PROCEDURE FOR REMOTE VOTING:

THE INSTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING ARE AS UNDER:

- (i) The voting period begins on Tuesday, 27th September, 2022 at (9:00 a.m. IST) and ends on Thursday, 29th September, 2022 at (5:00 p.m. IST). During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Friday, 23rd September, 2022 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

(iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants.  ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO**

Information as required under Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of Companies (Accounts) Rules, 2014 are set out hereunder: -

A. Conservation of Energy

Ujaas is putting its sincere efforts in contributing towards green energy. We have introduced various new products and solutions for producing clean energy. The Company aims at becoming the pioneer in "Generation of Green Energy". As, the nature of our operations is covered under conservation of energy itself. Hence there are no separate activities undertaken by the Company under the head of "Conservation of energy".

B. Technology Absorption

Research and Development (R & D)

R & D is a continuous activity instead of one-time activity. During the year under review, there were no R & D expenditure.

DISCLOSURES WITH RESPECT TO EMPLOYEES STOCK OPTION SCHEME PURSUANT TO REGULATION 14 OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (SHARE BASED EMPLOYEE BENEFITS) REGULATIONS, 2014 AS ON MARCH 31, 2022 AND THE DETAILS OF OPTIONS GRANTED UNDER VARIOUS ESOS OF THE COMPANY AS REQUIRED TO BE PROVIDED IN TERMS OF RULE 12(9) OF THE COMPANIES (SHARE CAPITAL AND DEBENTURES) RULES, 2014:

There was no material change in the ESOS Schemes. The ESOS Scheme is in compliance with the regulations.

Further, the following details, inter alia, shall be disclosed on the company's website and a web-link thereto shall be provided in the report of board of directors.

- A. Relevant disclosures in terms of Indian Accounting Standard (Ind AS - 102) under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015.

Members may refer to Note no. 12 contained in the Notes to Financial Statements forming part of Annual Financial Statements for the Financial Year ended on 31st March, 2022.

- B. Diluted EPS on issue of shares pursuant to all the schemes covered under the regulations shall be disclosed in accordance with 'Ind AS- 33'- Earnings per Share' under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015.

Diluted EPS before and after extraordinary items for the year ended 31st March 2022 is Rs. (5.48).

- C. Details related to Employee Stock Option Scheme (ESOS) of the Company

- i. Description of each ESOS that existed at any time during the year, including the general terms and conditions of each ESOS, including:

S.No.	Particulars	Employee Stock Option Scheme 2015
(i)	Date of shareholders' approval	23rd September, 2015
(ii)	Total number of options approved under ESOS	40,00,000 options representing equity shares of a face value of Re. 1/- each.
(iii)	Vesting Requirements	Options shall vest over a period of 3 years from the date of grant of options as under: a) 30% on first anniversary of Grant Date b) 35% on second anniversary of Grant Date and c) 35% on third anniversary of Grant Date rounded up to whole numbers.
(iv)	Exercise price/Pricing formula	Re.1/-
(v)	Maximum term of options granted	7 years
(vi)	Source of shares(primary, secondary or combination)	Primary
(vii)	Variation in terms of options	None during the year

- (ii) Method used to account for ESOS (Intrinsic or Fair value): Fair Value

- (iii) Where the Company opts for expensing of the options using the intrinsic value of the options, the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the options shall be disclosed. The impact of this difference on profits and on EPS of the Company shall also be disclosed.
- (iv) Since the Company opts for expensing of the options using fair value, so the Company is not required to disclose impact of any difference arising due to intrinsic value and the fair value on profits and on EPS of the Company.
- Option Movement during the year (For each ESOS):

Particulars	Employee Stock Option Scheme, 2015
Number of options outstanding at the beginning of the period	5,91,000
Number of options granted during the year	-
Number of options forfeited / lapsed during the year	-
Number of options vested during the year	-
Number of options exercised during the year	-
Number of shares arising as a result of exercise of options	-
Money realized by exercise of options (INR), if scheme is implemented directly by the company	-
Loan repaid by the Trust during the year from exercise price received	1/-
Number of options outstanding at the end of the year	5,91,000
Number of options exercisable at the end of the year	-
A. Weighted average exercise prices	1/-
B. Weighted-average fair values of options	-

Employee wise details (name of employee, designation, number of options granted during the year, exercise price) of options granted to

- a. Senior managerial personnel; - None
- b. any other employee who receives a grant in any one year of option amounting to 5% or more of option granted during that year; - None
- c. identified employees who were granted option, during any one year, equal to or exceeding 1% of the issued capital (excluding outstanding warrants and conversions) of the company at the time of grant. - None

A description of the method and significant assumptions used during the year to estimate the fair value of options including the following information:

- a. the weighted-average values of share price, exercise price, expected volatility, expected option life, expected dividends, the risk-free interest rate and any other inputs to the model;

Serial No.	Particulars	2021-22
i.	Weighted average risk-free interest rate	7.03%
ii.	Weighted average expected life of options	3.7 years
iii.	Weighted average expected volatility	0.5651
iv.	Weighted average expected dividends over life of the option	0.0033 per option
v.	Weighted average share price	Rs. 15.11
vi.	Weighted average exercise price	Re.1/- per share

- b. the method used and the assumptions made to incorporate the effects of expected early exercise: - Black Scholes Options Pricing Model
- c. how expected volatility was determined, including an explanation of the extent to which expected volatility was based on historical volatility; and
Expected Volatility is based on the historical volatility of the Company's share price applicable to the total expected life of each option.
- d. whether and how any other features of the option grant were incorporated into the measurement of fair value, such as a market condition. :- None

Management Discussion & Analysis

Global Economy Overview

Compounding the damage from the COVID-19 pandemic, the Russian invasion of Ukraine has magnified the slowdown in the global economy, which is entering what could become a protracted period of feeble growth and elevated inflation, according to the World Bank's latest Global Economic Prospects report. This raises the risk of stagflation, with potentially harmful consequences for middle- and low-income economies alike.

Global growth is expected to slump from 5.7 percent in 2021 to 2.9 percent in 2022—significantly lower than the 4.1 percent that was anticipated in January. It is expected to hover around that pace over 2023-24, as the war in Ukraine disrupts activity, investment, and trade in the near term, pent-up demand fades, and fiscal and monetary policy accommodation is withdrawn. As a result of the damage from the pandemic and the war, the level of per capita income in developing economies this year will be nearly 5 percent below its pre-pandemic trend. "The war in Ukraine, lockdowns in China, supply-chain disruptions, and the risk of stagflation are hampering growth. For many countries, the recession will be hard to avoid," said World Bank President David Malpass.

Growth in advanced economies is projected to sharply decelerate from 5.1 percent in 2021 to 2.6 percent in 2022—1.2 percentage points below projections in January. Among emerging market and developing economies, growth is also projected to fall from 6.6 percent in 2021 to 3.4 percent in 2022—well below the annual average of 4.8 percent over 2011-2019.

