Wednesday. The other two private trains are the Lucknow-New Delhi Train and the Ahmedabad-Mumbai Train.

The special air-conditioned Rajdhani Mahal Express will be launched on February 16. The IRCTC will also offer four packages covering religious sites on the train route, according to a statement issued

by the railway (PTI).

Being the first long-distance government private train, IRCTC has geared up to provide a host of facilities and services to passengers, including high-quality vegetarian food, onboard Wi-Fi and lounge sleeping services and onboard security system.

"Besides, every passenger travelling on the train will be covered with a complimentary travel insurance of ₹10 lakhs during the journey," the IRCTC said. On the lines of the Train, the IRCTC, looking for the Rajdhani Mahal Express, can be done only on the IRCTC website and its mobile app 'Irrctc Raj Connect'.

MHA asserts NRC data safe; Wipro says service contract not renewed

PRESS TRUST OF INDIA
New Delhi, February 12

THE CENTRE ON Wednesday sought to allay concerns over data of the contentious Assam NRC going offline, asserting that the dossier is safe though there are some technical issues with IT firm Wipro said its service contract for the project was not renewed after it expired last October.

NRC data was not available for a couple of days and it created panic among many people excluded from the list as their objection certificates were not to be issued. "The NRC data is safe. Some technical issues are in visibility on cloud. These are being resolved soon," a home ministry spokesperson said here. Bengal-based Wipro was appointed as the system integrator for the National Register of Citizens (NRC) project in Assam in 2014 "after a rigorous tender process".

In a statement, Wipro said it had continued to pay the hosting service fee until January end "as a gesture of goodwill" and that it is willing to continue providing those services if the agreement is renewed by the authorities. The project was commissioned by the Bharatiya Janata Party-led Union Ministry of Home Affairs, and was monitored by the Honourable Supreme Court of India.

"As an IT services provider, Wipro was tasked with providing the technical architecture and technology solutions for the project," it said.

"The IT services contract was not renewed by the authorities upon its expiry in October 2019. However, as a gesture of goodwill, Wipro continued to pay the hosting service fee until January end, 2020," Wipro said.

However, the company did not comment on the quantum of dues or whether discussions were underway to resolve the issue. The company's statement comes hours after the central government said the NRC data in Assam is safe.

NRC state coordinator Hitesh Dew Sharma on Tuesday accepted that the data has been made offline, but refuted the allegation of any "mala fide" intent in it. The cloud service for the huge set of data was provided by IT firm Wipro and their contract was till October 19, last year. However, this was not renewed by the previous coordinator.

So, the data got offline from December 15 after it was suspended by Wipro, Sharma had said. He said the state coordination committee had decided to do necessary formalities in its meeting on January 30 and wrote to the Wipro in the first week of February.

"Once Wipro makes the data live, it will be available for public. We hope people will be able to access it in the next two-three days," Sharma said. The complete detail of exclusion and inclusion of bona fide Indian citizens in the NRC was published on its official website <http://nrcassam.nrcindia.com> after the final list was published on August 31, 2019. The final NRC was published by excluding 19,06,637 people. A total of 3,11,21,004 names were included out of 3,20,27,661 applicants.

Airport-like user charge for newly redeveloped railway stations

PRESS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL levy an airport-like user charge for newly redeveloped stations, which will result in a hike in fares, an official said on Wednesday.

User development fee (UDF) is a part of the taxes that are paid by an airport manager, UDF is charged at various airports and for air services by various factors.

The fee will vary across the newly developed stations depending on their facilities, Railway Board chairman PK Syam said in a press briefing.

He said the ministry will soon notify the amount to be charged. The railway has floated a request for proposal, including bids for redeveloping Alwar, Jaipur, Gandhinagar and Bikaner railway stations at an estimated cost of ₹1,296 crore.

The government is set to invite bids to redevelop 70 stations through the Indian Railway Station Redevelopment Corporation (IRSDC) amounting to investment of around ₹50,000 crore in 2020-21.

