DELIVERING ON COMMITMENTS

The Infrastructure and EPC (Engineering, Procurement and Construction) industry in India has been progressing at a scorching yet steady and consistent pace over previous few decades. The aspirations levels and living standards of the people in our country have been on the rise, and the infrastructure has to reflect these rising expectation levels and disposable income standards. This presents a humungous opportunity for firms which deliver quality at reasonable costs, to excel and deliver sustainable profitable growth to create shareholder value.

Dilip Buildcon Limited (DBL) is a leading EPC and infrastructure company which has been in the industry for more than three decades in India. It has become synonymous with success, excellence, trust and most optimal output for all stakeholders put together. We have steadily risen through the ranks and as a result of consistent organic growth, DBL is among the fastest growing infrastructure companies, today in India. The meticulous planning at each and every step of our operations, right from the project bidding stage to resource mobilization and earliest possible completion, is an evidence of dedication, efficiency, and vision of our 35,000 plus workforce. We pay special attention to the projects we want to take, equipment ownership, and maintaining uncompromising standards on the well-being of our workforce.

The success of DBL is defined by Growth, Diversification, Consistency and Value Creation while creating a positive impact on the society and the nation. This reflects in;

- **GROWTH**
- **DIVERSIFICATION**
- **CONSISTENT GROWTH**
- **SUSTAINABILITY**
- **CAPITAL STRUCTURE**
- **CORPORATE GOVERNANCE**

GROWTH

which is sustainable and profitable

We have been growing much faster than the growth rate of industry we operate in. We have an average revenue growth rate of more than 50% per year over previous five years while the industry trend is single digit growth over this frame.

We take immense pride in our execution capabilities and timely completion of projects. According to a report by parliamentary panel on National Highways Authority of India (NHAI), only ~15% of the total projects had been completed on time over more than twenty years, from 1995 to June 2016. DBL has a significantly consistent track record of completing ~90% of its projects before time, hence earning early completion bonuses amounting to ₹ 4,373 million from 2012 to 2019.

DBL has maintained very fine balance between order book growth and profitability of projects we want to work on. The order book which is ₹ 2,11,718 million in FY19 was ₹ 51,609 million in FY14. Over five years, this is a growth of more than 4 times at a CAGR of more than 32.7%.

DIVERSIFICATION

which is synergistic and aligned with long term goals

DBL had started its journey from Madhya Pradesh, where it has its headquarter. Now the company is present in 17 states, covering ~85% of India's geographical spread and effectively covering almost the entire opportunity space in Infrastructure and EPC space.

Primarily from just road construction a few years ago, the Company has now successfully diversified into new and interesting business segments including Tunnels, Bridges, Mining, Urban Development, Irrigation and Metro projects. The technical experience is getting richer and vistas for in-house capabilities are continuously expanding.

We have also been able to successfully improve the exposure of government projects and hence, reducing the dependence on private projects and ensuring improved payment visibility. As on 30th September 2014, 48% of the projects were from the central government, 17% projects from the state governments and private projects were 35%. As of 31st March 2019, 85% of our projects are from the central government and 15% are of the state governments. The contribution of private projects is virtually insignificant now.

CONSISTENT GROWTH

Financials and Focus on Balance Sheet Strength

The revenue of the company has increased from ₹ 26,301 million in FY15 to ₹ 91,646 million in FY19, which implies a 36.6% CAGR over previous four years.

The Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) of the company was ₹ 5,716 million in FY15, which has increased to ₹ 16,508 million in FY19. The CAGR for EBITDA is 30.4% over previous four years.

Profit After Tax (PAT) has increased from ₹ 1,447 million in FY15 to ₹ 7,639 million in FY19, which presents a CAGR of 51.6% in previous four years. The bottom-line has grown significantly more than the growth in top-line indicating judicious selection of projects, strong cost control measures and declining financial leverage.

The ROE and ROCE in FY15 were 18.1% and 19.3% respectively, already very healthy returns on capital employed and equity invested. These numbers have improved further and for FY19, the ROE is 27.0% and the ROCE is 22.6%, which proves strong focus on asset turnover, most optimal usage of capital and consistent value creation for shareholders.

SUSTAINABILITY

Long term Visibility and Building a Legacy

In FY15, our revenue was ₹ 26,301 million and the net debt ₹ 19,528 million. For FY19, the revenue and net debt are ₹ 91,646 million and ₹ 33,876 million, respectively. The like-to-like comparison suggests that the revenue has grown 3.5 times, while the net debt has increased only 1.7 times. This clearly shows that growth in the Company is not driven by financial leverage and unsustainable capital structure.

Another key parameter to assess an EPC company is how efficiently they are utilizing their working capital. While the revenue of the Company has grown 3.5 times, the working capital days have been significantly reduced to more than 50% in the previous four years.

The debt levels are reasonable and the primary usage of debt is in purchase of equipment which is a source of strong competitive advantage. In FY19, DBL had a net debt of ₹ 33,876 million, and a significant part of it (~45%) was equipment debt.

CAPITAL STRUCTURE

Which is more efficient and focus on Asset Monetization

Even in a challenging environment, the Company has managed to grow profitably and the focus firmly remains on creating a capital structure which could withstand the vagaries of evolution in business environment and less risky. This is because of the Company's prudent bidding skills, financial discipline, execution capabilities, and work quality.

The company has already received 3/4th of the total proceeds from previously monetised 24 HAM (Hybrid Annuity Model) projects and we are actively pursuing asset monetization opportunities for more projects. We are confident that our balance sheet will strengthen further post hiving off 12 more HAM projects.

CORPORATE GOVERNANCE

Driven by Strong Internal Controls and Uncompromising Ethics

- We have one of the best-in-industry disclosure practices. We provide granular details on our operating and financial performance and we release quarterly balance sheets.

- In order to always have highest corporate governance standards, seven out of our ten directors are independent. This is also important for infusing fresh perspective and outside view into our business.

- By full-scale roll out of SAP across the Company, we ensure real-time project management. This also helps in achieving significant cost savings through inventory management, monitoring real-time purchase information for better and timely negotiations, and maintaining equipment efficiency at all times.

TABLE OF CONTENTS

Forward-looking statements

In this annual report, we have disclosed certain forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make certain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. TIMELINE

Formation of a small, Bhopal - based construction firm called Dilip Builders to execute small urban development projects

1987

Awarded our first major project as EPC contractors for Ansal Housing. The Delhi-based pan-India developer was constructing the largest private residential project in Bhopal. A first of its kind project, the premium housing complex is comprised of 180 flats and 24 duplexes

1993

Won a competitive bid to construct India's largest OIL PSU, Indian Oil Corporation Limited's Madhya Pradesh corporate office

1995

Bought our first stone crusher as part of our backward integration strategy. This was the foundation for building our strong fleet and creating a market differentiator. Soon after, we also bought our first excavator and truck

1996

Expanded operations beyond Bhopal. First stop was Rajgarh (MP), where we built a hospital for INR 56 lakhs for the Red Cross Society

1997

1999

Took on multiple office, residential and road projects in Rajgarh, MP. We built a composite building, valued at INR 4 cr, for PWD MP, completing the project on schedule

2003

As opportunities in the road sector increased in Madhya Pradesh, we entered the sector by working on 5 - 6 road projects in MP valued between INR 2 - 3 cr each

A flagship project at the time was the Narsingarh - Boda 2 - lane 45 km highway commissioned by PWD MP, valued at INR 3.16 cr

2006

With an ambition to become a leading player in the EPC sector, Dilip Buildcon was incorporated as a private limited company

2007

Dilip Buildcon acquired Dilip Builders along with all assets and liabilities on 1st April 2007. The company's typical project size also increased to INR 1,150 mn with Ratlam - Jawra. Dilip Buildcon completed the project 8 months before the scheduled time and received an INR 50 mn bonus

2009

Forayed outside our home state for the first time with road projects in Himachal Pradesh (HP). In HP, we constructed 2 road projects. The projects received an award for early completion from the World Bank

Won our largest EPC project to date; 4-laning Ahmedabad - Godhra NH - 59 bridge project in Gujarat with a project value of INR 10,189.9 mn. The project was 4X the typical value of projects the company had undertaken before that

2010

Dilip Buildcon raised our first external capital through a PE investor, BanyanTree Growth Capital. The fund invested INR 750 mn into the company. With fresh capital, revenue increased ~3X; from INR 4,840 mn in 2011 to INR 11,840 mn in 2012. The order book also crossed INR 25,000 mn

2012

Strategically, we started making the shift to become a full-service infrastructure player. The first sector we entered was Urban Development with the Mardanpur Water Supply project awarded by the Jal Vikas Nigam MP, the project was valued at INR 2,300 mn and was completed in June 2016

2013

The Central and State Governments vision for river linking and irrigation gave us the impetus to enter the Irrigation sector. The first project in the sector is the Mohanpura Major Multipurpose project. We expanded our presence in the sector with the Bahuti Canal project in MP

2014

Continuing with our strategy to become a full-service infrastructure player, Dilip Buildcon entered Mining sector with an INR 1,045 mn contract for Nigahi OCP of NCL in Singrauli, Madhya Pradesh. The strategic move was made based on India's increasing power requirement and the Government of India's stated goal of increasing output and reducing coal import

2015

2016

DBL goes public with the promise of increasing shareholder value. The IPO is 22 times oversubscribed and is greeted at Dalal Street with a celebration.

2017

DBL achieves a milestone with INR 51,091 mn in revenue in FY16-17, exhibiting a 25% growth from FY15-16. We are leveraging our expertise to make a mark in allied sectors as well and derisking our business model through diversification. On the back of our execution prowess, we have started taking on complex and iconic projects

2018

DBL achieves a top line of INR 77,614 mn in FY17-18 registering a growth of 52% from FY16-17. The company has grown to a team of 32,000+ employees and has acquired a 9,998 strong fleet

2019

Entered in Tunnels & Metro in Tunnels & Metro Segment

DBL achieves a record topline of INR 91,646 mn in FY18 -19, registering a growth of 18% from FY17-18

CHAIRMAN'S MESSAGE

DELIVERING ON PROMISES

Dear Shareholders,

It gives me immense pleasure to present you the 13th Annual Report of your Company. The financial year 2018-19 was very exciting for all of us. At your company, the year remained full of new opportunities and significant accomplishments for Dilip Buildcon Limited (DBL). We continue to march forward with confidence, hope and humility on our exciting journey of business growth and value creation for our shareholders. Every New Year brings new optimism, new hopes and renewal of unwavering commitment towards endeavor for excellence. Once again, this is the time to rededicate ourselves for creation of world class infrastructure in India and make contribution in nation's progress.

Being optimistic doesn't mean remaining oblivious to reality and the year gone by was not a smooth ride by any means. There were several macroeconomic uncertainties and challenges which plagued the global economy and a full-scale trade war between two global economic superpowers, USA and China was the major worry. The more aggressive and uncertain stance from UK on the modalities of Brexit, localized geopolitical conflict escalation in many regions and economic slowdown in several countries was other challenges. The world economy certainly looked in a worse shape in March 2019 as compared to April 2018. This was also reflected in the consistent downgrades in growth rate for global economy by global agencies, from time to time and through out the year.

There were other local and India specific headwinds including political uncertainties regarding the General Elections and assembly elections in several states including Madhya Pradesh, Rajasthan and Chhattisgarh, negative impact of volatile crude oil prices and unexpected, sharp and unpredictable movements

in currency markets. The economic slowdown was also contributed by funding pressures for NBFCs due to certain debt defaults, poor performance in mining and agricultural sector, high profile bankruptcies in sectors such as aviation and the increase in fiscal and current account deficits for India as a whole. The economy has also not fully recovered from disruptive impact of Goods and Service Tax (GST) yet.

The global economic outlook for 2019 vs. 2018, which had turned out to be a good year for growth is really worrisome. International Monetary Fund (IMF) assessed the growth rate at 3.6% for 2018 and IMF has moderated the economic growth expectation to 3.3% for 2019. Some of the other forecasts are even gloomier. For example, the World Bank expects global economic growth to moderate to 2.6% in 2019. While the estimates will have variance and that is natural, there is virtually a consensus that global economic growth will experience a considerable slowdown in 2019.

In FY19, India had recorded 6.8 % growth in its GDP. It remains to be seen how Indian economy will perform in FY20, but some of the latest data points are ominous. In the most recent statement from Reserve Bank of India (RBI) released in August 2019, India's central bank has cut the FY20 growth rate estimate from 7.0% to 6.9%. While this performance is satisfactory considering the vulnerabilities surrounding the global economy and numerous macro-economic factors proving to be a hindrance, we as a country can surely do better. In this context, there is no doubt that some of the recent developments have also negatively impacted the investor sentiment on India and this is an important area to focus on for capital hungry growing economy.

We strongly believe that challenges also offer opportunities and our country's economy will successfully withstand these pressures to emerge even stronger. We are not only optimistic about next twelve months; we are confident that there will be solid support from the fact that a stable and dynamic Government is in place. We understand and appreciate that the long-term impact of reforms such as Goods and Service Tax (GST) is positive and policy intervention has been proactive to address industry concerns. The reform measures were undertaken keeping the larger picture in mind, and the nation is gradually realizing their benefits.

The re-election of a stable and decisive Central Government will play a crucial role in providing the right macroeconomic direction to the country. From the perspective of Infrastructure sector, the continuity at the very top in the Ministry of Road Transport and Highways is extremely vital.

The dynamic leadership of concerned ministers will be important in providing further impetus to project award and construction activity.

The BJP's 2019 elections manifesto and Finance Minister's Budget speech in July 2019 talks extensively about continued focus on infrastructure, increased allocation for roads and full-scale support for removing the bottlenecks in infrastructure space. The election manifesto promises:

- a) construction of 60,000 kilometers of National Highways in the next five years,
- b) doubling the length of National Highways by 2022,
- c) conversion of all viable rail tracks to broad gauge by 2022 and efforts to ensure electrification of all railway tracks by 2022,
- d) from a total of 101 functional airports, doubling the number of functional airports in the next five years,
- e) 50 cities to be covered with a strong metro network in next five years.

