Chairman's Letter - FY 2021

Dear Shareholders,

Another unusual year, after anticipating that the last one would be the most challenging, awaits us this year. 2021 will see COVID-19 rearrange our travel, our supply chains, our ability to predict much in advance. However, there is undeniable benefit from the worldwide rollout of vaccines, and this is already evident. We are coming to grips with how to manage our lives and manage our businesses with more agility and creativity. The worst is not behind us, but there are certainly better times to come. I am cautiously optimistic and have reason to be so.

The financial year 2021 was meant to be the year of consolidation. It was the year where we would see the convergence of all systems, processes, and programs to leverage the strengths of the 'new' Birlasoft. It was a year of going out, all guns blazing, and realizing the bold goals we had set for ourselves! However, this insidious little virus had other plans. In the blink of an eye, everything had changed. The world had become an unsafe place. Streets that used to be bustling with traffic were deserted. Economic activity came to a standstill, people stopped buying, planes stopped flying, and our world became confined to the four walls of our homes. Against this backdrop, let us pause for a minute and take stock of where we are: FY 20-21 has been an exceptional year for Birlasoft, despite the odds. The Company reported revenues of ₹ 35,557 Million, a growth of 8% YoY. The profitability stood at ₹ 3,208 Million and witnessed a jump of 43% on a yearly basis. We signed record deals amounting to US\$ 888 Million while keeping our overall attrition low and maintaining strong cash flow through the year. Customer sentiment stayed consistently strong, as evident in our NPS scores and our share price at a record high, a testimony to our investor sentiment.

The journey hasn't been an easy one. We had to question and unlearn all that we knew and quickly pivot to the new reality. "Virtuality" became the new "Reality", and we embraced it. We found new ways to work with our teams, different means of engaging with our customers and servicing them, newer ways to deliver on our commitments – all this while staying true to our fundamentals and ensuring that our employees stay safe. We were one of the first organisations to move to a complete work from home model. We also introduced a multitude of benefits, ranging from a COVID Helpdesk to enhance health cover, procuring oxygen concentrators for our employees, enhanced reimbursement for vaccination and hospitalisation, promoted emotional wellbeing, and grief counselling programs through the Employee Reach Out program. And much more.

Simultaneously, we continued to strengthen our foundations in terms of leadership hiring, accelerating cross-selling, increasing annuity revenue share, investing in key talent, forging strategic alliances with the key software OEM's. With our 'Digital-is-Everywhere' and Cloud-First approaches, we are determined to weave industry-led solutions to help our customers unshackle themselves and accelerate their business transformation journeys.

As part of the CK Birla group, social responsibility is in our DNA, and we continue to do our bit for society and for the communities we serve. At the peak of the pandemic, our team of volunteers collaborated with NGOs to provide food and hygiene kits to daily wagers and unprivileged families in the Delhi NCR region. We were one of the first companies to contribute to the PM CARES Fund. Our flagship initiative Shodhan, in the area of crop residue management and zero stubble burning, was awarded the Social and Business Enterprises Responsible Awards (SABERA) 2020.

The last year has been a difficult one on multiple levels, but the indomitable spirit of our teams, a deeply committed leadership, and a set of supportive customers made it a landmark year for Birlasoft. I thank each one of you for your contribution and courage, your faith, and your persistence, and I hope that you and your families continue to do well and stay safe.

I also continue to stay optimistic, and I hope you do too!

Chief Executive Officer & Managing Director's Letter - FY 2021

Dear Fellow Shareholders,

Financial Year 2020-21 was a year that presented a crisis at an unprecedented scale, with the pandemic having a considerable impact on human lives and the world economy. Birlasoft responded swiftly to this situation and took several effective countermeasures to ensure the safety of our employees and facilitate smooth operations for our valued customers. I am extremely proud of our employees, who have shown tremendous resilience and commitment in serving our customers in times of strife.

In the first year of our merger, we were focused on streamlining the integration between the two companies and laying a solid foundation for future growth. With COVID-19 impacting our second year of operations, combined with a sizeable ERP-centric business mix, it was an even bigger challenge to navigate through. However, we sharpened our focus on strengthening the key fundamentals to transformation and converted the crisis into an opportunity.

During these times of heightened uncertainties, travel restrictions, and work-from-home conditions, there was a steep drop in net new sales as witnessed across the IT industry. We reinforced our efforts on cross-selling to our key customers with whom we have had lasting relationships based on trust and confidence in our capabilities. In addition, we consolidated our positioning by making structural changes in the organizational fabric and business strategy, thus preparing the course for accelerated growth. Over these two years since the merger, we have steadily built a reputation of being a formidable player in the market, with our strong Enterprise Solutions and Digital capabilities. As a testimony to our growing brand, we have received several accolades, right from being recognized as India's Most Admired & Valuable Power Brand Company 2020, to winning the Aegis Graham Bell Award (AGBA) for our intelliOpen™ solution, Manufacturing Leadership Partner Award, SABERA 2020 Award for our community-benefiting Initiative - Project Shodhan, to being featured in the Global ISG Index™, across categories for four times.

We have gained momentum and have delivered an encouraging performance this year, despite the pandemic. As per our commitment made last year, we have put in unstinted efforts to ensure we fulfill our top priorities and move forward in alignment with our long-term goals to become a billion-dollar organization. Some of the notable highlights are listed below:

Operational rigor: Several key parameters have helped us reach our initially set target of 15% EBITDA during the year. The employee cost came down from 60.7% in FY 2020 to 59.5% in the financial year 2021, a drop of about 1.2% YOY. This was possible due to our efforts to broaden the pyramid as we continued to add freshers and strengthen our learning and development. Our utilization rate reached an all-time high of 85.6%, and the attrition rate at an all-time low of 10.9% during the year. The improvement in these parameters has been possible due to our continued focus on our optimization initiatives, despite headwinds due to the pandemic situation.

Improve annuity revenue through cross-selling: The COVID environment acted as a catalyst for us in our transformation journey, and we were able to improve our annuity business up from ~60% in FY 2020 to ~70% at the end of this fiscal. Our ability and desire to drive the conversation with our top customers proactively has

helped both from an annuity and a cross-selling basis. Additionally, we worked on pruning our tail accounts, which were non-strategic for us, which saw the active customer count coming down to 291 as of March 31, 2021 versus 378 at the beginning of the year.

Our top customers' growth rate also reflects the strategy of focus on our key customers; the top-5, top-10, and top-20 customers grew 21.2%, 19.8%, and 19.3%, respectively, during the year while the growth from outside top-20 customers declined on a year-on-year basis. Almost 97% of the total deal wins in FY 2021 came from our existing customers, thus validating the power of the cross-selling strategy that we believe will hold us in good stead.

Robust balance sheet: The health of the balance sheet continues to improve. The Days Sales Outstanding (DSO) was at 72-days last year and improved significantly by 16 days to 56-days as of March 31, 2021 - which is the lowest to date and probably best-in-class. Our cash and cash equivalents, as of March 31, 2021 stood at ₹ 1,119 Crores (US\$ 153.1 M) and have gone up by ₹ 453 Crores (\$64.7 M) during the year. The company is debt-free. The Return on Capital Employed (ROCE) ratio stood at 19% in FY 2021 versus 14.9% in FY 2020.

Growth levers: We have sharpened our business capabilities by defining and building a micro-vertical strategy that will empower us to grow at a faster pace than the rest of our main verticals. Investments have been made in the right talent and partnerships to build our horizontal levers such as cloud migration, IoT and industry 4.0 adoption, data and analytics, blockchain. These crucial investments will also drive our company's prospects and position it to grow and prosper.

Last-mile of integration: With the completion of the integration of our IT processes and migrating to best-in-class software, we have laid a robust foundation for a path that leads to enterprise-wide agility.

Strengthen ISV, OEM channels: Birlasoft enjoys strong partnerships with SAP, Oracle, Salesforce.com, ServiceNow, Microsoft, Amazon, etc. With our recent collaboration with Microsoft, Birlasoft has strategically positioned itself to support its enterprise clients with their cloud transformation needs, right from infrastructure to business applications. As a result, we have been able to close multiple transformative deals covering cloud migration, application modernization, workplace digitalization, among others. We are also in talks with other major platform players such as Amazon Web Services (AWS), Google for similar partnerships to provide our customers with the best-fit solution.

Securing our own employees' well-being, health, and safety is of topmost concern while we steer the company through this extraordinary crisis. Watching events unfold throughout the year, we are keenly focused on what we, as a company, can do to serve our customers. The global pandemic has accelerated the focus on digital across most industries, and with our enterprise digital capabilities, we are all set to play an integral role in helping our customers survive and thrive.

Platform-based digital initiatives, cloud adoption, and aggressive automation will be our key growth levers.

Our priorities moving forward are as follows:

- Our growing relationships and partnerships with platform providers are helping us structure transformational, multi-services, and long-term deals. In addition, we will continue to make strategic investments to develop platforms for core industry processes of our customers where the need for digitalization is much higher and offer them the *servitization* model to enable an outcome-based and faster transformation.
- We will continue to focus on our top accounts through cross-selling and persevere in increasing our annuity business. By leveraging outcome-based deal construct and building capabilities across verticals, we aim to build and grow a healthy pipeline.
- Focusing on micro verticals will be a critical area of growth for us. This will entail investments in building significant domain and technology capabilities to be positioned as a dominant player in these specific segments.
- Operational rigor will always be a business imperative, and we will strive to keep improving the metrics as on all parameters.

As challenging as the past year has been, it has also demonstrated our ability to innovate and execute under the most trying circumstances and inspire us to achieve more. While new challenges may lie ahead, I thank our 11,000+ employees who have continued to shine during these challenging times with their dedication and professional excellence. I am grateful for our clients' trust and confidence in our abilities, and last but not least, I would like to express gratitude to you, our shareholders, for the faith that you have placed in us. With all your support, I am optimistic about our growth journey and look forward to another successful year!

Our People are Our Assets

The Birlasoft Cultural DNA is anchored around our core values, "**Engaged, Dependable, Challenger**". Our people programs and management practices work tirelessly to reinforce these core tenets of our employee engagement paradigm. The past year was tough, with the organization's cultural fabric being severely tested by remote working, one among the several challenges that came the organization's way on account of the pandemic. However, our employees rallied around the purpose of ensuring customer success, and collectively we built a resilient organization that was able to rise above the challenges. There was a lot of emphasis on ensuring that we did not let our remote working models impact engagement and employee well-being, both physical and emotional.

In spite of our working models virtually taking a new shape, our commitment to contributing to society, and to creating sustainable development remained steadfast through our community initiatives. We continued to engage on some of our flagship programs, and also ensured that we were able to contribute to the PM CARES Fund to assist in the nation's early response to the pandemic.

Stubble burning has been a common phenomenon in the northern states of Punjab and Haryana, which has an extremely adverse impact on the environment and people's health. Over the last 4 years, Birlasoft has partnered with Confederation of Indian Industry (CII) to initiate a community program called **Shodhan**. Under the program, we have been able to bring about a transformation in close to 74 villages, impacting almost 55,000 acres of farmland. Last year alone, the program could save close to 2.6 billion liters of water and avoided the direct global warming impact of close to 25 kilotons of CO₂ emissions. For these levels of significant impact, the initiative was recognized by SABERA for the third consecutive year.

Our flagship programs focusing on **Women and Child Development** continued to create the last mile impact. Through our program implementation partners, we were able to provide 3,300 people vocational and non-vocational training. Close to 50% of women who benefitted from the programs found employment in the formal sector, while several others have been able to progress on their skilling journey.

Last year saw us, additionally venture into the **Virtual Volunteering** world where a significant number of our employees overcame the limitations of lockdowns, remote working, etc., and were able to contribute to creating e-learning and education content, thereby creating a last-mile impact that benefitting almost 500 people.

Company Overview

Birlasoft has unique, industry-leading capabilities from the Enterprise Product and Cloud companies such as SAP, Oracle, JD Edwards, Microsoft, Amazon Web Services (AWS), Google, Salesforce.com, Service Now, etc. The company has strategic-level partnerships with SAP, Oracle and with Salesforce, a position unmatched by any other similar-sized company. Birlasoft also possesses significant 'digital' capabilities in analytics, Robotic Process Automation (RPA), digital portals, user experience, and digital advisory services. A large set of solutions and services demonstrates its capabilities and presence in application development, support and maintenance for next-generation services in the digital world.

Industry Structure and Developments

COVID-19 – A crisis like no other. The world woke up to a perilous reality on March 11, 2020, when the World Health Organization (WHO) declared the SARS Novel Coronavirus (COVID-19) a pandemic. Originating from Wuhan, China, cases rapidly spread to Japan, South Korea, Europe, and the United States as it reached global proportions, indicating that the world was staring at an unprecedented crisis in its lifetime, if not in human history.

The pandemic would see, for the first time since the Great Depression of 1929, the advanced economies, emerging markets and the developing economies in recession. And more recently, it is the first time since the Global Financial Crisis of 2008, that the world economy is seeing a decline. According to International Monetary Fund's (IMF) January 2021 outlook, the global growth contraction for calendar year (CY) 2020 is estimated at -3.5%, with the advanced economies expected to decline by 4.9%.

The US is expected to decline by 3.4%, Euro Area by 7.2%, the UK by 10%, Japan by 5.1%, Canada by 5.5%, and other developed economies by 2.2%. Emerging and developing economies are expected to degrow by 2.4%, with India expected to decline by 8%. The only major economy expected to grow by 2.3% is China.

With almost all major countries announcing lockdowns and shutting activities for months, more than two-thirds of governments worldwide scaled up their financial support since April 2020 to mitigate the economic fallout from the pandemic. According to the IMF, the measures helped save lives, protect livelihoods, and preserve employment and business relations. Fiscal measures announced are estimated at US\$ 11 trillion globally. One-half of these measures (US\$ 5.4 trillion) are additional spending and foregone revenue, directly affecting government budgets. The remaining half (US\$ 5.4 trillion) is liquidity support, such as loans, equity injections, and guarantees, including through state-owned banks and enterprises intended to help maintain cashflows and limit bankruptcies. However, this could add to government debt and deficits down the road if these public interventions incur losses.

Although recent vaccine approvals and vaccination drives have raised hopes of a turnaround in the pandemic, renewed waves and new variants of the virus pose challenges to the outlook.

Gartner Inc., the world's leading research and advisory company, in its May 2020 release, had projected worldwide IT spending to total US\$ 3.4 trillion in 2020, a decline of 8% from 2019 on account of the coronavirus pandemic. However, various measures and concerted efforts by the governments, regulators, healthcare companies, and global corporations saw a lower decline of 2.2% in 2020 against the expected decline of 7.7% earlier during the year.

India's premier information sector body, 'The National Association of Software & Services Companies' (NASSCOM), expects India's information technology and back-office sector to grow by 2.3% in Financial Year (FY) 2021 to US\$ 194 Bn versus US\$ 190 Bn in FY 2020 despite the COVID-19 pandemic. NASSCOM expects exports to touch US\$ 150 Bn for FY 2021 versus US\$ 147 Bn in FY 2020. Despite the downturn due to COVID-19, the Indian tech industry continues to be a net hirer with a significant focus on digital upskilling. The industry is expected to add over 138,000 net new hires in FY 2021, taking the total employee base to 4.47 million. The digital talent pool is expected to cross 1.17 million, growing at 32% over the past year. Enterprises are re-balancing their technology spends to prioritize digitalization. The industry saw an overall shift of 10% in outcome-based pricing; offshore witnessed more than 4% shift over 2020, and attrition rate dropped significantly in FY 2021.

The industry witnessed 146 mergers and expansion deals in 2020, 90% of which were digital-focused. Companies saw a significant rise of 80% YoY in cloud adoption during H1 of FY 2021. Further, continental Europe and APAC emerged amongst the strongest growth geographies in FY 2021. BFSI and healthcare were key growth verticals during the year for the sector.

The IT sector continues to show resilience despite the Coronavirus onslaught. Since April 2020, most IT professionals in the sector (India-based and overseas) have been Working From Home (WFH), with no compromise on security and maintaining all key performance parameters. As India stands at the cusp of a reimagined tech age, 2021 will redefine the industry narrative for the future.

Despite headwinds in 2020, Indian tech contributed ~8% relative share to the national GDP, with ~52% relative share in services exports, and ~50% share in total FDI.

The Year Gone By

The Financial Year 2020-21 will be remembered as a watershed year for many companies across the globe due to the COVID-19 crisis. While Birlasoft faced merger- and integration-related challenges in its first year in the new avatar, the second year was impacted by COVID-19, and with significant ERP-centric business, it was a double whammy. However, the company kept its focus on its transformation and converted the crisis into an opportunity. Focusing on cross-selling to its key customers, given little or no scope for new customers in a travel-restricted and a WFH year for most IT services companies. The company not only successfully merged and integrated in a short span of time but has also continued its structural change in its organizational fabric and business to achieve a turnaround, which will help it to accelerate going ahead. With strong enterprise solutions capabilities coupled with digital capabilities, it is a formidable competitor in the market.

The company reported a revenue of ₹ 35,557 M (US\$ 479.6 M) and grew 8.0% YoY (3.4% in US\$) despite many challenges in a COVID-19 impacted year. The EBITDA stood at ₹ 5,292 M (US\$ 71.5 M), a growth of 35% YoY (29.4% in \$ terms). The EBITDA margins improved significantly from 11.9% in FY 2020 to 14.9% in FY 2021, an improvement of 300 BPS. The PAT stood at ₹ 3,208 M (US\$ 43.4 M), an increase of 43% (37.1% in US\$ terms).

A major achievement this year and one that will seem paradoxical is the quantum of TCV deal wins. Deal wins amounted to US\$ 888 M during the year, with ~50% coming from new business and 50% from renewals. Almost 97% of the total deal wins in FY 2021 came from our existing customers, which reflects the strong cross-sell which the company has been focused on since the merger.

Birlasoft is distinctively positioned for opportunities in the enterprise digital space, leveraging platform-based solutions. FY 2020 was about stabilizing the integration of two companies across processes, people, and systems, strengthening the capabilities and acquiring talent in senior leadership roles across the delivery and sales, and optimizing certain non-strategic businesses and tail accounts. The current financial year (FY 2021) is about mining, cross-selling, and providing a thrust to the annuity revenues.

In August 2020, the company announced a Global Strategic Cloud Alliance with Microsoft to help its clients accelerate their digital journey. With this collaboration, Birlasoft has strategically positioned itself to support its enterprise clients with their cloud transformation needs, from infrastructure to business applications. Birlasoft has planned to scale its current Microsoft channel business to US\$ 100 M. Building on the current collaboration, Birlasoft will focus on delivering end-to-end services on Microsoft Azure, Microsoft 365, and Microsoft Dynamics 365, to its clients. Together with Microsoft, Birlasoft will create innovative industry solutions and enable customers in focus industries to adopt Microsoft cloud technologies and services. The company is also in talks with other major platform players such as Amazon Web Services (AWS) and Google for similar partnerships. The company already has SAP as its partner and works closely with major platform players such as Oracle, Service Now, Salesforce.com, etc.

Some of the other notable highlights during the year are as under:

- The company closed its last leg of integration by integrating its Information Technology and moving to best-in-class software and systems. To state an example, the financial accounting system moved to S4 Hana, CRM moved to MS Dynamics, etc.
- Annuity business went up significantly from ~60% in Q4 FY 20 to 70% in Q4 of FY 21
- Days Sales Outstanding (DSO) was at its lowest - 56 days, an improvement of 16 days YoY.
- The company's cash balance crossed ₹ 10,000 M and stood at ₹ 11,189 M as of March 31, 2021

- Birlasoft bagged its highest TCV deal wins during FY 21, amounting to US\$ 888 M, up by 32.7% on a YoY basis.
- Company's utilization improved from 80.9% in Q4 FY 2020 to 82.8% in Q4 FY 2021.

Business Outlook

Although global economic output is recovering from the collapse triggered by COVID-19, it is expected to remain below pre-pandemic levels for the foreseeable future. The pandemic has exacerbated the risks associated with a decade-long wave of global debt accumulation. As per the IMF, amid exceptional uncertainty, the global economy is projected to grow 5.5% in 2021 and 4.2% in 2022. The strength of the recovery is projected to vary significantly across countries, depending on access to medical interventions, effectiveness of policy support, exposure to cross-country spillovers, and structural characteristics entering the crisis. The US is expected to lead the developed economies with an estimated growth of 4.3% and a 5.1% growth in 2021. Euro area is expected to grow at 4.3%, and UK is expected to grow at 4.5%. The emerging and developing countries are expected to grow by 6.3% in 2021.

With the pandemic leaving no corner of the world untouched, the pace of economic recovery will depend on the vaccination campaigns which have accelerated globally since the start of 2021. While the second wave of the pandemic erupted in early 2021, the availability of vaccine remains a ray of hope for humanity. The emergence of multiple mutations and variants of the COVID-19 virus will remain an evolving threat to the efficacy of vaccination programs.

As far as IT spends were concerned, in 2020 the coronavirus pandemic required CIOs to prioritize spending on technology and services that were deemed 'mission-critical' over initiatives aimed at growth or transformation. Further, working remotely helped sub-segments such as public cloud services (which fall into multiple categories) and was a bright spot in 2020, growing 19% YoY.

However, as vaccination-led normalization and recovery materializes, the focus is shifting back to growth and transformation in CY 2021. In 2021, the initial drive has been led by pent-up demand where projects either had been put on hold or canceled due to uncertainty. As organizations address the digital landscape, consumption models for IT services and the move to cloud, there will be significant opportunities for IT service providers. Also, in today's world, IT no longer just supports corporate operations as it traditionally has been in the past but is partnering in delivering business value. Investing in digital continues to rise as an imperative for the industry, with organizations building their capabilities and aligning business models to digital practices.