Indian Economy Overview

Just when uncertainties associated with the COVID-19 pandemic were declining, the Russia-Ukraine crisis escalated. Consequently, India's growth outlook appears to have clouded. Crude oil prices are lingering above US\$100 per barrel, and wheat and cereal prices have gone up several times—all of which are critical imports from the two warring nations. India also partly meets its fertilizer needs from the region. For India, which has

been battling inflation for a while now, this situation is making matters worse. Higher fuel and fertilizer prices will reduce government revenues and increase subsidy costs. Furthermore, capital outflows and rising import bills will weigh on the current account balance and currency valuation.

Despite the external shocks, India's underlying economic fundamentals are strong and despite the short-term turbulence, the impact on the long-term outlook will be marginal. Growth will be strong in the next two quarters. Growth-enhancing policies and schemes, increased infrastructure spending, rising exports, rapid digitization, and spill-over effects of geopolitical developments will likely aid in growth.

With economic momentum resuming, and the long-term advantages of supply-side reforms in the works, the Indian economy is poised to grow at a considerable pace. According to IMF's World Economic Outlook (October 2021 edition), India's nominal GDP, measured in nominal USD market exchange rate is estimated at USD 3,515 Bn in 2023 (FY24), accounting for 3.3% of global GDP and making it the sixth largest economy in the world. When measured in purchasing power parity (PPP) terms, India is estimated to be the third largest economy at PPP USD 12,387 Bn in 2023. FY23 is expected to be the first normal year after the onslaught of COVID-19 which virtually eliminated a meaningful increase in economic output during the two-year period up to FY21. India's per capita nominal GDP is estimated to grow by 16% in FY22 to INR 16,95,743 (USD 2,282.34) after suffering a contraction of 2.4% in FY21.

Global Renewable Overview

The role of renewables in improving energy security and sovereignty by replacing fossil fuels became central to discussions, as energy prices increased sharply in late 2021 and as the Russian Federation's invasion of Ukraine unfolded in early 2022. Investment in renewable power and fuels rose for the fourth consecutive year, reaching USD 366 billion, and a record increase in global electricity generation led to solar and wind power

providing more than 10% of the world’s electricity for the first time ever.

Renewable electricity capacity additions broke another record in 2021 and biofuels demand almost recovered to pre-Covid levels, despite the continuation of logistical challenges and increasing prices. However, the Russian Federation’s (hereafter, “Russia”) invasion of Ukraine is sending shock waves through energy and agriculture markets, resulting in an unprecedented global energy crisis. In many countries, governments are trying to shelter consumers from higher energy prices, reduce dependence on Russian supplies and are proposing policies to accelerate the transition to clean energy technologies.

Annual renewable capacity additions broke a new record, increasing 6% to almost 295 GW, despite the continuation of pandemic-driven supply chain challenges, construction delays and record-level commodity prices for raw materials. Solar PV and wind costs are expected to remain higher in 2022 and 2023 than pre-pandemic levels due to elevated commodity and freight prices. Renewable capacity is expected to further increase over 8% in 2022, reaching almost 320 GW. However, unless new policies are implemented rapidly, growth remains stable in 2023 because solar PV expansion cannot fully compensate for lower hydropower and steady year-on-year wind additions.

Net renewable capacity additions by technology, 2017-2023

Solar PV is forecast to account for 60% of the increase in global renewable capacity this year with the commissioning of 190 GW, a 25% gain from last year. Utility-scale projects account for almost two-thirds of overall PV expansion in 2022, mostly driven by a strong policy environment in China and the European Union driving faster deployment. Following a 32% year-on-year decline in 2021, new global onshore wind installations are expected to slightly recover and reach almost 80 GW. Offshore wind growth worldwide

is expected to decline 40% in 2022 following the exceptional four-fold jump last year in China due to the national subsidy phase-out deadline. Despite this decline, 2022 global offshore wind capacity additions will still double compared to 2020, thanks to the continuation of provincial incentives in China and the expansion in the European Union.

Developments in 2021

Growth in global renewable power capacity accelerated in 2021, adding more than 314 gigawatts (GW). The market also diversified geographically, with the top five countries accounting for 71% of all capacity added (down from 75% in 2020, but still less diverse than in 2019 and 2018). Overall, the renewable power capacity additions reflected market growth of 11%; however, they still represented only a third of the additions needed annually to achieve the world’s major goals for net zero carbon emissions.

Renewable energy comprised 28.3% of the global electricity mix in 2021, roughly on par with 2020 levels. The growth in renewable energy penetration was mitigated by the overall rise in electricity demand and by drought conditions that greatly reduced global hydropower generation.

Natural gas prices rose more than 400% in most markets, leading to a spike in wholesale electricity prices in major markets by year’s end. Governments responded by freezing prices, reducing energy sales taxes, and providing financial assistance to low-income households, among others.

The International Energy Agency’s (IEA) Net Zero by 2050 scenario, released in May 2021, set the tone for a new norm, stimulating higher ambition among governments and corporations. In the lead-up to the 26th Conference of the Parties to the United Nations Framework Convention on Climate Change (COP26), held in Glasgow, Scotland in November, 17 countries pledged to achieve net zero emissions by 2050 or a later date, with some countries targeting 2025. The European Commission raised its 2030 target for renewables in total final energy consumption (TFEC) first to 40% in 2021, then to 45% in early 2022. Also, in the lead-up

to COP26, 151 countries submitted new or updated Nationally Determined Contributions (NDCs) towards reducing their greenhouse gas emissions under the Paris Agreement.

In total, more than 40 countries agreed to stop financing new coal plants, although commitments to shut down existing capacity were notably absent in Australia, China, India, and the United States, which as of 2021 together owned two-thirds of the world's operating coal plants. During the UN High-Level Dialogue on Energy in September 2021, the UN Secretary-General announced a roadmap for "global clean energy for all", for which governments and the private sector committed more than USD 400 billion.

Indian Renewable Overview

The International Energy Agency's World Energy Outlook projects a growth of renewable energy supply to 4,550 GW in 2040 on a global basis. The renewable energy capacity addition stood at 8.2 GW for the first eight months of FY22 against 3.4 GW for the first eight months of FY21. As of April 2022, India's installed renewable energy capacity (including hydro) stood at 158.12 GW, representing 39.43% of the overall installed power capacity and providing a great opportunity for the expansion of green data centers. India is the only country among the G20 countries who is on track to achieve its targets under the Paris Agreement. ICRA expects renewable energy capacity addition of 12.5 GW in FY22 and 16 GW in FY23. The non-conventional energy space in India has become highly attractive for investors and received FDI inflow of US\$ 11.62 billion between April 2000- March 2022. The country plans to reach 450 GW of installed renewable energy capacity by 2030, with 280 GW (over 60%) expected from solar power. The ambitious target of 450 GW will

provide investment opportunities worth US\$ 221 billion by 2030.