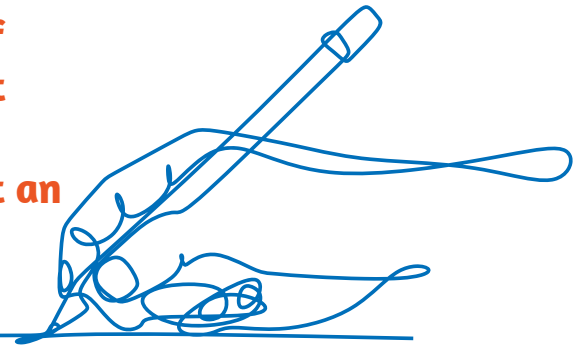

In the first Union Budget presented in July 2019 by the Central Government after its re-election, the infrastructure remains a key priority area. There is also an increased realization that an effective private participation will be required to fulfil the requirement of ₹ 100 trillion investment needed for infrastructure development over the next five years. There are announcements on augmenting 1,25,000 kilometers of rural roads under the Pradhan Mantri Gram Sadak Yojana at a cost of ₹ 800 billion and creating a national highways grid. In light of this, we strongly believe that as a country, we are very close to the beginning of a bigger push on roads and highways from the Central Government and respective state administrations.

All of this presents an unparalleled opportunity to companies in infrastructure and construction sectors. The Government's increased efforts to create and improve the infrastructure in the country is attracting the interests of both domestic and international companies and investors. In this segment, the private sector is a major contributor in the growth initiative as it is involved in a large number of projects across sectors, from roads and Highways to metro systems for urban transports, seaports and airports.

From requiring some tweaks from time to time, the Public-Private Partnership (PPP) model is already proving to be a successful in a sector which is hungry for capital. With the aim of boosting the construction and development activity, the Government has formed a single window clearance facility for allowing speedy approval of the projects in many sectors. The Foreign Direct Investment

The growth in infrastructure and construction presents an unparalleled opportunity to companies in this space and this will also be instrumental in attracting the interests of both domestic and international investors. It is important in this context that the task of 'nation building' cannot be achieved without an active participation of the private sector.

(FDI) has surged significantly in this sector. This also reflects in announcements of big-ticket investments by foreign investors on a regular basis.

This sector offers continuous opportunity for decades to come as the task of nation building is being pursued relentlessly by the policy makers, administration and entrepreneurs. The differentiating factor for companies to benefit from this large opportunity is their prudence in project bidding, adherence to highest execution standards, judicious capital allocation, tight control on costs and their ability to deliver consistent quality across sectors.

To speak about your company, DBL has been at the forefront to utilize them and deliver fast, significantly above industry average, profitable and most importantly sustainable growth the business and financial performance of DBL is testimony of our commitment to deliver best quality in the shortest possible time at the most competitive cost to our clients and our strict adherence to solid work ethics. DBL has been doing this for years in the past and will continue to do so in future.

Our journey over the last four decades has been a story of consistent hard work, adaptability to continuously evolving

business environment and never compromising standards on corporate governance. By staying true to our core values, DBL has remained one of the most coveted brands among leaders in roads and highway construction and Engineering, Procurement & Construction (EPC) business in India. Delivering on Promises to all the stakeholders is the philosophy we live by and that is what we strive for in all our efforts.

To conclude, I would like to thank the Board Members and the stakeholders for their confidence and trust in the Company. I also extend my sincere gratitude to our employees, customers, and vendors for their hard work and continuous support. With your patronage, we will keep delivering on our promises without compromising on the business ideals we hold so dear to ourselves. With deep regards and great appreciation to all our stakeholders, I am confident that we will reach even greater heights in future.

Very Sincerely,

Dilip Suryavanshi
Chairman and MD

CEO'S MESSAGE

FOCUS ON DELEVERAGING

Dear Shareholders,

Despite some occasional and expected hiccups, the Indian economy has remained one of the fastest growing in the world over previous couple of decades. To sustain these growth rates with an objective of capacity creation, the building of world-class infrastructure is the high priority area for the Government. This not only opens up increased growth avenues for sectors such as Roads and Highways, Metro Rails, Urban Infrastructure and Mining, this also helps businesses like Engineering, Procurement & Construction (EPC) and Asset creation in Public Private Partnership (PPP) mode.

All of this implies a great business opportunity for DBL. However, every year is different for business and we are proud of our operating and financial performance in FY 2018-19, the major highlights of which are as follows:

- The Company's revenue increased by 18% from ₹ 77,614 million in FY 2017-18 to ₹ 91,646 million in FY 2018-19.
- The strong revenue growth and excellent cost controls exercised by your company also resulted in a 16% growth

We put sustainable and profitable growth above everything else. The diversification and deleveraging are the two pillars of this strategy. We will grow across geographies and business segments, with minimum use of capital.

in EBIDTA from ₹ 14,183 million to ₹ 16,508 million.

- Profit after tax increased by 23% from ₹ 6,206 million in 2017-18 to ₹ 7,638 million in 2018-19. This is an excellent result in a challenging business environment.
- We recorded another year of strong order inflow. The order book has been expanding at a CAGR of 32.7% over last 5 years and now stands at INR 212 billion.
- In the financial year 2018-19, we won projects worth INR 61,257 million. The order inflow reflects a marginal decline of 3% primarily because of negative impact on order awards because of General elections and Assembly elections in several states.

We believe in growth which is not because of financial leverage and the work on balance sheet also continues at your company:

- DBL's Debt to equity ratio as at March 31, 2019 on a standalone basis stood at 1.06. We are focusing on deleveraging the balance sheet of the Company, at the same time delivering the growth which we promised during IPO in 2016.
- As evident from our finances, the revenue of your Company has grown by 3.5 times, while the net debt has increased only by 1.7 times, between FY16 and FY19.
- The equipment and working capital debt-equity ratio have decreased to 0.48 and 0.58 respectively.

- The total debt-equity ratio has fallen to 1.06 as the net debt is now ₹ 33,876 million, a considerable share of which is equipment debt.
- We are focusing on more efficient use of equity and improving Return on Equity by exploring possibilities for monetising all 12 HAM projects we had won in FY19.

In addition, I want to reiterate that FY19 was an exciting year for DBL, full of big successes and great accomplishments. I am proud to report that regardless of the macro environment and challenges for economy, the previous financial year was one of the most important years for our company for the following reasons:

- The order book has been expanding at a CAGR of more than 30% over last 5 years and this has been achieved by relentless hard work and paying close attention to project bidding and execution. This robust Order Book provides your Company with multi-year forward visibility on Revenues and Margins.
- In the financial year 2018-19, we won several marquee projects which includes the metro projects of Bhopal and Indore worth ₹ 2,206 million and ₹ 2,044 million respectively.
- Another big achievement is in the mining segment, we won Mine Developer and Operator (MDO) contracts worth ₹ 320 billion for a contract period of 55 years in this space.
- Last year, we completed projects valued at ₹ 32,509 million.

More importantly, all of these were completed before time, entitling us of early completion bonus amounting to ₹ 326 million. For example, our second dam project (Kundalia Major Multipurpose Dam) valued at ₹ 2,700 million, has been completed 141 days before time.

The operating and financial numbers DBL has achieved in FY2018-19 underline your company's competitiveness to consistently deliver in a challenging business environment. A strong revenue visibility underlines the success and strong credentials of the Company, and DBL has been successfully able to maintain this over the years. There are solid reasons for why we are able to achieve the performance we deliver and why we are able to deliver market leading returns to our shareholders, not with standing short-term fluctuations in the equity markets.

- Our vision is completely aligned with objectives of our clientele and this reflects in DBL's business, and geographical diversification. With a presence in 17 states, and solid presence in roads, buildings, bridges, canals, mining, and metro, your Company has proved its mettle as one of the fastest growing infrastructure company in the country. In last 5 years, we have laid approximately 9,300 lane kilometers of Road and Highways.
- With ~90% projects completed before deadline, and early completion bonus amounting to more than ₹ 4 billion over previous seven years, the Company has a shining track record when it comes to project delivery. We are continuously breaking new grounds and setting the bar higher for the industry standards on this important parameter.
- To maintain tight control on project timelines and costs, DBL is one of the largest employers in the industry with 35,153 employees and owns the highest number of equipment with 11,741 vehicles. Both these inputs are crucial to achieve timely completion of projects and to achieve undiluted quality control on our service delivery standards.
- We are aligned with minority shareholders in the company. In the infrastructure segment, your Company has the best-in-industry promoter holding at 75.6%.

We have two important focus areas, a) solid and consistent growth in Engineering, Procurement and Construction (EPC), b) best possible use of net block and adopting an asset light strategy. Your Company is working very hard to improve its already elevated stature in the infrastructure and construction

industry. This will help us in bidding for more lucrative projects and perform even better than previous years. While order book addition is priority, our focus is also on adding more high-quality projects which offer potentially higher margins and which require more sophisticated technical expertise. The other important initiative is Project clustering which helps in achieving higher efficiency and profitability.

Diversification on geographies and sectors is helpful as we tide over any possible seasonally weak quarter thanks to our national footprint. By diversifying our skill set and order book across various geographies and businesses, we pursue a wide range of tenders and maximize our profit margins and business potential. We entered into different segments where we saw future business potential, equipment was fungible, where we could leverage our strengths and where we felt it was possible to geographically collaborate.

The Company will continue to leverage its strengths and keep expanding to capture a larger portion of the opportunity in the infrastructure sector. Our growth has been possible due to our professionalism, perseverance, and passion to excel. It is our objective to drive innovation across different levels in our business and form a sustainable operating and financial model. We hope that the issues marking our industry, like land acquisition, bank lending, and other disputes will be aggressively tackled progressively by the government, as this is crucial for the foundation of better opportunities in the infrastructure segment. With the abundant opportunities offered by the Indian economy and the strong, positive intent of the government, we are certain that our future path will lead us to more accomplishments and continuous profitable growth.

To conclude, I would like to thank the Board Members and all the stakeholders for their continuous trust, their strong belief and never ceasing optimism in the executive management of the company. With them remaining supportive, the vision of the company will be realised and our success in the infrastructure and construction industry will be a shining example of the entrepreneurial zeal of ordinary Indians.

Very Sincerely,

Devendra Jain

BUSINESS MODEL

Project Selection and Management

Differentiated Business Model, focusing on roads and government contracts with equipment ownership, skilled manpower, minimal subcontracting and backward integration

Cost-effective procurement

Equipment tracking and management for efficiency

Robust contract Management

Project tracking to minimize delays

Equipment tracking and management for efficiency

Business Focus

- Focus on road EPC for government clients.
- Investment in equipment bank, process and control.
- Attract and retain talented employees.
- Opportunistically divest BOT assets.

De-Risk business through diversification

- Geographical Diversification
- Segment Diversification
- Adhere to geographical clustering strategy

STRATEGY

Continuing focus on driving operating efficiency

- On time delivery
- Further enhance execution efficiency through innovation
- Strengthen IT systems and other internal processes

Financial Performance

- Profitability through better project selection , timely execution and strict cost control
- Deleverage balance sheet to improve returns
- Focus on cash flow generation

Drone Monitoring

Drones and UAV are emerging technologies used to reduce project time, improve safety and control project costs. UAV is used to collect engineering data at a construction site. With a high-quality camera and inbuilt gyro stabilization, the camera gives pin sharp images and 4K videos. Drones monitor progress at site, potential safety hazards, compute volumetric calculation, and keep pilferage and leakage under check

GPS Monitoring

Global Positioning System (GPS) technology is used to track machine life, fuel usage, and consumables. The technology also provides mapping and replays vehicle location history with real time alerts and notifications. Using this technology, DBL is able to guide drivers and operators on the right path, enabling fuel savings of ~25%.

Geo Green

GeoGreen is an initiative taken by DBL for environmental sustainability and to protect the soil from either side of their roads from eroding. The road construction process displaces a lot of soil and loosens earth, impacting the quality of land in the surroundings. To prevent this from happening, DBL plants thousands of trees and grows grass on dividers, beautifying the roads in the process.

INNOVATION FOCUSED

Soil Stabilization

Soil Stabilization is done using Fly Ash Wirtgen soil stabilizer to enhance soil properties. This process is a cost effective and an environment friendly techno-innovative solution for soil erosion. Due to non-availability of usable soil, DBL is forced to bring soil from faraway locations which costs a lot. Soil stabilization helps make the available soil usable.

Manufacturing Sand

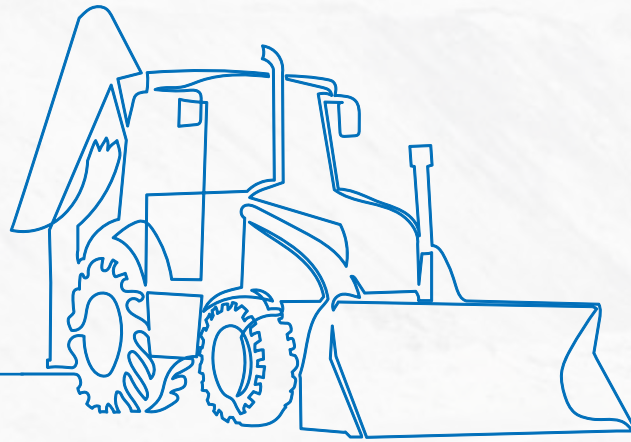

In keeping with its ethos of environmental sustainability, DBL manufactures sand for construction purposes. Not only does this method reduce dependence on government approved sand, it also relieves any adverse impact on the river banks. Concrete with manufactured sand has huge techno-commercial benefits. DBL's manufactured sand has completely replaced natural sand, saving up to INR 1,870 million per year.

Re-Using Milled Material in Road Bases

Re-Using Milled Material in Road Bases using Wirtgen's milling machine is a great value addition to DBL's innovations. The process involves deploying Wirtgen's Milling Machines to separate available aggregate portions from existing roads. DBL then blends this material (40%) and fresh aggregate (60%) to suit the specifications. This process has been approved by Road Construction Authorities.

Road Furniture

Breaking an industry trend, DBL opts to build backward integration capability to control all elements of the 'Design, Build and Operate' cycle. Aarneel Technocrafts, manufactures Geo Trel Mesh, Octagonal Pole, Metal Beam Crash Barrier, Guardrail, Road Signage, Scaffolding, RE Wall Mould, and Retroreflective Thermoplastic Paint. Ensuring a steady supply of quality road furniture, lowering cost and project completion time.

Foundry

DBL reduces wastage and increases efficiency in the entire construction cycle by reducing material usage and reusing materials where possible. To cater to the in-house requirements, DBL plans to establish manufacturing facilities for Manganese Steel Castings for Crushers and Earthmoving Equipment consisting mainly of Jaw Plates, Cones, Tooth Points and more. The Foundry will repurpose metal scrap to facilitate reuse for road-furniture.

