Govt softens angel tax blow

It should however, not exceed the aggregate consideration that is received from the notified entity and received within 90 days from the date of issue of shares, the CBDT said.

On similar lines, price matching for resident and non-resident investors would be available with reference to investment by venture capital funds or specified funds, the ministry said.

The draft rules on these will be shared for public comments for 10 days, after which these will be notified, the CBDT said.

Sandeep Jhunjhunwala, M&A Tax Partner at Nangia Andersen, said, "The government seems to have listened to the investor community."

Further, entities registered with Sebi as Category-I foreign portfolio investors and government related investors such as central banks, sovereign wealth funds, international or multilateral organisations including entities controlled by the government or their direct or indirect ownership...

As per the angel tax, introduced in 2012, if an Indian unlisted company issues shares at a price exceeding its fair market value, it is liable to be taxed at a rate of 30%.

The government, however, reiterated that genuine startups registered with the department for promotion of industry and internal trade (DPIIT) will not be impacted by the tax.

No TCS on forex payment up to ₹7 lakh through credit cards

The latest relaxation would mean that such transactions up to ₹7 lakh a year will be outside the purview of the higher tax.

Sandeep Jhunjhunwala, Partner, Nangia Andersen also said the exclusion would bring some relief.

Higher exemption limits even though the base protection from TCS if expenses are borne by employer is available, he said.

Inset of FAQs on Thursday, the ministry had clarified that the changes are intended to bring parity in tax treatment of remittances using debit and credit cards.

However, concerns had been raised that an additional tax burden was being imposed on the salaried class, which already pays taxes and it would also block their funds in TCS, which would have to be claimed as credit or taken as a refund subsequently.

Game resumes for PUBG India

Krafton has invested over \$100 million in several Indian startups in the field of Interac-

tainment, gaming, e-sports and technology. Some of the startups are Nazara-owned Nodwin Gaming, Loco, FRND, Fratipill, One Impression, Nantillio Mobile, Kuku FM, and Lila Games.

The removal of the ban will enable Nazara and Nodwin to also broadcast the game on television. Nodwin has a partnership with Star Sports for BGML.

Championship, and more in the near future," said Shiva Nandy, founder and CEO of Skyports.

ITC's consumer business lights up on demand revival: Analysts

VIVEAT SUSAN PINTO Mumbai, May 19

A PICKUP IN consumer sentiment, backed by stable taxation in cigarettes and the shift to branded goods from unbranded products, is aiding diversified conglomerate ITC.

The Kolkata-based major reported robust earnings in the March quarter (Q4) of FY23. Led by its cigarettes, hotels and fast-moving consumer goods (FMCG) businesses. Net profit grew 23.4% year-on-year to ₹5,175 crore, while Q4 revenue grew 7.3% versus last year's ₹19,058 crore.

A favourable demand environment, pickup in economic activity, buoyant tax collections and government investment in infrastructure augur well for its consumer-facing businesses such as cigarettes, hotels and FMCG, ITC said in its latest investor presentation.

Its commodity-led businesses, meanwhile, have been struggling in recent quarters on the back of a ban on rice and wheat exports and muted demand for paper boards, ITC said.

Its commodity-led businesses, meanwhile, have been struggling in recent quarters on the back of a ban on rice and wheat exports and muted demand for paper boards, ITC said.

Q4, the company said. Even then, ITC's patience is paying off, notably in cigarettes, where the company had lost volume share to illegal players following an increase in taxation in the past.

ITC is also aggressively investing in new go-to channels including direct-to-consumer and quick-commerce apart from leveraging AI in manufacturing and distribution to drive growth in its FMCG business.
