MANAGEMENT DISCUSSION & ANALYSIS REPORT

(Within the limits set by the Company's competitive position)

Economic Scenario:

The global economy has experienced numerous challenges in the form of global inflation, prevailing Ukraine-Russia war, sharp policy tightening in our major markets, financial institutions disappearing and tighter monetary conditions derailed the economic recovery in 2022. China is rebounding strongly following the reopening of its economy after the pandemic-related disruptions. Supply-chain disruptions are unwinding, while the dislocations to energy and food markets caused by the war are receding. Simultaneously, the massive tightening of monetary policy by most central banks has started reaping benefits with inflation moving back toward its targets. The International Monetary Fund (IMF) has projected global growth to decline from 3.4% in 2022 to 2.8% in 2023 and rise to 3.0% in 2024. Growth in Advanced Economies is projected to decline from 2.7% in 2022 to 1.3% in 2023 before rising to 1.4% in 2024. The emerging economies are projected to decline from 4% in 2022 to 3.9% in 2023 and rise to 4.2% in 2024. In the medium term, it is imperative to focus on structural factors impeding supply and take appropriate steps to strengthen multilateral cooperation. This will help in creating a more resilient world economy. (Source: IMF World Economic Outlook April 2023)

In FY2023, the Indian economy continued to remain strong in the face of adverse global macroeconomic challenges. Despite high inflation, the Indian economy has achieved GDP growth of 7.2% in F.Y. 2022-23. The Indian economy's projected GDP growth according to ADB (Asian Development Bank) will be moderate at 6.4% in fiscal year (FY) 2023 ending on 31 March 2024 and will rise to 6.7% in FY2024, driven by private consumption and private investment on the back of government policies to improve transport infrastructure, logistics, and the business ecosystem. India's economic growth story was primarily supported by robust investment activity reinforced by government capex push, return of private consumption and capital formation, which also helped generate employment in the country. Though, the global turmoil in FY2023 triggered broad-based inflation worldwide, and India was no exception. In April 2022, retail inflation, measured by CPI (consumer price index), reached the highest (7.79%). RBI increased interest rates to contain the soaring inflation. By the end of this fiscal, CPI (consumer price index) came down to 5.66%. The index of industrial production grew by 5.1%, against a growth of 11.4% in FY2022. Despite this drop, GST collection in FY2023 stood at ₹18 lakh crore, clocking a growth of 22% over last year. It shows the resilience of the Indian economy amid several global headwinds. Net Direct Tax collections (provisional) for the FY2023 stood at ₹16.61 lakh crore marking a growth of 17.63% on a y-o-y basis.

The nation's vision of becoming a \$5 trillion economy by 2025 requires strong determination and incorporation of pro-business policies. Providing essential support for new players in the market, improving the ease of doing business, eliminating unnecessary policies which prove detrimental and enhancing trade for job creation are crucial for future growth. Exports of network products have the potential to bring the economy on track, as it can provide impetus to the manufacturing sector and develop numerous jobs. This will be done by merging "Assemble in India for the world" with the "Make in India" initiative. The exports of network products is anticipated to touch \$7 trillion by 2025, which will play a crucial role for the Indian economy.

Reviving domestic demand growth, supported by government reforms, transportation sector development plans, growing retail sales, and the e-Commerce sector are likely to be the key drivers of growth for the Indian logistics industry.

The air cargo industry continued to see significant growth in its capacity, as measured by available cargo tonne-kilometers (ACTKs), which increased by 13.4% compared to the previous year. This expansion propelled the industry's capacity to surpass pre-Covid levels by 3.2%, marking the first time in three years that such levels have been achieved.

The recovery of air cargo capacity can be attributed to the restoration of belly-hold cargo capacity provided by passenger

aircraft. The ACTKs from passenger flights experienced a remarkable increase of 47.9% this month, while ACTKs from dedicated freighters contracted by 2.3%. Moreover, April 2023 witnessed the absence of scheduled passenger freighters (also known as preighters) globally for the first time in two and a half years, after they played an essential role during the pandemic. In April, International capacity increased 10.7% YoY, consistent with the faster recovery of belly-hold cargo capacity in international passenger markets. Despite the full recovery of air cargo capacity, the industry continues to be challenged by softening demand, leading to a decline in air cargo load factors. Cargo load factors dropped to 42.8% in April, 9.1% points (ppts) lower than the previous year. This decline can be attributed to the combination of increased capacity and weaker air cargo demand.

Opportunities & Outlook:

Logistics start-ups in India gained a substantial foothold after the onset of e-Commerce, and there are several new companies that are gaining traction in the industry. Online platforms have increased competition and lowered freight costs with real-time data availability and a transparent value chain. This will help the Air cargo service providers to innovate and adapt to the transforming logistics landscape and increase the Volumes.

The Government of India has planned to revive 50 airports to improve regional air connectivity around India. Apart from this, there is also a plan to make additional heliports, advanced landing grounds and water aerodromes. At present, only 30% of Indian residential areas have easy access to airports. This move is therefore aimed at increasing air traffic from Tier-II and III cities and to make air travel more accessible to the common people. Furthermore, constructing additional airports is expected to have a multiplier effect in creating a demand in Air Cargo Business. Additionally, constructing new airports will create new employment opportunities, boost tourism and reduce congestion in existing ones.