"The user development fee, along the lines of a levy charged by airport operators, will be used to help fund the upgradation of sta-

tions. The charge will be nominal," he said.

He also said that the levy of the fee will only result in marginal increase in fares, which would be compensated by user experience of world-class facilities.

The Narendra Modi-led NDA government had announced plans to redevelop 400 railway stations in its first term. As per the plan, the cost of the station re-development project will be met by leveraging commercial development of land and air space in and around the stations. The railway stations were taken up for re-development based on financial viability.

Third IRCTC pvt train to run between Varanasi and Indore from February 20

PRESS TRUST OF INDIA
New Delhi, February 12

THE IRCTC IS SET to introduce the third private train in the rail way network and its first night service, the Kaabi Mahal Express, on the Varanasi-Indore route from February 20, the public sector unit (PSU) said on Wednesday. The other two private trains are the Lucknow-New Delhi Tejas and the Ahmedabad-Mumbai Tejas.

The superfast air-conditioned Kaabi Mahal Express will be launched on February 16. The IRCTC will also offer four packages covering religious sites on the train's route, according to a statement issued

by the railway PSU.

"Being the first long-distance private journey train, IRCTC has geared up to provide a host of facilities and services to passengers, including high-quality vegetarian food, onboard bedrolls and business-lounging services and onboard entertainment."

"Besides, every passenger travelling on the train will be covered with a complimentary travel insurance of ₹10 lakh during the journey," the IRCTC said. On the lines of the Tejas train, the IRCTC is looking for the Kaabi Mahal Express can be done only on the IRCTC website and its mobile app 'Ireco Rail Connect'.

MHA asserts NRC data safe; Wipro says service contract not renewed

PRESS TRUST OF INDIA
New Delhi, February 12

THE CENTRE ON Wednesday sought to allay concerns over data of the contentious Assam NRC going offline, asserting that the dossier is safe though there are some technical issues with IT major Wipro said its service contract for the project was not renewed after it expired last October.

NRC data was not available for a couple of days, and it created panic, mostly among the people excluded from the list as their correction certificates were yet to be issued. "The NRC data is safe. Some technical issues are in visibility on cloud. These are being resolved soon," a home ministry spokesperson said here. Bengaluru-based Wipro was appointed as the system integrator for the National Register of Citizens (NRC) project in Assam in 2014 after a rigorous tender process.

In a statement, Wipro said it had continued to pay the hosting service fee until January-end as a gesture of goodwill and that it is willing to continue providing these services if the agreement is renewed by the authorities. "The project was commissioned by the Registrar General of India and the Ministry of Home Affairs, and was monitored by the Honourable Supreme Court of India.

As an IT services provider, Wipro was tasked with providing the technical architecture and technology solutions for this project," it said.

"The IT services contract was not renewed by the authorities upon its expiry in October 2019. However, as a gesture of goodwill, Wipro continued to pay the hosting service fee until January-end, 2020," Wipro said.

However, the company did not comment on the quantum of dues or whether discussions were underway to resolve the issue. The company's statement came two hours after the central government said the NRC data in Assam is safe.

NRC state coordinator Hitesh Dev Sharma on Tuesday accepted that the data has been made offline, but refuted the allegation of any "malafide" intent in it. The cloud service for the huge set of data was provided by IT firm Wipro and their contract was till October 19, last year. However, this was not renewed by the previous coordinator.

So, the data got offline from December 15 after it was suspended by Wipro, Sharma said. He said the state coordination committee had decided to do necessary formalities in its meeting on January 30, and write to the Wipro in the first week of February.

"Once Wipro makes the data live, it will be available for public. We hope people will be able to access it in the next two-three days," Sharma said. The complete detail of exclusion and inclusion of bona fide Indian citizens in the NRC was uploaded on its official website <http://nrcassam.nrcassam.in> after the final list was published on August 31, 2019. The final NRC was published by excluding 19,06,637 people. A total of 3,11,21,004 names were included out of 3,30,27,661 applicants.

