<u>Appropriations</u>		
Transfer to General Reserve	--	-
Balance carried to Balance Sheet	(34.43)	(56.10)
	(34.43)	(56.10)

OPERATIONS :

The Company has achieved total income of Rs.13,565.87 Lakhs during the current financial year as against Rs.10717.33 Lakhs during the previous year. The Company has achieved EBIDTA of Rs.601.56 Lakhs during the year as against Rs.761.19 Lakhs during the previous year. The Company has earned net profit of Rs.14.77 Lakhs during the year as compared to profit of Rs.64.24 Lakhs in the previous year.

The Income of the Company has increased due to projects which have kick started and demand resurfaced. Your Company's operating results are influenced by macro-economic developments which can affect trends such as industrial production, capital spending, commercial and infrastructure construction, commodity prices, and foreign exchange variations. The demand seems to be good for stainless steel seamless and welded products across industries.

While India is on a steady recovery path, global geo-political developments such as the Russia-Ukraine war and China plus one strategy may have some impact on capex investments and consumption amidst uncertainty. Broad supply chain disruptions

will continue to cause cost inflationary pressure in the near future. We expect it to be in the short/medium term and are confident on the fundamentals of the Indian economy to achieve growth in the longer term

Both, government and private investments in refining, petrochemical, chemical, pharmaceutical & power are expected to create robust demand for the Company's products. Our company has got all approvals with major users and is expected to reap benefits of capex cycle.

The Board of Directors expresses their inability to declare any dividend.

There are no amounts proposed to General reserves. There are no changes to share capital during the year.

There are no Companies which have become or ceased to be its Subsidiaries, Joint Ventures or Associate Companies.

MANAGEMENT DISCUSSION AND ANALYSIS :-

(a) Industry Structure and Development:

Stainless steel pipes and tubes are among the tubular products that are expected to experience significant growth over the forecast period. The expanding construction sector, as well as the expanding demand from the oil and gas, petrochemical, nuclear power and chemical sectors, are the main drivers of the need for stainless steel pipes and tubes. The exceptional corrosion resistance and longevity of stainless steel pipes and tubes make them the perfect choice for these applications. Also, the growing usage of renewable energy sources like solar and wind energy, which need stainless steel components for their construction, is a factor in the demand for stainless steel pipes and tubes.

(b) Opportunities and Threats:

The domestic stainless steel demand is expected to register significant growth over the next 3-5 years. India is adopting stainless steel faster because of its higher durability and lower maintenance. The demand for stainless steel is rising across a range of end-use industries, including the automotive, construction, and aerospace sectors, among others, and this is one of the main drivers of market expansion. Due to its great strength, low maintenance requirements, and resistance to corrosion, stainless steel is in higher demand. Automobile parts including gasoline tanks, suspension systems, and exhaust systems, among others, are frequently made of stainless steel. The requirement for lightweight, strong materials that can survive extreme weather conditions is driving the demand for stainless steel in the automotive industry.

(c) Outlook:

The recovery in demand for steel products will enable the Company to expand its activities. The expected rise in nickel output and consumption might help the Company to improve our operations. Growing Usage of substitutes are gaining popularity, posing threat on the growth in demand for stainless steel products.

Government regulatory actions mandate use of steel substitutes, either for environmental reasons or to spur the development of a substitute market. Popularity of steel replacements could diminish demand for steel products, affecting market prices and, as a result, the Company's cash flow and profitability. Therefore, compelling the industry to seek out new alternatives.

Russia-Ukraine war may have some impact on capex investments and consumption amidst uncertainty. The government is taking steps to revive the economy, we are hopeful that the economic environment will improve, customer sentiment will turn positive and the industry will see better growth in coming times. The growth in the power, both thermal & nuclear, fertilizer, oil and petroleum sectors, petrochemical, speciality chemicals offer opportunities for the Company's products. However, the pricing volatility of key raw material ingredients (such as nickel) can affect demand and usage patterns of user industry as well as affect the viability of major project investments. Apart from this, installation of LNG terminals can have a substantial contribution in the usage of stainless steel tubular products. The dumping of secondary quality products, imports of S.S. Pipes under FTA continuous to be a threat and can have an

adverse impact on demand of locally manufactured products. The Government of India's Policy of Aatmanirbhar Bharat to promote local manufacturing will help the industry to grow. Government of India's policies to restrict imports can adversely affect the availability of material in special category, while at the same time creating opportunities to develop more products as import substitutes. Several Companies have expanded/ created additional facilities, this can lead to short term pricing and demand pressures.

