Being a prominent player in the global automotive segment, we are all set to capitalise our core capabilities by laying solid pillars of growth in the non-automotive segment. We are doing so with the launch of Brushless DC Motors (BLDC) and Driver Electronics (ESDM) befitting to Fast Moving Electrical Goods (FMEG), besides enhancing footprints in the domestic automotive landscape.

We are leveraging newer technologies and platforms for energy-efficient appliances. We are strengthening our product portfolio with emerging technology-agnostic offerings, viz., 2W Torque Actuator Motors (TAM) and Electric Parking Brake (EPB) to continue our journey of excellence by leveraging our robust capabilities and mass manufacturing prowess. We have also successfully built a motor for E2W/E3W application which is currently in the advanced product development cycle.

Our consistent efforts to diversify product applications for both global and Indian automotive segments coupled with the deployment of newer technology platforms are likely to drive success. Having weathered the unprecedented challenges caused by the pandemic and consequent chip shortages impacting our customer schedules and deliveries, we are now confident of recovering and driving sustained growth in the years to come.

FORTIFYING STRENGTHS **POWERING** PROGRESS

ABOUT US

Igarashi Motors India Limited (IMIL) is primarily engaged in the production and export of Permanent Magnet DC Motors for Powertrain and seat applications and motor accessories for the automotive sector. We commenced our journey as a humble contract manufacturer in 1996. Since then, we have populated over 500 million DC motors for usage in actuator applications in passenger cars. Today, we are recognised as a leading global automotive component market player in Actuator Motors. The Company had populated over 750K BLDC Motors for ceiling fan applications.

Our state-of-the-art manufacturing facilities and logistic warehouses are located at MEPZ-SEZ, Chennai & DTA Unit at Maraimalai Nagar. Robust manufacturing, innovation and technology edge, vast expertise, and high operational efficiencies underpin the operations of the Company.

OUR VISION

To be the supplier partner of choice for electric motors by global customers for selected niche applications in automotive as well as energy-efficient motors for consumer appliances.

OUR MISSION

Build the required knowledge to manufacture the best product for customers' application needs and continuously provide solutions for customers' changing needs.

Ensuring products are of acceptable quality, value for money, manufacturing excellence and earn customers' goodwill.

PRODUCT PORTFOLIO

Expansion of Product Portfolio for various applications in 4W:

We continue to adopt key products for various applications in the automotive segment namely in the areas of Engine, Turbo and Exhaust for both global and Indian markets. Over the years, we have expanded from being purely in the ETC space to being a player in EGR, WGA, VGT, CCV, etc.

Penetration into Domestic 4W TAM:

Domestic TAM Motor volume growth is expected to enhance with penetration into the 4W domestic market due to adoption of BS-VI norms. Towards this, we have launched 10 programs for the top domestic Tier-1 customers with more launches in the pipeline.

Tapping 2-Wheeler TAM:

Indian OEMs are looking at changeover from Carburettor system to electronic throttle valve system (BS-VI), which has also contributed to expansion of our product portfolio to 2W TAM in domestic market with leading market players. Our focus is on the 150+ cc segment of around 15-25% in the 2W market in the near term.

Electric Parking Brake (EPB):

EPB are becoming increasingly common in new cars due to its feature-rich capabilities. Since this product is common for both ICE/BEV technology, we focus on building our product portfolio in this space. Our R&D desk is carrying out the launch process targeting both domestic & global markets.

Trunk Opening and Closing Device (TOCD) & Seat Application:

Igarashi Global leads TOCD motor applications in the global market. We are assessing the launch of TOCD application with renowned players in the export and domestic market under China-Plus-One strategy.

EV Traction Motor Platform:

A platform has also been developed for electric vehicle applications. We are exploring strategic alliances to step up our play in the global automotive industry for this platform. Igarashi technology desk is gearing up to embrace the ever-changing environment by developing BLDC EV Motors with drivers for E2W/E3W electric vehicle segment (eVA Series) by Year 2024/2025 for ranges between 3KW & 10KW.

Energy-Efficient BLDC Motor for Consumer Appliances Segment:

As a part of electric motors with energy-efficient appliances, we have launched the BLDC motor platform for consumer electrical appliances. Since our foray into the consumer appliances space, we have populated around 750K units counting on three models with 12 variants using the remote unit. We are exploring opportunities to extend this application with IoT feature and a cost-effective retrofitting wall regulator option for converting induction fans into energy-efficient BLDC fans. In addition, we are working to launch motors for global markets. As a specialist BLDC Motor manufacturer, we are expanding energy-efficient appliances portfolio with potential designs for TPW Fans on the validation desk and air coolers active on the design desk.

ESDM (Electronic System Design & Manufacturing):

Our efforts in the past four years in Electric Motor Drivers and Controllers have given us the necessary base of engaging in new opportunities in the ESDM space. With the ongoing geopolitical issues faced by China, we have established the driver and controller line for BLDC with a capacity of 2.5 Mio. This has helped us navigate the PCB crisis during the year. The first set of external supply samples have been cleared by customers. Our Electronics R&D Team is also in discussions with various consumer appliances segment leaders for exploring further opportunities for the same.

CHAIRMAN'S MESSAGE

DESPITE THE
PANDEMIC,
SUPPLY-CHAIN
DISRUPTIONS AND
SEMICONDUCTOR
SHORTAGE ISSUES,
THE REVENUE WE
POSTED DURING
THE YEAR WAS
MARGINALLY
MORE THAN THE
PREVIOUS YEAR

DEAR SHAREHOLDERS,

I hope this letter finds you in good health as we prepare to leave the pandemic behind and gear up for a new and exciting future.

FY 2021-22 was an incredibly challenging year due to the new variants of the COVID-19 pandemic. The world was forced to grapple with unprecedented challenges while the business environment had shrunk due to supply-chain disruptions arising out of the geopolitical unrest and rising inflation worldwide.

Accordingly, our key focus areas were securing the safety and well-being of our people and ensuring continuity of business operations. Gradually, with the recovery in economic activities and demand, we focussed on significantly ramping up to fulfil customer demands across the world.

The global automotive industry was marred by several challenges during the second half of the year including

rampant supply chain and logistical bottlenecks, semiconductor and raw material shortages resulting in scaling down of OEM production schedules, and commodity price escalations. Based on the views from industry experts, there would be a stabilisation expected during the second half of Year 2022 with market emerging stronger than before.

Further, we also foresee huge opportunities in newer, energy-efficient technologies for fast moving electrical goods. Factors such as pent-up demand, government thrust on rural electrification and housing development, growing consumer preferences toward smart electrical products in a work-from-home (WFH) scenario, and premiumisation in many product categories have been driving the growth of the industry.

THE YEAR THAT WAS

From financial perspective, the past two years have tested the resilience of businesses at an unprecedented level. Despite pandemic, supply-chain disruptions and semiconductor shortage issues, the revenue we posted

OUR CONSISTENT EFFORTS TO STRENGTHEN OUR CORE CAPABILITIES, LAUNCH NEWER TECHNOLOGY PLATFORMS, AND DIVERSIFY PRODUCT APPLICATIONS FOR GLOBAL AND INDIAN AUTOMOTIVE SEGMENTS MAKE US WELL-POSITIONED TO DRIVE SUSTAINED, HIGH GROWTH

during the year was marginally more than the previous year, whereas the profitability for the year was impacted due to commodity escalations and fixed cost absorption during the second half of financial year.

