MESSAGE FROM THE CHAIRMAN

Dear Shareholders,

In the year 2021-22, the Indian economy continued to face sustained headwinds due to the COVID-19 pandemic. The pandemic posed a multitude of challenges this year. However, your Company's workforce, worked round the clock to fulfill the rise in demand for our key products. In responding to these challenges, your Company was guided by its core principles while maintaining sustainable operations.

The nation continued to recover from the pandemic, albeit interrupted by a dangerous second and third wave of infections. However, the silver lining is that the economic activity has gradually started to edge towards normalcy. Being a part of the pharmaceutical industry we are contributing to fight the pandemic since its outbreak and we will continue to do our part in helping the community.

According to the International Monetary Fund (IMF) forecasts, India is expected to be amongst the fastest growing economies in 2022. While the global macro environment has been volatile, your company remained relatively insulated in its markets of operation, which is evident from the increase in our export sales this year.

Market Size

The Pharma sector has been a notable contributor to the Indian economy post covid. According to the Indian economic survey, the country globally ranks 3rd in terms of volume and 14th largest by value. Indian pharmaceutical sector supplies over 50% of the global demand for various vaccines, 40% of the generic demand for the US and 25% of all medicines

for the UK. According to the Indian Economic Survey 2021, the domestic market is expected to grow 3 times in the next decade. India's domestic pharmaceutical market is at USD 42 billion in 2021 and likely to reach USD 65 billion by 2024 and further expand to reach USD 120-130 billion by 2030. In terms of overall revenue, the Indian pharmaceutical market increased by 13.9% in January 2022.

With respect to exports, India is the 12th largest exporter of medical goods in the world. As of May 2021, India supplied a total of Rs. 586.4 Lakh COVID-19 vaccines to 71 countries. Indian drugs are exported to more than 200 countries in the world, with US being the key market. Generic drugs account for 20% of the global export in terms of volume, making the country the largest provider of generic medicines globally. The Indian pharmaceutical exports, including bulk drugs, intermediates, drug formulations, biologicals, Ayush & herbal products and surgical, reached USD 24.44 billion in FY21. Indian pharmaceutical exports stood at USD 24.44 billion in FY21 and USD 22.21 billion in FY22 (until February 2022).

Government Initiatives

Pharma Vision 2020' by the Government's Department of Pharmaceuticals aims to make India a major hub for end-to-end drug discovery. The foreign direct investment (FDI) inflows in the Indian drugs and pharmaceuticals sector reached USD 1.206 billion between April-December 2021.

MESSAGE FROM **THE CHAIRMAN**

In FY21, North America was the largest market for India's pharma exports with a 34% share and exports to the U.S., Canada, and Mexico recorded a growth of 12.6%, 30% and 21.4%, respectively. To achieve self-reliance and minimise import dependency on the country's essential bulk drugs, the Department of Pharmaceuticals initiated a PLI scheme to promote domestic manufacturing by setting up greenfield plants with minimum domestic value addition in four separate 'Target Segments' with a cumulative outlay of Rs. 6,940 crore (USD 951.27 million) from FY21 to FY30. In June 2021, Finance Minister Ms. Nirmala Sitharaman announced an additional outlay of Rs. 1,97,000 crore (USD 26,578.3 million) that will be utilised over five years for the pharmaceutical PLI scheme in 13 key sectors such as active pharmaceutical ingredients, drug intermediaries and key starting materials.

The Union Budget 2022-23, the government allocated Rs. 37,000 crore (USD 4.83 billion) to the 'National Health Mission'. India plans to set up a nearly Rs. 1 lakh crore (USD 1.3 billion) fund to provide a boost to companies to manufacture pharmaceutical ingredients domestically by 2023.

MESSAGE FROM MD & CEO

Dear Shareholders,

It gives me immense pleasure to present the Annual Report for FY 2021-22 to you.

Review of FY 2021-22

The year under review continued to test organizations, communities and individuals on account of pandemic induced disruptions and the start of the Russia-Ukraine war in Q4 of FY22 set the stage for all-round commodity price volatility which significantly affected margins and profitability. However, the Indian pharmaceuticals market witnessed a parallel recovery along with GDP growth and we are optimistic about the prospects of our long term growth owing to increasing accessibility and expanding health infrastructure across the country.