Gartner Inc, in its April 2021 worldwide IT spending forecast, has projected an 8.4% growth in IT spend at US\$ 4.1 trillion. IT services spend is expected to grow 9% in 2021 at US\$ 1.1 trillion, and enterprise software spends are expected to grow at 10.8% at US\$ 517 Bn. It expects the source of funds for new digital business initiatives to come from business departments outside IT and charged as a cost of revenue or cost of goods sold (COGS). From an industry perspective, Gartner expects BFSI spending to closely resemble pre-pandemic levels as early as 2021, while retail and transportation will not see the same recovery until closer to 2023.

While NASSCOM stopped providing guidance a few years ago, it expects technology to drive front-end operations and customer experience. As per NASSCOM's CEO survey, 97% of CEOs anticipate significantly better global economic growth in 2021 as compared to 2020. In terms of hiring, 95% of CEOs expect 2021 hiring to be more than what they hired in 2020. Further, 67% of CEOs expect the Indian technology industry to grow significantly higher than in 2020. In the new normal, NASSCOM's discussions with the CEOs suggest that the industry is warming up to a blended work model. 70% of the survey respondents expect to have higher prevalence of remote

work along with a boost in gig workforce in 2021. Analysts expect the IT sector to clock double-digit growth in FY22.

NASSCOM believes that the industry will look towards leaner structures with more flexibility and faster adoption of cloud-based products and services in 2021. 60% of the industry CEOs expect larger digitalization deals in 2021, with investments likely to recover in core sectors including BFSI, Retail, and Manufacturing. With hyper-digitalization and technology adoption accelerating across sectors, CY 2021 will put the spotlight on the emergence of growth verticals such as healthcare, pharma, medical devices, software and internet, and consumer electronics.

Business Strategy

The company has been able to navigate through the pandemic year successfully. However, it needs to be agile, nimble, and a true challenger in the marketplace, creating newer offerings, newer talent models, and aligning go-to-market strategies to customer preferences. The company has changed its organizational structure, which reflects its alignment to the markets it serves. The current global situation requires organizations to enhance agility and resilience, ensure business continuity, deliver desired customer experiences, and accomplish their business goals. The speed of digitalization will be a primary imperative. Birlasoft has been working with its customers across industry segments, supporting them in their digital transformation journeys. Birlasoft helps customers in manufacturing to accelerate their Industry 4.0 adoption; in BFSI to leverage open APIs and automate both front-office and back-office transformation; in the energy and utilities sector to enhance field collaboration and real-time service excellence, optimize operations and improve asset performance; and in life sciences vertical to innovate faster, provide rich insights to achieve commercial excellence, and automate drug discovery and pharmacovigilance processes. The Strategic Cloud Alliance with Microsoft will further strengthen Birlasoft's digital offerings and will allow them to complement Birlasoft's industry expertise with the power of Microsoft cloud, to accelerate its clients' digital transformation journey.

Birlasoft will empower its customers to harness the full power of digital by combining enterprise applications with the most modern platforms, software, and digitalization processes. Alliances with key platform players and OEMs such as Microsoft, Google, AWS, ServiceNow, SAP, Oracle, etc., will help provide its customers with a broader range of solutions, delivered at a continually faster pace to accelerate the execution of their digital transformation strategies. Customers in their cloud journey will find Birlasoft's Global Strategic Cloud Alliance with OEMs to be of great value in accelerating their plans for cloud adoption and implementation.

The pandemic has changed the way organizations consume and procure IT services. This change has been led by both digital services and the move to cloud. Birlasoft has partnered closely with enterprises to provide flexibility and agility to work with their agendas, both from the operational and capital expenditure perspectives, to meet business demands.

Birlasoft is also focused on sharpening its capabilities and value proposition by structuring micro-verticals based on market presence and thus enhancing its ability to lead the segment with differentiated offerings.

Birlasoft, in its first annual report after the merger, had positioned itself like a knight on a chessboard, which may not be the fastest or the most powerful piece in the game of chess; however, it is uniquely poised and capable of making a surprise move that can tip the game in one's favor. Birlasoft may not be the biggest player in the market, nor have the largest scale, but wants to be a game-changer by bringing something unique to its customers.

Risk and Opportunities

Risks

Birlasoft has a structured and consistent approach to identifying risks and creating mitigation plans as part of its Governance, Risks, and Compliance (GRC) practices.

Opportunities

It has become clear that technology is the catalyst for a company's leadership position in the markets it operates in. The recent rapid digital acceleration and cloud enablement has placed technology as the cornerstone of global leadership.

Despite the challenges of 2020, significantly greater opportunities exist in 2021 to transform and modernize business operations and models from the ground up, enabling the organization to respond to future disruptions quickly and strategically. Indian IT companies, big and small, embraced WFH; almost 98 percent of the IT workforce was working from home at the peak of the lockdown in India. Customers appreciated the resilience of the Indian IT industry, and IT companies continue to be agile and hungry for business. Industry experts believe that the pandemic has given digital transformation an impetus that would have taken many years to achieve. IT companies are now making a bigger push for their digital offerings as technology gets ingrained across sales, customer service, and operations. India has become the digital capabilities hub of the world, with around 75% of global digital talent present in the country.

As per International Data Corporation (IDC), global corporations which can rapidly adapt and respond to unplanned/unforeseen business disruptions will be clear winners in an increasingly digitalized economy. A large percentage of future enterprises' revenue would depend upon the responsiveness, scalability, and resiliency of their infrastructure, applications, and data resources. As a result, the global economy remains on course to its 'digital destiny,' as most products and services will be based on a digital delivery model or require digital augmentation to remain competitive. The majority, 65% of the global GDP, will be digitalized by 2022, driving US\$ 6.8 trillion of IT spending from 2020 to 2023.

In its top IT predictions, IDC expects that by the end of 2021, 80% of enterprises will put a mechanism in place to shift to cloud-centric infrastructure and applications two times faster than before the pandemic. Further, it believes that an emerging cloud ecosystem for extending resource control and real-time analytics will be the underlying platform for all IT and business automation initiatives anywhere and everywhere.

Many changes will be accelerated due to COVID-19; Gartner CIO's survey says that demand for new digital products and services which increased in 2020, will further rise in 2021. Companies are keen to leverage technology to support enterprises in achieving their business goals. Digital workplace technologies to support work from home come on top, followed closely by artificial intelligence/machine learning (AI/ML), RPA, distributed cloud, and multi-experience platforms. These emerging technologies automate processes and decisions, enabling an accelerated pace towards scalable digital solutions. Enterprises can tailor each layer of their technology architecture but building and wielding the most competitive stack means thinking differently. Business and technology strategies must become indistinguishable. Whoever gains the upper edge on technology stands to emerge as the number one.

Financial Performance

The Company's financial highlights, FY 2020-21

Analysis of the Consolidated Profit and Loss Statement

- Revenues: Revenues from operations reported a growth of 8% from ₹ 32,910 M in FY 2019-20 to ₹ 35,557 M in FY 2020-21. Other income of the company reported a decline of 55.8% from ₹ 430 M in FY 20 to ₹ 190 M in FY 2021. Other income accounted for only 0.5% of the company's revenues, reflecting its dependence on its core business operations. The decline in other income YoY was due to forex loss on forwarding contracts and mark-to-market adjustment of foreign currency assets in FY 2021, as compared to FY 2020.
- Expenses: Total expenses of the company increased by 4.4% from ₹ 28,990 M in FY 2019-20 to ₹ 30,265 M. Employee expenses accounted for a 59.5% share of the company's revenues, marginally lower than 60.7% last year. Employee expenses increased by 5.9% from ₹ 19,975 M in FY 2019-20 to ₹ 21,158 M in FY 2020-21 primarily owing to the annual remuneration revision effective January 2021. Other expenses, accounting for a 25.6% share of the company's revenues, showed an increase of 1% from ₹ 9,015 M in FY 2019-20 to ₹ 9,107 M in FY 2020-21.

→ Tax Expense for FY 2020-21 was at ₹ 1,340 M compared to ₹ 1,119 M in FY 2019-20. The Government of India, on September 20, 2019, vide the Taxation Laws (Amendment) Act 2019, inserted a new section 115BAA ('new tax regime') in the Income Tax Act, 1961, which provided an option to a domestic company to pay income taxes at reduced tax rate (25.17%, inclusive of surcharge and cess) as per the provisions/ conditions defined in the said section. In the quarter ended December 31, 2020, the company assessed the underlying assumptions based on the current business scenario and decided to opt for the new tax regime effective from FY 2020-21.

Analysis of the Balance Sheet

Sources of Funds

- The company's balance sheet size increased by 11.4% from ₹ 26,873 M as on March 31, 2020, to ₹ 29,944 M as on March 31, 2021, owing to better profitability as compared with FY 2019-20.
- The company's net worth increased by 15.2% from ₹ 18,924 M as on March 31, 2020, to ₹ 21,799 M as on March 31, 2021, owing to increase in the reserves. The company's equity share capital comprising 277.3 M equity shares of ₹ 2 each, increased from ₹ 553 M in FY 2019-20 to ₹ 555 M in FY 2020-21. The nominal increase is on account of a few employees exercising their employee stock options.
- The company had no borrowings and is debt-free as of March 31, 2021.
- Other current liabilities went up by 55.7% from ₹ 1,190 M in FY 2019-20 to ₹ 1,853 in FY 2020-21 on account of advances from customers and increase in statutory liabilities such as tax deduction at source (TDS), provident fund (PF), payroll taxes, etc.
- Other financial liabilities were marginally up by 8.7% from ₹ 1,932 M in FY 20 to ₹ 2,099 M in FY 21 due to accrued employee costs.

Applications of Funds

- Fixed assets (net, including CWIP) of the company were down by 10.3% from ₹ 1,434 M in FY 2020 to ₹ 1,287 M in FY 2021. With the COVID-19 pandemic prevalent all through the financial year, almost all employees were working from home, which did not necessitate any major facility addition and Capex was nominal during the year.
- There was no impact of goodwill, which went down nominally by 1.4% from ₹ 4,541 M in FY 20 to ₹ 4,476 M in FY 2020 on account of exchange fluctuations.
- Other financial assets went up by 501.7% from ₹ 35 M in FY 2020 to ₹ 209 M in FY 2021. This was primarily on account of an increase in term deposits with a maturity greater than 12 months.

Working Capital Management

- Current investments of the company increased from ₹ 330 M as on March 31, 2020, to ₹ 553 M as on March

31, 2021. Investments were upped in liquid mutual funds during the year.

- Trade receivables went down by 30% from ₹ 7,402 M as on March 31, 2020 to ₹ 5,182 M as on March 31, 2021, as a result of an improvement in the days sales outstanding (DSO) from 72 days as of March 31, 2020 to 56 days as of March 31, 2021.
- Other balances with the banks increased by 219.5% from ₹ 1,805 M as on March 31, 2020, to ₹ 5,769 M as on March 31, 2021, due to an increase in interest yielding bank fixed and corporate deposits.
- Other financial assets increased by 66.4% from ₹ 356 M as of March 31, 2020, to ₹ 592 M as of March 31, 2021, due to an increase in the unrealized mark-to-market (MTM) gains on forex forward contracts.

Internal Control Systems and their Adequacy

Birlasoft has an established framework for internal controls, commensurate with the size and nature of its operations. These have been designed to provide reasonable assurance about recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorized use, executing transactions with proper authorization, and ensuring compliance with corporate policies. Birlasoft uses a state-of-the-art ERP system that connects all parts of the organization, to record data for accounting, consolidation, and management information (MIS) purposes. The company has a well-defined delegation of power with authority limits for approving contracts as well as operating and capital expenditures. The management assessed the effectiveness of the company's internal control over financial reporting.

Birlasoft has appointed Ernst & Young LLP to oversee and carry out an internal audit of its activities. The audit is based on an internal audit plan reviewed each year in consultation with the statutory auditors and approved by the audit committee. The internal audit team periodically conducts audits across the company, including a review of internal controls' operating effectiveness. The company, wherever necessary, engages third-party consultants for specific audits or reviews.

The audited consolidated financial results have been prepared in accordance with the Indian Accounting Standards ("Ind-AS") as specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) Amendment Rules, 2016 and provisions of the Companies Act, 2013. The statutory auditors of the company have audited the consolidated financial results of the company for the quarter and year ended March 31, 2021. An unqualified opinion has been issued by them thereon.

Material developments in human resources, including the number of people employed. The year saw employee care and engagement of a different order, influenced and impacted heavily by COVID-19. The company was one of the first to ensure that it could effectively converge the dual objectives of employee safety and step up to ensure seamless delivery of client deliverables. One of the continuing focus areas for the year was to ensure that we created systems and processes that ensured a transparent and friendly virtual work environment. It was all about hand-holding our managers and the teams through this relatively new phenomenon of virtual teaming and ensuring that we scaled up to make it business as usual.

We believe that a sustainable competitive edge between companies often comes down to its people and processes, and hence we continue to invest in our human capital, as a strategic imperative, across talent acquisition, skill-building, talent management, and career development. Enhancing employee experience has been the fulcrum around which the people dimension of the IT integration has been driven. People are a key resource, and the company continues to build processes that, on the one hand, help employees align their professional and personal goals, and on the other, help the company align people to opportunities.

As part of overall systems integration efforts, we were able to converge our HR systems and have started reimagining the system of engagement to ensure that our employees get a world-class user experience. We implemented MyPal, a unified performance enablement program that sits on top of the philosophy of enabling dialogue between the manager-employee dyads. We also moved our Learning Management System to MyPal, and we take pride in having a unified and holistic talent management system across the organization.

The company is investing in market-leading technologies to ensure that we can architect a totally new way of approaching learning and skilling. We are building a learning marketplace where people can self-assess their skills and capabilities and map them to their current and aspirational roles, thus building learning paths that a self-directed learning curriculum would support.

While we continue to reinvent ourselves with respect to our people programs, we are also investing our efforts in some of our marquee programs, such as:

- **The Thrive Tribe:** A self-help group for women in mid and senior roles, that offers career mentoring programs to our younger women professionals as part of the D&I charter.
- **The Young Guns Program:** Aimed at accelerating the career journey of the younger workforce through an experiential learning journey.
- **Manager Enablement Series:** A program that helps our managers explore the softer aspects of

- people enablement.
- Formal talent reviews for critical leadership roles.
- Rewarding critical achievements and reinforcing desired behaviors through our formal rewards and recognition program.

As of March 31, 2021, Birlasoft had 11,051 employees, showing a net addition of 783 employees over the previous financial year. Women professionals accounted for 22% of the workforce. The company's last twelve-month attrition stood at 11.6% as of March 31, 2021.

Enterprise Risk Management

Preamble

In compliance with regulatory requirements, Birlasoft has implemented a robust Enterprise Risk Management (ERM) process duly benchmarked with industry standards.

Risks are assessed and managed at various levels and at regular intervals with a top-down and bottom-up approach covering the whole enterprise, i.e., business units, geographies, delivery, and enabling functions.

Birlasoft believes in complete transparency with stakeholders, and in line with these high standards of transparency, we are herewith sharing a summary of key risks and their mitigation plans.

Risk Event 1 # Potential impact of COVID-19 on the global economy and organization

Description:

Impact of COVID-19 on the human capital and financial health of the organization due to significant cut on the available budget to meet operational expenses, capital expenditure, and discretionary spends at existing/potential client's level resulting in cancellation of RFPs/deals, asks for discounts, invoice deferrals and cancellation of projects from existing clients. Additionally, possible challenges in ensuring business continuity amid extended lockdowns and restrictions in a smooth supply chain process.

Mitigation Plan:

Birlasoft management has proactively initiated several actions to minimize the financial impact and ensure business continuity amid the various restrictions enforced by governments across various countries we operate in, i.e.

- Defining a comprehensive resilience framework at the organization level to assess internal preparedness to deal with the pandemic
- Providing a comprehensive work-from-home (WFH) solution ensuring security, and meeting agreed contractual service levels and project milestones
- Regular communication with client leadership on the situation's development
- Formation of a management task force to regularly monitor and initiate corrective actions to manage the emerging situation, as required
- Proactive proposals to clients to streamline operational parameters while mitigating service-level risks with a focus on reducing costs tPhased approach for resuming offices to ensure effectiveness and managing any further lockdown after the umption of services
- Continued cost optimization initiatives and reductions in discretionary spends

→ Various initiatives on employee health and safety amid the ongoing situation and after the opening of office facilities

→ Actions to ensure information security while extending the WFH facility to employees

Birlasoft is well poised to take advantage of the opportunity emerging with the emergence of the pandemic and the resulting rapid adoption of digital enablement through transformation, cloud migration, IoT, and mobility trends. Birlasoft has invested in digital labs and Operation Technology (OT) to drive solutions. Additionally, as a good governance measure, Birlasoft management has been providing regular updates to the board on various business decisions, the emerging situation, and its potential impact.

Risk Event 2 # Potential risk of liquidity

Description:

Potential challenge in maintaining cash reserves and desired liquidity for managing various fixed and variable costs (i.e., employee payroll, vendor payments, facility management cost, etc.) during COVID-19 situation, which is expected to get extended for a few quarters after lifting of lockdown restrictions.

Mitigation Plan:

As evident from the company's financial results for the year, Birlasoft has always followed conservative and risk-averse policies and practices with regard to managing its cash and liquidity. Proactive cash flow and risk management practices have ensured that the company always maintained a strong liquidity position, with a focus on ensuring adequate cash balances held in the most optimal forms and geographies, backed by additional cash generation sources, including unutilized credit lines and off-balance sheet funding options. However, considering the looming uncertainty due to the current COVID-19 situation, the company has strategized and initiated various actions with an objective to enhance resilience in terms of working capital management. Actions include a strong focus on collection of its receivables (resulting in a significant improvement in DSO year-on-year), optimizing people and other costs (reflected in a quarter-on-quarter growth in its net EBITDA), deferring discretionary spends and re-structuring its payables to ensure adequate liquidity in the system to meet the company's financial commitments at any point of time.

Risk Event 3 # Concentration of business in specific geography/customer/service line

Description:

The company's strategy is to focus on a select number of industry verticals, geography, customers, and offerings, with a possibility of business being concentrated in a particular area with a consequential volatility.

Mitigation Plan:

The company mitigates this risk by maintaining a balance between various industry verticals, customers, geographies, offerings, and making special efforts to grow its emerging businesses without compromising on focus. The company continues to have well-spread service lines and a healthy mix of revenue generation from its digital service line. Our focus would be to continue investing to increase our revenue in support and maintenance. Partnerships with established ERP product companies have broadened the customer base and offerings, which will assist in new customer acquisitions and expansion of business. We are also a Microsoft strategic cloud alliance partner and AWS advanced tier consulting partner, and these partnerships are further going to help strengthen and expand our business.

Risk Event 4 # Impact on business due to stiff competition in the market

Description:

Given the dynamic nature of the IT services industry in which the company operates, it faces the risk of competitors providing new offerings/new business models, pricing pressure, consolidation of mid-tier IT companies, etc., which pose challenges to growth and margins.

Mitigation Plan:

The company has launched a comprehensive 'Challenger' model to drive the growth of top multi-service accounts with a key focus on client management, monitoring of cross-selling, and business transformation revenues while deepening and expanding the client relationship model. The company is also focused on widening the service technology offerings that complement and align with the business imperatives of the customer, which helps in building annuity revenue and long-term client relationships. Strategic tie-ups are also being continuously evaluated with an objective to manage competition, enhance technological competence, and grow inorganically.

Risk Event 5 # Technological Disruption - Adaptation to new technology offerings

Description:

Rapid transformation in technologies such as robotics, cognitive technologies, machine learning, cloud, digital, etc., has significantly impacted business models. Delay in adaptation to new technology offerings will have an adverse impact on the future growth of the business, cost management, and maintaining healthy growth in revenues.

Mitigation Plan:

The company continues to invest in building functional capabilities (digital, data analytics, etc.) with swiftness and agility. The focus on building functional capabilities in desired verticals and focused industries continues. In addition, the company continues to invest in new technologies relevant to customers to enhance capability and to provide platforms for driving initiatives related to customer retention, mining, and new customer acquisition. Simultaneously, we look out for strategic tie-up/merger opportunities to assist in quick adaptation of emerging technologies and to enhance our footprint in new geographies.

Risk Event 6 # Data privacy risk related to global privacy regulations

Description:

Privacy and protection of personal data is an area of increasing concern globally. Legislations such as GDPR in Europe, CCPA in the US, and PDPB in India have severe consequences for non-compliance or breach. Ensuring data privacy through every stage of the information life cycle (collection, storage, processing, retention, and disposal) has become critical. Any violation, non-compliance, or inadequacy in privacy policies and procedures can result in potential liabilities, penalties, and reputational impact.

Mitigation Plan:

The company has a well-defined and mature privacy framework with coherent policies, procedures for diverse privacy requirements and for ensuring requisite compliance. Established governance mechanism exists to measure the efficacy of the privacy program through regular metrics and monitoring. The company adopts best practices to support and include privacy-by-design concept in its privacy environment. With stringent data security controls, some of the technical and organizational measures are PII Repositories, Privacy Impact Assessment, Incident Management Procedures and Systems, Breach Notification Management, Subject Access Request Management, etc. Additionally, the data privacy controls have been assessed by external experts for compliance in line with the requirements of global privacy regulations. The company is continuously improving the operational culture within the organization to address dynamic privacy risks with emerging technologies. The organization is ISO/IEC 27701:2019 certified across functions and client delivery projects, which exhibit our ongoing commitment to global data protection requirements.

Risk Event 7 # Cybersecurity related risks

Description:

As companies embrace new technologies such as mobile computing, IoT, cloud computing, etc., cyber-security is perceived as an important risk. With the dynamic threat landscape of a highly technical nature, there are possibilities of sophisticated targeted attacks, increasing ransomware threats, malware, data leakage, and other security failures. The current COVID-19 situation has hastened the need for adaptive technologies in cyberspace to enable WFH options. With all this, we can surely expect not just an increase in current threats but also completely new ones.

