Ready for the TECH TIPPING POINT

What's better than digital transformation? A **faster** digital transformation—that delights customers, develops agile ways of working, and creates enhanced value. We are the “accelerator” for companies that wish to propel themselves through the digital transformation process.

COVID-19 has pushed companies over the technology tipping point and transformed business forever. This crisis has brought forward years of change in the way companies in all sectors and regions do business. In particular, they have significantly accelerated their customer and supply-chain interactions, digitally enhanced offerings, and their internal operations. The crisis has brought about a profound changes in executive mindsets on the role of technology in business. What's more, the marketplace expects most of these changes to be long-lasting and most companies are already making significant investments that will prevail.

To stay competitive in this new business and economic environment requires new strategies and practices. Not surprisingly, digital adoption has taken a quantum leap at both the organizational and industry levels. It's a well-known fact that the organizations that are experimenting with new digital technologies, the executives are twice as likely to report immense revenue growth than those at other companies. But, this is more than just about going “digital” through the simple assimilation of technologies. It's also about fundamentally transforming the company through well-conceived corporate strategies, leadership buy-in, talent development, and strong measurements to define success.

In fact, we believe that for any company today, digital and corporate strategies are one of the same. At R Systems we excel in working closely with businesses to make their digital transformation journey a great success. With proven domain expertise across multiple industries, and risk-mitigated processes for martializing successful transformation, we're in a goldilocks period for delivering augmented growth.

We're Ready for the **Tech Tipping Point** that will make this decade an exciting one for all our stakeholders.

Practising Agility and Resilience

for sustaining growth in uncertain times.

The sudden outbreak of the COVID-19 pandemic has not only tested human vulnerabilities but also forced economies across the world to re-imagine the way they operate. While staying undeterred and unaffected has always been the focus areas for organisations in these ever-evolving times, the adversities caused by the pandemic has pushed companies to fundamentally integrate elements of agility and resilience in their business models.

At R Systems, we were quick to understand the need to be geared up to weather the unexpected disruptions caused by the health crisis. Our belief lies in the critical ability to be able to absorb and adapt to challenges that we may face in times like these. For us, the primary focus was to safeguard our employees from every possible health threat while providing seamless services to our clients. To this end, we adopted the work-from-home model for our people and prepared our workforce to work closely with the clients to understand their evolving business needs and priorities. We achieved this by focusing on frequent communications with our employees and ensuring that they continue to feel empowered. We often emphasise the

value of shared purpose, which is one of the reasons that has encouraged our employees to feel personally invested in the objectives of R Systems. This belief has resulted in the endless commitment that our talent pool of 3,000+ employees have demonstrated during the crisis period. Moreover, the commitment and strategic investments that were made by R Systems towards the upgradation of technological infrastructure has been instrumental during our adaption to the changing scenarios of the 'New Normal'.

We understand that we operate in an ever-evolving world where fluctuating industry dynamics, fierce competition, constantly advancing technologies and consumer demands play a crucial role. These rapid shifts in the

macro-environment are the reasons why we are continuously adapting our business strategies to be able to support our clients and meet their complex business requirements. Going forward, we aim to retain and further strengthen the innovations implemented during the pandemic-led crisis, in a way that ensures long term sustainability, agility and resilience in the DNA of R Systems.

R Systems stood tall in delivering its client commitments, while ensuring the utmost safety of its people.

The current pandemic has proven that digital will be the lifeline for every business. Our strong sales pipeline for digital and technology services is evident of this change in the demand environment and motivated us to hire 300 plus technocrats in H2-2020 to excel the growth momentum in FY2021.

Message from the Managing Director

Dr. Satinder Singh Rekhi
Managing Director and CEO

Dear Shareholders,

While I write this message, the world continues to deal with the unprecedented effects of the COVID-19 crisis that emerged as a major challenge for individuals, businesses, and economies across the world. During this period, at R Systems, our primary focus was to ensure the utmost safety of our employees while providing seamless services to our customers. We are humbled by the valued support received from our customers and the undeterred commitment and dedication of our 3,000+ employees who make us proud of the values that our organization holds. I want to express my deepest thanks to each R Sysians for the innovative and collaborative ways that they have demonstrated to support the Company and our customers during these testing times. I am equally grateful to their families for their immense support.

While the sudden outbreak of the COVID-19 pandemic has tested mankind's vulnerabilities, the global healthcare systems and the fundamental business model of many corporations has also enlightened us to discover different and innovative ways of functioning in this 'New Normal'. Over the past year, we have acutely understood the pressing need for advanced technologies and a stronger digital foundation within all industries. Companies are increasingly willing to fundamentally change the way they work and establish new models to operate while adhering to social distancing requirements in this new pattern of life. As a result, digital transformation has become a prerequisite for most businesses to stay relevant and to operate and collaborate in a rapidly evolving world.

FY2020 in Focus

During FY2020, your Company has delivered admirable results by reporting record revenues of ₹ 880 crores with EBITDA of 13.3%. The revenue growth stood at 9% backed by the strong demand of technology and digital services especially towards the second half of FY2020 where the rising need for digital transformation enhanced momentum for our business. The remarkable performance of your Company is a testament to its commitment to deliver despite the uncertainty in our macro environment and increasingly changing dynamics of the global tech industry. Furthermore, the EBITDA margin has soared by 60% due to the improvement in the quality of revenues coupled with efficient operations and cost savings through 'Work-from-Anywhere' operations. In addition to this, we added 28 key customers during the year out of which 8 hold the potential to be USD million

plus accounts. We have served 30 accounts that are worth USD million plus including 5 accounts contributing over USD 3 million plus revenues on a run-rate basis. Moreover, we have strengthened our human capital by onboarding 300+ associates to support a strong sales funnel, especially towards our digital and technology services and solutions. I am delighted to share that your Company has now regained a double-digit EBITDA and is confident to deliver further profitable growth.

Despite the pandemic scenario, our cash generation from business remained robust. We have days sales outstanding (DSO) below 60 days, which stands one of the best in the industry and helps to support liquidity and timely investment for future growth. In addition to this, we continued to invest prudently in strengthening digital competencies, sales, presales, and marketing team across geographic locations along with modernizing our infrastructure and processes to handle the new normal of, Work-from-Anywhere. Further, R Systems IT and Knowledge services operations in India have been adjudged as 'SOC-2 Type 2' compliant by a leading independent service auditors which demonstrate our commitment towards the highest quality and security while providing services to our prestigious clients.

We have a strong balance sheet with a net worth of ₹ 427 crores including a cash and bank balance of ₹ 303 crores to support liquidity and business growth along with rewarding shareholders for their continued support.

We are leveraging our alliances with leading technology companies such as, Microsoft, Salesforce, AWS, Automation Anywhere, and Dell Boomi,

Our performance in FY2020 is a testament to our commitment to deliver despite the uncertainty in our macro environment and changing dynamics of the global tech industry.

amongst others to deliver state-of-the-art products and solutions for our customers in the space of cloud, AI/ML, and intelligent automation. Moreover, we have impressively blended our engineering DNA with these leading technologies to deliver an impactful digital transformation.

We strongly believe that 'Work-from-Anywhere' will become the new norm in a post-COVID world and be a driver for new business models and opportunities. However, we have started to strategically plan another interesting challenge, which is, to manage hybrid working from our offices taking into consideration our business and customer requirements. We will ensure that our employees can come back to work at our offices safely with utmost comfort. At the same time, we will work together with our customers and other business partners in sync with the required government guidelines to plan for what will be a new normal in the post-pandemic future.

Covid-19 has pushed us towards an interesting tech tipping point beyond which the world will surely witness the adaption of technology across all industries more than ever before. Your company has always lived a transformation culture since its humble beginning, and I am confident in R Systems ability to be even more

resilient and agile to convert every challenge into opportunities in another new normal.

While we advance ourselves and prepare R Systems for the future, we are equally focused on driving value for the communities that surround us. We believe that not only can businesses co-exist with society, but they can also uplift each other in times of need. Being a purpose-driven organization, we have continued our efforts to help society by making contributions to medical facilities and helping to provide food arrangements for people in need amid pandemics. Apart from providing support to society to tackle the COVID-19 challenges, your Company has continued to contribute to promote education, welfare, and sports. We believe that education and sports will transform the next generation to handle new challenges and build a happy and agile society.

In closing, I am thankful to all our shareholders, business partners, customers, employees, and various government agencies for their much-needed support and faith in R Systems.

Sincere Regards,

Dr. Satinder Singh Rekhi
Managing Director and CEO

From the desk of Sartaj Rekhi

Dear Shareholders,

The present environment reminds me of the famous quote by Charles Darwin in his "Origin of Species" "It is not the most intellectual of the species that survives; it is not the strongest that survives; but the species that survives is the one that is best able to adapt and adjust to the changing environment in which it finds itself".

FY2020 was another transforming year for R Systems. In the period around Late-March, Early-April of 2020, we started witnessing sluggish global economies, rapidly changing customer demands, and new 'Work-from-Anywhere'. R Systems has seamlessly adapted the 'Work-from-Anywhere' model and worked closely with its customers to understand their changing business requirements and priorities. Moreover, our strategic investments over the last few years in building digital competences and upgrading the infrastructure have been instrumental in our adaption to the new normal.

With transformation in our DNA, I am confident that your Company will continue to offer a unique value proposition by building scalable products for ISVs and businesses

The financial results of FY2020 have been encouraging as R Systems has reported reasonable revenue growth amid the sluggish economic conditions especially in the first half of 2020. However, our recovery was steep in H2-2020 backed by superior quality of revenue which also contributed to the robust EBITDA margins.

The current pandemic has proven that digital will be the lifeline for every business. The pandemic has also accelerated the adaption to the cloud, intelligent automation, and AI/ML with a customer-centric mindset. Our strong sales pipeline for digital and technology services is evident of this change in the demand environment and motivated us to hire 300 plus technocrats in H2-2020 to excel the growth momentum in FY2021.