The primary message that the management seeks to convey to its stakeholders is that despite various challenges, your Company not only continued to serve its customers globally but also strengthened the business with a future-facing focus that enhanced its readiness to service the preventive health requirements of the world.

Financial Performance

Despite challenges, not least the impact of the pandemic as well as other macroeconomic factors, our teams remained strong, productive and committed to our customers, delivering exemplary performance. In consensus with our long-term growth trajectory, your Company earned total revenues of Rs. 397.71 Crores against Rs. 356.05 Crores in previous FY leading to a growth of more than 11%. During the year, your Company earned an EBIDTA of Rs. 59.32

Dr. Gopal Munjal

During the FY 2021-22, the Company incurred net losses of Rs. 20.33 Crores as compared to losses of Rs. 28.28 Crores in the previous financial year. Your company was able to reduce its net losses mainly owing to its pioneering marketing strategies which led to enhancement in export business.

To reduce the burden of finance cost on the Company, the management is focusing on making the Company debt free by retiring/takeover of all the existing debts.

Export

On Export front, the Company continued to perform well by registering sales of Rs. 293.19 Crores as compared to Rs. 264.27 Crores in the previous financial year leading to a growth of 10.94%.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

GLOBAL PHARMACEUTICAL INDUSTRY STRUCTURE AND DEVELOPMENTS:

The year 2021 has been another difficult year owing to the continuing and pervasive impact of COVID-19 pandemic, especially with the advent of new variants which caused significant challenges. Moreover, the conflict between Russia and Ukraine exacerbated the supply chain crisis and already high inflation levels.

The global prospects however, started improving from the latter half of year 2021. A large part of the world's population got vaccinated in FY 2021-22, which boosted consumer confidence and increased economic activities. The pandemic has been the most impactful global public health crisis in decades, and yet it has illustrated the resilience of global health systems as they have readily adapted to the demands. The global pharmaceutical market was valued at US\$ 1.4 trillion in 2021, and is expected to grow at a CAGR of 3-6% in the next five years, reaching a market size of US\$ 1.8 trillion by 2026.

Despite the impact of the pandemic, the unprecedented collective policy efforts by governments and central banks, paired with the resilience and innovations of private enterprises, have helped minimise lasting economic, psychological and physical damage across the world. While the direction of the Russia-Ukraine crisis remains uncertain, its impact on the global economy will remain.

INDIAN PHARMACEUTICAL INDUSTRY

Indian pharmaceutical industry is known for its generic medicines, accounting for 20% of the worldwide supply by volume, and also, the world's leading vaccine manufacturer. The generic drugs market was valued at US\$ 364.93 billion in 2021, and it is expected to reach US\$ 468.79 billion by 2027, registering a CAGR of 4.27% during the forecast period of 2022-27.

Transformed over the years as a vibrant sector, presently Indian pharmaceuticals industry is a major global player, being the world's third-largest producer by volume, and the fourteenth-largest producer by value. For the last decade, Indian Pharma sector has grown steadily by CAGR of 9.43% (approx). Pharma sector has been consistently earning trade surplus. Since 2013-14, Indian pharmaceutical exports have increased by 103%, from Rs. 904,150 million in 2013-14 to Rs. 1,834,220 million in 2021-22. The Pharma sector's export performance in the financial year 2021-22 was the best it has ever been. Exports have increased by about US\$ 10 billion in

the last 8 years, marking a tremendous rise.

India has the highest number of United States Food and Drug Administration (USFDA) compliant Pharma plants outside of USA. There are 500 API manufacturers contributing about 8% in the global API Industry. India is the largest supplier of generic medicines by manufacturing 60000 different generic brands across 60 therapeutic categories.

The Indian pharma industry has also played an important role in meeting the challenges for mitigation of the infection in COVID pandemic. The industry worked in close collaboration with the government and academic institutes etc., to quickly develop and refine manufacturing processes which helped to ensure a consistent supply of medicines needed for the management of COVID-19. Indian drug supplies throughout the COVID-19 pandemic period have provided relief to over 120 countries for Hydroxychloroquine (HCQ), 20 countries for paracetamol and about 96 countries for vaccines across the world.

