Acquisition of ₹17K cr 56 transport aircraft OK'd

DEPNS ■ NEW DELHI

In an effort to enhance the Indian Air Force's (IAF) capabilities to transport personnel and equipment, the Cabinet Committee on Security (CCS) on Wednesday approved the procurement of 56 C-295MW transport aircraft from Airbus Defence and Space S.A., Spain. The deal is worth over ₹17,000 crores.

Giving details here, officials said 16 aircraft will be procured off-the-shelf within 48 months of signing of the contract and 40 aircraft will be manufactured in India by TATA Consortium within ten years of signing of the contract.

This is the first project of its kind in which military aircraft will be manufactured in India by a private company. All 56 aircraft will be installed with indigenous Electronic Warfare Suite. The project will give a boost to aerospace ecosystem in India wherein

several medium and small enterprises (MSME) spread over the country will be involved in manufacturing of parts of the aircraft.

This plane is capable of air-lifting five to ten tons and fitted with latest technology will replace the ageing Avro planes now in service since 1960s. The new aircraft has a rear ramp door for quick reaction and parachute dropping of troops and cargo.

The manufacturing pro-

gramme will provide major boost to the 'Atmanirbhar Bharat Abhiyan' as it offers a unique opportunity for the Indian Private Sector to enter into technology intensive and highly competitive aviation industry. The project will augment domestic aviation manufacturing resulting in reduced import dependence and expected increase in exports.

A large number of detail parts, sub-assemblies and major component assemblies of

aero structure are scheduled to be manufactured in India. The programme will act as a catalyst in employment generation in the aerospace ecosystem of the country and is expected to generate 600 highly skilled jobs directly, over 3,000 indirect jobs and an additional 3,000 medium skill employment opportunities with more than 42.5 lakh man hours of work within the aerospace and defence sector of India.

It will involve development of specialised infrastructure in form of hangars, buildings, aprons and taxiways. During the process of manufacturing in India, it is expected that all the suppliers of TATA Consortium who will be involved in special processes will gain and maintain globally recognised National Aerospace and Defence Contractors Accreditation Program (NADCAP) accreditation.

IAF to get 350 aircraft in next 2 decades: Air Chief

have niche technologies which must be built in-house by our own industry for reasons of security," the IAF chief said.

Emphasising that India becoming self-reliant in the defence sector is crucial for dealing with various challenges, Bhaduria said the IAF is looking at procuring around 350 aircraft from within the country in the next two decades. He, however, said it is a rough projection.

The IAF chief also said the Tejas light combat aircraft project has instilled confidence in the aerospace industry in India.

Rahul pseudo expert, says Pradhan

PNS ■ NEW DELHI

Education Minister Dharmendra Pradhan on Wednesday hit back at Rahul Gandhi for demanding the postponement of medical entrance exam NEET, saying the Congress leader was a "pseudo expert" with an overflowing vanity and a misplaced sense of entitlement."

Criticising Rahul Gandhi for "questioning the wisdom" of the Supreme Court and experts on the NEET schedule, Pradhan said that "yuvraj (prince)" should stick to "his expertise of concocting lies than issuing statements on matters he has no understanding of".

The minister's response came after the former Congress President called for the postponement of the NEET examination as many other examinations are scheduled around September 12. Alleging that the government is "blind" to students' distress, Rahul Gandhi had urged the Centre to let students "have a fair chance" in the exams.

On Monday, the Supreme Court refused to defer the National Eligibility-cum-Entrance Test (NEET)-UG examination scheduled for September 12, saying it does not want to interfere with the process and it will be "very unfair" to reschedule.

Rahul Gandhi perceives himself to be an expert on everything without having an iota of knowledge. Overflowing vanity & misplaced sense of entitlement of a failed crown prince is no alibi to meddle into the schedule of examinations, give undue stress & make the students suffer," Pradhan tweeted.

T'gana to deliver medicines, vax through drones

PNS ■ NEW DELHI

From Thursday, Telangana Government will start the trials of delivering medicines and vaccines through drones under the 'Medicine From The Sky' project. The trial flights will be conducted from September 9 to October 10 at Vikarabad (Hyderabad), and a majority of them will be by tech start-up Skye Air Mobility. This will make Telangana the first state in the country to start trials of Beyond Visual Line of Sight (BVLOS) drone flights for delivery of COVID-19 vaccines.

According to the Telangana government, the Medicine From The Sky (MFTS) project's first two days of trials will be flying in the visual line of sight, which involves drones flying between 500 and 700 meters from the base and they can be seen with the naked eye.

Delhi-based drone delivery tech firm Skye Air Mobility has tied up with Blue Dart to initiate a three-phase trial for Telangana. Government that starts with flying drones, each carrying 175 vaccines. BVLOS drone flights are those that go beyond 500-700 metres from the eye's vision or beyond the visual line of sight.

From September 11 onwards, BVLOS drone flights will take place for 9-10 km distances. These flights will be with consignments of vaccines, medical samples and other healthcare items, Modi tweeted.