Power generation from solar and wind projects are likely to be cost-competitive relative to thermal power generation in India in 2025-2030. As per the British Business Energy, India ranks third on renewable energy investments and plans. Installed renewable power-generation capacity has increased at a fast pace over the past few years, posting a CAGR of 15.92% between FY16 and FY22. As of April 2022, 39.53% of the total power installed capacity is from non-fossil-based sources, which is in line with reaching the target of 40% by the end of 2022. It has been estimated that renewables will comprise 49% of India's power generation by 2040. Replacing coal plants with renewable sources is expected to save India Rs. 54,000 crore (US\$ 8.4 billion) annually due to reduced power costs. About 5,000 compressed bio-gas plants will be set up across India by 2023

https://www.ibef.org/download/1659942847_Renewable_Energy-PPT-June_2022.pdf

Global Solar Overview

The global solar energy installed capacity was 735 GW in 2020 and is estimated to reach 1,848 GW in 2027, registering a CAGR of about 12.7% during the forecast period 2022 -2027. The global solar energy market did not witness any significant direct impact from the COVID-19 outbreak in 2020. Many countries ramped up solar panel production and shipment, with several projects becoming operational during Q3 and Q4 of 2020. Factors such as declining prices and installation costs for solar PV and favourable government policies are expected to drive the solar energy market during the forecast period. However, the increasing adoption of alternate renewable sources, such as wind, is expected to restrain the market's growth.

Due to its high installation share, the solar photovoltaic (PV) segment is expected to dominate the solar energy market during the forecast period.

An increase in off-grid solar utilization due to the decreasing cost of solar PV equipment and supportive global initiatives to eliminate carbon emissions are expected to create several opportunities for the market in the future.

Due to its increasing solar installations, the Asia-Pacific region has dominated the solar energy market in the past few years and is expected to be the largest and fastest-growing region in the solar energy market during the forecast period.

Solar Energy Market : Growth Rate by Region, 2022-2027

Indian Solar Sector Overview

Due to its favourable location in the solar belt (400 S to 400 N), India is one of the best recipients of solar energy with abundant availability. Solar power installed capacity has increased by more than 18 times, from 2.63 GW in March 2014 to 49.3 GW in at the end of 2021. India stands 5th among countries with a maximum installed capacity of solar rooftop installations. Gujarat, Maharashtra, Rajasthan, and Tamil Nadu account for 53.6% of the solar rooftop installations in India, as of January 2021. The Bhadla Solar Park in Rajasthan's Jodhpur district is the largest solar power plant in the world. Spanning 14,000 acres, the power plant is fully operational and has a capacity of 2,250 MW. Delhi's Indira Gandhi International Airport (IGIA) has become the first Indian airport to run entirely on hydro and solar power. Around 6% of the airport's electricity requirement is met from the onsite solar power plants.

In November 2021, the government announced future plans to increase the funding under the PLI scheme for domestic solar cells and module manufacturing to RS. 24,000 crore (US\$ 3.17 billion) from the existing Rs. 4,500 crores (US\$ 594.68 million) to make India an exporting nation. The world's largest floating 600 MW solar energy project will be constructed at the Omkareshwar Dam in the Khandwa district of Madhya Pradesh at the estimated cost of Rs. 3,000 crores (US\$ 3.84 billion). The project is expected to begin power generation by FY23. Off-grid solar power is growing at a fast pace in India, with sales of 392,000 off grid solar products in the first half of 2021.

Government Initiatives

- In June 2021, the Ministry of Power proposed to revamp the 'Renewable Energy Certificate (REC) Mechanism' and circulated a discussion paper for comments from stakeholders in the power sector.
- In June 2021, India launched the Mission Innovation CleanTech Exchange, a global initiative that will create a whole network of incubators across member countries to accelerate clean energy innovation.
- Renewable Purchase Obligations (RPO) are a mechanism by which state electricity commissions are obliged to purchase certain percentage of power from renewable energy sources. Also, floor prices of the RPO have been set to provide certainty to companies. The

floor price has been set at US\$ 144 per MW.

- The Solar Energy Corporation of India (SECI) implemented large-scale central auctions for solar parks and has awarded contracts for 47 parks with over 25 GW of combined capacity.
- The Union Budget 2022-23 announced the issuance of sovereign green bonds, as well as conferring infrastructure status to energy storage systems, including grid-scale battery systems. The Budget stated plans to provide financial support to allow coal fired power plants to co-fire biomass pellets at a rate of 5-7%. This will boost farmers' income and reduce air pollution and curb stubble burning, which reduces greenhouse gas emissions by 38 million tonnes a year.
- In the Union Budget 2022-23, the allocation for 'Hazardous Substances Management' stood at Rs. 4.5 crore (US\$ 594,000). The allocation for the Central Pollution Control Board, responsible for tackling pollution around the country, remained at Rs. 100 crore (US\$ 13.2 million), the same as the year before.
- In April 2021, the Ministry of Power (MoP) released a draft of the National Electricity Policy (NEP) 2021 and has invited suggestions from all stakeholders such as Central Public Sector Undertakings, Solar Energy Corporation of India, power transmission companies, financial institutions such as the Reserve Bank of India, Indian Renewable Energy Development Agency, HDFC Bank, ICICI Bank, industrial, solar and wind associations and state governments.
- India's liberal foreign investment policy permits 100% FDI in the renewable energy sector.

Opportunities

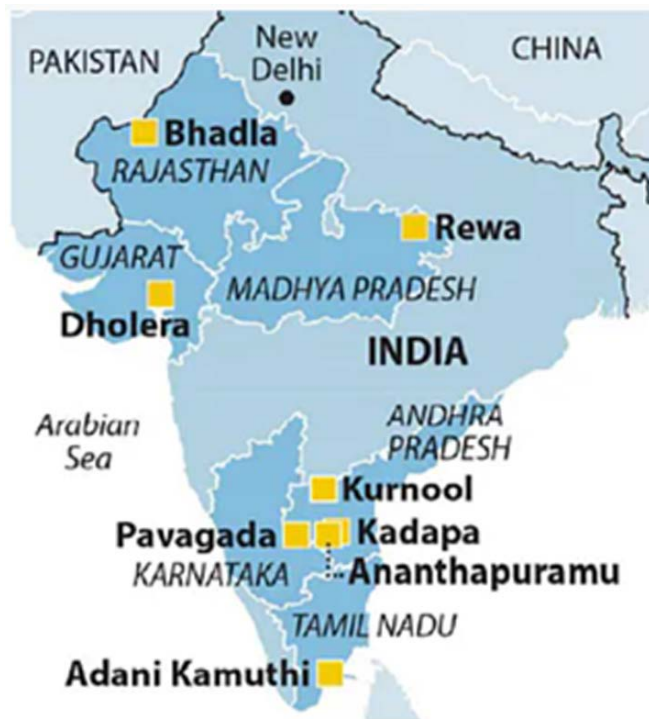

Huge Untapped Potential- India's ambitious renewables energy goals are transforming its power sector. Rising population and widespread electrification in rural homes is fueling the demand for energy to power homes, businesses and communities. India's leading conventional energy producers are shifting towards nonconventional energy resources to achieve their sustainability goals and contribute towards generating clean energy. A rapid shift from fossil fuels to clean renewable energy could lead to the creation of 1.5 crore new jobs in India by 2025 and increase savings on electricity bills. Replacing coal plants with renewable sources is expected to save India Rs. 54,000 crore (US\$ 8.4 billion) annually due to reduced power costs. In October 2021, Reliance New Energy Solar Ltd. (RNE SL), collaborated with Stiesdal A/S (Stiesdal)—a Denmark-based firm—to manufacture hydrogen electrolyzers and contribute to achieve India's green energy transition mission.