According to the latest forecast by Gartner, Inc, "Worldwide IT spending is projected to total USD 3.9 trillion in 2021, which is an increase of 6.2% from 2020," With the successful global vaccination programs and other efforts by public health organizations and governments, the world will surely turn the corner and move on from COVID-19. Businesses will witness another new normal having hybrid working models and new social norms for various business collaborations. This new normal will require companies to embrace new ways of conducting sales and services, marketing and commerce and new ways of enhancing customer experiences and business productivities. Every company will be motivated to digitally transform, and R Systems will be there to navigate them in their journey towards a tech-focused future.

With transformation in our DNA, I am confident that your Company will continue to offer a unique value proposition by building scalable products for ISVs and businesses, thereby steering their digital transformation in a challenging, yet, interesting business environment.

Best Regards,

Sartaj Rekhi

Strengthening our People Capital

At R Systems, we recognise our human capital as a pertinent asset and driving force behind our continuous growth and success. Therefore, we are consistently looking forward to cultivating employee skills and capabilities to instil shared organisational objectives in our system. We are determined to ensure and nurture a progressive workplace culture that is focused on the total development of our employees. To achieve this, we focus on our people development practices that help us to generate and strengthen the competencies of our employees to deliver notable results on the trajectories of operational efficiencies and productivity.

The sudden outbreak of the COVID-19 led pandemic imposed several restrictions on the traditional workplace practices. To safeguard our employees, we implemented the work-from-home model in our system and ensured that our people smoothly transition into the new way of working while being readily available to service our clients with utmost dedication. We equipped our employees with digital tools to ensure productivity while having secure and stable environment meeting our customer's expectation.

TEAM EXPANSION & RECOGNITION

1. Virtually on-boarded 1000+ new recruits that includes recruitment from prestigious institutes like IIT. In the light of the work-from-home model, we ensured smooth orientation process and provided them with 24*7 support during the lockdown period.
2. Organised recognition of existing employees through congratulatory e-mails for Long Service Awards and virtual felicitation along with gift vouchers for quarterly awards in the categories of Best Trainer, Best Mentor and Best Buddy.

EMPLOYEE WELFARE

1. Implemented an Online Medical Service & Health Talks Programme with a leading online healthcare services provider.
2. Employees were educated with the organisation's policies and guidelines such as Anti-Bribery Policy, Code of Suppliers, Environment Policy, Human Right Policy and Sustainable Sourcing Policy.
3. Planned and hosted POSH session for employees' awareness.
4. Released COVID advisories from time to time and extended full support to affected employees.

We believe that 'hybrid working from home and office' will become the new norm in a post-COVID world and be a driver for new business models and opportunities.

TRAINING & DEVELOPMENT

1. Conducted various internal training sessions for our employees that covered subjects such as Block Chain, EDI HQ, Dot net core, WS, Microsoft, Azure, and Salesforce, amongst others.
2. Organised external training programmes including training sessions for Azure workshop, Design Thinking Workshop, AWS workshop and Farming accounts in COVID-19 times.

EMPLOYEE ENGAGEMENT & INTERACTIONS

1. Organised employee engagement activities virtually such as Game stimulant, Friday Quiz, Trending Series, Kids Day, Diwali Celebration followed by Antakshari. All these activities recorded active participations from our employees.

Towards a Purpose-Driven Future

At R Systems, we recognise social responsibility as an integral part of our organisational objectives. Therefore, we consistently strive to steer social development and upliftment through various initiatives targeted at the underprivileged sections of society. Our inclination towards generating value in the communities that surround us has been encouraged by the undeterred commitment of our visionary Dr. Satinder Singh Rekhi who has been nurturing the 'science of happiness' in the organisation. Dr. Rekhi's belief in the philosophy that businesses can and should bring a positive impact in society has motivated us to take social efforts in the areas of education, sports, and health, amongst others. The year 2020 brought with itself various challenges that

Glimpse from GoSports mental well-being workshop

have emphasised the critical role of organisations in safeguarding and protecting their communities during testing times. To this end, we planned and executed several meaningful initiatives to create value in the lives of people.

OUR FOCUS AREAS FOR FY2020

EDUCATION

SPORTS

COMMUNITY WELFARE

EDUCATION

Collaboration with Army Public School:

With the help of Army Public School, Beas, we have continued to facilitate the education and welfare of children who belong to the weaker sections of the society.

Dream a Dream:

We collaborated with a registered charitable trust, Dream a Dream, to encourage teachers to deepen the impact on young people and unlock the potential of their students. This was executed by arranging the Life Skills Facilitation workshops for teachers to nurture empathy, expand

their creativity, develop listening and validation skills, and the ability to share with authenticity while also learning facilitation skills. Furthermore, we have also supported Dream a Dream to help young ones (within the age group of 14-23 years) with information, skills and access to opportunities to make a healthy transition to adulthood. This was achieved by conducting career awareness workshops, run short-term modules in English, communication skills, money management, and career guidance and provide access to internships, scholarships, vocational training and jobs.

Endowed Professor in Happiness:

R Systems has extended its support to the University Foundation at Sacramento State, an auxiliary of California State University, Sacramento to establish 'Endowed Professor in Happiness', an endowed professorship within the Department of Psychology in the College of Social Sciences and Interdisciplinary Studies and for internships of the students. The initiative is intended to support the science of happiness through academic research, curriculum development, and cross divisional partnerships.

SPORTS

Pullela Gopichand Badminton Academy and Prakash Padukone Badminton Academy:

R Systems is working with Pullela Gopichand Badminton Academy and Prakash Padukone Badminton Academy to encourage budding aspirants by providing them with their badminton related coaching and training expenses to excel their performance at various national and international level.

GoSports Foundation:

R Systems joined hands to support GoSports Foundation 'Long Term Athlete Development Programme', an initiative that focuses on creating a pathway to excellence for emerging athletes, supporting scientific long-term athlete development and honing them to realize their full potential.

COMMUNITY WELFARE

SaveLIFE Foundation:

The Company has supported the SaveLIFE Foundation for arranging personal protection equipment kits for doctors, nurses and other health workers during the outbreak of the COVID-19 pandemic.

Missionary of Charity:

During the year, the Company has continued to provide support to special and underprivileged children in association with the Missionary of Charity.

The particulars as prescribed under Section 134 (1) (m) of the Act read with Rule 8 of Companies (Accounts) Rules, 2014 for the year ended December 31, 2020 are as follows:

A. Conservation of Energy

Though your Company does not have energy intensive operation, every endeavor has been made to ensure the optimal usage of energy, avoid wastage and conserve energy.

R Systems constantly evaluates new technologies and makes appropriate investments to be energy efficient.

During the year ended December 31, 2020, R Systems adopted various energy conservation options / technologies and took measures to reduce energy consumption by using energy efficient equipment and devices, replacing existing CFL fittings with LEDs fittings to reduce power consumption, timely preventive maintenance of all major and minor equipment. The air is conditioned with energy efficient compressors for central air conditioning and with split air conditioning for localized areas. The Company is endeavoring to convert its Diesel generators to GAS based generators.

R Systems is always in search of innovative and efficient energy conservation technologies and applies them prudently. Being in the software industry, R Systems's operations are not energy intensive and energy costs constitute a very small portion of the total cost, therefore, the financial impact of these measures is not material.

B. Technology absorption

1. Efforts made towards technology absorption

The Company has established centre of excellence in specific digital technologies like Cloud, Mobility, IOT, Analytics, RPA and Intelligent Automation etc. to further strengthen competencies and enhance offerings across focused verticals i.e. Technology, Telecom, Healthcare & Life Science, Banking & Insurance and Retail & e-Commerce.

Directors' Report

2. Benefits derived as a result of the above efforts

Our investment in digital technologies is helping us to enhance market reach and support our revenue growth. Further, the pandemic has shown the value of digital initiatives in e-commerce, deliveries, supply chain virtualization, process automation and other activities, especially where physical activities are restrictive. Organizations across industries are adapting new technology to operate in this new normal.

3. Technology imported during the last 3 years

Not applicable, as no technology has been imported by the Company.

4. Expenditure incurred on Research and development

Driven by our core value of innovation, we believe that innovation is not just a practice but an essential component embedded within R Systems organizational DNA. We are now operating in a digital world. Digital transformation is one of our core areas where R Systems partner with businesses to make them competitive and successful in today's hyper-changing environment. Over the year ended December 31, 2020, your Company has invested in research and development around all leading digital technologies. Further, R Systems has also strengthened its proprietary solutions and frameworks optimizing the integration with digital technologies.

Management's Discussion and Analysis

Overview

The consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards (Ind-AS) prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standard) Rules as amended from time to time. The management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present the state of affairs, profits, and cash flows for the year.

The Group has adopted Ind AS 116 'Leases' with the date of initial application being January 01, 2020. Ind AS 116 replaces Ind AS 17 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings as of January 01, 2020. Due to the adoption of Ind AS 116 lessee is required to recognise assets and liabilities for all the leases with a term of more than 12 months unless the underlying asset is of quite low. Further, due to the adoption lease rent has been classified into depreciation and interest expenses.

A. Industry Structure and Developments

The COVID-19 pandemic has brought years of change in the way companies across different sectors and regions operate and collaborate. The consumers have shifted towards online channels, and businesses were somehow forced to respond in turn. Businesses have rapidly accelerated digital transformation for their customers, supply chain interactions, and internal operations.

Digital transformation has become imperative for some of the businesses to remain relevant in the pandemic-led new normal. The COVID-19 crisis has demonstrated the importance of digital initiatives in the areas of e-commerce, deliveries, supply chain virtualisation, process automation and other activities, especially where physical activities are restrictive.