The air cargo and logistics sectors may see a gradual shift from survival mode to growth mode, as they have overcome the pandemic-related disruptions and emerged as a winner. High air freight rates, lack of trained manpower, inadequate infrastructure, and congestion at the terminals will remain as the main areas of concern, however, the year ahead will bring many opportunities in improving the supply chain efficiency. Experts forecast advanced technologies such as Artificial Intelligence, digitization, automation, and cloud-based solutions to act as a catalyst in improving overall operations. Air cargo ground handling and warehousing industries will see more of automation and robots taking care of storage of goods. Indian domestic air cargo market will be strong due to increased demand for consumer durables. Experts said in the times to come, India will become a big exports hub in Information Technology and Defence sectors, consumer durables, pharmaceuticals and heavy lift industry will project growth. Sustainable operations using biodegradable, and energy efficient technology will bring noteworthy changes in the air cargo handling, storage, and transportation.

Strong macroeconomic fundamentals, growth in retail driven by rising levels of disposable income in the hands of more and more people, expansion in domestic air Network by Indian Carriers, End to End solutions by Express Service Providers, growth of new time sensitive verticals like Pharmaceuticals, Healthcare, Electronics, wireless telephony, and Automotive Spares etc. are said to be the factors responsible for the rapid growth of Domestic Air cargo logistics business.

The domestic air freight demand is expected to touch 1.1 million tonne by the fiscal 2025 at a compounded annual growth rate (CAGR) of 7-9% propelled by rapidly growing e-commerce activity, increasing capacity and improving airline connectivity to smaller cities, according to a research note.

Risks & Concerns:

Lack of supporting infrastructure, automated material handling systems, and high manual process interference are some key areas where the Indian Air Cargo industry lags.

Industry-wide cargo capacity declined by 42.0% annually, stemming from the evaporation of the belly capacity of passenger aircraft. Airlines raised freighters capacity – notably by converting passenger aircraft into freighters – to meet demand.

Though the Freighter operations and Cargo on seat flights have helped to drive the cargo load factor up 11.5 ppts year-on-year but the high pricing of freighter operations is a deterrent to the growth of the air cargo on freighter.

In normal times, this would be consistent with improving air cargo demand. But the current lack of air cargo capacity prevents that demand from materializing, and instead leads to elevated air cargo rates and load factors and moreover forcing the industry to move shipments by other means of transport.

Air Cargo full freighter operations have not developed as was expected and continual efforts through new policies/incentives need to be devised to provide a favorable environment to support growth inspite of the international fuel prices cooling off to all time new low the Indian fuel prices have climbed up the operating costs of the air cargo industry. The ever-increasing cost of fuel is the biggest area of concern as it is reducing profitability.

The warehouse industry in India is still highly unorganized and fragmented. High inventory holding costs, higher storage cost, and improper material handling which leads to damage of the product are the major concern for warehouse industry.

The Company's Board of Directors/Management is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act 2013 ("the Act") with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) referred specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

“Annexure B” forming part of Independent Auditor’s Report on the Standalone Financial Statements of Patel Integrated Logistics Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Ind AS Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the Standalone Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1.B. Significant Accounting Policies

a. Basis for preparation of Standalone Financial Statements:

The standalone financial statements have been prepared on the historical cost basis except for following assets and liabilities which have been measured at fair value amount:

- i) Certain financial assets and liabilities
- ii) Defined benefit plans - plan assets

The Financial Statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013.

Company's Financial Statements are presented in Indian Rupees, which is also its functional currency and all values are rounded to the nearest rupee.

b. Property, Plant and Equipment (including Capital work-in-progress):

- i. Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to profit or loss during the reporting period in which they are incurred.

- ii. Assets acquired on financial lease on or after April 1, 2001 are capitalised at their fair values at the inception of lease or if lower at the present value of the minimum lease payments.
- iii. Land purchased on long term lease (99 years) is shown under Property, Plant and Equipment and not separately shown under Leased Assets.
- iv. Assets acquired but not ready for use are classified under Capital work in progress and are stated at cost comprising direct cost and related incidental expenses.

c. Investment Property:

- i. Investment property is the property that is not occupied by the Company, and which is held to earn rentals or for capital appreciation, or both. Upon initial recognition, an investment property is measured at cost, including directly attributable overheads, if any. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment loss, if any.
- ii. Any gain or loss on disposal of an investment property is recognised in profit or loss, unless any other standard specifically requires otherwise.
- iii. Company depreciates the investment property using the straight line method over the useful lives of assets as prescribed under Part C of Schedule II of the Act.