Rising Power Demand- The Central Electricity Authority estimates India's power requirement to grow to reach 817 GW by 2030. The peak power demand in the country stood at 210.79 GW on June 9, 2022. Solar power and wind generation recorded an all-time high of 43.1 GW on 27 July, 2021. According to data from the Ministry of Power, India's power consumption increased 13.6% YoY in April 2022 to 132.98 billion units (BU).

Solar Parks India- The Way Forward To Achieve India's Renewable Energy Targets

The capacity of the solar park scheme was enhanced in 2017 from 20,000 MW to 40,000 MW. To achieve this target, at least 50 solar parks each with a capacity of 500 MW and above were to be set up by 2019-20. Later, in March 2021, the ministry extended the timeline to develop the solar parks totaling 40 GW from 2019-20 to financial year (FY) 2023-24. Based on the proposals received from the states, 52 solar parks with a cumulative capacity of 37.92 GW have been approved to 14 states up to November 2021. These solar parks are at different stages of development. Commissioned capacity inside solar parks: solar power projects of an aggregate capacity of around 9.2 GW have already been commissioned in these parks. The top four operational solar parks in India, as of November 2021, include Bhadla Solar Park in Rajasthan, Pavagada Solar Park

UTILITY-SCALE SOLAR PARKS

in Karnataka, Kurnool Solar Park in Andhra Pradesh, and Rewa Solar Park in Madhya Pradesh. As on 28.02.2022, the Government have sanctioned 56 solar parks of cumulative 38,266 MW capacity in 15 states in the country, including Andhra Pradesh under the scheme.

India Rooftop Solar Sector

As of March 31, 2022, India's cumulative rooftop solar capacity was approximately 7.6 gigawatt (GW), Mercom India said. In the Q1 (January-March) of the calendar year 2022, India added 456 MW of rooftop solar capacity, a 13 per cent increase compared to the 402 MW installed in Q4 2021. On a year-over-year basis, installations were up by 34 per cent. At 456 MW, the installations were 34 per cent higher against 341 MW in the first quarter of 2021, the research firm said in a report. During the quarter, 47 per cent of installations were in the industrial segment, followed by

29 per cent, 22 per cent, and 2 per cent, in commercial, residential, and government segments. The average cost of a rooftop solar system increased 6 per cent in Q1 2022 compared to Q4 2021. The increase in average rooftop system cost was up 17 per cent year-over-year. Distributed rooftop installations in India reached an all-time high in 2021, to comprise around 17% of the country's cumulative solar market. In FY22, the country added 1.7 gigawatt (GW) of rooftop solar capacity, the highest ever in a fiscal. Such installations were up 136 per cent compared to 719 MW in FY20, according to a report by consultancy firm Mercom Communications.

In Q1 2022, around 71% of the rooftop solar installations were under the CAPEX model, while the OPEX or RESCO model represented the rest. Overall project margins have reduced due to rise in the component prices, the advent of basic customs duty, and the hike in the GST.

EPC Business

The predicted growth for the power EPC market share from 2021 to 2026 is USD 13.30 billion at a progressing CAGR of 22.74%. One of the key factors driving growth in the India power EPC market is the increasing investments in renewable energy. One of the key India power EPC market trends fueling the market growth is the development of smart cities. The decline in crude oil prices will be a major challenge for the India power EPC market during the forecast period. Hence, such initiatives will boost the India power EPC market during the forecast period.

O&M Business

Global non-residential solar operations and maintenance (O&M) spend is expected to hit US\$15 billion by 2030. Total global solar installed capacity is expected to reach 2.2 terawatts by 2030. That means rapid growth for the solar O&M sector over the next decade; a total 2030 market opportunity of US\$15 billion is a nearly fourfold increase on 2020 figures. The US will be the most attractive single market, accounting for US\$3.5 billion of the total. On a regional basis, however, APAC leads with US\$5.7 billion of the total spend. Nearly half of global O&M spend over the next ten years will be for corrective repairs, including inverter replacements.

Transmission

The Indian power transmission segment has grown significantly over the years, making the country's

electricity grid one of the largest synchronous grids in the world. As of January 2022, the total transmission line length (at the 220 kV level and above) stood at 453,141 ckt. km, the total AC substation capacity stood at 1,055 GVA and the HVDC substation capacity stood at 33,500 MW. Between 2015-16 and 2020-21, the line length has grown at a compound annual growth rate of 5.3 per cent while AC and HVDC substation capacities have grown at 9 per cent and 14.5 per cent respectively. With India targeting to meet 50 per cent of its energy needs from renewables and achieve 500 GW of non-fossil fuel capacity by 2030 as announced at COP26, significant expansion and strengthening of the interstate transmission system (ISTS) will be required. The central government has undertaken many progressive policy and reform initiatives for the transmission segment in recent months. One of the most significant is the introduction of general network access (GNA) under the Electricity (Transmission System Planning, Development and Recovery of Inter-State Transmission Charges) Rules, 2021, which were released in a gazette notification dated October 1, 2021. The latest rules define GNA as non-discriminatory access to the ISTS, as requested by a designated interstate customer and granted by the central transmission utility (CTU) for a maximum injection or drawal in megawatts and for a specific period. A transition to GNA would provide the much-needed flexibility to state entities in purchasing electricity under contracts of varying durations without the limitations of ISTS network availability. For generators too, there will be enhanced flexibility in sales since target beneficiaries will not have to be specified.

INDEPENDENT DIRECTORS

In accordance with the criteria set for selection of Independent Directors and for determining their independence as per Schedule IV of Companies Act, 2013 (“the Act”), the Nomination and Remuneration Committee (‘NRC’) of the Board, inter alia, considers the qualifications, positive attributes, area(s) of expertise held by these individuals. The Board considers the NRC’s recommendation and takes appropriate decisions in appointment of the Independent Directors. A formal letter of appointment to Independent Directors as provided in Companies Act, 2013 and Listing Regulation has been issued and disclosed on website of the Company viz. <http://ujaas.com/wp-content/uploads/2014/03/letter-of-appointment-mentioning-terms-and-conditions-of-appointment1.pdf>

Familiarization programmes imparted to Independent Directors:

All Independent Directors are familiarized with the Company, their roles, rights, responsibilities in the Company, nature of the industry in which the Company operates, business model of the Company, etc., from time to time. The Company makes consistent efforts

to acquaint the Board with the overall business performance covering all business verticals. The details regarding the independent Directors’ familiarization programmes can be accessed at <http://ujaas.com/wp-content/uploads/2014/03/FAMILIARIZATION-PROGRAMME-FOR-UJAAS.pdf>

Separate Meeting of Independent Directors:

A separate meeting of Independent Directors of the Company as per the requirements of Schedule IV of the Companies Act, 2013 and Listing Regulation was not held due to cessation of independent Directors of the Company on completion of their tenure and no independent directors have been appointed till the date of AGM due to suspension of powers of the Board of Directors of the Company.

PERFORMANCE EVALUATION OF BOARD

The Nomination and Remuneration Committee lays down the criteria for performance evaluation of Independent Directors and other Directors, the Board of Directors and Committees of the Board of Directors.