(d) Risk and Concerns:

In a highly dynamic business environment, business risks are constantly evolving. As a result, there is significant variation in the emerging risks landscape across businesses. We continuously monitor the internal and external environment to identify potential, emerging risks and their impact on our business. Our risk management framework ensures identification of emerging risks and is flexible enough to accommodate decentralized risk management practices. We evaluate risks that can impact our strategic, operational, compliance and reporting objectives.

Persisting inflation could postpone project execution and demand for the Company's products. Recessionary headwinds across global markets could impact the Company's business prospects. Volatility in steel prices could adversely impact business profitability.

The Company also recognizes the risks associated with business and would take adequate measures to address the associated risks and concerns. Some of these factors include competition from multinational Companies, duty free imports by customers against export obligations, our pricing strategy being mainly dependent on import affairs and dependence on imported raw material. The global environment continues to be marked by economic volatility. The uncertainty in the international and domestic markets Geo political events or availability of raw materials may affect demand. Any significant wave in future can impact recovery, demand, consumer sentiment and delay in private investment. It may also have a further impact on the Indian Rupee, which would make imports more expensive. The Company is also having eye on Global supply chain disruption and inflation.

(e) Internal Control Systems and their adequacy:

The Company has adequate internal control systems in technical and financial fields.

(f) Financial Performance:

The Financial Performance of the Company has been impacted during the year due to fluctuation in raw material prices due to Geo political events.

(g) Human Resources/ Industrial Relations:

The Company has maintained good industrial relations and has maintained harmonious relations with the employees.

(h) Cautionary Statement:

Statements in this report on Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations may be "forward looking

statements" within the meaning of applicable securities laws or regulations. These statements are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic conditions affecting global and domestic demand and supply, finished goods prices in the domestic and overseas markets in which the Company operates, raw-materials cost and availability, changes in Government regulations, tax regimes, economic developments within or outside India and other factors such as litigation and industrial relations. The Company assumes no responsibility to publicly amend, modify or revive any forward looking statements on the basis of any subsequent developments, information or events.

(i) Details of significant changes in Key Financial Ratios:

There is no significant change in key financial ratios as compared to the ratios of previous financial year except following:

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF REMI EDELSTAHL TUBULARS LIMITED

Report on the standalone Financial Statements

Opinion

We have audited the financial statements of **REMI EDELSTAHL TUBULARS LIMITED** ("the Company"), which comprise the balance sheet as at March 31, 2023, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (Collectively referred to as 'standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at March 31, 2023, and its profit (financial performance including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

- a. In the case of the balance sheet, of the state of affairs of the company as at 31st March 2023;
- b. In the case of the statement of profit and loss, of the profit (financial performance including other comprehensive income); and
- c. In the case of the cash flow statement, of the cash flow for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole,

and in forming our opinion thereon.

We have determined that there are no key audit matters to communicate in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we have required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Boards of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing ('SAs'), we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) of the Act, We are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluated the effect of any identified misstatements in the financial statements.
 - We communicate with those charged with governance regarding among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 - We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 - From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstance, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

ANNEXURE - "B" TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Remi Edelstahl Tubulars Limited** ("the Company") as of 31st March, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2023 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note – 1

1. Significant Accounting Policies:-

Basis of Preparation of Financial Statements:-

The Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("Act") read with Companies (Indian Accounting Standards) Rules, 2015; and the other relevant provisions of the Act and Rules thereunder.

The Financial Statements have been prepared under historical cost convention basis, except for certain assets and liabilities measured at fair value.

The Company's presentation and functional currency is Indian Rupees (Rs.), which is the currency of the primary economic environment in which the company operates.