RISKS AND CONCERN

The Indian pharmaceuticals market is the third largest in terms of volume. India is the biggest provider of generic medications internationally and enjoys a significant position in the world pharmaceuticals sector. The country also has a huge talent pool and scientists having the capability to steer this industry forward to a much greater degree. The cost efficiency also continues to create opportunities for Indian pharmaceutical companies in the emerging global economies. The Indian pharmaceutical industry is expected to outperform the global pharmaceutical industry and grow in the next couple of years and thereby emerge as one of the top 10 pharmaceutical market globally by absolute size.

Indian pharmaceutical companies are focusing on global generic and API business, R&D activities, contract research and manufacturing alliances. India is also fast emerging as a preferred pharmaceuticals manufacturing location. Increasing use of pharmaceutical generics in developed markets to reduce healthcare cost will also provide attractive growth opportunities to Indian generic formulations manufacturers and thus Indian pharmaceutical industry is poised for an accelerated growth in the coming years.

However, poor public healthcare funding and infrastructure, low per capita consumption of medicines in developing and under developed countries, currency fluctuations, regulatory issues, government mandated price controls, inflation and resultant all round increase in input costs are few causes of concern for the industry.

- d) We draw attention to Note No. 42 of the accompanying standalone financial statements, which states that sundry balances/excess provision amounting to Rs. 1241.94 Lakhs have been written back during the year being not payable/provision not required.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report 2021-22 but does not include the Standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS Financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually

INDEPENDENT AUDITOR'S REPORT

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Materiality is the magnitude of misstatements in the standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

A company's internal financial control over financial reporting with reference to these standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements

INDEPENDENT AUDITOR'S REPORT

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to these Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone Financial Statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to these standalone Financial Statements and such internal financial controls over financial reporting with reference to these standalone Financial Statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES

A - SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation of Financial Statements

These financial statements have been prepared to comply with the Indian Accounting Standards (Ind AS). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015 and Companies (Indian Accounting Standards) Amendment Rules 2016.

The Financial Statements are prepared on accrual basis under the historical cost convention. The financial statements are presented in Indian rupees rounded off to the nearest rupees in lacs.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2. Use of Estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

3. Property, Plant & Equipment

- (a) Freehold land is carried at cost. All others items of Property, Plant and equipment have been stated at cost less accumulated depreciation and impairment loss if any. Cost of acquisition or construction is inclusive of freight, non refundable taxes or Levies, fees and incidental expenses to bring the assets to its present condition and location and interest on loans attributable to the acquisition of assets up to the date of commissioning of assets. Cost of assets not ready for intended use before the year end, are shown as capital –work-in- progress.
- (b) The Company is following the useful life by applying straight line method of depreciation as per the useful life specified in part C of Schedule II of the Companies Act 2013.

On assets sold, discarded etc, during the year depreciation is provided up to the date of sale/discard.

4. Leases

The Company's lease asset classes consist primarily of land and buildings . The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether : (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases.

For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated

SIGNIFICANT ACCOUNTING POLICIES

from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases.

Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option. Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

5. Intangible Assets

- (a) Intangible assets are measured at cost and amortized over their useful life.
- (b) Expenditure on Research phase is recognised as an expense when it is incurred.
- (c) Expenditure on product development phase is recognised as an Intangible Asset, These assets are amortized over the useful period of life starting from the year when the asset first meets the following recognition criteria:

 - The intention to complete the intangible asset and use or sell it;
 - the ability to use or sell the intangible asset;
 - how the intangible asset will generate probable future economic benefits;
 - the availability of adequate technical , financial and other resources to complete the development and to use or sell the intangible asset; and
 - the ability to measure reliably the expenditure attributable to the intangible asset during its development.
- (d) Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset , are recognised in statement of profit and loss when the asset is derecognized.

Following delivery, the customer has full discretion over the responsibility, manner of distribution, price to sell the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Company when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. Payment is due within 0-180 days. The Company considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any)."

However, the impact assessment of COVID-19 is a continuing process, given the uncertainties associated with its nature and duration.

The Company has taken steps to assess the cost budgets required to complete its performance obligations in respect of fixed price contracts and also has incorporated the impact of likely delays/increased cost in meeting its obligations, if any. The Company has also assessed the impact of any delays/inability to meet contractual commitments and has taken actions in light of current crisis to ensure that revenue recognition in such cases reflect realizable values.

The impact assessment of COVID-19 is dynamic, no one know if any disruption might happen due to any reason of COVID-19. It may also further impact the contractual commitments beyond anticipations.
