# Management Comments

# Management Comments

---

- Total production during Q1FY21 was down by 57% YoY to 25,641MT mainly due to closure of the plants for around 40 days due to lockdown in the country. For Q1FY21 on standalone basis, Basic Chemicals production (including Thionyl Chloride) stood at 22,948MT (-53% YoY), Dye Intermediates production was 1,409MT (-73% YoY) and Dyestuff production was 1,283MT (-76% YoY).
- Total standalone income for Q1FY21 declined by 64% YoY which was severely impacted by lockdown in the country due to Covid 19 outbreak. We started our partial operations from beginning of May 2020 but demand was low leading to decline in prices of finished goods.
- Gross margins during Q1FY21 were impacted by lower prices of our finished products due to sudden decline in the demand. While employee costs remained higher as the company did not cut salaries of any employees even during lockdown and under uncertain business environment.
- Finance cost in Q1FY21 was high YoY mainly due to increase in working capital limits utilization. It declined by 10% QoQ.
- During Q1FY21, inventories levels came down to ~Rs 1,524mn and trade receivables came down to ~Rs 2,409 leading to improvement in working capital.

# Management Comments

---

- We acquired 100% stake in Trion Chemicals during Q3FY20 and the board approved its amalgamation with Bodal Chemicals Ltd in May-2020. We are near to completion of all safety related changes at Trion and confident to start operations from September 2020.
- Subsidiaries performance :
  - ✓ SPS posted revenues of Rs 42mn with EBITDA loss of Rs 4mn in Q1FY21. We have received all the approvals to start VS plant at SPS. We will start the VS plant at SPS once the demand scenario improves.
  - ✓ Trion plant was not operational during Q1FY21 due to safety related changes in the plant. It posted loss of Rs 20mn in Q1FY21
- We believe this was one-off quarter which was significantly impacted by lockdown in the country hence lower demand. The demand scenario started improving from mid of June-2020 and it should improve further going ahead. The prices of our finished products improved after June 2020 due to gradual increase in demand and few supply side disruptions.