Airport-like user charge for newly redeveloped railway stations

PRESS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL levy an airport-like user charge for newly redeveloped railway stations, which will result in a hike in fares, a senior official said on Wednesday.

User development fee (UDF) is a part of the taxes that are paid by an air passenger. UDF is charged at various airports and its rate varies based on various factors.

The fee will vary across the newly developed stations depending on their location, Railway Board chairman K. Yadav said in a press briefing.

He said the ministry will announce the amount to be charged.

The railway has floated a request for proposal seeking bids to redevelop Asrahar, Nagana, Gwalior and Jabalpur railway stations at an estimated cost of ₹1,256 crore.

The government is set to invite bids to redevelop 50 stations through the individual stations redevelopment Corporation (IRSDC), entailing an investment of around ₹50,000 crore in 2020-21.

The user development fee, along with the levy charged by airport operators, will be used to help fund the upgradation of stations. The charges will be nominal, Yadav said.

He also said that the levy of the fee will only result in marginal increase in fares, which would be compensated by upgradation of world-class stations.

The Narendra Modi-led NDA government had announced plans to redevelop 400 railway stations in its first term. As per the plan, the cost of the station redevelopment projects was to be met by leveraging commercial development of land and airpans and around the station. The railway stations were taken up for redevelopment based on financial viability.

Third IRCTC pvt train to run between Varanasi and Indore from February 20

PRESS TRUST OF INDIA
New Delhi, February 12

THE IRCTC is all set to introduce the third private train in the railway network and its first night service, the Kashi-Mahakal Express, on the Varanasi-Indore section from February 20, the public sector unit (PSU) said on Wednesday.

The other two private trains are the Lucknow-New Delhi Tejas and the Ahmedabad-Mumbai Tejas.

The air-cooled, air-conditioned Kashi Mahakal Express will be launched on February 15. The IRCTC will also offer four packages catering religious sites on the train's route, according to a statement issued by the railway PSU.

"Being the first long distance overnight journey train, IRCTC has geared up to provide a lot of facilities and services to passengers, including high-quality vegetarian food, onboard Wi-Fi, and other hotel-like services and onboard security services."

Besides, every passenger travelling on the train will be covered with a complimentary travel insurance of ₹10 lakhs during the journey," the IRCTC said.

On the lines of the Tejas and the Kashi Mahakal Express can be booked on the IRCTC website and its mobile app 'Irete Rail Connect'.

Airport-like user charge for newly redeveloped railway stations

PRESS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL levy an airport-like fee on passengers who use its redeveloped stations, which will result in higher fares, a senior official said on Wednesday.

User development fee (UDF) is a part of the taxes that are paid by an air passenger. UDF is charged at various airports and its rate varies based on various factors.

The fee will vary across the newly developed stations depending on their footfall. Railway Board chairman VK Yadav said in a press briefing.

He said the ministry will soon notify the amount to be charged.

The railways has floated a request for proposal, seeking bids to redevelop Amritsar, Nagpur, Gwalior and Saharanpur railway stations at an estimated cost of ₹1,296 crore.

The government is set to invite bids to redevelop 50 stations through the Indian Railway Station Redevelopment Corporation (IRSRC) entailing an investment of around ₹50,000 crore in 2019-21.

The user development fee, along the lines of a levy charged by airport operators, will be used to help fund the upgradation of stations. The charges will be nominal, Yadav said.

He also said that the levy of the fee will only result in marginal increase in fares, which would be compensated by user experience of world-class stations.

The Narendra Modi-led NDA government had announced plans to redevelop 400 railway stations in its first term. As per the plan, the cost of the station redevelopment project was to be met by leveraging commercial development of land and air space in and around the stations. The railway stations were taken up for redevelopment based on financial viability.

Airport-like user charge for newly redeveloped railway stations

PRESS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL levy an airport-like fee on passengers whose its redeveloped stations, which will result in a hike in fares, a senior official said on Wednesday.