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

1.1 Authorization of Financial Statements:-

The preparation of Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets, liabilities and the accompanying disclosures along with contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require material adjustments to the carrying amounts of the assets or liabilities affected in future periods. The Company continually evaluates these estimates and assumptions based on the most recently available information.

- Assessment of functional currency;
- Financial instruments;
- Estimates of useful lives and residual value of Property, Plant and Equipment and Intangible assets;
- Valuation of Inventories
- Measurement of Defined Benefit Obligations and actuarial assumptions;
- Provisions;
- Evaluation of recoverability deferred tax assets; and
- Contingencies.

Revisions to accounting estimates are recognised prospectively in the Statement of Profit and Loss in the period in which the estimates are revised and in any future periods affected.

1.2 Property, Plant and Equipment

- 1.2.1 Property, Plant and Equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any.
- 1.2.2 The initial costs of an asset comprises its purchase price or construction costs (including import duties and non-refundable taxes), any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and borrowing cost for qualifying assets (i.e. assets that necessarily take a substantial period of time to get ready for their intended use).
- 1.2.3 Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
- 1.2.4 Spare parts which meet the definition of Property, Plant and Equipment are capitalized as Property, Plant and Equipment in case the unit value of the spare part is above the threshold limit. In other cases, the spare part is inventorised on procurement and charged to Statement of Profit and Loss on consumption.
- 1.2.5 An item of Property, Plant and Equipment and any significant part initially recognized separately as part of Property, Plant and Equipment is de-recognized upon disposal; or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the Statement of Profit and Loss when the asset is de-recognized.
- 1.2.6 The residual values and useful lives of Property, Plant and Equipment are reviewed at each financial year end and changes, if any are accounted in line with revisions to accounting estimates.
- 1.2.7 Cost of assets not ready for use at the balance sheet date is disclosed under Capital Work-in-Progress. Expenditure during Construction period is included under Capital Work-in-Progress & the same is allocated to the respective Property, Plant and equipment on the completion of its Construction.

1.3 Depreciation

Depreciation on Property, Plant and Equipment are provided on straight line basis, over the estimated useful lives of assets (after retaining the estimated residual value of 5%). These useful lives determined are in line with the useful lives as prescribed in the Schedule II of the Act.

- 1.3.1 Components of the main asset that are significant in value and have different useful lives as compared to the main asset are depreciated over their estimated useful life. Useful life of such components has been assessed based on historical experience and internal technical assessment.

1.3.2 Depreciation on spare parts specific to an item of Property, Plant and Equipment is based on life of the related Property, Plant and Equipment. In other cases, the spare parts are depreciated over their estimated useful life based on the technical assessment.

1.3.3 Depreciation is charged on additions/deletions on pro-rata daily basis of addition/deletion.

1.4 Intangible Assets

1.4.1 Intangible assets are carried at cost net of accumulated amortization and accumulated impairment losses, if any.

1.5 Borrowing Costs

1.5.1 Borrowing costs consist of interest and other costs incurred in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.

1.5.2 Borrowing costs that are attributable to the acquisition or construction of qualifying assets (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use) are capitalized as a part of the cost of such assets. All other borrowing costs are charged to the Statement of Profit and Loss.

1.6 Impairment of Non-financial Assets

1.6.1 Non-financial assets other than inventories, deferred tax assets and non-current assets classified as held for sale are reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. The recoverable amount is higher of the assets or Cash-Generating Units (CGU's) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets.

1.6.2 When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

1.7 Inventories

1.7.1 The cost for the purpose of valuation of goods is arrived at on FIFO basis and includes estimated Cost of conversion and other cost incurred in bringing the inventories to their present location and condition. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the company.

The mode of valuing closing stock is as under:

→ Raw Materials, Packing goods and General Stores are valued at cost or net realizable value, whichever is less, excluding GST credit, by FIFO method.

→ Work-in-Process is valued at raw material cost plus estimated overheads or net realizable value; whichever is less but excluding GST credit.

→ Finished Goods valued at cost including estimated overheads or net realizable value whichever is less.

→ Scrap is valued at realizable value.

1.7.2 Raw materials held for use in the production of finished goods are not written down below cost except in cases where raw material prices have declined and it is estimated that the cost of the finished goods will exceed their net realizable value.

