PRESS RELEASE

Venus Remedies Granted Market Authorization for Bleomycin 15,000 IU in the United Kingdom

- **Obtaining market authorization for Bleomycin from MHRA is a momentous accomplishment for Venus Pharma GmbH.**
- **Venus Remedies holds a total of 15 Market Authorizations (MA) for Bleomycin products across the globe.**

Chandigarh, October 26, 2023: Venus Remedies is thrilled to announce the achievement of market authorization in the United Kingdom for Bleomycin 15,000 IU Powder for Solution for Injection/Infusion by its German subsidiary, Venus Pharma GmbH. This remarkable milestone not only expands the pharma giant's global presence but also underscores its commitment to advancing cancer care with innovative solutions.

Bleomycin 15,000 IU is a potent medication that contains the active ingredient bleomycin sulfate. It belongs to a group of medicines known as cytostatic drugs, specifically designed to combat cancer. This class of medications, often referred to as chemotherapy, is renowned for its effectiveness in targeting cancer cells and preventing their uncontrolled division.

Its versatile applications include the treatment of certain types of squamous cell carcinomas in the head and neck, cervix, and external genitalia. It also serves as a panacea in treating severe types of lymph node cancers, such as Hodgkin's disease and non-Hodgkin's lymphoma of intermediate and high malignancy, testicular cancer, and fluid accumulation in the lungs, often associated with cancer.

Bleomycin can be administered as a standalone treatment or in combination with other cancer medications and radiotherapy. Its effectiveness and utility in cancer treatment have earned it market authorizations in numerous countries worldwide.

Venus Remedies is proud to hold a total of 15 Market Authorizations (MA) for Bleomycin products across the globe. As part of its efforts to make Bleomycin more accessible, the company has submitted sixteen additional applications to Ministries of Health (MOHs) around the world. Venus has secured 15 registrations for this drug across various regions, including Africa, Asia, the Middle East, the Commonwealth of Independent States (CIS), North America, and South America.

"At Venus, our mission is to improve the lives of cancer patients by providing cutting-edge treatments. The UK's market authorization for Bleomycin 15,000 IU Powder for Solution for Injection/Infusion is a significant step towards realizing this mission. We remain dedicated to enhancing healthcare solutions and are committed to pursuing additional authorizations to reach even more patients in need," stated Saransh Chaudhary, CEO, Venus Medicines Research Center

For Venus Pharma GmbH, the achievement of receiving market authorization from a regulatory agency like the Medicines and Healthcare products Regulatory Agency (MHRA) in the United Kingdom

is a significant validation of the company's commitment to pharmaceutical excellence. This achievement enhances the company's reputation, not only in the UK but also on the international stage, signifying its competence in delivering pharmaceutical products that can positively impact patient lives.

Ashutosh Jain, CEO, Venus Pharma GmbH, expressed that obtaining market authorization from MHRA is a momentous accomplishment for Venus Pharma GmbH. It enables the company to play a pivotal role in advancing cancer care and improving the quality of life for patients facing this challenging disease.