These changes in consumer behaviour, business paradigm and processes are likely to continue in the long term as well. Additionally, the share of digital or digital enabled products has accelerated multi-fold and has further led to a rise in the investments and returns in the digital transformation projects. An accelerated migration to the cloud, faster roll out of 5G, using big data, AI and ML for data driven decision making and intelligent process automations will bolster digital transformation across industries in the 2020s.

C. Opportunities and Threats

R Systems has truly lived a transformation culture since its beginning. Towards the start of pandemic, the Company has taken timely decisions to ensure safety and welfare of its employees while closely working with customers towards their rapidly changing business needs. Year after year, we have been focusing and investing in strengthening our digital competencies and building a robust infrastructure, which has enabled us to accelerate

the digital transformation for our customer to tackle near term challenges as well as meeting the long term objectives.

The rapidly evolving economic and social environment has made digital transformation an imperative strategy for businesses within all the industries. Every organisation needs reliable partners who can navigate and stimulate their tech-focused transformation with an innovative, agile and customer-centric philosophy. Therefore, At

R Systems, we have structured and positioned ourselves to partner with global ISVs and enterprise customers to speed-up their transformation journey.

As every opportunity comes up with inherent risks and challenges, R Systems has geared itself to reckon with as well as address such risks and challenges including threats from competitors such as their disruptive tactics, new technologies, cyber security, intensifying demand for global talent, retention of employees and stringent governing norms regarding restrictions on outsourcing services.

At R Systems, these threat and uncertainties are monitored and managed proactively through well-planned risk mitigation processes and strategies.

Return on Net worth#	19.3%	17.2%	12.1%	20.5%	18.7%	9.1%

@ Debt equity ratio has increased due to PPP Forgivable loan which is classified under the term loan as at Dec 31, 2020.

% Current ratio has improved due to operation profit during the year.

* Interest coverage ratio has decreased mainly on account of adoption of Ind AS 116 leases which has classified the lease rent into depreciation and interest expenses.

Increase in operating profit, net profit margins and return on net worth is mainly on account of increase in revenue, efficiency in operations as coupled with rupee depreciation.

Note :

Debtors Turnover = Average Trade Receivables / Billed Revenue * 360

Operating profit = Profit before tax (PBT) less Finance cost, exceptional items and other income

Interest Coverage = Operating profit / Finance cost

Current Ratio = Current Assets / Current Liability

Debt Equity Ratio = Long term Borrowings / Net worth

Operating Profit Margin = Operating profit / Revenue

Net Profit Margin = Profit after tax (PAT) / Revenue

Return on Net worth = Profit after tax (PAT) / Net Worth.

Risk Management Report

The Management cautions readers that the risks outlined in this report are not exhaustive, are for information purposes only and may contain forward looking statements, the results of which may differ materially from those reflected. Investors and readers are requested to exercise their own judgment in assessing various risks associated with the Company.

OVERVIEW

Risk Management is a dynamic process which should constantly be able to identify all the emerging risks and propose solutions to manage them. The risk perception also constantly varies depending on the size of the business, business segment, location, scale of business. The essence of risk management strategy at R Systems lies in maximising areas of control over outcome and minimising areas where the Company has no control over outcome. R Systems recognizes that business conditions are constantly changing, evolving, and entering into cycles. Following is the model adopted by the Company for managing risk:

ENTERPRISE RISK MANAGEMENT STRUCTURE

Risk management is an integral part of the charter of the Board of Directors at R Systems. The Board is responsible for monitoring risk levels on various parameters and to suggest measures to address the same. The day to day management of the risk is entrusted to the management team of R Systems. Based on the philosophy of "No risks, No rewards", our management continuously keeps monitoring the level of our existence on the path of growth and within R Systems management structure, certain personnel are designated with responsibility of managing risks including ensuring compliance with laws, rules and regulations with the assistance of both internal and external resources. Further, formal reporting, escalation of risk events and control mechanisms ensure timely communication, response and proactive management of the risks.

RISK MANAGEMENT AT R SYSTEMS

1. Customer Concentration

R Systems revenues are dependent to a considerable extent upon relationships with a limited number of customers and retaining those customers. The percentage of total consolidated revenues during fiscal year 2020 and 2019 that R Systems derived from contracts with its top line customers is as follow:

Customer	Year Ended	
	December 31, 2020 (%)	December 31, 2019 (%)
Top 10	28.48	31.77
Top 5	18.96	20.39
Top 3	14.06	14.73
The Largest Customer	7.68	5.94

Concentration of revenues from a limited number of customers deepens our relationship with those customers but at the same time imposes a risk of dependence. Customer's vendor management strategies and business risks radiate on to R Systems through fluctuations in utilization, pricing for services and service level demands. All these factors could potentially impact revenues and profitability of R Systems.

INITIATIVES: The business model and strategy followed by R Systems involves serving the customers in a manner that they get measurable tangible benefits. When customers see value in the services / solutions that R Systems provides, we believe that customer's relationship can be nurtured into the long term. Further, with our proactive strategy of adding new customers, we attempt to reduce our dependency on a smaller number of customer relationships.

2. Geographical Concentration

R Systems has traditionally derived most of its revenues from the North America, given the technology focus and specialized outsourced product development services offered by it. The geographic break-up of the revenue is given below:

Revenues by Geographies	Year Ended	
	December 31, 2020 (%)	December 31, 2019 (%)
North America	68.02	65.21
Europe	13.22	14.98
SEAC*	16.25	16.97
India	1.58	1.50
Others	0.93	1.34
Total	100.00	100.00

* South East Asian Countries

Risk Management Report

INITIATIVES: In order to mitigate the risk of geographical concentration, R Systems has stepped up its business activities in other geographic areas like Europe, South East Asia etc.

3. Risks Associated with Fixed Price Contracts

Under our product engineering and digital offerings most of our assignments are on the basis of time and material task orders, some proportion of the services provided by us is in the nature of fixed bid assignments. Under fixed bid assignments, in the event of cost overruns, our profitability will be adversely affected.

INITIATIVES: We have our internal processes to ensure accuracy in the estimation of the time required to execute fixed price projects, and processes to implement and monitor the progress of such projects. Further, the experience gained from such projects is also used for new projects. However given the very nature of the fixed price projects, cost overruns and delayed deliveries cannot be ruled out.

4. Competition

The IT & ITES sector is a highly competitive sector. Our competitors include IT outsourcing firms in India as well as in other countries, national and multinational consulting and technology firms, Indian IT services firms, software firms and in-house IT departments of large companies. The competition in the IT industry is very intense and our competitors are aggressive in winning new business and customers that may drive a harder bargain.

INITIATIVES: We believe that R Systems is well positioned and enjoys following competitive advantages:

- Experience in providing end-to-end solutions and services to customers;
- Unique and proprietary processes with best practices, tools and methodologies for flawless execution;
- Investment in processes, talent and methodologies;
- Strong customer franchise consisting of large and mid-sized corporations;
- Strong financial position;
- Proven global delivery model;
- Our vertical focus for services and solutions;
- Industry best human resource practices to attract, develop, deploy and retain talent.

5. Disaster Prevention and Recovery

The IT industry is very sensitive to security risk and a real or perceived threat of a risk to the security and integrity of information available to us may adversely affect customer perception, give rise to litigation and reduce our customer base, thereby negatively affecting R Systems revenues and profit margins. The contracts entered into by R Systems

typically hold us solely responsible for maintaining satisfactory standards of personnel competency, conduct and integrity and for taking required disciplinary action.

R Systems may be vulnerable to risks due to natural or manmade calamities / disasters which may impact business operations, inflicting heavy economic losses and risk to employee safety.

INITIATIVES: R Systems has adopted industry-standard security precautions such as ensuring that our employees and strategic partners enter into non-disclosure and confidentiality agreements with us, verifying that there is no information leakage through test procedures, carrying out background checks and verifications, creating and maintaining data backups, and maintaining an adequate disaster recovery plan. R Systems makes continual investments in organisation behaviour and management processes to ensure that these certified industry standards are continually adhered to.

During the year 2020, HIPAA compliance test was done with zero non-compliance in one of the major clients in Healthcare Domain for Knowledge Services division. Apart from that, R Systems IT Infrastructure along with the projects/ process/ applications in scope was recertified on PCI DSS version V3.2.1.

As of the date of this report, Noida IT center is CMMI level 5 (Ver.1.3), PCMM Level 5, ISO 9001:2015, ISO 27001:2013 certified. Noida Knowledge Services Division is PCMM Level 5, ISO 27001:2013, ISO 9001:2015 certified and also for specific client(s) it is HIPAA compliant and PCI-DSS (ver.3.2.1) certified for IT Infrastructure along with the projects/ process/ applications in scope.

The continuing compliance with these standards demonstrates the rigor of R Systems processes and differentiates us to keep our competitive edge in service and product offerings.

Further, our distributed offshore and near shore infrastructure is seamlessly connected through a strong infrastructure design and appropriate bandwidth that provides us the capability to initiate and maintain uninterrupted support across the world.

Infrastructure redundancy, intra / inter-city recovery sites, work-from-home, onsite and split-site operations. Further, our distributed offshore and near shore infrastructure is seamlessly connected through a strong infrastructure design and appropriate bandwidth, work from home facility for employees that provides us the capability to initiate and maintain uninterrupted support across the world. Although the Company cannot avoid such risk that could impact the entire Industry, the Company has taken appropriate insurance cover for hazard events.

6. Talent Acquisition & Retention

The IT and BPO sector is highly competitive in terms of hiring strategy and incentives.

R Systems is highly dependent on its employees at various levels of the organisation to provide leadership, manage the business, to provide services and execute complex projects for the clients. These skilled professionals are in high demand by other organisations and if R Systems is unable to attract and retain the skilled people, it will affect R Systems ability to grow and provide services to its customers.

