“GENERIC” AT GLANCE.....

INTRODUCTION:-

Generic Engineering Construction & Projects Ltd (“GENERIC”), a BSE and NSE listed construction Company is engaged in the construction across commercial, residential, industrial, health and leisure and Institutional buildings with presence in states of Maharashtra, Karnataka, Gujarat, Goa & Himachal Pradesh.

The company has always focused on general contracting, Design-Build; Engineering, Procurement and Construction (EPC) work. The company has expertise in building data centers, hospitals, schools, all types of industrial and residential buildings. The company is a pioneer in building cold storages. The company’s forte lies in executing projects having a ticket size between Rs. 25 crore to Rs. 100 crore.

Generic is looking at large opportunities in the space of Engineering Procurement Construction (EPC) going ahead. This would require both capital investment and shoring up manpower—both skilled and semiskilled workforce. Likewise, the scale of operations would need more investment in monitoring, control and compliance. With currently limited debt on books, bank funding and internal accruals can drive growth. In that context, there are funds currently dedicated to the construction, infrastructure and real estate segments and this company can be a good investment play.

THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

- a. The voting period begins on Sunday September 26, 2021 at 9.00 a.m. and ends on Tuesday, September 28, 2021 at 5.00 p.m (IST). During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date on Thursday, September 23, 2021 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- b. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- c. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities

and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholder's/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- d. In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Except Mr Manish Patel and Ms Trupti Patel none of the Directors and Key Managerial persons of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No 6.

The Board recommends a Special Resolution at Item No. 6 for approval by the Members.

ITEM NO. 7: RE-APPOINTMENT OF MS SHEETAL NAGDA (DIN 07179841) AS AN INDEPENDENT DIRECTOR OF THE COMPANY:

Ms Sheetal Nagda (DIN 07179841) is a Non-Executive Independent director of the Company. She has been on the Board of Generic Engineering Construction and Projects Limited since June 01, 2016. As per Section 149(10) of the Act, an Independent Director shall hold office for a term of upto five consecutive years on the Board of a Company, but shall be eligible for re-appointment on passing a special resolution by the Company for another term of upto five consecutive years on the Board of a Company.

Based on recommendation of Nomination and Remuneration Committee and in terms of the provisions of Sections 149, 150, 152 read with Schedule IV and any other applicable provisions of the Act and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Ms Sheetal Nagda (DIN 07179841), being eligible for reappointment as an Independent Director and offering herself for re-appointment, is proposed to be reappointed as an Independent Director for another term of five consecutive years with effect from May 31, 2021 till May 30, 2026, not liable to retire by rotation.

The Company has received declaration from her stating that she meets the criteria of Independence as prescribed under sub-section (6) of Section 149 of the Companies Act, 2013 and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. She has also given her consent to continue to act as Director of the Company, if so appointed by the members.

In the Opinion of the Board, Ms Sheetal Nagda (DIN 07179841), fulfils the conditions specified under Section 149 (6) of the Act, the Companies (Appointment and Qualification of Directors) Rules, 2014 and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for her reappointment as an Independent Non-Executive Director of the Company and is independent of the management.

The Board considers that her continued association with the Company would be of immense benefit to the company and it is desirable to continue to avail the services of Ms Sheetal Nagda (DIN 07179841) as an Independent Director.

Except Ms Sheetal Nagda none of the Directors and Key Managerial persons of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No 7.

The Board recommends a Special Resolution at Item No. 7 for approval by the Members.

ITEM NO. 8: RE-APPOINTMENT OF MR RAJESH LADHAD (DIN 05241238) AS AN INDEPENDENT DIRECTOR OF THE COMPANY:

Mr Rajesh Ladhada (DIN 05241238) is a Non-Executive Independent director of the Company. He has been on the Board of Generic Engineering Construction and Projects Limited since February 27, 2017. As per Section 149(10) of the Act, an Independent Director shall hold office for a term of upto five consecutive years on the Board of a Company, but shall be eligible for re-appointment on passing a special resolution by the Company for another term of upto five consecutive years on the Board of a Company.

Based on recommendation of Nomination and Remuneration Committee and in terms of the provisions of Sections 149, 150, 152 read with Schedule IV and any other applicable provisions of the Act and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Mr Rajesh Ladhada (DIN 05241238), being eligible for reappointment as an Independent Director and offering himself for re-appointment, is proposed to be reappointed as an Independent Director for another term of five consecutive years with effect from February 27, 2022 till February 26, 2027, not liable to retire by rotation.

The Company has received declaration from Mr Rajesh Ladhada (DIN 05241238) stating that he meets the criteria of Independence as prescribed under sub-section (6) of Section 149 of the Companies Act, 2013 and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. He has also given his consent to continue to act as Director of the Company, if so appointed by the members.

In the Opinion of the Board, Mr Rajesh Ladhada (DIN 05241238), fulfils the conditions specified under Section 149 (6) of the Act, the Companies (Appointment and Qualification of Directors) Rules, 2014 and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for reappointment as an Independent Non-Executive Director of the Company and is independent of the management.

The Board considers that his continued association with the Company would be of immense benefit to the company and it is desirable to continue to avail the services of Mr Rajesh Ladhani (DIN 05241238) as an Independent Director.

Except Mr Rajesh Ladhani none of the Directors and Key Managerial persons of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No 8.

The Board recommends a Special Resolution at Item No. 8 for approval by the Members.

ITEM NO. 9: AUTHORISATION UNDER SECTION 186 OF THE COMPANIES ACT, 2013:

In order to make optimum use of funds available with the Company and also to achieve long term strategic and business objectives, the Board of Directors of the Company proposes to make use of the same by making investment in other bodies corporate or granting loans, giving guarantee or providing security to other persons or other body corporate as and when required.

Members may note that pursuant to Section 186 of the Companies Act, 2013 ("Act"), the Company can give loan or give any guarantee or provide security in connection with a loan to any other body corporate or person and acquire securities of any other body corporate, in excess of 60% of its paid up share capital, free reserves and securities premium account or 100% of its free reserves and securities premium account, whichever is more, with approval of Members by special resolution passed at the general meeting.

In view of the aforesaid, it is proposed to take approval under Section 186 of the Companies Act, 2013, by way of special resolution, for an amount not exceeding Rs. 200 Crores (Rupees Two Hundred Crores) outstanding at any time, as proposed in the Notice. The above proposal is in the interest of the Company.

None of the Directors or Key Managerial Personnel or their relatives are in any way concerned with or interested, financially or otherwise in the resolution set out at Item No 9.

The Board recommends a Special Resolution at Item No. 9 for approval by the Members.