COMMITTMENT TOWARDS SOCIETY

A Drive for Cleanliness

Environment sustenance is a collective responsibility, and at DBL we strive to contribute towards a greener, cleaner and more sustainable ecosystem. DBL ensures proper waste disposal, effluents and emissions checking, among several other steps to prevent health and environmental hazards. Swacchata Pakhwada was conducted at various project and office locations, which stressed the importance of cleanliness to participants. The participants also planted trees and further collaborated for the success of the initiative.

Road Safety

It has been a constant endeavour of DBL to spread road safety awareness by conducting events and involving maximum number of participants. The road safety awareness events were regular features at project sites and the participation remained enthusiastic as a result of tireless efforts of DBL officials. The participants were motivated by the involvement of government and political bodies. Safety measures, such as the use of barricades, right signage, and much more were taught.

Run Bhopal Run

Fitness ensures a better quality of life. Maintaining our health is necessary as people are surrounded by stress, which affects the well-being of the body. DBL organised “Run Bhopal Run”, a marathon of 5 km and 11 km, meant to promote health and fitness. Hundreds of people took part in the event, the group which was also star struck by the presence of Kareena Kapoor Khan, Saif Ali Khan, and Tiger Shroff.

Health Camp

The importance of health can never be overstated, for a better life and satisfaction levels. It is our responsibility to take care of our body to stay active and youthful. DBL organised numerous health camps, for blood donation, practicing yoga, supporting patients of paralysis, malaria and filariasis check-up, to promote health awareness. The camps achieved their goals of inspiring people to maintain proper health and develop a habit of regular check-ups.

MANAGEMENT DISCUSSION & ANALYSIS

1. ECONOMIC OVERVIEW:

1.1 Global Economy

2018 turned out to be a good year for growth in global economic activity. International Monetary Fund (IMF) assessed the growth rate at 3.6% for 2018 and it was contributed by an accelerating growth momentum in almost all the important regions. However, the outlook has turned less promising in 2019. The world is experiencing turmoil and that results into weaker potential for economic growth and taking cognizance of these headwinds, IMF has moderated the economic growth expectation to 3.3% for 2019. Some of the other forecasts are even gloomier. For example, the World Bank expects global economic growth to moderate to 2.6% in 2019.

The primary reasons for this negative change in the prevalent scenario and relatively pessimistic outlook are related to serious trade tensions between the two global economic superpowers, USA and China, the election of Boris Johnson as British Prime Minister and increased possibility of a no-deal Brexit, the severe economic stress in countries like Turkey and Argentina and significantly increased possibilities of escalation in geo political conflicts in the Middle East and in the Korean peninsula. The somber mood could also be attributed to moderating growth in China and serious problems in several other emerging markets. The global economic environment is proving to be a challenge for many developing and advanced economies and India too is unlikely to remain isolated from these changes.

As a reaction to the increasing global risks and in its attempt to take precautionary measure to safeguard US economy, the US Federal Reserve has decided to cut the interest rates by 25 bps (100 basis points or bps is One Percentage Point) in their latest monetary policy decision on 31st July 2019. Though Fed has indicated that it is not a start of an aggressive rate cut cycle, how the Fed will move over next twelve months will be dependent on how important global macroeconomic factors will evolve. For global economy, the other important supportive variables will be a peaceful and mutually respectful resolution of US-China conflict on trade issues, a BREXIT which is amicable and acceptable to both Britain and European Union and

peaceful suspension, if not resolution of hostilities in geopolitics.

1.2 Indian Economy

India remains one of the fastest-growing economies in the world and despite a recent slowdown, the Indian economy continues to become more and more relatively important for the world. The GDP growth of the country was 7.2 percent in FY 2017-18 and around 7 % in FY 2018-19. This growth rate is not satisfactory from policymakers' standpoint and certainly below potential as compared to what is achievable for a country with low base and significant demographic advantage. But for the economy of India's size and how we are placed in the global order, it is still respectable. The most important differentiator is that, a) we are strong domestic consumption based economy and less dependent on exports for our growth, b) India is not just driven by traditional manufacturing and with 4,750 technological start-ups, the nation is the third largest start-up base in the world. The country is also central to the future economic development of the Asia-Pacific region.

But, this doesn't mean that we remain oblivious to the emerging challenges. The economic growth has been stalling in several important sectors and the data points on many lead indicators of the economy have turned less encouraging. There are concerns on fall in fixed investment growth, weak external sector, and tight financial conditions.

Nonetheless, handling of economy will require deft maneuvering as the risks are significant and real. The economy remains vulnerable to domestic and geopolitical risks, especially economic and political changes that can hurt current and fiscal account deficit. As of now, inflationary pressures is not a worry but that may change depending on progress of monsoon. In addition, concerns have risen on the twin deficit problem—current account deficit and fiscal deficit. While fiscal expansion remains key to accelerating growth, it may weigh on the government treasury if the private investment loses steam.

This requires a concerted and consistent policy response and with a stable Central Government under a dynamic

and responsive leadership, it is the need of the hour. Fixed investment will increase from good policies, strong disciplined spending by the government can support the demand and a more flexible monetary policy will help in mitigating the challenges. To reduce the burden of non-performing loans, the Government of India is prioritizing reforms in the public sector banks and expediting the resolution process for stressed assets. The success of initiatives like “Make in India”, which aim at enhancing the manufacturing sector of the country will also support the economy.

2. THE INFRASTRUCTURE INDUSTRY

Industry Overview

Infrastructure sector is an important contributor to the growth and capacity creation in the Indian economy. It has always been crucial for the nation’s development and particularly in the post economic reforms era, the Government has been relentlessly pursuing this with a renewed vigor and on a priority basis. The infrastructure sector has also been one of the key areas attracting Foreign Direct Investment (FDI) in Roads, Construction and development of housing and townships, Power Sector including Renewable Energy and Logistics. The government is also investing heavily in highways, urban transport, and renewable energy.

Roads and highways

With roads covering 5.5 million km, India has one of the largest road networks in the world. These roads are responsible for transporting 64.5% of all goods and 90% of the country’s total passenger traffic. Due to rapid urbanisation, road transportation in the country over the years has increased at a consistent pace. As a result, the purchase of automobiles by individuals and businesses has also increased significantly supporting the economic growth during FY 2017-18, the construction of highways touched 9,829 km. In December 2018, Ministry of Road Transport and Highways (MoRTH) touched a record 31.87

km per day average of national highway construction. The Government of India, in FY 2018-19, was aiming to construct 10,000 km national highway. Under Prime Minister’s Gram Sadak Yojna (PMGSY), 47,447 km of roads were constructed in 2017-18.

In the Union Budget 2019-20, the Government of India has allocated ₹ 825 billion for the development of national highways. Nearly 98,204 units of construction equipment were sold, which is another record and it clearly indicated that activity levels in road sector remain at elevated level. The length of highways constructed during April 2018 - December 2018 was 6,715 km at a rate of 24.42 km per day and this was an encouraging trend

The Bharatmala Pariyojna is another key initiative of the Government to support development and construction of good quality roads. Under this program, the Ministry of Road Transport and Highways has identified stretches for development of about 9,000 km length of Economic corridors, about 6,000 km length of Inter-corridor and feeder roads, about 5,000 km length of National Corridors Efficiency improvements, about 2,000 km length of Border and International connectivity roads, about 2,000 km length of Coastal and port connectivity roads, about 800 km length of Expressways.

Indian government is also rapidly moving towards technology driven platforms for an increased transparency and for quick progress on important bottlenecks. For example, to efficiently sending out notification regarding land acquisition, the Government is using Bhoomi Portal, and this has led to a faster and more efficient process of land acquisition. The Government is also looking to increase corporate investment in the roads and shipping sector. As per the information from the Department of Industrial Policy and Promotion (DIPP), between April 2000 and December 2018, the Foreign Direct Investment (FDI) on projects related to construction development amount to USD 24.91 billion.

Following are a few developments in the Indian roads sector:

- The total length of national highways constructed in India, from April 2014 to March 2019, is 39,386 km.

- In December 2018, Ministry of Road transport and Highways touched a record 31.87 km per day average of national highway. The construction of national highway per day has increased from 11.6 km per day in FY 2013-14 to 26.9 km per day in FY 2017-18.

Irrigation

The importance of irrigation sector in India lies in the fact that despite only contributing approximately 15% in GDP, Agriculture is the source of livelihood for around 50% of India's population, directly or indirectly. India's irrigation system is one of the largest in the world, when it comes to total capacity, irrigated area, large reservoirs, and total storage capacity. The government is working on several initiatives for improving water infrastructure.

Pradhan Mantri Krishi Sinchai Yojna which envisages an investment of ₹ 500 billion to develop irrigation sources for offering a permanent solution from water problems. The Government has also initiated other policies to improve water infrastructure in India, including AMRUT (Atal Mission for Rejuvenation and Urban Transformation) and Namami Gange. Furthermore, investments have been proposed by numerous agencies for supporting water supply and sewer projects for improving the quality of urban life.

Urban Development

With increasing urbanisation, cities are expected to house nearly 40% of the country's population and will contribute to 75% of the GDP by the year 2030. As of FY 2018-19, more than 100,000 Indians live in major cities. With the objectives of better quality of life for citizens, sustainable growth, consistent development and creation of investment opportunities in urban areas, the Government of India has launched the following initiatives:

- Smart Cities Mission
- Atal Mission For Rejuvenation And Urban Transformation (AMRUT)
- Pradhan Mantri Awas Yojana- Housing For All (URBAN)
- Promoting Affordable Housing
- National Investment and Infrastructure Fund (NIIF)

The Government is also allocating significant funds for 'Mass Rapid Transit System' and 'Metro Projects' initiatives. In 27 cities, metro rail of length 791 kilometers are under construction, and a network of 657 kilometers in 18 cities is now operational in the latest budget, the government has declared that they are planning to commission around 41 kilometers of new metro lines in the year FY 2019-20.

Mining

With a production of 739.36 million tonnes in FY 2018-19, India is the third largest coal producer in the world. In iron ore production the country is amongst the top producers of iron ore globally, with total production growing to around 220 million tonnes in FY 2018-19. The Government of India, with an intent of a major reform in the sector, has allowed private sector companies in the coal mining industry to participate in the commercial mining. The detailed processes regarding the allocation of coal blocks via vide auction is under formulation. This is a step towards making the coal market dynamic and competitive.

Railways

In the Union Budget 2019-20, the Government of India allocated ₹ 1.59 trillion (USD 22.04 billion) to the Ministry of Railways. The government is encouraging private companies to take part in rail projects, which were earlier reserved for public sector only. The Central Government has approved projects, which allow private ownership of a few railway lines. The Indian Railways is planning to complete electrification in the next five years, which will help in saving energy worth ₹ 100 billion. Numerous changes are being brought about in the metro policy. In new metro projects, Public-Private Partnership (PPP) has become essential for central assistance. Projects are now being implemented on EPC basis, which is a deviation from the BOQ methods. In FY 2018-19, High Speed Rail Projects on fast-track tendering will commence, and Indian Railways is laying the groundwork for the highest outlay of ₹ 1.46 trillion.

Ports

The Indian ports manage nearly 95% of the international trade volume of the country. With a surge in trade and participation of private players, the activity is set to increase in this sector. By the end of FY 2018-19, India's major ports had a capacity of 1,477 million tonnes (MT). Major ports in India handled 699.05 MT of cargo traffic in FY 2018-19, which implies a growth of 2.7% in the FY 2018-19. The Indian ports sector is experiencing a rise in interest by both domestic and foreign private port operators and investors. Other than the construction of ports and terminals, the private sector is also focusing extensively on port logistics services.

3. COMPANY OVERVIEW

Dilip Buildcon Limited (DBL) is India's foremost infrastructure company, with strong capabilities in roads & bridges, metro, water sanitation, mining, dams, sewage treatment, irrigation projects and construction and development of residential and commercial buildings. The company is present in more than 17 states, and the current order book is ₹ 211.7 billion. DBL has not only been among the fastest growing infrastructure and construction in previous five years, it is also the largest owner of construction-related equipment with 11,741 vehicles. DBL's time management skills are unmatched with more than 90% of the projects getting completed before deadline, suitable reflected in receipt of early completion bonus of ₹ 4,373 million in the last seven years by the company.

DBL's Key competitive advantages

DBL is in the business which is very competitive and we take pride in the fact that we have been growing above industry average since inception. The bigger achievement is that this growth doesn't come at the cost of profitability and we work with margins which are conservatively calculated and continuously monitored for any unwanted variations. This is only possible because of the fact that DBL is nimble in its decision making and uncompromising standards on execution.

As a result, DBL is today synonymous with punctuality, excellence and delivering high-quality projects on time and it has been possible due to our robust business model, which integrates in-house designing, ownership of the latest equipment, exclusive team, selecting projects after wholesome analysis, capability to execute anywhere in the country, and strong relationships with customers all over the nation. Our major competitive advantages are as follows;

Backward integration for capturing the value better and control over value chain

Going against the flow and prevailing conventional

wisdom, DBL has excelled in building backward integration capability for controlling the cycle "Design, Build, and Operate". For a continuous supply of equipment, which is good in quality and also cost-effective, we very closely work with our dedicated suppliers. This strategy offers crucial input in completing projects on time.

DBL considers it a responsibility to reduce waste, keep a check on pollution, and improve efficiency. We do this by reducing the usage of materials and reusing them whenever possible. For in-house requirements, DBL is considering to install more equipment like Manganese Steel Castings for Crushers, and Earthmoving Equipment which consists of jaw plates, tooth points, cones, and much more. For reusing the road furniture, the foundry repurposes the metal scraps.

Equipment ownership for better execution and cost control

A fleet of 11,741 latest equipment empowers mobilization, availability, and prudent jurisdiction over execution. The delays and expenditures due to unfortunate breakdowns are also eliminated. All the equipment in the fleet are of the same model and company, so as to ensure the availability of spare parts, and huge savings due to maintenance. To track the whereabouts of the tools, Global Positioning System (GPS) is installed in each of them. They are operated by trained full-time workers to ensure maximum efficiency.

In-house design, engineering and construction for maintaining consistent quality

DBL has one of the largest in-house execution teams in India, with a total workforce of 35,153. Your Company has extensive experience in completing large infrastructure projects in different sectors including bridges & culverts, roads and highways, canals, dams, tunnels, coal mining and water supply projects. The entire process is monitored by our in-house design, construction, and engineering team. The team is responsible for overseeing the projects right from the blueprint to its commissioning. This helps in customising the projects as per the client's needs and

minimise the dependence of third parties.

