Opportunities for HFCL

Opportunity Landscape

OF/ OFC

- Expansion of 4G network, Evolution of 5G networks, Bharat Net, Railways, Smart City projects
- Expected Growth in FTTH connections to 50mn by 2024
- OFC Export opportunity to multiply on account of global markets realigning with China + 1 strategy

Telecom & Networking

- Expansion of 4G networks with allocation of additional spectrum
- Evolution and Implementation of 5G networks globally. Expected CAPEX is 4-5 Lac crores over next 4-5 years in India alone
- Rs 30k- 40k crore opportunity in Bharat Net Phase II Project, Wi-Fi, infrastructure, electronics and optic networks
- Open Radio Access Network will lead to huge opportunities for the Manufacturers
- PLI Scheme will boost the Local Manufacturing and Competitiveness

Defence

- The defence budget allocation increased to include modernisation of armed forces and replacement of older equipment and technologies
- India's defence market is expected to grow \$ 70 billion in next 5 years
- GOI target to reduce imports from 65% currently to 30% by 2027 - massive opportunity for Indian manufacturers

Railways

- Indian Railways have announced massive plans for overhauling the signalling system by spending about INR 850 bn over next five years
- Deployment of new rail lines with next generation system
- Allocation of spectrum by the Government

Security & Surveillance

- Increased push from GOI for surveillance security
- Wider proliferation of AI (artificial intelligence) across the surveillance touch points – cameras, control room, alarm – would drive demand for the NextGen surveillance products and solutions
- Perimeter intrusion detection & prevention systems market is estimated to reach ~USD 339 million by 2023, and grow at 10.58% CAGR

HFCL's accelerated transformation journey

Increasing R&D spend to ~INR 150cr in FY22E

Focusing on upcoming opportunities in Telecom, Defence and Railways

- Market opportunity of ~INR 4-5 lakh crores in 5G alone ; ~INR 50k cr in Defence, ~INR 85k crs in Railways in next 4-5 years
- Immense demand for Fiber optic cables, Telecom and networking products across the world followed by expansion of 4G and evolution of 5G Network

Integral part of India's digital journey

- BharatNet world's largest rural broadband project
- PLI scheme participation through its Telecom & Networking products
- PM WANI village in Baslambi Haryana and Udupi district Karnataka

Extending market reach

- Exports of OFC and Telecom products to 30+ countries
- Plan to expand this further in next 3 years

Expanding / Modernizing manufacturing capabilities

- Expanding OFC capacity : 18mn fkm to 22.5 mn fkm
FTTH Capacity : 6L ckm to 7.2L ckm
Fibre capacity :8mn fkm to 10mn fkm
- Setting up new facilities at Hyderabad for the manufacturing of defence products
 - Setting up facilities to manufacture wire harness
- Strengthening backward integration for OFC facilities at Chennai, Hosur and Hyderabad
 - Modernizing OFC facilities at Goa and Chennai

Product mix shift to margin accretive own designed products

- Aim to have more than half of our revenue mix coming from higher margin own designed products (27% of our mix for FY21)

Reorganized internal structure to focus on key specialization areas

- New 5G business unit
- Created a separate delivery organization
- Inaugurated a new R&D Centre in Bengaluru in June'21

Supported by our differentiating advantage

Robust Foundations

- Rich heritage of over **three decades** in enabling telecom revolution in India
- **Six state-of-the-art manufacturing facilities**

Accelerated organization-wide **capability** ramp up

Investing in our People with focus on **Health** and **Safety**; Technical & Functional **Training**; Collaboration as **ONE HFCL** family

Accelerating Innovation >>>>>> Profitable Growth

Continued investments in R&D and new age technology

Revenue mix shift to indigenously designed products

Low gearing and higher margins

Fast scale-up of technological capabilities – organic and collaborative

Economies of Scale

Humongous opportunities via Make in India initiatives and PLI Policy for Telecom & Networking Products

Range of NETXGEN products & Solutions

Backward Integration

Expanding Global Reach

'HFCL is bridging the gap between Digital India initiative and Make in India'

Coupled with Tech Advancement Strategy

Inorganically expand the core with synergistic acquisitions and strategic investments

Develop products for local and global deployments – interoperability

Integrate innovation breakthroughs with captive manufacturing competence

Intensify and scale up the innovation core, 'in-house Research and Development'

Fortify the core with a peripheral layer of collaborative research

Make technology affordable, mass deployable and secure

Strive to expand own Intellectual Property Rights

Empowering Innovation, Introducing New Technologies

- Promote in-house R&D for NextGen products
- Co-innovate with R&D houses and start-ups through partnership / acquisition route
- Developing products having Global opportunities
- Focussing on development of cost effective next generation products and solutions with own IPR
- Team - Large pool of technocrats with proven track record having International experience and business know-how Expertise :

Products under development

**Centralized/
Distributed Unit
Aggregation Router**

To meet the transport requirements of a 5G mobile network

**Gigabit Passive
Optical Network
Equipment (GPON)**

To meet the bandwidth & latency demands of a 5G network

Small Cell for 5G

To provide for data capacity demands of a 5G network

Uncooled Engine Core

It is the heart of all night vision devices. It has tremendous application in Military and Surveillance

**Ground Surveillance
Radars**

This is used for Surveillance of critical infrastructure projects such as : Power Plants, Armed Forces, Para-Military etc.

Software Defined Radios

It is intended for use in a Tactical Network for long haul transmission of data traffic by the armed forces.

The Road Ahead

Develop technology as a critical disruptor

Make in India for the world, expanding global reach

Leverage cost competitive manufacturing across the portfolio and backward integration to enhance margins and self-sufficiency

Create value added system integration capabilities in telecom sector

Target profitable turnkey projects to leverage on implementation capabilities

Monetize invested capability build-up towards next frontier including 5G and defence manufacturing

Pursue profitable growth with margin-accretive revenues and cost-efficient operations

Create value for Stakeholders