Mitigation Plan:

The company has a mature information security management system with policies, processes, and controls to minimize cybersecurity risks. The governance and management of security compliance and risk are reviewed periodically; evident in the sustained ISO 27001:2013 certification and external third-party validation of compliance to NIST Cyber Security framework.

While we continue with our intrusion prevention systems, data loss prevention and vulnerability management program through offensive COE, encryption, patch management, etc., newer tools that are aimed at cyber threat protection, such as cloud-native endpoint protection platforms, will be implemented. The SOC, which extends to all our offices globally, continues to track, monitor, and ensure that all the wheels in this cyber framework turn smoothly. A new SIEM tool has been implemented for extensive and expansive coverage of devices in the organization for proactive monitoring. Other cloud-based controls continue to be implemented as the WFH scenario continues.

Risk Event 8 # Resourcing-related risk with reference to employee retention, succession, development, and training

Description:

The nature of the IT services business mandates the company to recruit and retain professionals with requisite skill sets, adequate to meet customer demands and in alignment with the company's long-term business

strategy. Less or under-proficient resources, delay in availability, or/non- availability of the required resources could result in loss of business opportunities or delivery escalations from customers.

Mitigation Plan:

The company has an effective talent acquisition function, which devises strategies to attract qualified and skilled professionals from multiple talent pools and various sources. Talent acquisition team works in close collaboration with business managers to implement a robust selection process that screens and identifies the 'right' skilled resources. Significant investments have been made in this area to leverage technology to enhance the sourcing and selection processes further. Additionally, the company has a focused learning and development strategy which ensures an appropriate training infrastructure and continuous skill enhancement/competency development for all employees. The learning and development team is also geared to take care of any business or project-specific skilling needs. The company maintains a healthy 'bench' to ensure resource availability for new projects. This ensures that the delivery teams have the 'right-skilled' resources to deliver quality services to our customers.

The company places a premium on retaining its talent and has various employee engagement and development programs across levels to help engage and retain its quality workforce. In order to ensure risk mitigation and business continuity, the company spends significant time identifying critical roles and doing succession planning for such roles. This happens through an elaborate talent review process which helps the leadership identify development areas, role enhancement, and succession opportunities for the identified talent.

Risk Event 9 # Change in immigration laws of the geographies in which the company operates

Description:

Changes in the local immigration laws in some of the countries that the company operates in, may adversely impact the mobility of resources, which is critical for the success of its business. These regulatory changes may disrupt the availability of required resources in some geographies/client locations and the organization's ability to cross-deploy and optimally use the resources.

Mitigation Plan:

The company continues to keep a close eye on changes in immigration laws/processes in consultation with its immigration lawyer partner firms. Additionally, to address some of these issues, the company has increased the composition of the local workforce in these markets by focusing on hiring local talent and reducing its dependence on resources on work visas. The company is also engaging with some of its customers to increase off-shoring to facilitate cross-border work teams, thereby optimizing the onsite requirements.

Risk Event 10 # Potential foreign currency risk

Description:

A significant portion of the company's revenues is in foreign currency, while a significant portion of the costs is in the Indian rupee. The company has currency risk as the exchange rates of the foreign currencies fluctuate. The company may avail long-term and short-term loans in foreign currency. The currencies to which the company is majorly exposed to are US Dollar, Euro, and Pound Sterling.

Mitigation Plan:

The company is following a layered hedge policy which protects business earnings in foreign currency from the adverse impact of fluctuations in exchange rates as well as brings more predictability to the P&L. The strategy also aims to minimize hedging cost and optimize benefits from favorable FX rate movements in the market. Between 65% and 70% of the net USD receivables for the next 12 months (current month +11 months) in India are hedged in USD/INR. Also, the company is optimally hedging GBP and EUR receivables.

Business Performance

The year under review was a challenging year given the pandemic and the subsequent lockdowns. The initial focus on IT spend by a majority of the customers was primarily on core business applications while reducing both discretionary and capex spend. Your Company, during these challenging times, partnered closely with customers by demonstrating resilience in the partnership and providing services, based on the demand, as per the market conditions. This flexibility helped the clients and the Company to retain and grow the revenue as customers moved on to accelerating their cloud and digital journey. Your Company has shown steady growth during the year gone by with an increase in revenue, EBITDA and developing a healthy pipeline to set a base for the coming year. Most importantly, your Company has been able to achieve an impressive growth in the annuity business and cross-selling additional services to existing clients. This indicates that the Company's strategy to have simultaneous focus on core enterprise solutions and digital led solutions are paving the way for good results.

The Company is also focused on sharpening the capabilities and value proposition by bringing in a sharper alignment with the sectors by structuring micro-verticals based on

market presence and ability to lead the segment with differentiated offerings.

On a consolidated basis, the revenue from operations for the financial year under review was at ₹ 35,747.01 million as compared against ₹ 33,339.60 million in the previous year, registering a growth of 7.22%. The Earnings before interest, tax, depreciation, and amortization was at ₹ 5,482.14 million versus ₹ 4,349.10 million, a growth of 26.05%. The Net Profit after tax was at ₹ 3,208.31 million versus ₹ 2,243.48 million registering a growth of 43%.

On a standalone basis, the revenue from operations was at ₹ 16,524.81 million. The Earnings before interest, tax, depreciation, and amortization was at ₹ 3,674.05 million and The Net Profit after tax was at ₹ 1,935.59 million.

For more details, please refer to the Management Discussion & Analysis Report.

Dividend

During the year under review, the Board of Directors declared an interim dividend of ₹ 1/- (50%) per equity share of face value of ₹ 2/- each on the paid-up equity share capital of the Company.

Furthermore, your Directors are pleased to recommend final dividend of ₹ 2.50 (125%) per equity share of face value of ₹ 2/- each for the financial year ended March 31, 2021, subject to the approval of members at the ensuing Annual General Meeting of the Company, as against the dividend (interim and final) of ₹ 2/- per equity share paid in the immediately preceding year.

As per the Finance Act 2020, the dividend declared/paid from April 1, 2020 will be taxable in the hands of the members and hence, payment of dividend distribution tax on the final dividend, if approved, will not arise.

The Record Date for the payment of final dividend is Friday, July 16, 2021 for determining the entitlement of the members to the final dividend for the financial year 2020-21.

The Dividend Distribution Policy of the Company is available on web link <https://www.birlasoft.com/company/investors/policies-reports-filings>.

Quality and Information Security

Birlasoft is a CMMI Level 5 Organization for the past several years in a row. We continue to improve our Quality focus through internal initiatives and by getting assessed against international standards. During the current Voice of Customer cycle, our customers appreciated the value delivered by Project teams and rated us at an average of 4.6 on a scale of 1-5, 5 being the highest. This further strengthens our resolve to make societies more productive by helping customers run businesses more efficiently.

In line with our focus to be assessed against international standards, Birlasoft is appraised for CMMI-DEV® (Development) & CMMI-SVC® (Services) V1.3 at Maturity Level 5. This milestone is testimony to our commitment to continuously improve our quality & operational processes, while at the same time, strengthening our delivery capabilities to meet customer expectations. Our Quality Management System is compliant with ISO 9001:2015 and ISO 20000-1:2011 certifications for IT Services and this reflects the Company's belief in delivering the right quality.

Birlasoft continues to maintain a mature Information Security Management System (ISMS) & Privacy Information Management System (PIMS). Policies, Processes and Controls have been defined and implemented to minimize and manage the Cyber Security risks. A robust governance and management of security compliance and risk are ensured by periodic reviews.

Your Company has leveraged leading industry standard controls to secure its IT infrastructure environment. While Birlasoft has been an ISO 27001:2013 Information Security Management System certified company for some time now, an ISO 27701:2019 Privacy Information Management System certification was also achieved in the year under review. The NIST Cyber Security Framework has been leveraged and is validated by third party vendors regularly.

Productivity

Your Company is committed to productivity improvements to create a future abundant with a wealth of knowledge. Multiple initiatives - Knowledge Management, Productivity Forum, UREKA, MyTime and VINCI- enable the Company to harness latent knowledge in the organization and mobilize it.

Productivity Forum, which is a bi-annual affair with events spanning 4 days, was held in August '20 and March '21. It is an eagerly watched event by technical champions who participate in large numbers.

A brand-new knowledge management repository has grown to a level where the Company can showcase efficiencies in the deliverables translating into real value for customers. Re-usability of case-studies as a new key factor will be benefitting the teams within Birlasoft. MyTime is a crowdsourcing platform being utilized by technical enthusiasts to develop re-usable tools that enhance productivity.

Risk Management Policy

The Company has constituted a Risk Management Committee ('RMC') of the Board to review the risk management plan/process of the Company. The Risk Management Committee identifies potential risks, assesses their potential impact and takes timely action to mitigate the same.

The Company has a Risk Management Policy which has been approved by the Board. The Risk Management Policy acts as an overarching statement of intent and establishes the guiding principles by which key risks are managed across the organization. The Board monitors and reviews periodically the implementation of various aspects of the Risk Management Policy through a duly constituted RMC. The RMC assists the Board in its oversight of the Company's management of key risks, including strategic and operational risks, as well as the guidelines, policies and processes for monitoring and mitigating such risks under the aegis of the overall Business Risk Management Framework.

A write-up on Enterprise Risk Management forms part of this Annual Report.

There are no risks identified by the Board which may threaten the existence of the Company.

Internal Control Systems and Adequacy of Internal Financial Controls

The Company has put in place adequate internal financial control procedures commensurate with its size, complexity and nature of business. The Company has identified and documented all key financials controls, which impact the financial statements as part of its Standard Operating Procedures (SOP). The financial controls are tested for operating effectiveness through ongoing monitoring and review process by the management and also independently by the Internal Auditor. Where weaknesses are identified as a result of the reviews, new procedures are put in place to

strengthen controls and these are in turn reviewed at regular intervals. The Internal Auditor of the Company reports functionally to the Audit Committee of Board, which reviews and approves risk based annual internal audit plan. The Audit Committee periodically reviews the performance of internal audit function.

Based on the review, nothing has come to the attention of Directors to indicate that any material breakdown in the function of these controls, procedures or systems occurred during the year under review.

Audit Committee

The Company has a duly constituted Audit Committee in line with the provisions of the Act and the SEBI (LODR) Regulations, 2015. The primary objective of the Committee is to monitor and provide effective supervision of the management's financial reporting process, to ensure accurate and timely disclosures, with the highest level of transparency, integrity and quality of financial reporting. The Committee met four times during the year. Detailed information pertaining to the Audit Committee has been provided in the Corporate Governance Report.

Committee Recommendations

During the year, recommendations of all the Committees were accepted by the Board. The composition of the Committees is mentioned in the Corporate Governance Report, which forms a part of this Annual Report.

SECRETARIAL AUDIT REPORT

for the financial year ended 31 March, 2021

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Birlasoft Limited,
35 & 36, Rajiv Gandhi Infotech Park,
Phase - I, MIDC, Hinjawadi, Pune – 411057.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Birlasoft Limited (hereinafter called “the Company”). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company’s books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31 March, 2021 ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31 March, 2021, according to the provisions of:

- i. The Companies Act, 2013 ('the Act') and the rules made thereunder;
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- iii. The Depositories Act, 1996 and the Regulations and By-laws framed thereunder;

- iv. The Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 **(Not applicable to the Company during the Audit Period)**;
 - f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, regarding the Companies Act and dealing with client;
 - g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 **(Not applicable to the Company during the Audit Period)**; and

h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 **(Not applicable to the Company during the Audit Period)**.

vi. I further report that, having regard to the compliance system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof on test-check basis, the Company has complied with the following laws applicable specifically to the Company:

- The Information Technology Act, 2000.

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards (SS-1 and SS-2) issued by The Institute of Company Secretaries of India; and
- (ii) Listing Agreements entered into by the Company with BSE Limited and the National Stock Exchange of India Limited read with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that:

The board of directors of the Company is duly constituted with proper balance of executive directors,

non-executive directors and independent directors. The changes in the composition of the board of directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were generally sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at board meetings and committee meetings were carried out unanimously as recorded in the minutes of the meetings of the board of directors or committees of the board, as the case may be.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period, in pursuance of the composite scheme of arrangement as sanctioned by the National Company Law Tribunal dated 29 November 2018, the Company has re-classified its promoters which has been duly reported to the stock exchanges as required under Regulation 31A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and will be disclosed in the annual report for the financial year 2020-21.

Assumptions:

The assumptions used in the model are as follows:

- Stock Price: Closing price of the equity shares of the Company on the National Stock Exchange of India Limited on the trading day, prior to the date of grant has been considered.
- Volatility: The expected price volatility is based on the historic volatility, adjusted for any expected changes to future volatility due to publicly available information.
- Risk-free rate of return: The risk-free interest rate being considered for the calculation is the interest rate applicable for a maturity equal to the expected life of the Options based on the zero-coupon yield curve for Government Securities.
- Exercise Price: Exercise Price of each specific grant has been considered.
- Time to Maturity: Time to Maturity/Expected Life of Options/RSUs is the period for which the Company expects the Options/RSUs to be live.
- Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for five financial years preceding the date of the grant.

The Board/Committee may evaluate the Directors on following factors, including:

- a) Attendance at Board meetings and Board Committee meetings;
- b) Chairmanship of the Board and Board Committees;
- c) Contribution and deployment of knowledge and expertise at the Board and Committee meetings;
- d) Guidance and support provided to senior management of the Company outside the Board meetings;
- e) Independence of behaviour and judgment; and
- f) Impact and influence.

Further, pursuant to Regulation 17(10) of the SEBI (LODR) Regulations, 2015, the evaluation of the Independent Directors shall be done by the entire Board which shall among other factors, include –

- a) Performance of the Directors;
- b) Fulfilment of the independent criteria as specified in the SEBI (LODR) Regulations, 2015, and their independence from the management.

The Committee shall review the implementation and compliance of the evaluation system followed by the Board.

11. Removal

Any Director may be removed from the Board in accordance with the provisions of the Act. The Committee may also recommend, to the Board with

reasons recorded in writing, removal of a Director, KMP and Senior Management subject to the provisions and compliance of the applicable Act, rules and regulations, if any. Any removal of an Executive Director shall be subject to the terms and conditions of his/her appointment.

12. Disclosure

This Policy shall also be placed on the website of the Company. Further, as per the provisions of the Act and the SEBI (LODR) Regulations, 2015, as amended from time to time, the necessary disclosures of this Policy shall be given in the Board's Report.

13. Deviation from the Policy

The Board may, in individual or collective case, deviate from this Policy, in its absolute discretion, if there are particular reasons to do so. In the event of any departure from the Policy, the Board shall record the reasons for such departure in the Board's minutes.

14. Review and amendment of the Policy

The Board shall review the Policy from time to time based on the changing needs and make suitable modifications as may be necessary. The Board can also amend the Policy as and when deemed fit.

In case of any amendment(s), clarification(s), circular(s) etc. issued by the relevant authorities, not being consistent with the provisions laid down under this Policy, then such amendment(s), clarification(s), circular(s) etc. shall prevail upon the provisions hereunder and this Policy shall stand amended accordingly from the effective date as laid down under such amendment(s), clarification(s), circular(s) etc.

Occupational Health and Safety Assessment Series (OHSAS)

Insurance Policies:

At Birlasoft, to ensure the health and fitness of the employees, we have implemented three Insurance policies viz. Group Medclaim Insurance Policy ("GMC"), Group Personal Accident Policy ("GPA") and Group Term Life Insurance Policy ("GTL") and it is mandatory for all the employees to get covered under all these policies. The GMC provides the insurance coverage facility to the employees and their families, under the event of hospitalization due to any disease or IPD treatment. In the present era of pandemic in order to take care of employees we have also provided an option of Policy TOP-UP where employees can take an additional coverage of upto Rupees 10 lakhs Sum Insured (on payment) over and above the base cover. Also, we have covered Home-Quarantine aspect under the GMC policy. The GPA provides the insurance coverage to all the

employees, in case of an accident during or after working hours. Similarly, GTL provides the insurance coverage to the employees, in case of deaths which could be natural, accidental or suicidal.

Birlasoft ensures well-being and healthy lifestyle for employees and their family members through its premier healthcare program - Bcares.

Technology Absorption

With achieving the integration milestone, the next objective has been to deliver value to functions with cost effective operating model with a secured environment. Therefore, the focus has been to run to parallel track as business and technology transformation. With COVID-19 bringing the turbulence, technology has become a common denominator across functions for business continuity and we as an organization also accelerated the transformation journey.

Creating a digital workplace has been one of the prime objectives, enabling employees to operate from anywhere and support our customers. Changes were done to Infrastructure, policies, practices to provide a seamless and scalable digital experience. With significant use of online collaboration platform, we've been able to meet all milestones and service levels for customers with our employees.

With adoption of work from home model, most of the assets have been outside the physical and logical security parameters. This emphasized the importance to address the concerns around cyber security. As an organization, we focused on building a Zero Trust Security architecture. A zero-trust network access and multifactor authentication have been implemented to offer remote access.

Since we embraced the cloud native development, focus on cloud readiness for apps and infra has been one of the

key focus areas. Multiple initiatives have been taken up across different datacenters to consolidate, make these environment cloud ready and few were migrated. Application modernization and rationalization was done as part of the migration journey rather just “lift and shift”.

One of the key focus areas for us has been to ride the wave of hyper automation and data analytics. We have been maximizing the potential of automation digital acceleration, increase resilience, enable scale, cut costs etc. Robotic Process Automation (RPA), and other automation technologies have been leveraged across the business and IT processes. Multiple analytics modules using Data lake with AL/ML capability have been built to provide better prediction and decision-making.

In today's scenario technology is redefining the business models. Therefore, we at Birlasoft have been continuously exploring new ways to operate in a secured environment and drive growth.

Foreign Exchange Earnings and Outgo

Given the global nature of the business of the Company, exports always form its thrust. The total foreign exchange earnings during the year have been ₹ 14,197.11 million (previous year ₹ 11,924.21 million) and foreign exchange outgo (including imports) has been ₹ 822.40 million (previous year ₹ 588.15 million).

Corporate Governance Report

Corporate Governance Philosophy:

Corporate Governance essentially involves balancing the interests of various stakeholders of the Company such as shareholders, management, customers, suppliers, financiers, government and the community. It entails managing business in a manner that is accountable and responsible to the shareholders.

Corporate Governance implies an accurate, adequate and timely disclosure of relevant information. It includes the processes through which organization's objectives are set and pursued in the context of the social, regulatory and market environment. Efficient, transparent and impeccable Corporate Governance is vital for stability, profitability and desired growth of the business of any organization. The importance of such Corporate Governance has now become more intensified, owing to ever-growing competition and rivalry in the businesses in almost all economic sectors, both at national and international levels. Therefore, the Companies Act, 2013 [hereinafter referred to as "the Act"], and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 [hereinafter referred to as "the SEBI (LODR) Regulations, 2015"] have innovative means to make Corporate Governance in India optimally progressive, transparent and beneficial to all the stakeholders.

Corporate Governance is basically an approach of managing efficiently and prudently all the activities of a company, in order to make the business stable and secure, growth-oriented, maximally profitable to its shareholders and highly reputed and reliable among all customers and clients. The Company is directed and controlled in a way in order to achieve the goals and objectives to add value to the Company and also benefit the stakeholders in the long term. The Board Structure and Top Management are directly responsible for such governance. For these purposes, the Top Management must have flawless and effective control over all affairs of the organization, regular monitoring of all business activities and transactions, proper care and concern for the interest and benefit of the shareholders and strict compliances to regulatory and governmental regulations. Thus, Corporate Governance is strict and efficient application of all best management practices and

corporate & legal compliances, amid the contemporary and continually changing business scenarios.

We, at Birlasoft, have been practicing Corporate Governance to ensure transparency in our corporate affairs and are committed to continuously scale up the Corporate Governance standards.

Our Corporate Governance framework has been built on the Company's value system which is as follows:

Engaged: People are our biggest assets. This includes the customers we serve, our colleagues and the suppliers we partner with. When customers work with us, they allow us to enter their organization and blend harmoniously with their culture and people. We engage with them to work seamlessly and it's no different when it comes to working with our partners.

Dependable: Customers look for support and we need to make them feel that they can rely on us. It's very important for us to find out how we as an Organization can win their trust and continue to function as a dependable unit.

Challenger: Our Organization is about scale and quality. We take great care to deliver the best to our customers by understanding their needs. Focus, agility and flexibility from our side are always paramount as we go the extra mile to drive success for our customers.

Our philosophy is aimed at conducting business ethically, efficiently and in a transparent manner based on the following principles:

1. Compliance with the relevant provisions of securities laws and conformity with globally accepted practices of corporate governance, Secretarial Standards provided by the Institute of Company Secretaries of India and laws of India in true spirit;
2. Integrity in financial reporting and timeliness of disclosures;
3. Transparency in the functioning and practices of the Board;
4. Balance between economic and social goals;

5. Equitable treatment and rights of shareholders;
6. Maintenance of ethical culture within and outside the organization;
7. Establishing better risk management framework and risk mitigation measures; and
8. Maintaining independence of auditors.

We seek to protect the shareholders' rights by providing timely and sufficient information to the shareholders, allowing effective participation in key corporate decisions and by providing adequate mechanism to address the grievances of the shareholders. This ensures equitable treatment of all shareholders including minority and foreign shareholders. We ensure timely and accurate disclosure on significant matters including financial performance, ownership and governance of the Company. We implement the prescribed accounting standards in letter and spirit in the preparation of financial statements, taking into account the interest of the stakeholders and the annual audit is conducted by an independent and qualified auditor. Investor updates are uploaded on the Company's website on quarterly basis and also intimated to the stock exchanges for the benefit of its stakeholders. Further, additional updates are provided to the stakeholders on any matter that concerns them, as and when the circumstances arise.