1.7.3 Obsolete, slow moving, surplus and defective stocks are identified at the time of physical verification of stocks and where necessary, provision is made for such stocks.

1.8 Revenue Recognition

1.8.1 Sale of Goods

Revenue from the sale of goods is recognized when the significant risks and rewards of the ownership of the goods have passed to the buyer, the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, revenue and the associated costs can be estimated reliably and it is probable that economic benefits associated with the transaction will flow to the Company.

Revenue from sale of goods excludes GST and is measured at the fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates, net of returns, taxes or duties collected on behalf of the government.

When the Company acts as an agent on behalf of a third party, the associated income is recognized on net basis.

Export Sales are accounted for on the basis of the date of Bill of Lading.

1.8.2 Claims are recognized on settlement. Export incentives are accounted for in the year exports are made.

1.8.3 Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

1.9 Classification of Income/ Expenses

1.9.1 Incomes and expenditures are recognized on accrual basis except in case of significant uncertainty like Claims payable & receivable, which have accounted on acceptance basis. Purchases are reported of net of trade discounts, returns VAT/GST (to the extent refundable /adjustable)

1.10 Employee benefits

1.10.1 Short term employment benefits

Short term employee benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus, ex-gratia are recognized as an expense at an undiscounted amount in the Statement of Profit and Loss of the year in which the related services are rendered.

1.10.2 Defined Contribution Plans

→ Employee's Family Pension:

The Company has Defined Contribution Plan for Post-employment benefits in the form of family pension for all eligible employees, which is administered by the Regional Provident Fund Commissioner and is charged to revenue every year. Company has no further obligation beyond its monthly contributions.

→ Provident Fund:

The Company has Defined Contribution Plan for Post-employment benefits in the form of Provident Fund for all eligible employees; which is administered by the Regional Provident Fund Commissioner and is charged to revenue every year. Company has no further obligations beyond its monthly contributions.

1.10.3 Defined Benefit Plans

→ Gratuity:

The Company has a Defined Benefit Plan for Post-employment benefit in the form of gratuity for all eligible employees which is administered through Life Insurance Corporation (LIC) and a trust which is administered by the trustees. Liability for above defined benefit plan is provided on the basis of actuarial valuation as at the Balance Sheet date, carried out by an independent actuary. The actuarial method used for measuring the liability is the Projected Unit Credit method.

→ Compensated Absences :

Liability for Compensated Absences is provided on the basis of valuation, as at the Balance Sheet date, carried out by an independent actuary. The Actuarial valuation method used for measuring the liability is the Projected Unit Credit method. Under this method, the Defined Benefit Obligation is calculated taking into account pattern of avilment of leave whilst in service and qualifying salary on the date of avilment of leave. In respect of encashment of leave, the Defined Benefit obligation is calculated taking into account all types of the increment, salary growth, attrition rate and qualifying salary projected up to the assumed date of encashment.

1.10.4 Termination Benefits:

→ Termination benefits are recognised as an expense as and when incurred.

1.10.5 The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

1.10.6 The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

1.10.7 Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur directly in Other Comprehensive Income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

1.10.8 Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

1.11 Foreign Currency Transactions

1.11.1 Monetary Items

Transactions in foreign currencies are initially recorded at their respective exchange rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at exchange rates prevailing on the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss either as profit or loss on foreign currency transaction and translation or as borrowing costs to the extent regarded as an adjustment to borrowing costs.

1.11.2 Non – Monetary items:

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

1.12 Provisions, Contingent Liabilities and Capital Commitments

1.12.1 Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

1.12.2 The expenses relating to a provision is presented in the Statement of Profit and Loss net of reimbursements, if any.

1.12.3 Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability.

1.12.4 Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of economic resources is considered remote.

1.13 Fair Value measurement

1.13.1 The Company measures certain financial instruments at fair value at each reporting date.

1.13.2 Certain accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

1.13.3 Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability also reflects its non-performance risk.

