Based on the review of the IPA, DPA and LOF issued by the Manager to the Delisting Offer, as to whether Delisting Offer on behalf of Acquirer, the members of IDC believe that the Delisting Offer is in accordance with the SEBI Delisting Regulations and to hat extent, is fair and reasonable.

the Delisting Offer is fair and 12 Summary of reasons for Based on the review of the IPA, DPA and LOF issued by the Manager to the Delisting Offer on behalf of Acquirer, the members of IDC have considered the following reasons provided by the Acquirer in the IPA for making recommendation (IDC may other place, e.g. company's

ecommendations: The objective of making the Delisting Offer is to obtain full ownership o Equity Shares of the Target Company, which will provide the Acquirer with operational flexibility including but not limited to scaling down or completely closing down the operations of the Target Company or restructuring including consolidation with group companies after

considering the financial condition of the Target Company. The other reasons include: a) the proposed Delisting Offer would provide the Public Shareholders with an opportunity to exit on account of low volume and liquidity in the trading of the Equity Shares on the Stock Exchange at a price

determined in accordance with the reverse book building mechanism as set out in the SEBI Delisting Regulations; and

b) save compliance cost and reducing the management's time to comply with stock exchange requirements

The proposed Delisting Offer will provide the Public Shareholders an opportunity to realize immediately a certain value for their shares at a time of elevated market volatility. The price will be determined in accordance with the reverse book building mechanism as set out in the SEBI Delisting Regulations.

The accumulated losses are mainly because of closure of commercia operation for years due to various reasons including unfavorable marke conditions and other reasons. Hence, the Acquirer is unable to see financial or operational revival of the business of the Target Company fo the foreseeable future.

The IDC, however, suggests that Public Shareholders of the Company should Independently evaluate the Delisting Offer, market performance of the Target Company Scrip and take informed decisions in respect of the Delisting Offer. The market price of the Target Company scrip has been trading at a premium to the floor price and indicative price since the IPA