Extensive geographical reach and no major region is unfamiliar for DBL

We are present in 17 states in India, due to which we cover almost 85% of the country in geographic expanse. In 2009, we had diversified our geographical presence for the first-time outside Madhya Pradesh by entering Himachal Pradesh. Over previous ten years, we have won and executed projects across the length and breadth of the country, from West Bengal in East to Gujarat in West and from Himachal Pradesh and Punjab in North to Tamil Nadu and Kerala in South. DBL has been able to successfully manage project bidding, execution and workforce mobilization challenges across several different regions of the country and has proved that your Company is not restricted to a particular geographical area. The creation of infrastructure and as a result, construction activity is very dynamic and regions of high growth opportunity keep evolving. Presences in multiple regions isolate DBL from getting negatively impacted in temporary slow down in any one area.

Valuable client relationships which withstood the test of time and are not replicable easily

We have established relationship with public sector clientele and on the back of our track record, excellent pre-qualification credentials. DBL has focusing more on EPC projects, from the State and Central governments and with a diversified clientele, our business has lower payment/receivable risks. We are proud to have worked on projects awarded by the State and Central governments and authorities like MoRTH, NHAI, Northern Coalfields Limited, Singareni Collieries Limited, and State Government.

DBL's working relationship with every project sponsorship authority in India is cordial. We possess the qualifications required to bid for a project up to the ticket size of ₹ 25.65 billion for BOT, ₹ 28.50 billion for HAM and ₹ 12.54 billion for EPC. Our technical and financial qualifications are a result of proper execution of previous projects and transparent financials.

Relentless focus on cost control and working capital management

Our working capital management benefits from our decision to concentrate more on higher margin projects and excellent project management skills. It is our endeavor to lessen the Net Working Capital further by reducing inventory, and improving the share of mining which has fortnightly payments.

4. RISKS, CHALLENGES AND HOW DBL WORKS ON THEIR MITIGATION

The infrastructure sector is the backbone of

India's socio-economic development. However, it is marked by new risks and concerns every year. While performing in a dynamic environment, DBL has designed a comprehensive framework for the classification, handling, and moderation of risks. Some of the risk mitigation strategies are as follows:

Competition risks

DBL is competing with several other companies for the acquisition of concessions for projects. After intense competition for two decades and in some cases irrational bids as well, the competition has become more prudent. The companies are becoming cautious and making rational bids.

Mitigation: Since the market is shaped by the competition, the Company changes its policies and processes in accordance with the trends so as to ensure a sustained business plan. We make efforts to complete the project before the stipulated time and within the budget. This helps us to earn the early completion bonus, which directly impacts our income and adds to the margins.

Timely completion of the project

While completing infrastructure projects, especially the BOT projects, on-time completion can be the most crucial for the financial viability of the project. Any stress on the completion time will affect the financial model and hence, margins and returns on the project. This year, apart from issues like land acquisition and project clearances, the cash flow was also tightened due to increased scrutiny by lenders and payment approving authorities. All these factors contributed to the delay in the delivery of a few projects.

Mitigation: The Company proactively treats these issues as top priority and assists the Authorities in the processes related to obtaining land acquisition and clearances.

Capital-intensive business risk

The infrastructure sector depends heavily on capital investment. The availability of funds is central to bidding for projects, especially under BOT-toll and hybrid annuity models.

Mitigation: Our working capital cycle is carefully optimised. We first pool our assets and resources which will be employed for completing various projects within geographical proximity. As a result of our high credit rating, we are able to get loan facilities at competitive rates of interest. The company's debt-equity ratio

has reduced considerably, which indicates smart deployment of funds and healthy internal accruals.

Input cost risk

It is essential that the right material of high-quality be available in the desired quantity to deliver the projects on time. A sudden increase in the input costs directly impacts the margin.

Mitigation: The Company does not involve in the sub-contracting and ensure an optimal use of equipment, proper construction activities, and the use of our own mines and crushers for meeting the demands of stone aggregates. Other important raw materials are purchased directly for market leaders to guarantee the right quality, price, and on-time supply. To safeguard our margins, we enter relevant cost escalation provisions in our contracts with customers.

Labour risk

Our workforce is the most important asset in our business. We pay attention to their needs and ensuring that the work environment promotes professionalism and efficiency. Great care is taken from the time of recruitment of personnel to their continuous growth as skilled professionals. This is an issue which is being dealt by the whole industry.

Mitigation: The company focuses on forming a group of motivated individuals who have the passion and zeal to work hard and excel in the industry. The employees must be goal-oriented and commit to exceed expectations of the clients. The incentives provided are at par with the industry standards. Training and team building activities are conducted periodically to reduce stress and increase efficiency. All employees are provided generous retirement benefits, social security measures, and self and family welfare schemes.

Debt Financing Risk

The Company has considerable debt and is prone to the risks of debt financing. The amount of debt and the boundaries levied on the Company, by past or present loan deals, can have severe consequences. This is also dependent on the cost of borrowing.

Mitigation: Our talented and skilled team sees to it that the risks are managed adequately by measures like adequate cash flow planning.

5. DBL's Financial and Operational Performance

Overview of Performance for DBL as Consolidated entity

Accordingly, the Board recommends the Resolution No. 7 in relation to appointment of Mr. Satish Chandra Pandey as an Independent Director, for the approval by the members of the Company.

Except Mr. Satish Chandra Pandey, being the appointee director, none of the Directors and Key Managerial Personnel of the Company and their relatives are in anyway concerned or interested financially or otherwise in the resolution as set out at Item No. 7 as **Special Resolution**.

Item No. 8

Pursuant to the provisions of Section 71 of the Act which deals with the issue of debentures read with Section 42 of the Act which deals with the offer or invitation for subscription of securities of a Company on private placement, Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Companies (Share Capital and Debentures) Rules, 2014, the Company intends to offer or invite subscriptions for secured/unsecured redeemable non-convertible debentures, in one or more series/ tranches, of an aggregate nominal value up to Rs. 1000.00 Crores only (Rupees One Thousand Crores only), on a private placement basis or otherwise.

In this regard before making an offer or invitation for subscription on a private placement basis or otherwise, the Company is required to obtain approval of its members by means of a Special Resolution. It shall be sufficient if the Company passes a Special Resolution only once in a year for all the offers or invitations for such non-convertible debentures during the year.

The Board may, at an appropriate time, consider offering or inviting subscriptions for secured/unsecured redeemable non-convertible debentures, in one or more series/tranches on private placement, issuable/redeemable at par, in order to augment long- term resources for financing inter-alia the ongoing capital expenditure and for general corporate purposes. The pricing of the NCDs will depend primarily upon the then prevailing market conditions and the regulatory scenario.

Keeping in view the above, consent of the members is sought for passing the Special Resolution as set out at Item No. 8 of the Notice. This enabling resolution authorises the Board of Directors of the Company to offer or invite subscription for redeemable non- convertible debentures, as may be required by the Company, from time to time and as set out herein, for a period of 1 (one) year from the date of passing this resolution.

None of the Directors or Key Managerial Personnel of the Company and their relatives are in any way concerned or interested financially or otherwise, as set out at **Item No. 8 as Special Resolution.**

The Board of Directors recommend passing of the Special Resolution as set out in Item No. 8 of this notice for the approval of members.

Item No. 9

Section 42 of the Companies Act, 2013, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, prescribe the provisions subject to which a company is allowed to issue Securities on Private Placement basis. Every proposed offer of Securities or invitation to subscribe to Securities on Private Placement basis requires prior approval of Members of the Company by way of Special Resolution.

In view of the aforesaid provisions and in order to augment the business of the Company, it is proposed to take the approval of the Members for borrowing, from time to time, by issuance of Commercial Papers (CPs), on Private Placement basis, upto an amount not exceeding Rs. 1000.00 Crores only (Rupees One Thousand Crores only) with or without earmarking of the Working Capital Limit. The said limit shall be within the overall borrowing limit as may be approved by the Members under Section 180(1)(c) of the Companies Act, 2013.

The pricing of the CPs will depend primarily upon the then prevailing market conditions and the regulatory scenario. The pricing for each of the issuance would be approved by the Board of Directors.

None of the Directors or Key Managerial Personnel's of the Company and their relatives, are in any way concerned or interested financially or otherwise, as set out at **Item No. 9 as Special Resolution.**

The Board of Directors recommend passing of the Special Resolution as set out in Item No. 9 of this notice for the approval of members.

Item No. 10

The Board has considered that in the ordinary course of business, the Company is required to give loans and provide guarantee and securities on behalf of the Subsidiary Companies and/or Associate Companies (whether public or private company, SPV, or other than SPV) and/or Joint Venture and/or Trust and/or Body Corporate(s), Banks, Financial Institutions, NBFC and other body corporate(s) while providing financial support/Loans as per the requirement of the lenders/government authorities and business necessity from time to time. Your Board of Directors therefore, recommend the **Special Resolution** for approval of the members as set out in Item No. 10 of this notice for the approval of members.

None of the Directors, Key Managerial Personnel of the Company or their relatives or any of other official(s) of the Company are financially interested in the aforesaid resolution, however they may be deemed to be interested financially or otherwise to the extent of their directorship or the shareholding by them in such Companies, if any.

Item No. 11

The Chairman informed that in order to facilitate the fund raising in future via further issue of equity shares of the company including through qualified institutions placement

or public issue, private placement, GDRs, ADRs, Foreign Currency Convertible Bonds, Convertible Debentures and such other securities, meeting out working capital requirements of the Company, Business and Strategy planning or Business Expansion of the Company or for carrying out the other general corporate purposes of the Company, it was felt necessary to increase the Authorised Share Capital of the Company from Rs. 1,60,00,00,000/- (Rupees One Hundred Sixty Crores only) divided into 16,00,00,000/- (Sixteen Crores) equity shares of Rs.10/- (Rupees Ten only) each (the "Equity Shares") to Rs. 1,80,00,00,000/- (Rupees One Hundred Eighty Crores only) divided into 18,00,00,000/- (Eighteen Crores) equity shares of Rs. 10/- each (Rupees Ten only) each.

Upon the recommendation of the Audit Committee, the Board of Directors of the Company at its meeting held on August 05,

2019 has approved the proposal to increase the Authorised Share Capital of the Company and consequent amendments to the Memorandum of Association of the Company.

Increase in Authorized share Capital would necessitate amendment to Clause V of Memorandum of Association of the Company and require approval of the members by passing an Ordinary Resolution.

Your Board of Directors therefore, recommend the Ordinary Resolution for approval of the members as set out in Item No. 11 as an **Ordinary Resolution**.

None of the Directors, Key Managerial Personnel of the Company or their relatives or any of other official(s) of the Company are financially interested in the aforesaid resolution, however they may be deemed to be interested financially or otherwise to the extent of their directorship or the shareholding by them.

Item No. 12

The special resolution contained in the Notice under Item No.12 relates to a resolution by the Company enabling the Board to create, issue, offer and allot Equity Shares, GDRs, ADRs, Foreign Currency Convertible Bonds, Convertible or Non-convertible Debentures and such other securities as stated in the resolution (the "Securities"), including by way of a Qualified Institutional Placement in accordance with the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the "SEBI ICDR Regulations"), in one or more tranches, at such price as may be deemed appropriate by the Board at its absolute discretion including the discretion to determine the categories of Investors to whom the issue, offer, and allotment shall be made considering the prevalent market conditions and other relevant factors and wherever necessary, in consultation with lead manager(s) and other agencies that may be appointed by the Board for the purpose of the Issue.

This special resolution enables the Board to issue Securities of the Company for an aggregate amount not exceeding Rs. 2000.00 Crores only (Rupees Two Thousand Crores Only) or its equivalent thereof.

The special resolution also seeks to empower the Board to issue Securities by way of QIP to QIBs in accordance with Chapter VI of the SEBI ICDR Regulations. The pricing of the Securities that may be issued to QIBs pursuant to SEBI ICDR Regulations shall be freely determined subject to such price not being less than the price determined in accordance with the pricing formula

provided under Chapter VI of the SEBI ICDR Regulations (the "QIP Floor Price"), Further, the Board may also offer a discount of not more than such percentage as permitted on the QIP Floor Price calculated in accordance with the pricing formula provided under SEBI ICDR Regulations. The "Relevant Date" for this purpose will be the date as determined in accordance with the SEBI ICDR Regulations.

As the Issue may result in the issue of Securities of the Company to investors who may or may not be members of the Company, consent of the members is being sought pursuant to Sections 23, 42 and 62(1) (c) and other applicable provisions, if any, of the Companies Act, 2013 and any other law for the time being in force and being applicable and in terms of the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Your Directors recommend the resolution set out at Item No. 12 to be passed as a **Special Resolution** by the members.

None of the Promoter, Director, Key Managerial Personnel of the Company and their relatives are deemed to be concerned or interested financially or otherwise in the said resolution, except to the extent of Equity Shares/ Securities that may be subscribed to by them or by companies/ firms/ institutions in which they are interested as director or member or otherwise.

Item No. 13

Considering the rich experience and expertise brought to the Board by the Non-Executive Directors and in appreciation of their contribution and services they have rendered/will be rendering to the Company, it is proposed to make payment of Commission not exceeding 0.25% per annum of the net profit of the Company to calculated in accordance with the provisions of Section 198 of the Act, to the Non-Executive Directors of the Company (i.e. directors other than the Managing Director and/or Whole time Director).

The said remuneration to Non-Executive Directors shall be in addition to the sitting fee payable to them and out-of-pocket expenses incurred for attending meetings of the Board and Committees thereof. The resolution set out in Item No. 13 of the Notice is accordingly recommended by the Board for your approval as **Special Resolution**.

Save and except all the Non-Executive Directors of the Company, none of the other Directors/Key managerial personnel of the Company / their relatives is, in any way, concerned or interested, in the Resolution set out at Item No. 13 of the Notice as Special Resolution.

Business Operations :

Overview

DBL is a large road construction company with capabilities in roads, bridges, mining excavation, dams, canals, metro rail viaducts, and industrial, commercial and residential buildings, with a presence in 17 states in India. As on March 31, 2019, DBL had completed the construction of 113 projects across 14 states in India, out of which 108 are road projects with an aggregate length of approximately 13,577.23 Lane kms. DBL's achievements are attributable to a combination of factors, including our ability to successfully execute our EPC projects earlier than scheduled, pursuant to which DBL has received DBL's focus on geographically clustering of projects for efficiency and profitability, substantial investment in, and efficient use of construction equipment bank, and backward integration through in-house production of structural parts used in projects.