User development fee (UDF) is a part of the fares that are paid by an air passenger. DDF is charged at various airports and its rate varies based on various factors.

The fee will vary across the newly developed stations depending on their (total), Railway Board chairman VK Yadav said in a press briefing.

He said the ministry will soon notify the amount to be charged.

The railways has floated a request for proposal, seeking bids to redevelop Amritsar, Nagpur, Gwalior and Scharmati railway stations at an estimated cost of ₹1,296 crore.

The government is set to invite bids to redevelop 50 stations through the Indian Railway Station Redevelopment Corporation (IRSDC), entailing an investment of around ₹50,000 crore in 2020-21.

"The user development fee, along the lines of a levy charged by airport operators, will be used to help fund the upgradation of sta-

tions. The charges will be nominal," Yadav said.

He said and that the levy of the fee will only result in marginal increase in fares, which would be compensated by user experience of world-class stations.

The Narendra Modi-led NDA government had announced plans to redevelop 100 railway stations in its first term. As per the plan, the cost of the station redevelopment project was to be met by leveraging commercial development of land and airspace in and around the stations. The railway stations were taken up for redevelopment based on financial viability.

Third IRCTC pvt train to run between Varanasi and Indore from February 20

PRESS TRUST OF INDIA
New Delhi, February 12

by the railway PSU.

The IRCTC is set to introduce the third private train in the railway network and its first night service, the Kashi Mahakal Express, on the Varanasi-Indore route from February 20, the public sector unit (PSU) said on Wednesday. The other two private trains are the Lucknow-New Delhi Tejas and the Ahmedabad-Mumbai Tejas.

The superfast air conditioned Kashi Mahakal Express will be launched on February 16. The IRCTC will also offer four packages covering route-tour packages on the train's route, according to a statement issued

by the railway PSU. "Being the first long-distance overnight journey train, IRCTC has geared up to provide a lot of facilities and services to passengers, including high-quality vegetarian food, onboard bedroll and house-keeping services and onboard security services.

Besides, every passenger travelling on the train will be covered with a complimentary travel insurance of ₹10 lakhs during the journey," the IRCTC said. On the lines of the Tejas trains of the IRCTC, booking for the Kashi Mahakal Express can be done only on the IRCTC website and its mobile app 'Irctc Rail Connect'.

MHA asserts NRC data safe; Wipro says service contract not renewed

PRESS TRUST OF INDIA
New Delhi, February 12

THE CENTRE ON Wednesday sought to allay concerns over data of the contentious Assam NRC going offline, asserting that the dossier is safe though there are some technical issues while IT major Wipro said its service contract for the project was not renewed after it expired last October.

NRC data was not available for a couple of days and it created panic, mostly among the people excluded from the lists as the rejection certificates were yet to be issued. "The NRC data is safe. Some technical issues are in visibility on cloud. These are being resolved soon," a home ministry spokesperson said here. Bengaluru-based Wipro was appointed as the system integrator for the National Register of Citizens (NRC) project in Assam in 2014 after a rigorous tender process.

In a statement, Wipro said it had continued to pay the hosting service fee until January-end and as a gesture of goodwill and that it is willing to continue providing these services if the agreement is renewed by the authorities. "The project was commissioned by the Registrar General of India and the Ministry of Home Affairs, and was monitored by the Honourable Supreme Court of India.

"As an IT services provider, Wipro was tasked with providing the technical architecture and technology solutions for the project," it said.

"The IT services contract was not renewed by the authorities upon its expiry in October 2019. However, as a gesture of goodwill, Wipro continued to pay the hosting service fee until January-end, 2020," Wipro said.

However, the company did not comment on the quantum of dues or whether discussions were underway to resolve the issue. The company's office in Assam was closed for several hours after the central government said the NRC data in Assam is safe.

NIC state coordinator Hitesh Dev Sharma on Tuesday accepted that the data has been made offline, but refuted the allegation of any "mala fide" intent in it. The cloud service for the huge set of data was provided by IT firm Wipro and their contract was till October 19, last year. However, this was not renewed by the previous coordinator.

