Dear Sirs,

Sub.: Outcome of Board Meeting held on 06th January, 2022

Reg. Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements)Regulations, 2015

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that the Board of Directors of the Company, at its meeting held on January 06, 2022 has taken on record the audited Special Purpose Interim Standalone Financial Statements for the six months period ended 30th September, 2021(**"Special Purpose Interim Standalone Financial Statements")** of the Company.

These Special Purpose Interim Standalone Financial Statements attached herewith, have been prepared and adopted solely for the purpose of the proposed further public offering.

The meeting was concluded at 7:30 P.M on 06.01.2022.

It is for your information and records please.

Thanking you,
Yours faithfully,
For **Ruchi Soya Industries Limited**

Company Secretary
Enclosed: As above

INDEPENDENT AUDITOR'S REPORT ON SPECIAL PURPOSE INTERIM STANDALONE FINANCIAL STATEMENTS

To,
The Board of Directors
Ruchi Soya Industries Limited

Opinion

We have audited the accompanying Special Purpose Interim Standalone Financial Statements of **RUCHI SOYA INDUSTRIES LIMITED** ("the Company"), which comprise the Balance Sheet as at September 30th, 2021, and the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the six months period then ended, and notes to the Special Purpose Interim Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information thereon (collectively hereinafter referred to as "the Special Purpose Interim Standalone Financial Statements"). The Special Purpose Interim Standalone Financial Statements have been prepared by the Management of the Company in connection with proposed further public offering (FPO) of equity shares of the Company to meet the requirements of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the "SEBI ICDR Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Interim Standalone Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at September 30th, 2021 and its profit including other comprehensive income, the statement of changes in equity and its cash flows for the six months period ended on that date.

Basis for Opinion

We conducted our audit of the Special Purpose Interim Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Special Purpose Interim Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Special Purpose Interim Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Special Purpose Interim Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the recognition and measurements principles laid down in Indian Accounting Standard (Ind AS) 34, 'Interim Financial Reporting' prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special Purpose Interim Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Interim Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility

Our objectives are to obtain reasonable assurance about whether the Special Purpose Interim Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Interim Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Interim Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Special Purpose Interim Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Interim Standalone Financial Statements, including the disclosures, and whether the Special Purpose Interim Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Basis of Accounting and Restriction on use

Without modifying our opinion, we draw attention to Note 2 (A) (a) to the Special Purpose Interim Standalone Financial Statements, which describe the purpose and basis of preparation. The Special Purpose Interim Standalone Financial Statements has been prepared by the Company's Management solely for the purpose as mentioned in opinion paragraph above and accordingly, the Special Purpose Interim Standalone Financial Statements may not be suitable for another purpose. It should not be distributed to or used by parties other than the Company and, we do not accept or assume any liability or duty of care to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Note 1-2

1 CORPORATE INFORMATION

Ruchi Soya Industries Limited ('the Company') is a Public Limited Company engaged primarily in the business of processing of oil-seeds and refining of crude oil for edible use. The Company also produces oil meal, food products from soya, nutraceutical products, biscuits and value added products from downstream and upstream processing. The Company is also engaged in trading in various products and generation of power from wind energy. The Company has manufacturing plants across India and is listed on the BSE Limited and National Stock Exchange of India Limited (NSE). The Company's registered office is at Ruchi House, Royal Palms, Survey No. 169, Aarey Milk Colony, Near Mayur Nagar, Goregaon (E), Mumbai – 400065, Maharashtra.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

(A) BASIS OF PREPARATION

a Statement of Compliance

The special purpose interim financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") - 34 "Interim Financial Reporting" as notified under section 133 of the Companies Act, 2013 ("the Act"), read together with Companies (Indian Accounting Standards) Rules, 2015. The special purpose interim standalone financial statements of the Company for the half year ended September 30, 2021 has been prepared in connection with the proposed further public offering of equity shares of the Company ("FPO") to meet the requirements of the Securities and Exchanges Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended, (the SEBI ICDR Regulations") from time to time, The corresponding figures for the year ended March 31, 2021, have been given; hence the same are not comparable.

The special purpose interim financial statements was approved by the Board of Directors of the Company in their meeting held on January 6, 2022.

b Functional and presentation currency

These financial statements are presented in Indian Rupees (₹), which is the Company's functional currency. All amounts have been rounded to the nearest lakh, unless otherwise indicated.

c Basis of Measurement

These financial statements have been prepared on a historical cost convention basis, except for the following:

(i) Certain financial assets and liabilities that are measured at fair value.

(ii) Assets held for sale- Measured at the lower of (a) carrying amount and (b) fair value less cost to sell.

(iii) Net defined benefit plans- Plan assets measured at fair value less present value of defined benefit obligation.

Determining the Fair Value

While measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

***Level 1*:** Quoted prices (unadjusted) in active markets for identical assets or liabilities.

***Level 2*:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

***Level 3*:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

d Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the period/year presented.

These judgments and estimates are based on management's best knowledge of the relevant facts and circumstances, having regard to previous experience, but actual results may differ materially from the amounts included in the financial statements.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.
The information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are as given below:-

1 Impairment test of non financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

2 Allowance for bad debts / expected credit loss

The Management makes estimates related to the recoverability of receivables, whose book values are adjusted through an allowance for Expected losses/ Provision for Doubtful debts. Management specifically analyses accounts receivable, customers' creditworthiness, current economic trends and changes in customer's collection terms when assessing the adequate allowance for Expected losses/ Provision for Doubtful debts, which are estimated over the lifetime of the debts.

3 Recognition and measurement of Provisions and Contingencies

Provisions and liabilities are recognized in the year when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

Contingencies

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain, the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements. When considering the classification of legal or tax cases as probable, possible or remote, there is judgement involved. Although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position.

4 Recognition of Deferred Tax Assets

The Company has recognised deferred tax assets mainly on carried forward tax losses and unabsorbed depreciation incurred by the Company in earlier years. Based on future business projections, the Company is reasonably certain that it would be able to generate adequate taxable income to ensure utilization of carried forward tax losses and unabsorbed depreciation.

5 Measurements of Defined benefit obligations plan

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

6 Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting year.