DBL specializes in constructing state and national highways, city roads, culverts and bridges. As a result of the natural growth of road construction business and rising opportunities in new business areas, DBL has expanded into irrigation, urban development, mining excavation and metro rail viaduct businesses. DBL's business comprises: (i) construction business, under which DBL undertake road, irrigation, urban development, metro rail viaduct and mining excavation projects on an EPC basis; and (ii) infrastructure maintenance and operations business, under which DBL undertake maintenance and operation of BOT road projects.

As of March 31, 2019, DBL had an order book of ₹21,17,179 Lakhs, consisting of 19 road EPC projects, 17 road BOT projects, one irrigation project, five mining excavation projects, one cable-stayed bridge project, one urban development project and two metro rail viaduct projects.

As of March 31, 2019, DBL owned a modern equipment fleet of 11,741 vehicles and other construction equipment from some of the world's leading suppliers, such as Schwing Stetter India Private Limited, Metso India Private Limited, Wirtgen India Private Limited, GMMCO Limited, Volvo Group India Private Limited, Atlas Copco India Limited and Ashok Leyland Limited. DBL is one of the largest employers in construction industry in India and employed 35,153 employees as of March 31, 2019.

CONSTRUCTION BUSINESS

Roads & Bridges:

In roads and bridges construction business, DBL mainly design, construct and maintain roads, bridges and highways pursuant to EPC contracts and BOT contracts awarded. DBL's revenue from the road and bridge construction business has grown from ₹ 6,66,940 Lakhs for the Financial Year 2018 to ₹ 8,00,272 Lakhs for the Financial Year 2019. As of March 31, 2019, DBL has a total of 37 road and bridge projects in 12 Indian states. Order book for these road and bridge projects amounted to ₹ 17,11,407 Lakhs, accounting for 81% of total order book, as of March 31, 2019.

Mining Projects:

In mining excavation business, DBL undertake overburden removal and excavation at coal mines. DBL diversified into this business in the Financial Year 2016 to exploit core experience of bulk material handling and highvolume excavation and earthwork and existing equipment, which DBL handled in roads and bridges construction business. As of March 31, 2019, DBL has completed one mining excavation project and has five ongoing mining excavation projects. DBL has recognized revenue of ₹ 93,964 Lakhs and ₹ 84,114 Lakhs from the mining excavation business for the Financial Years 2019 and 2018, respectively. Order book for these mining excavation projects amounted to ₹ 3,04,817 Lakhs, accounting for 14% of total order book, as of March 31, 2019.

Metro Rail Viaduct:

DBL diversified into metro rail viaduct business in the Financial Year 2019, DBL undertake the design and construction of elevated viaducts for metro rail projects. As of March 31, 2019, DBL has two ongoing metro rail projects in Madhya Pradesh. Order book for these metro rail viaduct projects amounted to ₹ 42,502 Lakhs, accounting for 2% of total order book, as of March 31, 2019.

The Bhopal metro rail project involves the design and construction of elevated viaduct of 6.23 km between AIIMS and Subhash Nagar (excluding the stations) including entry and exit ramp in Bhopal, Madhya Pradesh, as part of Phase I of the Bhopal Metro Rail Project. The project is scheduled to be completed by March 31, 2021.

The Indore metro rail project involves design and construction of elevated viaduct of 5.29 km between ISBT/MR10 Flyover and Mumtaj Bag Colony (excluding the stations) in Indore, Madhya Pradesh as part of Phase I of the Indore Metro Rail Project. The project is scheduled to be completed by March 31, 2021.

Urban development:

In urban development business, DBL undertake the re-development and re-densification of government housing projects, build residential units under affordable housing schemes and construct parallel taxi tracks. DBL has completed two urban development projects as on March 31, 2019. DBL recognized revenue of ₹ 6,626 Lakhs and ₹ 3,146 Lakhs from the urban development business for the Financial Years 2019 and 2018, respectively. As of March 31, 2019, DBL has one ongoing urban development project. Order book for this urban development project amounted to ₹ 4,791 Lakhs, accounting for 0.2% of our total order book, as of March 31, 2019.

Irrigation:

In irrigation business, DBL undertake the design and construction of canals, tunnels and dams for agricultural irrigation purposes. DBL diversified into this business in the Financial Year 2014 to explore the opportunities in this area created by the increased focus of the Central and the State Governments on agriculture. In the Financial Year 2018, DBL completed the Mohanpura Major Multi-Purpose dam Project. DBL recognized revenue of ₹ 3,756 Lakhs and ₹ 16,096 Lakhs from the irrigation business for the Financial Years 2019 and 2018, respectively. As of March 31, 2019, DBL has completed two EPC irrigation projects and has one ongoing EPC irrigation project in Rajasthan. Order book for the irrigation projects amounted to ₹ 53,663 Lakhs, accounting for 3% of total order book, as of March 31, 2019.

ROAD INFRASTRUCTURE MAINTENANCE AND TOLL OPERATION BUSINESS

In road infrastructure maintenance and toll operation business, DBL maintain roads and highways and conduct toll operations of BOT projects. As of March 31, 2019, DBL had completed 18 projects totalling 2,675.71 Lane kms. These completed BOT projects include projects undertaken on various public private partnership models, such as on a (i) hybrid annuity basis - where the Gol shares a portion of the total cost of the project and the source of revenue is the fixed amount that the relevant government agency pays us for building and maintaining the roads on an annual basis, (ii) purely toll basis - where the only source of revenue is the toll chargeable on vehicles using the road, (iii) purely annuity basis - where the only source of revenue is the fixed amount that the relevant government agency pays us for building and maintaining the roads on an annual basis, and (iv) toll plus annuity basis - where the source of revenue includes the toll chargeable on vehicles using the road and the fixed amount that the relevant government agency pays us for building and maintaining the roads on an annual basis. Due to the annuity component in our operational BOT projects,

income is assured to the extent of the annuities to be collected during each financial year under the relevant concessions, thus reducing the risk of income fluctuations resulting from traffic pattern changes.

As of March 31, 2019, DBL has a portfolio of 36 BOT projects, of which 18 have been completed, and the remaining 18 projects are under-construction. The 18 completed BOT projects include projects undertaken on hybrid annuity basis, toll basis, annuity basis and annuity plus toll basis. The 18 under construction BOT projects are all being undertaken on a hybrid annuity basis.

DBL has divested 18 completed and 6 under construction BOT projects by way of share acquisition cum shareholders agreements entered into with Shrem Roadways Private Limited, Shrem Tollway Private Limited and Shrem Infraventure Private Limited.

Divestment of BOT Projects

Given DBL's strategy and focus on providing EPC services, DBL has taken steps to free up capital invested in the Divestment Projects for re-deployment elsewhere. DBL has entered into 24 separate tripartite share acquisition cum shareholders agreements with Shrem Roadways Private Limited and Shrem Infraventure Private Limited (individually the "Shrem Entity" and collectively, the "Shrem Entities"), as applicable, each dated March 26, 2018 pursuant to which DBL agreed to transfer its

entire equity shareholding in 18 of the completed BOT project SPVs and six of the under-construction BOT project SPVs to the relevant Shrem Entity (the "Divestment").

As of March 31, 2019, out of the 18 completed BOT projects, DBL transferred 85.0% of its equity shareholding in seven completed BOT project SPVs, 74.0% of its equity shareholding in one completed BOT project SPV, 70.0% in one completed BOT project SPV and 48.9% of its equity shareholding in another completed BOT project SPV to the relevant Shrem Entity pursuant to these agreements. The remainder of DBL's equity shareholding in these BOT project SPVs and DBL's entire shareholding in the remaining eight BOT project SPVs will be transferred upon the completion of certain conditions contained in the agreements.

In addition, DBL has agreed to transfer, in the first instance, 49.0% of its equity shareholding in five of the under-construction BOT project SPVs to the relevant Shrem Entity, and, upon these projects achieving their respective commercial operation dates, the remaining 51.0% of DBL's equity shareholding in these BOT project SPVs. Additionally, with respect to one of the under-construction BOT project SPVs, the relevant Shrem Entity holds 49.0% of the equity shareholding as of March 31, 2019 and DBL has agreed to transfer 51.0% of its equity shareholding in this BOT project SPV upon achieving its commercial operation date. These transfers are subject to the satisfaction of the conditions precedent contained in the relevant share acquisition cum shareholders agreement.

- b) the directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the Financial Year and of the profit of the company for that period;

- c) the directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- d) that the directors had prepared the annual accounts for the Financial Year ended March 31, 2019 on a going concern basis;
- e) that the directors had laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and were operating effectively; and
- f) that the directors had devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

Internal Control System and their Adequacy

Your Company has an effective internal control and risk-mitigation system, which are constantly assessed and strengthened with new/revised standard operating procedures. The Company's internal control system is commensurate with its size, scale and complexities of its operations. The internal and operational audit is entrusted to M/s Adalatwale and Bhagwat, a reputed firm of Chartered Accountants. The main thrust of internal audit is to test and review controls, appraisal of risks and business processes, besides benchmarking controls with best practices in the industry.

The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of the internal control systems and suggests improvements to strengthen the same. The Company has a robust Management Information System, which is an integral part of the control mechanism.

To maintain its objectivity and independence, the Internal Auditor periodically reports the Function of Internal Control System to the Chairman of the Audit Committee.

Risk management

Risk Management is embedded in your Company's operating framework. Pro-active Risk Management has been identified as a key strategic initiative to ensure sustainable growth. Risk Management is an integral part of the overall governance process to identify, segregate, mitigate, control and monitor various risks at business, prospect and operational levels. Some of the risks that may arise to the Company are explained here:

(a) Financial risks

The key objective of the Company's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investor, creditor, and customer confidence and to ensure future development of its business. The Company is focused on maintaining a strong equity base to ensure independence, security, as well as financial flexibility for potential future borrowings, if required, without impacting the risk profile of the Company.

Company's principal financial liabilities, comprise borrowings from banks, trade payables and security deposits. The main purpose of these financial liabilities is to finance Company's operations (short term). Company's principal financial assets include investments, security deposit, trade and other receivables, deposits with banks and cash and cash equivalents, that derive directly from its operations.

Company is exposed to market risk, credit risk and liquidity risk.

(b) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk interest rate risk, currency risk and other price risk such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings, trade and other payables, security deposit, trade and other receivables, deposits with banks etc.

The sensitivity analysis in the following sections relate to the position as at 31st March 2018 and 31st March 2017. The sensitivity of the relevant income statement item is the effect of the assumed changes in respective market risks. The sensitivity analysis have been prepared on the basis that the amount of net debt and the ratio of fixed to floating interest rates of the debt are constant at 31st March 2019.

The analysis exclude the impact of movements in market variables on the carrying values of gratuity, other post retirement obligations and provisions.

Company's activities exposed to interest rate risk.

(c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of

changes in market interest rates. The Company dynamically manages interest rate risks through a mix of fund-raising products and investment products across maturity profiles and currencies within a robust risk management framework.

(d) Credit Risk

Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Company mainly consists of the government promoted entities having a strong credit worthiness. For other customers, the Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled work-in-progress. The provision matrix takes into account available external and internal credit risk factors such as credit ratings from credit rating agencies, financial condition, ageing of accounts receivable and the Company's historical experience for customers.

(e) Liquidity Risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash flow and collateral obligations without incurring unacceptable losses. The Company constantly monitors the liquidity levels, economic and capital market conditions and maintains access to the lowest cost means of sourcing liquidity through banking lines, trade finance and capital markets.

(f) Regulatory risks

The Company is exposed to risks attached to various statutes, laws and regulations. The Company is mitigating these risks through regular review of legal compliances carried out through internal control and audits.

(g) Human resource risks

Retaining the existing talent pool and attracting new talent are major risks. The Company has initiated various measures including training and integration of learning and development activities. The Company has formulated various schemes in the interest of the employees i.e. DBL Employees Voluntary Benevolent Fund Scheme, Camp & Accommodation with various modern amenities, Free Child Education Policy for Drivers & Operators, One Lakh Gift Policy for Daughters marriage of Drivers/ Operators, Best Drivers & Machine Operator Award.

(h) Commodity Price risks

The company is exposed to the risk of price fluctuations of Raw materials required for their road projects such as Bitumen, Cement, Steel (Iron & Steel), Crushed Stone, etc. The company proactively manages these risks through forward booking, inventory management and proactive vendor development practices. The risk of price fluctuations in commodities is also mitigated to certain extent based on the price escalation clause included in the contracts with the customers.

Environment and Safety

The Company is conscious of the importance of clean environment and safe operations. The Company's policy requires conduct of operations in such manner so as to ensure safety of all concerned, compliances of environmental regulations and preservation of natural resources.

Internal Complaints Committee (ICC) and other disclosures under the Sexual Harassment of women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Company has zero tolerance for sexual harassment at workplace and has adopted a policy on prevention, prohibition and redressal of sexual harassment at workplace in line with the provisions of Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and the rules framed thereunder. Internal Complaints Committee (ICC) has been set up to redress complaints received regarding sexual harassment. All employees (permanent, contractual, temporary, trainees) are covered under this policy. During the Financial Year ended March 31, 2019, the Company has not received any Complaints pertaining to Sexual Harassment.

Cautionary Statement

Statements in this Board's Report and Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. ANNEXURE 1

DIVIDEND DISTRIBUTION POLICY

INTRODUCTION

As per Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, prescribed Listed Companies are required to frame a Dividend Distribution Policy.

PURPOSE

The purpose of this Policy is to regulate the process of dividend declaration and its pay-out by the Company which would ensure a regular dividend income for the shareholders and long term capital appreciation for all stakeholders of the Company.

AUTHORITY

This Policy has been approved and adopted by the Board of Directors of Dilip Buildcon Limited ('the Company'). The Policy shall also be displayed in the annual report and also on the website of the Company.

FORMS OF DIVIDENDS

The Companies Act provides for two forms of Dividend:

➤ Final Dividend

The final dividend is paid once for the financial year after the annual accounts are prepared. The Board of Directors of the Company has the power to recommend the payment of final dividend to the shareholders for their approval at the general meeting of the Company. The declaration of final dividend shall be included in the ordinary business items that are required to be transacted at the Annual General Meeting.