So, the data got offline from December 15 after it was suspended by Wipro, Sharma had said. He said the state coordination committee had decided to do necessary formalities in its meeting on January 30, and wrote to the Wipro in the first week of February.

"Once Wipro makes the data live, it will be available for public. We hope people will be able to access it in the next two-three days," Sharma said. The complete detail of exclusion and inclusion of bona fide Indian citizens in the NRC was uploaded on its official website <http://www.nrcassam.nic.in> after the final list was published on August 31, 2019. The final NRC was published by excluding 19,06,657 people. A total of 3,11,21,004 names were included out of 3,30,27,661 applicants.

Airport-like user charge for newly redeveloped railway stations

PRESS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL levy an airport-like user charge on passengers who use its redeveloped stations, which will result in a hike in fares, a senior official said on Wednesday.

The development fee (DF) is a part of the costs that are paid by an air passenger. DF is charged at various airports and its rate varies based on various factors.

The fee will vary across the newly-developed stations depending on their location. Railway board chairman VK Rajwade said in a press briefing.

He said the ministry will soon notify the amount to be charged.

The railways have floated a request for proposal, seeking bids to redevelop Amritsar, Nagpur, Guwahati and Sabarmati railway stations at an estimated cost of ₹1,396 crore.

The government is set to invite bids to redevelop 50 stations through the Indian Railway Station Redevelopment Corporation (IRSDRC) involving an investment of around ₹50,000 crore in 2020-21.

The user development fee, along the lines of a levy charged by airport operators, will be used to help fund the upgradation of stations.

The charges will be nominal, VK Rajwade said.

He also said that the levy of the fee will only result in marginal increase in fares, which would be compensated by user experience of world-class stations.

The Narendra Modi-led NDA government had announced plans to redevelop 400 railway stations in its first term. As per the plan, the cost of the station redevelopment project was to be met by leveraging commercial development of land and air space in and around the stations. The railway stations were taken up for redevelopment based on financial viability.

Third IRCTC pvt train to run between Varanasi and Indore from February 20

PRESS TRUST OF INDIA
New Delhi, February 12

THE IRCTC IS also to redevelop standard gauge stations in the railway network and its first night service, the Kashi-Matagal Express, on the Mumbai-Indore route from February 20, the public sector said (PTI) via PTI in Varanasi. The other two services are the Lucknow-Indore and Delhi-Tripura and the Ahmedabad-Mumbai ones.

The stipulated air-conditioned Kashi-Matagal Express will be launched on February 16. The IRCTC will also offer four packages covering religious sites on the train's route, according to a statement issued

by the railway PSU.

"Being the first long-distance overnight journey train, IRCTC has geared up to provide a host of facilities and services to passengers, including high-quality vegetarian food, onboard bedrooms and house-keeping services and onboard security services."

"Besides, every passenger travelling on the train will be covered with complimentary travel insurance of ₹10 lakh during the journey," the IRCTC said. On the lines of the Tejas Express, the IRCTC is looking for the Kashi-Matagal Express to be a premium train. IRCTC has also announced that the IRCTC website will be available on the train's app "Irrctc Rail Connect".

MHA asserts NRC data safe; Wipro says service contract not renewed

PRESS TRUST OF INDIA
New Delhi, February 12

THE CENTRE ON Wednesday sought to allay concerns over data of the contentious Assam NRC project by asserting that the dossier is safe though there are some technical issues which it might be possible to resolve.

The NRC data was not available for a couple of days and it created panic, mostly among the people excluded from the data as their objection certificates were yet to be issued. "The NRC data is safe. Some technical issues are visible but they can be resolved," a senior ministry spokesman said here. Bengaluru-based Wipro was appointed as the system integrator for the National Register of Citizens (NRC) project in Assam in 2014 "after a rigorous tender process".