KEY INITIATIVES AND WAY FORWARD

We have a strong track record and over two decades of experience in Torque Actuator Motors (TAM) for Electronic Throttle Control (ETC) applications. Now, we are focussed on expanding our wings and foray into new applications such as Exhaust Gas Recirculation (EGR), Variable Turbine Geometry (VTG), Coolant Control Valve (CCV), and Exhaust Flap Actuators (EFA) segments. Demand for such applications is seen increasing due to stringent emission norms for conventional and hybrid variants across the globe. Simultaneously, we are deploying newer technologies and platforms for energy-efficient appliances and strengthening our product portfolio with emerging technology-agnostic offerings, viz. 2W TAM and Electric Parking Brake (EPB) by leveraging our high-end manufacturing capabilities.

Under Electric Motors with Energy Efficiency for appliances theme, we are in the growth phase in the BLDC motor platform for ceiling fans. All the Indian fan manufacturers are gearing up with BLDC variants to tap the market opportunities stemming from the transition to energy-efficient standards paving way for the growth of the organised sector. During the year, the Electronics R&D commenced activities towards establishing footprint in the BLDC motor and controller segment. This would facilitate not only the design and development of BLDC motor controllers for fast moving electrical goods but also for EV Motor controllers. We are

also working on launching motors for TPW and air coolers which demonstrates strength of our motor manufacturing capabilities and will position us as a full service supplier to the various BLDC Fan OEMs. Further, we are well placed to capture the emerging opportunities in the electric vehicle space by launching a new platform of EV motors suitable for E2W/E3W.

FORTIFYING STRENGTHS, POWERING PROGRESS

Our consistent efforts to strengthen our core capabilities, launch newer technology platforms, and diversify product applications for global and Indian automotive segments make us well-positioned to drive sustained, high growth.

CONCLUSION

Finally, I would like to thank our employees, our customers, our suppliers, our investors, and all our stakeholders for their unstinted trust and support. We are grateful to you for reposing your faith in us and being an integral part of our journey. I would also like to express my sincere gratitude to the senior management team for their expert guidance and prudent decision-making during the difficult phase.

Warm Regards,

Hemant M Nerurkar

MESSAGE FROM KEIICHI IGARASHI, PRESIDENT IGARASHI GROUP

DEAR SHAREHOLDERS,

The year gone by, started on an overwhelming note with the severe second wave of the pandemic claiming countless lives across the globe. While exports and government expenditure increased during the year, private consumption failed to recover completely from the slowdown. The first half of the year presented promising opportunities with pent-up demand and the opening up of economies despite rising commodity prices. However, the situation worsened in the latter half with 4th wave of pandemic in China, supply chain bottlenecks, geopolitical tensions, and global semiconductor and raw material shortages.

Even though our performance in FY 2021-22 was subdued due to the above reasons, we, at Igarashi, recognised that we need to overcome these challenges and gear up for strong growth in the coming years. Amid stringent restrictions on mobility and large-scale disruptions, we demonstrated strong resilience, consolidated our core capabilities, and stayed on course with our strategic objectives.

The automotive industry is experiencing accelerated transformation. There is a growing demand for alternate fuel options, personal mobility solutions, and hybrid electric vehicles (HEV). Along with this, government's Atmanirbhar Bharat programme and announcement of Production-Linked Incentive (PLI) schemes for various associated sectors will facilitate the creation of a state-of-the-art automotive value chain infrastructure and transform India into an attractive destination for global players.

At Igarashi India, we are strengthening our core capabilities and penetrating deeper into the non-automotive segment. We are doing so with the successful expansion of Brushless DC Motors (BLDC) and Driver Electronics (ESDM) befitting to Fast Moving Electrical Goods (FMEG). The introduction of new energy ratings in India during the coming year will fuel higher penetration into the organised sector and Igarashi India is in better position to grab this opportunity. We have engaged with the market leader in the ceiling fans segment and populated a considerable number of BLDC fans in the market and are also working on launching motors for TPW and air coolers. Simultaneously, we are deploying newer technologies and platforms for energy-efficient appliances and strengthening our product portfolio with emerging technology-agnostic offerings, viz. 2W Torque Actuator Motors (TAM) and Electric Parking Brake (EPB) by leveraging our robust manufacturing capabilities, besides enhancing presence in the domestic automotive landscape.

I am eager to explore strategic contract manufacturing tie-ups for electric vehicles to leverage the large-scale mass manufacturing strength of Igarashi India. The Igarashi global R&D team along with Igarashi India R&D team have been progressing well on these technologies.

Overall, I am quite optimistic about Igarashi India team in driving business growth across both automotive space as well as FMEG segment. I am extremely grateful to all our stakeholders and team members for their continued engagement and support.

Yours sincerely,

Keiichi Igarashi

CORPORATE SOCIAL RESPONSIBILITY

The harmonious relation we share with the communities in which we operate is possible due to the numerous purposeful initiatives we undertake. Through our meaningful interventions, we strive to create a positive impact in the lives of people. Our CSR projects currently aim to promote cancer awareness (20 million reaches), provide healthcare to patients (30 Multiple Sclerosis patients), patient health and hygiene services (150-bed cancer block) in government hospitals and Prime Minister's National Relief Fund.

CANCER AWARENESS PROJECT

We have collaborated with the Indian Cancer Society to aid the cause of cancer awareness by removing fear of cancer from individuals and the society as a whole. These awareness programs intend to get rid of stigmas relating to cancer, foster the habits of regular check-up in people and promote a healthy lifestyle to prevent the occurrence of cancer. The program published information about cancer awareness, thus reaching out to 20 million people during the year. Through this intervention, we also donated a sum of ₹ 30,00,000 for this purpose.

MULTIPLE SCLEROSIS PATIENT HEALTHCARE

Through our partnership with Multiple Sclerosis Society, we intend to support multiple sclerosis patient care which supports rehabilitation care, personal care, and general wellness by trained staff. This program has been of assistance to the lives of thirty beneficiaries and involves a donation of ₹ 5,00,000.

MEPZ MANUFACTURERS ASSOCIATION

We support MEPZ Manufacturers Association for maintaining Health Centre and Environmental Protection activities by contributing ₹ 10,00,000 and this facility was beneficial to 250 persons working in MEPZ-SEZ, Tambaram, Chennai.

ASSISTANCE IN PROVIDING HEALTH AND HYGIENE IN GOVERNMENT HOSPITALS

We assist the Viswajayam Foundation in this project – Viswa Suraksha which seeks to improve health and hygiene facilities in the government hospitals in Chennai. We donated ₹ 10,00,000 in this aid and this initiative has been instrumental in impacting the lives of 40,000 beneficiaries.

DONATION TO PRIME MINISTER’S NATIONAL RELIEF FUND (PMNRF)

We donated a sum of ₹ 50,00,000 to the Prime Minister’s National Relief Fund (PMNRF). This fund has been used by the Government of India in providing medical assistance and relief in circumstances of floods, drought, terrorist violence and other such unforeseen occurrences with a reserve for emergencies.