➤ Interim Dividend

This form of dividend can be declared by the Board of Directors one or more times in a financial year as may be deemed fit by it. The Board of Directors shall have the absolute power to declare interim dividend during the financial year, in line with this policy. The Board should consider declaring an interim dividend after finalization of quarterly/ half yearly financial results. This would be in order to supplement the annual dividend or to reward shareholders in exceptional circumstances.

QUANTUM OF DIVIDEND AND DISTRIBUTION

Dividend payout in a particular year shall be determined after considering the operating and financial performance of the Company and the cash requirement for financing the Company's future growth. In line with the past practice, the payout ratio is expected to grow in accordance with the profitable growth of the Company under normal circumstances.

DECLARATION OF DIVIDEND

Dividend shall be declared or paid only out of-

- 1) Current financial year's profit:
 - a) after providing for depreciation in accordance with law;
 - b) after transferring to reserves such amount as may be prescribed or as may be otherwise considered appropriate by the Board at its discretion.
- 2) The profits for any previous financial year(s) after providing for depreciation in accordance with law and remaining undistributed; or
- 3) out of 1) & 2) both

The circumstances under which shareholders may not expect dividend/or when the dividend could not be declared by the Company shall include, but are not limited to the following:

- Whenever it undertakes any acquisitions or joint ventures requiring allocation of capital;
- the Board considers it appropriate to retain profit for future expansion;
- Higher working capital requirements adversely impacting free cash flow;
- To infuse funds for the growth of the company;
- Due to operation of any other law in force;
- Due to losses incurred by the Company and the Board considers it appropriate not to declare dividend for any particular year;
- Due to any restrictions and covenants contained in any agreement as may be entered with the Lenders; and
- Any other circumstances as deemed fit by the Board.

FACTORS AFFECTING DIVIDEND DECLARATION:

The Dividend pay-out decision of any company, depends upon certain external and internal factors-

External Factors:

Legal/ Statutory Provisions and Regulatory concern: The Board should keep in mind the restrictions imposed by Companies Act, any other applicable laws with regard to declaration and distribution of dividend. Further, any restrictions on payment of dividends by virtue of any regulation as may be applicable to the Company may also impact the declaration of dividend.

State of Economy: The Board will endeavor to retain larger part of profits to build up reserves to absorb future shocks in case of

uncertain or recessionary economic conditions and in situation where the policy decisions of the Government have a bearing on or affect the business of the Company.

Nature of Industry: The nature of industry in which a company is operating, influences the dividend decision. Like the industries with stable demand throughout the year are in a position to have stable earnings and thus declare stable dividends.

Taxation Policy: The tax policy of a country also influences the dividend policy of a company. The rate of tax directly influences the amount of profits available to the company for declaring dividends.

Capital Markets: In case of unfavorable market conditions, Board may resort to a conservative dividend pay-out in order to conserve cash outflows and reduce the cost of raising funds through alternate resources.

Internal Factors:

Apart from the various external factors, the Board shall take into account various internal factors including the financial parameters while declaring dividend, which inter alia will include –

Magnitude and Stability of Earnings: The extent of stability and magnitude of company's earnings will directly influence the dividend declaration. Thus, the dividend is directly linked with the availability of the earnings (including accumulated earnings) with the company.

Liquidity Position: A company's liquidity position also determines the level of dividend. If a company does not have sufficient cash resources to make dividend payment, then it may reduce the amount of dividend pay-out.

Future Requirements: If a company foresees some profitable investment opportunities in near future including but not limited to Brand/ Business Acquisitions, Expansion / Modernization of existing businesses, Additional investments in subsidiaries/ associates of the Company, Fresh investments into external businesses, then it may decide for lower dividend payout and vice-versa.

Leverage profile and liabilities of the Company.

Any other factor as deemed fit by the Board.

RETAINED EARNINGS

The portion of profits not distributed among the shareholders but retained and used in business are termed as retained earnings. It is also referred to as ploughing back of profit. The Company should ensure to strike the right balance between the quantum of dividend paid and amount of profits retained in the business for various purposes. These earnings may be utilized for internal financing of its various projects and for fixed as well as working capital. Thus the retained earnings shall be utilized for carrying out the main objectives of the company and maintaining adequate liquidity levels.

PARAMETERS THAT SHALL BE ADOPTED WITH REGARD TO VARIOUS CLASSES OF SHARE

The Company does not have different classes of shares and follows the 'one share, one vote' principle.

REVIEW & AMENDMENT

The Policy shall be reviewed as and when required to ensure that it meets the objectives of the relevant legislation and remains effective. The Board has the right to change/amend the policy as may be expedient taking into account the law for the time being in force.

CORPORATE GOVERNANCE REPORT

Your Company Dilip Buildcon Limited (DBL) is committed to maintain the highest standards of Corporate Governance and adhere to the Corporate Governance requirements set out by the Securities and Exchange Board of India (SEBI). The Report on Corporate Governance as stipulated under the SEBI (LODR) Regulations, 2015 forms an integral part of Board's Report. The requisite certificate from the Auditors of the Company confirming compliance with the conditions of Corporate Governance is attached to this report.

Corporate Governance is a set of principles, processes and systems which govern a company. The elements of Corporate Governance are independence, transparency, accountability, responsibility, compliance, ethics, values and trust. Corporate Governance enables an organization to perform efficiently and ethically generate long term wealth and create value for all its stakeholders.

The Company believes that sound Corporate Governance is critical for enhancing and retaining investor trust and your Company always seeks to ensure that its performance goals are met accordingly. The Company has established systems and procedures to ensure that its Board of Directors is well informed and well equipped to fulfill its overall responsibilities and to provide management with the strategic direction needed to create long term shareholders value. The Company has adopted many ethical and transparent governance practices even before they were mandated by law. The Company has always worked towards building trust with shareholders, employees, customers, suppliers and other stakeholders based on the principles of good corporate governance.

STATEMENT ON COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Fundamentals of Corporate Governance includes transparency, accountability and independence. At Dilip Buildcon Limited, we feel proud to be a part of an organisation whose foundation stone was laid down for good governance which eventually became an integral principle of the business, as demonstrated in the words above. To succeed, we believe, requires highest standards of corporate behaviour towards everyone we work with, the communities we touch and the environment on which we have an impact.

Corporate Governance encompasses a set of systems and practices to ensure that the Company's affairs are being managed in a manner which ensures accountability, transparency and fairness in all transactions in the widest sense. The objective is to meet stakeholders' aspirations and societal expectations. Good governance practices stem from the dynamic culture and positive mind set of the organization. We are committed to meet the aspirations of all our stakeholders. This is demonstrated in

shareholder returns, high credit ratings, governance processes and an entrepreneurial performance focused work environment. The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the management's higher echelons. The demands of Corporate Governance require professionals to raise their competence and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics. It has thus become crucial to foster and sustain a culture that integrates all components of good governance by carefully balancing the complex inter-relationship among the Board of Directors, Audit Committee, Finance, Compliance, Auditors and the Senior Management

We believe, Corporate Governance is not just a destination but a journey to constantly improve sustainable value creation.

Considering the requirement of skill sets on the Board, eminent people having an independent standing in their respective field/profession and who can effectively contribute to the Company's business and policy decisions are considered by the Nomination and Remuneration Committee, for appointment, as Independent Director on the Board. The Committee, inter alia, considers qualification, positive attributes, area of expertise and number of Directorships and Memberships held in various committees of other companies by such persons in accordance with the Company's Policy for Selection of Directors and determining Directors' independence. The Board considers the Committee's recommendation, and takes appropriate decision. The maximum tenure of independent directors is in compliance

with the Act. The terms and conditions of appointment of the Independent Directors are disclosed on the website of the Company. All the Independent Directors have confirmed that they meet the criteria as mentioned under Regulation 16(1)(b) of the SEBI (LODR) Regulations, 2015 read with Section 149(6) of the Companies Act, 2013. Every Independent Director, at the first meeting of the Board in which he participates as a Director and thereafter at the first meeting of the Board in every financial year, or whenever there is any change in the circumstances which may affect his status as an independent director, submit a declaration that he meets the criteria of independence as provided in clause (b) of sub-regulation (1) of regulation 16 and that he is not aware of any circumstance or situation, which exist or may be reasonably anticipated, that could impair or impact his ability to discharge his duties with an objective independent judgment and without any external influence and the board of directors of the company shall take on record the declaration and confirmation submitted by the independent director under sub-regulation (8) after undertaking due assessment of the veracity of the same.

• Meetings of Independent Directors

During the financial year 2018-19, three meetings of Independent Directors was held on May 29, 2018, December 10, 2018 and March 30, 2019 to consider and take on record the performance of subsidiaries of the Companies and amendment in the Policies of the company as per SEBI (LODR) Regulations, 2015. The meetings were held without the presence of Executive Directors and management personnel of the Company. All the Independent Directors were present at the said meetings. Such meetings were conducted to enable Independent Directors to discuss matters pertaining to the Company's affairs and matters mentioned in Schedule IV to the Companies Act, 2013.

Further, for the purpose of evaluating the performance of the Board, its Committees and Directors of the Company for the Financial Year 2018-19, a separate meeting of the Independent Directors was held on August 05, 2019.

• Familiarization Programme for Independent Directors

At the time of appointment of an Independent Director, the Company issues a formal letter of appointment outlining his/her role, function, duties and responsibilities. The format of letter of appointment is available on our website. Further, in accordance with the requirements of SEBI (LODR) Regulations, 2015, the Company also organizes Familiarization Programme for the Independent Directors to enlighten them about the Company, their roles, rights, responsibilities in the Company, nature of the industry

in which the Company operates, business model of the Company etc.

INDEPENDENT AUDITOR'S REPORT

To the Members of Dilip Buildcon Limited

Report on the Audit of Standalone Ind AS Financial Statements

1. Opinion

We have audited the accompanying standalone financial statements of Dilip Buildcon Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the state of affairs of the Company as at March 31, 2019, its profits, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3 Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No.	Key Audit Matter	Auditors Response
1	<p>Revenue recognition and accounting for Construction contracts</p> <p>Significant accounting judgements including estimation of costs to complete, determining the stage of completion and the timing of revenue recognition.</p> <p>For majority of its contracts, the Company recognizes revenue and profit on the stage of completion based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion. The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract.</p> <p>At each reporting date, revenue is accrued for costs incurred against work performed in accordance with the contract for which invoice may not have been raised. Identification that such accrual will result into work that would be billable and recoverable when the work has not been acknowledged by the customer involves significant amount of judgement.</p>	<p>We performed the following audit procedures:</p> <p>Testing the design and implementation of internal controls including control over process for determining estimates used as evaluating whether they are operating effectively.</p> <p>Testing related information used in recording and disclosing revenue in accordance with the new revenue accounting standard.</p>

S. No.	Key Audit Matter	Auditors Response
	<p>Revenue on contracts may also include variable consideration (variations and claims). Variable consideration is recognized when the recovery of such consideration is highly probable. The nature of these judgements results in being subject to management override.</p>	<p>Testing different sample of contracts for identification of performance obligations.</p> <p>Reviewed the Company's process of collecting information supporting the basis for accrual of costs against work performed upto the cut off dates. Reviewed the design and operating effectiveness of management's key controls in collecting such data with respect of costs.</p> <p>Tested the cut-offs for revenue recognized against such un-invoiced amounts and reviewed the process of such recognition.</p> <p>Review for change of scope and impact of the same on estimated costs to complete the contracts</p> <p>Perform analytical procedures for reasonableness of revenues disclosed by type of contracts.</p>
2	<p>Assessment of receivables (including unbilled receivables)</p> <p>Risk of material misstatement related to estimation of expected credit loss as a result of lack of precision in their measurement. The estimates depend on number of factors such as ageing, credit risks and the ability of the parties to make payment.</p>	<p>We performed the following audit procedures:</p> <p>Assessed the company basis for determining the model, internal controls based on which the Company determines the basis of provisioning, compliance with and consistently applying the accounting policies</p> <p>Verification of subsequent receipts and post balance sheet events if any.</p>
4.	<p>Other Information (Information other the standalone financial statements and Auditor's report thereon)</p> <p>The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report, Business Responsibility Report, Corporate Governance and Shareholders Information, but does not include the standalone financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.</p> <p>Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.</p> <p>In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.</p> <p>When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to</p>	<p>those charged with governance and determine the actions under the applicable laws and regulations.</p> <p>5. Responsibility of Management and those charged with Governance for the Standalone Financial Statements</p> <p>The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.</p> <p>This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and</p>

completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i) Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls

system in place and the operating effectiveness of such controls.

- iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v) Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors report unless law or regulation precludes public disclosure about the matter or when in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Report on Other Legal and Regulatory Requirements

- i) As required by the Companies (Auditor's report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- ii) As required by section 143 (3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, Statement of Profit and Loss (including other comprehensive income), the statement of changes in equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015, as amended.
 - e) On the basis of written representations received from the directors of the Company as on March 31, 2019, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019, from being appointed as a director in terms of section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report.
- g) With respect to the other matters to be included in the Auditors Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid / provided by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements to the extent determinable/ascertainable. – Refer Note 25 to the standalone financial statements.
 - ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2019.

Annexure ‘A’ to the Auditors’ Report

Statement on the matters specified in paragraphs 3 and 4 of Companies (Auditor’s Report) Order, 2016

(Referred to in paragraph 7 (i) of our Audit Report of even date)

- i) a) The Company has maintained proper records showing full particulars, including quantitative details and situations of fixed assets, except for certain items of plant and machinery and vehicles for which location of said assets were under process of being compiled/ updated.
- b) According to information and explanations given to us, fixed assets of the Company are being physically verified according to a phased programme of verification so as to verify all assets within a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its fixed assets. As informed, during the year no material discrepancies to the extent reconciled with the records available in this respect were noticed on such verifications
- c) According to the information and explanations given to us, the title deeds of immovable properties are in the name of the Company except the following, wherein the Company is in the process of updating the documents in the name of the Company.

Particulars	Gross Value (Amt. in Lakhs)	Net Value (Amt. in Lakhs)
Land	22.61	22.61

- ii) a) As per information and explanations given to us the inventory has been physically verified by the management at intervals as defined by the management. In our opinion, the frequency of verification needs to be further improved having regard to the size of the Company and nature of its business. As informed to us, the discrepancies noticed on verification to the extent reconciled with the records available in this respect between the physical stocks and the book records were not material and have been appropriately dealt with.
- iii) According to the information and explanations provided to us, the Company has given interest free unsecured loans to twenty-four subsidiaries and interest-bearing loans to two subsidiaries covered in the Register maintained under Section 189 of the Companies Act, in accordance with the relevant provisions of the Companies act.