7 Income Taxes

There are transactions and calculations for which the ultimate tax determination is uncertain and would get finalized on completion of assessment by tax authorities. Where the final tax outcome is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax in the year in which such determination is made.

8 Depreciation / Amortisation and useful lives of Property Plant and Equipment (PPE) / Intangible Assets

PPE / intangible assets are depreciated / amortised over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation /amortisation for future periods are revised if there are significant changes from previous estimates.

9 Global health pandemic on Covid-19

The outbreak of corona virus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. In assessing the recoverability of Company's assets such as financial asset and non-financial assets, the Company has considered internal and external information. The Company has evaluated impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no significant impact on its financial statements and the Company expects to recover the carrying amount of all the assets.

e Current and non-current classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

(a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
(b) Held primarily for the purpose of trading,
(c) Expected to be realised within twelve months after the reporting year, or
(d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting year.

All other assets are classified as non-current.

A liability is classified as current when it is:

(a) Expected to be settled in normal operating cycle,
(b) Held primarily for the purpose of trading,
(c) Due to be settled within twelve months after the reporting year, or
(d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting year.

The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its normal operating cycle.

(B) SIGNIFICANT ACCOUNTING POLICIES

a PROPERTY, PLANT AND EQUIPMENT:

(i) Recognition and measurement

Property, Plant and equipment are measured at cost (which includes capitalised borrowing costs) less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises:

a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.

b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment and depreciated accordingly.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in Statement of profit and loss.

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

Leasehold lands are amortised over the period of lease. Buildings constructed on leasehold land are depreciated based on the useful life specified in schedule II to the Companies Act, 2013, where the lease period of land is beyond the life of the building. In other cases, buildings constructed on leasehold lands are amortised over the primary lease period of the lands.

(ii) On transition to Ind AS as on April 1, 2015 the Company has elected to measure certain items of Property, Plant and Equipment [Freehold Land, Building and Plant and Equipment's] at Fair Value and for other Property, Plant and Equipment these are measure at cost as per Ind AS. The same are considered as deemed cost on the date of transition to Ind AS.

(iii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iv) Depreciation, Estimated useful life and Estimated residual value

Depreciation is calculated using the Straight Line Method, pro rata to the period of use, taking into account useful lives and residual value of the assets. The useful life of assets & the estimated residual value, which are different from those prescribed under Schedule II to the Companies Act, 2013, are based on technical advice as under:

Assets	Estimated useful life's	Estimated Residual Value
Plant & Equipment's	5 to 40 years	3 to 25 Percent
Windmills	30 years	19 Percent

Depreciation is computed with reference to cost. Depreciation on additions during the year is provided on pro rata basis with reference to month of addition/installation. Depreciation on assets disposed/discarded is charged up to the date of sale excluding the month in which such assets is sold.

The assets residual value and useful life are reviewed and adjusted, if appropriate, at the end of each reporting year. Gains and losses on disposal are determined by comparing proceeds with carrying amounts. These are included in the statement of Profit and Loss.

b INTANGIBLE ASSETS

Identifiable intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

(i) Recognition and measurement

Computer software's have finite useful lives and are measured at cost less accumulated amortisation and any accumulated impairment losses.

Acquired brands / Trademarks have indefinite useful life and as on transition date April 1, 2015 have been Fair valued based on reports of expert valuer, which is considered as deemed cost on transition to Ind AS. The same are tested for impairment, if any , at the end of each accounting year.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, when incurred is recognised in statement of profit and loss.

(iii) Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognised in statement of profit and loss. Computer software are amortised over their estimated useful life or 5 years, whichever is lower. The contract manufacturing rights are amortized over the five years.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted, if required.

c IMPAIRMENT OF ASSETS

An asset is considered as impaired when at the date of Balance Sheet, there are indications of impairment and the carrying amount of the asset, or where applicable, the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the net asset selling price and value in use).The carrying amount is reduced to the recoverable amount and the reduction is recognized as an impairment loss in the statement of profit and loss. The impairment loss recognized in the prior accounting period is reversed if there has been a change in the estimate of recoverable amount. Post impairment, depreciation is provided on the revised carrying value of the impaired asset over its remaining useful life.

d FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one Company and a financial liability or equity instrument of another Company. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options.

(i) Financial assets
Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets, which are not at fair value through profit and loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost.

Subsequent Measurement

Financial Assets measured at Amortised Cost (AC)

A Financial Asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that represent solely payments of principal and interest on the principal amount outstanding.

Financial Assets measured at Fair Value Through Other Comprehensive Income (FVTOCI)

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that represents solely payments of principal and interest on the principal amount outstanding.

Financial Assets measured at Fair Value Through Profit and Loss (FVTPL)

A Financial Asset which is not classified in any of the above categories are measured at FVTPL. Financial assets are reclassified subsequent to their recognition, if the Company changes its business model for managing those financial assets. Changes in business model are made and applied prospectively from the reclassification date which is the first day of immediately next reporting period following the changes in business model in accordance with principles laid down under Ind AS 109 – Financial Instruments.

In case of investments

In Equity instruments

- For subsidiaries , associates and Joint ventures - Investments are measured at cost and tested for impairment periodically. Impairment (if any) is charged to the Statement of Profit and Loss.

- For Other than subsidiaries , associates and Joint venture - Investments are measured at Fair value through Other Comprehensive Income [FVTOCI].

In Mutual fund

Measured at Fair value through Profit and Loss (FVTPL).

Debt instruments

The Company measures the debt instruments at Amortised Cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payment of principal and interest [SPPI] are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of the hedging relationship, is recognised in statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the Effective interest rate method.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure:

a) Financial assets that are debt instruments and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.

b) Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

- For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. Expected Credit Loss Model is used to provide for impairment loss.

(ii) Financial liabilities

Classification

The Company classifies its financial liabilities in the following measurement categories:
- those to be measured subsequently at fair value through profit and loss-[FVTPL]; and
- those measured at amortised cost. [AC]

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit and loss or at amortised cost.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts are approximate at their fair value due to the short maturity of these instruments.

