TCS Research Scholar Program Expanded to Reach PhD Aspirants in India's Top 100 Institutes

With Increased Funding, Tata Consultancy Services' Program Will Reach More Institutions and Further Boost Computer Science-Related Research in the Country

MUMBAI, January 05, 2023: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS) announced that the TCS Research Scholar Program has been expanded to support PhD aspirants across the top 100 institutes in India. This is expected to give a significant boost to the program's objective of nurturing the computer science research ecosystem in the country.

The expanded program now offers a package of over Rs 47 lakh per scholar for research-related activities such as paper presentation and conference attendance. An important addition to the scheme is the enhanced stipend to accommodate overseas study for up to six months for eligible research scholars.

The TCS Research Scholar Program has seen many positive outcomes. In the past 10 years, over 350 scholars from 45 premier institutes have been offered this scholarship, and produced over 2,000 publications. The scholars have benefited from mentorships by, and presentations to, TCS researchers. These scholars are now part of academic and industrial research programs and are also in entrepreneurial pursuits.

The program has supported scholars from fields at the intersection of computers with engineering sciences, enterprise AI, new domains and technologies, resilient systems, biochemical sciences, physical sciences, etc. It has supported scholars with guidance from industry practitioners as teachers and mentors. The program ran successfully even through the lockdown when mentorship was provided online.

K Ananth Krishnan, CTO, TCS, said, *"With the expansion of digitization of society and industry, we see the need for a deeper exploration of new technologies and domains across industry segments. There is an increasing demand for research skills honed by a PhD program. In its first decade, the TCS Research Scholar Program kept up the quality of research with mentorship and interactions with industry experts. We are delighted to expand this program and support more PhD scholars across India's top institutions."*

The TCS Research Scholar Program is funded by TCS Foundation as part of TCS' Corporate Social Responsibility.

TCS Research Scholar Program is now accepting applications. Academic institutes and aspirant scholars can write to tcs.rsp@tcs.com for further details.

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 616,000 of the world's best-trained consultants in 55 countries. The company generated consolidated revenues of US \$25.7 billion in the fiscal year ended March 31, 2022, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
