**PLANT TO DRIVE JLR ELECTRIFICATION**

**Tatas pick UK for £4-bn  
 battery cell gigafactory**

**40GW plant, UK's  
 largest, likely to  
 start from 2026**

**SWARAJ BAGGONKAR**  
 Mumbai, July 19

**TATA GROUP** WILL build a \$4-billion (about ₹42,400 crore) battery cell gigafactory in the UK to support Jaguar Land Rover's electrification journey, the company said on Wednesday.

The announcement comes a little over six weeks after the group committed investments of ₹13,000 crore to build a similar factory in Gujarat. With a capacity of 40GW, the factory is expected to start

Tata Sons chairman N Chandrasekaran and UK Prime Minister Rishi Sunak view battery cell during a visit to a Jaguar Land Rover facility in Warwick, England, on Wednesday

production from 2026 and create 4,000 jobs. The plant will not just be the largest in the UK, but also one of the biggest in Europe.

Tata Sons chairman N Chandrasekaran said, "Our multi-billion-pound investment will bring state-of-the-art technology to the country,

helping to power the automotive sector's transition to electric mobility, anchored by our own business, Jaguar Land Rover."

UK Prime Minister Rishi Sunak said Britain termed it as an "incredibly proud" moment for Britain. "Tata group's decision to build their new gigafactory here in the UK — their first outside of India — is a huge vote of confidence in Britain. This will be one of the largest-ever investments in the UK automotive sector."

The UK was not the exclusive option for Tata group. The company was said to have narrowed down its choices, also considering Spain, in discussions spread over about a year.

**Sensex sprints to close at 67,000**

THE SENSEX SCALED new highs on Wednesday, closing above the 67,000-mark for the first time after briefly crossing it in intra-day trade a day earlier, reports **Siddhant Mishra**. After reaching a high of 67,171.58 during the day, the 30-share benchmark settled at 67,097.44 — up 302 points or 0.45%. The broader Nifty, after touching a lifetime high of 19,851.70, closed at 19,833.15, up 84 points. ■ Page 7

**After DGCA  
 audit, Go First  
 scales down  
 revival plans**

**ROHIT VAID**  
 New Delhi, July 19

**GROUPED CARRIER** Go First has scaled down its resumption plans by around 30% than earlier after the Directorate General of Civil Aviation (DGCA), in its audit of the airline, flagged issues such as lack of trained pilots and cases related to funding, refunds and spare parts.

In all, the DGCA has raised 13 observations in its audit report, pointing out the airline's inability to resume operations at the scale it had proposed. The DGCA conducted a special audit of Go First's facilities in Delhi and Mumbai from July 4-6 and inspected its parked aircraft in Bengaluru, Nagpur, Ahmedabad, Kochi and Kannur.

The airline's resolution professional, Shalendra Ajmera, on Wednesday met senior DGCA officials and informed the regulator that the carrier proposes to resume operations with 15 aircraft and 114 daily flights. It will add more flights as and when operations stabilise.

In its pre-audit initial resumption plan submitted to the DGCA, the airline had proposed to restart services with 26 aircraft with around 160 daily flights. Go First had also proposed to fly to Leh and Thoise, but the DGCA found that the airline does not have the required number of trained pilots to fly at such high altitudes.

**Fall in freight to keep  
 Russian oil in demand**

**HANISH GUPTA**  
 New Delhi, July 19

**NARROWING DISCOUNTS** AND concerns over rupee payments notwithstanding, Russia will likely retain its newly acquired tag of India's top oil supplier because of a sharp fall in freight, according to analysts and sources from oil marketing companies.

The lower freight costs will largely offset the impact of the plunge in discounts, retaining the attractiveness of Russian oil for Indian buyers, they said. Freight rates for delivery of Russian oil to western India from Baltic ports had shot up to around \$18 per barrel in early 2023 following western sanctions last December.

## Need for subsidy to come down as manufacturing gains scale: Gadkari

**EV DIALOGUES**

At a time when incentive schemes for the electric vehicle (EV) sector have come under the spotlight, Union Minister for Road Transport and Highways Nitin Gadkari is open to a rethink on subsidies. "Once manufacturing has gained scale, my opinion is that we do not need a subsidy. But still, the government is supporting the sector... After that, it is for the finance ministry to take a decision on the matter," Gadkari said during a fireside chat at the *Business Standard* EV Dialogues in New Delhi late on Tuesday. However, while responding to a question on the merit of subsidies for the EV sector, he clarified that the matter was outside the purview of his ministry. The minister, who was one of the earliest proponents of the potential of EVs within the government, spoke about building a resilient ecosystem in the country at the event—Highway to Green Growth: Role of EVs.

**WE WANT OUR PUBLIC TRANSPORT TO BE RUN ON ELECTRICITY AND ALTERNATIVE FUEL. THAT WILL BE THE MOST IMPORTANT STEP TOWARDS A GREEN REVOLUTION**
