Brent oil hits \$75 on Iran risk, Russia supply outage

New York/London, 25 April

rent crude reached \$75 a barrel for the first time since October as the US decision to tighten Iran sanctions and contamination in China declaring its right to pur-Russian shipments fuelled supply fears.

Later, Iran's foreign ministry said that it will not allow any country replace its oil sales in the global market.

Futures in London rose as much as 1.4 percent, gaining for a fifth session. Saudi Arabia on Wednesday respo-

nded to the US move to tighten pare down that long position sanctions on Iran, saying it saw no immediate need for action in the oil market. Separately, Russian crude deliveries to parts of Europe have been halted amid complaints of impurities. Brent is set for a fifth straight

announcement that it won't renew waivers for countries to import Iranian crude after May 2. Štill, questions are piling up over the ultimate impact, with Iran threatening retaliation, chase, and Saudi Arabia taking a cautious approach on raising

its own output. OIL TRAJECTORY "We're kind of waiting to see are Brent crude futures (\$/bbl) Brent crude spot the Iran sanctions real or is it Memorex?" said Phil _60

India's crude oil production in FY19 dips 4.15% to 34.2 mt

India's crude oil production in the financial year 2018-19 (FY19) dropped 4.15 per cent to 34.2 million tonne (mt), from 35.68 mt during 2017-18 (FY18). Natural gas production, on the other hand, showed a marginal increase of 0.69 per cent during the period

Cumulative natural gas production in FY19 was seen at 32,873.37

million metric standard cubic metre (mmscm), compared to 32,649.31 mmscm during FY18. Among the PSUs, Oil and Natural Gas Corporation saw a 5.4 per cent drop in its crude production during FY19, to 21.04 mt versus 22.25 mt in FY18. Natural gas production by the company during FY19 was 24,674.65 mmscm, 5.31 per cent higher than the production during the previous financial

year. One reason for lower production was a decline in pressure or potential in GS-4 gas cap reservoir in Gandhar field.

Another PSU major Oil India (OIL), too, saw a decline in its crude oil production by 2.46 per cent to 3.3 mt during the last fiscal year compared to FY18. Natural gas production by OIL during FY19 was 5.54 per cent higher than the previous year. In FY19, crude oil and natural gas production by private sector and joint ventures were also down 1.9 per cent and 13.59 per cent, respectively. One reason for drop in the private sector gas production was the closure of two wells in D1D3 field by Reliance Industries.

I-T dept may propose using calendar as financial year

The dept has to submit its recommendations for the July Budget by May 15

SHRIMI CHOUDHARY New Delhi, 25 April

The Department of Revenue has asked for proposals from the income-tax (I-T) department to finalise taxes as part of the Budget, which would be presented in July after the new government takes office. Making financial year co-terminus with calendar year is one of the key suggestions, said sources familiar with the matter.

In its April 24 letter, the department asked tax officials to give recommendations, by May 15, for consideration during the budgetary exercise of 2019-20.

According to sources in the know, there are some suggestions which have been in discussion and would be recommended by the department as part of pre-Budget consultation. Sources say bureaucrats have started brainstorming on the tax policies, analysis and legislations for both direct and

Sources said if the Bharatiya

Janata Party comes to power, it may change financial year (April-March) to calendar year (January-December).

However, it may face operational challenges and should be given sufficient time before changing the system. If it gets introduced, this would end the 150-year British practice. Similarly, the tax department is also pitching for making financial and assessment year same under the I-T Act.

For this, a proposal was presented during a meeting with the NITI Aayog.

The Modi government had appointed a panel on changing the financial year to calendar year. Under the I-T system, an assessment year is the year that comes immediately after a financial year.

Besides, officials may also suggest further rationalisation of tax slabs for small and midlevel taxpayers. "The current

tax rates are ambiguous in nature, especially the lower slabs. As suggested, we would work towards harmonising the tax rates, currently prone to interpretation," a source said.

Under the current I-T slabs income up to ₹2.5 lakh is exempt from tax, those earning up to ₹5 lakh pay 5 per cent, and those earning up to ₹10 lakh have to pay 20 per cent tax. Those with income above ₹10 lakh have to pay 30 per cent tax.