- a) According to the information and explanations given to us and based on our audit procedures conducted by us, we are of the opinion that terms and conditions on which the unsecured loans have been granted to the subsidiary companies listed in the register maintained under Section 189 of the Act are not, prima facie, prejudicial to the interest of the Company.
- b) According to the information and explanations given to us, interest free unsecured loans given to twenty-four subsidiaries are repayable on demand. In respect of two subsidiary companies where Company has charged interest, there is no stipulation of schedule for payment of principal, interest is repaid as per specified repayment terms. The Borrowers have been regular in payment of principal and interest, if any, as demanded.
- c) According to the information and explanations given to us, since the repayment schedule for such loans is not stipulated, no loan is overdue and outstanding for more than ninety days.
- iv) In our opinion and according to the information and explanations provided to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, with respect to unsecured loans granted, Investments made and guarantees given.
- v) According to the information and explanations given to us, the Company has not accepted any deposits during the year from public within the meaning of the directives issued by Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and rules framed thereunder and thus the provisions of Clause 3(v) of the Order are not applicable.
- vi) The Company is required to maintain cost records as prescribed by the Central Government under section 148(1) of the Companies Act, 2013. We have broadly reviewed the cost records maintained by the Company pursuant to the rules made by the Central Government for the maintenance of the cost records under section 148(1) of the Companies Act, 2013 and are of the opinion that prima facie, the prescribed records have been maintained. We have, however, not made a detailed examination of the said records.
- vii) a) According to the information and explanations given to us the Company is generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Employees’ State Insurance, Income Tax, Sales Tax, Service Tax, Custom

Duty, Excise Duty, Value Added Tax, Cess except for Provident Fund and Tax deducted at source wherein certain delays in payments were observed during the year ended 31.03.2019. There were no undisputed amounts of statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Custom Duty, Excise Duty, Value Added Tax, Cess which were due for more than six months from the date they become payable as at the year end.

b) According to the records examined by us and as per the information and explanations given to us, the particulars of statutory dues as at March 31, 2019 which have not been deposited on account of disputes and the forum where the dispute is pending is as under:

Name of the Statute	Nature of Dues	Disputed Amount	Period to which it pertains	Forum where pending
Income Tax Act, 1961	Demand u/s 154	Rs. 4,437.30/- lakhs	F.Y. 2015-16	CIT(Appeals)

- viii) According to the information and explanations given to us, the Company has not defaulted in repayment of dues of loans taken from banks and financial institutions. The Company has not borrowed any amount from Debenture holders during the year.
- ix) According to the information and explanations given to us, the Company has not raised money by way of initial public offer of equity shares during the year. The Company has used the money raised by term loans during the year for the purpose for which they were raised.
- x) According to the information and explanations given to us, no material fraud on the Company by its officers or employees, has been noticed and reported during the year, nor have we been informed of such case by the management.

- xi) According to the information and explanations given to us, and based on our examination of the records the Company has paid / provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V of the Companies Act, 2013
- xii) In our opinion and according to the information and explanation given to us, the Company is not a nidhi Company. Accordingly, provision of clause 3 (xii) of the order is not applicable.
- xiii) According to the information and explanation given to us and based on our verification of the records of the Company and on the basis of review and approvals by the Board of Directors and Audit Committee, the transactions with the related parties are in compliance with Section 177 and 188 of the Act where applicable and the details have been disclosed in the standalone financial statements as required by applicable accounting standard.
- xiv) According to the information and explanation given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year, therefore provisions of Clause 3(xiv) are not applicable.
- xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or person connected with them. Accordingly, paragraph 3 (xv) of the Order is not applicable.
- xvi) According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not required to be registered under Section 45 IA of the Reserve Bank of India At, 1934. Accordingly, provisions of Clause 3 (xvi) of the Order are not applicable to the Company.

Annexure ‘B’ to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 7 (ii) (f) of our Audit Report of even date)

1. We have audited the internal financial controls over financial reporting of Dilip Buildcon Limited (“the Company”) as of March 31, 2019 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

2. The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India” (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

3. Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

4. A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

5. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur

Annexure 'B' to the Auditors' Report

and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

6 In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all

Notes to Financial Statements for the year ended 31st March, 2019

1. Company Overview and Significant Accounting Policies

1.1 Company Overview

Dilip Buildcon Limited (the 'company') is domiciled in India with its registered office at Bhopal, Madhya Pradesh, India. The Company has been incorporated under the provisions of the Companies Act, 1956.

The Company's equity shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with effect from 11 August 2016.

The company is presently in the business of development of infrastructure facilities on Engineering Procurement and Construction basis (EPC) and undertakes contract from various Government and other parties and special purpose vehicles promoted by the Company.

1.2 Basis of Preparation of financial statements

The Company's financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2016.

The financial statements of the Company for the year ended 31st March 2019 were approved for issue in accordance with the resolution of the Board of Directors on 10th May 2019.

1.3 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

1.4 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

1.5 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Notes to Financial Statements for the year ended 31st March, 2019

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized. Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instrument

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

Notes to Financial Statements for the year ended 31st March, 2019

1.6 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

1.7 Property, plant and equipment

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

1.8 Intangible Assets

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible assets that have finite lives are amortised over their useful lives by the straight line method.

1.9 Investments in associates, joint ventures and subsidiaries

The Company has accounted for its investment in subsidiaries at cost.

The Company has elected to continue with the carrying value of its investment in subsidiaries recognised as at 1st April 2015, measured as per previous GAAP and hence the carrying value is considered to be the deemed cost of such investment.

1.10 Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on first in first out basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

1.11 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Notes to Financial Statements for the year ended 31st March, 2019

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.12 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables including receivables recognised under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

Notes to Financial Statements for the year ended 31st March, 2019

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.13 Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease

1.14 Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss

1.15 Revenue recognition

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

Notes to Financial Statements for the year ended 31st March, 2019

If the outcome of a construction contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Revenue related to construction or upgrade services provided under a service concession arrangement is recognised based on the stage of completion of the work performed. Operation or service revenue is recognised in the period in which the services are provided by the company

Interest income is recognised in the Statement of Profit and Loss using the effective interest method.

1.16 Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

1.17 Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

1.18 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period present

1.19 Cash Flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.20 Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the

Notes to Financial Statements for the year ended 31st March, 2019

employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Actuarial gains/losses are recognized in the other comprehensive income.

1.21 Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date

Notes to Financial Statements for the year ended 31st March, 2019

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

1.22 Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are held at the lower of carrying amount at designation and fair value less costs to sell.

1.23 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

Notes to Financial Statements for the year ended 31st March, 2019

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.24 Recent accounting developments

The Ministry of Corporate Affairs (MCA) vide the Companies (Indian Accounting Standards) Amendment Rules, 2019 has notified Ind AS 116 and amendments to Ind AS:

Ind AS 116, Leases:

Ind AS 116 was notified on March 30, 2019 and is applicable to the Company from financial year beginning April 1, 2019. Ind AS 116 has introduced a single lease accounting model which requires a lessee to recognize a right-of-use asset and a lease liability by assessing whether a contract is, or contains a lease at the inception of the contract. The standard specifies the manner in which an initial lease liability will be measured and the cost of the right-of-use asset will be recognized. The standard also provides certain exemptions from recognition; based on the term of lease contracts and the underlying asset values. Lessor accounting requirements are substantially in-line with Ind AS 17. Ind AS 116 permits two methods of transition: i) full retrospective method: retrospective application to each prior reporting period applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors or, ii) modified retrospective method: retrospective application with cumulative effect of initially applying Ind AS 116 recognized at the date of initial application (i.e. April 1, 2019). Certain practical expedients are available under both the methods. The standard also contains additional disclosures requirements as defined in Ind AS 116. The Company will adopt the new standard effective April 1, 2019 using the modified retrospective method and is in the process of evaluating its lease arrangements as required by Ind AS 116.

Appendix C to Ind AS 12 Uncertainty over Income Tax Treatments

On March 30, 2019, The Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition - i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

Notes to Financial Statements for the year ended 31st March, 2019

This amendment will come into force from April 1, 2019. The Company is evaluating the requirements of the amendment and the effect on the standalone financial statements.

Amendment to Ind AS 19 – Employee benefits

On March 30, 2019, The Ministry of Corporate Affairs has notified amendments to Ind AS 19 in connection with accounting for plan amendment, curtailment and settlement. The Amendment requires the Company to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment and settlement and to recognize in profit or loss as part of the past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

The amendment will come into force from April 1, 2019. The Company does not have any impact on account of this amendment.

(iv)	Interest accrued but not due on borrowings	1,360.60	1,483.51	1,360.60	1,483.51

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the Company internally reviews valuations, including independent price validation for certain instruments. Further, in other instances, Company retains independent pricing vendors to assist in corroborating the valuations of certain instruments.

The fair value of the financial assets and liabilities are included at the amount at which the instrument that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

* The company has not disclosed the fair values of trade payables, trade receivables and cash and cash equivalents because their carrying amounts are reasonable approximation of fair value.

Fair value of security deposits have been estimated using a discounted cash flow model. The valuation requires management to make certain assumptions about interest rates, maturity period, credit risk, forecasted cash flows.

Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the company based on parameters such as interest rates, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables. As of reporting date the carrying amounts of such receivables, net of allowances are not materially different from their calculated fair values.

Carrying value of loans from banks, other non current borrowings and other financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The own non- performance risk as at reporting date was assessed to be insignificant.

Fair value hierarchy

The following table provides the fair value measurement hierarchy of Company's assets and liabilities grouped into Level 1 to Level 3 as described in significant accounting policies - Note 1. Further table describes the valuation techniques used, key inputs to valuations and quantitative information about significant unobservable inputs for fair value measurements.

INDEPENDENT AUDITOR'S REPORT

To the Members of Dilip Buildcon Limited

Report on the Audit of Consolidated Ind AS Financial Statements

1. Opinion

We have audited the accompanying consolidated financial statements of Dilip Buildcon Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group"), its associates, which comprise the Consolidated Balance Sheet as at 31st March 2019, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'consolidated financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the consolidated state of affairs of the Group, its associates as at March 31, 2019, its consolidated profits, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates, in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3 Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No.	Key Audit Matter	Auditors Response
1	<p>Accounting for Construction contracts</p> <p>Significant accounting judgements including estimation of costs to complete, determining the stage of completion and the timing of revenue recognition.</p> <p>For majority of its contracts, the Company recognizes revenue and profit on the stage of completion based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion. The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract.</p>	<p>We performed the following audit procedures:</p> <p>Testing the design and implementation of internal controls including control over process for determining estimates used as evaluating whether they are operating effectively.</p>

S. No.	Key Audit Matter	Auditors Response
	<p>At each reporting date, revenue is accrued for costs incurred against work performed in accordance with the contract for which invoice may not have been raised. Identification that such accrual will result into work that would be billable and recoverable when the work has not been acknowledged by the customer involves significant amount of judgement.</p> <p>Revenue on contracts may also include variable consideration (variations and claims). Variable consideration are recognized when the recovery of such consideration is highly probable. The nature of these judgements results in being subject to management override.</p>	<p>Testing related information used in recording and disclosing revenue in accordance with the new revenue accounting standard.</p> <p>Testing different sample of contracts for identification of performance obligations</p> <p>Reviewed the Company's process of collecting information supporting the basis for accrual of costs against work performed upto the cut off dates. Reviewed the design and operating effectiveness of management's key controls in collecting such data with respect of costs.</p> <p>Tested the cut-offs for revenue recognized against such un-invoiced amounts and reviewed the process of such recognition.</p> <p>Review for change of scope and impact of the same on estimated costs to complete the contracts</p> <p>Perform analytical procedures for reasonableness of revenues disclosed by type of contracts.</p>
2	<p>Assessment of receivables (including unbilled receivables)</p> <p>Risk of material misstatement related to estimation of expected credit loss as a result of lack of precision in their measurement. The estimates depend on number of factors such as ageing, credit risks and the ability of the parties to make payment.</p>	<p>We performed the following audit procedures:</p> <p>Assessed the company basis for determining the model, internal controls based on which the Company determines the basis of provisioning, compliance with and consistently applying the accounting policies</p> <p>Verification of subsequent receipts and post balance sheet events if any.</p>
4.	<p>Other Information (Information other the consolidated financial statements and Auditor's report thereon)</p> <p>The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report, Business Responsibility Report, Corporate Governance and Shareholders Information, but does not include the consolidated financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.</p> <p>Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.</p> <p>In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available</p>	<p>and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.</p> <p>When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.</p> <p>5. Responsibility of Management and those charged with Governance for the Consolidated Financial Statements</p> <p>The Holding company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated other comprehensive income,</p>

consolidated changes in equity and consolidated cash flows of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Ind AS accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

The respective Board of Directors of the companies included in the group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the directors of the holding company as aforesaid..

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the group and of its associates are responsible for assessing the ability of the group and its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the group and of its associates are responsible for overseeing the financial reporting process of the group and of its associates.

6. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material

misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i) Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.

- v) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- vi) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors report unless law or regulation precludes public disclosure about the matter or when in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7 Other Matters

- (a) We did not audit the financial statements, in respect of twenty three subsidiaries, whose Ind AS financial statements include total assets of Rs.4,60,834.52/- lakhs, net assets of Rs.14,586.05/- lakhs as at March 31, 2019; total revenues of Rs.4,29,300.92/- lakhs for year ended and net cash inflows of Rs.20,288.98/- lakhs for year ended on that date as considered in the consolidated financial statements. The Consolidated financial statements also include the Group's share of loss Rs. (54.06/-) lakhs and total comprehensive loss Rs. (54.06/-) lakhs for the year ended 31 March 2019 as considered in the Consolidated financial statements, in respect of one associate whose financial statements have not been audited by us.

These Ind AS financial statements have been audited by other auditors whose financial statements, and auditor's reports have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures as included in respect of these subsidiaries and associates, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates is based solely on the report of other auditors.