In a statement, Wipro said it had continued to pay the hosting service fee until January end "as a gesture of goodwill" and that it is willing to continue providing these services if the agreement is renewed by the authority. "The project was commissioned by the Registrar General of India and the Ministry of Home Affairs, and was monitored by the Honourable Supreme Court of India."

As an IT services provider, Wipro was tasked with providing the technical architecture and technology solutions for the project, it said.

"The IT services contract was not renewed by the authorities upon its expiry in October 2019. However, as a gesture of goodwill, Wipro continued to pay the hosting service fee until January end, 2020," Wipro said.

However, the company did not comment on the quantum of dues or whether discussions were underway to resolve the issue. The company's statement comes hours after the central government said the NRC data is Assam is safe.

NRC state coordinator Hrush Dev Sarma on Tuesday accepted that the data has been made offline, but ruled the allegation of any "malicious" intent in it. The cloud service for the huge set of data was provided by IT firm Wipro and their contract was till October 31, last year. However, this was not renewed by the previous coordinator.

So, the data got offline from December 15 after it was suspended by Wipro, Sarma had said. He said the state coordination committee had decided to do necessary formalities in its meeting on January 30 and write to the Wipro in the first week of February.

"Once Wipro makes the data live, it will be available for public. We hope people will be able to access it in the next two-three days," Sarma said. Nod for Direct Tax Amnesty Scheme to Cover DRTs

OTHER DECISIONS ₹2,500-Cr infusion into 3 PSU insurers; more autonomy for ports

Our Bureau

New Delhi: The Direct Tax Vivand as Vishwas Bill, 2020 will now cover pending litigation in debt recovery tribunals (DRTs) as well. Besides this, the various cases and tribunals, the Union cabinet will also approve a scheme to provide direct tax amnesty to the level of commission appeals, Income Tax Appellate Tribunal (ITAT), High Courts, the Supreme Court and those in international arbitration.

The minister hoped that people will have a sense of the scheme to settle the tax disputes before March 31, 2020 as more will be charged for settlement of disputes after the end of assessment financial year.

The new direct tax dispute settlement scheme is aimed at resolving

the various cases and bring it in line with sector regulatory norms.

VIVAND REVIEWS
The amnesty scheme that was introduced in Lok Sabha earlier this month with the aim of resolving litigations related to direct taxes, in person, cover disputes pending at the level of commission appeals, Income Tax Appellate Tribunal (ITAT), High Courts, the Supreme Court and those in international arbitration.

The minister hoped that people will have a sense of the scheme to settle the tax disputes before March 31, 2020 as more will be charged for settlement of disputes after the end of assessment financial year.

The new direct tax dispute settlement scheme is aimed at resolving

Faster Resolution on the Cards

Direct Tax Vivand as Vishwas Bill, 2020 to now cover pending litigation in debt recovery tribunals

Move aimed at resolving litigation involving ₹9,32 lakh Cr. dues for over a year through 48,200 cases

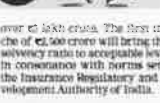

CAPITAL BOOST
₹2,500-Cr infusion into National Insurance Company, Oriental Insurance Company & United General Insurance Company

Infusion to bring insurers' solvency ratio in consonance with IRDAI norms

GREATER AUTONOMY

Major Ports Authority Bill 2020 expected to provide more operational autonomy to ports, hasten decision making process

pected to provide more operational autonomy to ports, while hastening the decision making process at port level, the government said.

"As of today, in major ports, work being regulated by an Act more than 50 years old," Union minister of Shipping Manohar Prasad said. "With changing times, we have had port developed by states, an PPP model, and if there is a dispute arising there, the transaction was not up to date for it," he added.

"The new Bill will address (dispute resolution) with respect to port users, Mandavkar said, adding that it will help ports reach international standards of operation.

OTAI, WITH LANKA
The Cabinet also approved amendments to the existing double

tax avoidance agreement with Sri Lanka, which will lead to curbing tax evasion, the minister said.