INITIATIVES: At R Systems, we follow industry best human resource practices such as PCMM level 5 to attract, develop, deploy and retain talent. The Company is committed to develop and innovate such programmes that motivates them and develop their potential and also inculcate leadership attributes of the employees, which helps us to retain the best talent in the industry.

7. Key Managerial Role & Succession Planning

Succession planning is one of the most critical functions of an organization. This is the process that identifies the critical and core roles of an organization and identifies and assesses the suitable candidates for the same. The process ramps up potential candidates with appropriate skills and experiences in an effort to train them to handle future responsibilities in their respective roles. Succession planning is applicable for all critical roles in any organization. The upper management of each practice or department is responsible for coming up with a suitable succession plan for each core position under his or her department.

INITIATIVES: R Systems being a CMMI Level 5 (Ver. 1.3) and PCMM Level 5 company has put in practice a well-documented and defined policy on Succession Planning. This applies to all key roles in the organization as agreed upon by the Senior Management. Mission critical and key roles include Chief Executive Officer, Senior Management Team comprising of VPs and other roles critical to business operations continuity. Succession planning at R Systems occurs at least on an annual basis during annual performance appraisal cycle.

Further, R Systems has extensive recruitment teams in the markets that operate to continuously recruit skilled personnel at various levels in the organisation. In addition, R Systems conducts a rigorous training program at the entry level to train new professionals and develop next generation of managers and leaders. R Systems deploys modern HR practices by offering competitive compensation and benefit packages and exciting work environment to attract and retain talent. Further, R Systems tries to mitigate the impact of attrition in the continuity of services

to the clients by using its proprietary processes and methodologies that allows the project teams to seamlessly share knowledge and collaborate on projects.

8. Technological Obsolescence

The IT and ITES sector is characterised by technological changes at a rapid rate, evolution of existing products and introduction of new products. R Systems makes investments in R&D with a view to keep pace with the latest developments in the technology space. Further, R Systems regularly hires, trains and nurtures domain and market specialists and continuously evaluates increasing the portfolio of technology alliances and partnerships to enrich our product and service mix. However, this risk cannot be fully mitigated despite the proactive investments made by R Systems.

INITIATIVES: We continuously enhance our competencies around latest technologies to deliver state of art Product and Solution for our customers.

9. Acquisitions

R Systems' growth strategy involves future strategic acquisitions, partnerships and exploration of mutual interests with other parties. These future acquisitions may not contribute to our profitability, and we may be required to incur or assume debt, or assume contingent liabilities, as part of any acquisition. We could have difficulty in assimilating the personnel, operations, software assets and technology of the acquired company. These difficulties could disrupt our ongoing business, distract our management and employees and increase our expenses.

INITIATIVES: R Systems will remain sharply focused on those acquisitions and partnerships that add to the competitive strengths of our business. Specific transactions are evaluated in detail with experienced internal personnel and external advisors, wherever relevant, before consummating any transaction. Deal teams conduct technical, operational, marketing due diligence and build detailed financial model to evaluate the risks and benefits of any transaction. Further, contractual agreements are negotiated with the advice of legal counsel to protect Company's interests.

10. Credit Risk

As a matter of business practice, the payment collection process may extend over a period of time. Customers budgeting constraints can impact their ability to make the required payments. In addition, the creditworthiness of our clients may deteriorate and we can be adversely affected by bankruptcies or other business failures of our customers.

INITIATIVES: R Systems' credit terms are standard and there is rigorous process in following up with customers for

Risk Management Report

payments as and when the invoices fall due for payment. The Company has suitably streamlined its processes to develop a more focused and aggressive receivables management systems to ensure timely collections as a result of the global liquidity crunch.

11. Foreign Currency Rate Fluctuations

Managing an equilibrium state in the light of the unfavourable movements in exchange rates involved in earnings and expenditure in foreign currency continues to be one of the challenges when exposed to global markets. A significantly large percentage of R Systems consolidated revenues are either foreign currency denominated or derived from export earnings. Whereas a major portion of the R Systems expenses in India are incurred in Indian Rupees. As a result, operating profits will be highly impacted by foreign currency rate fluctuations. While depreciation of the Indian Rupee would have a favourable bottom-line impact, an appreciation would affect R Systems profitability adversely.

INITIATIVES: R Systems cannot directly influence exchange rates, it is incumbent upon management to follow a well thought out policy to hedge the risk associated with foreign currency without taking speculative positions. R Systems attempts to minimize currency fluctuation risks on export earnings by taking forward covers on Rupee - USD/EURO exchange rate based on anticipated revenues and debtors at periodic intervals. R Systems has laid down appropriate policies and processes for the use of financial derivative instruments consistent with its risk management strategy. The Company does not use the foreign exchange forward contracts for trading or speculation purposes.

12. Inflation and Cost Structure

R Systems' cost structure consists of salary and other compensation expenses, overseas travel, and other general selling and administrative costs. Rapid economic development in India and increasing demand for global delivery may have a significant impact on these costs and the rate of inflation as relevant to the IT & ITES services industry. This is compounded by the fact that overseas competitors may treat their India strategy as a cost centre and develop the same regardless of the cost incurred and its impact on their profitability.

INITIATIVES: R Systems' major costs are salary and benefit cost that it incurs on employees. These costs may have a tendency to escalate faster than the rate of inflation because of the demand for skilled and experienced professionals. R Systems attempts to mitigate the risks associated with wage inflation by obtaining increased price from clients, increasing bench mark prices for

new business, enhancing productivity, increasing utilisation and inducting fresh graduates and training them. Further, R Systems has implemented robust processes and information systems to enable personnel to make the right decisions for revenue realisation and cost optimisation to minimise the risks of changes in salary cost structure.

13. Intellectual Property Rights

As a part of R Systems' business, there are risks associated with intellectual property of the Company, intellectual property of R Systems' customers who may be end users or even the intellectual property of the end user.

INITIATIVES: R Systems' information security arrangements are managed as per international standard ISO 27001 : 2013 series and are being audited by both internal and experts from third parties assessors who periodically audit and certify R Systems compliance.

R Systems has not registered some of its intellectual property under the relevant intellectual property laws and is in the process of applying for the same. We have applied for the registration of the following marks and their corresponding words as R Systems' trademarks:

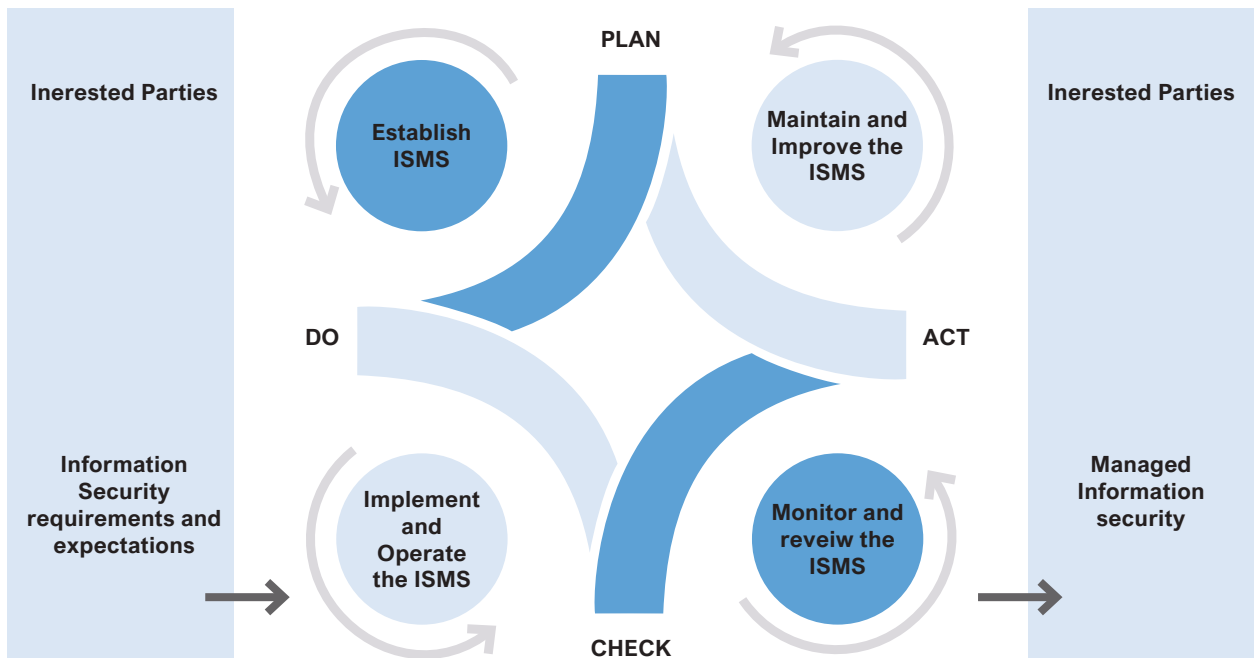

Out of the aforesaid trademarks three logo and two words are already registered w.e.f. January 30, 2006 and the word "IPLM" is awaiting approval. Further the Company has registered the word "R SYSTEMS" and logo  as trademark under certain additional classes. The Company has also registered logo  under certain appropriate classes. The Company has also registered the Word Mark "R SYSTEMS" in USA and is under process of registering Logo in USA and Europe.

14. Information Security Management

R Systems being an IT and Software service provider company, focusses on maintaining the confidentiality, integrity and availability of business data and information to the exclusive but optimum use for the accomplishment of organizational objective. The task of maintaining the confidentiality of business data and information not only faces threat from outside the organization but also within the organization where the business data and information are put to use.