Our Board periodically reviews its corporate strategies, annual budgets and sets, implements and monitors corporate objectives. It effectively monitors the Company's governance practices and ensures transparent Board processes. Further, it appoints and compensates the key executives and monitors their performance. It strives to maintain overall integrity of the accounting and financial reporting systems.

I. Board Of Directors

A. Size and composition of the Board

In order to maintain independence of the Board, we have a judicious mix of Executive, Non-Executive and Independent Directors on the Board which is essential to separate the two main Board functions viz. governance and management. Out of the total strength of seven Directors as on March 31, 2021, four are Independent Directors, two are Non-Executive Directors and one is an Executive Director. The Board members come from diverse background and possess rich experience and expertise in various fields. The composition of the Board and the number of directorships held by each Director both in the Company as well as outside the Company is detailed in Table 1.

C. Board Familiarization Program

Our Directors, at the time of their appointment, are provided with information about the Company and its organization structure, business model, vision and values, latest published results and internal policies to enable them to familiarize themselves with the Company's procedures and practices.

During the year, the Board members were provided a deep and thorough insight of the business model of the Company through detailed presentations on the operational aspects of the Company's business. At every Board meeting, there is a detailed business presentation made which is useful to the Directors in understanding

the business including projects, market share, financial parameters, working capital management, fund flows, change in senior management, major litigation(s), compliance(s), etc. The presentation is made by business leaders so that the Directors are able to connect with them and also ask them related questions. Efforts are also made to acquaint and train the Board members about risk assessment, mitigation plans and the emerging trends in the industry.

The details of such familiarization programs are uploaded on the website of the Company at <https://www.birlasoft.com/company/investors/corporate-governance>.

D. Succession Planning

The Company believes that it may benefit from the principles of identifying crucial job skills, knowledge, social relationships and organizational practices and passing them on to prepare the next generation of workers, thereby ensuring the seamless movement of talent within the organization. The Nomination & Remuneration Committee of the Company works along with the Human Resource team for a structured leadership succession plan.

E. Independent Directors

(v) is a material supplier, service provider or customer or lessor or lessee of the Company;

g. who is not less than 21 years of age;

h. who is not a non-independent director of another company on the board of which any non-independent director of the listed entity is an independent director.

2. Limit on number of directorships

The number of companies in which each Independent Director of the Company holds office as an Independent Director is within the limits prescribed under Regulations 17A and 25 of the SEBI (LODR) Regulations, 2015.

3. Maximum tenure of the Independent Directors

None of the Independent Directors have exceeded the tenure prescribed under Regulation 25 of the SEBI (LODR) Regulations, 2015 and under Section 149(10) of the Act.

4. Formal letter of appointment to Independent Directors

The Company has issued formal appointment letters to the Independent Directors, a specimen of which has been placed on the Company's website.

5. Performance evaluation of Independent Directors

The Nomination and Remuneration Committee has laid down criteria for performance evaluation of Independent Directors, which are given below:

- a) Attendance at Board meetings and Board Committee meetings;
- b) Chairmanship of the Board and Board Committees;
- c) Contribution and deployment of knowledge and expertise at the Board and Committee meetings;
- d) Guidance and support provided to senior management of the Company outside the Board meetings;

e) Independence of behaviour and judgement;

g) Performance of the Directors.

6. Separate meeting of the Independent Directors

During the financial year 2020-21, a separate meeting of the Independent Directors of the Company was held on March 1, 2021.

F. Responsibilities of the Chairman and other Directors

Mrs. Amita Birla is the Non-Executive Chairman of the Board of Directors and Mr. Dharmander Kapoor is the Chief Executive Officer ("CEO") & Managing Director of the Company. The authorities and responsibilities of each of the above Directors are clearly demarcated as under:

The Chairman guides the team in overseeing business, management of key external relationships and managing Board matters. She also plays a strategic role in Community Initiatives and Corporate Governance.

The CEO & Managing Director is in-charge of the overall management of the Company. He is specifically responsible for all day-to-day operational issues like planning and executing business, reviewing and guiding the country offices, customer delivery units and support functions and ensuring efficient and effective functioning of the organization as a whole.

The Independent Directors ensure Board effectiveness to maintain high-quality governance of the organization and the effective functioning of the Board.

The Board of Directors oversee the Management's functions and protects the long-term interests of our stakeholders.

G. Membership Term

As per the current laws in India, Independent Directors can hold office for a term of five years which can be extended for another period of five years. In the Annual General Meeting held on August 7, 2019, the members appointed Mr. Ashok Kumar Barat, Ms. Nandita Gurjar and Mr. Prasad Thrikutam for a term of five years,

with effect from January 15, 2019. Further, Mr. Anant Talaulicar and Ms. Alka Bharucha were appointed as Independent Directors, for a term of five years from October 21, 2017 and May 23, 2018 respectively.

Mr. Prasad Thrikutam – Independent Director, resigned on June 11, 2020, owing to an opportunity elsewhere on a full-time basis, which would have posed a potential conflict of interest as well as additional demands on his time. Mr. Thrikutam also confirmed that there are no material reasons for his resignation other than those mentioned by him.

Mrs. Amita Birla is appointed as the Chairman, and Mr. Chandrakant Birla is appointed as Non-Executive Director.

Two-third of the Non-Independent Directors are liable to retire by rotation. Out of the two-third Directors, one-third of such directors shall retire from office, and shall be eligible for re-appointment at the ensuing Annual General Meeting. Mr. Chandrakant Birla retired by rotation at the Annual General Meeting held on August 26, 2020, and being eligible, was reappointed as a Director in the same meeting. At the ensuing Annual General Meeting, Mrs. Amita Birla retires by rotation, and being eligible, offers herself for re-appointment as a Director.

The Chief Executive Officer and Managing Director is appointed by the members of the Company (subject to retirement by rotation as mentioned hereinabove), but is eligible for re-appointment upon completion of his term.

H. Board & Committee Meeting Agenda and Minutes

The Company Secretary receives details on the matters which require the approval of the Board/Committees of the Board, from various departments of the Company, well in advance, so that they can be included in the Board/Committee meeting agenda. The information as required under the SEBI (LODR) Regulations, 2015, is made available to the members of the Board/Committee. All material information is incorporated in the agenda papers for facilitating meaningful and focused discussions at the meetings. force from time to time and the Secretarial Standards issued by the Institute of Company Secretaries of India. The draft minutes of the proceedings of the meetings of the Board as well as the Committees of the Board are circulated to all the Directors/Members of the Committee.

I. Non-Executive Directors' shareholding

As on March 31, 2021, none of the Non-Executive Directors hold equity shares of the Company.

Details of compensation paid/payable to other Non-Executive Directors are disclosed elsewhere in this Report.

J. Other provisions as to Board and Committees

1. Board meetings schedule:

As a good practice, the dates of the Board meetings in a financial year are decided in advance and circulated to all the Board members. The Board meetings are usually held at the Registered Office of the Company located in Pune or at other offices situated in National Capital Region. However, owing to the COVID-19 Pandemic, this time, the meetings were held over video-conferencing in terms of the notifications issued by the Ministry of Corporate Affairs. The agenda for each meeting is drafted by the Company Secretary in consultation with the Chairman of the Board and circulated to the Board members in advance of the meetings. The Board meets at least once every quarter to review and approve the quarterly results and other items on the agenda. In addition, the Board normally meets annually, for discussions on the annual operating plan. Additional Board meetings are held, whenever necessary.

During the year, five Board meetings were held on the following dates:

- May 20, 2020;
- August 5, 2020;
- November 5, 2020;
- February 6, 2021; and
- March 31, 2021.

Accordingly, during the year, the Company transferred an amount of ₹ 503,821/- being the unclaimed dividend pertaining to the financial year 2012-13 to the IEPF. Further, 7,118 corresponding shares were transferred to the IEPF Authority as required under the above referred rules. The information in respect of such shares is uploaded on the website of the Company at <https://www.birlasoft.com/company/investors/policies-reports-filings>.

Members can claim back such dividend and shares including all benefits accruing on such shares from the IEPF Authority after following the procedure prescribed in the Rules.

23. Outstanding GDRs/ADRs/Warrants or any convertible instruments, conversion date and likely impact on equity:

The Company has not issued any GDRs/ADRs/Warrants or any convertible instruments.

24. Commodity price risk or foreign exchange risk and hedging activities:

During the year 2020-21, the Company has managed the foreign exchange risk and hedged to the extent considered necessary.

The global economic situation continues to remain volatile. Fluctuations in major currencies due to unstable economic conditions impact revenue and profits of the IT industry. This trend is expected to continue and further volatility is expected due to the unprecedented COVID-19 situation. The Company has in place a Hedging Policy to minimize the risks associated with foreign currency rate fluctuations. The Company enters into forward contracts for hedging foreign exchange exposures against receivable from its wholly owned subsidiaries and end customers.

The details of foreign currency exposure are disclosed in Note 27 of the notes forming part of the financial statements.

Independent Auditors' certificate on Corporate Governance

To the Members of Birlasoft Limited

This certificate is issued in accordance with the terms of our engagement letter dated 24th October 2019 and addendum to the engagement letter dated 18th May 2021.

This report contains details of compliance of conditions of Corporate Governance by Birlasoft Limited ("the Company") for the year ended 31 March 2021, as stipulated in regulations 17 to 27, clauses (b) to (i) of regulation 46(2) and paragraphs C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), pursuant to the Listing Agreement of the Company with Stock exchanges.

Management's Responsibility

The preparation of the Report on Corporate Governance is the responsibility of the Management of the Company.

Further, the compliance of conditions of Corporate Governance by the Company, as stipulated in the aforementioned Listing Regulations, is the responsibility of the Company's Management, including the preparation and maintenance of all relevant supporting records and documents. This responsibility includes the design, implementation and maintenance of internal control relevant for ensuring such compliance.

Management is also responsible for providing all relevant information to the Securities and Exchange Board of India.

Auditor's Responsibility

Pursuant to the requirements of the aforementioned Listing Regulations, it is our responsibility to obtain reasonable assurance and form an opinion as to whether the Company has complied with the conditions of Corporate Governance as stipulated in the aforementioned Listing Regulations.

We have examined the compliance of the conditions of Corporate Governance by the Company for the year ended 31 March 2021 as stipulated in the aforementioned Listing Regulations. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We conducted our examination in accordance with the Guidance Note on Certification of Corporate Governance and the Guidance Note on Reports or Certificates for Special Purposes, both issued by the Institute of Chartered Accountants of India and the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013, in so far as applicable for the purpose of this certificate. The Guidance Note on Reports or Certificates for Special Purposes requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

Based on our examination as above, in our opinion and to the best of our information and according to the explanations and representations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the aforementioned Listing Regulations, as applicable.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Restrictions on Use

The certificate is addressed and provided to the Members of the Company solely for the purpose to enable the Company to comply with the requirement of the Listing Regulations, and it should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this certificate is shown or into whose hands it may come without our prior consent in writing.

Dear Member,

Your Company is a firm believer in and has always been fostering green and inclusive growth. Co-innovation for green growth is now a quintessential part of your Company's values. Your Company has been taking major initiatives all along in green growth. The Company publishes its Annual Corporate Sustainability Report and is also taking the "Green Initiative in Corporate Governance" in accordance with the agenda promoted by the Ministry of Corporate Affairs ("the MCA").

Pursuant to the provisions of the Companies Act, 2013 and the relevant rules notified thereunder by the MCA, companies can serve Annual Reports and other communications through electronic mode to those members who have registered their e-mail IDs either with the Registrar and Transfer Agent or with their respective Depository Participants. It is a welcome move for the society at large, as this will reduce paper consumption to a great extent and allow the members to contribute towards a greener environment. This is a golden opportunity for every member of the Company to contribute to the cause of "Green Initiative".

In view of the above, we propose to send you the member communications and documents like Annual Reports, Notices, etc. through electronic mode, in future. In order to facilitate electronic communication with you, we request you to register your e-mail IDs with your respective Depository Participants (for shares held in demat form) or with our Registrar and Transfer Agent - Link Intime India Private Limited at: pune@linkintime.co.in (for shares held in physical form). Alternatively, you may register your e-mail ID with the Company by writing an email to contactus@birlasoft.com with the subject line – "Green Initiative".

If you have already registered your e-mail ID, you are not required to re-register the same unless there is a change in your e-mail ID.

We believe that by subscribing to this green initiative, you will receive all the communications addressed to the members on time and you would also be contributing towards the protection of your environment.

We request your support for the "Green Initiative".

Thanking you.

The Company’s Code of Conduct outlines and creates a set of values for all concerned people to behave in an ethical manner while working for and on behalf of the Company. It takes into account factors like regulatory compliance, equal employment opportunity, non-harassment & prevention of sexual harassment, prevention of use of alcohol, illegal drug or medication, use of the Company’s, Customers’ and Suppliers’ resources and competition.

It is applicable to all Directors and employees (all Birlasoft managers and employees, including managers and employees of its divisions, subsidiaries and other affiliates worldwide, as well as agents and contractors working on behalf of the Company, its subsidiaries and affiliates).

Prevention of Sexual Harassment (“POSH”) policy: The policy framework aims at educating employees on any

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1

1. Does the policy relating to ethics, bribery and corruption cover only the Company?

No, it also covers the Subsidiary companies.

2. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

The policy covers employees of the Company as well as its subsidiaries, contractual service providers,

sort of harassment (including sexual harassment) and report about it appropriately when seen or experienced at the workplace. All the cases are acted upon immediately and corrective actions are taken. E-learning on POSH has been mandated for all employees.

Further, during the year, 2 (two) complaints were reported under the POSH mechanism, which were satisfactorily resolved. There are no pending complaints, as on the end of the financial year.

Principle 2

1. List of upto 3 products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company is in the business of software development services and products. Hence, these products do not attract social or environmental concerns, risks and/or opportunities.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material, etc.) per unit of product (optional):

a) Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?

b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

The Company is in the business of software development services and products. Therefore, these products require minimal usage of energy, water, raw material, etc.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)?

a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Sustainable sourcing at the Company represents contribution to the following areas namely: Solar Energy, e-vehicles for commutations of employees, Waste Management, Environment Awareness and Occupational Health & Safety.

Solar Energy:

The Company has initiated many projects towards conservation of energy and water. Recently, one project executed is to generate energy through solar power plant which has been installed on the roof top of cafeteria as well as on the terrace of SDB2 Building at the Company's Registered Office situated in Pune.

Highlights of the project:

- Solar system is installed on power purchase model with a generation capacity of 265kW. Total 737 panels have been installed on terrace and roof top. It will reduce the 335 tonnes of carbon emission p.a.
- Total units generated through this plant will be 400,000 units p.a.
- These units will save up to 13% of overall total consumption.
- This installation will reduce the impact of direct sunlight on the roof top of cafeteria. The floors below will be much cooler, and employees will get more comfort during summers.
- This system is directly connected to the main LT panel feeder, so we will get benefit in reducing the MSEDCL kWh units.
- These units will have a fixed rate for next 15 years resulting in a saving of almost ₹ 18 lakhs p.a. with existing rate of MSEDCL.

Electric Vehicles:

As a step towards contribution to a Greener environment, and in line with Birlasoft's commitment to environmental sustainability, we have introduced electric vehicles into our transportation fleet in partnership with an industry pioneer in this domain. We have been one of the early adopters in using this technology for day to day transport operations and we look forward to contributing to the environment with this move. Electric Vehicles are environment friendly, have

low running costs and pose a reduced risk of breakdowns. Operating electric vehicles will help us to achieve sustainability through reduction in our carbon footprint. To be specific, 10,000 electric KMs per month = 24 MT of CO₂ emissions abated per year, which is equal to growing 360 trees per year. As a pilot run, electric vehicles will be plying in our Bengaluru office. However, as we progress we shall have these vehicles serving our offices across all locations.

Waste Management:

Being an IT services company, there are no significant primary emissions or process wastes. Due to the nature of our business, waste generation is limited and restricted primarily to Municipal Solid Waste (“MSW”). Other wastes include e-waste and a small proportion of hazardous waste like waste lube oil, etc. Our waste management practice seeks to reduce the environmental impact of this limited waste to the maximum extent possible by reduction in generation and segregation at source.

E-waste Management:

Being an IT company, the Company generates e-waste like laptops, computers, monitors, servers, etc. Apart from this we also generate electrical waste like wires, switches, lamps, etc. The Company’s waste management procedure is the defining guideline for handling all types of waste and complying with the Government and Maharashtra Pollution Control Board (“MPCB”) norms.

Hazardous Waste:

Hazardous waste is disposed through authorized agencies as per the guidelines of Ministry of Environment, Forests and Climate Change (“MoEFCC”).

Occupational Health and Safety Assessment Series (“OHSAS”):

The Company has always considered its employees as the most valuable asset of the organization. Towards this end, the Company constantly

undertakes initiatives to ensure the safety and well-being of its employees at workplace.

The Company engages its employee and third-party vendors in various EOHS initiatives held in the organization. The hazard identification and risk assessment is carried out in consultation with relevant stakeholders, employees and third party vendors. The implemented controls are monitored and evaluated regularly to ensure employee safety all the time at workplace.

For details please refer the relevant Annexure of the Board’s Report relating to “Information on conservation of energy, technology absorption and foreign exchange earnings and outgo”, which forms a part of this Annual Report.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

Birlasoft through its Corporate Social Responsibility activities support local and small producers.

a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Birlasoft aims to create a need-based sustainable community driven model to provide a platform for developmental change in ecosystem. In consonance with this vision Birlasoft supports local and small vendors through its “Joy of Giving” program. This is a platform to connect buyers with sellers. We also help small entrepreneurs in building their capacity through skill training and financial assistance.

5. Does the company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

The Company has taken the following initiatives to recycle products and waste:

- 60% of the water treated through sewage treatment plant and is recycled and used for gardening purpose.

- Waste generated such as paper, plastic, cardboard, steel, other metal, etc. are sent for recycling through authorized vendor.
- Municipal solid waste is sent through authorized vendor. Hazardous and e-waste generated in organization is disposed through government authorized recycler.

Principle 3

1. Please indicate the total number of employees.

11,051.

2. Please indicate the total number of employees hired on temporary/contractual/casual basis.

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Birlasoft Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2021, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Description of Key Audit Matter

Revenue recognition in respect of fixed price contracts

(See note 1.2 and 31 to the standalone financial statements)

The key audit matter	How the matter was addressed in our audit
The Company engages into fixed-price contracts with customers. In respect of fixed-price contracts other than maintenance and support service contracts, revenue is recognized using percentage of completion computed as per the input method. This is based on the Company's estimate of contract costs and efforts for completion of contract. Provision for estimated losses on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.	Our audit procedures in this area included the following: <ul style="list-style-type: none">Obtaining an understanding of the systems, processes and controls implemented by the Company and evaluating the design and implementation of internal controls for measuring and recording revenue and the associated contract assets and unearned revenue.Testing the design and operating effectiveness of key IT controls over IT environment in which the business systems operate. This includes access controls, program change controls, program development controls and IT operation controls;

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<p>Contract estimates are formed by the Company considering the following:</p> <ul style="list-style-type: none"> • Application of the revenue recognition accounting standard is complex. It involves a number of key judgements and estimates. One of the key estimates is total cost-to-completion of these contracts. It is used to determine the percentage of completion of the relevant performance obligation. • There is judgement involved in identification of distinct performance obligations and determination of transaction price for such performance obligations. • COVID 19 pandemic may impact the total revenue and costs to complete the contracts. In some cases, Company's contract interests are adequately protected. In other cases, there may be possible significant risks though the Company is cautious of them. • These contracts may involve onerous obligations on the Company requiring critical estimates to be made. • Contracts are subject to modification to account for changes in contract specification and requirements. • At year-end a significant amount of work in progress (Contract assets and liabilities) related to these contracts is recognised on the balance sheet representing the work completed, costs incurred and accrued. <p>Considering the significant estimate involved in recognition of revenue based on percentage of completion method in respect of fixed price contracts, we have considered this as key audit matter.</p>	<ul style="list-style-type: none"> • For selected samples of contracts, we inspected the terms of the contract and assessed the revenue recognized in accordance with Ind AS by: <ul style="list-style-type: none"> ➤ Evaluating the identification of performance obligations. ➤ Agreeing the transaction price to the underlying contracts. ➤ Inspecting the approval of the estimates of cost to complete. ➤ Evaluating the impact of COVID 19 pandemic on the total revenue and the cost to complete the contract. ➤ Challenging the Company's estimate of contract cost through a retrospective comparison of costs incurred with budgeted costs. Identifying significant variations and testing variations resulting into re-estimating the remaining costs to complete the contract. ➤ Assessing the work in progress (contract assets) on the balance sheet date by inspecting the underlying invoices and signed agreements on sample basis to identify possible delays in achieving milestones. Those may require change in estimated costs to complete the remaining performance obligations. ➤ Comparing, on a sample basis, revenue transactions recorded during the year with the underlying contracts, actual costs incurred, and invoices raised on customers. Also, checked the related revenue, contract costs, provision for onerous contracts, contract assets and unearned revenue had been recognised in accordance with the requirements of Ind AS 115. ➤ Performing analytical procedures on incurred and estimated contract costs or efforts. It includes assessment of contracts with unusual or negative margins, little or no movement in efforts from previous periods. We also performed analytical procedures on contract assets with little or no movement in invoicing from previous periods.

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial

statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure

about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at 31 March 2021 on its financial position in its standalone financial statements - Refer Note 37(1) to the standalone financial statements;
- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts- Refer Note 21 to the standalone financial statements;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial

statements since they do not pertain to the financial year ended 31 March 2021.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

- a) In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure B to the Independent Auditors' report on the standalone financial statements of Birlasoft Limited for the year ended 31 March 2021

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Referred to in paragraph 2 (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date.

