Cement, steel industries should use green hydrogen for energy: Gadkari

PRESS TRUST OF INDIA
Nagpur, October 31

UNION MINISTER NITIN Gadkari on Sunday said it is now time that cement and steel industries start using green hydrogen as energy instead of coal for production.

He was speaking at the inauguration of various facilities of Manganese Ore India Ltd (MOIL) based in Nagpur.

"It is now time for using green hydrogen as energy in the cement and steel industry in place of coal. We should work on value addition by running metal industries, where mining products are using green hydrogen as energy. We will

have to protect the environment and increase our production at the same time," he said.

Gadkari, who is member of the Cabinet Committee on Divestment, emphasised on carrying out divestment on a large scale as envisaged by Prime Minister Narendra Modi.

He said it is not the job of the government to run a business.

"Big financial discipline is taking place through divestment. Those (PSUs) who are in profit and doing well should perform better and stressed on important performance audit which he said is more important than financial audit," he said.

Union minister Nitin Gadkari

Gadkari appreciated MOIL for the announcements it made for its employees in terms of wage revisions and other demands.

He asked MOIL to increase its annual production and reduce import of ore and make India 'atmanirbhar' (self-

reliant).

Mukund Chaudhary, CMD of MOIL, said that MOIL is consistently earning profits and paying handsome dividends to the shareholders major shareholder being the Government of India. Chaudhary informing about its plan to increase production capacity said it is targeting 2.5 million tonne (mt) 2025-26 and 3 mt by 2030.

Talked about the expansion plan, Chaudhary said that MOIL has signed an MoU for manganese ore production with Gujarat Mineral Development Corporation in Gujarat, wherein exploration has been started and 9.5 mt of ores has been approved.

India, UK to launch solar green grids initiative at COP26

PRESS TRUST OF INDIA
Glasgow, October 31

INDIA AND THE UK are set to enhance their International Solar Alliance (ISA) partnership with the launch of a new green grids initiative, connecting different parts of the world, at the United Nations (UN) COP26 climate summit in Glasgow.

The new Global Green Grids Initiative—One Sun One World One Grid (GGI-OSOWOG)—is an evolution of ISA's OSOWOG multilateral drive to foster inter-connected solar energy infrastructure at a global scale.

The new Green Grids Initiative, to be launched at COP26 on Tuesday, will mark a merging of flagship interconnection initia-

The initiative will mark merging of flagship interconnection initiatives from India and the UK as part of their bilateral cooperation

tives from India and the UK as part of their bilateral cooperation. "The Green Grids Initiative aims to start with a coalition of the willing, such as two countries that would mutually benefit from the transfer of solar electricity and in time, lower costs of solar around the world," said Ajay Mathur, director-general of ISA.

"It is a huge opportunity not

only for India and the UK, but for countries to come together to utilise the greatest source of energy—the sun. The sun is shining somewhere around the globe, even though it might have set someplace else, and the scale of GGI-OSOWOG will not only change clean energy access but could very well be the next biggest modern engineering marvel," he said. "The partnerships, initiatives and discussions that the ISA will be leading at COP26 will provide the necessary impetus for delivering these transitions. The ISA invites nations, institutions and stakeholders with aligned interests and investment appetite to partner and accelerate global solar-led energy transition."

Jewellers expect strong demand during Dhanteras

WITH THE INDIAN jewellery market already on a robust recovery path, jewellers are expecting strong Diwali sales during Dhanteras, as the festive mood remains high with a low possibility of a Covid third wave, and softer gold prices this season.

The industry expects the trends in 2021 will be able to reach the pre-Covid level sales of 2019 on the back of gold price hovering at ₹46,000-47,000 per 10 grams of 22-carat gold, nearly 5% lower than in 2020, and a jump in number of weddings, a senior official of an industry body said.

"Since the Navratri market is showing demand, it will continue on Dhanteras also. This year the festive mood is strong with the pandemic remaining under control, lower gold prices and strong wedding season. This year, October-November will account for 40% of yearly sales," All India Gems and Jewellery Domestic Council chairman Ashish Pethe said. **PTI**

Diageo aims to be top-performing consumer products co

GLOBAL SPIRITS MAJOR Diageo is embarking on a mission to be a top-performing consumer products company in India with sustained double-digit, profitable topline growth and it will rejig its portfolio as part of the exercise, according to a senior company official.

Having been on a "journey of holistic transformation" since completing United Spirits' acquisition in 2013, marked by moderate topline growth, Diageo India is now looking forward to the new phase, while creating an organisation of the future, and defining and executing an

ambitious role for the company in the society. "Our mission is to be a top-performing consumer products company in India, delivering sustained double-digit, profitable topline growth, and long term value to all our stakeholders," Diageo India MD & CEO Hina Nagarajan said. **PTI**
