Independent Software Testing Market Overview

Specialized Testing Services (STS) market is outgrowing the Traditional Testing Services (TTS) market substantially

- Quality Assurance & Testing Service a large market with healthy growth forecast through 2022
- Specialized Testing Services players growing faster
- Specialized Testing Services players amplifying differentiation through IP investments, domain specialization and AI

Digital Services are growing at 15.6% CAGR and is the growth driver of the Specialized Testing Market

Digital Services focus on new disruptive trends and technologies including Mobile, Cloud, Analytics and Big Data

Software Testing market is moving towards Specialized, digital, customer focused & revenue seeking clients. Cigniti is also growing in that direction

Gartner

- STS Providers offers clients independence and ability to deliver the full life cycle of testing services
- Work on deals ranging from only a few to several hundred full-time equivalents working on a project.
- Good fit for specialist skills, industry-specific skills and their flexible & nimble approach.

FORRESTER®

- Addresses the inherent conflict of interest between development and testing activities, ensuring appropriate rigor in the testing process.
- View software with a critical eye and ensure the highest quality of customer-facing applications

- Client spending transfers from TTS to STS
- Demand for STS Has Expanded to Multi-Year Contracts and to “Shift-Left”
- Clients are looking for Third-Party-Certification for Compliance

- Testing as a service offers a variety of benefits, including pay-per-use, which saves on investment in expensive tools & infrastructure and experts, and access to specialized skill sets to deal with complex problems