Opinion

We have audited the internal financial controls with reference to financial statements of Birlasoft Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone

financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial controls with Reference to Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to

standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper

management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Company Overview

Birlasoft Limited (“the Company”) is a public limited Company incorporated under the Companies Act, 1956 and its shares are listed on the National Stock Exchange and Bombay Stock Exchange. The Company’s registered office is in Pune and it has subsidiaries and branches across multiple geographies. Most of the revenue is generated from the export of services.

The Company provides Software Development, global IT consulting to its clients, predominantly in Banking, Financial Services and Insurance, Life Sciences and Services, Energy Resources and Utilities and Manufacturing (which mainly includes Discrete Manufacturing, Hi-Tech & Media, Auto and Consumer packaged goods) verticals.

These financial statements were authorized for issue by the Company’s Board of Directors on 21 May 2021.

1. Significant accounting policies

Basis of preparation of standalone financial statements

The standalone financial statements are prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time. The standalone financial statements are presented in millions of Indian rupees rounded off to two decimal places, except per share information, unless otherwise stated.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

These financial statements have been prepared on the historical cost basis except business combination (other than business combination under common control), share based payments, defined benefit obligations and certain financial instruments, which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Use of estimates

The preparation of standalone financial statements requires the management of the Company to make judgments, estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expenditure during the year. Actual results could differ from estimates. Differences between actual results and estimates are recognized in the year in which the results are known / materialized.

Critical accounting estimates

a. Revenue Recognition

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and satisfaction of performance obligation. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b. Income tax & Deferred tax

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

c. Measurement of defined benefit obligation, key actuarial assumptions and share based payments

Information about assumptions and estimation uncertainties in respect of defined benefit obligation and share based payment are given in note 33 and note 40 respectively.

d. Business combinations

Business combinations are accounted for using Ind-AS 103, Business Combinations. Ind-AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets.

e. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

f. Impairment of investment in subsidiaries

The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the statement of profit and loss.

g. Estimation uncertainties relating to the COVID-19 pandemic:

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue and intangible assets. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established. Considering the fact that the global situation is evolving day by day with new facts and numbers, the impact of the pandemic on the Company's financial statements may differ from that estimated as at the date of approval of these standalone financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

1.1 Current–non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is expected to be realized within 12 months after the reporting date; or
- d. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. it is expected to be settled in the Company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is due to be settled within 12 months after the reporting date; or
- d. the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. The operating cycle of the Company is less than twelve months.

1.2 Revenue recognition

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, integrated portfolio of IT.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognized on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognized based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognized using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation.
- Revenue from third party software is recognized upfront at the point in time when software is delivered to the customer, such revenue is recognized on net basis when the Company is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Expenses reimbursed by customers during the project execution are recorded as reduction to associated costs. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The Company recognizes contract fulfillment cost as an asset if those costs specifically relate to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered. The asset so recognized is amortized on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

Unearned revenue (“contract liability”) is recognized when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with Ind AS 37, the Company recognizes an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for. The Company disaggregates revenue from contracts with customers by geography and business verticals.

Use of significant judgment's in revenue recognition

- The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgment to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- Judgment is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.
- The Company uses judgment to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Company uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.
- The Company exercises judgment in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- Revenue for fixed-price contracts is recognized using percentage-of-completion method. The Company uses judgment to estimate the future cost-to-completion of the contracts which is used to determine the degree of the completion of the performance obligation.
- Contract Fulfillment costs are generally expensed as incurred except for costs which meet the criteria for capitalization as per Ind AS 115. Such costs are amortised over the contractual period. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

1.3 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of cost of that asset. All other borrowing costs are charged to the Statement of Profit and Loss.

The exchange differences arising from foreign currency borrowings, to the extent that they are regarded as an adjustment to interest costs, are regrouped from foreign exchange differences to finance costs.

1.4 Property, plant and equipment

Property, plant and equipment are carried at cost of acquisition or construction less accumulated depreciation and/or accumulated impairment loss, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price. If significant parts of an item of property, plant and equipment have different useful lives, than they are accounted for as separate items (major components) of property, plant and equipment. The cost and related accumulated depreciation are eliminated from the standalone financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets under construction are disclosed as capital work-in-progress.

1.5 Intangible assets

Intangible assets are stated at cost less accumulated amortization and accumulated impairment, if any.

In case of internally generated intangibles, costs incurred during the research phase of a project are expensed when incurred. Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalized includes the cost of materials, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use, and directly attributable borrowing costs (in the same manner as in the case of property, plant and equipment). Other development expenditure is recognized in the Statement of Profit and Loss as incurred.

Intangible assets are derecognized on disposal or when no future economic benefits are expected from its use and subsequent disposal or when the economic benefits are not measurable.

1.6 Depreciation and amortization

Depreciation on property, plant and equipment is provided on the straight-line method over the useful lives of the assets. The estimated useful lives are as follows:

Type of asset	Useful life (No. of years)
Buildings ⁽¹⁾	25
Plant and equipment ⁽¹⁾	4
Office Equipment ⁽¹⁾	10
Owned Vehicle ⁽¹⁾	5
Furniture and fixtures ⁽¹⁾	8

⁽¹⁾ For these class of assets, based on internal assessment, the useful lives as given above are believed to best represent the period over which the assets are expected to be used. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

Right of use assets are amortised over shorter of useful lives and period of lease.

Perpetual software licenses are amortized over 4 years. However, time-based software licenses are amortized over the license period.

Capitalized development costs are amortized over a period of 3 to 4 years.

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Improvements to leased premises are amortized over the remaining non-cancellable period of the lease.

Depreciation and amortisation methods, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

1.7 Impairment

a. Financial assets

The Company assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recorded as an impairment gain or loss in Statement of Profit and Loss.

b. Non- financial assets

Property, plant and equipment and intangible assets

The management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. Impairment loss is recognized when the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's fair value less cost of disposal and value in use. For the purpose of impairment testing, assets are grouped together into the smallest group of assets (cash generating unit or CGU) that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Intangible assets which are not yet available for use are tested for impairment annually. Other assets (tangible and intangible) are reviewed at each reporting date to determine if there is any indication of impairment. For assets in respect of which any such indication exists and for intangible assets mandatorily tested annually for impairment, the asset's recoverable amount is estimated.

If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists or has decreased, the assets or CGU's recoverable amount is estimated. For assets other than goodwill, the impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. Such a reversal is recognized in the Statement of Profit and Loss.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

1.8 Leases

The Company primarily has leased rental offices premises, guest house, parking space, laptops etc across multiple locations.

At the inception of contract the Company assesses whether the contract is, or contains a lease. A contract is, or contains, a lease if the contract involves use of an identified asset and conveys the right to control the use of asset for period of time in exchange for consideration i.e. customer has right to :

- obtain substantially all the economic benefits from using the asset and
- direct the use of asset

Company as a lessee

1. Recognition and measurement

The Company recognises the right of use asset and lease liability at the commencement date of lease. The right of use asset is initially measured at cost, which comprises of present value of future lease rent payouts adjusted for any payment made at or before commencement date, any initial direct cost incurred and an estimate of cost to dismantle or remove an underlying asset or to restore an asset less any lease incentive received.

The lease liability is initially measured at present value of lease payments that is not paid at commencement date discounted at implicit rate mentioned in lease or incremental borrowing rate. The Company generally uses incremental borrowing rate as discount rate.

The right-of-use assets is depreciated using the straight-line method from the commencement date over the useful life of right-of-use asset.

The lease liability is subsequently measured at amortised cost using effective interest method. It is remeasured to reflect any lease modifications or reassessments.

2. Extension and termination of lease

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

3. Short term leases and low value assets

The Company has elected not to recognise right of use of assets and lease liabilities for short-term leases that have lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight- line basis over lease term.

4. Impairment testing for right of use of assets

Right of use assets are tested for impairment whenever there is any indication that their carrying amount is not recoverable. Impairment loss, if any, is recognised in statement of profit and loss.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

1.9 Earnings per share

Basic earnings per share are computed by dividing the net profit for the year after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit for the year after tax for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all dilutive potential equity shares except where the results are anti-dilutive.

1.10 Foreign currency transactions

a. Functional and presentation currency

Indian Rupee is the Company's functional as well as presentation currency.

b. Transactions in foreign currencies are translated to the functional currency of the Company at the exchange rates prevailing on the date of the transaction. Monetary items denominated in foreign currencies are translated into the functional currency at the year-end rates. The exchange differences so determined and also the realized exchange differences are recognized in the Statement of Profit and Loss. Non-monetary items denominated in foreign currencies and measured at fair value are translated into the functional currency at the exchange rate prevalent at the date when the fair value was determined. Non-monetary items denominated in foreign currencies and measured at historical cost are translated into the functional currency at the exchange rate prevalent at the date of transaction.

c. Translation of foreign operations

For translating the financial statements of foreign branches, their functional currencies are determined. The results and the financial position of the foreign branches are translated into presentation currency so that the foreign operation could be included in the standalone financial statements.

1.11 Employee benefits

i) Post-employment benefit plans

Defined benefit plan

The Company's gratuity scheme is a defined benefit plan. For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with independent actuarial valuations being carried out at each Balance Sheet date. Remeasurement of net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effects of asset ceiling (if any, excluding interest) are recognized in Other Comprehensive Income for the period in which they occur. Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss. Past service cost is recognized immediately to the extent that the benefits are already vested or amortized on a straight-line basis over the average period until the benefits become vested.

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets, if any. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Company makes specified monthly contributions towards employee provident fund to Government administered provident fund scheme which is a defined contribution

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

plan. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

ii) Other employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized during the period when the employee renders the service. These benefits include compensated absences (which cannot be carried forward) such as paid annual leave, overseas social security contributions and performance incentives.

1.12 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the standalone financial statements.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of branches where it is expected that the earnings of the branch will not be distributed in the foreseeable future. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates for the purposes of current and deferred tax have been determined on the basis of Company's evaluation of acceptability of its tax positions by the taxation authorities.

Minimum Alternate Tax

The Government of India, on September 20, 2019, vide Taxation Laws (Amendment) Act, 2019, allowed an option to the domestic companies to switch to a lower tax rate structure of 22% (25.17% including surcharge and cess) from the earlier 30% (34.944% including surcharge and cess) subject to condition that the Company will not avail any of the specified deductions / incentives under the Income Tax Act including credit for Minimum Alternate Tax ('MAT'). The Company has elected to switch to the new lower tax rate structure with effect from the financial year 2020-21. Consequently, the Company will not claim MAT credit for the financial year 2020-21 and all the MAT credit balances have been written off.

1.13 Provisions, Contingent liabilities and Contingent assets

The Company recognizes provisions only when it has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

No provision is recognized for –

- a. Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or
- b. Present obligations that arise from past events but are not recognized because-
 - 1) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - 2) A reliable estimate of the amount of obligation cannot be made.

Such obligations are disclosed as contingent liabilities. These are assessed continually and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for, except in the extremely rare circumstances where no reliable estimate can be made.

Contingent assets are not recognized in the standalone financial statements since this may result in the recognition of income that may never be realized.

Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Company recognizes any impairment loss on the assets associated with that contract.

Warranty

The Company has an obligation by way of warranty to maintain the software during the period of warranty, as per the contractual requirements, for certain products/licenses. Costs associated with such sale are accrued at the time when related revenues are recorded and included in cost of service delivery. The Company estimates such cost based on historical experience and the estimates are reviewed periodically for material changes in the assumptions.

Decommissioning Liability

The Company uses various premises on lease to run its operation and records a provision for decommissioning costs to be incurred for the restoration of these premises at the end of the lease period. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost of the particular asset. The cash flows are discounted using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is expensed as incurred and recognized in the statement of profit and loss as an interest expense. The estimated future costs of decommissioning and interest rate are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

1.14 Research and development:

Costs incurred during the research phase of a project are expensed when incurred. Costs incurred in the development phase are recognized as an intangible asset in accordance with policy defined in 1.5.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

1.15 Employee stock option

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, the Company recognizes employee compensation expense, using the grant date fair value in accordance with Ind-AS 102 - Share Based Payment, on straight line basis over the period over which the employees would become unconditionally entitled to apply for the shares.

1.16 Investment in subsidiaries

Investment in subsidiaries are measured at cost less impairment.

1.17 Financial instruments

a. Initial recognition

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

b. Subsequent measurement

i) Non-derivative financial instruments

Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through Other Comprehensive Income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

However, in cases where the Company has made an irrevocable election for particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, the subsequent changes in fair value are recognized in Other Comprehensive Income.

Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

ii) Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The Company does not use derivative financial instruments for speculative purposes. The counter-party to the Company's foreign currency forward contracts is generally a bank.

Financial assets or financial liabilities, at fair value through profit or loss

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in the statement of profit and loss, when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

Cash flow hedge

The use of hedging instruments is governed by the Company's policy approved by the Board of Directors, which provides written principles on the use of such financial derivatives consistent with the Company's risk management strategy.

The Company designates certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on firm commitments and highly probable forecast transactions.

Hedging instruments are initially measured at fair value and are re-measured at subsequent reporting dates. The effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecast transactions any cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve is retained until the forecast transaction occurs. When a hedged transaction occurs or is no longer expected to occur, the net cumulative gain or loss recognized in cash flow hedging reserve is transferred to the Statement of Profit and Loss.

The amount recognized in Other Comprehensive Income is reclassified to profit or loss as a reclassification adjustment in the same period as the hedged cash flows affect profit or loss, and in the same line item in the Statement of Profit or Loss and Other Comprehensive Income.

iii) Treasury Shares

When any entity within the Group (Birlasoft Limited and its subsidiaries) purchases the Company's ordinary shares, the consideration paid including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from share premium.

c. Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind-AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

d. Fair value of financial instruments

The Company uses discounted cash flow analysis method for the fair value of its financial instruments except for employee stock options (ESOP), where Black and Scholes options pricing model is used. The method of assessing fair value results in general approximation of value and such value may never actually be realized.

For all other financial instruments the carrying amount approximates fair value due to short maturity of those instruments.

Fair value measurements

The Company measures financial instruments, such as, derivatives and investments in mutual funds at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a. In the principal market for the asset or liability, or
- b. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a. Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- b. Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- c. Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the Standalone Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's finance team determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations. The team comprises of the head of the treasury operation and chief finance officer.

External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided on the basis of nature of transaction and complexity involved. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

At each reporting date, the finance team analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the team verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents. A change in fair value of assets and liabilities is also compared with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.18 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the standalone statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Company's cash management.

1.19 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

1.20 Business combinations

- a. Business combinations are accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Company. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transaction costs that the Company incurs in connection with a business combination such as finders' fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

Impact of any changes in the purchase consideration, after the measurement period, is recorded in the Statement of Profit and Loss.

- b. Goodwill represents the cost of business acquisition in excess of the Company's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquire. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognized immediately in net profit in the Statement of Profit and Loss. Goodwill is measured at cost less accumulated impairment losses.
- c. Business combinations arising from transfer of interests in entities that are under the control of the shareholder that control the Group are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established.

Business combinations involving entities that are controlled by the group are accounted for using the pooling of interests method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- The identity of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- The difference, if any, between consideration and the amount of share capital of required entity is transferred to capital reserve.

1.21 Recent accounting pronouncements

On March 24, 2021, the Ministry of Corporate Affairs (“MCA”) through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet:

- Lease liabilities should be separately disclosed under the head ‘financial liabilities’, duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under ‘additional regulatory requirement’ such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head ‘additional information’ in the notes forming part of consolidated financial statements.

The amendments are extensive and the company will evaluate the same to give effect to them as required by law.

27.2 Fair value hierarchy

Financial assets and liabilities include cash and cash equivalents, other balances with banks, trade receivables, loans, unbilled revenue, other financial assets, trade payables and other financial liabilities whose fair values approximate their carrying amounts largely due to the short term nature of such assets and liabilities. Fair value of lease liabilities approximate its carrying amounts, as lease liabilities are valued using the discounted cash flow method.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This level of hierarchy include Company's over the counter (OTC) derivative contracts.

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of financial assets and liabilities as on 31 March 2021 :

Particulars	As at 31 March 2021	Fair value measurement as at		
		Level 1	Level 2	Level 3
Investments in Mutual funds	553.17	553.17	-	-
Investment in equity instruments of other entities	0.00*	-	-	0.00*
Forward contract designated as cash flow hedge	170.23	-	170.23	-
Lease Liabilities	1,095.80	-	1,095.80	-

The following table presents fair value hierarchy of assets and liabilities measured as on 31 March 2020 :

Particulars	As at 31 March 2020	Fair value measurement as at		
		Level 1	Level 2	Level 3
Investments in Mutual funds	330.02	330.02	-	-
Investment in equity instruments of other entities	0.00*	-	-	0.00*
Forward contract designated as cash flow hedge	294.35	-	294.35	-
Lease Liabilities	1,277.15	-	1,277.15	-

* Since denominated in ₹ million.

Valuation technique and significant unobservable inputs:

Level 2:

- (i) Derivatives contract with banks are fair valued using fair values obtained from banks and are classified in Level 2
- (ii) Loans and lease liabilities given are valued using the discounted cash flow method, the net cash flows expected to be generated are discounted using the cost of borrowing that are directly or indirectly observable in the market.

Level 3:

Valuation techniques

For valuation of investment in equity instruments, discounted cash flow method is used to capture the present value of expected future economic benefits. Under the discounted cash flow method, the net cash flows expected to be generated are discounted using the weighted average cost of capital.

Significant increase in discount rates and spreads above risk free rate, in isolation would result in lower fair values. A significant increase in volatility in revenue growth rates will result in higher fair value.

27.3 Financial risk management

The board of directors has overall responsibility for the establishment and oversight of the Company risk management framework. The board of directors has established the Risk Management Committees, which is responsible for developing and monitoring the Company's risk management policies.

The Company has exposure to the following risks arising from financial instruments. Further, refer note 40 for evaluation of impact of COVID 19.

a. Credit risk

Credit risk is the risk of financial losses to the Company if a customer or counterparty to financial instruments fails to discharge its contractual obligations and arises primarily from the Company's receivables from customers amounting to ₹ 2,130.43 million and ₹ 3,923.15 million and unbilled revenue amounting to 214.53 million and ₹ 363.94 million as on 31 March 2021 and 31 March 2020 respectively. To manage this, the Company periodically assesses the key accounts receivable balances. Credit risk on derivative instruments is generally low as the company enters into derivative contracts with reputed banks. As per Ind-AS 109 : Financial Instruments, the Company uses expected credit loss model to assess the impairment loss or gain.

The carrying amount of trade and other receivables and other financial assets represents the maximum credit exposure.

i. Trade receivables

The management has established accounts receivable policy under which customer accounts are regularly monitored. The Company has a dedicated sales team at each geography which is responsible for collecting dues from the customer within stipulated period. The management reviews status of critical accounts on a regular basis.

ii. Impairment

Unbilled revenue is not outstanding for more than 90 days.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

(Amount in ₹ million)

iii. Cash and bank balances

The Company held cash and bank balances of ₹ 7,654.59 million and ₹ 3,227.26 million as on 31 March 2021 and 31 March 2020 respectively. The cash and bank balances are held with banks which have high credit ratings assigned by international credit rating agencies.

iv. Guarantees

The Company's policy is to provide financial guarantees only on behalf of subsidiaries. The Company has issued the guarantees to certain banks in respect of credit facilities granted to its subsidiaries on 31 March 2021. There are nil external borrowings in subsidiaries as on 31 March 2021.

v. Investment

The Company invests surplus funds in mutual fund schemes. These mutual funds are regulated by Securities and Exchange Board of India (SEBI).

b. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has a view of maintaining liquidity and to take minimum possible risk while making investments. In order to maintain liquidity, the Company invests its excess funds in short term liquid assets like liquid mutual funds. The Company monitors its cash and bank balances periodically in view of its short term obligations associated with its financial liabilities.

The liquidity position at each reporting date is given below:

c. Market risk

Market risk is a risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

i. Foreign currency risk

Significant portion of the Company's revenues are in foreign currencies, while a significant portion of the costs are in Indian rupee i.e. functional currency of the Company. The foreign currencies to which the Company is majorly exposed to are US Dollars, Euros and Pound Sterling.

The Company evaluates net exchange rate exposure based on current revenue projections and expected volatility in the market and covers its exposure up to 75% on net basis. For this purpose the Company uses foreign currency derivative instruments such as forward covers to mitigate the risk. The counterparty to these derivative instruments is a bank. The Company has designated certain derivative instruments as cash flow hedge to mitigate the foreign exchange exposure of highly probable forecasted cash flows.

Particulars	US Dollars	Euros	Pound Sterling	Other currencies	Total
Cash and cash equivalents	311.94	87.39	18.73	291.09	709.15
Trade receivables	1,809.17	650.01	82.33	223.97	2,765.48
Other financial assets (including loan, unbilled revenue)	117.81	119.88	46.93	82.12	366.74
Trade payables	(6.35)	(4.13)	-	(7.01)	(17.49)
Other financial liabilities	-	-	-	(66.49)	(66.49)
Net assets/(liabilities)	2,232.57	853.15	147.99	523.68	3,757.39

For the year ended 31 March 2021, every 1% appreciation / depreciation of the exchange rate between respective foreign currencies and the Indian rupee would impact the operating margins by approximately 0.02% / (0.02%).