Management Discussion & Analysis (MD&A)

GLOBAL ECONOMIC REVIEW

The year 2021 was a challenging one with the continuation of the pandemic and the subsequent lockdowns in most of the countries plunging the world economy into a deep recession. The first half of 2021 had shown signs of recovery with pick-up of pent up demand but the second half was impacted by reoccurrence of the pandemic, various lockdowns, upward trend of commodities and electronic chip shortage. As per the International Monetary Fund (IMF) estimates, the global economy grew by 5.9% in 2021 as against 3.3% contraction registered in 2020. Massive vaccination drives and additional policy support across the nations have raised hopes of a continuous growth trend in 2022. The strength of the recovery is projected to vary significantly across various countries, depending on access to medical interventions, effectiveness of policy support and exposure to cross-country spill overs. With growing vaccine availability, improved therapies, testing, and tracing, local transmission of the virus is expected to be contained to low levels world-over by 2022 provided effective management of recurring waves of infections and the successful vaccination drive penetrates faster.

(Source: IMF World Economic Outlook, April 2022)

INDIAN ECONOMIC REVIEW

Following the second wave of the COVID-19 pandemic, India's economy was well on its way to recovery, with both the manufacturing and service sectors exhibiting consistent growth. However, the emergence of new COVID-19 variants, supply-chain disruptions arising out of the Russia-Ukraine crisis, and, more recently, weaker consumer demand owing to higher oil and food prices have been posing fresh challenges to economic development. As per IMF, India's Gross Domestic Product (GDP) is estimated to have grown by 8.9% in FY 2021-22, and growth is expected at 8.2% in FY 2022-23, making India the fastest-growing major economy in the world.

The Indian economy is expected to remain resilient despite the ongoing geopolitical conflicts, mainly due to the economy's inherent strengths, strong fundamentals, and growth promising sectors. Growth will be supported by various dynamic reforms undertaken by the government, such as significant increase in capital expenditure on infrastructure, thrust on domestic manufacturing and technology-enabled development, and recovery in consumer demand, among others.

(Source: IMF World Economic Outlook, April 2022)

GROWTH WILL BE SUPPORTED BY VARIOUS DYNAMIC REFORMS UNDERTAKEN BY THE GOVERNMENT, SUCH AS SIGNIFICANT INCREASE IN CAPITAL EXPENDITURE ON INFRASTRUCTURE, THRUST ON DOMESTIC MANUFACTURING AND TECHNOLOGY-ENABLED DEVELOPMENT, AND RECOVERY IN CONSUMER DEMAND, AMONG OTHERS.

Commodity Trend

The demand side factors have been driving the commodity prices for the last couple of years. Supply chain disruptions, recovering manufacturing demand following pandemic, production issues in key producing countries, inflation-conducive government policy, adverse weather, and higher demand caused by work-from-home structure have all contributed to a tightening in the market, which has propelled the prices higher.

The commodity prices are expected to look less tight compared to previous year as the supply chains are expected to stabilise and improve during second half of 2022. Your Company has a commodity pass-through arrangement with all the major customers. Your Company is also working with suppliers for better price negotiations.

INDUSTRY REVIEW

Global & Indian Automotive Market

According to Global Data, Global Light Vehicle sales recorded growth of 5% (79.8 million units) in 2021.

The first half of the year presented promising opportunities of growth with pent-up demand and opening up of economies after the second wave despite soaring commodity prices. The situation deteriorated during the second half with

rampant supply chain bottlenecks, global semiconductor and raw material shortages resulting in scaling down of production schedules and outages of selected models as well as factories worldwide. The lead indicators show that the business during the first half of the year 2022 is also likely to remain subdued due to the persistent supply shortages and the consequent commodity escalations. Based on the macroeconomic headwinds, there would be a stabilisation expected during the second half with market emerging stronger than before. Accordingly, the outlook for 2022 is expected to be around 82 million units. At the same time, we need to adopt a cautious approach considering the risk of prolonged semiconductor shortages, unpredictable commodity prices, upward pressure on logistical cost and the looming geo-political tensions.

Considering the socio-economic situation and deployment of government policies for the revival, it is estimated that the automotive industry could reach the 100-million-unit milestone by 2025.

The year 2021 was mixed with rising expectations and at the same time a year of numerous challenges for India. Despite the slow offtake in vehicles sales due to supply-side issues, especially in the first half, the auto industry demonstrated a remarkable turn-around. Supply to meet domestic as well as export market, the auto industry has grown to significant levels in the first half of the year. While the second half witnessed a composition of challenges

like resurgence of demand for vehicles but inability to meet it due to supply-side issues such as chip shortage, increasing input costs, rising logistics costs and availability of containers, among others, which continued to hamper the recovery in the automotive sector.

Going forward year 2022, there are indications that the vehicle demand in India during the coming periods is expected to improve. Together with the increased focus by the auto industry on deep-localisation initiatives by global OEMs and the recent announcements of PLI schemes for various associated sectors by the Government will facilitate the creation of a state-of-the-art automotive value chain infrastructure and transform India into an attractive destination for the global players. Indian automotive industry predominantly manufacture PV with moderate chip consumption and this accompanied with optimal marketing solutions aligning to Indian consumer behaviour, it is expected that the automotive business is expected to grow at a faster pace by 8~10%. The Indian industry has the experience of passing through a tremendous learning curve, be it in terms of managing resources, supply chains adopting emerging technological trends and digitalisation, all around, to improve customer experiences and innovating quickly to respond to change in market dynamics. However, India need to adopt a cautious approach considering the concerns of another wave of pandemic, onset of semiconductor shortages, global logistic challenges, geo-political unrest and soaring commodity pressures.

Automotive Actuators Market

The Global Automotive Actuators Market size is projected to grow at a CAGR of 5.6%, to touch USD 39.5 billion by 2027 from USD 22.8 billion in 2016. Over and above this, the new era car is designed to equip with around 120 motors per car depending upon the variants. These actuators control various applications few of which are engine air management systems, headlight positioning, seat adjustment, grill shutter, HVAC systems, window lift drive, power tailgate drive, seat drive, sunroof drive and cooling systems for ICE & battery banks. Actuators role becomes crucial due to various applications like sensors, software programs, controller hardware as well as with the advent of stringent emission norms and regulatory requirements for the passenger comforts and safety. It aids ample opportunity for the actuators business as it turns out to be the backbone of both present and future automotive business.

With advancements in technology and electrification of power train, the automotive actuators market is growing continuously as Electric actuators have replaced hydraulic and pneumatic actuators due to lower noise emission, compact and lightweight design, digitalisation and electronic close looping system, and flexible installation options.

2-Wheeler ETV Market

The 2-Wheeler market in India was able to heave a sigh of relief as they could witness expansion in both domestic and export market in-line with the growth trends of first half of 2021. This flawless run of the market was put to a unanticipated halt in second half of 2021 as there was a slight de-growth accentuated by various factors like commodity, electronics and other consumer sentiments like customer's mindset, ever changing options and the rise of new entrants in the market.

The 2-Wheeler segment witnessed a transformational changeover in 150~500cc premium segment from the conventional carburettor system to Electronics Throttle Valve (ETV)/ Throttle By Wire (TBW) to meet the stringent BS-VI regulatory requirements. This transformation augurs value in fuel efficiency as well as riding quality to the customers.

Indian Consumer Appliances Market

Emergence of New Technology in Indian Fan Industry:

In the next five years, huge growth envisaged at a CAGR of 12%, presently it is at 9% for the year 2021-22. Indian Fan Industry is destined to enter into the Golden Era, post pandemic the pent-up in demand following customers' aspiration to chase better quality and better aesthetics. This segment is now receiving better traction than the Industrial average growth rate. The current Indian fan market size ~80mio and 75% of which is contributed by ceiling fan and the rest pertains to Table Pedestal & Wall Mount fans (TPW), Exhaust, etc.