ITEM NO. 10: APPROVAL FOR WAIVER OF RECOVERY OF EXCESS MANAGERIAL REMUNERATION PAID TO MR MANISH PATEL (DIN: 00195878) FOR THE FINANCIAL YEAR ENDED MARCH 31, 2021:

The Members at Annual General Meetings held from time to time had by way of Special/ordinary Resolutions approved the appointment and remuneration of Mr Manish Patel (DIN: 00195878) on the terms and conditions as mentioned therein:

Sr No	Name	Date of AGM in which Resolution passed	Date of expiry of term
1.	Manish Patel	September 29, 2017	February 26, 2022

As per provisions of Section 197(9) of the Act, if any managerial personal draws or receives, directly or indirectly, by way of remuneration any such sum in excess of the limit prescribed under Section 197 or without shareholders' approval, he shall refund such sums to the company, within two years or such lesser period as may be allowed by the company and until such sum if refunded, hold it in trust for the company. However, as per provisions of Section 197(10) of the Act, with the approval of Members of the Company recovery of excess amount of remuneration so paid to a managerial personal can be waived off.

At the time of appointment of Mr Manish Patel (DIN: 00195878) the Company had adequate profits and the remuneration paid / payable to Mr Manish Patel (DIN: 00195878) was well within the limits prescribed above. However, during the last year i.e. 2020-2021 performance of the overall Construction industry was impacted and marked a stringent market conditions on event of occurrence of COVID-19 Pandemic outrage throughout the Country and consequent State & Central Government lockdowns from early March, 2020. Due to this Company was not able to generate profits as anticipated during the Financial Year 2020-2021.

The table below shows the total remuneration paid including excess amount paid to Mr Manish Patel (DIN: 00195878) for the Financial Year 2020-2021 under Section 197 of the Companies Act, 2013:

Name & Designation	Salary and perquisites (Rs)	Maximum permissible limit (Rs)	Excess Payment (Rs)
Manish Patel (Managing Director)	60,00,000	23,59,089	36,40,911

Considering the contribution of Mr Manish Patel (DIN: 00195878) to the Company, it is apt and justifiable to waive off the excess remuneration paid due to inadequate profits.

The Nomination and Remuneration Committee and the Board of Directors have at their respective meetings held on August 14, 2021 respectively, subject to the approval of the members of the Company, accorded their approvals for waiver of recovery of excess managerial remuneration paid.

Hence it is proposed to seek waiver from recovery of Rs. 36,40,911/- (Rupees Thirty-Six Lakhs Forty Thousand Nine Hundred and Eleven Only) being excess remuneration in terms of limits prescribed under Section 197(1) read with Schedule V of the Companies Act, 2013, paid to Mr Manish Patel (DIN: 00195878) Managing Director of the Company during the Financial Year 2020-2021.

Except Mr Manish Patel and Ms Trupti Patel none of the Directors and Key Managerial persons of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No 10.

The Board recommends a Special Resolution at Item No. 10 for approval by the Members.

ITEM NO. 11: APPROVAL FOR WAIVER OF RECOVERY OF EXCESS MANAGERIAL REMUNERATION PAID TO MR TARAK GOR (DIN: 01550237) FOR THE FINANCIAL YEAR ENDED MARCH 31, 2021:

The Members at Annual General Meetings held from time to time had by way of Special/ordinary Resolutions approved the appointment, re-appointment and remuneration of Mr Tarak Gor (DIN: 01550237) on the terms and conditions as mentioned therein:

Sr No	Name	Date of AGM in which Resolution passed	Date of expiry of term
1.	Tarak Gor	December 22, 2020	February 10, 2023

As per provisions of Section 197(9) of the Act, if any managerial personal draws or receives, directly or indirectly, by way of remuneration any such sum in excess of the limit prescribed under Section 197 or without shareholders' approval, he shall refund such sums to the company, within two years or such lesser period as may be allowed by the company and until such sum if refunded, hold it in trust for the company. However, as per provisions of Section 197(10) of the Act, with the approval of Members of the Company recovery of excess amount of remuneration so paid to a managerial personal can be waived off.

At the time of appointment of Mr Tarak Gor (DIN: 01550237) the Company had adequate profits and the remuneration paid / payable to Mr Tarak Gor (DIN: 01550237) was well within the limits prescribed above. However, during the last year i.e. 2020-2021 performance of the overall Construction industry was impacted and marked a stringent market conditions on event of occurrence of COVID-19 Pandemic outrage throughout the Country and consequent State & Central Government lockdowns from early March, 2020. Due to this Company was not able to generate profits as anticipated during the Financial Year 2020-2021.

The table below shows the total remuneration paid including excess amount paid to Mr Tarak Gor (DIN: 01550237) for the Financial Year 2020-2021 under Section 197 of the Companies Act, 2013:

Tarak Gor (Executive Director & CFO)	42,00,000	16,51,362	25,48,638

Considering the contribution of Mr Tarak Gor (DIN: 01550237) to the Company, it is apt and justifiable to waive off the excess remuneration paid due to inadequate profits.

The Nomination and Remuneration Committee and the Board of Directors have at their respective meetings held on August 14, 2021 respectively, subject to the approval of the members of the Company, accorded their approvals for waiver of recovery of excess managerial remuneration paid.

Hence it is proposed to seek waiver from recovery of Rs 25,48,638/- (Rupees Twenty-Five Lakhs Forty-Eight Thousand Six Hundred and Thirty-Eight Only) being excess remuneration in terms of limits prescribed under Section 197(1) read with Schedule V of the Companies Act, 2013, paid to Mr Tarak Gor (DIN: 01550237) Executive Director & CFO of the Company during the Financial Year 2020-2021.

Except Mr Tarak Gor none of the Directors and Key Managerial persons of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No 11.

The Board recommends a Special Resolution at Item No. 11 for approval by the Members.

ITEM NO. 12: APPROVAL FOR WAIVER OF RECOVERY OF EXCESS MANAGERIAL REMUNERATION PAID TO MR JAYESH RAWAL (DIN: 00464313) FOR THE FINANCIAL YEAR ENDED MARCH 31, 2021:

The Members at Annual General Meetings held from time to time had by way of Special/ordinary Resolutions approved the appointment, re-appointment and remuneration of Mr Jayesh Rawal (DIN: 00464313) on the terms and conditions as mentioned therein:

Sr No	Name	Date of AGM in which Resolution passed	Date of expiry of term

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMY

The COVID-19 pandemic has paralyzed large parts of the global economy, sharply restricting economic activities, increasing uncertainties and unleashing a recession unseen since the Great Depression. Yet, even with high uncertainty about the path of the pandemic, a way out of this health and economic crisis is increasingly visible. Thanks to the ingenuity of the scientific community, we have multiple vaccines that can reduce the severity and frequency of infections. In parallel, adaptation to pandemic life has enabled the global economy to do well despite subdued overall mobility, leading to a stronger-than-anticipated rebound, on average, across regions.

The global economy is on course to rebound from the pandemic-induced recession in 2021 led by an increasing number of large economies. So far, outsized consumer demand for goods and exports to satisfy that demand have fuelled much of the global economic recovery. Importantly, considerable monetary and fiscal policy supports enabled select economies to capitalize on the goods consumption-exports revival more than others.