For the year ended 31 March 2020, every 1% appreciation / depreciation of the exchange rate between respective foreign currencies and the Indian rupee would impact the operating margins by approximately 1.39% / (1.39)%.

ii. Derivative assets and liabilities designated as cash flow hedges

In accordance with its risk management policy and business plan the Company has hedged its cash flows. The Company enters into derivative contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than in Indian rupees. The counter party to the Company's foreign currency contracts is a bank. These contracts are entered into to hedge the foreign currency risks of firm commitments (sales orders) and highly probable forecast transactions. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

The following are the outstanding GBP/USD/EUR: INR Currency Exchange Contracts entered into by the Company which has been designated as Cash Flow Hedges:

Particulars	31 March 2021		31 March 2020	
	Foreign Currency	₹	Foreign Currency	₹
EUR	7.00	640.50	5.25	436.01
USD	83.00	6,349.50	89.30	6,731.96
GBP	1.00	101.10	1.10	102.38

The forward contracts entered have maturity between 30 days to 11 months from the Balance Sheet date.

Contract assets (including unbilled revenue)	291.93	597.42
Unearned Revenue	400.12	568.86

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

(Amount in ₹ million)

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related services are performed. Revenue for fixed price maintenance and support services contracts is recognized on a straight line basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables are non-interest bearing and generally have a credit period of 60 days.

Changes in contract assets	31 March 2021	31 March 2020
Balance at the beginning of the year	597.42	615.17
Revenue recognized net of invoices raised during the year	(305.49)	-17.75
Balance at the end of the year	291.93	597.42

The unearned revenue primarily relate to the advance consideration received on contracts entered with customers for which no work is performed at the reporting date, and therefore revenue will be recognized when rights become unconditional.

Changes in unearned revenue	31 March 2021	31 March 2020
Balance at the beginning of the year	568.86	254.98
Revenue recognized net of unearned revenue for the year	168.74	(313.88)
Balance at the end of the year	400.12	568.86

Revenue recognized during the current year from:	31 March 2021	31 March 2020
Amounts included in contract liability at the beginning of the period	568.86	254.98

c. Performance Obligation

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially) satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in Ind AS 115. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc).

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

(Amount in ₹ million)

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) are as follows:

(Amount in ₹ million)

40 The Company has evaluated the impact of COVID 19 on the standalone financial statements as on 31 March 2021 as below:

1 Revenue from operations

The Company has evaluated the impact of COVID-19 resulting from (a) the possibility of constraints to render services which may require revision of estimations of costs to complete the contract because of additional efforts; (b) onerous obligations; (c) penalties relating to breaches of service level agreements; (d) volume discounts, and (e) termination/deferment of projects to ensure that revenue is recognised after considering all these impacts to the extent known and available currently. Based on the evaluation, the Group has concluded that the impact of COVID – 19 is not material for the year. The Company would continue to assess the impact of COVID-19 as we go along due to uncertainties associated with its nature and duration.

2 Right of use assets (Lease Arrangements)

The Company does not foresee any large-scale contraction in demand which could result in significant down-sizing of its employee base rendering the physical infrastructure redundant. The leases that the Company has entered with lessors towards properties used as delivery centers / sales offices are long term in nature and the Company does not expect any change due to global pandemic in the terms of lease arrangements including renewal options assessed in this regard while assessing the Right to use assets.

3 Financial Instruments

a. Cashflow Hedge

The Company basis their assessment believes that the probability of the occurrence of their highly probable forecasted transactions is not significantly impacted by the COVID – 19 pandemic. The Company has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Company continues to believe that there is no impact on effectiveness of its hedges.

b. Trade Receivables and Contract assets including Unbilled revenue

Trade receivables and contract assets including unbilled revenue, have been valued after making allowance for expected credit losses based on factors like ageing, likelihood of increased credit risk and expected realizability, nature of customer verticals, geographies, considering impact of COVID – 19 on customers and related customer verticals and geographies. In addition the Company has also considered credit reports and other credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic. The Company believes that the carrying amount of allowance for expected credit loss with respect to trade receivables, unbilled revenue and other financial assets is adequate.

c. Fair Valuation

Assets measured using level 1 inputs primarily include investment securities in liquid debt funds and the fair value being marked to an active market which factors the impact of COVID-19, we do not expect material volatility in these financial assets.

Assets and liabilities measured using level 2 inputs which include derivative financial instruments and financial assets measured at amortised cost which include cash and cash equivalents and deposits with banks and corporations, have been assessed basis counterparty credit risk.

Notes forming part of the standalone financial statements for the year ended on 31 March 2021

(Amount in ₹ million)

4 Deferred Tax asset

The Company has considered the impact of COVID-19 in preparing revenue and profit projections. On the basis of these projections, the Company believes that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilized.

5 Going Concern

The Company has prepared cashflow projections for the foreseeable future after considering the impacts of COVID-19. Further, the Company carries cash and cash equivalents of ₹ 1,560.87 million other bank balances of ₹ 5,769.05 million and has unutilized working capital limits of ₹ 2,787.00 million as at March 31, 2021. Accordingly, the management has assessed that the going concern assumption is appropriate for the Company.

41 Other disclosures and explanatory notes

- 1 The Company was required to spend ₹ 43.37 million towards Corporate Social Responsibility. During the year the Company has spent and paid ₹ 52.79 million (Previous year ₹ 41.75 million) towards Corporate Social Responsibility, in various activities as specified in Schedule VII of the Companies Act 2013, read with the Rules thereunder, as direct spend for purposes other than construction/acquisition of any asset.

Particulars	31 March 2021	31 March 2020
A. Gross amount required to be spent by the company during the year	43.37	41.14
B. Amount spent during the year		
(i) Construction/acquisition of any asset	NIL	NIL
(ii) On purpose other than (i) above	52.79	41.75

- 2 The Company has established a system of maintenance of information and documents as required by the transfer pricing legislation under Section 92-92F of the Income Tax Act 1961. The Company is in the process of updating the documentation for the Financial Year 2020-2021.

The management is of the opinion that international transactions are at arm's length and accordingly the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.

Independent Auditors' Report

To the Members of
Birlasoft Limited

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Birlasoft Limited (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2021, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2021, of its consolidated profit and other comprehensive

income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matter

The key audit matter	How the matter was addressed in our audit
<p>Revenue recognition in respect of fixed price contracts (See note 1.3 and 30 to the consolidated financial statements)</p> <p>The Group engages into fixed-price contracts with customers. In respect of fixed-price contracts other than maintenance and support service contracts, revenue is recognized using percentage of completion computed as per the input method. This is based on the Group's estimate of contract costs and efforts for completion of contract. Provision for estimated losses on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.</p>	<p>Our audit procedures in this area included the following:</p> <ul style="list-style-type: none">Obtaining an understanding of the systems, processes and controls implemented by the Group and evaluating the design and implementation of internal controls for measuring and recording revenue and the associated contract assets and unearned revenue.Testing the design and operating effectiveness of key IT controls over IT environment in which the business systems operate. This includes access controls, program change controls, program development controls and IT operation controls;

The key audit matter	How the matter was addressed in our audit
<p>Contract estimates are formed by the Group considering the following:</p> <ul style="list-style-type: none"> • Application of the revenue recognition accounting standard is complex. It involves a number of key judgements and estimates. One of the key estimates is total cost-to-completion of these contracts. It is used to determine the percentage of completion of the relevant performance obligation. • There is judgement involved in identification of distinct performance obligations and determination of transaction price for such performance obligations. • COVID 19 pandemic may impact the total revenue and costs to complete the contracts. In some cases, Group's contract interests are adequately protected. In other cases, there may be possible significant risks though the Group is cautious of them. • These contracts may involve onerous obligations on the Group requiring critical estimates to be made. • Contracts are subject to modification to account for changes in contract specification and requirements. • At year-end a significant amount of work in progress (Contract assets and liabilities) related to these contracts is recognised on the balance sheet representing the work completed, costs incurred and accrued. <p>Considering the significant estimate involved in recognition of revenue based on percentage of completion method in respect of fixed price contracts, we have considered this as key audit matter.</p>	<ul style="list-style-type: none"> • For selected samples of contracts, we inspected the terms of the contract and assessed the revenue recognized in accordance with Ind AS by: <ul style="list-style-type: none"> ➤ Evaluating the identification of performance obligations. ➤ Agreeing the transaction price to the underlying contracts. ➤ Inspecting the approval of the estimates of cost to complete. ➤ Evaluating the impact of COVID 19 pandemic on the total revenue and the cost to complete the contract. ➤ Challenging the Group's estimate of contract cost through a retrospective comparison of costs incurred with budgeted costs. Identifying significant variations and testing variations resulting into re-estimating the remaining costs to complete the contract. ➤ Assessing the work in progress (contract assets) on the balance sheet date by inspecting the underlying invoices and signed agreements on sample basis to identify possible delays in achieving milestones. Those may require change in estimated costs to complete the remaining performance obligations. ➤ Comparing, on a sample basis, revenue transactions recorded during the year with the underlying contracts, actual costs incurred, and invoices raised on customers. Also, checked the related revenue, contract costs, provision for onerous contracts, contract assets and unearned revenue had been recognised in accordance with the requirements of Ind AS 115. ➤ Performing analytical procedures on incurred and estimated contract costs or efforts. It includes assessment of contracts with unusual or negative margins, little or no movement in efforts from previous periods. We also performed analytical procedures on contract assets with little or no movement in invoicing from previous periods.

The key audit matter	How the matter was addressed in our audit
<p>Impairment of Goodwill (Refer note 1.8(b)(ii) and 39 to the consolidated financial statements)</p> <p>The Group is required to test goodwill for impairment every year or more frequently when there is an indication of impairment. The impairment charge is determined by comparing the carrying value of goodwill with its recoverable amount. We consider the impairment testing of goodwill by the Group to involve significant estimates and judgment. There is inherent uncertainty involved in forecasting and discounting future cashflows, including the possible effects of COVID-19 pandemic, which are the basis of the assessment of recoverability. Considering the significant judgement involved, impairment of goodwill is identified as a key audit matter.</p>	<p>Our audit procedures in this area included the following:</p> <ul style="list-style-type: none"> • Assessing Group’s evaluation of identification of cash generating units and allocation of goodwill to the respective Vertical Business Units (VBU); • Evaluating the Group’s assessment of recoverable amount and impairment assessment for goodwill; • Testing the arithmetical accuracy of the cash flow projections and impairment assessment made by the Group; • We challenged the Group’s assumptions used in impairment analysis, such as projected EBITDA & revenue growth rate, terminal growth rates and discount rates, including consideration of impact of COVID 19 by: <ul style="list-style-type: none"> ➤ comparing the same to externally derived data and industry comparators, where available; ➤ assessing the sensitivity of assumptions on the impairment assessment; ➤ comparing the forecasts against the historical performance. <p>This was based on our knowledge of the Group and the markets in which the Vertical Business Units operate. We took assistance of our valuations team for above testing;</p> <ul style="list-style-type: none"> • Performing sensitivity analysis of the key assumptions, such as future revenue growth rates and the discount rate used in determining the recoverable value; • Evaluating the adequacy of the disclosures of key assumptions and judgements.

Information Other than the Consolidated Financial Statements and Auditors’ Report Thereon

The Holding Company’s management and Board of Directors are responsible for the other information. The other information comprises the information included in the holding Company’s annual report, but does not include the financial statements and our auditors’ report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained,

whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the audit of financial information of such entities included in the consolidated financial statements of which we are the independent auditors.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of

most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The financial information of two subsidiaries, whose financial information reflect total assets of ₹ 842.4 million as at 31 March 2021, total revenues of ₹ 975.93 million and net cash flows amounting to ₹ 215.21 million for the year ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditors. These unaudited financial information have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

Annexure A to the Independent Auditors' report on the consolidated financial statements of Birlasoft Limited for the year ended 31 March 2021

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Referred to in paragraph A(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date.

Opinion

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2021, we have audited the internal financial controls with reference to consolidated financial statements of Birlasoft Limited (hereinafter referred to as "the Holding Company").

In our opinion, the Holding Company, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial

statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements

Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records

that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements

due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

Group Overview

Birlasoft Limited (Erstwhile KPIT Technologies Limited) ("the Company") is a public limited company incorporated under the Companies Act, 1956 and its shares are listed on the National Stock Exchange and Bombay Stock Exchange. The Company's registered office is in Pune and it has subsidiaries across multiple geographies. Most of the revenue is generated from the export of services.

The Group provides Software Development, global IT consulting to its clients, predominantly in Banking, Financial Services and Insurance, Life Sciences and Services, Energy Resources and Utilities and Manufacturing (which mainly includes Discrete Manufacturing, Hi-Tech & Media, Auto and Consumer packaged goods) verticals.

These Consolidated Financial Statements were authorised for issue by the Group's Board of Directors on 21 May 2021.

1. Significant accounting policies

1.1 Basis of consolidation

The Consolidated Financial Statements relate to Birlasoft Limited (Erstwhile KPIT Technologies Limited) ("the Company"), its subsidiary companies which constitutes "the Group".

a. Basis of preparation of consolidated financial statements

- i. The financial statements of the subsidiary companies used in the consolidation, have been aligned with the parent group and are drawn up to the same reporting date as of the group, i.e. year ended 31 March 2021.
- ii. The consolidated financial statements are prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time. The standalone financial statements are presented in millions of Indian rupees rounded off to two decimal places, except per share information, unless otherwise stated.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

These financial statements have been prepared on the historical cost basis, except business combination (other than business combination under common control), accounting for share based payments, defined benefit obligations and certain financial instruments, which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Use of estimates

The preparation of consolidated financial statements requires the management of the group to make judgments, estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expenditure during the year. Actual results could differ from estimates. Differences between actual results and estimates are recognized in the year in which the results are known / materialized.

Critical accounting estimates

i. Revenue Recognition

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and satisfaction of performance obligation. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

ii. Income tax & Deferred tax

The Group's two major tax jurisdictions are India and the U.S., though the Group also files tax returns in other overseas jurisdictions. Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Group exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

iii. Business combinations

Business combinations are accounted for using Ind-AS 103, Business Combinations. Ind-AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets.

iv. Impairment of goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefiting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

v. Measurement of defined benefit obligation, share based payments and key actuarial assumptions

Information about assumptions and estimation uncertainties in respect of defined benefit obligations and share based payments is included in note 33 and 39 respectively.

vi. Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

vii. Estimation uncertainties relating to the COVID-19 pandemic

The Group has considered the possible effects that may result from COVID 19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Group, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Group based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established. Considering the fact that the global situation is evolving day by day with new facts and numbers, the impact of the pandemic on the Group's financial statements may differ from that estimated as at the date of approval of these consolidated financial statements and the Group will continue to closely monitor any material changes to future economic conditions.

b. Principles of consolidation:

The Consolidated financial statements have been prepared on the following basis:

- i. The financial statements of all entities are drawn up to same reporting date as that of the parent group i.e. 31 March 2021 for the purpose of preparation of consolidated financial statements.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

- ii. The Company consolidates all the entities over which it has control. The Company establishes control when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which the control ceases.
- iii. The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together the book value of like items of assets, liabilities, income and expenses. The intra-group balances and intra-group transactions and unrealized profits or losses have been fully eliminated. These financial statements are prepared by applying uniform accounting policies in use at the Company.
- iv. The excess of cost of acquisition to the Group over the share of net fair value of identifiable assets, liabilities and contingent liabilities of the subsidiary companies, at the acquisition dates, is recognized as 'Goodwill on consolidation' being an asset in the consolidated financial statements. Alternatively, where the share of net fair value of identifiable assets, liabilities and contingent liabilities of the subsidiary companies, on the acquisition date, is in excess of cost of acquisition, it is immediately recognized as gain in the Statement of Profit and Loss in the consolidated financial statements.
- v. Non-controlling interest is initially measured either at fair value or at the proportionate share of the subsidiary companies' identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequently, the carrying amount of non-controlling interest is adjusted for the changes in the equity of the subsidiary companies.
- vi. The investments in joint venture are accounted for using equity method. The investment is initially recognized at cost and the carrying amount is increased or decreased to recognize the Company's share of the profit or loss of the investee after the date of acquisition. The Company's share of the investee's profit or loss is recognized in the Statement of Profit and Loss.

c. Business Combinations

- i. Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.
- ii. Transaction costs that the Group incurs in connection with a business combination such as finders' fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.
- iii. When there is change in the Group's interest in subsidiary companies, that does not result in loss of control, it is accounted for as equity transaction. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Group.
- iv. When the Group loses control on a subsidiary, the assets and liabilities of that subsidiary and non-controlling interest, if any, are derecognized from the consolidated financial statements. The investment retained, if any, is recognized at fair value on that date. The gain or loss associated with the loss of control, attributable to the former controlling interest, is recognized in the Statement of Profit and Loss.
- v. Impact of any changes in the purchase consideration, after the measurement period, is recorded in the Statement of Profit and Loss.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

d. Goodwill

Goodwill represents the cost of business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognized immediately in net profit in the Statement of Profit and Loss. Goodwill is measured at cost less accumulated impairment losses.

1.2 Current–non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. it is expected to be realized in, or is intended for sale or consumption in, the Group's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is expected to be realized within 12 months after the reporting date; or
- d. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. it is expected to be settled in the Group's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is due to be settled within 12 months after the reporting date; or
- d. the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. The operating cycle of the Group is less than twelve months.

1.3 Revenue recognition

The Group earns revenue primarily from providing IT services, consulting and business solutions. The Group offers a consulting-led, integrated portfolio of IT.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract costs incurred/ efforts expended determining the degree of completion of the performance obligation.
- Revenue from third party software is recognised upfront at the point in time when software is delivered to the customer, such revenue is recognised on net basis when the Group is acting as an agent."

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Expenses reimbursed by customers during the project execution are recorded as reduction to associated costs. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The Company recognizes contract fulfilment cost as an asset if those costs specifically relate to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered. The asset so recognized is amortized on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

Unearned revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with Ind AS 37, the Group recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Group reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Group disaggregates revenue from contracts with customers by geography and business horizontal.

Use of significant judgements in revenue recognition

- i. The Group's contracts with customers could include promises to transfer multiple products and services to a customer. The Group assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- ii. Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

- iii. The Group uses judgement to determine an appropriate standalone selling price for a performance obligation. The Group allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Group uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.
- iv. The Group exercises judgment in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Group considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- v. Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of the completion of the performance obligation.
- vi. Contract Fulfillment costs are generally expensed as incurred except for costs which meet the criteria for capitalization as per Ind AS 115. Such costs are amortised over the contractual period. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

1.4 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of cost of that asset. All other borrowing costs are charged to the Statement of Profit and Loss.

The exchange differences arising from foreign currency borrowings, to the extent that they are regarded as an adjustment to interest costs, are regrouped from foreign exchange differences to finance costs.

1.5 Property, plant and equipment

Property, plant and equipment are carried at cost of acquisition or construction less accumulated depreciation and/or accumulated impairment loss, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price. If significant parts of an item of property, plant and equipment have different useful lives, than they are accounted for as separate items (major components) of property, plant and equipment. The cost and related accumulated depreciation are eliminated from the consolidated financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets under construction are disclosed as capital work-in-progress.

1.6 Intangible assets

Intangible assets are stated at cost less accumulated amortization and accumulated impairment, if any.

In case of internally generated intangibles, costs incurred during the research phase of a project are expensed when incurred. Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalized includes the cost of materials, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use, and directly attributable borrowing costs (in the same manner as in the case of property, plant and equipment). Other development expenditure is recognized in the Statement of Profit and Loss as incurred.

Intangible assets are derecognized on disposal or when no future economic benefits are expected from its use and subsequent disposal or when the economic benefits are not measurable.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

1.7 Depreciation and amortization

Depreciation on property, plant and equipment is provided on the straight-line method over the useful lives of the assets. The estimated useful lives are as follows:

Type of asset	Useful life (No. of years)
Buildings ⁽¹⁾	25
Plant and equipment ⁽¹⁾	3-4
Office Equipment ⁽¹⁾	5-10
Owned Vehicle ⁽¹⁾	5
Furniture and fixtures ⁽¹⁾	7-10

⁽¹⁾ For these class of assets, based on internal assessment, the useful lives as given above are believed to best represent the period over which the assets are expected to be used. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Right-of-use assets taken on lease are amortized over shorter of useful lives and the period of lease.

Perpetual software licenses are amortized over 4 years. However, time-based software licenses are amortized over the license period.

Capitalized development costs are amortized over a period of 3 to 4 years.

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Improvements to leased premises are amortized over the remaining non-cancellable period of the lease.

Depreciation and amortisation methods, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

1.8 Impairment

a. Financial assets

The Group assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recorded as an impairment gain or loss in Statement of Profit or Loss.

b. Non- financial assets

i. Property, plant and equipment and intangible assets

The management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. Impairment loss is recognized when the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's fair value less cost of disposal and value in use. For the purpose of impairment testing, assets are grouped together into the smallest group of assets (cash generating

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

unit or CGU) that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Intangible assets which are not yet available for use are tested for impairment annually. Other assets (tangible and intangible) are reviewed at each reporting date to determine if there is any indication of impairment. For assets in respect of which any such indication exists and for intangible assets mandatorily tested annually for impairment, the asset's recoverable amount is estimated.

If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists or has decreased, the assets or CGU's recoverable amount is estimated. For assets other than goodwill, the impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. Such a reversal is recognized in the Statement of Profit and Loss.

ii. Goodwill

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit.

1.9 Leases

The Group has primarily leased rental offices premises , guest house, parking space, laptops etc across multiple locations.

At the inception of contract the Group assesses whether the contract is, or contains a lease. A contract is, or contains, a lease if the contract involves use of an identified asset and conveys the right to control the use of asset for period of time in exchange for consideration i.e. customer has right to:

- obtain substantially all the economic benefits from using the asset and
- direct the use of asset

Group as a lessee

a. Recognition and measurement

The Group recognises the right of use asset and lease liability at the commencement date of lease. The right of use asset is initially measured at cost, which comprises of present value of future lease rent payout adjusted for any payment made at or before commencement date any initial direct cost incurred and an estimate of cost to dismantle or remove an underlying asset or to restore an asset less any lease incentive received.

