Company Secretary

Zensar to demo 'No-Code' test automation platform for Pega at PegaWorld 2019

Las Vegas, USA, June 4, 2019: [Zensar](#), a leading digital solutions and technology services company that specializes in partnering with organizations across industries on their digital transformation journey, announced today that it will be demonstrating digital process automation solutions at [PegaWorld](#). This annual industry event brings intelligent automation and customer experience together under one roof. Visit Zensar at booth number #38, at the Tech Pavilion, MGM Grand, Las Vegas.

Sandeep Kishore, Chief Executive Officer and Managing Director, Zensar said, "Intelligent Automation is paving the path for large scale digital transformation across global companies. Our solutions showcased at PegaWorld combine the best of [Pega](#)'s platform and our Return on Digital® NeXT (New and Exponential Technologies) strategy. We are both focused on enabling our customers to accelerate their digital journeys effectively."

Speaking on this occasion, Madhwesh Kulkarni, Senior Vice President and Global Head, Technology Transformation Group, Zensar said, "Visitors to our booth have the opportunity to understand how our solutions help companies reinvent business operations to become more efficient with best in class business process automation, workplace intelligence, and digital technology."

Commenting on the participation, S. Praveen Padala, Vice President, Enterprise Applications, Zensar said, "Our partnership with Pega helps us to offer robust and effective intelligent solutions to our joint customers spanning RPA and case management solutions on the cloud. We are focused on delivering the benefits of Pega technology combined with Zensar's implementation capabilities and No-code testing platform."

Details on the solutions that will be showcased are as below:

- **Zensar's "No-Code" test automation platform for Pega**
Many organizations face challenges to test automate faster development platforms like Pega. To reduce time to market, it is essential to thoroughly test the implementation time and again. To automate faster development platforms, you need a faster test automation tool which makes test automation simpler, quicker, and more user friendly.
- **ZenEnabler - A solution that helps you get early returns on your Pega investment by onboarding processes quicker and providing easy digitization.** ZenEnabler provides out of the box rules which help organizations to weave the disconnected processes and siloed applications easily and onboard the processes on Pega. ZenEnabler streamlines the distributed processes that are executed in siloed systems and can be plugged in modularized cases on the [Pega Platform™](#).