GAMECHANGER

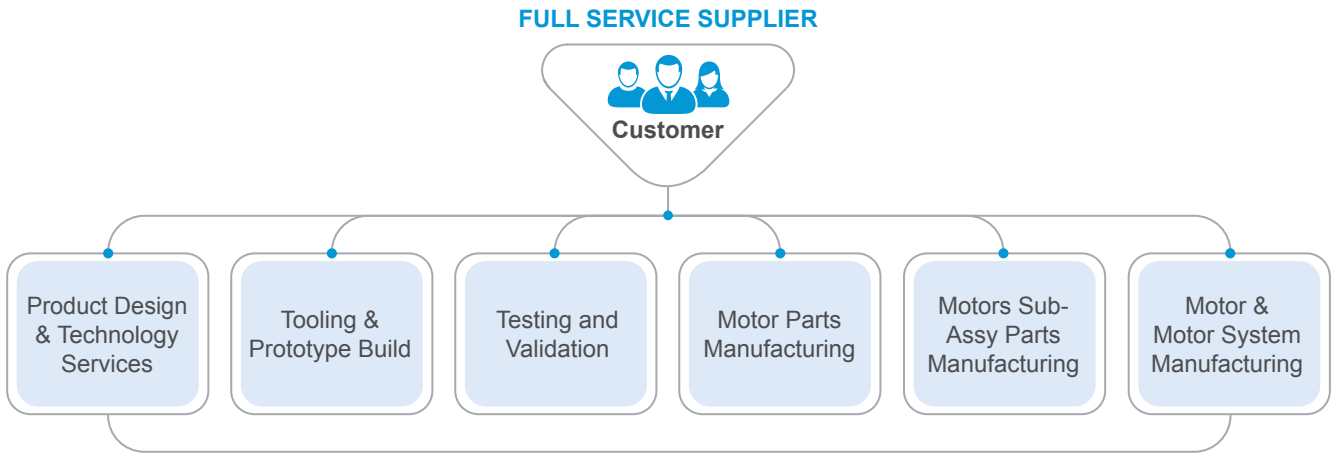

BLDC technology is set to compere the show in Indian Fan Industry as there is a concrete plan from BEE, for the implementation of star rated fans during the year 2022. With implementation of new star rating guidelines, the penetration of BLDC Motor technology in ceiling fan space is expected to go up to 35% in the next 3 years. With the substantial saving of >50% in power consumption in BLDC, this segment will herald a new revolution in the Indian fan market at much faster pace and aggression in the years to come. These energy-efficient fans will spurt fresh replacement of the conventional fans and would eventually result infusion of BLDC technology in a large scale.

Another important aspect to note is that the premium **ceiling fans** are gaining momentum following the widespread of offerings by fan manufacturers to cater the demand of luxurious customer segment. This prompted emergence of advance concepts like smart fans - IoT-enabled, App operated, voice controlled & decorative fans - under light versions etc., gaining wider acceptance and popularity. Even foreign players are attracted to this segment with their offerings on energy-efficient products.

Indian fan manufacturers are now focussing on the import substitution in **TPW fan** segment as it accounts for 30% of the Indian Fan market. Similarly, BLDC technology transfusion in the **Air cooler** platform presents immense opportunity as it is only the standby option to combat the soaring summer and at the same time, accounts for substantial volume in the air cooling segments. Leading Fan manufacturers are already exploring opportunities in TPW segments & Air coolers with the advent of BLDC technology and have already started positioning suitably in the market.

ELECTRIC MOTOR GROWTH PLATFORMS

Your Company's vast experience, manufacturing excellence, innovation capabilities, and efficient operations provide us a competitive edge enabling to produce niche products for critical automotive applications and "Electric Motors with Energy Competence" theme. Our key strategies for the future include expansion of TAM portfolio, penetration into 2W and 4W TAM in the domestic market, and developing new products for EPB & TOCD segments and energy-efficient BLDC Motors for consumer appliances.

Expansion of TAM Portfolio:

1. Expansion of Product Portfolio for various applications in 4W:

Your Company has been having a track record of more than two decades performance in ETC portfolio. Your Company currently has over 35 TAM programs catering to 10 customers spread across various geographic locations and these are expected to grow in tandem with the market. Now the Company has instilled enormous efforts in spreading its wings with new applications adopting ETC platform as its base. This enabled your Company to venture into new arena such as Exhaust Gas Recirculation (EGR), Variable Turbine Geometry (VTG), Coolant Control Valve (CCV) and Exhaust Flap Actuators in addition to the existing electronic throttle valve application. Your Company was able to penetrate both domestic as well as international markets with 4 new programs for 6 global Tier-1 customers. ETC, EGR, VTG, CCV, WGA & Exhaust Flap are all part of the TAM Portfolio.

2. Penetration into Domestic 4W TAM:

Indian domestic 4W market succumbed to tremendous transformation with the advent of stringent BS-VI norms that necessitated the Indian tier-I manufacturers to augment their offerings with latest technology. This presents ample opportunity to your Company in expanding its TAM offerings using the existing platform in the domestic market. The domestic market requirement is met through supplies from your Company

and imports. Your Company is actively working on 3 new programs for 4 domestic Tier-1 customers leading to increase in TAM domestic market share to over 32%.

3. Tapping Potential 2-Wheeler TAM:

Your Company, being a forerunner in electronic throttle motors in India, is able to foray in offering a product range to tap the emerging new requirements. Presently, your Company has reckoned with two prominent customers and is in the process of establishing connections with other customers in the mid-range segment of 2W-ETV space as it caters to around a quarter of 2W market. The lower engine capacity (below 150CC) segment is now on the threshold of electric motor propulsion. However, the medium and larger engine capacity vehicles will continue with ICE until the former segment settles with range anxiety, charging time, reliability and commercial maturity.

a. Entry into Safety & New Comfort Space - 4-Wheeler:

i. Electric Parking Brake (EPB):

EPB is increasingly becoming common in the new cars augmenting feature-rich capabilities. With this, your Company will be diversified with product portfolio into technology-agnostic offerings. Your Company is in commercial launch process and advanced technical evaluation with both domestic and international customers. Your Company is actively working on 5 new programs for with Tier-1 customers for launch in Year 2025.

ii. *Trunk Opening and Closing Device (TOCD) & Seat Application:*

The TOCD application offers a new opportunity. Being part of Igarashi Global, your Company has been assessing the feasibility of the project and the potential target customers.

b. **Energy-Efficient BLDC Motor for Consumer Appliances Segment:**

Your Company has embarked its journey of excellence in the energy-efficient BLDC motors with couple of track record contributing actively to the theme of “electric motors with energy competence”. Bureau of Energy Efficiency regulations is set to mandate adherence to the prescribed energy-efficient standard for star ratings from the mid of year 2022. All the Indian fan manufacturers are now gearing up with BLDC variants to tap the market potential that would arise from the start rating standards transition. This provided immense opportunity to your Company to position as a BLDC technology partner to the various fan brand leaders based on the strength of motor manufacturing capability gained over the decades and its acquaintance in developing BLDC fan solutions over the recent years. Your Company has charted its course in the year 2020 with the market leader by successfully rolling out one economy model and 4 premium models. The product performance and field record of your Company garnered wider acceptance from various other leading fan manufacturers also, which enable your Company to diversify its customer portfolio. Your Company has catered the market requirement with the state-of-the-art models – Premium fans comprised of Integrated IoT and under light (LED) solutions. Your Company has reckoned in the market using tailor-made offerings and innovative solutions befitting the mass adoption requirement during the BLDC transition. Now, the R&D is fully engrossed in diversifying the product portfolio through development of new application platforms such as TPW, Exhaust and motor for Desert cooler.