INITIATIVES: For ensuring the effectiveness of Information security, it is important that information security can be effective only if it is addressed at people, process and technology levels and is integrated in the way an organization operates. R Systems has established, documented and implemented Information Security Management Systems (ISMS) and shall continually improve its effectiveness in accordance with requirements of ISO 27001:2013. The approach applied to the ISMS is given in Figure below:

R Systems security policy provides a framework for protecting confidentiality, integrity and ensuring availability of organization's Information assets to the authorized persons. This is to safeguard the interest of customer, business continuity and continual improvement of ISMS at R Systems. The security policy of R Systems has been designed to safeguard the risk associated with information security management.

15. Contractual Risk

The primary contractual risks that R Systems faces pertain to obligations of R Systems to provide services with full adherence to contracted terms of quality, time deadlines, output per hour, protection of confidential information, protection of intellectual property rights, patents and copyrights. R Systems has a rigorous process to evaluate the legal risks involved in a contract, ascertains its legal responsibilities under the applicable law of the contract and tries to restrict its liabilities to the maximum extent possible.

INITIATIVES: R Systems attempts to protect itself with "no consequential losses" and "maximum liability" clauses. R Systems also ensures that risks are protected through various insurances like professional liability, workers compensation, directors' and officers' liability, cyber &

crime insurance. The Company's past record in this regard has been good and there has been no significant damages awarded against the Company that has resulted in material adverse impact on our financial position. R Systems also has an escalation process to immediately involve senior management personnel in case R Systems customers or contractors make any assertion of breach of contract.

R Systems has employed professionals with adequate legal expertise who plays handy role in finalizing the various terms under written contracts on behalf of the Company. The experience gained from past contracts and transaction entered into by the Company are also analyzed and implemented for the new contracts envisaged by the Company. As a matter of practice depending upon the criticality of the transactions, contractual agreements are well discussed within the organization in coordination with technical team as well legal professionals and are also negotiated with the advice of legal counsel to protect Company's interests.

16. Execution Risk

A significant number of R Systems clients are Banking and Finance, Independent Software Vendors, Telecom and Digital Media, Retail & E-commerce, Healthcare,

Risk Management Report

Manufacturing and Logistic Companies. These clients need high quality and timely delivery of services with very stringent services level agreements. Any failure in delivery, quality, meeting service level bench agreements, product features and functionalities could adversely affect R Systems relationship with its clients, which could potentially impact R Systems revenues and profitability.

INITIATIVES: R Systems has continuously invested in processes, people, training, information systems, quality standards, frameworks, tools and methodologies to mitigate the risks associated with execution of projects. Adoption of quality models and practices such as ISO, Capability Maturity Model (CMM) and Six Sigma have ensured that risks are identified and mitigated at various levels in the planning and execution process. Further, senior management personnel, project managers and process leaders are entrusted with the responsibility to meet the project and service level expectations on various engagements. Planned intervention and escalation systems are further deployed to minimise risks.

17. Directors' and Officers' Liability Risks

The directors and officers of R Systems are required to take material decisions in the best interest of the Company. Such decisions might result in errors and omissions and R Systems might be sued by the other counterpart.

INITIATIVES: To mitigate this risk, the directors and officers take legal and expert advice when required and have taken various insurance policies outlined earlier including professional liability and directors' and officers' liability insurance. The Company attempts to limit its contractual liability for damages arising from negligent acts, errors, mistakes or omissions by directors and officers in rendering services, there can be no assurance that the limitations of liability set forth in its service contracts will be enforceable in all instances or will otherwise protect the Company from liability for damages. Though the Company maintains general liability insurance coverage, including coverage for errors or omissions, going forward, there can be no assurance that such coverage will be available on reasonable terms and in sufficient amount to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. The successful assertion of one or more large claims against the Company could adversely affect the Company's results of operations and financial condition.

18. Statutory Compliance

R Systems has trans-national operations. R Systems operates in various geographies and it has to ensure compliance of various applicable rules and regulations in those countries. R Systems is exposed to penalties and

other liabilities related to non-compliance or inadequate compliance in those countries.

INITIATIVES: R Systems uses independent legal counsel to advise the Company on compliance issues with respect to the laws of various countries in which the Company has its business activities and to ensure that R Systems is not in violation of the laws applicable.

R Systems has a compliance management system with qualified managers entrusted with compliance of various laws including the regulations applicable to public listed companies in India.

19. Visa Regulations / Restrictions

The majority of employees of R Systems are Indian nationals. The ability of R Systems to render its services in the US, Europe and other countries depends on the ability to obtain visas and work permits. Immigration to US, Europe and other countries are subject to legislative changes as well as variations in standards of application and enforcement due to political forces and economic conditions for example, any major change in immigration policy of USA may put the challenge to Indian IT Companies. It is difficult to predict the political and economic events that could affect immigrations laws or the restrictive impact they could have on obtaining or monitoring work visas. The reliance on visas makes R Systems vulnerable to such changes and variations as it affects the ability of the Company to staff projects with employees who are not citizens of the country where the work is to be performed. As a result, R Systems may not be able to get a sufficient number of visas for employees or may encounter delays or additional costs all of which may affect profitability.

INITIATIVES: R Systems monitors the status of visa availability and requirements on a regular basis in consultation with external legal counsel. In house legal personnel are entrusted with the responsibility for compliance with the immigrations laws which is validated by periodic independent audit. R Systems may expand its business in other geographies to de-risk from US business meanwhile it may boost US hiring. R Systems may look forward to change its business models so that it can deliver from different locations globally through innovation.

20. Political Risk

The Government of India has been favourably disposed towards the IT and BPO industry in India. Further, we operate in multiple countries of which the US is a major market. While most governments in the countries where we operate are in favor of free trade, we cannot be immune to changes in policies that may discourage off-shoring to protect local employment.

STANDALONE FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF R SYSTEMS INTERNATIONAL LIMITED REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying standalone financial statements of R Systems International Limited ("the Company"), which comprise the Balance Sheet as at 31 December 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 December, 2020, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be key audit matter to be communicated in our report.

Key audit matter	Auditor's Response
<p>Adoption of Ind AS 116 – Leases:</p> <p>As described in Note 2(a) to the standalone financial statements, the Company has adopted Ind AS 116 “Leases” with effect from January 01, 2020. The standard involves certain key judgements with respect to identification of leases, determination whether there is reasonable certainty that an extension or termination option will be exercised, identification of appropriate discount rate using the interest rate implicit in the lease or lessee’s incremental borrowing rate, as applicable, to calculate the lease obligation, measuring any impairment of the ‘right of use asset’, modification/termination to the leases etc.</p> <p>The new accounting standard additionally requires disclosures together with the information to be provided in the balance sheet, statement of profit and loss, the statement of cash flows and in the explanatory notes (Refer Note 3(b) and 32(a) to the standalone financial statements) which involve information with regard to right of use assets and liabilities.</p> <p>In addition to the above, there is a risk that the lease data which underpin the Ind AS 116 transition calculation is incomplete or inaccurate.</p> <p>Based on the above factors, the implementation of the new accounting standard on leases has been identified as a key audit matter.</p>	<p>We have performed the following procedures:</p> <ol style="list-style-type: none"> i. Evaluated the design and implementation of the relevant controls over the application of the new lease accounting standard in respect of the data used for transition calculation as well as for the current year, and from a sample of existing lease agreements, tested the operating effectiveness of such internal controls. ii. Reviewed the trial balance as at January 1, 2020 and December 31, 2020 to identify the ledger accounts which would have an operating lease included in them. Also, obtained list of active vendor contracts and on a sample basis, obtained contract copies to confirm on the completeness of all the lease contracts considered for computation and also to verify whether the contract contains any embedded lease element. iii. Selected a sample of contracts from such accounts identified and: <ul style="list-style-type: none"> » Tested if such contracts were considered as lease contracts if they met the condition specified in Ind AS 116. » Verified if the terms and conditions of the contracts identified as lease contracts were considered in the quantification of the lease amounts and disclosures. » Verified the discount rate used to determine lease obligation and measure any impairment of the right of use asset, where applicable. » Recomputed and compared the value of the right of use asset and the corresponding liability based on the above lease contracts and the discount rate and reconciled any material differences. iv. Tested the presentation and disclosures with reference to the requirements of Ind AS.

Information Other than the Financial Statements and Auditor's Report Thereon

- » The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report including Annexures to Director's Report and Risk Management Report, but does not include the standalone financial statements and our auditor's report thereon.
- » Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- » In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- » If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- » Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- » Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- » Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- » Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- » Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- » Obtain sufficient appropriate audit evidence regarding the financial information of the Company and its branch to express an opinion on the Standalone Financial Statements. We are responsible for the direction, supervision and performance of the audit of financial information of the business activities included in the Standalone Financial Statements.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on December 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on December 31, 2020 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **R SYSTEMS INTERNATIONAL LIMITED** (“the Company”) as of December 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform

the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over

financial reporting and such internal financial controls over financial reporting were operating effectively as at December 31, 2020, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

1. Nature of operations

R Systems International Limited (the 'Company' or 'R Systems') is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956 having its registered office at New Delhi. Its shares are listed on National Stock Exchange of India Limited and BSE Limited. The Company is a leading global provider of technology, artificial intelligence, RPA services and solutions along with knowledge services. The Company delivers its services and solutions to leading technology companies and businesses to enable their digital transformation. The Company's services and solutions span over five major business verticals i.e. Technology, Telecom, Healthcare and Life Science, Finance and Insurance, and Retail & e-commerce.

2. Significant Accounting Policies

(a) Statement of compliance

These standalone financial statements (the 'financial statements') are prepared in accordance with the Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standard) Rules as amended from time to time.

The Company has consistently applied accounting policies to all periods except for the following changes in Ind AS.

The Company has adopted Ind AS 116 'Leases' with the date of initial application being January 01, 2020. Ind AS 116 replaces Ind AS 17 – Leases and related interpretation and guidance. The standard sets out principles for recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Company has applied Ind AS 116 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at January 01, 2020. As a result, the comparative information has not been restated. Refer Note 32(a) for details.