Notes on Financial Statements for the Year Ended 31st March, 2023.

d. Intangible Assets:

- i. Intangible Assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

e. Depreciation / Amortization:

- i. Depreciation on all assets is provided under straight line method at the rates and in the manner prescribed under Part-C of Schedule II of the Companies Act, 2013 (the "Act").
- ii. Depreciation on additions to assets or sale or disposal of assets is calculated on a pro-rata basis from / to the date of addition / deduction.
- iii. Cost of leasehold land is amortised over the residual period of the lease on straight line basis.

f. Impairment of non-financial assets - property, plant and equipment and intangible assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

g. Financial Assets:

i. Financial Assets

A. Initial recognition and measurement

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

B. Subsequent measurement

a) Financial assets carried at amortised cost (AC)

A financial asset is measured at AC if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

There is no significant impact on valuation of Financial Assets, having contractual inflow, at fair value through comprehensive income and hence such difference on valuation is not booked.

Notes on Financial Statements for the Year Ended 31st March, 2023.

- c) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

- C. Other Equity Investments

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

- D. Impairment of financial assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables the Company follows 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

The Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

- ii. Financial Liabilities

- A. Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

There is no significant impact on valuation of Financial Liabilities at fair value through comprehensive income and hence no profit or loss on such valuation is booked.

- B. Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

There is no significant impact on valuation of Financial Liabilities at fair value through comprehensive income and hence such difference on valuation is not booked.

- iii. Membership shares of a Co-operative Housing Society related to office premise are included under Non - Current Investments.

- iv. Profit / Loss on sale of Current / Non – Current Investments is computed on FIFO basis.

- h. Policy For Revenue Recognition:

- i. Revenue / Income and Cost / Expenditure are generally accounted on accrual basis as they are earned / incurred, except those with significant uncertainties.
- ii. Amounts recovered towards demurrage and delivery charges are accounted at the time when they are ultimately realised. Freight includes recoverable on undelivered consignments as certified by the management and recoveries for other allied services on a consistent basis.
- iii. Income on account of Co-Loading and Cargo division is recognized on booking of courier & cargo load.

Notes on Financial Statements for the Year Ended 31st March, 2023.

- iv. Cargo Freight charges has been accounted on gross basis and commission received if any, against the same has been accounted as revenue from operation under the head commission including Franchisee/Business Associates.
- v. Dividend income from investment is recognised as and when received.
- vi. Other incomes are accounted for on accrual basis except when the recovery is uncertain, it is accounted for on receipt basis.
- vii. Administrative and other expenses are stated net of recoveries wherever applicable.
- i. Employee Benefits:
 - i. Short Term Employee Benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.
 - ii. Post-Employment Benefits
 - A. Defined Contribution Plans

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions to a separate entity. The Company makes specified monthly contributions towards Provident and Pension Fund. The Company's contribution is recognised as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.
 - B. Defined Benefit Plans

The Company pays gratuity to the employees whoever has completed five years of service with the Company at the time of resignation/superannuation. The gratuity is paid @15 days basic salary for every completed year of service as per the Payment of Gratuity Act, 1972.

Company's liability towards gratuity is determined by valuation carried out by the 'Life Insurance Corporation of India' as at each balance sheet date and is fully provided for in the Statement of Profit and Loss on the basis of aforesaid valuation. The valuation method used for measuring the liability is the Projected Unit Credit Method.

The liability for compensated absences is determined by valuation carried out by the 'Life Insurance Corporation of India' as at each balance sheet date and provided for in the Statement of Profit and Loss as incurred in the year in which services are rendered by employees. The valuation method used for measuring the liability is the Projected Unit Credit Method.

The gains and losses are recognized immediately in the Statement of Other Comprehensive Income.
- j. Foreign Currency Transactions:

Transactions in foreign currencies if any, are recorded at the exchange rate prevailing on the date of the transaction. Monetary items denominated in foreign currencies are restated at the exchange rate prevailing on the balance sheet date. Exchange differences arising on settlement of the transaction and on account of restatement of monetary items are dealt with in the Statement of Profit and Loss.
- k. Recoverability of Trade Receivable:

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment. Such provisions are made by providing for Contingencies Reserves and adjusted against such reserves on eventuality of such bad debts.
- l. Taxes on Income:

Tax expense for the period comprises current and deferred tax. The tax currently payable is based on taxable profit for the period. Taxable profit differs from net profit as reported in the statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Notes on Financial Statements for the Year Ended 31st March, 2023.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the standalone financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognised as deferred tax assets in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

m. Indirect Tax Input Credit:

Indirect Tax Input Credit is accounted for in the books in the period in which the underlying service is received and when there is no uncertainty in availing /utilizing the credits. When input is not available for set-off against liabilities, the same is expensed out.

n. Contingency Reserve:

A contingency reserve is retained earnings that have been set aside to guard against possible future losses. A contingency reserve is needed in situations where a business occasionally suffers significant losses, and needs reserves to offset those losses.

o. Provision and Contingencies:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A Contingent Liability is disclosed when the Company has possible or present obligation where it is not certain that an outflow of resources will be required to settle it.

Claims in respect of which the Company is of the opinion that they are frivolous or is legally advised that they are unsustainable in law are not considered as Contingent Liability as the possibility of an outflow of resources embodying economic benefits is remote. Contingent Assets are neither recognized nor disclosed in the standalone financial statements.