c. **EV Traction Motor Platform:**

Adoption of EV Traction is past the nascent stage in E2W/E3W in India. Many start-up ventures are making their grand entry into the E2W/E3W space. Your Company is gearing up to rollout the eVA series for E2W/E3W. The prototype with power range between 3~5KW has been demonstrated successfully and currently in advanced technical discussions. Your Company, in association with parent company, is now embarking on the journey of EV Controller Development with a partner. Your Company has also been in continuous dialogues with various potential

customers on the programs. Based on the customer requirement, your Company is exploring all options to provide customised solutions. Currently, the first sample motor is undergoing field trial. Your Company is also exploring strategic contract manufacturing tie-ups for electric vehicles in order to capitalise on Company's strength of economies of scale.

d. **ESDM (Electronic System Design & Manufacturing):**

During the year under review, the Electronics R&D in-house commenced activities towards establishing footprint in BLDC motor and controller segment with a team having over decade experience in product development in BLDC segment. The fully established Laboratory has state-of-the-art measurements, instrumentations and Thermal Chamber, Air delivery validation Chamber for facilitating controller development. This would facilitate not only Design and Development of BLDC Motor Controllers for Ceiling fans, Pedestal fans, Air coolers but also for EV Motor controllers, EV Chargers, High Voltage Drives and EV Battery Management System.

The team has been working on various programs including Customer specific projects in the areas of electronics development due to which scalable controllers were developed for products like IoT Enabled Fan with option of IR Remote, Air Cooler, Fan with temperature sensing and BLDC fans to work with standard fitments.

R&D DEVELOPMENT PROJECTS

i. Water Pump for EV

Water pump being the growing potential product in the EV segment for cooling module, we are focussing on BLDC Water pump for Battery cooling system of Electric vehicles. The dissipated energy of the stator is transferred to the medium. The motor geometry has to allow having an active cooling fluid circulation towards the motor electronics. We are handholding with major market players.

ii. Electric Vacuum Pump (EVP)

Electric Vacuum pump is used in braking system for generation of vacuum in the Vacuum Brake Booster in techno-agnostic vehicles. Hence, it has huge potential opportunity in the future. We are in joint development with 2 major customers.

Quality Management

In keeping with ever-growing customer expectations of product and response quality, during this year, your Company had been far-sightedly improving focus through proven “NIL SPILL” approach and furthered the quality improvement journey by deploying dedicated task force teams to identify and expedite resolutions for not only occurred and lesson learnt actions but also improve controls over potential risk processes. Relentless, systematic engagement and motivation by top management with these task force teams have led to innovative solutions and effected 24 QI projects covering both occurrence and detection of potentially critical defects that would have otherwise skipped to customer.

YOUR COMPANY HAS EMBARKED ITS JOURNEY OF EXCELLENCE IN THE ENERGY-EFFICIENT BLDC MOTORS WITH COUPLE OF TRACK RECORD CONTRIBUTING ACTIVELY TO THE THEME OF “ELECTRIC MOTORS WITH ENERGY COMPETENCE”

Manufacturing Strategy

PRISM (PProcess engineering Inflexion for Smart Manufacturing) approach continue to be the backbone of our strategy for manufacturing efficiency improvements and the new initiative such as “Cluster automation” has been successfully established in full scale through another new DC motor assembly line which has been installed during this year. This new assembly line has also exemplified our objective of “Project 30PI” (30% productivity improvement in 3 years). Further, efforts by our process engineering team towards improving flexibility of chosen assembly lines to accommodate multiple variants, provided sustainability of productivity level despite challenges faced during the year in terms of varying monthly order demand from customer combined by unpredictable logistic situations.

The forthcoming 30th AGM will thus be held through through video conferencing (VC) or other audio visual means (OAVM). Hence, Members can attend and participate in the ensuing 30th AGM through VC/OAVM.
- Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the 30th AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.
- The Members can join the 30th AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the 30th AGM through VC/OAVM will be made available to atleast 1000 members on first come first served basis. This will not include large

Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.

4. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
5. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through e-voting.
6. In line with the Ministry of Corporate Affairs (MCA) Circulars, the Notice calling the 30th AGM has been uploaded on the website of the Company at www.igarashimotors.com. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively. The 30th AGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM) i.e. www.evotingindia.com.

THE INSTRUCTIONS FOR SHAREHOLDERS VOTING ELECTRONICALLY ARE AS UNDER:

- (i) The voting period begins on **Sunday, August 07, 2022 at 9.00 am (IST) and ends on Tuesday, August 09, 2022 at 5.00 pm (IST)**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of **August 03, 2022** may cast their vote electronically.

The e-voting module shall be disabled by CDSL for voting thereafter.

- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants.

Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 09, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants.

Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

III. Other information

a. Reasons of loss or inadequate profits

During FY2021-22, the businesses was impacted due to pandemic, supply-chain disruptions and semiconductor shortage issues, the revenue posted during the year was marginally more than the previous year, whereas the profitability for the year FY22 was impacted due to commodity escalations and fixed cost absorption during the second half of financial year.

b. Steps taken or proposed to be taken for improvement

- We are expanding into new applications such as Exhaust Gas Recirculation (EGR), Variable Turbine Geometry (VTG), Coolant Control Valve (CCV), and Exhaust Flap Actuators segments. Demand for such applications is seen increasing due to stringent emission norms for conventional and hybrid variants across the globe. Also adoption of BS-VI norms for PV in India, has given opportunity to increase supplies TAM for ETC application to domestic customers. Simultaneously, we are deploying newer technologies and platforms for energy-efficient appliances and strengthening our product portfolio with emerging technology-agnostic offerings, viz. 2W TAM and Electric Parking Brake (EPB) by leveraging our high-end manufacturing capabilities.
- The impact of commodity price increases has been partially negated through price increases and internal cost reduction initiatives.
- Under Electric Motors with Energy Efficiency for appliances theme, we are in the growth phase in the BLDC motor platform for ceiling fans. All the Indian fan manufacturers are gearing up with BLDC variants to tap the market opportunities stemming from the transition to energy-efficient standards paving way for the growth of the organized sector.

- During the year FY22, the Electronics R&D commenced activities towards establishing footprint in the BLDC motor and controller segment. This would facilitate not only the design and development of BLDC motor controllers for fast moving electrical goods but also for EV Motor controllers.