Still, this mix of growth is unsustainable and likely will give way to a more balanced recovery that includes consumption of in-person services, capital investment, and greater exports from the rest-of-world instead of domination by high-tech and manufacturing hubs in Asia. This rotation is expected to produce global real GDP growth north of 5 percent year-on-year in 2021, and above-trend growth in 2022.

INDIAN ECONOMY

The economy was gradually turning towards recovery early this year until the much more severe second COVID-19 wave hit India in April. The comforting news is that improving business sentiments, coupled with a strong recovery among industrial nations, propelled growth in the January–March quarter of FY2020–21. While substantial spending by the government provided the biggest boost to growth, private investments and goods exports—in segments such as engineering goods, chemical products, and pharmaceuticals—did remarkably well in the last quarter of the fiscal year.

The Government announced a special economic and comprehensive package under Atmanirbhar Bharat of ₹ 20 lakh crore - equivalent to 10 percent of India's GDP – to fight the Covid-19 pandemic in India. Several structural reforms announced as part of the package, inter alia, include deregulation of the agricultural sector, change in definition of MSMEs, new PSU policy, commercialization of coal mining, higher FDI limits in defence and space sector, development of Industrial Land/ Land Bank and Industrial Information System, Production Linked Incentive Schemes, revamp of Viability Gap Funding scheme for social infrastructure, new power tariff policy and incentivizing States to undertake sector reforms. Apart from this, various steps were taken to boost consumption which, inter alia, includes cash payment in lieu of the Leave Travel Concessions (LTC) scheme, One-time special Festival advance of ₹ 10,000 (interest-free) for central Government employees. Other steps such as Interest-free 50- year loan to states, additional capital expenditure budget for the central Government, launch of Emergency Credit Line Guarantee Scheme (ECLGS) 2.0, ₹ 1.46 lakh crore boost for manufacturing through Production-linked incentives for ten Champion Sectors, ₹ 18,000 crores additional outlay for PM Awaas Yojana (PMAY) –Urban, Equity infusion in National Investment and Infrastructure Fund (NIIF) Debt Platform, Demand booster for Residential Real Estate Income Tax relief for Developers & Home Buyers, Boost for Project Exports, Capital and Industrial Stimulus has been initiated to support economic growth.

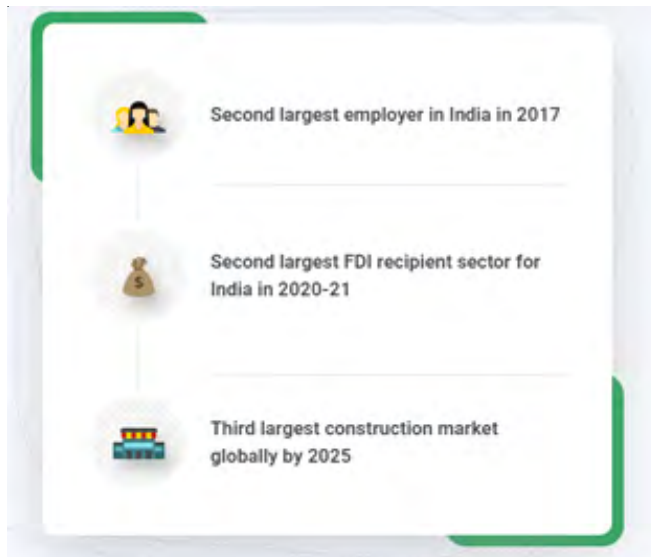

As per the first Advance Estimates of annual national income released by the National Statistical Office (NSO), Real GDP is estimated to contract by 7.7 percent in 2020-21, as compared to a growth of 4.2 percent in 2019-20. This contraction in GDP growth is mainly attributed to the contraction in industry and services sector. The growth of Gross Value Added (GVA) at constant (2011-12) basic prices is estimated to contract by 7.2 percent in 2020-21, as compared to a growth of 3.9 percent achieved in 2019- 20. Positive growth in real GVA in agriculture & allied sectors at 3.4 percent in 2020- 21 against 4.0 percent in PE of 2019-20 indicates resilience of rural economic activity to the Covid-19 pandemic. From the demand side, private consumption expenditure is estimated to contract at 9.5 percent in 2020-21 as against a growth of 5.3 percent in 2019-20 and fixed investment is estimated to decline by 14.5 percent in 2020-21 as against 2.8 percent in 2019-20. Government consumption final expenditure is estimated to grow at 5.8 percent in 2020-21 as against 11.8 percent in 2019-20. Exports and imports of goods and services are estimated to contract at 8.3 percent and 20.5 percent (at constant prices) respectively in 2020-21.

INDIAN CONSTRUCTION INDUSTRY

The Indian Construction Industry is one of the largest sectors after agriculture sector in our country. The Indian Construction Industry is the second-largest employer after the agriculture sector and employs potentially around 51 million workers. It is one of the major source of job for the unorganized sector of Indian labour market. Construction sector comprises six sub-sectors - housing, industrial, commercial, retail, social and hospitality. Thus, the growth of this sector is in direct correlation with the growth of the overall macro-economic environment.

The construction industry is an important indicator of the development as it creates investment opportunities across various related Sectors/Industries. The Indian Construction industry plays a very important role in its economy contributing to an average 6.5% of the GDP. In the year 2019, India's Construction sector had a contribution of over 2.7 trillion Indian rupees to the Country's GDP and accountable around 60% of the total plan outlay. The construction industry has forward and backward linkage to more than 250 allied industries and any upward movement of the construction industry would therefore naturally affect the fortune of these industries also and ultimately result in the economic growth of the whole country.

The Construction industry in India consists of the Real estate as well as the Urban development segment. The Real estate segment covers residential, office, retail, hotels and leisure parks, among others. While Urban development segment broadly consists of sub-segments such as Water supply, Sanitation, Urban transport, Schools, and Healthcare. Indian real estate attracted \$5 billion institutional investments in 2020.

- By 2025, Construction market in India is expected to emerge as the third largest globally
- By 2025, Construction output is expected to grow on average by 7.1% each year
- Construction equipment industry revenue stood at \$ 6.5 Bn in 2020

CONSTRUCTION INDUSTRY JOB OUTLOOK 2021

As reported by the CMIE economic outlook, 15 million jobs lost in May 2021. The real estate and construction industry took the biggest hit in employment during April-May 2021. It saw employment shrink by 8.8 million on a base of about 64 million in March 2021. Most of the job in this industry is informal.

Manufacturing industries took a hit of 4.2 million jobs on a base of 30 million. It is possible that most of these were in medium and small-scale enterprises. Hotels and tourism took a hit of 4 million on a base of 22.5 million.

And wholesale and retail trade saw employment fall by 3.6 million from 58 million in March. However, these industries are also employers of large numbers of informally active labour.

A feature that stands out in the current job losses is that its age composition is substantially different from the composition earlier. And this could be an additional source of worry.

In the past, job losses were concentrated in younger age groups. However, this is not the case this time. Instead, job losses are concentrated in the elder age groups.

CMIE reported the age group of 15-29 years did not see any job losses during April-May 2021. However, the age group of 30-39 years visited a net loss of 5.9 million jobs, and those of 40 years of age or more saw a loss of 18.7 million jobs.