- (b) The Financial Statements of eight subsidiaries, whose Ind AS Financial Statements reflect total assets of Rs.1,75,867.93/- Lakhs, net assets of Rs.25,936.92/- Lakhs, as at March 31, 2019, revenue of Rs. 20,415.99/- Lakhs and net cash inflows amounting to Rs.12,940.81/- Lakhs for the year ended on that date as considered in the consolidated financial statements have been audited by one of the joint auditors, M/s MSG & Associates. The Financial Statements of one associate whose Ind AS financial Statements reflect Group's share of profit Rs.428.37/- lakhs and total comprehensive profit Rs.428.37/- lakhs for the year ended 31 March 2019 as considered in the Consolidated Financial Statements have been audited by one of the joint auditors, M/s MSG & Associates., Chartered Accountants.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

8. Report on Other Legal and Regulatory Requirements

As required by section 143 (3) of the Act, we report, to the extent applicable, that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including consolidated other comprehensive income), the Consolidated statement of changes in equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015, as amended.
- e) On the basis of written representations received from the directors of the Holding Company as on March 31, 2019, taken on record by the Board of Directors of the Holding company and the report of the Statutory Auditors of its subsidiary companies and associates companies, none of the directors of the Group companies, its associate companies, is disqualified as on March 31, 2019, from being appointed as a director in terms of section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" to this report.
- g) With respect to the other matters to be included in the Auditors Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid / provided by the holding Company and its subsidiary companies, where applicable, to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, its, associates to the extent determinable/ascertainable. – Refer Note 25 to the consolidated financial statements.
 - ii. The Group and its associates does not have any long term contracts including derivative contracts for which there are any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Holding company, its subsidiary companies, its associates, during the year ended March 31, 2019.

Annexure ‘A’ to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 8 (f) of our Audit Report of even date)

1. We have audited the internal financial controls over financial reporting of Dilip Buildcon Limited (hereinafter referred to as “the Holding Company”), its subsidiaries (the Holding Company and its Subsidiaries together referred to as “the Group”), its associates as of March 31, 2019 in conjunction with our audit of the consolidated Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary companies, its associate companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India” (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

3. Our responsibility is to express an opinion on the Group’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical

requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

4. A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

- 5 Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

- 6 In our opinion, the Holding Company, its subsidiary companies, its associate companies, which are companies incorporated in India, have in all material respects, an adequate internal financial controls system over financial

reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Holding Company, its subsidiary companies, its associate companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

- 7 Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to thirty one subsidiary companies and two associate companies incorporated in India, and to whom internal control over financial reporting is applicable, is based on the corresponding reports of the Auditors of such companies.

Notes to Financial Statements for the year ended 31st March, 2019

1: Company Overview and Significant Accounting Policies

1.1 Company Overview

Dilip Buildcon Limited (the 'company') is domiciled in India with its registered office at Bhopal, Madhya Pradesh, India. The Company has been incorporated under the provisions of the Companies Act, 1956.

The Company's equity shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with effect from 11 August 2016.

The company is presently in the business of development of infrastructure facilities on Engineering Procurement and Construction basis (EPC) and undertakes contract from various Government and other parties and special purpose vehicles promoted by the Company.

1.2 Basis of Preparation of financial statements

The Company's financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2016.

The financial statements of the Company for the year ended 31st March 2019 were approved for issue in accordance with the resolution of the Board of Directors on 10th May 2019.

1.3 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

1.4 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

1.5 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Notes to Financial Statements for the year ended 31st March, 2019

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized separately. Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instrument

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

1.6 Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries. The assets, liabilities, income and expenses of subsidiaries are aggregated and consolidated, line by line, from the date control is acquired

Notes to Financial Statements for the year ended 31st March, 2019

by any Group entity to the date it ceases. Profit or loss and each component of other comprehensive income are attributed to the Group as owners and to the non-controlling interests.

The Group presents the non-controlling interests in the Balance Sheet within equity, separately from the equity of the Group as owners. The excess of the Group's investment in a subsidiary over its share in the net worth of such subsidiary on the date control is acquired is treated as goodwill while a deficit is considered as a capital reserve in the Consolidated Financial Statements. On disposal of the subsidiary, attributable amount on goodwill is included in the determination of the profit or loss and recognised in the Statement of Profit and Loss. Impairment loss, if any, to the extent the carrying amount exceeds the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or a group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's separate financial statements.

1.7 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

1.8 Property, plant and equipment

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

1.9 Intangible Assets

(a) Other Intangible Assets

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible assets that have finite lives are amortised over their useful lives by the straight line method.

Notes to Financial Statements for the year ended 31st March, 2019

(b) Service concession arrangements (Toll Rights)

The Company recognises an intangible asset arising from a service concession arrangement to the extent the company has right to charge for the use of concession infrastructure. Intangible asset would be initially measured at cost. The fair value, at the time of initial recognition of such an intangible asset received as consideration for providing construction or upgrade services in a service concession arrangement, is regarded to be its cost. Borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost. Subsequent to initial recognition the intangible asset is measured at cost less accumulated amortisation and accumulated impairment losses.

Subsequent costs

Subsequent costs are capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Amortisation is recognised in statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful life of an intangible asset in a service concession arrangement is a period from when the company has right to charge the user of infrastructure for such use to the end of the concession period.

1.10 Investments in associates, joint ventures and subsidiaries

The Company has accounted for its investment in subsidiaries at cost.

The Company has elected to continue with the carrying value of its investment in subsidiaries recognised as at 1st April 2015, measured as per previous GAAP and hence the carrying value is considered to be the deemed cost of such investment.

1.11 Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on first in first out basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

1.12 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

Notes to Financial Statements for the year ended 31st March, 2019

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.13 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables including receivables recognised under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

Notes to Financial Statements for the year ended 31st March, 2019

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.14 Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease

1.15 Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss

1.16 Revenue recognition

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

Notes to Financial Statements for the year ended 31st March, 2019

If the outcome of a construction contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Revenue related to construction or upgrade services provided under a service concession arrangement is recognised based on the stage of completion of the work performed. Operation or service revenue is recognised in the period in which the services are provided by the company

Income from toll is recognised on receipt basis.

Interest income is recognised in the Statement of Profit and Loss using the effective interest method.

Other income comprises of interest income, dividend income, foreign currency gain on financial assets and liabilities and export benefits.

1.17 Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

1.18 Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

1.19 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period present

1.20 Cash Flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Notes to Financial Statements for the year ended 31st March, 2019

1.21 Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income.

Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs. Actuarial gains/losses are recognized in the other comprehensive income.

Notes to Financial Statements for the year ended 31st March, 2019

1.22 Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

1.23 Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are held at the lower of carrying amount at designation and fair value less costs to sell.

1.24 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Notes to Financial Statements for the year ended 31st March, 2019

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.25 Recent accounting developments

The Ministry of Corporate Affairs (MCA) vide the Companies (Indian Accounting Standards) Amendment Rules, 2019 has notified Ind AS 116 and amendments to Ind ASs:

Ind AS 116, Leases:

Ind AS 116 was notified on March 30, 2019 and is applicable to the Company from financial year beginning April 1, 2019. Ind AS 116 has introduced a single lease accounting model which requires a lessee to recognize a right-of-use asset and a lease liability by assessing whether a contract is, or contains a lease at the inception of the contract. The standard specifies the manner in which an initial lease liability will be measured and the cost of the right-of-use asset will be recognized. The standard also provides certain exemptions from recognition; based on the term of lease contracts and the underlying asset values. Lessor accounting requirements are substantially in-line with Ind AS 17. Ind AS 116 permits two methods of transition: i) full retrospective method: retrospective application to each prior reporting period applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors or, ii) modified retrospective method: retrospective application with cumulative effect of initially applying Ind AS 116 recognized at the date of initial application (i.e. April 1, 2019). Certain practical expedients are available under both the methods. The standard also contains additional disclosures requirements as defined in Ind AS 116. The Company will adopt the new standard effective April 1, 2019 using the modified retrospective method and is in the process of evaluating its lease arrangements as required by Ind AS 116.

Appendix C to Ind AS 12 Uncertainty over Income Tax Treatments

On March 30, 2019, The Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the

Notes to Financial Statements for the year ended 31st March, 2019

most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition - i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

This amendment will come into force from April 1, 2019. The Company is evaluating the requirements of the amendment and the effect on the standalone financial statements.

Amendment to Ind AS 19 – Employee benefits

On March 30, 2019, The Ministry of Corporate Affairs has notified amendments to Ind AS 19 in connection with accounting for plan amendment, curtailment and settlement. The Amendment requires the Company to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment and settlement and to recognize in profit or loss as part of the past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

The amendment will come into force from April 1, 2019. The Company does not have any impact on account of this amendment.

(iv)	Interest accrued but not due on borrowings	1,360.60	1,483.51	1,360.60	1,483.51

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the Company internally reviews valuations, including independent price validation for certain instruments. Further, in other instances, Company retains independent pricing vendors to assist in corroborating the valuations of certain instruments.

The fair value of the financial assets and liabilities are included at the amount at which the instrument that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

* The company has not disclosed the fair values of trade payables, trade receivables and cash and cash equivalents, because their carrying amounts are reasonable approximation of fair value.

Fair value of security deposits have been estimated using a DCF model. The valuation requires management to make certain assumptions about interest rates, maturity period, credit risk, forecasted cash flows.

Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the company based on parameters such as interest rates, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables. As of reporting date the carrying amounts of such receivables, net of allowances are not materially different from their calculated fair values.

Carrying value of loans from banks, other non current borrowings and other financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The own non- performance risk as at reporting date was assessed to be insignificant.

Fair value hierarchy

The following table provides the fair value measurement hierarchy of Company's assets and liabilities grouped into Level 1 to Level 3 as described in significant accounting policies - Note 2. Further table describes the valuation techniques used, key inputs to valuations and quantitative information about significant unobservable inputs for fair value measurements.

- The company had signed indicative Term sheet with a party on August 24, 2017 in respect of 24 subsidiaries for divestment of its entire stake. The Share acquisition cum shareholders agreement in respect of these 24 subsidiaries was entered into in March 2018.
- During the year ended 31 March 2019, the Company has sold 15% shares (in addition to 70% shares sold in previous year) in respect of its seven associates and 4% shares (in addition to 70% shares sold in previous year) in respect of one associate. The Company has incurred a loss of Rs. 157.60 lakhs (previous year - Rs. 2,379.25/- lakhs netted off) on transfer of shares which has been reflected as Exceptional item in the statement of profit and loss. During the previous year, the company had sold 70% shares in respect of one subsidiary and 48.90% shares in respect of another subsidiary. The Balance shareholding in these ten companies will be transferred on fulfillment of the conditions as specified in the Share acquisition cum shareholders agreement. The investment in these companies is disclosed in accordance with provisions of Ind AS 105 Non-current Assets held for sale and Discontinued Operations.
- Consequent to the transfer of shares as mentioned in Note 43b, investment in seven companies (shown as associate companies in previous year) have not been considered for the purpose of consolidation as at year end and thus the consolidated results for the year ended 31 March 2019 would not be comparable with the results of consolidated results for the year ended 31 March 2018 to that extent.

Notes to Financial Statements for the year ended 31st March, 2019

Note 44: As per provisions of the Companies Act, 2013 the Company was required to spend Rs.858.00/- lakhs (P.Y. Rs. 531.71/- lakhs) on CSR activities during the preceding year. The Company had incurred expenditure relating to CSR activities amounting to Rs.107.94/- lakhs (P.Y. Rs. 233.66/- lakhs) and the same is reflected in Other Expenses in Note 23.

Note 45: As per Rule 18(7) of the Companies (Share Capital and Debentures) Rules, 2014, the company has to create a Debenture Redemption Reserve for the purpose of redemption of debentures at the rate of 25% of the value of the outstanding debentures.

The value of outstanding debenture being Rs. 60,000/- lakhs at year ending March 2018, the debenture redemption reserve of Rs.15,000/- lakhs has been created and the equivalent amount has been transferred from 'Retained Earnings' to 'Debenture Redemption Reserve.'

Note 46: Disclosure as per Ind AS 115 - Revenue from Contract with Customers

(a) Contract with Customers

- The company has recognized Rs. 9,38,775.51/- lakhs as revenue from Contracts with customers during the year.
- There are no impairment losses recognized on any receivables or contract assets arising from contracts with customers.

(b) Disaggregation of Revenue

- Disaggregation of revenue in to Operating Segments and Geographical areas for the year ended March 31, 2019:

Segment	Revenue as per Ind AS 115		
	Domestic	Foreign	Total
EPC Projects	9,09,115.49	-	9,09,115.49
Road Infrastructure Maintenance & Toll Operations	29,660.02	-	29,660.02
Total	9,38,775.51	-	9,38,775.51
Revenue recognized Overtime			9,29,243.40
Revenue recognized at a Point in time			9,532.11
Total			9,38,775.51

(c) Contract Balances and Trade Receivables

(i) Contract Balances

- Revenue recognised during the year from opening balance of contract liabilities amounts to Rs. 59,721.65/- lakhs. Revenue recognised during the year from the change of scope, utility shifting, escalation and Operation and Maintenance amounts to Rs. 81,750.56/- lakhs.
- Changes in Contract Assets and Contract Liabilities are on account of transaction undertaken in the normal course of business. On account of adoption of Ind AS 115, unbilled revenue of Rs. 44,674.00/- Lakhs as at March 31, 2019 has been classified as part of other current asset.

(ii) Trade Receivables

- The company classifies the right to consideration in exchange for deliverables as either a receivables or as Unbilled Revenue.
 - A receivable is a right to consideration that is unconditional upon passage of time.
 - Revenue for construction contracts is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable and Revenue from Toll is recognized on receipt basis.
 - Revenue in excess of billings is recognized as Unbilled revenue and is classified as Financial Asset for these cases as right to consideration is unconditional upon passage of time.
 - Trade receivables and Unbilled revenue are presented net of impairment (if any) in the Balance Sheet.
 - During the year ended 31st March 2019, Rs. 23,272.61/- Lakhs of opening unbilled revenue has been reclassified to Trade Receivables upon billing to customers on completion of milestone.
- #### **(d) Performance obligations**
- The company has applied the practical expedient as provided in Ind AS 115 and excluded the disclosure relating to remaining performance obligation for:

Notes to Financial Statements for the year ended 31st March, 2019

- i. contracts where the original expected duration is one year or less
- ii. Contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date. Typically this involves those contracts where invoicing is on time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors such as terminations, changes in the scope of contracts, periodic revalidation of estimates and other macro economic factors.

The aggregate amount of transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at March 31, 2019, after considering the practical expedient mentioned above is Rs.21,17,179.19/- lakhs out of which 50% is expected to be recognized as revenue within the next one year and the balance thereafter.