Pursuant to the provisions of the Companies Act, 2013 and Regulation 17 of Listing Regulations, the Board has carried out an Annual Performance Evaluation of its own performance, the Directors individually as well as the evaluation of the working of its Committees.

Performance Evaluation of the Independent Directors was carried out by the entire Board excluding the Director being evaluated whereas evaluation of Executive Directors was done by the Independent Directors in a separate meeting in which only Independent Directors were present. Feedback was sought from each Director about their views on the performance of the Board covering various criteria such as degree of fulfillment of key responsibilities, Board structure and composition, establishment and delineation of responsibilities to various Committees, effectiveness of Board processes, information and functioning, Board culture and dynamics, quality of relationship between the Board and the Management and efficacy of communication with external stakeholders and performance of specific duties, obligations and governance, compliance, oversight of Company’s subsidiaries, etc. Feedback was also taken from every director on his assessment of the performance of each of the other Directors.

The Nomination and Remuneration Committee (NRC) then discussed the above feedback received from all the Directors. Based on the inputs received, the Chairman of the NRC also made a presentation to the Independent Directors at their meeting, summarizing the inputs received from the Directors as regards to Board performance as a whole, and of the Chairman. The performance evaluation of the Chairman and the Non-Independent Directors was carried out by the Independent Directors. Qualitative comments and suggestions of Directors were taken into consideration by the Chairman of the Board and the Chairman of the Nomination and Remuneration Committee. The Directors have expressed their satisfaction with the evaluation process.

Some of the performance indicators on the basis of which the evaluation of Independent Directors was done are as follows:

- a) Active participation in Long-term Strategic Planning.
- b) Ability to contribute good practices internationally) To deal with top management issues.
- d) Fulfillment of Director's responsibilities as prescribed under the Act.
- e) Commitment to attend meetings of board and committees.
- f) Ability to monitor corporate governance of Company and effective suggestions for improvement if any required.

COMMITTEES OF THE BOARD

The Board of Directors has constituted Board Committees to deal with specific areas and activities which concern the Company and requires a closer review. The Board Committees are formed with approval of Board of Directors and work as per their Charters in line with the Companies Act, 2013 and Listing Regulation. The Board has currently established the following statutory and non-statutory Committees.

A. AUDIT COMMITTEE

The Audit Committee is delegated with all the powers and functions of approving Annual Internal Audit Plan, review of financial reporting system, internal control system, interaction with Statutory and Internal Auditors,

discussion on financials , review of management discussion and analysis report, review of internal audit report and significant related party transactions, if any and recommendation for the appointment of Statutory Auditors, Secretarial Auditor, Internal Auditor and their remuneration. The Committee followed the role and responsibilities as defined under the Act and Listing Regulation throughout the year under review. In fulfilling the above role, the Audit Committee has powers to investigate any activity within its terms of reference, to seek information from employees and to obtain outside legal and professional advice.

The Audit Committee invites such of the executives, as it considers appropriate (and particularly the head of the finance function), to be present at its meetings. The Chief Financial Officer (CFO) and head of Internal Audit attend the meetings. The Statutory Auditors are also invited to the meetings.

Composition of the Audit Committee:

The Audit Committee of the Company has been constituted in line with the provisions of Regulation 18 of the Listing Regulation read with Section 177 of the Companies Act, 2013. All members of the Audit Committee are financially literate and have relevant experience in financial matters. during the year the Audit Committee of the Company consists of Mrs. Yamini Karmarkar, Chairperson of the Audit Committee, the other members of the Audit Committee included Mr. Prakash Dandekar, Independent Director and Mr. Anurag Mundra, Director.

Note:-

At the end of the year, all the independent directors of the company have ceased their office due to completion of their tenure and no independent directors have been appointed till the date of AGM due to suspension of powers of the Board of Directors of the Company. Hence, once the independent directors appointed by the company necessary reconstitution of the committee would be done accordingly.

Internal Control Processes:

The Company continuously invests in strengthening its internal control and processes. The Audit Committee along with the CFO formulates a detailed plan to the Internal Auditors for the year, which is reviewed at

the Audit Committee Meetings. The Internal Auditors attend the meetings of Audit Committee at regular intervals and submit their recommendations to the Audit Committee and provide a road map for the future.

Meetings of the Audit Committee:

During the financial year 2021-22 the Audit Committee met one (1) times i.e., 31st January, 2022. The Committee also reviews information prescribed under the Listing Regulation. The Senior Account Personnel, Company Secretary and the representative of Statutory Auditors, Internal Auditor/Consultants were also invited for the meetings of Audit Committee. The Company Secretary acts as Secretary of the Committee. Apart from various responsibilities, Committee focused on the area of Internal Control to improve overall efficiency of organization.

The Details of Committee Chairman and Members along with details of meetings and attendance are given below:

Mr. Anurag Mundra	Member/ Executive Director	1	1	CFA

B. NOMINATION AND REMUNERATION COMMITTEE

the Nomination and Remuneration Committee comprised of three non-executive Independent Directors. The Committee was comprising of three Non-Executive Independent Directors, Mrs. Yamini Karmarkar is the Chairperson of the Committee & other members of the Committee include Mr. Prakash Dandekar & Mr. Piyush

Kumar Sinha, Non-executive Independent Directors. The Composition of Nomination and Remuneration Committee is pursuant to the provisions of Section 178 of the Companies Act, 2013 and Regulation 19 of Listing Regulation.

Note:-

During the year, all the independent directors of the company have ceased their office due to completion of their tenure and no independent directors have been appointed till the date of AGM. Hence, once the independent directors appointed by the company necessary reconstitution of the committee would be done accordingly.

Terms of Reference:

The Board has framed the Nomination and Remuneration Committee Charter which ensure effective Compliance of Section 178 of the Companies Act, 2013 and Regulation 19 of Listing Regulation which are as follows:

- Reviewing the overall Nomination and Remuneration policy, service agreements and other employment conditions of Managing/Whole-time Director(s) and Senior Management (one level below the Board).
- To help in determining the appropriate size, diversity and composition of the Board.
- To recommend to the Board appointment/reappointment and removal of Directors, KMP's and Senior level management and other employees.
- To frame criteria for determining qualifications, positive attributes and independence of Directors.
- To recommend to the Board remuneration payable to the Directors (while fixing the remuneration to Executive Directors the restrictions contained in the Companies Act, 2013 are considered), KMP's and Senior level management and other employees.
- To create an evaluation framework for Independent Directors and the Board.
- To assist the Board in fulfilling responsibilities entrusted from time-to-time.
- Identify the candidates to become Directors.

Meeting details and Attendance during the year:

During the year under review one meeting of the Nomination and Remuneration Committee was held on 31st January, 2022. The necessary quorum was present for the Meeting.

The details of members of the Nomination and Remuneration Committee as on 31st March, 2022 is stated below with their attendance and designation:

Performance Evaluation of Independent Directors:

The performance evaluation of Independent Directors is already covered earlier under the head of Board Evaluation.