Most of the job losses were borne by men. Therefore, it can be conjectured that these middle-aged men were the main bread-earners of their families. However, it requires more significant data analysis to conclude that the people who lost jobs during April-May 2021 were the primary breadwinners of their households.

But, at the cost of some admittedly stereotyping of workers, it may be worth worrying that the economic impact of these job losses on the households is more severe than it would have been in the job losses were mainly among the younger men and women.

As infections have started to decline, lockdowns started easing in the various states. So, some jobs may come back. But, recovery to the 2019-20 levels of 404 million jobs still seems very distant.

GOVERNMENT INITIATIVE AND INVESTMENT

In Union Budget 2021, the government has given a massive push to the infrastructure sector by allocating Rs. 233,083 crore (US\$ 32.02 billion) to enhance the transport infrastructure. The government expanded the 'National Infrastructure Pipeline (NIP)' to 7,400 projects. ~217 projects worth Rs. 1.10 lakh crore (US\$ 15.09 billion) were completed as of 2020. The key highlights of the Budget 2021 are as follows:

- In May 2021, Minister for Road Transport & Highways and Micro, Small and Medium Enterprises, Mr. Nitin Gadkari stated that the government is giving utmost priority to infrastructure development and has set a target of road construction of worth Rs.15 lakh crore (US\$ 206 billion) in the next two years.
- The Ministry of Railways plans to monetise assets including Eastern and Western Dedicated Freight Corridors after commissioning, induction of 150 modern rakes through PPP, station redevelopment through PPP, railway land parcels, multifunctional complexes (MFC), railway colonies, hill railways and stadiums.
- In March 2021, the government announced a long-term US\$ 82 billion plan to invest in the country's seaports. ~574 projects have been identified, under the Sagarmala project, for implementation through 2035.
- In April 2021, the Ministry of Power (MoP) released the draft National Electricity Policy (NEP) 2021. The MoP created an expert committee including members from state governments, the Ministry of New and Renewable Energy (MNRE), NITI Aayog and the Central Electricity Authority (CEA).
- In March 2021, the Parliament passed a bill to set up the National Bank for Financing Infrastructure and Development (NaBFID) to fund infrastructure projects in India.
- Indian railways received Rs. 1,10,055 crore (US\$ 15.09 billion), of which Rs. 1,07,100 crore (US\$ 14.69 billion) is for capital expenditure.
- Rs. 1,18,101 crore (US\$ 16.20 billion) has been allocated towards road transport and highway sector.
- In Budget 2021, the government announced the following interventions under Pradhan Mantri Aatmanirbhar Swasth Bharat Yojana (PMANSY):
 - a) An outlay of Rs. 64,180 crore (US\$ 8.80 billion) over six years to strengthen the existing 'National Health Mission' by developing capacities of primary, secondary & tertiary care and healthcare systems & institutions to detect and cure new and emerging diseases.
 - b) This scheme will strengthen 17,000 rural and 11,000 urban health and wellness centres.
 - c) Setting up integrated public health labs in all districts and 3,382 block public health units in 11 states.
 - d) Establishing critical care hospital blocks in 602 districts and 12 central institutions.

- e) Strengthening the NCDC (National Centre for Disease Control) to have five regional branches and 20 metropolitan health surveillance units.
 - f) Expanding integrated health information portal to all states/UTs.
 - g) Rolling out the pneumococcal vaccine, a 'Made in India' product, across the country.
 - h) Rs. 35,000 crore (US\$ 4.80 billion) has been allocated for COVID-19 vaccines in FY22.
- The government announced Rs. 18,998 crore (US\$ 2.61 billion) for metro projects.
 - Mega Investment Textiles Parks (MITRA) scheme was launched to establish world-class infrastructure in the textile sector and establish seven textile parks over three years.
 - The government announced Rs. 305,984 crore (US\$ 42 billion) over the next five years for a revamped, reforms-based and result-linked new power distribution sector scheme.

THE WAY FORWARD

The Indian construction industry is expected to register a growth of 13% in real terms in 2021 – following a decline of 12.4% in 2020. However, the outbreak of the Coronavirus (COVID-19) pandemic and subsequent lockdown restrictions weighed on the industry's output last year.

As reported by Business Standard, the Industry chamber of Assocham said the Construction industry might resume operations by mid-June 2021 as several states started easing COVID-19 related restrictions; the employment-intensive construction industry should witness resumption in operations by the middle of June, though at a curtailed level.

The chamber said it would take about two weeks for the contractors to put together again the material and manpower at the sites after the disruptions of about 40 days in major states like Delhi, Maharashtra, Uttar Pradesh, Rajasthan, Bihar, and Haryana, among others.

Acknowledging that the second wave of the pandemic affected initial recovery, Chief Economic Advisor (CEA) K V Subramanian has expressed hope that the country's economy will turn around by July 2021. The economic activity can come back once the pandemic-related strictures are removed, Covid-appropriate behavior becomes a part of life, and the pace of vaccination accelerates, he added.

We have expertise in building all types of structures including industrial, commercial, residential, hospitals, educational institutions, data centres etc. The company focuses on 6 verticals namely, Residential, Health & Leisure, Educational Institutes, Commercial Spaces, Industrial and Special Projects (Pharmaceutical & Cold Storages). Currently, for the company out of the total order book position its residential segment (legacy business) contributes about 46.43%, Residential (Govt and Semi Govt) includes 5.36%, commercial & industrial segment constitutes 28.57%, Special & Educational projects contribute the 14.29%, while health & leisure contributes the remaining i.e. 5.36%.

We have three delivery models for executing projects, namely, EPC, General Contracting and Project Management Consulting (PMC) / Design & Build. General Contracting is a widely accepted contracting method. In General Contracting, the company takes charge of the entire project from inception to completion. Responsibility includes core and shell construction along with finishes, internal infrastructure, MEP and specialized services like Elevators, Landscaping etc. EPC is holistic service delivery model where the company provides all architectural / engineering design services, scheduling activities, procurement, construction, installation and commissioning resources etc. under one roof. Under Project Management Consulting Company's involvement begins much prior to the laying of foundation of the project. Activities are broadly classified in clearly defined phases of the project's lifecycle. We meticulously monitor each stage for all constraints including cost, quality and time.

Strengths & Opportunities

We have the highest market share of contracting business in the fastest growing market of Navi Mumbai. In the ticket size that the company operates, there are very few organized players. We also have higher pricing power and enjoy healthy margins. Your company is a preferred choice for EPC, General Contracting and Design & Build. The company is known for timely execution of projects. Till date, no penalty has been levied on the company for execution delays and the company has history of zero accidents.

We have dedicated to achieving cost & time optimization. The company has close association with leading architects and consultants. Most of the clients approach the company again, for undertaking any expansion work. The company has not faced litigations from any client since last 50 years nor faced any arbitration with any client. We are one of the four vendor companies short-listed by IKEA. A lot of companies couldn't match the criteria set by IKEA, which Generic was able to match.