1.13.4 The best estimate of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Company determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently that difference is recognised in Statement of Profit and Loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

1.14 Financial Assets

1.14.1 Initial recognition and measurement

Trade Receivables and debt securities issued are initially recognised when they are originated. All other financial assets are initially recognised when the Company becomes a party to the contractual provisions of the instrument. All financial assets other than those measured subsequently at fair value through profit and loss, are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

1.14.2 Subsequent measurement

Subsequent measurement is determined with reference to the classification of the respective financial assets. Based on the business model for managing the financial assets and the contractual cash flow characteristics of the financial

asset, the Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit and loss.

1.14.3 Impairment of financial assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (“ECL”) model for measurement and recognition of impairment loss on the financial assets measured at amortised cost and debt instruments measured at FVOCI.

Loss allowances on trade receivables are measured following the ‘simplified approach’ at an amount equal to the lifetime ECL at each reporting date. The application of simplified approach does not require the Company to track changes in credit risk. Based on the past history and track records the company has assessed the risk of default by the customer and expects the credit loss to be insignificant. In respect of other financial assets such as debt securities and bank balances, the loss allowance is measured at 12 month ECL only if there is no significant deterioration in the credit risk since initial recognition of the asset or asset is determined to have a low credit risk at the reporting date.

1.15 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

1.16 Taxes on Income

1.16.1 Current Tax

Income-tax Assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, by the end of reporting period.

Current Tax items are recognised in correlation to the underlying transaction either in the Statement of Profit and Loss, other comprehensive income or directly in equity.

1.16.2 Deferred tax

Deferred tax is provided using the Balance Sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred Tax items are recognised in correlation to the underlying transaction either in the Statement of Profit and Loss, other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

1.17 Earnings per share

Basic earnings per share are calculated by dividing the profit or loss for the period attributable to equity shareholders (after deducting preference dividends, if any, and attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the profit or loss for the period attributable to equity

shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all dilutive potential equity shares.

1.18 Classification of Assets and Liabilities as Current and Non-Current:

All assets and liabilities are classified as current or non-current as per the Company's normal operating cycle (determined at 12 months) and other criteria set out in Schedule III of the Act.

1.19 Cash and Cash equivalents

- Cash and cash equivalents in the Balance Sheet include cash at bank, cash, cheque, draft on hand and demand deposits with an original maturity of less than three months, which are subject to an insignificant risk of changes in value.

For the purpose of Statement of Cash Flows, Cash and cash equivalents include cash at bank, cash, cheque and draft on hand. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

1.20 Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

36. **Financial Risk Management****Risk management framework**

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's business activities are exposed to a variety of financial risks, namely liquidity risk, market risk, commodity risk and credit risk. The Company's senior management has the overall responsibility for establishing and governing the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risk faced by the Company, to set and monitor appropriate risk limits and controls periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risk and mitigating actions are also placed before the Audit Committee of the Company.

The Company has exposure to the following risk arising from financial instruments.

- A) Credit risk
- B) Liquidity risk
- C) Market risk and
- D) Commodity risk

A) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party fails to meet its financial obligations.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to Rs.2,291.96 Lakhs and Rs.2,119.96 Lakhs as at March 31, 2023 and March 31, 2022 respectively.

The demographic of the customer and including the default risk of the industry, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limit and continuously monitoring the creditworthiness of customers to which the Company grants credit in the normal course of business.

Other than trade and other receivables, the Company has no other financial assets that are past due but not impaired.

The Company uses an allowance matrix to measure the expected credit losses of trade receivables. The loss rate are computed using a 'roll rate' method based on the probability of receivable progressing through successive stages of delinquency to write off.

The following table provides information about the exposure to credit risk for trade receivables.

Ageing of Trade receivables

(₹ in Lakhs)

Particulars	AS AT 31/03/2023	AS AT 31/03/2022

More than 500 days	15.59	31.17
Total	2,291.96	2,119.96

Cash and Cash Equivalents

The Company held cash and cash equivalents of Rs.3.25 Lakhs as at 31st March, 2023 (31st March, 2022 Rs.7.38 Lakhs).

B) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable time.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity management framework for the management of the Company's short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Exposure to liquidity risk

The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flow as at the Balance sheet date.
