1. There are delays/defaults in repayments of substantial dues to lenders. Company's current liabilities exceeded its current assets and net worth of the Company has also eroded as at December 31, 2018. All the Indian lenders have categorized the Company as Non-Performing Asset (NPA) under RBI regulations. Some of the lenders have given their dissent for the proposed "Scheme of restructuring" and few lenders have filed application for insolvency resolution before the National Company Law Tribunal (NCLT) and recovery of its dues before Debt Recovery Tribunal (DRT). Some of the lenders have also issued notice under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act 2002. The Company had submitted a proposal to its lenders for restructuring of its debt which was revised in terms of sustainable and unsustainable debts. Non Fund based limits and promoters contribution and is still under consideration. Restructuring is essential for the company's ability to continue as a going concern and ability to realize its assets and discharge the liabilities in the normal course of business. The restructuring proposal is under consideration by the lenders. As per Reserve Bank of India (RBI) guidelines, the restructuring should have been concluded by August 27, 2018 by the lenders. However, the Company has challenged the vires of the RBI Circular dated February 12, 2018 before Honorable Delhi High Court. Various other companies have also challenged the vires of the RBI Circular dated February 12, 2018 before the Honorable Supreme Court of India. The Honorable Supreme Court of India vide order dated September 11, 2018 has directed status quo be maintained by the parties of the petition. In view of the aforesaid order of the Honorable Supreme Court of india, the Honorable Delhi High Court has directed status quo to be maintained till March 12, 2019 in the writ petition filed by the Company challenging the vires of the RBI circular dated February 12, 2018. The management is confident and hopeful that restructuring proposal of the company shall be approved. During an earlier quarfer, the Company has obtained mandatory approvals from the shareholders of the Company for the same. Additionally, to improve operational efficiencies, the Company is taking various measures, including monetizing its identified assets as avenues of raising funds. The present conditions indicate that a material uncertainty exists that cast significant doubt on the Company's ability to continue as a going concern. However, the management is confident that with the above measures, the Company would be able to generate sustainable cash flows, discharge its short term and long-term liabilities and improve its net worth through profitable operations and continue as a going concern. Hence, financial results have been prepared

depreciation based on future projections of taxable income. Due to delay in restructuring, the Company has not been able to generate the expected profits in the current period and had to revise its estimates of future taxable income. While the Company is confident of favourable outcome of its restructuring proposal which is still pending, hence on a conservative basis considering limitation of carry forward of losses, the Company has during the quarter ended December 31, 2018 derecognised the deferred tax assets of Rs. 119,900 lacs. The Company's current assets include receivables/claims of Rs. 135,356 lacs under receivables/ unbitled revenue (work in progress) which are subject matter of arbitration and the ultimate outcome of the matter is presently unascertainable. As the Company is confident of a satisfactory settlement of the