We are a pioneer in building cold storages. We have expertise to build cold storages up to the range of -40° C. Till date, the company has built more than 80 cold storages, including the biggest one in Mumbai. The company has invented deep blasting freezer for cold storages. Reliance Foundation plans to build more than 40 hospitals at different locations in India, out of which the company has already bagged orders for building 5 hospitals.

The company's strength lies in effective man-power sourcing. The company's financial position is robust. The management believes in most efficient utilization of funds.

Business Strategy

Our Order Book is dominated by Commercial & Industrial projects and high-rise residential projects wherein margins are better, and competition is low. Only a handful of players compete with us in this space.

Due to strong emphasis on speedy construction using new advanced technology, we have quickly gained a reputation for timely execution, enabling it to grow its pre-qualifications and bag repeat orders from clients.

Most existing orders originate from reputed and repeat developers. We have also ventured into northern and southern India, with significant possibilities of mining a larger share of our Order Book going ahead.

Supported by strong credentials and a huge order backlog, the company remains selective while taking on new projects with a focus on quality and financial health of the client as well as the project's margin profile, vertical and geography.

We focus on small ticket-size projects because of the following advantages: -

- Very few organized players
- Margins are on higher side
- Risk factor is limited, for if the project gets stalled, it will not adversely affect the company
- Diversification with number of clients
- Better Working Capital cycle
- Better Contractual terms

Our in-house execution team, technical team, contract team – have made a marketing strategy that the ticket-size of the projects is restricted, so that the risk factor is also minimal. They structure the tender is such a way that the mobilization advance, and bank guarantee is utilized minimally.

We are also undertaking a few projects on a unique business model on pilot basis which reduces Working Capital requirement. In such projects the company and its client have a joint escrow account with joint signature authority. The fund in the escrow account is utilized for the said project only. This model, based on trust, brings in transparency and helps reduce non-fund-based requirement.

Our business is asset-light and not capital intensive as most of the equipments required for construction operations are taken on lease basis. As such, we have a healthy balance sheet.

We have tie-ups with many labour contractors with whom the company enjoys long standing history of strong relationships. This helps the company to take up multiple projects across multiple locations in Maharashtra.

Our company singularly focuses on its six verticals. The company's core teams have their own respective expertise on each vertical handled by them. These team are given complete charge of individual verticals. They can bid for projects anywhere in India in their vertical, provided the size is with the prescribed ticket-size. The team executing school projects, hospital projects, hotel projects etc. focus only on their verticals. This leads to expertise and timely execution of projects.

Business Outlook

COVID-19 outbreak has ushered in a host of challenges across all industries. No industry is immune to this crisis and construction sector is no exception. Despite, low interest rates, the residential sector is likely to witness fall in demand due to weakening private consumption amid declining consumer sentiments and poor employment market. At the same time, our specialty lies in construction of projects for commercial and industrial sectors, which are likely to see a strong revival in economic activities in H2FY22.

Our Company has resumed its operations in line with all precautions of the COVID 19 pandemic and are aiming for rebound in FY22 and expecting a strong momentum on infrastructure of data centers, health care, hospitals and special projects etc. During the year Company has received key orders for Civil, Structural, Architectural & External Development works for Construction of Data center, Material center, Construction of School building and replica of 12 Jyotrilings (Shiv Dham Phase I). Receipt of these Projects stands as a crucial development towards our aim of expanding our order book position and achieve our growth objectives while continuing to build on a strong foundation.

Most of our clients have provided the necessary extension in timelines for the completion of projects under construction. The company is also in negotiation with clients for considering the escalation in project costs and making submissions for claiming the necessary compensation thereof.

As it is evident from our result for FY21 Company is taking initiatives to move towards Asset light Business model wherein key focus will be placed on cost optimization, organizational realignment and ramping up the execution of our current outstanding order book.

Our clients include some of the marquee names like Maharashtra State Police Housing and Welfare Corporation Limited, Aditya Birla Group, Kolte Patil Developers., SJ Pharma, Aarti Industries Ltd., Ctrl S, Himachal Pradesh Tourism Development Corporation Limited, Bharat Electronics Ltd., Mazgaon Dock Limited, Reliance Health Solutions Pvt. Ltd., Little Flower High School., etc. With significant execution experience and a highly qualified team coupled with necessary certifications, we are on a smooth path to grow revenues and profitability.

I have examined the compliance of Corporate Governance by **Generic Engineering Construction and Projects Limited** for the year ended 31st March 2021, as stipulated in Regulation 17 to 27 clauses (b) to (i) of Regulation 46 (2) and Schedule V of SEBI Listing Regulations.

The compliance of conditions of Corporate Governance is the responsibility of the Company's Management. My examination has been limited to a review of the procedures and implementations thereof, adopted by the Company for ensuring the Compliance with the conditions of Corporate Governance as stipulated in the said Regulations. It is neither an audit nor an expression of Corporate Governance as stipulated in the above mentioned Listing Agreement / SEBI Listing Regulations, as applicable.

In my opinion and to the best of our information and according to the explanation given to me and based on the representations made by the Management, I certify that the Company has complied with the conditions of Corporate Governance as stipulated in the abovementioned Listing Agreement / SEBI Listing Regulations, as applicable. The above said information and compliances and reporting's have been revived, as per details made available, online on respective website, emails and by the Company management and its representatives for said subject matter. Further, due to COVID restrictions, we have done all possible review and assessment, subject to limitations faced due to COVID circumstances, with such understanding, we are issuing this report.

I further state that such compliance is neither an assurance to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the company.

INDEPENDENT AUDITORS' REPORT

To,
The Members of **GENERIC ENGINEERING CONSTRUCTION AND PROJECTS LIMITED**

Report on the audit of the financial statements

Opinion

1. We have audited the accompanying financial statements of **Generic Engineering Construction and Project Limited** ("the Company"), which comprise the balance sheet as at March 31, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of changes in Equity and statement of cash flows for the year the ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information. (hereinafter referred to as 'financial statement').
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at March 31, 2021, its profit, changes in equity and cash flows for the year ended on that date.

Basis for opinion

3. We conducted our audit in accordance with the standards on auditing specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note No.35 to the Financial Results regarding uncertainties associated with the COVID-19 pandemic and impact assessment made by the company on the financial results. As mentioned in the said note, based on the future economic conditions, the actual impact may not be in line with the current estimates as made by the company, although the current impact assessment does not indicate any adverse impact on the ability of the company to continue as a going concern. Our opinion on the financial results is not modified in respect of this matter.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matter described below to be the key audit matters to be communicated in our report.