Financial liabilities at fair value through profit and loss [FVTPL]

Financial liabilities at fair value through profit and loss [FVTPL] include financial liabilities designated upon initial recognition as at fair value through profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit and loss are designated at the initial date of recognition, only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to statement of profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Loans and borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in statement of profit and loss over the period of borrowings using the effective interest method. Processing/Upfront fee are treated as prepaid asset netted of from borrowings. The same is amortised over the period of the facility to which it relates.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to interest-bearing loans and borrowings.

Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of the financial liability that has been extinguished or transferred to another party and the consideration paid including any non cash assets transferred or liability assumed, is recognised in Statement of profit and loss as other gains or (losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer the settlement of liabilities for at least twelve months after the reporting year.

Where there is a breach of a material provision of a long term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the same is classified as current unless the lender agreed, after the reporting year and before the approval of financial statements for issue, not to demand payment as a consequence of the breach.

Trade and other payable

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid at the year end. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting year. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts, futures, interest rate swaps, forward commodity contracts and other derivative financial instruments to hedge its foreign currency risks, interest rate risks and commodity price risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of commodity contracts are recognized in the statement of profit and loss under operating income / other expenses.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to statement of profit and loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

• Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment;

• Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

Hedges that meet the criteria for hedge accounting are accounted for as follows:

i) Fair value hedges

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in statement of profit and loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in statement of profit and loss. Hedge accounting is discontinued when the Company revokes the hedge relationship, the hedging instrument or hedged item expires or is sold, terminated, or exercised or no longer meets the criteria for hedge accounting.

ii) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss. Amounts recognised in OCI are transferred to statement of profit and loss when the hedged transaction affects profit or loss. If the hedging relationship no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold or terminated or exercised, the cumulative gain or loss on the hedging instrument recognised in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the underlying transaction occurs. The cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined and the amount recognised less cumulative amortisation.

e INVENTORIES

Inventories are measured at the lower of cost and net realisable value after providing for obsolescence, if any, except for Stock-in-Trade [which are measured at Fair value] and Realisable by-products [which are measured at net realisable value]. The cost of inventories is determined using the weighted average method and includes expenditure incurred in acquiring inventories, production or conversion and other costs incurred in bringing them to their respective present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. The comparison of cost and Net Realisable value is made on an item by item basis.

Net realisable value is estimated selling price in the ordinary course of business, less estimated cost of completion and the estimated costs necessary to make the sale. The net realisable value of work in progress is determined with reference to selling prices of finished products.

f CASH AND CASH EQUIVALENT

For the purpose of presentation in the statement of the cash flows, cash and cash equivalent includes the cash on hand, deposits held at call with financial institutions other short term, highly liquid investments with original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

g CONTRIBUTED EQUITY

Equity shares are classified as equity. Incidental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

h DIVIDENDS

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividends are approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable and corresponding tax on dividend distribution is recognised directly in other equity.

i EARNINGS PER SHARE

(i) Basic earnings per share

Basic earnings per shares is calculated by dividing Profit/(Loss) attributable to equity holders (adjusted for amounts directly charged to Reserves) before/after Exceptional Items (net of tax) by Weighted average number of Equity shares, (excluding treasury shares).

(ii) Diluted earnings per share

Diluted earnings per shares is calculated by dividing Profit/(Loss) attributable to equity holders (adjusted for amounts directly charged to Reserves) before/after Exceptional Items (net of tax) by Weighted average number of Equity shares (excluding treasury shares) considered for basic earning per shares including dilutive potential Equity shares.

j FOREIGN CURRENCY

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the functional currencies of the Company at the exchange rate prevailing at the date of the transactions. Monetary assets (other then investments in companies registered outside India) and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date.

Investments in companies registered outside India are converted at rate prevailing at the date of acquisition. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

Difference on account of changes in foreign currency are generally charged to the statement of profit & loss except the following:

The Company has availed the exemption available under Para D13AA of Ind AS - 101 of "First time adoption of Indian Accounting Standards". Accordingly, exchange gains and losses on foreign currency borrowings taken prior to April 1, 2016 which are related to the acquisition or construction of qualifying assets are adjusted in the carrying cost of such asset.

k REVENUE RECOGNITION

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services. The Company also derives revenue from power generation through wind energy.

(i) Sale of Goods/ Services

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transfer upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue from rendering of services is recognised over the time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and receivable is recognized when it becomes unconditional.

The Company does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and claims, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract balances

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Company performs under the contract.

(ii) Other Operating Revenue

Income from sale of wind power is recognised on the basis of units wheeled during the period. Incomes from carbon credits are recognised on credit of Carbon Emission Reduction (CER) by the approving authority in the manner in which it is unconditionally available to the generating Company. Gain/loss on contracts settlements of raw materials purchases with suppliers are accounted in the statement of profit and loss.

(iii) Other Income

Other income is comprised primarily of interest income, dividend income, gain/loss on investments and gain/loss on foreign exchange and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Claims for export incentives/ duty drawbacks, duty refunds and insurance are accounted when the right to receive payment is established. Incentives on exports and other Government incentives related to operations are recognised in the statement of profit and loss after due consideration of certainty of utilization/receipt of such incentives. Revenue from insurance claims are accounted for in the year when recovery can be ascertained with reasonable certainty or are accounted for on actual receipts basis in case of uncertainty. Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in other income.

l GOVERNMENT GRANTS

(i) Grants from the Government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all the attached conditions.

(ii) Government grant relating to purchase of Property, Plant and Equipment are included in "Other current/ non-current liabilities" as Government Grant - Deferred Income and are credited to statement of profit and loss on a straight line basis over the expected life of the related asset and presented within "Other operating Income".

m EMPLOYEE BENEFITS

(i) During Employment benefits

(a) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Post Employment benefits

(a) Defined contribution plans

A defined contribution plan is a post employment benefit plan under which a Company pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards government administered Provident Fund scheme.

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(b) Defined benefit plans

The Company pays gratuity to the employees who have has completed five years of service with the company at the time when employee leaves the Company.

The gratuity liability amount is contributed to the approved gratuity fund formed exclusively for gratuity payment to the employees.