REMUNERATION POLICY

A. Remuneration to Executive Directors:

The appointment and remuneration of Executive Directors including Chairman and Managing Director and Whole-time Director is governed by the recommendation of the Nomination and Remuneration Committee, Resolutions passed by the Board and Shareholders of the Company. The remuneration package of Chairman and Managing Director and Whole-time Director comprises of salary, perquisites and allowances, and contributions to other Retirement Benefit Funds as approved by the shareholders at the General Meetings. Annual increments are linked to performance and are decided by the Remuneration and Nomination Committee and

recommended to the Board for approval thereof. The remuneration paid to Executive Directors are under the limits prescribed under the Companies Act, 2013.

B. Remuneration to Non-Executive Directors:

The Non-Executive Directors are not paid any remuneration. Sitting fees paid for attending the Board meetings and Committee meetings.

The Remuneration policy of the Company is uploaded on the website of the Company on <http://ujaas.com/wp-content/uploads/2015/09/Nomination-Remuneration-Policy.pdf>

Details of Remuneration paid to Directors during the year:

TO THE MEMBERS OF UJAAS ENERGY LIMITED**

TO,
THE MEMBERS
UJAAS ENERGY LIMITED
CIN- L31200MP1999PLC013571

We have examined the compliance of conditions of Corporate Governance by UJAAS ENERGY LIMITED (“the Company”), for the financial year ended March 31, 2022 as stipulated in Regulations 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27 and clauses (b) to (i) of sub-regulation (2) of regulation 46 and Para C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (collectively referred to as “SEBI Listing Regulations, 2015”).

The Compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to a review of procedures and implementation thereof, adopted by the Company for ensuring compliance with the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us and the representations made by the Directors and the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing Regulation except following:

1. Regulation 17 whereby the Company has not appointed/reappointed the Independent Directors in compliance with the said regulation.
2. Regulation 18 to 21 whereby the Company does not have the composition in compliance with the said regulation. Further only one meeting of audit committee was held during the financial year 2021-22.

Further the company is under Corporate Insolvency Resolution Process (CIRP) under which the power of management is vested with Resolution Professional (RP) and due to this all the executive directors have been treated as non-executive directors.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Independent Auditors Report

To,
The Members of
Ujaas Energy Limited

Report on the Financial Statements

Qualified Opinion

We have audited the accompanying financial statements of Ujaas Energy Limited (“the Company”), which comprise the balance sheet as at 31st March 2022, and the statement of Profit and Loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs of the company as at 31st March, 2022, and its loss (including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

Attention is drawn to :

1. As mentioned in Note 42 & 43 of the Statement, creditors were called upon to submit their claims. Claims submitted by the Financial creditors and operational creditors are subject to reconciliations. Pending reconciliation and final outcome of the CIRP, no accounting impact in the books of accounts has been given in respect of excess, short, or non-receipts of claims for operational and financial creditors. Hence consequential impact, if any, on the financial statements is currently unascertainable.
2. We have been informed by Resolution Professional that the certain information including the minutes of the meeting of the Committee of Creditor and the outcome

of certain procedures carried out as a part of the CIRP are confidential in nature and could not be shared with anyone other than the Committee of Creditor and NCLT. Accordingly, we are unable to comment on the possible financial impact, presentation and disclosure, if any, that may arise if we have been provided access to those information.

3. As mentioned in Note No 44 of the Statement, no impairment assessment of property plant and equipment and intangible asset in carrying value as at 31st March, 2022 is made. Therefore, we are unable to comment on consequential impairment, if any, that is required to be made in carrying value of property, plant and equipment and intangible assets.
4. Note No. 45 regarding balance confirmations not been received in respect of trade receivables, trade and other payables, and loans and advances as a result of which reconciliation process and consequential adjustments, if any, has not been carried out. The Company has adjusted / provided significant amounts basis its internal estimates, against which necessary supporting documentation has not been made available to us.
5. Note 46 of the financial statements with regards to difference in borrowings of Rs. 1398.85 lacs arising with bank balance confirmation due to the interest on borrowings being recognized by the Company based on the sanction terms of borrowing, whereas the lenders has not charged the same. Had the interest not being recognized by the Company, the loss for the year would have reduced by Rs 723.28 lacs.
6. Note 47 of the financial statement with regards to difference arising in accrued interest on fixed deposit of Axis Bank by Rs 22.68 lacs due to interest being recognized by the Company on accrual basis, where as Axis Bank has not provided interest in their statement.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics

issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty related to Going Concern

Since the Corporate Insolvency Resolution Process (CIRP) is currently in progress, as per the Insolvency & Bankruptcy Code, it is required that the Company be managed as going concern basis during CIRP. The financial statement is continued to be prepared on going concern basis. However, there exists material uncertainty about the Company's ability to continue as going concern since same is dependent upon the resolution plan approved by the CoC, to be approved by NCLT. The appropriateness of preparation of financial statement on going concern basis is critically dependent upon outcome of CIRP as specified in the Code.

Emphasis of Matter

1. We draw attention to the note 50 of the financial statements with regards to management's assessment of, inter-alia, realisability of assets due to COVID 19 pandemic outbreak.
2. We draw your attention to note 2 of the Statements with regards to management's assessment of inter-alia, realisability of Renewable Energy Certificates amounting to Rs. 1173 lacs which is subject to adjudication of pending litigation at Apex Court. The management is hopeful of realizing the aforesaid amount considering the legal opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board’s Report including Annexures to Board’s Report, Corporate Governance and Shareholder’s Information,

but does not include the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and,

in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard..

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the company's (Indian Accounting Standard) Rules 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statement in place and the operating effectiveness of such controls.
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or

conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- e. Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of

section 143 of the Companies Act, 2013, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure B To the Independent Auditor's Report of even date on the Financial Statements of Ujaas Energy Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Ujaas Energy Limited as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely

preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of

records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India..

The company is a public limited company and its shares are listed on bombay stock exchange (BSE) and national stock exchange (NSE).

B. Significant accounting policies

a. Statement of compliance

The separate financial statements have been prepared in accordance with Indian Accounting standards (“Ind AS”) notified, under section 133 of the Companies Act, 2013 (‘Act’) read with the rules notified under the relevant provisions of the Act.

b. Basis of Preparation:

The financial statements have been prepared on accrual basis and under the historical cost convention except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below.

All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Functional and presentation currency

The financial statements including notes thereon are presented in Indian Rupees (“Rupees” or “INR”), which is the Company’s functional and presentation currency. All amounts disclosed in the financial statements including notes thereon have been rounded off to the nearest lacs upto two places of decimal of Rupees as per the requirement of Schedule III to the Act, unless stated otherwise.

c. Use of Estimates, Judgments and Assumptions

The preparation of financial statements in accordance with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

All the assets and liabilities have been classified as current or non-current as per the company’s normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

Significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have significant effect on amount recognized in the financial statements are:

- i. Allowance for bad and doubtful trade receivable.
- ii. Recognition and measurement of provision and contingencies.
- iii. Depreciation/ Amortisation and useful lives of Property, plant and equipment / Intangible Assets.
- iv. Recognition of deferred tax.
- v. Income Taxes.
- vi. Measurement of defined benefit obligation.
- vii. Impairment of Non-financial assets and financial assets.

d. Inventories

Inventories are valued at lower of cost and net realisable value, except scrap are valued at net realisable value. Cost of inventory is arrived at by using Weighted Average Price Method. Cost of inventory generally comprises of cost of purchase, cost of conversion and other cost incurred in bringing the inventory to their present location and condition.

e. Revenue

Recognition

The company recognised revenue i.e. account for a contract with a customer only when all of the following criteria are met:

- (a) the parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations;
- (b) the entity can identify each party's rights regarding the goods or services to be transferred;
- (c) the entity can identify the payment terms for the goods or services to be transferred;
- (d) the contract has commercial substance (ie the risk, timing or amount of the entity's future cash flows is expected to change as a result of the contract); and
- (e) it is probable that the entity will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity shall consider only the customer's ability and intention to pay that amount of consideration when it is due. The amount of consideration to which the entity will be entitled may be less than the price stated in the contract if the consideration is variable because the entity may offer the customer a price concession.

