India's growth momentum to continue in FY24: RBI

PTI N MUMBAI

The Reserve Bank on Tuesday said that India's growth momentum is likely to continue in 2023-24 even as it made a case for pushing structural reforms to deal with the geopolitical developments and also to achieve sustained growth in the medium-term.

The Indian economy is expected to have recorded a growth of 7.0 per cent in real GDP in 2022-23, it said.

The Reserve Bank's annual report flagged slowing global growth, protracted geopolitical tensions and a possible upsurge in financial market volatility as possible downside risks to growth. The report notes that volatility has ebbed in global financial markets and risks in financial markets from the fallout of banks in some advanced economies (AEC) in March 2023 have eased. Resolute policy actions have stemmed the tide of confidence runs for now.

A sustained recovery in discretionary spending, particularly in contact intensive services, restoration of consumer confidence, high festival season spending after two consecutive years of COVID-19 induced isolation and the government's thrust on capex powered the growth momentum. In the second half of the year, however, the pace of year-on-year growth moderated because of unfavourable base effects, weakening private consumption demand caused by high inflation, slowdown in export growth and

sustained input cost pressures, it said. "On the back of sound macro-economic policies, softer commodity prices, a robust financial sector, a healthy corporate sector, continued fiscal policy thrust on quality of government expenditure, and new growth opportunities stemming from global realignment of supply chains, India's growth momentum is likely to be sustained in 2023-24 in an atmosphere of easing inflationary pressures", the report said. Slowing global growth, protracted geopolitical tensions and a possible upsurge in financial market volatility following new stress events in the global financial system, however, could pose downside risks to growth. "It is important, therefore, to sustain structural reforms to improve India's medium-term growth potential", the 311-page report said.

RBI working on light weight, portable payment system for critical transactions during catastrophic events

PTI N MUMBAI

Reserve Bank of India is working on a light weight and portable payment system, a 'bunker equivalent' in payment systems, that can be used for critical transactions during catastrophic events like natural calamities and war.

(Real Time Gross Settlement), NEFT (National Electronic Funds Transfer) and UPI (Unified Payments Interface) are designed to handle large volumes while ensuring sustained availability. These systems are dependent on complex wired networks backed by advanced IT infrastructure. However, catastrophic events like natural calamities and war have the potential to render these payment systems temporarily unavailable by disrupting the underlying information and communication infrastructure, RBI said in its latest annual report issued on Tuesday.

CBDC pilot expanded; to include more banks, locations: Reserve Bank

PTI N MUMBAI

The Reserve Bank on Tuesday said the scope of the Central Bank Digital Currency (CBDC) pilot is being expanded gradually to include more banks and locations.

The first pilot in the Digital Rupee - Wholesale Segment (e rupee-W) commenced on November 1, 2022. It was followed by the first pilot for retail digital rupee (e rupee-R) was announced on December 1, 2022.

Retail digital rupee offers features of physical cash like trust, safety and settlement finality in digital mode. It can be held or used to carry out transactions, similar to how currency notes can be used in physical form, the RBI said in its annual report.

The pilot was launched in Mumbai, New Delhi, Bengaluru and Bhubaneswar, comprising participating customers and merchant in a closed user group (CUG). Other locations, including Ahmedabad, Chandigarh, Gangtok, Guwahati, Hyderabad, Indore, Kochi, Lucknow, Patna and Shimla are also being added to the pilot in phases.

Hardening interest rates, geo-political risks impacting FDI inflows: DPIIT Secy

PTI N NEW DELHI

Hardening interest rates globally and worsening geo-political situation have impacted the foreign direct investment (FDI) inflows into India in 2022-23, a top government official said on Tuesday.

Secretary of the Department for Promotion of Industry and Internal Trade (DPIIT) Rajesh Kumar Singh said that the department would analyse the reasons for the contraction in FDI in five important sectors like computer hardware and software, construction, education, automobiles and metallurgical industries.

IST Limited Financial Results for the period ended 31st March, 2023. Table with columns: Particulars, Quarter ended, Year ended. Includes Total Income, Net Profit, etc.

ReNew Akshay Urja Limited Financial Results for the year ended 31st March 2023. Table with columns: Particulars, Quarter ended, Year ended. Includes Total Income from Operations, Net Profit, etc.

These five sectors had a share of USD 20 billion in India's total FDI in 2021-22 and in the last fiscal year, overseas inflows have almost halved. "Why exactly in these sectors (FDI) has come down is to be analysed. We will have to analyse," he added. FDI equity inflows into India declined by 22 per cent to USD 46 billion in 2022-23. The investments during the January-March 2023 quarter plunged by 40.59 per cent to USD 9.26 billion. Though the computer software and hardware sector attracted the highest inflows of USD 9.4 billion during the last financial year, these inflows are down as compared to USD 14.5 billion in 2021-22. Similarly, FDI in the automobile industry dipped significantly to USD 1.9 billion in 2022-23 as compared to about USD 7 billion in 2021-22. However, the secretary added that the government is doing investment promotion on a large scale and the inflows would start recovering. The secretary added that sectors which have received healthy inflows include information and broadcasting, agri machinery, railway-related components, medical appliances, defence industries and scientific instruments.