The lease liability is initially measured at present value of lease payments that is not paid at commencement date discounted at implicit rate mentioned in lease or incremental borrowing rate. The Group generally uses incremental borrowing rate as discount rate. The right-of-use assets is depreciated using the straight-line method from the commencement date over the useful life of right-of-use asset. The lease liability is subsequently measured at amortised cost using effective interest method. It is remeasured to reflect any lease modifications or reassessments.

b. Extension and termination of lease

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

c. Short term leases and low value assets

The Group has elected not to recognise right of use of assets and lease liabilities for short-term leases that have lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight- line basis over lease term.

d. Impairment testing for right of use of assets

Right of use of assets are tested for impairment whenever there is any indication that their carrying amount is not recoverable. Impairment loss, if any, is recognised in statement of profit and loss.

1.10 Earnings per share

Basic earnings per share are computed by dividing the net profit for the year after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit for the year after tax by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all dilutive potential equity shares except where the results are anti-dilutive.

1.11 Foreign currency transactions

a. Functional and presentation currency

Indian Rupee is the Group's functional as well as presentation currency. For each subsidiary the Group determines the functional currency and items included in the Consolidated Financial Statements of each entity are measured using that functional currency.

- b. Transactions in foreign currencies are translated to the respective functional currencies of the Group companies at the exchange rates prevailing on the date of the transaction. Monetary items denominated in foreign currencies are translated into the functional currency at the year-end rates. The exchange differences so determined and also the realized exchange differences are recognized in the Statement of Profit and Loss. Non-monetary items denominated in foreign currencies and measured at fair value are translated into the functional currency at the exchange rate prevalent at the date when the fair value was determined. Non-monetary items denominated in foreign currencies and measured at historical cost are translated into the functional currency at the exchange rate prevalent at the date of transaction.

c. Translation of foreign operations

For translating the financial statements of foreign branches and subsidiaries, their functional currencies are determined. The results and the financial position of the foreign branches and subsidiaries are translated into presentation currency so that the foreign operation could be included in the consolidated financial statements.

The assets and liabilities of the foreign operation with functional currencies other than the presentation currency are translated to the presentation currency using the closing exchange rate on the Balance Sheet date and the Statement of Profit and Loss using the average exchange rates for the month in which the transactions occur. The resulting exchange differences are accumulated in 'foreign currency translation reserve' in the Statement of Changes in Equity through Other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the foreign currency translation reserve which relates to that operation is reclassified from equity to the Statement of Profit and Loss (as a reclassification adjustment) when the gain or loss on disposal is recognized. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the Balance Sheet date.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

1.12 Employee benefits

i) Post-employment benefit plans

Defined benefit plan

The Group's gratuity scheme is a defined benefit plan. For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with independent actuarial valuations being carried out at each Balance Sheet date. Remeasurement of net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effects of asset ceiling (if any, excluding interest) are recognized in Other Comprehensive Income for the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods. Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss. Past service cost is recognized immediately to the extent that the benefits are already vested or amortized on a straight-line basis over the average period until the benefits become vested.

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets, if any. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Group makes specified monthly contributions towards employee provident fund to Government administered provident fund scheme which is a defined contribution plan. The Group's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

ii) Compensated absences

The employees of certain locations can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilized wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Group records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method. Remeasurement gains/losses are recognised in the Statement of Profit and Loss in the period in which they arise.

iii) Other employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized during the period when the employee renders the service. These benefits include compensated absences (which cannot be carried forward) such as paid annual leave, overseas social security contributions, bonus and performance incentives.

1.13 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates for the purposes of current and deferred tax have been determined on the basis of Company's evaluation of acceptability of its tax positions by the taxation authorities.

Minimum Alternate Tax

The Government of India, on September 20, 2019, vide Taxation Laws (Amendment) Act, 2019, allowed an option to the domestic companies to switch to a lower tax rate structure of 22% (25.17% including surcharge and cess) from the earlier 30% (34.944% including surcharge and cess) subject to condition that the Company will not avail any of the specified deductions / incentives under the Income Tax Act including credit for Minimum Alternate Tax ('MAT'). The Company has elected to switch to the new lower tax rate structure with effect from the financial year 2020-21. Consequently, the Company will not claim MAT credit for the financial year 2020-21 and all the MAT credit balances have been written off.

1.14 Provisions, Contingent liabilities and Contingent assets

The Group recognizes provisions only when it has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

No provision is recognized for –

- a. Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- b. Present obligations that arise from past events but are not recognized because-
 - 1) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - 2) A reliable estimate of the amount of obligation cannot be made.

Such obligations are disclosed as contingent liabilities. These are assessed continually and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for, except in the extremely rare circumstances where no reliable estimate can be made.

Contingent assets are not recognized in the consolidated financial statements since this may result in the recognition of income that may never be realized.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Group recognizes any impairment loss on the assets associated with that contract.

Warranty

The Group has an obligation by way of warranty to maintain the software during the period of warranty, as per the contractual requirements, for certain products/licenses. Costs associated with such sale are accrued at the time when related revenues are recorded and included in cost of service delivery. The Group estimates such cost based on historical experience and the estimates are reviewed periodically for material changes in the assumptions.

Decommissioning Liability

The Group uses various premises on lease to run its operation and records a provision for decommissioning costs to be incurred for the restoration of these premises at the end of the lease period. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The cash flows are discounted using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is expensed as incurred and recognised in the Statement of Profit and Loss as an interest expense. The estimated future costs of decommissioning and interest rate are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

1.15 Research and development:

Costs incurred during the research phase of a project are expensed when incurred. Costs incurred in the development phase are recognized as an intangible asset in accordance with policy defined in 1.6.

1.16 Employee stock option

In respect of stock options granted pursuant to the Group's Employee Stock Option Scheme, the Group recognizes employee compensation expense, using the grant date fair value in accordance with Ind-AS 102 - Share Based Payment, on straight line basis over the period over which the employees would become unconditionally entitled to apply for the shares.

1.17 Financial instruments

a. Initial recognition

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

b. Subsequent measurement

i) Non-derivative financial instruments

Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

However, in cases where the Group has made an irrevocable election for particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, the subsequent changes in fair value are recognized in other comprehensive income.

Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments

The Group holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The Group does not use derivative financial instruments for speculative purposes. The counter-party to the Group's foreign currency forward contracts is generally a bank.

Financial assets or financial liabilities, at fair value through profit or loss

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in the Statement of Profit and Loss, when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

Cash flow hedge

The use of hedging instruments is governed by the Group's policy approved by the Board of Directors, which provides written principles on the use of such financial derivatives consistent with the Group's risk management strategy.

The Group designates certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on firm commitments and highly probable forecast transactions.

Hedging instruments are initially measured at fair value and are re-measured at subsequent reporting dates. The effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecast transactions any cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve is retained until the forecast transaction occurs. When a hedged transaction occurs or is no longer expected to occur, the net cumulative gain or loss recognized in cash flow hedging reserve is transferred to the Statement of Profit and Loss.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

The amount recognised in Other comprehensive income is reclassified to profit or loss as a reclassification adjustment in the same period as the hedged cash flows affect profit or loss, and in the same line item in the Statement of Profit or Loss and Other comprehensive income.

iii) Treasury Shares

When any entity within the Group purchases the Group's ordinary shares, the consideration paid including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from share premium.

c. Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind-AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

d. Fair value of financial instruments

The Group uses discounted cash flow analysis method for the fair value of its financial instruments except for employee stock options (ESOP), where Black and Scholes options pricing model is used. The method of assessing fair value results in general approximation of value and such value may never actually be realized.

For all other financial instruments the carrying amount approximates fair value due to short maturity of those instruments.

All assets and liabilities for which fair value is measured are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a. Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- b. Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- c. Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's finance team determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations. The team comprises of the head of the treasury operation and chief finance officer.

External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided on the basis of nature of transaction and complexity involved. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

At each reporting date, the finance team analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Group's accounting policies. For this analysis, the team verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents. A change in fair value of assets and liabilities is also compared with relevant external sources to determine whether the change is reasonable.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.18 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Group's cash management.

1.19 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

1.20 Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

1.21 Recent accounting pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet:

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of consolidated financial statements.

The amendments are extensive and the Group will evaluate the same to give effect to them as required by law.

26.2 Fair value hierarchy

Financial assets and liabilities include cash and cash equivalents, other balances with banks, trade receivables, loans, unbilled revenue, other financial assets, trade payables and other financial liabilities, whose fair values approximate their carrying amounts largely due to the short term nature of such assets and liabilities. Fair value of lease liabilities approximate its carrying amounts, as lease liabilities are valued using the discounted cash flow method.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This level of hierarchy includes Company's over the counter (OTC) derivative contracts.

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of financial assets and liabilities as on 31 March 2021:

Particulars	As at 31 March 2021	Fair value measurement as at		
		Level 1	Level 2	Level 3
Investment in equity instruments of other entities	0.00*	-	-	0.00*
Investments in Mutual funds (quoted)	553.17	553.17	-	-
Forward contract designated as cash flow hedge	170.23	-	170.23	-
Lease liabilities	1,281.10	-	1,281.10	-

* Since denominated in ₹ million.

The following table presents fair value hierarchy of financial assets and liabilities as on 31 March 2020:

Particulars	As at 31 March 2020	Fair value measurement as at		
		Level 1	Level 2	Level 3
Investment in equity instruments of other entities	0.00*	-	-	0.00*
Investments in Mutual funds (quoted)	330.02	330.02	-	-
Forward contract designated as cash flow hedge	294.35	-	294.35	-
Lease liabilities	1,450.27	-	1,450.27	-

Valuation technique and significant unobservable inputs:

Level 2:

- (i) Derivative financial assets are valued based on inputs that are directly or indirectly observable in the market. Derivatives contract with banks are fair valued using fair values obtained from banks and are classified in Level 2.
- (ii) Lease liabilities are valued using the discounted cash flow method, the expected net cash flows are discounted using the cost of borrowing that are directly or indirectly observable in the market.

Level 3:

Valuation techniques

For valuation of investment in equity instruments, discounted cash flow method is used to capture the present value of expected future economic benefits. Under the discounted cash flow method, the net cash flows expected to be generated are discounted using the weighted average cost of capital.

Significant increase in discount rates and spreads above risk free rate, in isolation would result in lower fair values. A significant increase in volatility in revenue growth rates will result in higher fair value.

26.3 Financial risk management

The board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the Risk Management Committees, which is responsible for developing and monitoring the Group's risk management policies. The Group has exposure to the following risks arising from financial instruments. Further, refer note 40 for evaluation of impact of COVID 19.

a. Credit risk

Credit risk is the risk of financial losses to the Group if a customer or counterparty to financial instruments fails to discharge its contractual obligations and arises primarily from the Group's receivables from customers amounting to ₹ 5,182.31 million and ₹ 7,401.90 million and unbilled revenue amounting to ₹ 1,135.40 million and ₹ 737.74 million as on 31 March 2021 and 31 March 2020 respectively. To manage this, the Group periodically assesses the key accounts receivable balances. Credit risk on derivative instruments is generally low as the company enters into derivative contracts with reputed banks. As per Ind-AS 109 : Financial Instruments, the Group uses expected credit loss model to assess the impairment loss or gain.

i. Trade receivables

The management has established accounts receivable policy under which customer accounts are regularly monitored. The Group has a dedicated sales team at each geography which is responsible for collecting dues from the customer within stipulated period. The management reviews status of critical accounts on a regular basis. For the details of the Group's exposure to credit risk by geographic region and revenue generated from top customer, refer note 27B and 27C.

ii. Impairment

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

(Amount in ₹ million)

iii. Cash and bank balances

The Group held cash and bank balances of ₹ 10,754.65 million and ₹ 6,385.79 million as on 31 March 2021 and 31 March 2020 respectively. The cash and bank balances are held with banks which have high credit ratings assigned by international credit rating agencies.

iv. Guarantees

The Group's policy is to provide financial guarantees only on behalf of subsidiaries. The Group has issued the guarantees to certain banks in respect of credit facilities granted to its subsidiaries. There are nil external borrowings in subsidiaries as on 31 March 2021.

v. Investment

The Company invests surplus funds in mutual fund schemes. These mutual fund are regulated by Securities and Exchange Board of India (SEBI).

b. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group has a view of maintaining liquidity and to take minimum possible risk while making investments. In order to maintain liquidity, the Group invests its excess funds in short term liquid assets like liquid mutual funds. The Group monitors its cash and bank balances periodically in view of its short term obligations associated with its financial liabilities.

The liquidity position at each reporting date is given below:

Other financial liabilities	1,931.51	-	-	-	-	1,931.51

c. Market risk

Market risk is a risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

i. Foreign currency risk

Significant portion of the Group's revenues are in foreign currencies, while a significant portion of the costs are in Indian rupee i.e. functional currency of the Group. The foreign currencies to which the Group is majorly exposed to are US Dollars, Euros and Pound Sterling.

The Group evaluates net exchange rate exposure based on current revenue projections and expected volatility in the market and covers its exposure up to 75% on net basis. For this purpose the Group uses foreign currency derivative instruments such as forward covers to mitigate the risk. The counterparty to these derivative instruments is a bank. The Group has designated certain derivative instruments as cash flow hedge to mitigate the foreign exchange exposure of highly probable forecasted cash flows.

Exposure to Currency Risk

The following is the Group's exposure to currency risk from financial instruments as of 31 March 2021 (Amount in ₹ million):

Particulars	US Dollars	Euros	Pound Sterling	Other currencies	Total

Net assets/(liabilities)	3,472.00	1,419.93	176.96	979.19	6,048.08

The above figures exclude amounts in local currency of foreign subsidiaries.

For the year ended 31 March 2021, every 1% appreciation / depreciation of the exchange rate between respective foreign currencies and the Indian rupee would impact the operating margins by approximately 0.23% / (0.23)%.

For the year ended 31 March 2020, every 1% appreciation / depreciation of the exchange rate between respective foreign currencies and the Indian rupee would impact the operating margins by approximately 1.54% / (1.54)%.

ii. Derivative assets and liabilities designated as cash flow hedges

In accordance with its risk management policy and business plan the Group has hedged its cash flows. The Group enters into derivative contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than in Indian rupees. The counter party to the Group's foreign currency contracts is a bank. These contracts are entered into to hedge the foreign currency risks of firm commitments (sales orders) and highly probable forecast transactions. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

The following are the outstanding GBP/USD/EUR: INR Currency Exchange Contracts entered into by the Group which has been designated as Cash Flow Hedges:

27 Segment Information

Birlasoft Limited provides software development and IT consulting to its customers predominantly in Banking, Financial Services and Insurance, Life Sciences and Services, Energy Resources and Utilities and Manufacturing (which mainly includes Discrete Manufacturing, Hi-Tech & Media, Auto and Consumer packaged goods). The customers in these verticals are located at US/ Europe/ APAC region. To enable the Group to serve their specific needs, the Group has set up legal entities in the respective geographies. The business is structured in such a way that the predominantly customer front ending and bidding process is carried out by these legal entities.

Management reviews the group's revenue by geography, VBU and HBU. Until FY 2019-20, as far as business performance was concerned, the Management reviewed the same by geography. Effective from year 2020-21, the Group has reconfigured its reporting structure in a way which allows discrete financial information to be available by VBUs and which shall be used by the Management for its business performance reviews going forward. The Management also notes that this is a generally accepted performance measure within the IT industry and will help them align themselves with the industry in general, enhancing comparability of the Group's performance. Since all the revenue earned and the cost incurred is accounted and allocated to respective verticals, bottom line performance is reviewed with Vertical as primary indicator being dominant source of risk and return.

A) Vertical segments

Segment information is based on customers belonging to specific Vertical.

Revenue, Income and expenses directly attributable to segments are reported under each reportable segment. All other Income and expenses which are not attributable or allocable to segments have been disclosed as unallocable expenses.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

(Amount in ₹ million)

Assets and liabilities used in the Group's business are not identified to any of the reportable segments, as these are used interchangeably between segments. The management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

30 Disclosures as per Ind AS 115 - Revenue from Contract with Customers

a. Disaggregation of revenue from contracts with customers

For disaggregation of the Group's revenue from contracts with customers, refer note 27 - Segment Information.

b. Trade receivables and Contract balances:

Particulars	31 March 2021	31 March 2020
Trade Receivables	5,182.31	7,401.90
Contract asset (including unbilled revenue)	3,595.40	1,770.84
Unearned Revenue	629.77	720.47

The Group classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related services are performed. Revenue for fixed price maintenance and support services contracts is recognized on a straight line basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

c. Performance Obligation

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially) satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the Group has applied the practical expedient in Ind AS 115. Accordingly, the Group has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc).

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 March are, as follows:

Within one year	2,925.94	3,410.59
More than one year	12,157.58	14,793.84

- d. The Group recognizes contract fulfilment cost as an asset if those costs specifically relate to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered. The asset so recognized is amortized on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

The Government of India, on September 20, 2019, vide Taxation Laws (Amendment) Act, 2019, allowed an option to the domestic companies to switch to a lower tax rate structure of 22% (25.17% including surcharge and cess) from the earlier 30% (34.944% including surcharge and cess) subject to condition that the Company will not avail any of the specified deductions / incentives under the Income Tax Act. The Company has elected to switch to the new lower tax rate structure with effect from the financial year 2020-21. The effect of this change in accounting estimate has been recognised in tax expense for the Year ended March 31, 2021, resulting in recognition of Deferred tax expense of ₹ 229 Million on account of MAT credit balance written off and re-measurement of deferred tax asset/ liabilities. The effect of this change has also resulted in decrease in current tax expense of ₹ 292 Million which has been recognized during the Year ended March 31, 2021.

39 Goodwill

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The financial projections basis which the future cash flows have been estimated consider the increase in economic uncertainties due to COVID-19, reassessment of the discount rates, revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis of the carrying amount of each asset in the unit.

Following is the summary of changes in carrying amount of goodwill:

Carrying Values	31 March 2021	31 March 2020
Opening balance	4,541.47	4,219.15
On account of business combinations during the year	-	-

Goodwill has been allocated to the operating segments of the Group as CGUs. The recoverable amount was computed based on estimated value-in-use. The carrying amount was computed by allocating the net assets to operating segments for the purpose of impairment testing.

The estimated value-in-use is based on the future cash flows using a 4% annual growth rate for periods subsequent to the forecast period of 5 years and discount rate of 14.5%. An analysis of the sensitivity of the computation to a change in key parameters (operating margin, discount rates and long term average growth rate), based on reasonable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021 (Amount in ₹ million)

40 The Group has evaluated the impact of COVID 19 on the consolidated financial statements as on 31 March 2021 as below:

1 Revenue from operations

The group has evaluated the impact of COVID-19 resulting from (a) the possibility of constraints to render services which may require revision of estimations of costs to complete the contract because of additional efforts; (b) onerous obligations; (c) penalties relating to breaches of service level agreements; (d) volume discounts, and (e) termination/deferment of projects to ensure that revenue is recognised after considering all these impacts to the extent known and available currently. Based on the evaluation, the Group has concluded that the impact of COVID – 19 is not material for the year. The Group would continue to assess the impact of COVID-19 as we go along due to uncertainties associated with its nature and duration.

2 Goodwill

The Group tests goodwill for impairment annually, or more frequently when there is an indication for impairment. The Group has performed its annual goodwill impairment testing considering the likely impact of COVID-19 on future cash flows, discount rates, and growth rates including terminal growth rate, along with subjecting these variables to sensitivity analysis considering impacted industry verticals and geographies. Based on the impairment assessment performed, the Group has concluded that the recoverable amount of goodwill is higher than the carrying value of goodwill and accordingly, no impairment is required. Refer note 39.

3 Right-of-use assets (Lease arrangements)

The Group does not foresee any large-scale contraction in demand which could result in significant down-sizing of its employee base rendering the physical infrastructure redundant. The leases that the Group has entered with lessors towards properties used as delivery centers / sales offices are long term in nature and the Group does not expect any change due to global pandemic in the terms of lease arrangements including renewal options assessed in this regard while assessing the Right-of-use assets.

4 Financial Instruments

a. Cashflow Hedge

The Group basis their assessment believes that the probability of the occurrence of their highly probable forecasted transactions is not significantly impacted by the COVID – 19 pandemic. The Group has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Group continues to believe that there is no impact on effectiveness of its hedges.

b. Trade Receivables and Contract assets including Unbilled revenue

Trade receivables and contract assets including unbilled revenue, have been valued after making allowance for expected credit losses based on factors like ageing, likelihood of increased credit risk and expected realizability, nature of customer verticals, geographies, considering impact of COVID – 19 on customers and related customer verticals and geographies. In addition the Group has also considered credit reports and other credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic. The Group believes that the carrying amount of allowance for expected credit loss with respect to trade receivables, unbilled revenue and other financial assets is adequate.

c. Fair Valuation

Assets measured using level 1 inputs primarily include investment securities in liquid debt funds and the fair value being marked to an active market which factors the impact of COVID-19, we do not expect material volatility in these financial assets.

Notes forming part of the Consolidated financial statements for the year ended on 31 March 2021

(Amount in ₹ million)

Assets and liabilities measured using level 2 inputs which include derivative financial instruments and financial assets measured at amortised cost which include cash and cash equivalents and deposits with banks and corporations, have been assessed basis counterparty credit risk.

5 Deferred Tax asset

The Group has considered the impact of COVID-19 in preparing revenue and profit projections. On the basis of these projections, the Group believes that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilized.

6 Going Concern

The Group has prepared cashflow projections for the foreseeable future after considering the impacts of COVID-19. Further, the Group carries cash and cash equivalents of ₹ 4,660.92 million, other bank balances of ₹ 5,769.05 million and has unutilized working capital limits of ₹ 3,518.00 million as at March 31, 2021. Accordingly, the management has assessed that the going concern assumption is appropriate for the Group.