The starting and ratification of the protocol amending the agreement encompasses updating the preamble text and inclusion of Principal Purpose Test, a general anti abuse provision in the agreement, which will result in curbing of tax planning strategies which exploit gaps and mismatches in tax rules.

Jhaveri Co-opted as Trustee in Tata Trust

Raja Vijayraghavan & Saish John

Mumbai: Tata Trusts on Wednesday made two significant appointments to its board of trustees, at a time when the group is reviewing and the public shareholders of the foundation Tata group companies. One of the two main Tata trusts in the country, Tata Trusts, has been co-opted as a trustee in Sir Jhaveri Tata Trust, one of the two main Tata trusts in the country, Tata Trusts, has been co-opted as a trustee in Sir Jhaveri Tata Trust.

The Trusts separately appointed N. Saish, a long-standing Tata group executive as the CEO of Tata Trusts. The two appointments were approved at the meeting of the Trustees on Wednesday.

Jhaveri's appointment is watched keenly as it is speculated that he will be given a larger responsibility on the board of Tata Trusts in the months to come. The appointment of Saish is significant as it will be a crucial vote-cast by the trustees of Tata Trusts in the months to come. The appointment of Saish is significant as it will be a crucial vote-cast by the trustees of Tata Trusts in the months to come.

Currently, the only trust nominee on Tata Trusts board is Vinod Khosla, after Anil Chandra, an investment banker and senior promoter. Vinod Khosla stepped off from the main holding company board. Tata Trusts chairman Ratan Tata and majority shareholders to have held several dissenters in recent months on the same, officials said.

The appointment will be effective from April 1, 2020. The post of the CEO has been newly created. The Trusts, it is learnt, has decided not to continue with the post of the CEO as it would be a burden in the long run.

Ex-Directors of DHFL Seek to be Part of CoC

Maulik Vyas@timesgroup.com

Mumbai: The former directors of Dewan Housing Finance Corporation (DHFL) has approached the Mumbai bench of the National Company Law Tribunal (NCLT), Mumbai bench seeking its intervention to direct the administrator to be part of the meetings of Committee of Creditors (CoC) of the debt-laden NHPC, Maulik Vyas reports. On Wednesday, NCLT and Dhawal Khosla had approached the tribunal with the arguments that they should be allowed to be part of the CoC meetings.

"The administrator of DHFL is not allowing us with the arguments that the board is not required like normal corporate insolvency resolution process (CIRP) but it was supervised by the Reserve Bank of India (RBI)," said senior counsel JJ that they were appearing for the former directors of the company.

The tribunal had admitted DHFL for insolvency proceedings on December 2 and appointed R. Suresh Kumar as the company administrator. Assistant Solicitor General, counsel representative DHFL's administrator countered arguments and sought time to file his reply to the matter. The tribunal bench led by Justice J. S. Mehta allowed the administrator to file his reply and passed the matter for further hearing on February 13.

Airport-like user charge for newly redeveloped railway stations

PRESS TRUST OF INDIA
New Delhi, February 12

THE RAILWAYS WILL lay an airport-like user charge on newly redeveloped railway stations, which will be paid by passengers on the day of travel, a senior official said on Wednesday.

The development fee (DFE) is a part of the taxes that are paid by an airport. DFE is charged at various airports on a rate varies based on various factors.

The fee will vary across the newly developed stations depending on their location, railway board chairman V.V. Narasimha Rao said in a press briefing.

He said the ministry will soon notify the amount to be charged.

The railways has floated a request for proposal, seeking bids for redeveloping Kharidwar, Noida, Ghazipur, and Sahibganj railway stations at an estimated cost of 31,326 crore.

The government is set to invite bids to redevelop 50 stations through the Indian Railway Station Redevelopment Corporation (IRSDRC), including an investment of around 150,000 crore in 2020-21.

"The user development fee, along the lines of a levy charged by airport operators, will be used to help fund the upgradation of sta-

tions. The charges will be nominal," Rao said.