Information other than the financial statements and auditors' report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Financial Statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities Management for the financial statements

8. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

9. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

10. The board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with

Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Other Matter

16. The financial statements of the Company for the year ended 31 March 2020 were audited by the predecessor auditor, SDA & Associates, who have expressed an unmodified opinion on those standalone financial statements vide their audit report dated 28th July 2020

Report on other legal and regulatory requirements

17. The Company has provided (and)/paid managerial remuneration which is not in accordance with the requisite approval mandated by the provisions of Section 197 of the Act read with Schedule V to the Act. The details of the same are as follows:

S No.	Payment made to	Amount Paid/ provided in excess of limits prescribed (₹)	Amount due for Recovery as at 31 March 20XX (₹)	Steps taken to secure the recovery of the amount	Remarks (if any)
1	Managing Director	36,40,911	NA	NA	Based on representation given by management, Special resolution to waive off the recovery of excess remuneration would be taken in 27 th AGM dated 29 th September 2021 u/s 197(10)

18. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
19. Further to our comments in Annexure A, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - The financial statements dealt with by this report are in agreement with the books of account;
 - In our opinion, the aforesaid financial statements comply with the accounting standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the board of directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act;
 - We have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report as per "Annexure B" expressed unmodified opinion; and
 - With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us;
 - The Company does not have any pending litigations which would impact its financial position as at 31 March 2021;
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021; and
 - There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
 - the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

Annexure - B to the Auditors' Report

Independent Auditor's Report on the internal financial controls with reference to the financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. We have audited the internal financial controls over financial reporting of **GENERIC ENGINEERING CONSTRUCTION AND PROJECTS LTD** ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and those receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not

be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS**1. SIGNIFICANT ACCOUNTING POLICIES:****(A) CORPORATE INFORMATION**

GENERIC ENGINEERING CONSTRUCTION AND PROJECTS LIMITED is Listed Public Limited Company incorporated under the Provisions of Companies Act, 1956, having registered office at 201 & 202, 2nd Floor, Fitwell House, Opp. Home Town, LBS Road, Vikhroli (West), Mumbai – 400083 and engaged in the construction of residential, industrial, commercial and Institutional buildings.

(B) BASIS OF PREPARATION

The company's financial statements have been prepared in accordance with accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2016 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements have been prepared on a historical cost convention except for the certain financial assets & liabilities measured at fair value (refer accounting policy regarding financial instruments)

The financial statements are presented in Indian Rupees (Rs.) and all values are recorded to the nearest lakhs, except where otherwise indicated.

Accounting policies followed in the preparation of these financial statements are consistent with the previous year.

(C) Significant accounting judgments, estimates and assumptions

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make judgments, estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date, reported amounts of revenues and expenses for the period ended and disclosure of contingent liabilities as of the balance sheet date along with their disclosures. The estimates and assumptions used in these financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Existing circumstances and assumptions about future developments, however may change due to market changes or circumstances arising that are beyond the control of the Company. Actual results may differ from those estimates. Any revision to accounting estimates is recognized prospectively. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Revenue Recognition

The Company account for revenue in accordance with Ind AS 115 (Revenues from Contracts with Customers). The unit of account in Ind AS 115 is a performance obligation. A contract's transaction price is allocated to each distinct performance obligation and recognised as revenue when, or as, the performance obligation is satisfied. The Company's performance obligations are satisfied over time as work progresses. Stage of completion is determined with reference to the certificates authorized and approved by clients/consultants appointed by client as well as on the billing schedule agreed for value of work done during the year.

Due to the nature of the work required to be performed on the performance obligations, the estimation of total revenue and cost at completion is complex, subject to many variables, and requires significant judgment.

Costs associated with specific risks are estimated by assessing the probability that conditions arising from these specific risks will affect the Company's total cost to complete the project. After work on a project begins, assumptions that form the basis for the Company's calculation of total project cost are examined on a regular basis and the Company's estimates are updated to reflect the most current information and management's best judgment. The nature of accounting for long-term contracts is such that refinements of the estimating process for changing conditions and new developments are continuous and characteristic of the process. There are many factors, including, but not limited to, the ability to properly execute the engineering and design phases consistent with customers' expectations, the availability and costs of labour and material resources, productivity, and weather, all of which can affect the accuracy of the Company's cost estimates, and ultimately, its future profitability.

Taxes

Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Employee benefit plans

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Estimation of provisions and contingencies

Provision for expected credit losses of trade receivables and contract assets

Impairment of financial assets

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimated impairment allowance on trade receivables is based on the aging of the receivable balances and historical experiences. Individual trade receivables are written off when management deems them not to be collectible.

(D) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Current versus non-current classification

The Company presents assets and liabilities in the standalone balance sheet based on current/ noncurrent classification.

An asset is treated as current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle,
- ii) Held primarily for the purpose of trading,
- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- i) It is expected to be settled in normal operating cycle,
- ii) It is held primarily for the purpose of trading,
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

Operating cycle for current and non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2. Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i) In the principal market for the asset or liability, or
- ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result from general approximation of value and the same may differ from the actual realised value.

3. REVENUE RECOGNITION

Revenue from contracts with customers is recognised when control of the goods and services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue is measured based on the consideration specified in the contract with customers. The Company recognizes revenue when or as it transfers control over a good or service to a customer.

Allocation of transaction price to performance obligations - A contract's transaction price is allocated to each distinct performance obligation and recognised as revenue, when, or as, the performance obligation is satisfied. To determine the proper revenue recognition method, the Company evaluate whether two or more contracts should be combined and accounted for as one single contract and whether the combined or single contract should be

accounted for as more than one performance obligation. This evaluation requires significant judgment; mostly the Company's contracts have a single performance obligation as the promise to transfer the individual services is not separately identifiable from other promises in the contracts and, therefore, not distinct.

Variable consideration is included in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when that uncertainty associated with the variable consideration is subsequently resolved.

Progress billings are generally issued upon completion of certain phases of the work as stipulated in the contract. Payment terms may either be fixed, lump-sum or driven by time and materials. Typically, the customer retains a small portion of the contract price until completion of the contract.

Revenue recognised over time - The Company's performance obligations are satisfied over time as work progresses when performance obligations are fulfilled and control transfers to the customer. Revenue from services transferred to customers is recognised over time. Stage of completion is determined with reference to the certificates given by the Clients / Consultants appointed by Clients as well as on the billing schedule agreed with them for the value of work done during the year.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.

4. PROPERTY PLANT & EQUIPMENT (PPE)

Tangible Assets:

Property Plant & Equipment are stated at cost of acquisition less accumulated depreciation and impairment loss, if any. The cost of acquisition includes direct cost attributable to bringing the assets to their present location and working condition for their intended use. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date and excludes any tax for which input credit is taken.

Subsequent expenditure is capitalised only when it increases the future economic benefits for its intended from the existing assets beyond its previously assessed standard of performance. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives and capitalises cost of replacing such parts if capitalisation criteria are met. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Assets individually costing Rs. 5000 or less are expensed out in the year of acquisition.

Intangible Assets:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

5. DEPRECIATION

Depreciation on Tangible assets:

Depreciation is provided on the written down value method over the useful life of the assets as specified in Schedule II of the Companies Act, 2013. Depreciation is charged on a pro-rata basis from / up to the date of acquisition /sale or disposal.

