TIME TO OPEN UP MARKETS: COMMERCE MINISTER

Cut import dependence, Goyal tells auto cos

PRESS TRUST OF INDIA New Delhi, March 16

COMMERCE AND INDUSTRY minister Piyush Goyal on Wednesday expressed disappointment over certain auto companies continuing to import even those components which can be qualitatively manufactured in India.

"One more concern that has been flagged off with me... if any of the auto component manufacturers is being subsidised by your parent com-

pany or by the company to whom you supply... to sell off your shareholding or to sell out cheap your own ownership in your company to the technology partner or to the ancillary of the main auto component (maker)...

"...it is extremely unfortunate that if any of our Indian promoters who have put in their sweat and blood to develop ancillary suppliers for the auto firms are forced out of their contribution or their partnership... I would urge Automotive Component Manufacturers Association to share with us more details of products where we have a competitive edge but companies are resisting to use your components

—PIYUSH GOYAL, UNION MINISTER

He urged the industry to cut import dependence, focus on R&D, increase innovation, buy goods from domestic firms and be open for global competition.

products where India has the ability to provide them good quality goods," Goyal said at the ACMA Aatmanirbhar Excellence Awards.

Expressing concern, he also said some firms do not use high-quality Indian steel and instead rely on imports. "I

would urge ACMA (Automotive Component Manufacturers Association) to share with us more details of products where we have a competitive edge but companies are resisting to use your components," he said.

The minister pointed out that continuous dependence on imports would make India an "assembly shop".

He urged the industry to develop the entire mobility ecosystem in India, become global suppliers, and make the country self-sufficient in the sector. "It's time to open up markets, we can't always be protective... look for greater penetration in global markets," he said.

"The government has provided you significant protection, I think now for almost three decades. You have created world class products, you have a robust ecosystem in India, you have modern technologies that you are using in your industry and therefore I think it is the time to...open up," the minister said.

He said the focus on areas like e-vehicles and hydrogen fuel cells would help India cut its huge dependence on oil, which puts a burden on the exchequer.

On exports, he said India's outbound shipments have reached close to \$390 billion as of March 14 of the current financial year.