Measurement

When (or as) a performance obligation is satisfied, company recognise as revenue the amount of the transaction price (which excludes estimates of variable consideration that are constrained) that is allocated to that performance obligation.

The transaction price is the amount that the entity expects to be entitled to in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, some sales taxes). The consideration promised may include fixed amounts, variable amounts, or both.

(i) Revenue recognition Sale of Power

Revenue from sale of Power is recognized at point in time basis on acceptance by Electricity Distribution Company/Consumers of units generated and after giving allowance for wheeling and transmission loss.

(ii) Rendering of Services

Revenue from rendering of services is recognized over time as and when the customer receives the benefit of the company's performance and the Company has an enforceable right to receive payment for services transferred.

Unbilled revenue represents value of services performed in accordance with the contract terms but not billed.

(iii) Sale of Solar products

Revenue from turnkey contracts is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

(iv) Sale of Electric Vehicle

Revenue is recognised when control of vehicles have been transferred to the customer; at an amount that reflects the consideration which the Company expects to be entitled in exchange for those goods.

(v) Other operational revenue represents income earned from the activities incidental to the business and is recognized when the performance obligation is satisfied and right to receive the income is established as per the terms of the contract.

(vi) Dividend and Interest income

Interest income is recognized on accrual basis using the effective interest method. Dividend income is recognised in profit or loss on the date on which the company's right to receive payment is established.

f. Property, Plant and Equipment

(i) Property, plant and equipment

Property, Plant and Equipment are stated at cost less accumulated depreciation and accumulated impairment losses, (if any), Free hold land is measured at cost.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, acquisition or construction cost including borrowing costs, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company and cost of which can be reliably measured.

(iii) Capital work in progress

Assets under erection/installation are shown as 'Capital work in progress', Expenditure during construction period are shown as 'pre-operative expenses' to be capitalized on erection/installations of the assets.

(iv) Depreciation

Depreciation on Property, plant and equipment is provided in the manner specified in Schedule II to the Companies Act, 2013 except based on technical evaluation the useful life of Solar power generation plant is considered 25 years which is different from that prescribed in schedule II of the Act. Depreciation of Property, plant and equipment is the difference between Original cost / revalued amount and the estimated residual value and is charged to the statement of profit and loss over the useful life on straight line basis. The estimated useful life of property, plant and equipment and estimated residual value is taken as prescribed under Schedule II to the Companies Act, 2013.

Depreciation on additions during the year is provided on pro rata basis with reference to date of addition/installation. Depreciation on assets disposed /discarded is charged up to the date on which such asset is sold. Freehold land and Assets held for sale are not depreciated.

The estimated useful lives, residual value and depreciation method are reviewed at the end of each balance sheet date, any changes therein are considered as changes in estimate and accordingly accounted for prospectively. Gains and losses on disposal are determined by comparing proceeds with carrying amounts. These are included in the statement of Profit and Loss.

g. Intangible assets

Identifiable Intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

i. Recognition and measurement

Intangible assets are held at cost less accumulated amortisation and impairment losses. Intangible assets developed or acquired with finite useful life are amortised on straight line basis over the useful life of asset.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only when it is probable that future economic benefits attributable to the assets will flow to the company and the cost of the assets can be reliably measured. All other expenditure, including expenditure on internally generated goodwill and brands, when incurred is recognised in statement of profit or loss.

iii. Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognised in statement of profit and loss.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if required. Intangible assets - Computer software are amortized over a period of 3 years.

h. Impairment of non-financial asset

The company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial assets are impaired. If any such indication exists, the company estimates the amount of impairment loss. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets is considered as cash generating unit. If any such indication exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in profit or loss and reflected in an allowance account. When the company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through profit or loss.

When an impairment loss subsequently reverses, the

carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been in place had there been no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in Statement of Profit and Loss, taking into account the normal depreciation/amortization.

i. Foreign currency transactions and translations

- (i) All transactions in foreign currency are recorded at the rates of the exchange prevailing on the dates when the relevant transactions took place; any gain/ loss on account of the fluctuations in the rate of exchange is recognized in the statement of Profit and Loss.
- (ii) Monetary items in the form of loans, current assets and current liabilities in foreign currencies at the close of the year are converted in the Indian currency at the appropriate rate of exchange prevailing on the dates of the Balance Sheet. Resultant gain or loss on account of fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.
- (iii) Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated in to functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.
- (iv) In respect of the Forward Exchange Contracts entered into to hedge foreign currency risks, the difference between the Forward Rate and Exchange Rate at the inception of the contract is recognized as income or expense.

j. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it

is recognised as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

The Company has chosen to present grants related to an asset item as other income in the statement of profit and loss.

k. Employee benefits

Defined Contribution plan

Provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense when an employee renders the related service.

Defined benefit plan

The company pays gratuity to the employees who have completed 5 Yrs of service with company at the time when the employee leaves the company as per the payment of gratuity act 1972

The cost of providing benefits under the defined benefit plan is determined using the actuarial valuation on projected unit credit method made at the end of each financial year.

Remeasurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which

they occur. Remeasurement of the net defined benefit liability (asset) recognised in other comprehensive income shall not be reclassified to profit or loss in a subsequent period.

The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs; and
- Net interest expense or income

Short term employee benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered by employees is recognized during the period when the employees renders the services. These benefits include compensated absence also.

Long term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability using the actuarial valuation on projected unit credit method made at the end of financial year.

Share based payments

Share based compensation benefits are provided to employees under the Employee Stock Option Scheme 2015.

The fair value of options granted under the Employee Stock Option Scheme 2015 is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be recognised is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expenses are amortized over the vesting/ service period.

At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service and non-market performance vesting conditions. It recognises the impact of the revision to original estimates, if any, in the statement of profit and loss, with a corresponding adjustment to equity.

In case of share based payments to employees of the parent company and its subsidiaries, in the separate financial statements, the parent company records a debit, recognising an increase in the investment in the subsidiaries and a credit to equity.

1. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

Borrowing costs consist of interest and amortization of ancillary costs incurred in connection with the arrangement of borrowed funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

m. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As per the requirements of Ind AS 116 the company evaluates whether an arrangement qualifies to be a lease. In identifying a lease the company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Right of Use Assets

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located.

The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the lease term. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable and impairment loss, if any, is recognised in the statement of profit and loss.