The Company has used the following useful lives as prescribed in Schedule II of the Companies Act, 2013

Name of the Asset	Estimated Useful Life (Years)
Air Conditioner	10
Computer	3
Motor Car	8
Motor Bike	10
Office Equipment	5
Office Premises	60
Building Container	12
Machinery	15
MS Centering	12
Winget Bar Cutting Machine	12
Furniture & Fixtures	10
Software	3
Printer	3

6. IMPAIRMENT OF ASSETS

As at the end of each accounting year, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the said assets are tested for impairment so as to determine the impairment loss, if any. The intangible assets with indefinite life are tested for impairment each year.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- i) In the case of an individual asset, at the higher of the net selling price and the value in use; and
- ii) In the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit's net selling price and the value in use.

The amount of value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life. For this purpose, the discount rate (pre-tax) is determined based on the weighted average cost of capital of the Company suitably adjusted for risks specified to the estimated cash flows of the asset).

For this purpose, a cash generating unit is ascertained as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

7. FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value

through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement of financial assets:

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification financial assets.

Following are the categories of financial instrument:

- a) Financial assets at amortised cost
- b) Financial assets at fair value through other comprehensive income (FVTOCI)
- c) Financial assets at fair value through profit or loss (FVTPL)
- a) Financial assets at amortised cost** Financial assets are subsequently measured at amortised cost using the effective interest rate method if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in the statement of profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables, loans and other financial assets.

b) Financial assets at fair value through other comprehensive income (FVTOCI)

Debt financial assets measured at FVOCI: Debt instruments are subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI financial assets is reported as interest income using the EIR method.

c) Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading. Other financial assets such as unquoted Mutual funds are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- a) the rights to receive cash flows from the asset have expired, or
- b) the Company has transferred its rights to receive cash flows from the asset, and
 - i) the Company has transferred substantially all the risks and rewards of the asset, or
 - ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

On derecognition of a financial asset in its entirety, the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss ('ECL') model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, deposits, trade receivables and bank balance
- b) Financial assets that are debt instruments and are measured at FVTOCI.
- c) Financial guarantee contracts which are not measured as at FVTPL.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk.

Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

1. All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
2. Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss. In the balance sheet, ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss. Gains or losses on liabilities held for trading are recognised in the profit or loss Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior

management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

8. INVENTORIES

The Inventories have been valued at cost or net realizable value whichever is lower. The Inventory is physically verified by the management at regular intervals. Cost of Inventory comprises of Cost of Purchase, Cost of Conversion and other Costs incurred to bring them to their respective present location and condition.

Cost of Centering Material, Construction Materials are Valued at cost or net realizable value whichever is lower, Work-in-progress consist of Work done but not certified and the incomplete work as on balance sheet date and same is valued at cost or net realizable value whichever is lower.

9. EMPLOYEE BENEFIT EXPENSES

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service.

Defined Benefit Plan

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on Projected Unit Credit Method made at the end of the financial year. Actuarial gains and losses for both defined benefit plans are recognized in full in the period in which they occur in the statement of OCI.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the standalone balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense

10. TAXATION

Current Tax:

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Current income tax relating to items recognised outside profit or loss are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit and loss (either in other comprehensive income or in equity).

11. BORROWING COSTS

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds including interest expense calculated using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset until such time as the assets are substantially ready for the intended use or sale. All other borrowing costs are expensed in the period in which they occur.

12. PROVISIONS, CONTINGENT LIABILITIES & CONTINGENT ASSETS

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from past events, when no reliable estimate is possible;
- a possible obligation arising from past events, unless the probability of outflow of resources is remote.

A contingent asset is disclosed where an inflow of economic benefits is probable.

Provisions, contingent liability & contingent asset are reviewed at each balance sheet.

13. EARNING PER SHARE

Basic earning per share is calculated by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year. Diluted earning per share adjusts the figures used in determination of basic earnings per share to take into account the conversion of all dilutive potential equity shares.

14. LEASES**Where the Company is lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets

The right-of-use assets are also subject to impairment.

Lease Liabilities

At the commencement date of the lease, the company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

ii) Defined Benefit Plans
- Gratuity

Gratuity is provided based on actuarial valuation for employees covered under the Group Gratuity Scheme. Few employees like drivers and hamaals are not covered under the Group Gratuity Scheme on account of high attrition rates (specific to the industry and in their categories) and therefore gratuity payments made to them during each of the reporting periods are charged to the Statement of Profit and Loss of such periods.

- I. Valuations in respect of Gratuity has been carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation, as at the Balance Sheet Date, based on the following assumptions:

Delta Effect of +1% Change in Rate of Employee Turnover	(95,363)	-
Delta Effect of -1% Change in Rate of Employee Turnover	100,729	-

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the defined benefit obligation as recognised in the balance sheet.

Notes

Actuarial Gains/ Losses are accounted for immediately in the Other Comprehensive Income.

Salary escalation & attrition rate are considered as advised by the company; they appear to be in line with the industry practice considering promotion and demand & supply of the employees.

Qualitative Disclosures

Para 139 (a) Characteristics of defined benefit plan

The Company has a defined benefit gratuity plan in India (unfunded). The company's defined benefit gratuity plan is a final salary plan for employees. Gratuity is paid from company as and when it becomes due and is paid as per company scheme for Gratuity.

Para 139 (b) Risks associated with defined benefit plan

Gratuity is a defined benefit plan and company is exposed to the Following Risks:

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Interest rate risk:

A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision.

Asset Liability Matching Risk:

The plan faces the ALM risk as to the matching cash flow. Company has to manage pay-out based on pay as you go basis from own funds.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Para 139 (c) Characteristics of defined benefit plans

During the year, there were no plan amendments, curtailments and settlements.

Para 147 (a) Gratuity plan is unfunded.

Code On social Security, 2020

The Indian parliament has approved the Code on social security, 2020 which would impact the contributions by the company toward provident fund and gratuity. The Ministry of labour and employment has released draft rules for the code on Security, 2020 on November 13, 2020, and has invited suggestions from stakeholders which are under active consider Ministry. The Company will assess the impact and its valuation once the subject rules are notified and will give appropriate in its financial statements in the period in which, The code becomes effective and the related rules to determine the finance are published.

Note On Managerial Remuneration

As per provisions of Section 197(9) of the Act, if any managerial personal draws or receives, directly or indirectly, by way of remuneration any such sum in excess of the limit prescribed under Section 197 or without shareholders' approval, he shall refund such sums to the company, within two years or such lesser period as may be allowed by the company and until such sum if refunded, hold it in trust for the company. However, as per provisions of Section 197(10) of the Act, with the approval of Members of the Company recovery of excess amount of remuneration so paid to a managerial personal can be waived off.