- We are also working on launching motors for TPW and air coolers which demonstrates strength of our motor manufacturing capabilities and will position us as a full service supplier to the various BLDC Fan OEMs. Further, we are well placed to capture the emerging opportunities in the electric vehicle space by launching a new platform of EV motors suitable for E2W/E3W.

c. Expected increase in productivity and profits in measurable terms

In anticipation of revival of the market in the near future, above steps taken by the Company taken/proposed by the Company are expected to increase the productivity and profits of the Company

Independent Auditor's Report

To
The Members of **Igarashi Motors India Limited**

Report on the Audit of the Financial Statements

OPINION

We have audited the financial statements of Igarashi Motors India Limited (the "Company"), which comprise the balance sheet as at March 31, 2022, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

DESCRIPTION OF KEY AUDIT MATTER

Revenue recognition and related party transactions

See note 26 and 37 to the financial statements

The key audit matter	How the matter was addressed in our audit
<p>Related party transactions are regulated under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as well as Companies Act, 2013. In addition, the relevant accounting standards require specific disclosures of related parties and transactions with them to be made in the financial statements.</p> <p>Majority of the revenues of the Company is derived from related parties.</p> <p>We identified revenue from related party transactions as a key audit matter due to the significance of the amounts, the frequency of such transactions and risk of non-compliance with various regulations.</p>	<p>In view of the significance of the matter, we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> - To obtain an understanding of the Company's related party relationships and transactions, we obtained a list of related party relationships and significant related party transactions (RPT) from the management. We also made inquiries of management regarding the identity of the related parties including changes from the prior year and the nature of relationships and of the transactions with them. We also maintained alertness regarding related party information when examining records or documents regarding undisclosed related party relationships or transactions. - We evaluated the design, implementation and operating effectiveness of key internal controls over identification and authorisation of significant related party transactions including controls relating to revenue recognition.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter	How the matter was addressed in our audit
Revenue recognition and related party transactions (contd.)	<ul style="list-style-type: none"> - Evaluated compliance of such related party transactions with applicable laws and regulations. Tested whether the pricing of related party transaction's is at arm's length with the help of our transfer pricing specialists. - Evaluated the appropriateness of the revenue recognition accounting policies in compliance with accounting standards and performed substantive testing of revenue transactions recorded during the year on a sample basis by verifying the underlying documents. - Testing, on a sample basis using specified risk based criteria, journal entries affecting revenue recognised during the year to identify unusual items. - Assessed the adequacy and appropriateness of the disclosures made in accordance with the relevant accounting standard and applicable laws and regulations.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S AND BOARD OF DIRECTORS' RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under

Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when

it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the

underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2022, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- (ii) The management has represented, that, to the best of its knowledge and belief, as disclosed in the note 37 to the accounts, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
 - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.
- (iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (d) (i) and (d) (ii) contain any material mis-statement.
- e) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.
- (C) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:
- In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF IGARASHI MOTORS INDIA LIMITED

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) A. The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- B. The company has maintained proper records showing full particulars of intangible assets.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and based on the examination of records produced by the Company, the Company does not own any immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) as disclosed in the financial statements.
- (d) According to the information and explanations given to us and based on the examination of records produced by the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and based on the examination of records produced by the Company, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- (ii) (a) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year. For goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable, and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits during the year in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are, in all material aspects, in agreement with the books of account of the Company.
- (iii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, limited liability partnership or any other parties during the year. The Company has made investments in companies, in respect of which the requisite information is as below. The Company has not made any investments in firms, limited liability partnership or any other parties. Accordingly, clause 3(iii)(c) to 3(iii)(f) of the Order is not applicable.
- (b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the investments made during the year are, prima facie, not prejudicial to the interest of the Company.
- (iv) According to the information and explanations given to us and on the basis of our examination of the records, the Company has not given any loans, or provided any guarantee or security as specified under section 185 and 186 of the Companies Act, 2013. In respect of the investments made by the Company, the provisions of section 186 of the Companies Act, 2013 have been complied with.
- (v) According to the information and explanations given to us and on the basis of our examination of the records, the Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Companies Act, 2013 in respect of its manufactured goods and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of the records with a view to determine whether these are accurate or complete.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective July 1, 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of

Name of the Statute	Nature of the Dues	Amount (₹ in lakhs)	Financial year to which the amount relates	Due date	Remarks
The Employees' Provident Funds and Miscellaneous Provisions Act, 1952	Provident fund	24.95	2018-19	April 15, 2019	Not yet paid

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues, which have not been deposited with the appropriate authorities on account of any dispute.

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not defaulted in repayment of loans and borrowing or in the payment of interest thereon to any lender.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax ('GST'), Provident fund, Employees' State Insurance, Income-Tax, Duty of Customs, Cess and other statutory dues have been regularly deposited by the Company with the appropriate authorities.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF IGARASHI MOTORS INDIA LIMITED

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph A(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

OPINION

We have audited the internal financial controls with reference to financial statements of Igarashi Motors India Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at March 31, 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

1 BACKGROUND

Igarashi Motors India Limited ('IMIL' / 'Company') is engaged in the manufacture of micro motors and its accessories for the automotive sector and motors for BLDC fans. The Company is a public limited company incorporated and domiciled in India and has its registered office in Chennai, Tamil Nadu, India. The Company's shares are listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE) in India.

These financial statements were authorised for issue by the Company's Board of Directors on 23 May 2022.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

Details of the Company's accounting policies are included in Note 3

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise stated.

2.3 Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:

Items	Measurement basis
- Certain financial assets and liabilities (including derivative instruments)	Fair value
- Share based payment transactions	Fair value
- Net defined benefit asset / (liability)	Fair value of plan assets, less present value of defined benefit obligations

2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Judgements

Information about judgements in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 35 – fair valuation of financial assets

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2023 is included in the following notes:

- Note 3.3 – estimation of useful lives of property, plant and equipment and intangible assets
- Note 3.10 – measurement of lease liabilities and right of use assets
- Note 21 – measurement of defined benefit obligations: key actuarial assumptions
- Note 35 – fair valuation of financial assets
- Note 34 – recognition of deferred tax assets
- Note 36 – recognition and measurement of provisions and contingencies
- Note 35 – Impairment of financial assets

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19):

The COVID-19 pandemic is an evolving human tragedy declared a global pandemic by the World Health Organisation with adverse impact on economy and business. In light of these circumstances, the Company has considered the possible effects that may result from COVID-19 on the carrying amounts of financial and non financial assets as well as liabilities accrued. The actual impact of the global health pandemic may be different from that which has been estimated, as the COVID 19 situation evolves in India and globally. Having reviewed the underlying data and based on current estimates the Company expects the carrying amount of these assets will be recovered and there is no significant impact on liabilities accrued. However, the Company will continue to closely monitor any material changes to future economic conditions.

2.5 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information, is used to measure fair values, then the Company assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair values of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfer between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 35 – financial instruments and in Note 19 - share-based payments.

2.6 Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

3 SIGNIFICANT ACCOUNTING POLICIES

3.1 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

at the date of the transaction. Exchange differences are recognised in profit or loss, except exchange differences arising from translation of qualifying cash flow hedges to the extent that the hedges are effective, which are recognised in Other Comprehensive Income.

3.2 Financial instruments

i. Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss. However, refer Note 3.2 (v) for derivatives designated as hedging instruments.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

iii. **Derecognition**

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

iv. **Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. **Derivative financial instruments and hedge accounting**

The Company holds derivative financial instruments to hedge its foreign currency exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in statement of profit and loss.

The Company designates certain derivatives as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in foreign exchange rates.

At inception of designated hedging relationships, the Company documents the risk management objective and strategy for undertaking the hedge. The Company also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in OCI and accumulated in other equity under 'effective portion of cash flow hedges'. The effective portion of changes in the fair value of the derivative that is recognised in OCI is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in statement of profit and loss.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

If a hedge no longer meets the criteria for hedge accounting or the hedging instrument is sold, expires, is terminated or is exercised, then hedge accounting is discontinued prospectively. When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in other equity remains there until, for a hedge of a transaction resulting in recognition of a non-financial item, it is included in the non-financial item's cost on its initial recognition or, for other cash flow hedges, it is reclassified to profit and loss in the same period or periods as the hedged expected future cash flows affect profit and loss.