The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the periods during which the benefit is expected to be derived from employees' services.

Re-measurement of defined benefit plans in respect of post employment are charged to Other Comprehensive Income.

(c) Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date or when an employee accepts voluntary redundancy in exchange for these benefits. In case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than twelve months after the end of reporting year are discounted to the present value.

n INCOME TAXES

Income tax expense comprises current and deferred tax. Tax is recognised in statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or in equity. In which case, the tax is also recognised in the other comprehensive income or in equity.

(i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or subsequently enacted at the Balance sheet date.

Current tax assets and liabilities are offset only if, the Company:
a) has a legally enforceable right to set off the recognised amounts; and
b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current tax provision is computed for income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

(ii) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the year in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have enacted or substantively enacted by the end of the reporting year. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting year. Deferred tax is recognised to the extent that it is probable that future taxable profit will be available against which they can be used.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:
a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable Company.

o BORROWING COSTS

General and specific Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the year in which they are incurred.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalisation. All other borrowing costs are charged to the statement of profit and loss for the year for which they are incurred.

p LEASES

The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the lease term.

q NON- CURRENT ASSETS HELD FOR SALE:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when a sale is highly probable from the date of classification, management are committed to the sale and the asset is available for immediate sale in its present condition. Non-current assets are classified as held for sale from the date these conditions are met and are measured at the lower of carrying amount and fair value less cost to sell. Any resulting impairment loss is recognised in the Statements of Profit and Loss as a separate line item. On classification as held for sale, the assets are no longer depreciated. Assets and liabilities classified as held for sale are presented separately as current items in the Balance Sheet.

r PROVISIONS AND CONTINGENT LIABILITIES

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements.

Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

s SEGMENT REPORTING

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

t BIOLOGICAL ASSETS

Biological Assets are measured at fair value less costs to sell, with any changes therein recognised in the Statement of Profit & Loss.

u FAIR VALUE MEASUREMENT:

The Company measures financial instruments at fair value at each balance sheet date.
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:
a) In the principal market for the asset or liability, or
b) In the absence of a principal market, in the most advantageous market for the asset or liability.
A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.
The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

v BUSINESS COMBINATION AND GOODWILL/CAPITAL RESERVE:

The Company uses the pooling of interest method of accounting to account for common control business combination and acquisition method of accounting to account for other business combinations.

The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another. Control exists when the Company is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in Other Comprehensive Income (OCI) and accumulated in other equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in other equity as capital reserve, without routing the same through OCI.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Company to the previous owners of the acquiree, and equity interests issued by the Company. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to the settlement of pre-existing relationships. Any goodwill that arises on account of such business combination is tested annually for impairment.

In case of Pooling of interest method of accounting, the assets and liabilities of the combining entities recognises at their carrying amounts. No adjustment is made to reflect the fair value or recognise any new assets and liabilities. The financial information in the financial statements in respect of prior periods restates as if the business combination had occurred from the beginning of the preceding period. The difference, if any, between the amount recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and presented separately from other capital reserves.

Note:

The Company has entered into an agreement on December 5, 2016 to sale 18.1890 acres land situated at Taluka Alibag, District Raigad for consideration of ₹ 345.77 Lakh. As per the terms of the agreement, the Company is required to bear the conversion expenses upto ₹ 3.75 Lakh per acre and also carry out certain improvements over the said land which shall be reimbursed by the purchaser. The Company has received part of the consideration by way of advance payment. The Company has also entered into contract for the purpose of undertaking the improvements agreed upon and paid an advance to the contractor. The Collector of Alibagh has sent notices to the Company regarding the condition of not putting the land for industrial use in 15 years period. The company has filed a case with the Mumbai bench of Hon'ble National Company Law Board Tribunal to quash the notices. The Corporate Insolvency Resolution Process ['CIRP'] was initiated in respect of Company under the provisions of the IBC by an order of the Hon'ble National Company Law Tribunal, Mumbai dated December 8, 2017 delivered on December 15, 2017 and a moratorium as per Section 14 of the Code was declared. The Resolution Plan was approved by the Hon'ble National Company Law Tribunal , Mumbai and a moratorium was in effect till September 6, 2019. The matter is pending at Hon'ble National Company Law Tribunal, Mumbai. Therefore, the Company continues to disclose the land and the advances paid for improvement of land and classify it as assets held for sale [Refer Note 10] and the amount of advance received form the buyer has been classified as Liabilities directly associated with assets classified as held for sale [Refer Note 19], till the final outcome of the said matter.

(e) **Rights, Preferences and Restrictions attached to shares**

Equity Shares: The Company has one class of equity shares having a par value of ₹ 2 per share. Each shareholder is eligible for one vote per share held. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

(f) For reconciliation of number of shares outstanding at the beginning and at the end of the period/year - [Refer Note (a) of SOCIE.]

(g) As per the resolution plan approved by Hon'ble National Company Law Tribunal, Mumbai Bench vide its orders dated July 24, 2019 and September 4, 2019 under section 31 of the Insolvency and Bankruptcy Code, 2016, the paid up equity share capital of the company was reduced and consolidated. Every shareholder holding 100 equity shares of ₹ 2/- each got 1 equity share of ₹ 2/-. The fractional shares were allotted in favour of SBICAP Trustee Company Limited, acting as Trustee for Ruchi Soya Fractional Shares Settlement Trust. Ruchi Soya Industries Limited Beneficiary Trust ("the Trust") was holding 76,30,115 Shares of ₹ 2/- each (pre reduction and consolidation) and the same were held in the name of Mr. Dinesh Shahra, Trustee of Trust at that time. Out of 76,30,115 shares, 199 Shares were freeze by NSE as per SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2016/116 dated October 26, 2016. Remaining 76,29,916 shares were shifted in the new demat account of the Trust opened with the PAN of Trust. As per the Scheme of reduction and consolidation, 76,299 Shares (new) were allotted in favour of Mr. Dinesh Shahra (in the capacity of Trustee of the Trust) and 0.16 share being fraction was allotted to SBICAP Trustee Company Limited. Against 199 Shares, 1 share was allotted to Mr. Dinesh Shahra (in the capacity of Trustee of Trust) and 0.99 share, being fraction was allotted to SBICAP Trustee Company Limited. Mr. Kumar Rajesh has been appointed Trustee of the Trust in place of Mr. Dinesh Shahra. Pursuant to Schemes u/s. 391-394 of the Companies Act, 1956 then applicable approved by the Hon'ble High Court of judicature at Mumbai and Delhi in an earlier year 76,301 Equity shares of the Company are held by a Trust for the benefit of the Company and its successor. The investment Cost of acquition of these treasury shares have been netted of from the Equity Share Capital and Securities premium account as per the provisions of Ind AS. The Dividend of earlier period received by the Trust in respect of these shares is included under the head 'Dividend' under 'Other Income'.