At the time of appointment of Mr Manish Patel (DIN: 00195878), Mr Tarak Gor (DIN: 01550237) and Mr Jayesh Rawal (DIN: 00464313) the Company had adequate profits and the remuneration paid / payable to Mr Manish Patel (DIN: 00195878), Mr Tarak Gor (DIN: 01550237) and Mr Jayesh Rawal (DIN: 00464313) was well within the limits prescribed above. However, during the last year i.e. 2020-2021 performance of the overall Construction industry was impacted and marked a stringent market conditions on event of occurrence of COVID-19 Pandemic outrage throughout the Country and consequent State & Central Government lockdowns from early March, 2020. Due to this Company was not able to generate profits as anticipated during the Financial Year 2020-2021.

The table below shows the total remuneration paid including excess amount paid to Mr Manish Patel (DIN: 00195878), Mr Tarak Gor (DIN: 01550237) and Mr Jayesh Rawal (DIN: 00464313) for the Financial Year 2020-2021 under Section 197 of the Companies Act, 2013:

Name & Designation	Salary and perquisites (Rs)	Maximum permissible limit (Rs)	Excess Payment (Rs)
Manish Patel (Managing Director)	6,000,000	2,359,089	3,640,911

Jayesh Rawal (Executive Director)	4,200,000	1,651,362	2,548,638

Considering the contribution of Mr. Manish Patel (DIN: 00195878), Mr Tarak Gor (DIN: 01550237) and Mr Jayesh Rawal (DIN: 00464313) to the Company, it is apt and justifiable on Company's part to allow the payment of excess remuneration paid due to inadequate profits, subject to approval of Shareholders' at the ensuing Annual General Meeting.

The Nomination and Remuneration Committee and the Board of Directors have at their respective meetings held on August 14, 2021 respectively, subject to the approval of the members of the Company, accorded their approvals for waiver of recovery of excess managerial remuneration paid.

Hence it is proposed to seek waiver from recovery of Rs 36,40,911/- (Rupees Thirty-Six Lakhs Forty Thousand Nine Hundred and Eleven Only) being excess remuneration in terms of limits prescribed under Section 197(1) read with Schedule V of the Companies Act, 2013, paid to Mr Manish Patel (DIN: 00195878) Managing Director of the Company during the Financial Year 2020-2021.

Hence it is proposed to seek waiver from recovery of Rs 25,48,638/- (Rupees Twenty-Five Lakhs Forty Eight Thousand Six Hundred and Thirty Eight Only) being excess remuneration in terms of limits prescribed under Section 197(1) read with Schedule V of the Companies Act, 2013, paid to Mr Tarak Gor (DIN: 01550237) Executive Director & CFO of the Company during the Financial Year 2020-2021.

Hence it is proposed to seek waiver from recovery of Rs 25,48,638/- (Rupees Twenty-Five Lakhs Forty Eight Thousand Six Hundred and Thirty Eight Only) being excess remuneration in terms of limits prescribed under Section 197(1) read with Schedule V of the Companies Act, 2013, paid to Mr Jayesh Rawal (DIN: 00464313) Executive Director of the Company during the Financial Year 2020-2021.

NOTE : 31 : Earning Per Share :-	FY 2020-21	FY 2019-20
Weighted Average number of equity shares Outstanding during the year	42,139,306	41,241,772
Add: - Diluted effect	-	-
Weighted average number of equity shares used to compute diluted earnings/(loss) per share	42,139,306	41,241,772

Basic Earning per Equity Share	0.66	3.52
Diluted Earning per Equity Share	0.66	3.52

Basic earnings per equity share is computed by dividing the net profit attributable to the equity share holders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as fresh issue, bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity shares holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

Fair value hierarchy

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

The following table provides the fair value measurement hierarchy of Company's financial assets and financial liabilities

- During the periods mentioned above, there have been no transfers amongst the levels of hierarchy.

- The carrying amounts of Security deposits, trade receivables, other financial assets, cash and cash equivalents, fixed deposits with banks, current borrowings, trade payables and other current financial liabilities are considered to be approximately equal to their fair value, since those are current in nature.

- The fair values computed above for assets measured at amortised cost are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of indirectly observable inputs.

Valuation process

The Company evaluates the fair value of financial assets and financial liabilities on periodic basis using the best and most relevant data available.

NOTE : 33 : Risk Management :-

Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk. Company's senior management oversees the management of these risks. It is Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors review and agree policies for managing each of these risks, which are summarised below.

a) Market risk

Market risk is the risk of any loss in future earnings, in realisable fair value or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of change in the interest rates, foreign currency exchange rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

- i. Interest rate sensitivity** Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Company does not have significant exposure to the risk of changes in market interest rates as Company's long-term debt obligations is at floating interest rates.

a) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. For the Company, liquidity risk arises from obligations on account of financial liabilities – borrowings, trade payables and other financial liabilities.

Liquidity risk management

Company's treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through forecasts on the basis of expected cash flows.

The table below summarises the maturity profile of Company's financial liabilities based on contractual undiscounted payments.

Other financial liabilities	-	-	-	368.81	-	368.81
Trade payables	-	3,096.48	-	-	-	3,096.48

b) Credit risk

Credit risk arises from cash and bank balances, current and non-current financial assets, trade receivables and other financial assets carried at amortised cost.

Credit risk management

To manage credit risk, the Company periodically assesses the financial reliability of customers and other counterparties, taking into account the financial condition, current economic trends, analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly. The Company uses a provision margin to compute the expected credit loss allowance for trade receivable. Also, trade receivables are monitored on periodic basis for any non-recoverability of the dues.

B) Capital management
1. Risk management

The Company's objectives when managing capital are to

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, Company may adjust the amount of dividends paid to shareholders.

34. SEGMENT REPORTING

The Company is mainly engaged in the business of Construction of residential buildings/commercial complexes and activities connected and incidental thereto. On that basis, the Company has only one reportable business segment – Construction, the results of which are embodied in the financial statements. The Company operates in only one geographical segment – within India.

35. IMPACT OF COVID -19 (Global Pandemic)

The Government of India has declared the nationwide lockdown on account of outbreak of COVID 19 Pandemic. The business operations have recommenced on a limited scale post relaxation of lockdowns. The management has taken into account the possible impacts of known events, upto the date of the approval of these financial results, arising from COVID-19 pandemic on the carrying value of the assets and liabilities as at 31 March 2020. However, there exists significant estimation uncertainty in relation to the future impact of COVID-19 pandemic on the Company and, accordingly, the actual impact in the future may be different from those presently estimated. The Company will continue to monitor any material change to the future economic conditions and consequential impact on the financial results.

36. LEASE

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for lease component within the contract as a lease separately from non-lease components of the contract. The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date. The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease.

Company as a lessee

The Company has initially recognize the right of use assets of Rs 2,09,03134/- and the lease liability of Rs. 2,09,03134/- . In the statement of profit and Loss of the current period, operating lease expenses has changed from rent to depreciation cost for the right of use assets and finance cost for interest accrued in lease liability.

On 31st March, 2021, the company has purchased the same property which was earlier taken on lease for which Right to use asset and lease liability was recognized. Owing to this, the company had to de-recognize the Right to use asset as well as lease liability. Therefore, the balance of Right to use asset as at year-end is nil.