If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified to statement of profit and loss.

vi. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Cash dividend to equity holders

The Company recognises a liability to make cash to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

3.3 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Management estimate of useful life	Useful life as per Schedule II
Building	3 - 60 years	30 - 60 years
Plant and equipment	3 - 20 years	15 years
Office equipments	2 - 5 years	5 years
Furniture and fixtures	5 - 10 years	10 years
Vehicles	8 years	8 years

Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed off).

(iv) Capital work-in-progress

Capital work-in-progress includes property, plant and equipment which are in process of being ready for its intended use and it is probable that the expected future economic benefits, that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably.

3.4 Intangible assets

i. Recognition and measurement

Intangible assets including those acquired by the Company are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

iii. Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortization in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Management estimate of useful life
Product design expenses	5 - 6 years
Software	6 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

(iv) Intangible assets under development

Intangible assets under development includes intangible assets which are in process of being ready

for its intended use and it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably.

3.5 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of fixed production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

3.6 Impairment

i. Impairment of financial instruments

In accordance with Ind AS 109, the Company applies expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime expected credit losses. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

ii. Impairment of non-financial assets

The Company assess at each reporting date whether there is any indication that the carrying amount may not be recoverable. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount in the statement of profit and loss.

The Company's non-financial assets, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or groups of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have

been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.7 Employee benefits

i. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Gratuity

The Company provides for gratuity, a defined benefit plan ("the Gratuity Plan") covering the eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of the employment with the Company.

Liability with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The defined benefit plan is administered by fund administered by Life Insurance Corporation of India for this purpose.

The Company recognises the net obligation of a defined benefit plan as a liability in its balance sheet. Gains or losses through re-measurement of the net defined benefit liability are recognised in other comprehensive income and are not reclassified to profit and loss in the subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognised in other comprehensive income. When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

iii. Provident fund

Eligible employees of the Company receive benefits from provident fund, which is a defined contribution plan. Both the eligible employees and the Company make monthly contributions to the Government administered provident fund scheme equal to a specified percentage of the eligible employee's salary. Amounts collected under the provident fund plan are deposited with in a government administered provident fund. The Company has no further obligation to the plan beyond its monthly contributions.

iv. Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using the projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised is the period in which the absences occur.

v. Share-based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. Grant date fair value of the equity settled share-based payment awards granted to the employees of group companies is recognised as a receivable from the group Company, with a corresponding adjustment to equity.

3.8 Provisions (other than for employee benefits)

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash

flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

3.9 Revenue recognition

i. Sale of goods

Revenue is recognised when a promise in a customer contract (performance obligation) has been satisfied by transferring control over the promised goods to the customer. Control over a promised good refers to the ability to direct the use of, and obtain substantially all of the remaining benefits from, those goods. Control is usually transferred upon shipment, delivery to, upon receipt of goods by the customer, in accordance with the individual delivery and acceptance terms agreed with the customers. The amount of revenue to be recognized (transaction price) is based on the consideration expected to be received in exchange for goods, excluding amounts collected on behalf of third parties such as sales tax or other taxes directly linked to sales. If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on their relative stand-alone selling prices. Revenue from product sales are recorded net of allowances for estimated rebates, cash discounts and estimates of product returns, all of which are established at the time of sale.

ii. Government grants

The Company recognises government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received.

3.10 Leases

The Company's lease asset classes primarily consist of leases for land. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in Balance sheet and lease payments have been classified as financing activities in the Cash Flow Statement.

3.11 Recognition of dividend income, interest income or expense

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortized cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortized cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.12 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date. Interest expenses and penalties, if any, related to income tax are included in finance cost and other expenses respectively. Interest Income, if any, related to Income tax is included in Other Income.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

corresponding amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.13 Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.14 Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted-average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options and warrants, except where the results would be anti-dilutive.

3.15 Reclassifications consequent to amendments to Schedule III

The Ministry of Corporate Affairs amended the Schedule III to the Companies Act, 2013 on 24 March 2021 to increase the transparency and provide additional disclosures to users of financial statements. These amendments are effective from 1 April 2021.

Consequent to above, the Company has changed the classification/presentation of (i) current maturities of long-term borrowings (ii) security deposits, in the current year.

Security deposits (which meet the definition of a financial asset as per Ind AS 32) have been included in 'other financial assets' line item. Previously, these deposits were included in 'Deposits and other receivables' line item.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

The Company has reclassified comparative amounts to conform with current year presentation as per the requirements of Ind AS 1. The impact of such classifications is summarised below:

Balance sheet (extract)	31 March 2021 (as previously reported)	Increase/ (decrease)	31 March 2021 (restated)
Deposits and other receivables (non-current)	400.57	(400.57)	-
Other financial assets (non-current)	-	400.57	400.57
Deposits and other receivables (current)	148.82	(148.82)	-
Other financial assets (current)	8.81	148.82	157.63
Other financial liabilities	2,363.47	(1,889.22)	474.25
Current borrowings	4,930.53	1,889.22	6,819.75

4 RECENT ACCOUNTING PRONOUNCEMENTS

On 23 March 2022, the Ministry of Corporate Affairs ("MCA") through notifications, amended to existing Ind AS. The same shall come into force from annual reporting period beginning on or after 1st April 2022. Key Amendments relating to the same whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

- Ind AS 16 Property, Plant and Equipment – For items produced during testing/trail phase, clarification added that revenue generated out of the same shall not be recognised in SOPL and considered as part of cost of PPE.
- Ind AS 37 Provisions, Contingent Liabilities & Contingent Assets – Guidance on what constitutes cost of fulfilling contracts (to determine whether the contract is onerous or not) is included.

- Ind AS 103 – Business Combination – Reference to revised Conceptual Framework. For contingent liabilities / levies, clarification is added on how to apply the principles for recognition of contingent liabilities from Ind AS 37. Recognition of contingent assets is not allowed.
- Ind AS 109 Financial Instruments – The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in assessing whether to derecognise a financial liability.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

For details about the related employee benefit expenses, see Note 30

The Company operates the following post-employment defined benefit plans:

The Company has a defined benefit gratuity plan in India (the Plan), governed by the Payment of Gratuity Act, 1972. The Plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee at the time of retirement, death or termination of employment. Liabilities for the same are determined through an actuarial valuation as at the reporting dates using the “projected unit cost method”.

These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market (investment) risk.

The Company provides the gratuity benefit through annual contribution to Life Insurance Corporation of India (LIC)

A. Reconciliation of the net defined benefit (asset)/ liability

The following table shows a reconciliation from the opening balances to the closing balances for the net defined benefit (asset) liability and its components

B. Expense recognised in the statement of profit or loss

	Year ended 31 March 2022	Year ended 31 March 2021
Current service cost	89.93	87.16
Past service cost	83.59	-
Interest cost	61.68	56.26
Interest income	(49.13)	(35.80)
	186.07	107.62

Remeasurements recognised in other comprehensive income

	Year ended 31 March 2022	Year ended 31 March 2021
Actuarial (gain) loss on defined benefit obligations	(34.42)	10.53
Return on plan assets excluding interest income	(26.18)	1.35
	(60.60)	11.88

C. Defined benefit obligation

i. Actuarial assumptions

Principal actuarial assumptions at the reporting date (expressed as weighted averages):

	Year ended 31 March 2022	Year ended 31 March 2021
Discount rate	6.35%	5.80%
Future salary growth	8.00%	8.00%
Attrition rate	16%	17%

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	As at 31 March 2022		As at 31 March 2021	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(59.12)	65.34	(53.81)	61.39
Future salary growth (1% movement)	61.30	(57.61)	57.43	(51.97)
Attrition rate (50% of attrition rates movement)	(30.57)	62.29	(36.26)	184.20

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown

D. Movement in other provisions

25 OPERATING SEGMENTS

A Basis for segmentation

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Managing Director (MD) to make decisions about resources to be allocated to the segments and assess their performance.