(h) Pursuant to the resolution plan, during the year ended March 31, 2020:-

(i) The authorised share capital of the Patanjali Consortium Adhigrahan Private Limited (SPV) is merged with the authorised share capital of the Company. As a result, authorised share capital of the Company is increased to ₹ 95,305.00 Lakh consisting of 2,11,20,50,000 equity shares of ₹ 2 each and 5,30,64,000 preference shares of ₹ 100 each.

(ii) In consideration for the amalgamation of the Patanjali Consortium Adhigrahan Private Limited, the Company has issued: -

1 (one) equity shares of face value of ₹ 2 for every 1 (one) equity share of face value of ₹ 7 of SPV, aggregating 29,25,00,000 equity shares of ₹ 5,850.00 Lakh are issued.

1 (one) 0.0001% cumulative redeemable preference share of face value of ₹ 100 each for every 1 (one) 0.0001% cumulative redeemable preference share of face value of ₹ 100 each of the SPV, aggregating 4,50,00,000 preference share of ₹ 45,000.00 Lakh are issued.

1 (one) 9% cumulative non-convertible debenture of face value of ₹ 10,00,000 for every 1 (one) 9% cumulative non-convertible debenture of face value of ₹ 10,00,000 each of SPV, aggregating 4,500 debentures of ₹ 45,000.00 Lakh are issued.

Note:

(i) There are no amounts due for payment to the Investor Education and Protection Fund under Section 125 of the Companies Act, 2013 as at the period/year end.

(ii) Includes ₹ 10,064.58 Lakh payable to DBS Bank Limited and ₹ 2,918.47 Lakh payable to ICICI Bank Limited pursuant to on-going case at Hon'ble Supreme Court which are mentioned below.
DBS Bank: DBS Bank. had filed an application before Hon’ble National Company Law Tribunal, Mumbai (“NCLT”) seeking a prayer to set-aside the decision of Committee of Creditors of the Company to the extent of the distribution of proceeds of the Resolution Plan and to restrain the Resolution Applicant from distributing the proceeds of the Resolution Plan. NCLT ordered against DBS Bank by dismissing the application. NCLT order was challenged before the Hon’ble National Company Law Appellate Tribunal (“NCLAT”) and NCLAT dismissed the appeal. NCLAT order has now been challenged before Supreme Court by DBS Bank. Since, there was no stay or order against the distribution of proceeds of Resolution Plan, the proceeds have been distributed in terms of Escrow Agreement and the Resolution Plan has been successfully implemented. There is no further liability of the Company or the Resolution Applicant towards DBS Bank.
ICICI Bank: The erstwhile Resolution Professional, Mr. Shailendra Ajmera, had filed an application before Hon’ble National Company Law Tribunal, Mumbai (“NCLT”) seeking a prayer to reverse the preferential transactions undertaken by ICICI Bank Limited. NCLT vide its order dated March 12, 2019 directed ICICI Bank Limited to reverse the said transactions and deposit in the bank account of the Company, the amount withdrawn in such preferential transactions. ICICI Bank Limited had subsequently challenged the order of NCLT before National Company Law Appellate Tribunal (“NCLAT”). NCLAT passed the order in favour of ICICI Bank Limited by setting aside the order of NCLT. NCLAT order has now been challenged by the erstwhile Resolution Professional before Supreme Court which is still pending. The Company had filed an application before the Supreme Court seeking substitution of Resolution Professional of the Company with Ruchi Soya Industries Limited since the corporate insolvency resolution process has been completed. The said application has been allowed by the Supreme Court and RSIL is now the Appellant.
Liability against CIRP Payables is amount payable to financial and operational creditors is kept in separate escrow accounts. As per escrow agreement any amount unpaid in this Account is deemed to be utilised and the Company has no right, title and claim on the same.

(iii) Pursuant to the Resolution Plan, liabilities related to foreign financial and operational creditors are partially/fully extinguished. In respect of write back pertaining to foreign creditors, advances and loans process of obtaining approval from Reserve Bank of India (RBI) are still in process.

(iv) Other financial liabilities includes (a) Agency & other deposits ₹ 5.00 Lakh [Previous year ₹ 5.00 Lakh] (b) Retention money payable ₹ 22.66 Lakh [Previous year ₹ NIL] due to Related parties. [Refer Note 35]

i) Provision for Compensated absences	147.53	127.52
	147.53	**127.52**

The Company contributes to the following post-employment defined benefit plans in India.

A. Defined Contribution Plans:
The Company has certain defined contribution plans. Contributions are made to provident fund in India for employees at the specified rate as per regulations. The contributions are made to registered provident fund administered by the Government of India. The obligation of the Company is limited to the amount contributed and it Company has no further contractual, or any constructive obligation. The Company has recognised ₹ 460.60 Lakh [Previous Year ₹ 745.40 Lakh] towards contribution to Provident Fund and ₹ 22.09 Lakh [Previous Year ₹ 55.90 Lakh] towards Employee State Insurance in Profit and Loss account.