Since April 1 this year, those with taxable income up to ₹5 lakh would not have to pay any tax, as they have been given tax credits in the interim Budget passed by Parliament. If various investment schemes are also factored in, those with income up to ₹10 lakh might escape the tax net in the current financial year.

Meanwhile, the long-pending report on direct tax code is expected to be submitted by May 31. The report would also incorporate several new tax policies to streamline the whole taxation system.

Kashmir business bodies push for reopening LoC trade routes

SUBHAYAN CHAKRABORTY

New Delhi, 25 April

Buoyed by the promise of support by the state government, Kashmir trade bodies say they will continue to push for getting the trading posts along the Line of Control (LoC) opened. India had on April 18 suspended cross-Loc trade.

But the chances of the posts opening remain slim, with security agencies on Thursday identifying 10 suspects who smuggled in weapons, narcotics, and fake currency. All the suspects hailing from Kashmir and based in Pakistan — are part of Pakistan-based militant organisations, police said. The Kashmir Chamber of Commerce and Industries (KCCI) said "thousands of livelihoods are at stake" till the posts

Trade vital for local economy

The two trading posts across the LoC located at Chakan-da-Bagh, in Poonch, and at Salamabad near Uri, in Baramulla — are unique, with locally produced commodities allowed to be exchanged four days a week via two trade facilitation centres. Trade is based on barter system and zero tariffs.

The Salamabad centre is located on the crucial road running between Srinagar and Muzaffarabad — the headquarters of Pakistan-occupied Kashmir — and is an important part of local economy. The mechanism, started in 2008, is only among four posts across India's entire 15,000-km so that such allegations do not border, with the others being on the Myanmar border.

The government had cited repeated reports of trade being misused on a large scale. "Trade has changed its

character to mostly third-party trade and products from other regions, including foreign countries, are finding their way through this route. Unscrupulous and anti-national elements are using the route as a conduit

Repeated requests

Nasir Hameed Khan, senior vicepresident of the KCCI, said: "We have demanded more security features multiple times from both the state government and the Centre arise. This includes installation of security cameras, full-body metal scanners and stringent verification procedures for traders.

for hawala money, drugs, and

weapons, under the garb of trade,"

the home ministry said on April 18.

"We have also repeatedly flagged

TANGLED TRADE

- According to J&K govt estimates, ₹5,000 crore of trade took place between 2008 and 2018
- Traders from both sides were allowed to deal in 16 local items
- This included spices, vegetables, fresh fruits, carpets, wooden furniture, among others
- Two other posts on the Myanmar border at Moreh in Manipur and Zowkhathar in Mizoram

According to the state govern-

ment, goods worth ₹5,000 crore have been traded through the route till March 2018. Procedural delays because of red tape have also dragged the process. Larger border check posts, categorised as integrated check

such as Attari in Punjab or Petrapole in West Bengal — are managed by the Land Ports Authority of India. But the four informal check posts, including the LoC trade one. are jointly overseen by both the commerce and home ministries

A fraction of total trade

The home ministry justified shutting down the LoC trade by claiming there was a high chance of it being misused in the aftermath of the commerce department revoking Pakistan's Most Favoured Nation status after an attack in J&K's Pulwama that claimed the lives of 40 Central Reserve Police Force personnel.

India's total trade with Pakistan stood at \$1.74 billion in the April-January period of FY19, compared to \$2.41 billion in the previous year.

The move has hiked the customs duty by 200 per cent on Pakistani goods. Despite Pakistan's protests, commerce department officials said India is not even required to inform the World Trade Organization about its decision. India does not figure in the top 10 export destinations for Pakistani goods, but serves as a crucial channel for select goods such as leather hides and cheaper variants of fertilisers that are generally procured by importers at short notice.

On the other hand, any decision to stop exports to Pakistan is likely to affect the neighbouring country's cotton industry which relies on cotton bales from India. Pakistan has also come to depend upon cheaper varieties of Indian pharma products and machinery that are difficult to source from elsewhere.