He also said that the levy of the fee will only result in marginal increase in fares, which would be compensated by the experience of world-class stations.

The Narendra Modi-led NDA government had announced plans to redevelop 400 railway stations in its first term. As per the plan, the cost of the station redevelopment project was to be met by leveraging commercial development of land and airspace in and around the stations. The railway stations were taken up for redevelopment based on financial viability.

Third IRCTC pvt train to run between Varanasi and Indore from February 20

PRESS TRUST OF INDIA
New Delhi, February 12

THE IRCTC IS all set to introduce the third private train on the railway network and its first night service, the Kashi Mahal Express, on the Varanasi-Indore route from February 20, the public sector unit (PSU) said on Wednesday. The other two private trains are the Lucknow-Delhi Express and the Ahmedabad-Mumbai Express.

The all-India air-conditioned Kashi Mahal Express will be launched on February 19. The IRCTC will also offer four packages covering religious sites on the train's route, according to a station official.

by the railway PSU.

"Being the first long-distance overnight journey train, IRCTC has geared up to provide a host of facilities and services to passengers, including high-quality catering, food, research facilities, and internet-keeping services and onboard connectivity services."

"Besides, every passenger travelling on the train will be covered with a complimentary travel insurance of ₹10 lakhs during the journey," the IRCTC said. On the lines of the Tejas trains of the IRCTC, booking for the Kashi Mahal Express can be done only on the IRCTC website and its mobile app 'Irrctc Rail Connect'.

New IRCTC Express train is expected to be launched on February 19. The IRCTC will also offer four packages covering religious sites on the train's route, according to a station official.

MHA asserts NRC data safe; Wipro says service contract not renewed

PRESS TRUST OF INDIA
New Delhi, February 12

THE CENTRE ON Wednesday sought to allay concerns over data of the contentious Assam NRC going offline, asserting that the dossier is safe though there are some technical issues with IT major Wipro said its service contract for the project was not renewed after it expired last October.

NRC data was not available for a couple of days. It caused panic, mostly among the people excluded from the list as the rejection certificates were yet to be issued. "The NRC data is safe. Some technical issues are in visibility on cloud. These are being resolved soon," someone in the project team said here. Designated by Wipro was appointed as the system integrator for the National Register of Citizens (NRC) project in Assam in 2014 "after a rigorous tender process".

In a statement, Wipro said it had continued to pay the hosting service fee until January end "as a gesture of goodwill" and that it is willing to continue providing these services if the agreement is renewed by the authorities. "The project was commissioned by the Registrar General of India and the Ministry of Home Affairs, and was monitored by the Honourable Supreme Court of India."

"As an IT services provider, Wipro was tasked with providing the technical architecture and technology solutions for the project," it said.

"The IT services contract was not renewed by the authorities upon its expiry in October 2019. However, as a gesture of goodwill, Wipro continued to pay the hosting service fee until January-end, 2020," Wipro said.

However, the company did not comment on the question of dates or whether discussions were underway to resolve the issue. The company's statement comes hours after the central government said the NRC data in Atram is safe.

NRC state coordinator Hitesh Dev Sarma on Tuesday accepted that the data has been made offline, but refuted the allegation of any "malafide" intent in it. The cloud service for the huge set of data was provided by IT firm Wipro and their contract was till October 19, last year. However, this was not renewed by the previous coordinator.

So, the data got offline from December 13 after it was suspended by Wipro, Sarma had said. He said the state coordination committee had decided to do necessary formalities in its meeting on January 30, and wrote to the Wipro in the first week of February.

"Once Wipro makes the data live, it will be available for public. We hope people will be able to access it in the next two-three days," Sarma said. The complete detail of exclusion and inclusion of bona fide Indian citizens in the NRC was uploaded on its official website <http://www.nrcassam.nic.in> after the final list was published on August 21, 2019. The final NRC was published by including 19,06,657 people. A total of 2,14,21,004 names were included out of 3,30,27,661 applicants.