B. Defined Benefit Plan:
a) Gratuity
Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination/resignation is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number completed years of service. The gratuity plan is a funded plan and Company makes annual contributions to the Group Gratuity cum Life Assurance Schemes administered by the LIC of India, a funded defined benefit plan for qualifying employees.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at September 30, 2021. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

b) Leave Obligations
The leave obligations cover the Company's liability for casual, sick & earned leave. The amount of the provision is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months.
Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

C. Plan assets

Plan assets comprise the following

₹ in Lakh

	Gratuity	Leave Encashment	Gratuity	Leave Encashment
	Sept. 30, 2021	Sept. 30, 2021	March 31, 2021	March 31, 2021
Investment in LIC India				
Insurer managed fund (100%)	3,009.06	-	3,245.89	-
	3,009.06	**-**	**3,245.89**	**-**

D. Defined benefit obligations

i. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

Particulars	Sept. 30, 2021	March 31, 2021
Discount rate	6.77%	6.85%
Salary escalation rate	7.50%	7.50%
Rate of return on plan assets	6.77%	6.85%
Retirement Age	60 Years to 64 Years	60 Years to 64 Years
Attrition Rate	For service 4 years & below 10.31% p.a. & For service 5 years and above 2% p.a.	For service 4 years & below 10.31% p.a. & For service 5 years and above 2% p.a.
Mortality Rate	Indian Assured Lives Mortality (2012-14)	Indian Assured Lives Mortality (2006-08)

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

₹ in Lakh

Particulars	September 30, 2021		March 31, 2021	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(254.62)	294.88	(237.51)	273.83
Future salary growth (1% movement)	279.71	(247.26)	259.42	(230.52)
Employee Turnover (1% movement)	(13.77)	15.40	(11.12)	12.35
Average Expected Life	12 Years	12 Years	12 Years	12 Years

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

iii. Expected Contributions in next year ₹ in Lakh

C As per approved resolution plan, the contingent liabilities and commitments, claims and obligations, stand extinguished and accordingly no outflow of economic benefits is expected in respect thereof. The Resolution plan, among other matters provide that upon the approval of this Resolution Plan by the National Company Law Tribunal (NCLT) and settlement and receipt of the payment towards the IRP Costs and by the creditors in terms of this plan, all the liabilities demands, damages, penalties, loss, claims of any nature whatsoever (whether admitted/verified/submitted/rejected or not, due or contingent, asserted or unasserted, crystallised or uncrystallised, known or unknown, disputed or undisputed, present or future) including any liabilities, losses, penalties or damages arising out of non-compliances, to which the Company is or may be subject to and which pertains to the period on or before the Effective Date (i.e. September 6, 2019) and are remaining as on that date shall stand extinguished, abated and settled in perpetuity without any further act or deed. The Resolution plan further provides that implementation of resolution plan will not affect the rights of the Company to recover any amount due to the Company and there shall be no set off of any such amount recoverable by the Company against any liability discharged or extinguished.

Note - 31

On divestment of shares of Gemini Edibles and Oil Pvt. Ltd. in an earlier year, pursuant to the Share Purchase Agreement, the Company paid an amount of ₹ 2,836.52 Lakh to the said Company by way of deposit which is refundable on receipt of various incentives by the said Company from Government authorities. Of the total amount paid, the Company has received refund of ₹ 2,320.81 Lakh till September 30, 2021. The Company expects to recover the balance amount of ₹ 515.71 Lakh fully. Accordingly, no provision for impairment is considered necessary in this regards.

Note - 32

Ruchi J-Oil Private Limited ("Ruchi J-Oil") is under liquidation, financial statements after March 31, 2019 are not available of "Ruchi J-Oil" and management of the Company expects to recover the carrying amount of investment, therefore in view of the management no consolidated financial statements are required to be prepared and presented.

Note - 33
Segment Reporting

A. General Information

(a) Factors used to identify the entity's reportable segments, including the basis of organisation
Based on the criterion as mentioned in Ind-As-108-"Operating Segment", the Company has identified its reportable segments, as follows:
• Segment-1 Seed Extractions
• Segment-2, Vanaspati
• Segment-3, Oils
• Segment-4, Food Products
• Segment-5, Wind Power Generation
• Segment-6, Others
Unallocable - All the segments other than segments identified above are collectively included in this segment.
The Chief Operating Decision Maker ("CODM") evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and gross profit as the performance indicator for all of the operating segments.

The assets and liabilities that can not be allocated between segments are shown as unallocable assets and liabilities, respectively.

(b) Following are reportable segments

Reportable segment	Description
Extractions	Various types of seed extractions
Vanaspati	Vanaspati, Bakery fats and Table spread
Oils	Crude oils, Refined oils
Food Products	Textured Soya protein, Soya flour, Biscuits, Noodles, Breakfast Cereals, Wheat Flour and Honey
Wind Power Generation	Electricity Generation from Wind Mills

(c) Other Segment

Others	Seeds, Coffee, Soap, Fresh Fruit Bunch, Seedling, Toiletry preparations, Castor seed, and Nutraceuticals.

By products related to each segment have been included under the respective segment.

Extraction is considered as the primary product resulting from the solvent extraction process and crude oil as the secondary product. While computing segment results, all costs related to solvent extraction process are charged to the extraction segment and recovery on account of crude oil is credited to the said segment. Credit for recovery of crude oil is taken on the basis of average monthly market price.

Related party relationships, transactions and balances
As per Ind AS-24, the disclosure of transactions with related parties are given below :

(a) List of related parties and relationship:

(i) Enterprises exercising control
Patanjali Ayurved Limited
Divya Yog Mandir Trust (Upto March 30, 2021)
Patanjali Parivahan Private Limited
Patanjali Gramudyog Nayas
Yogakshem Sansthan (with effect from March 31, 2021)

(ii) Joint Venture
Ruchi J Oil Private Limited [under liquidation w.e.f. August 21, 2018]

(iii) Key managerial persons
Shri Acharya Balkrishna
Shri Ram Bharat
Shri Sanjeev Kumar Asthana (with effect from August 19, 2020)
Shri Anil Singhal (Upto November 10, 2020)
Shri Ramji Lal Gupta
Shri Sanjay Kumar (With effect from March 30, 2021)
Shri Kumar Rajesh
Shri Sanjeev Kumar Khanna

(iv) Relative of key managerial persons & a Director
Shri Ramdev

(v) Enterprises over which Key Managerial Personnel and their relatives are able to exercise significant influence
Patanjali Natural Biscuits Private Limited

Note - 37

During the period ended September 30, 2021, income tax assessments for Assessment Years 2017-18, 2018-19 and 2019-20 have been completed and demands aggregating to ₹ 2,82,706.93 lakh have been received by the Company. These demands pertain to the period prior to the effective date (i.e. September 6, 2019) of the Resolution Plan as approved by the Hon'able National Company Law Tribunal, Mumbai ("NCLT").