For policy and disclosures related to previous year under Ind AS 17 'Leases' refer annual report of the Company for the year ended December 31, 2019.

(b) Functional and presentation currency

These financial statements are presented in Indian Rupee (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest million, unless otherwise indicated.

(c) Basis of preparation and presentation

The financial statements of the Company have been prepared under the historical cost convention on an accrual and going concern basis except for certain financial instruments and equity settled employee stock options which have been measured at fair value. Historical cost is generally based on the fair value of consideration given in exchange of goods and services.

Based on the nature of activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

(d) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price and directly attributable costs of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Capital work-in-progress includes cost of Property, Plant and Equipment that are not ready to be put to use.

When part of an item of property plant and equipment has different useful lives, they are accounted for as separate items (major component) of property plant and equipment. Subsequent expenditure related to an item of Property, Plant and Equipment is added to its book value only if it is probable that future economic benefits associated with the item will flow to the Company. All other expenses on existing Property, Plant and Equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the year during which such expenses are incurred.

Gains or losses arising from disposal of Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is disposed.

(e) Depreciation

Depreciation is calculated on cost of items of Property, Plant and Equipment and Investment Property, less their estimated residual values using the straight line method over the useful lives of the assets estimated by the management. The assets residual values and useful lives are reviewed at each financial year end or whenever there are indicators for review, and adjusted prospectively.

The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets and are in align with Part C of Schedule II of the Companies Act 2013.

The management estimates the useful lives are as follows:

Category	Useful life up to
Leasehold land	Lease Period
Buildings	30 years
Leasehold improvements	Lower of lease period or useful life
Plant and equipment - other than air conditioners	15 years
Air conditioners	5 years
Office Equipment (other than end user devices)	5 years
Computer hardware and network installations (other than end user devices)	6 years
End-user devices such as desktop, laptop, mobile phones etc.	3 years
Furniture and fittings	10 years
Vehicles	8 years
Electrical installation	10 years

(f) Intangible assets

Intangible assets with finite useful lives that are acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is disposed.

Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

A summary of amortisation policies are as follows:

Category	Useful life up to
Computer software	Lower of license period or 3 years

(g) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with requirements of Ind AS 16 for cost model.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

(h) Government grants

Grants and subsidies from the government are recognised when there is reasonable assurance that the grant / subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is deducted in reporting the related expenses over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

When the grant or subsidy relates to a capital item in form of reduced duty on import, it is deducted in carrying amount of an item of property, plant and equipment grants i.e. the asset is accounted for on the basis of its net acquisition cost. The grant on capital item is recognised in profit or loss over the life of a depreciable asset in the form of reduced depreciation expense.

(i) Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(j) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

- (i) Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):
- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
 - the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (FVTOCI) (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):
- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

(iii) Investments in equity instruments at FVTOCI

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they

are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

(iv) Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's

right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the Company, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

(v) Investment in subsidiary companies

Investment in subsidiary companies is measured at cost.

De-recognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- (i) For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- (ii) Changes in the carrying amount of investments in equity instruments at FVTOCI relating

to changes in foreign currency rates are recognised in other comprehensive income.

- (iii) For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

(k) Financial liabilities

For the purpose of subsequent measurement, financial liabilities are classified as:

- Financial liabilities at amortised cost
Financial liabilities such as loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. The change in measurements is recognised as finance costs in the statement of profit and loss.
- Financial liabilities at fair value through profit or loss (FVTPL)
Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all change recognised in the statement of profit and loss.

De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

The Company also derecognise a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit and loss.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in the statement of profit and loss.

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in statement of profit or loss.

(l) Impairment

i. Financial assets

The Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortised cost and financial assets that are debts instruments and are measured at fair value through other comprehensive income (FVTOCI). ECL is the difference between contractual cash flows that are due and the cash flows that the Company expects to receive, discounted at the original effective interest rate.

For trade receivables, the Company recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. For other financial assets, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

ii. Non-financial assets

The Company's non-financial assets, excluding deferred tax assets, are reviewed at each balance sheet date or whenever there is any indication of impairment based on internal/external factors. If any indications exist, the Company estimates the asset's recoverable amount.

An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's fair value and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

(m) Derivative financial instruments

The Company enters into foreign exchange forward contracts to manage its exposure to foreign exchange rate risks.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

Hedge accounting

The Company designates certain hedging instruments, which include derivatives, embedded derivatives and non-derivatives in respect of foreign currency risk, as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Fair value hedges

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The change in the fair value of the designated portion of hedging instrument and the change in the hedged item attributable to the hedged risk are recognised in profit or loss in the line item relating to the hedged item.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to profit or loss from that date.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity (but not as a reclassification adjustment) and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

(n) Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or development of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. All other borrowing costs are recognised as an expense in the period in which they are incurred.

(o) Leases*Where the Company is a lessee*

The Company's lease asset classes primarily consist of leases for land, buildings, vehicle and furniture. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract

conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after January 01, 2020.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

On 24 July 2020, the MCA has issued amendments to Ind AS 116, "Leases" under which Para 46A read with Para 46B provides lessee an option not to assess COVID-19-related rent concession as a lease modification. The amendments allowed the expedient to be applied to COVID-19-related rent concessions to payments originally due on or before June 30, 2021 and also require disclosure of the amount recognized in profit or loss to reflect changes in lease payments that arise from COVID-19-related rent concessions. The reporting period in which a lessee first applies the amendment, it is not required to disclose certain quantitative information required under Ind AS 8.

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense over the lease term.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing activity under cash flows statements.

Where the Company is a lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets comprising land and building which are subject to operating leases are included under non-current assets as investment property and are carried at cost less accumulated depreciation. Lease income on an operating lease is recognised in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognised as an expense in the statement of profit and loss.

(p) Revenue

The Company derives revenue primarily from software development and related services and business process outsourcing services. The Company recognises revenue when the performance obligations as promised have been satisfied with a transaction price and when there is no uncertainty as to measurement or collectability of the consideration.

The Company has applied the guidance in Ind AS 115, "Revenue from Contracts with Customers", by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering these services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts / incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company collects Goods and Service Tax on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

Arrangements with customers for services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognised ratably over the term of the underlying maintenance arrangement.

Revenue from licenses where the customer obtain a right to use are recognised at the time the licenses is made available to the customers.

Revenues in excess of invoicing are classified as contract assets (referred as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (referred as unearned revenues).

Unbilled revenue for fixed price contracts are classified as non-financial asset if the contractual right to consideration is dependent on completion

of contractual milestones. Unbilled revenue on contracts other than above is classified as a financial asset.

(q) Other income

Other income is comprised primarily of interest income, net gain on foreign exchange fluctuations, rental income and gain on investments. Interest income is recognised on a time proportion basis taking into account the carrying amount and the effective interest rate. Dividend income is recognised when the Company's right to receive dividend is established.

(r) Foreign currency transactions and balances

Foreign currency transactions are recorded in the functional currency of the Company, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates at the date when the values were determined.

Exchange differences

Exchange differences arising on conversion / settlement of foreign currency monetary items, exchange gain / loss on forward contracts and on foreign currency liabilities relating to Property, Plant and Equipment acquisition are recognised as income or expenses in the statement of profit and loss in the period in which they arise.

(s) Employee benefits

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related

actuarial and investment risks fall on the employee. The expenditure for defined contribution plans is recognised as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company. The present value of the defined benefit obligations is calculated using the projected unit credit method.

(i) The Company's contribution to provident fund, employee state insurance scheme and other social security plans are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

(ii) Gratuity is a defined benefit obligation plan operated by the Company for its employees covered under Company Gratuity Scheme. The cost of providing benefit under gratuity plan is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date and are charged to the statement of profit and loss except for the re-measurements comprising of actuarial gains and losses which are recognised in full in the statement of other comprehensive income in the reporting period in which they occur. Re-measurements are not reclassified to profit and loss subsequently.

(iii) Compensated absences

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilised accumulating compensated absences and utilise it in future periods or receive cash at retirement or termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognises accumulated compensated absences based on actuarial valuation. Non-accumulating compensated absences are recognised in the period in which

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

the absences occur. The Company recognises actuarial gains and losses immediately in the statement of profit and loss.

The Company presents the entire Compensated absences liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

(t) Employee stock compensation expenses

The employees of the Company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments granted (equity-settled transactions).

In accordance with Ind AS 102 – “Share Based Payments”, the cost of equity-settled transactions is determined by the fair value of the options at the date of the grant and recognised as employee compensation cost over the vesting period. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company’s best estimate of the number of equity instruments that will ultimately vest.

The expense recognised in the statement of profit and loss for a year represents the movement in cumulative expense recognised as at the beginning and end of that year and is recognised in employee benefits expense. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognised is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

(u) Income taxes

Tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or

to an item recognised directly in equity or in other comprehensive income.

Current tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred income taxes reflect the impact of temporary differences between tax base of assets and liabilities and their carrying amounts. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except deferred tax liability arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses, except deferred tax assets arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction. Deferred tax assets are recognised only to the extent that sufficient future taxable income will be available against which such deferred tax assets can be realised.

In the situations where the Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Company’s gross total

income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognised in the year in which the temporary differences originate.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available against which such deferred tax assets can be realised.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. MAT credit available is recognised as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement" under deferred tax assets.

(v) Segment reporting

The Company determines reportable segment based on information reported to the Chief Operating Decision Maker (CODM) for the purposes of resource allocation and assessment of segmental performance. The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments.

Each segment item reported is measured at the measure used to report to the CODM for the purposes of making decisions about allocating resources to the segment and assessing its performance.

Inter segment transfers:

The Company generally accounts for inter segment sales and transfers as if the sales or transfers were to third parties at current market prices.