NOTES:

1. An Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 ("the Act"), setting out material facts concerning the special business under Item No. 5 of the Notice, is annexed hereto.
2. The relevant details, pursuant to Regulations 26(4) and 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the SEBI (LODR) Regulations, 2015") and the Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India, in respect of Director seeking re-appointment at the Thirtieth Annual General Meeting ("the AGM") is also annexed hereto.
3. In view of the continuing COVID-19 pandemic, social distancing norms to be followed and the continuing restriction on movement of persons at several places in the country and pursuant to General Circular Nos. 14/2020, 17/2020, 20/2020 and 02/2021 dated April 8, 2020, April 13, 2020, May 5, 2020 and January 13, 2021, respectively, and all other relevant circulars issued by the Ministry of Corporate Affairs from time to time (collectively referred to as "the MCA Circulars") and Circular Nos. SEBI/HO/CFD/CMD1/CIR/P/2020/79 and SEBI/HO/CFD/CMD2/CIR/P/2021/11 dated May 12, 2020 and January 15, 2021, respectively issued by the Securities and Exchange Board of India (collectively referred to as "the SEBI Circulars") and in compliance with the provisions of the Act and the SEBI (LODR) Regulations, 2015, the AGM of the Company is being conducted through Video Conferencing/Other Audio Visual Means ("VC/OAVM") facility, which does not require physical presence of members at a common venue. The deemed venue for the AGM shall be the Registered Office of the Company.
4. The Company has engaged the services of National Securities Depository Limited ("NSDL") as the authorized agency for conducting of the AGM through VC/OAVM facility and for providing electronic voting ("e-voting") facility to its members, to exercise their votes through the remote e-voting and e-voting at the AGM.
5. In compliance with the MCA circulars, the SEBI Circulars, and the SEBI (LODR) Regulations, 2015, and owing to the difficulties involved in dispatching physical copies, the AGM Notice and the Annual Report 2020-21, including Financial Statements (along with Board's Report, Auditor's Reports or other documents required to be attached therewith), is being sent only through electronic mode to those members whose e-mail IDs are registered with the

Registrar & Transfer Agent ("RTA") or respective Depository Participants ("DPs"). Members may note that the AGM Notice and Annual Report 2020-21 will also be available on the Company's website at <https://www.birlasoft.com/company/investors/policies-reports-filings>, websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively, and on the website of NSDL at <https://www.evoting.nsdl.com>.

6. Those members whose e-mail IDs, Permanent Account Number ("PAN") are not registered, can register the same as per the below process:

- **Members holding shares in physical form:**

The members of the Company holding shares in physical form and who have not registered their e-mail IDs may get their e-mail IDs registered with our RTA – Link Intime India Private Limited, by clicking the link: https://linkintime.co.in/emailreg/email_register.html or through their website www.linkintime.co.in > Investor Services > E-mail/Bank Registration > Select "**Birlasoft Limited**" and follow the registration process as guided therein. The members are requested to provide details such as Name, Folio Number, Certificate Number, PAN, Mobile Number and e-mail ID and also upload the image of share certificate in PDF or JPEG format (up to 1 MB) and other supporting documents.

On submission of the member's details, an OTP will be received by the member, which needs to be entered in the link for verification and submit thereafter.

- **Members holding shares in dematerialized form:**

The members are requested to register their e-mail IDs, in respect of shares held in dematerialized form with their respective DPs by following the procedure as prescribed by them.

7. In terms of the MCA Circulars, since the physical attendance of the members has been dispensed with, there is no requirement of appointment of proxies. Accordingly, the facility of appointment of proxies by the members under Section 105 of the Act, **will not be available** for the AGM. Hence, the Proxy Form and Attendance Slip are not annexed to this Notice. However, in pursuance of Sections 112 and 113 of the Act, representatives of the members may be appointed for the purpose of voting through remote e-voting, for participation in the AGM through VC/OAVM facility and e-voting during the AGM.

8. Since the AGM will be held through VC/OAVM, the venue route map is not annexed to this Notice.
9. Members holding shares in physical form, in identical order of names, in more than one folio are requested to consolidate their holdings in one folio. A consolidated share certificate will be issued to such members after making requisite changes.
10. The Company has fixed **Friday, July 16, 2021**, as the **“Record Date”** for determining eligibility of members to receive final dividend for the financial year ended March 31, 2021, if approved at the AGM.
11. The **“Cut-off Date”** for determining the eligibility of members for the purpose of voting through remote e-voting, for participation in the AGM through VC/OAVM facility and e-voting during the AGM is **Wednesday, July 21, 2021**.
12. Members of the Company under the category of “Institutional Investors” are encouraged to attend and vote at the AGM.
13. Institutional/corporate members (i.e. other than individuals, HUF, NRI, etc.) are required to send scanned copy (PDF/JPG Format) of its Board or governing body Resolution/Authority letter, etc. alongwith attested specimen signature of the duly authorized signatory(ies), authorizing its representative to attend the AGM through VC/OAVM facility on its behalf and to vote through remote e-voting, to the Scrutinizer by e-mail through its registered e-mail ID to jbbhave@gmail.com with a copy marked to evoting@nsdl.co.in.
14. Attendance of the members participating in the AGM through VC/OAVM facility shall be counted for the purpose of reckoning the quorum under Section 103 of the Act. Further, all resolutions mentioned in this Notice shall be passed through the facility of remote e-voting and e-voting at the AGM.
15. In case of joint holders attending the AGM, only such joint holder who is higher in the order of names as per the Register of Members or in the Register of Beneficial Owners maintained by the Depositories will be entitled to vote at the AGM.
16. Facility to join the AGM shall be opened 20 (twenty) minutes before the scheduled time of the AGM and shall be kept open for the members throughout the proceedings of the AGM. The procedure to join the AGM is mentioned in the “Instructions for electronic voting by members” annexed hereto.
17. The facility of participation at the AGM through VC/OAVM, provided by NSDL, allows participation for 1,000 members on first-come-first-served basis principle. This will not include large members (members holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors, etc. who are allowed to attend the AGM without any restriction on account of first-come-first-served basis principle.
18. If the final dividend, as recommended by the Board of Directors, is approved at the AGM, payment of such dividend subject to Deduction of Tax at Source (“TDS”) will be made within the statutory time limit of 30 days, as under:
 - a. To all Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the National Securities Depository Limited (“NSDL”) and the Central Depository Services (India) Limited (“CDSL”), collectively “Depositories”, as of the close of business hours on **Friday, July 16, 2021**; and
 - b. To all the members in respect of shares held in physical form after giving effect to valid transfer, transmission or transposition requests lodged with the RTA as of the close of business hours on **Friday, July 16, 2021**.

Payment of such dividend shall be made through electronic mode to the members who have updated their bank account details. In the event the Company is unable to pay dividend to any member through electronic mode, due to non-registration of the electronic bank mandate, the Company shall dispatch the dividend warrant/bankers’ cheque/demand draft to such member, at the earliest once normalcy is restored.
19. The Company is providing following facility for registering the bank account details:
 - **Registration of bank account details for members holding shares in physical form:**

The members of the Company holding shares in physical form and who have not registered their bank account details, can get the same registered with our RTA, by clicking the link: https://linkintime.co.in/emailreg/email_register.html or through their website www.linkintime.co.in > Investor Services > E-mail/Bank Registration > select **“Birlasoft Limited”** and follow the registration process as guided therein. The members are requested to provide a signed

request letter and details such as Name, Folio Number, Certificate Number, PAN, E-mail ID along with the copy of PAN & the cheque leaf with the first named member's name imprinted on the face of the cheque leaf containing bank name and branch details, type of account, bank account number, MICR details and IFSC code in PDF or JPEG format. It is very important that the member should submit the request along with a duly signed letter.

On submission of the member's details, an OTP will be received by the member, which needs to be entered in the link for verification and submit thereafter.

The RTA will verify the documents uploaded and will take on record for all valid cases only.

- **Registration of bank account details for members holding shares in dematerialized form:**

The members of the Company holding shares in dematerialized form and who have not registered their bank details, can get the same registered with their respective DPs by following the procedure prescribed by them.

20. In terms of the provisions of the Income-tax Act, 1961 ("the IT Act") dividend paid or distributed by a Company shall be taxable in the hands of the members. The Company shall, therefore, be required to deduct TDS at the time of payment of dividend at the applicable tax rates. The rate of TDS would depend upon the category and residential status of the member.

As it is important for the Company to receive the relevant information from members to determine the rate of tax deduction, the members are requested to furnish relevant documentation in the prescribed manner on the portal of RTA on or before **Tuesday, July 20, 2021 (06:00 p.m. IST)**. The applicable TDS rate for dividends and documents to be furnished by each category of members is given in the "Annexure – TDS on Dividend", annexed hereto. The relevant documents can be uploaded on RTA portal at <https://linkintime.co.in/formsreg/submission-of-form-15g-15h.html>.

The information given in the said Annexure may not be exhaustive and the members should evaluate on their own about the category for which they should furnish the documents. In absence of all the relevant documents, the Company shall determine TDS rate based on information available with the RTA (for shares held in physical form) and the DPs (for shares held in dematerialized form).

Please note that the duly completed & signed documents should be uploaded on the portal of the RTA on or before **Tuesday, July 20, 2021 (06:00 p.m. IST)**. Ambiguous, incomplete and/or unsigned forms and declarations will not be considered by the Company. No communication on the tax determination/deduction shall be considered after the abovementioned date & time.

Members are also requested to update changes in their Residential Status, if any, with the RTA (for shares held in physical form) & DPs (for shares held in dematerialized form), along with the supporting documents.

If the PAN is not as per the database of the Income-tax portal, it would be considered as an invalid PAN. Further, individual members are requested to link their Aadhaar number with the PAN.

In case TDS is deducted at a higher rate in the absence of receipt of the specified details/documents, you would still have the option of claiming refund of the excess tax paid at the time of filing your income tax return, only in case your valid PAN is registered with the RTA (for shares held in physical form) and the DPs (for shares held in dematerialized form). No claim shall lie against the Company for such taxes deducted.

Members should note that any document/form not uploaded on the portal will not be considered for the purpose of processing and shall be rejected, therefore, it should be uploaded on the portal only.

Members who have uploaded documents on the portal of the RTA should also forward the originals to the Company after normalization, since physical submission of certain documents is a legal requirement.

A detailed communication with respect to the same is already sent to the members on **Wednesday, June 23, 2021**, whose e-mail IDs are registered with the RTA/ DPs respectively and is also available on the website of the Company at <https://www.birlasoft.com/company/investors/policies-reports-filings>.

All communications/queries with respect to TDS on dividend and submission of relevant documentation should be sent to our RTA at sandip.pawar@linkintime.co.in on or Tuesday, July 20, 2021 (06:00 p.m. IST).

21. Members are requested to intimate changes, if any, pertaining to their name, postal address, telephone/mobile numbers, PAN, mandates, nominations and power of attorney to their respective DPs in case the shares are held by them in dematerialized form; and to the RTA of the

Company at Link Intime India Private Limited (Attention - Mr. Sandip Pawar) Block No. 202, Akshay Complex, Off Dhole Patil Road, Near Ganesh Temple, Pune - 411001, Telephone: +91-20-26161629, E-mail: pune@linkintime.co.in in case the shares are held by them in physical form.

22. As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. The members holding shares in dematerialized form are requested to submit the said details to their respective DPs; and the members holding shares in physical form are requested to avail this facility by contacting the RTA of the Company at Link Intime India Private Limited (Attention - Mr. Sandip Pawar) Block No. 202, Akshay Complex, Off Dhole Patil Road, Near Ganesh Temple, Pune - 411001, Telephone: +91-20-26161629, E-mail: pune@linkintime.co.in.
23. Pursuant to the provisions of Regulation 40 of the SEBI (LODR) Regulations, 2015, as amended, securities of listed companies can be transferred only in dematerialized form with effect from April 1, 2019, except in case of request received for transmission or transposition of securities and re-lodged transfer of securities. Further, SEBI vide its circular no. SEBI/HO/MIRSD/RTAMB/CIR/P/2020/236 dated December 2, 2020 had fixed March 31, 2021, as the cut-off date for re-lodgement of transfer deeds and the shares that are re-lodged for transfer shall be issued only in demat mode. In view of the same and to eliminate all risks associated with physical shares and for ease of portfolio management, the members are advised to dematerialize shares held by them in physical form. For the said purposes the members are requested to contact the RTA of the Company at Link Intime India Private Limited (Attention - Mr. Sandip Pawar) Block No. 202, Akshay Complex, Off Dhole Patil Road, Near Ganesh Temple, Pune - 411001, Telephone: +91-20-26161629, E-mail: pune@linkintime.co.in.
24. Pursuant to Sections 101 and 136 of the Act, read with the relevant Rules issued thereunder, companies can serve Annual Reports and other communications through electronic mode to those members who have registered their e-mail IDs either with the RTA or with their respective DPs. It is a welcome move for the society at large, as this will reduce paper consumption to a great extent and allow the members to contribute towards a greener environment. This is a golden opportunity for every member of the Company to contribute to the cause of "Green Initiative".
25. Members are requested to:
 - quote their Registered Folio number in case of shares in physical form and DP ID and Client ID in case of shares in dematerialized form, in their correspondence(s) to the Company.
 - direct all correspondence related to shares including consolidation of folios, if shareholdings are under multiple folios, to the RTA of the Company.
 - take note that SEBI has included the securities of the Company in the list of companies for compulsory settlement of trades in dematerialized form for all the investors effective June 26, 2000. Accordingly, shares of the Company can be traded only in dematerialized form with effect from June 26, 2000. Members holding shares in physical form are, therefore, requested to get their shares dematerialized at the earliest.
26. To prevent fraudulent transactions, members are advised to exercise due diligence and notify the Company or the RTA of any change in address or demise of any member as soon as possible. Members are also advised not to leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the respective DPs and holdings should be verified from time to time.
27. Members seeking any information with regard to the accounts or any matter to be placed at the AGM, are requested to write to the Company so as to reach them atleast 7 (seven) days before the date of the AGM, through e-mail on contactus@birlasoft.com. The same will be replied by the Company suitably.
28. A certificate from the Statutory Auditor of the Company certifying that the Company's Employee Stock Option Plans are being implemented in accordance with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014, as amended from time to time and in accordance with the resolutions passed at the general meeting(s) will be available electronically for inspection by the members during the AGM.
29. The Register of Directors and Key Managerial Personnel and their shareholding maintained under Section 170 of the Act, the Register of Contracts or Arrangements in which the directors are interested, maintained under Section 189 of the Act, and the relevant documents will be available electronically for inspection by the members during the AGM.
30. The Company has transferred the unpaid or unclaimed dividends declared up to the financial year 2012-13, from

time to time, to the Investor Education and Protection Fund (“IEPF”) established by the Central Government.

Members wishing to claim the unpaid dividend, are requested to correspond with the RTA of the Company at Link Intime India Private Limited (Attention - Mr. Sandip Pawar) Block No. 202, Akshay Complex, Off Dhole Patil Road, Near Ganesh Temple, Pune - 411001, Telephone: +91-20-26161629, E-mail: pune@linkintime.co.in.

Any person who becomes a member of the Company after the dispatch of the Notice and holding shares as on the Cut-off Date may obtain the login ID and password by sending a request at evoting@nsdl.co.in, to cast his/her vote. A person who is not a member as on the Cut-off Date should treat this Notice of the AGM for information purpose only.

EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

[Pursuant to the provisions of Section 102 of the Companies Act, 2013, and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015]

Item No.: 5

As per the provisions of Section 197 and other applicable provisions of the Companies Act, 2013 (“the Act”), read with Schedule V thereof and the Rules made thereunder, the maximum managerial remuneration payable to the managing director in respect of any financial year may exceed 5% of the net profits of the Company, calculated as per Section 198 of the Act, provided the same is approved by the members of the Company by way of a special resolution.

For the purpose of assessing the proportion of the remuneration to the net profits of the Company, all elements of remuneration package such as salary, benefits, bonuses, stock option, pension, perquisite etc. are taken into consideration. Pursuant to the approval of the Nomination and Remuneration Committee, from time to time, Mr. Dharmander Kapoor – CEO & Managing Director of the Company (Director Identification Number: 08443715), has been granted Stock Options (“Options”) and Restricted Stock Units (“RSUs”) under “Special Purpose Birlasoft - Employee Stock Option Plan 2019” (“ESOP 2019”) and “Birlasoft Share Incentive Plan 2019” (“SIP 2019”) as part of his compensation package. The details of these grants have been appropriately disclosed in the Annual Reports of the Company.

The perquisite value of the Options/RSUs, if any, exercised by Mr. Kapoor during any financial year will become a part of his total remuneration. The perquisite value is the differential value between the fair market price of shares on the date of exercise of Options/RSUs and the exercise price. The perquisite value is directly linked to the fair market value of the shares of the Company on the date of exercise of Options/RSUs.

During the financial year 2020-21, as per vesting schedule under ESOP 2019, certain number of options have vested. Also, in the financial year 2021-22, as per the vesting schedule under SIP 2019, certain number of Options/RSUs are due for vesting. Taking into account the perquisite value which will get added to his remuneration, the total managerial remuneration payable to him will exceed 5% of the net profits of the Company.

Pursuant to the recommendation of the Nomination and Remuneration Committee, the Board of Directors of the Company in its meeting held on May 21, 2021, approved and recommended to the members an increase in the managerial remuneration limit payable to Mr. Kapoor in excess of 5% of the net profits of the Company (computed in the manner as laid down in Section 198 of the Act). This has been proposed by the Board to primarily facilitate exercise of Options/RSUs granted to and vested unto Mr. Kapoor pursuant to the grants

made under ESOP 2019 and SIP 2019, and will not entail any additional cash outflow for the Company.

If Mr. Kapoor exercises all the Options/RSUs which he is entitled to exercise, the aggregate remuneration payable by the Company to Mr. Kapoor including perquisite value is likely to exceed the limits stipulated under the Act.

Taking into consideration the present value of the shares of the Company and the number of Options and RSUs which can be exercised by Mr. Kapoor during the financial year 2021-22, and the remuneration payable to the non-executive directors of the Company, the value of the aggregate remuneration payable to all directors of the Company is not likely to exceed 15% of the net profits.

Pursuant to the provisions of Section 197 and other applicable provisions of the Act, read with Schedule V thereof and the Rules made thereunder, the total managerial remuneration payable by a company to its directors, including managing director, whole-time director and manager, if any, in respect of any financial year may exceed 11% of the net profits of the Company, provided the same is approved by the members of the Company.

In the premises aforesaid, the members are requested to consider increase in the overall maximum limit of managerial remuneration payable by the Company in respect of the financial year 2021-22, to the extent it will exceed 11% of the net profits of the Company, computed in the manner as laid down in Section 198 of the Act.

Further, pursuant to the provisions of Section 197 of the Act, the members of the Company at the 28th Annual General Meeting held on August 7, 2019, had accorded their approval for payment of commission to the Non-Executive Directors of the Company, not exceeding 1% of net profits (computed in the manner as laid down in Section 198 of the Act), for a period of five years commencing from the financial year 2019-20. The Company does not propose to modify or alter the said limit of 1%.

Except Mr. Kapoor and his relatives, none of the other Directors, Key Managerial Personnel or any of their respective relatives are, in any way, concerned or interested, whether financially or otherwise, in this resolution.

Mr. Kapoor is not related to any other Director or Key Managerial Personnel of the Company or relatives of the Directors or Key Managerial Personnel.

The Board of Directors recommends the resolution for approval of members of the Company, as set out at Item No. 5 of the Notice.

ANNEXURE - TDS ON DIVIDEND

Companies paying dividend are required to withhold tax at the applicable tax rates (unless otherwise exempted, TDS rate is 10% for resident members with valid PAN, 20% for resident members without PAN or invalid PAN and rates prescribed under the Income – tax Act, 1961 (“the IT Act”) or Tax Treaty, read with Multilateral Instruments, if applicable, for non-resident members). No withholding of tax is applicable if the dividend payable to resident individual members is less than ₹ 5,000/- p.a.

Section 206AB has been introduced by the Finance Act, 2021, whereby TDS will be higher of the following:

- i. Twice the rate specified in the relevant provision of the IT Act; or
- ii. Twice the rate or rates in force; or
- iii. the rate of 5%;

in case a person has not filed his/her Return of Income for each of the two preceding financial years and the aggregate of TDS including Tax Collected at Source (“TCS”) in his/her case is ₹ 50,000/- or more in each of these two financial years. The aggregate amount of TDS/TCS of ₹ 50,000/- in a year is not limited to TDS only on dividend income received by the member but will include all TDS/TCS transactions of the member during the relevant financial year. These provisions will be effective from July 1, 2021. The status of filing of Return of Income by the members would be verified from the functionality provided by the Indian Income Tax authorities. The Company would solely rely on the information available on the Income Tax portal in this regard.

In order to provide exemption from TDS or apply lower rate of TDS or consider benefit of relevant Double Taxation Avoidance Agreement (“DTAA”) with India as may be applicable, the documents prescribed for each category of member (as per the eligibility) must be uploaded on the portal of RTA at <https://linkintime.co.in/formsreg/submission-of-form-15g-15h.html>. The format of relevant documents is available on the website of the Company at <https://www.birlasoft.com/company/investors/policies-reports-filings>. If the documents are found in accordance with the provisions of the IT Act the same shall be considered while deducting the taxes.

If the dividend income is assessable to tax in the hands of a person other than the registered member as on the Record Date, the registered member is required to furnish a declaration to the Company containing the name, address, PAN, beneficiary account no. (16 digits), number of shares of the person to whom TDS credit is to be given and reasons for giving credit to such person on or before **Tuesday, July 20, 2021 (06:00 p.m. IST)**.