The Resolution plan, among other matters provide that upon the approval of this Resolution Plan by the NCLT and settlement and receipt of the payment towards the IRP Costs and by the creditors in terms of this plan, all the liabilities demands, damages, penalties, loss, claims of any nature whatsoever (whether admitted/verified/submitted/rejected or not, due or contingent, asserted or unasserted, crystallised or uncrystallised, known or unknown, disputed or undisputed, present or future) including any liabilities, losses, penalties or damages arising out of non-compliances, to which the Company is or may be subject to and which pertains to the period on or before the Effective Date (i.e. September 6, 2019) and / or are remaining as on that date shall stand extinguished, abated and settled in perpetuity without any further act or deed.

As per the orders dated September 4, 2019 of the Hon'ble NCLT, Mumbai, " …. However, it is to be made clear that while approving the resolution plan, we have dealt with every aspect of the resolution plan in details and all the claims which have been admitted during CIRP are being dealt with by us in terms of the resolution plan . Anyone who has not filed its claim then he will not have any right to agitate the same after the approval of the resolution plan." In respect of above demands, no claims were submitted by the Income Tax Department during the corporate insolvency resolution process.

Accordingly, these demands have been challenged by the Company before NCLT. In addition the Company has also preferred an appeal before the CIT (A) against these demands. Further, in respect of demands of ₹ 2,77,173.66 lakh pertaining to assessment year 2018-19 the Company as a prudent measure have also applied for rectification of errors apparent from records.

In view of above, the Company does not expect any liability on account of above demands.

Note - 38

The shareholders of the Company approved a preferential issue of 1,86,70,213 Equity Shares at a price of ₹ 7 per share to Ashav Advisory LLP ("AAL") in February 2020, subject to receipt of necessary approvals (including stock exchanges and the lenders of Company). The Company did not received final approvals in this regard from the Stock Exchanges, Lenders and Securities Exchange Board of India ("SEBI"). Aggrieved by this, AAL filed an appeal before the Ho'ble Securities Appellate Tribunal at Mumbai ("SAT") which has been dismissed by the SAT. AAL challenged the SAT order in Hon'ble Supreme Court of India. The matter is currently pending.

B. Fair Valuation Techniques used to determine Fair Value

The Company maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

(i) Fair value of trade receivable, cash and cash equivalents, other bank balances, current borrowings, trade payables, other current financial assets and other current financial liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.

(ii) The fair values of non-current borrowings are approximate at their carrying amount due to interest bearing features of these instruments.

(iii) The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

(iv) Fair values of quoted financial instruments are derived from quoted market prices in active markets.

(v) Fair value of forward contract are derived on the basis of mark-to-market as provided by the respective bank.

(vi) Fair value of open purchase and sale contracts is based on commodity prices listed on NCDEX stock exchange and prices available on Solvent Extractor's association (SEA) along with quotations from brokers and adjustments made for grade and location of commodity and in case of Commodity futures it is based on commodity prices listed on MCX/ NCDX/ACE stock exchange.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows :

Level 1 : Quoted prices / published NAV (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value (NAV) is published by mutual fund operators at the balance sheet date.

Level 2 : Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.

Level 3 : Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Note - 40
Financial risk management
The Company has exposure to the following risks arising from financial instruments:
(i) Market risk
(a) Currency risk;
(b) Interest rate risk;
(c) Commodity Risk;
(d) Equity Risk;
(ii) Credit risk ; and
(iii) Liquidity risk ;

Risk management framework

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of risks on its financial performance. The Company's risk management assessment policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Audit Committee are responsible for overseeing these policies and processes.

(i) Market risk
Market risk is the risk of changes in the market prices on account of foreign exchange rates, interest rates and Commodity prices, which shall affect the Company's income or the value of its holdings of its financial instruments . The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimising the returns.

(a) Currency risk
The fluctuation in foreign currency exchange rates may have potential impact on the profit and loss account, where any transaction has more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in U.S. dollar and Euro, against the respective functional currencies (INR) of Ruchi Soya Industries Limited.

The Company, as per its risk management policy, uses foreign exchange and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. The Company does not use derivative financial instruments for trading or speculative purposes.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported by the management of the Company is as follows: **₹ in Lakh**

Sensitivity analysis

A 1% strengthening / weakening of the respective foreign currencies with respect to functional currency of Company would result in increase or decrease in profit or loss as shown in table below. The following analysis has been worked out based on the exposures as of the date of statements of financial position.

₹ in Lakh

Effect in Indian Rupees	Profit/(Loss) September 30, 2021		Profit/(Loss) March 31, 2021	
	Strengthening	Weakening	Strengthening	Weakening
EUR	3.59	(3.59)	4.63	(4.63)
USD	4.98	(4.98)	3.90	(3.90)
AUD	0.10	(0.10)	0.10	(0.10)

*Excluding provision for doubtful debts ₹ 1,30,111.70 Lakh.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to market risk for changes in interest rates relates to borrowings from banks and others.

For details of the Company's short-term and long term loans and borrowings, Refer Note 13(a), 13(c) and 16(a) of these financial statements.

Interest rate sensitivity - fixed rate instruments

The Company's fixed rate borrowings Preference Shares issued to Patanjali Ayurved Limited @ 0.0001% and Debentures issued to Patanjali Ayurved Limited @ 9% and Investments into Preference Shares of GHI Energy Private Limited @ 6% are carried at fair value. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flow will fluctuate because of a change in market interest rates.

Interest rate sensitivity - variable rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased /(decreased) equity and profit or loss by amounts shown below. This analysis assumes that all other variables, in particular, foreign currency exchange rates, remain constant. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date.