Allocation of common costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items:

The corporate and other segment includes general corporate income and expense items which are not allocated to any business segment.

(w) Earnings per share (EPS)

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the reporting period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any occurred during the reporting period, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year, are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potential dilutive equity shares are adjusted retrospectively for all periods presented for any bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

Further, the weighted average number of equity shares used in computing the basic earnings per share is reduced by the shares held by R Systems Employee Welfare Trust at the balance sheet date, which were obtained by subscription to the shares from finance provided by the Company.

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

(x) Provisions

A provision is recognised when the Company has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(y) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably.

(z) Business combinations

Business combinations arising from transfers of interest in entities that are under the control of the shareholder that controls the Company are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the financial statements of the Company in the same form in which they appeared in the financial statements of the transferor company.

(aa) Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprises of cash at bank, cash in hand and short term deposits with an original maturity period of three months or less.

(ab) Use of estimates and judgement

The preparation of the financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the end of year. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Critical accounting estimates

i. Revenue recognition

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

ii. Income taxes

The Company's major tax jurisdictions is India, though the Company also files tax returns in other overseas jurisdictions. Significant judgements are involved in determining the provision for income taxes.

The Company reviews carrying amount of deferred tax assets at the end of each reporting period.

iii. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of depreciation is derived after

determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed periodically. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

iv. Leases

The Company considers all the extension-options under the commercial contract for determining the lease-term which forms the basis for the measurement of right-of-use asset and the corresponding lease-liability.

v. Impairment of investments

The Company reviews its carrying value of investments at each Balance Sheet date, or more frequently when there is an indication of impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

New standards, interpretations and amendments not yet adopted

a. Amendments to definition of 'business' under Ind AS 103, Business Combinations

On July 24, 2020, Ministry of Corporate Affairs has notified the amendments to Ind AS 103 – Business Combinations in connection with the definition of 'Business'. As per the amended definition, emphasis is given on goods and services provided to customers and reference to an ability to reduce costs has been removed. It is provided that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. The requirement to assess whether market participants are capable of replacing any missing inputs or processes is removed. The presumption that presence of goodwill is an indicator that an integrated set of activities and assets is a business is removed. An optional fair value concentration test has been introduced for simplified assessment of whether an acquired set of activities and assets is not a business.

The amendments are effective for business combinations for which the acquisition date is on or after beginning of the first annual reporting period beginning on or after the April 01, 2020 and to asset acquisitions that occur on or after beginning of that period.

The Company will adopt the standard on January 1, 2021. The effect of this amendment is expected to be insignificant.

b. Amendments to Ind AS 109 and Ind AS 107 in the context of interest rate benchmark reforms

The amendments deal with pre-replacement issues (issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark). The amendment is applicable to all hedging relationships directly affected by interest rate benchmark reforms.

A hedging relationship is directly affected by interest rate benchmark reform only if the reform gives rise to uncertainties about:

- Interest Rate benchmark designated as a hedged risk; and/or
- Timing or the amount of interest rate benchmark –based cash flows of the hedged item or of the hedging instrument.

The term 'interest rate benchmark reform' refers to the market-wide reform of an interest rate benchmark, including the replacement of an interest rate benchmark with an alternative benchmark rate such as that resulting from the recommendations set out in the Financial Stability Board's July 2014 report 'Reforming Major Interest Rate Benchmarks'.

The amendments are effective for annual periods beginning on or after 1 April 2020. As an exception to the general hedge accounting rule, an entity shall apply the amendments retrospectively in relation to:

- Those hedging relationships that existed at the beginning of the reporting period in which the amendments are first applied (or were designated thereafter), and
- Amount accumulated in the cash flow hedge reserve that existed at the beginning of the reporting period in which the amendments are first applied.

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

The Company will adopt the standard on January 1, 2021. The effect of this amendment is expected to be insignificant.

c. Amendments to Definition of 'Material'

Amendments Ind AS 1 and consequential amendments to Ind AS 8, Ind AS 10, Ind AS 34, and Ind AS 37. The new definition clarifies that, information is considered material if omitting, misstating, or obscuring such information, could

reasonably be expected to influence the decisions that the primary users of general-purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

The amendments are effective for annual periods beginning on or after 1 April 2020.

The Company will adopt the standard on January 1, 2021. The effect of this amendment is expected to be insignificant.

Subsequent to the year end, NCLT has approved the Scheme. However, the approval from the statutory authorities in Mauritius is still awaited.

(f) Employees Stock Option Plan

(i) R Systems International Limited Employees Stock Option Plan – Year 2001 ('the Plan' or 'ESOP Plan 2001')

Indus Software Private Limited ('Indus') had outstanding options aggregating 21,967 equity shares as on March 31, 2002, to be issued to the eligible employees under the R Systems International Limited Employees Stock Option Plan – Year 2001 under various vesting periods as specified in the said Plan, duly approved by the erstwhile shareholders. Indus had established "R Systems Employees Welfare Trust" ('the R Systems Trust') (formerly known as Indus Software Employees Welfare Trust) to administer the plan, as approved by the members, for the benefits of the Company's employees and had provided an interest free loan of ₹ 3.38 million. Consequently, Indus had allotted 21,967 equity shares of ₹ 10 each at a premium of ₹ 144 per equity share to the R Systems Trust to be further issued to the Indus' eligible employees on the exercise of the underlying options granted to them.

As a result of the merger of Indus with the Company, all employees had surrendered their options in favour of the R Systems Trust to enable them to obtain options for shares in R Systems International Limited after the merger.

The Company had issued 206,822 equity shares of ₹ 2 each at a premium of ₹ 113.42 per share to the R Systems Trust in exchange of 21,967 equity shares of Indus, apropos to the agreed swap ratio. During the earlier years out of the said 206,822 shares, 22,079 shares were issued to the employees on exercise of options.

The Company had consolidated each of its five equity shares of ₹ 2 each into one equity share of ₹ 10 each, then issued 1:1 bonus share to each of the then existing shareholder and further sub-divided each of the equity shares of ₹ 10 each into 10 equity shares of ₹ 1 each. Consequently, the total number of shares issued are now 738,980 equity shares of ₹ 1 each, which are treated as Treasury Shares.

The account balances of the R Systems Trust have been included in the standalone financial statements of the Company as the trust was created for the benefit of the employees and administered by the Company and in substance the R Systems Trust functions as an extension of the Company. As at December 31, 2019, an amount of ₹ 0.74 million and ₹ 2.28 million has been adjusted against issued, subscribed and paid-up capital and Securities Premium Account, respectively.

The movement in the options (in equivalent number of shares of the Company) held by the R Systems Trust during the year ended December 31, 2020 and the year ended December 31, 2019 is set out below:

	Year ended December 31, 2020	Year ended December 31, 2019

At the end		
- Grants outstanding under the plan (₹ 1 per share)	-	-
- Grants pending determination by the Compensation Committee (₹1 per share)	-	738,980

*Consequent to the approval of Hon'ble National Company Law Tribunal, New Delhi vide order dated January 20, 2020, 738,980 fully paid up equity shares of ₹1/- each of the Company as held by R Systems Employees Welfare Trust have been cancelled and extinguished and accordingly issued, subscribed and paid-up capital and securities premium account has been reduced by ₹ 0.74 million and ₹ 2.28 million, respectively.

(ii) R Systems International Limited Employee Stock Option Scheme 2007 ('the Plan' or 'ESOP Plan 2007')

During the year 2007, the Company had instituted the plan for all eligible employees as specified in the rules in pursuance of the special resolution duly approved by the shareholders. The plan provides for the issuance of 650,000 options to eligible employees as recommended by the Compensation Committee constituted for this purpose.

The plan is administered by a Compensation Committee and exercise price in respect of 632,500 options granted on July 11, 2007 is ₹ 120.70 being the latest available closing price, prior to the date of the meeting of the Board of Directors / Compensation Committee, on the stock exchange on which the shares of the Company are listed. Accordingly, the intrinsic value of Employee Stock Option is taken as ₹ Nil. Further, during the year ended December 31, 2014, the Company had sub-divided equity shares of ₹ 10 each into 10 equity shares of ₹ 1 each, the exercise price is accordingly adjusted from ₹ 120.70 per share to ₹ 12.07 per share.

NOTES

Disaggregate revenue information

The table below presents disaggregated revenues from the Company's contracts with customers by geography and customer's industry type. The Company believes this disaggregation best depicts how the nature, amount, timing and uncertainty of its revenues and cash flows are affected by industry, market and other economic factors.

Revenue by geography:

Finance and insurance	492.99	401.10
Others	585.09	459.02
	4,387.15	3,917.69

Trade receivables and contract balances

The company classifies the right to consideration in exchange for deliverables as either receivable or as unbilled revenue.

A receivable is right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognised as related service are performed. Revenue for fixed price maintenance contracts is recognised on a straight line basis over the period of contract. Revenue in excess of billing is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to clients is based on milestones as defined in the contract. This would result in timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non financial assets as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in Balance Sheet.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosures provide the aggregate amount of transaction price yet to be recognised as of the end of the reporting period and an explanation as to when the Company expects to recognise these amounts as revenue. Applying the practical expedients as given in IND AS 115, the Company has not disclosed the remaining performance obligations related disclosures where the revenue recognised corresponds directly with the value to customer of the entity's performance completed to date, typically those contracts where invoicing is on the basis of time-and-material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revaluations, adjustment of revenue that has not materialised and adjustments for currency.

Disclosure relating to remaining performance obligation relating to fixed bid price contracts require the aggregate amounts of transaction price yet to be recognised as revenue at the reporting date and expected timelines to recognise these amounts. In view of the fact that all outstanding contracts have an original expected duration for completion of less than a year no disclosure is warranted.