Lease Liability

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole.

The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to

reflect the lease payments made and re-measuring the carrying amount to reflect any reassessment or lease modifications. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

n. Tax Expenses

Tax expense or credit comprises of current income tax and deferred tax.

Current tax

Current income-tax expense or credit is measured at the amount expected to be paid to the taxation authorities in accordance with the Income-tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Current tax assets and liabilities are offset only if, the Company:

- a. has a legally enforceable right to set off the recognised amounts; and
- b. intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably, and it is probable that the future economic benefit associated with the asset will be realised.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

o. Provisions, contingent liabilities and contingent assets

Provisions are recognised when there is a present legal or constructive obligation as a result of past events and

it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability. The Company does not recognize a contingent liability but discloses its existence in the financial statements

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized, but its existence is disclosed in the financial statements.

p. Fair Value Measurement

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in

Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

q. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options; and embedded derivatives in the host contract.

i. Financial assets

Classification

The Company shall classify financial assets and subsequently measured at amortised cost, fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset, in the case of financial assets not recorded at fair value through profit or loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

Financial Asset measured at amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Financial Asset measured at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Financial assets included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the profit and loss.

On derecognition of the non-derivative debt instruments designated at FVOCI, cumulative gain or loss previously recognised in OCI is reclassified from the equity to profit and loss. Whereas On derecognition of the equity instruments designated at FVOCI, cumulative gain or loss previously recognised in OCI is reclassified from the equity to retained earnings.

Interest earned whilst holding FVOCI debt instrument is

reported as interest income using the EIR method.

Financial Asset measured at fair value through profit and loss (FVTPL)

FVTPL is a residual category for financial asset. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL. In addition, the group company may elect to classify a financial asset, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e. removed from the company's balance sheet) when:

- i. The rights to receive cash flows from the asset have expired, or
- ii. The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.
- iii. When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated

liability are measured on a basis that reflects the rights and obligations that the company has retained.

- iv. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.

b) Trade receivables.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- i. Trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

- ii. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ii. Financial liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for

financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or amortised costs.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The company's financial liabilities include trade and other payables, loans and borrowings, financial guarantee contracts and derivative financial instruments.

Financial liabilities measured at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 Financial Instruments are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised

in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to interest-bearing loans and borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheet when, the company has a legally enforceable right to set off the amount and it intends either to settle them on net basis or to realize the asset and settle the liability simultaneously.

(i) Derivative financial instruments

The company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts, to hedge its foreign currency risks, interest rate risks and commodity price risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

r. Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk

of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalent includes the cash and Cheques in hand, bank balances, demand deposits with bank and other short term highly liquid investments and balances with banks which are unrestricted for withdrawal and usage.

Bank overdraft are shown within borrowings in current liabilities in the balance sheet and forms part of financing activities in the cash flow statement. Book overdraft are shown within other financial liabilities in the balance sheet and forms part of operating activities in the cash flow statement.

s. Cash Flow Statement

Cash flows are reported using the indirect method, where by profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

t. Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Potential ordinary shares shall be treated as dilutive when, and only when, their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

u. Mandatory Exceptions applied- Standards issued but not yet effective:

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1, 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts – Costs of Fulfilling a Contract

The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an

allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the ‘10 percent’ test of Ind AS 109 in assessing whether to derecognise a financial liability. The company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 116 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The company does not expect the amendment to have any significant impact in its financial statements.

Note 39 'Financial risk management objectives and policies

Fig in INR Lakhs

In its ordinary operations, the companies activities expose it to the various types of risks, which are associated with the financial instruments and markets in which it operates. The company has a risk management policy which covers the foreign exchanges risks and other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the board of directors. The following is the summary of the main risks:

a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates (currency risk) and interest rates (interest rate risk), will affect the companies income or value of it's holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

i) Interest rate risk

Interest rate risk is the risk the fair value or future cash flow of a financial instrument will fluctuate because of changes in market interest rate. Fair value interest rate risk is the risk of changes in fair value of fixed interest bearing financial instrument because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing financial instrument will fluctuate because of fluctuations in the interest rates.

The Company's exposure to the risk of changes in market interest rates relates primarily to the borrowing from banks and other interest bearing borrowing. Currently company is not using any mitigating factor to cover the interest rate risk.

Particulars	For the Year Ended 31st Mar 2022	For the Year Ended 31st Mar 2021
Interest rate risk exposure		
Borrowings from banks	12,364.18	11,077.75
Loan From - Related Parties	10.30	10.30
Loan From - Others	50.00	50.00
Total borrowings	12,424.47	11,138.05

Interest rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rates for borrowing at the end of the reporting period and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period in case of term loans that have floating rates. If the interest rates had been 1% higher or lower and all the other variables were held constant, the effect on Interest expense for the respective financial years and consequent effect on companies profit in that financial year would have been as below:

Particulars	For the Year Ended 31st Mar 2022	For the Year Ended 31st Mar 2021
On account of Variable Rate Borrowings from Banks		
a) Impact on Profit or (Loss) for the year decrease	124.24	111.38
b) Impact on Profit or (Loss) for the year Increase	-124.24	-111.38

ii) Foreign currency risk

The Company enters into transactions in currency other than its functional currency and is therefore exposed to foreign currency risk. The Company analyses currency risk as to which balances outstanding in currency other than the functional currency of that Company. The company enters in to derivative financial instrument such foreign currency forward contract and option contracts to mitigate the risk of changes in exchange rate on foreign currency exposure.

The summary quantitative data about the Company's exposure to currency risk as reported by the management of the Company is as follows:

Fig in INR Lakhs

	Sensitivity analysis			
	Profit/(Loss) for the Year Ended 31st March 2022		Profit/(Loss) for the Year Ended 31st March 2021	
	Increase	Decrease	Increase	Decrease
Sensitivity to foreign currency risk	-	-	1.83	-1.83

(b) Credit risk

Credit risk is the risk that arises from the possibility that the counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

Financial assets that are subject to such risk, principally consist of trade receivables, Investments and loans and advances. None of the financial instruments of the company results in material concentration of credit risk.

Financial assets are written off when there is no reasonable expectation of recovery, however, the Company continues to attempt to recover the receivables. Where recoveries are made, these are recognised in the Statement of Profit and Loss.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date.

(i) Trade and other receivables

To Manage trade and other receivables, the company periodically assesses the financial reliability of customers, taking in to account the financial conditions, economic trends, analysis to historical bad debts and ageing of such receivables.

The ageing analysis of the trade receivables has been considered from the date the invoice falls due

(ii) Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties apart from those already given in financials, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

(iii) Cash and cash equivalents

The Company holds cash and cash equivalents with credit worthy banks of Rs. 696.18 lakhs as at March 31, 2022 (Rs.152.61 lakhs as at March 31, 2021).The credit worthiness of such banks is evaluated by the management on an ongoing basis and is considered to be good.

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due.

The Company has obtained fund and non-fund based working capital lines from various banks. The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, process and policies related to such risk are overseen by senior management. Management monitors the company's net liquidity position through rolling forecasts on the basis of expected cash flows.

B. Measurement of fair values

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the Ind AS. An explanation for each level is given below.

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.