The Company has determined two reporting segments viz. automotive and non-automotive based on the nature of products, risk and returns and information reviewed by the Company's Chief Operating Decision Maker. The Company's operations are entirely domiciled in India and as such all its non-current assets are located in India.

B Information about reportable segments

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit (before tax), as included in the internal management reports that are reviewed by the Company's MD. Segment profit is used to measure performance as management believes that such information is most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk (see C.ii);
- liquidity risk (see C.iii); and
- market risk (see C.iv)

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors along with the top management are responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers; loans and investments.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

The carrying amounts of financial assets represent the maximum credit risk exposure.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of the Company's trade receivables, certain loans and advances and other financial assets.

a. Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue. Further, management believes that the unimpaired amounts that are past due by more than 90 days are still collectible in full except to the extent already provided, based on historical payment behavior and extensive analysis of customer credit risk. The impairment loss at the reporting dates related to several customers that have defaulted on their payments to the Company and are not expected to be able to pay their outstanding balances, mainly due to economic circumstances.

The Company determines credit risk based on a variety of factors including but not limited to the age of the receivables, cash flow projections and available press information about customers. In order to calculate the loss allowance, loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency through write-off. Roll rates are calculated separately for exposures in different stages of delinquency primarily determined based on the time period for which they are past due.

More than 57% of the Company's customers are related parties who have been transacting with the Company for over five years, and none of these customers' balances have been credit-impaired in the past. In monitoring customer credit risk, customers are grouped according to their credit characteristics, and their geographic location and existence of previous financial difficulties.

The Company's exposure to credit risk for trade receivables by geographic region is as follows:

	As at 31 March 2022	As at 31 March 2021
Japan	5,877.36	11,322.28

- b. *Cash and bank balances (includes amounts classified under other bank balances and deposits and other receivable)*

The Company holds cash and bank balances of ₹ 662.97 lakhs as at 31 March 2022 (31 March 2021: ₹ 1,347.52 lakhs). The credit worthiness of such banks and financial institutions are evaluated by the management on an ongoing basis and is considered to be good.

- c. *Security deposits*

This balance is primarily constituted by deposit given in relation to leasehold premises occupied by the Company for carrying out its operations. The Company does not expect any losses from non-performance by these counter-parties.

- d. *Advance to employees*

This balance is primarily constituted by advances given to the employees. The Company does not expect any losses from non-performance by these counter-parties as the amounts are recoverable by salary deductions.

Notes forming part of the Financial Statements

for the year ended 31 March 2022

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

e. *MEIS receivable from Government*

This balance is primarily constituted by MEIS scrips and applications pending with authorities. The Company does not expect any losses from non-performance by these counter-parties as the amounts are due from Government.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company uses activity-based costing to cost its products and services, which assists it in monitoring cash flow requirements and optimising its cash return on investments.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (excluding trade payables).

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payments and exclude the impact of netting agreements:

	Contractual cash flows					
	Carrying amount	6 months or less	6-12 months	1-2 years	2-5 years	More than 5 years

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

iv. Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates will affect the Companies income or the value of holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters and optimising the return.

a. Currency risk

The summary quantitative data about the Company's exposure to currency risk (based on notional amounts) as reported to the management is as follows:

	USD	Others
31 March 2022		
Financial assets:		
Trade receivables	8,023.64	-

b. Hedge accounting

The Company is exposed to transactional foreign currency risk to the extent that there is a mismatch between the currencies in which sales, purchases, receivables and borrowings are denominated.

Company's risk management policy is to hedge using forward contracts. Hedge exposure is calculated based on highly probable forecast transactions received from each customer. Hedging Strategy on the net exposure is limited to the 75%, 50%, 25% rule as below:

- 75% coverage of hedge exposure of current year
- 50% coverage of hedge exposure of next year
- 25% coverage of hedge exposure of third year

At 31 March 2022, the Company holds the following instruments to hedge exposures to changes in foreign currency:

	Maturity		
	1-6 months	6-12 months	More than one year
Foreign currency risk			
Forward exchange contracts			
Net exposure	3,789.63	3,638.04	10,080.40
Average ₹:USD forward contract rate	77.64	78.28	79.94

At 31 March 2021, the Company holds the following instruments to hedge exposures to changes in foreign currency:

	Maturity		
	1-6 months	6-12 months	More than one year
Foreign currency risk			
Forward exchange contracts			
Net exposure	441.54	441.54	-
Average ₹:USD forward contract rate	74.93	76.67	-

The following table provides a reconciliation by risk category of components of equity and analysis of OCI items, net of tax, resulting from cash flow hedge accounting:

	31 March 2022 Equity head 'Effective portion of cash flow hedges'	31 March 2021 Equity head 'Effective portion of cash flow hedges'

c. Interest rate risk

The Company has only variable rate instruments i.e. external commercial borrowings, term loans, packing credit and buyer's credit.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to management is as follows:

	31 March 2022	31 March 2021
Fixed rate borrowings	-	-
Variable rate borrowings	7,978.20	8,734.76

Cash flow sensitivity analysis for variable rate instruments

A reasonable possible change of 100 basis points (bp) in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	Effect on profit and loss before tax	
	100 bp increase	100 bp decrease
31 March 2022		
Variable rate instrument	(79.78)	79.78
Cash flow sensitivity (net)	(79.78)	79.78
31 March 2021		
Variable rate instrument	(87.35)	87.35
Cash flow sensitivity (net)	(87.35)	87.35

36 COMMITMENTS AND CONTINGENT LIABILITIES

	As at 31 March 2022	As at 31 March 2021
Commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided	400.59	793.14
Claims against the Company not acknowledged as debts		
Income tax liability that may arise in respect of matters for which the Company is under appeal	-	-
Employees State Insurance demand on dues for trainees	24.34	24.34

Also, the income tax authorities have disallowed carry forward losses in AY 2013-14, but no demand orders have been raised in the subsequent years. Hence, the Company is unable to determine the amount of obligation with sufficient reliability. Management is of the view that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

In addition to the above, there are certain claims which the Company receives from time to time in the ordinary course of business for which the amount of obligation cannot be measured with sufficient reliability. Management is of the view that such claims will not have any material adverse effect on the Company's financial position and result of operations.

40 TRANSFER PRICING

The Company has entered into transactions with certain related parties during the year ended 31 March 2022. The management believes that all such transactions are in compliance with the provisions of Income-tax Act, 1961 and also confirms that it maintains documentation as prescribed, to prove that the transactions are at arm's length. Further, management also believes the aforesaid legislation will not have any impact on the standalone financial statements, particularly on the amount of tax expense and that of provision for taxation.

- 41 The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released the draft rules for the code on 13 November 2020 and has invited suggestions from stakeholders which are under active consideration by the Ministry. The Company will assess the impact once the subject rules are notified and will give appropriate impact in the financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.