A. September 30, 2021 **₹ in Lakh**

Particulars	Impact on Profit/(loss) before tax	
	100 bp increase	100 bp decrease
On account of Variable Rate Borrowings from Banks	(3,021.25)	3,021.25

B. March 31, 2021 **₹ in Lakh**

Particulars	Impact on Profit/(loss) before tax	
	100 bp increase	100 bp decrease
On account of Variable Rate Borrowings from Banks	(3,043.81)	3,043.81
Sensitivity	**(3,043.81)**	**3,043.81**

(c) Commodity risk

The prices of agricultural commodities are subject to wide fluctuations due to unpredictable factors such as weather, government policies, changes in global demand resulting from population growth and changes in standards of living and global production of similar and competitive crops. During its ordinary course of business, the value of the Company's open sales and purchases commitments and inventory of raw material changes continuously in line with movements in the prices of the underlying commodities. To the extent that its open sales and purchases commitments do not match at the end of each business day, the Company is subjected to price fluctuations in the commodities market.

While the Company is exposed to fluctuations in agricultural commodities prices, its policy is to minimise its risks arising from such fluctuations by hedging its sales either through direct purchases of a similar commodity or through futures contracts on the commodity exchanges.

In the course of hedging its sales either through direct purchases or through futures, the Company may also be exposed to the inherent basis risk associated with having positions in physical as well as in futures market. The Company has in place a risk management policy to minimize such risk exposure.

At the balance sheet date, a 1% increase/decrease of the commodities price indices, with all other variables remaining constant, would result in (decrease)/increase in profit before tax and equity by the amounts as shown below:

₹ in Lakh

Particulars	Profit/(loss)			
	September 30, 2021		March 31, 2021	
	Increase	Decrease	Increase	Decrease
Effect of increase / decrease in prices	**(291.26)**	291.26	**(127.53)**	127.53

Assumptions used for calculation

Inventory	Commodity value * 1%
Derivative contract	Value * 1%

To hedge commodity related risk, the open outstanding position of forward/future as on September 30, 2021 is Crude palm oil 22,500 MT (Sale), Soya Refined Oil 1,780 MT (Sale), Soybean seed 1,845 MT (Sale), Mustard seed 590 MT (Sale).

To hedge commodity related risk, the open outstanding position of forward/future as on March 31, 2021 is Crude palm oil 18,220 MT (Sale), Soya Refined Oil 1,455 MT (Sale), Soybean seed 16,005 MT (Buy), Mustard seed 1,900 MT (Sale).

(d) Equity risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of some of the Company's investments in Fair value through Other Comprehensive Income securities exposes the Company to equity price risks. In general, these securities are not held for trading purposes. These investments are subject to changes in the market price of securities. The fair value of equity securities as of September 30, 2021, was ₹ 2,079.77 Lakh [Previous Year ₹ 1,708.77 Lakh] . A Sensex standard deviation of 6% [Previous Year 16%] would result in change in equity prices of securities held as of September 30, 2021 by ₹ 124.79 Lakh.[Previous Year ₹ 273.40 Lakh]

(ii) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customer. The Company establishes an allowance for doubtful debts, impairment and expected credit loss that represents its estimate on expected credit loss model.

A. Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Expected credit loss assessment for customers as at September 30, 2021 and March 31, 2021

Exposures to customers outstanding at the end of each reporting year are reviewed by the Company to determine expected credit losses. Impaired amounts are based on lifetime expected losses based on the best estimate of the management. The impairment loss related to several customers that have defaulted on their payments to the Company and are not expected to be able to pay their outstanding balances.

The movement in the allowance for trade receivables having significant increase in credit risk during the period was as follows.

	₹ in Lakh September 30, 2021
Balance as at April 1, 2021	**133,169.13**
Impairment loss recognised as per ECL	1,325.72
Balance as at September 30, 2021	**134,494.85**

The movement in the allowance for trade receivables having significant increase in credit risk during the year was as follows.

	₹ in Lakh March 31, 2021
Balance as at April 1, 2020	**133,002.21**
Impairment loss recognised as per ECL	166.92
Balance as at March 31, 2021	**133,169.13**

B. Cash and cash equivalents

The Company holds cash and cash equivalents with credit worthy banks of ₹ 3,209.90 Lakh as at September 30, 2021 [Previous Year ₹ 4,627.05 Lakh].The credit worthiness of such banks is evaluated by the management on an on-going basis and is considered to be good.

C. Derivatives

The derivatives are entered into with credit worthy on counterparties. The credit worthiness of such counterparties is evaluated by the management on an on-going basis and is considered to be good.

D. Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties apart from those already given in financials, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company has been taking measures to ensure that the Company's cash flow from business borrowing is sufficient to meet the cash requirements for the Company's operations. The Company managing its liquidity needs by monitoring forecasted cash inflows and outflows in day to day business. Liquidity needs are monitored on various time bands, on a day to day and week to week basis, as well as on the basis of a rolling 30 day projections. Net cash requirements are compared to available working capital facilities in order to determine headroom or any short falls. Presently company's objective is to maintain sufficient cash to meet its operational liquidity requirements.

The below table summaries the maturity profile of the Company's financial liability

₹ in Lakh

Particulars		Carrying amount	Contractual cash flows				
A	As at September 30, 2021		Total	1 year or less	1-2 years	2-5 years	> 5 years
	Secured term loans and borrowings	302,125.20	303,256.15	85,768.15	20,424.00	93,336.00	103,728.00

Note - 41
Capital Management

For the purpose of Company's capital management, capital includes issued capital and all other equity reserves. The primary objective of the Company's capital management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using gearing ratio, which is net debt divided by total equity. Net debt are non-current and current debts (including preference shares liabilities) as reduced by cash and cash equivalents. Equity comprises all components including other comprehensive income.

₹ in Lakh

A. Particulars	**As at September 30, 2021**	**As at March 31, 2021**
Total Debts	390,288.98	393,364.47
Less : Cash and cash equivalent	3,209.90	4,627.05
Net Debts	**387,079.08**	**388,737.42**
Total equity (Share Capital Plus Other Equity)	**440,153.92**	**406,241.28**
Net debt to equity ratio	0.88	0.96

B. Dividends

No dividend is paid by the Company in last three financial period/years.