Fair value hierarchy:

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

28. Financial risk management**Financial risk factors and risk management objectives**

The Company's activities expose it to foreign currency risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimise potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. All derivative activities for risk management purposes are carried out by team that has the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivative for speculative purposes may be undertaken.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

Foreign currency risk

The Company's exchange risk arises from its foreign currency revenues (primarily in U.S. Dollars and Euros). A significant portion of the Company's revenues are in these foreign currencies, while a significant portion of its costs are in Indian Rupees. As a result, if the value of the Indian Rupee appreciates relative to these foreign currencies, the Company's revenues measured in Rupees may decrease or vice versa.

NOTES

TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

Derivative financial instruments

The Company holds foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. These derivative financial instruments are valued based on quoted prices for similar assets in active markets or inputs that are directly or indirectly observable in the marketplace. The Company has not applied hedge accounting as these forward contracts do not qualify for hedge accounting. As at December 31, 2020, the Company has recognised mark-to-market asset of ₹ 54.66 million (previous year : ₹ 13.29 million) relating to aforesaid foreign currency forward contracts resulting in to mark-to-market gain of ₹ 41.37 million (previous year mark-to-market loss of ₹ 9.3 million) for the year ended December 31, 2020 recorded as foreign exchange fluctuation.

The following table gives details in respect of outstanding foreign currency forward contracts:

Particular	As at December 31, 2020	As at December 31, 2019

[#] Others include currencies such as SGD, GBP and CAD.

Foreign currency sensitivity analysis

For the year ended December 31, 2020 and December 31, 2019, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and foreign currencies, would decrease / increase Company's profit before tax margin by approximately 1.57% and 1.67%, respectively.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk arises from deposits held with banks, investments with financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

The following table gives details in respect of revenues generated from top customer and top 5 customers:

Particulars	(₹ in million)	
	Year ended December 31, 2020	Year ended December 31, 2019
Revenue from top customer	239.84	372.24
Revenue from top 5 customers	954.35	1,212.12

No customer accounted for more than 10% of the revenue for the year ended December 31, 2020 and December 31, 2019. Further, no customer accounted for more than 10% of the receivable as at December 31, 2020, however one customer account for more than 10% of receivable as at December 31, 2019.

Investments including bank deposits

Credit risk on cash and bank balances is limited as the Company generally invests in deposits with banks. Investments primarily includes investment in liquid mutual funds having good rating. The Company does not expect any losses from non-performance by the counterparties.

Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The investment of surplus cash is governed by the Company's investment policy approved by the Board of Directors. The Company believes that the working capital is sufficient to meet its current requirements.

As at December 31, 2020, the Company had a working capital of ₹ 2,026.16 million including cash and cash equivalents and current fixed deposits of ₹ 1,586.48 million and current investments of ₹ 128.02 million. As at December 31, 2019, the Company had a working capital of ₹ 1,351.07 million including cash and cash equivalents and current fixed deposits of ₹ 676.86 million and current investments of ₹ 342.45 million. Accordingly, no liquidity risk is perceived

The table below provides details regarding the contractual maturities of financial liabilities:

29. Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company monitors the return on capital as well as the level of dividends on its equity shares. The Company's objective, when managing capital, is to maintain an optimal structure so as to maximise shareholder value. The capital structure is as follows:

Particular	(₹ in million)	
	As at December 31, 2020	As at December 31, 2019
Total equity attributable to the equity share holders of the Company	3,426.82	2,746.92
As percentage of total capital	89.19%	98.38%
Borrowings (including current maturities)	39.88	45.19
Lease liabilities (including current maturities)	375.50	-
Total borrowings and lease liabilities	415.38	45.19
As percentage of total capital	10.81%	1.62%
Total capital (equity, borrowings and lease liabilities)	3,842.20	2,792.11

The Company is predominantly equity financed which is evident from the capital structure table above. Further, the Company has always been a net cash company with surplus cash and bank balances invested in fixed deposit with banks and liquid mutual funds.

30. Segment information

Information reported to the Chief Operating Decision Maker (CODM) for the purpose of resource allocation and assessment of segment performance focuses on the types of services provided. The CODM has identified the following as its reportable segments.

- Information technology services
- Business process outsourcing services

Revenues and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly identifiable to each reportable segment have been allocated on the basis of associated revenues of the segment and manpower efforts. All other expenses which are not attributable or allocable to segments have been disclosed as unallocable expenses.

Assets and liabilities of the Company are used interchangeably between segments and the CODM does not review assets and liabilities at reportable segment level. Accordingly, segment disclosure relating to assets and liabilities has not been provided as per Ind AS 108.

Geographic segments are based on the areas in which the major customers of the Company operate and / or the area in which the assets are located. Although the Company's major operating divisions are managed on a worldwide basis, they operate in five principal geographical areas of the world which are: India, North America, South East Asian countries, Europe and Other areas.

32. Leases

a. Company as a lessee - Transition to Ind AS 116

Effective January 01, 2020, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on January 01, 2020 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the rate implicit in the lease or Company's incremental borrowing rate at the date of initial application.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

2. Applied the exemption not to recognise right-of-use assets and liabilities for low value leases.
3. Excluded the initial direct costs from the measurement of the right-of-use asset.
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

On adoption of Ind AS 116,

- a. The Company has recognised right-of use assets of ₹ 193.48 million and corresponding lease liability ₹ 208.44 million by adjusting retained earnings net of taxes of ₹ 10.49 million (including the impact of deferred tax asset created of ₹ 4.48 million as at January 01, 2020).
- b. Net carrying value of assets procured under the finance lease of ₹ 38.86 million (gross carrying and accumulated depreciation value ₹ 47.58 million and ₹ 8.72 million respectively) have been reclassified from Property, Plant and Equipment to Right- Of-Use assets.
- c. Obligations under Finance leases ₹ 31.99 million (non-current and current obligation under finance leases ₹ 31.35 million and ₹ 0.64 million respectively) have been reclassified to lease liabilities.
- d. Prepaid rent on leasehold land and other assets, which were earlier classified under other assets have been reclassified to right-of-use assets by ₹ 9.66 million.

Reconciliation of operating lease commitments as at December 31, 2019 under Ind AS 17 disclosed under Note 33 of annual standalone financial statements forming part of 2019 Annual Report with the lease liabilities recognised in the Balance Sheet as at January 01, 2020:

(₹ in million)	
Particulars	Amount
Operating lease commitment as on December 31, 2019	360.87
Recognition exemption for low value leases	(1.18)
Impact of discounting future lease payments	(151.25)
Lease liabilities recognized as on January 01, 2020	208.44

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF R SYSTEMS INTERNATIONAL LIMITED

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the accompanying consolidated financial statements of **R Systems International Limited** ("the Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as "the Group") which comprise the Consolidated Balance Sheet as at December 31, 2020, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries referred to in the Other Matter section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS') and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at December 31, 2020, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be key audit matter to be communicated in our report.

INDEPENDENT AUDITOR'S REPORT

Key audit matter	Auditor's Response
<p>Adoption of Ind AS 116 – Leases</p> <p>As described in Note 2.1(a) to the consolidated financial statements, the Company has adopted Ind AS 116 “Leases” with effect from January 01, 2020. The standard involves certain key judgements with respect to identification of leases, determination whether there is reasonable certainty that an extension or termination option will be exercised, identification of appropriate discount rate using the interest rate implicit in the lease or lessee’s incremental borrowing rate, as applicable, to calculate the lease obligation, measuring any impairment of the ‘right of use asset’, modification/termination to the leases etc.</p> <p>The new accounting standard additionally requires disclosures together with the information to be provided in the balance sheet, statement of profit and loss, the statement of cash flows and in the explanatory notes (Refer Note 3(b) and 33(a) to the consolidated financial statements) which involve information with regard to right of use assets and liabilities.</p> <p>In addition to the above, there is a risk that the lease data which underpin the Ind AS 116 transition calculation is incomplete or inaccurate.</p> <p>Based on the above factors, the implementation of the new accounting standard on leases has been identified as a key audit matter.</p>	<p>We have performed the following procedures:</p> <ol style="list-style-type: none"> i. Evaluated the design and implementation of the relevant controls over the application of the new lease accounting standard in respect of the data used for transition calculation as well as for the current year, and from a sample of existing lease agreements, tested the operating effectiveness of such internal controls. ii. Reviewed the trial balance as at January 1, 2020 and December 31, 2020 to identify the ledger accounts which would have an operating lease included in them. Also, obtained list of active vendor contracts and on a sample basis, obtained contract copies to confirm on the completeness of all the lease contracts considered for computation and also to verify whether the contract contains any embedded lease element. iii. Selected a sample of contracts from such accounts identified and: <ul style="list-style-type: none"> » Tested if such contracts were considered as lease contracts if they met the condition specified in Ind AS 116. » Verified if the terms and conditions of the contracts identified as lease contracts were considered in the quantification of the lease amounts and disclosures. » Verified the discount rate used to determine lease obligation and measure any impairment of the right of use asset, where applicable. » Verified if necessary adjustments arising from re-measurement of lease liability due to lease modifications/ termination, is appropriately made. » Recomputed and compared the value of the right of use asset and the corresponding liability based on the above lease contracts and the discount rate and reconciled any material differences. iv. Tested the presentation and disclosures (including presentation/disclosures arising consequent to lease modification/ termination) with reference to the requirements of Ind AS.

Information Other than the Financial Statements and Auditor's Report Thereon

» The Parent’s Board of Directors is responsible for preparation of the other information. The other information comprises the information included in the Director’s Report including Annexures to Director’s Report and Risk Management Report, but does not include the consolidated financial statements and our auditor’s report thereon.

» Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

» In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the

other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors.

- » If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate or cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- » Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- » Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- » Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- » Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.

INDEPENDENT AUDITOR'S REPORT

However, future events or conditions may cause the Group to cease to continue as a going concern.

- » Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- » Obtain sufficient appropriate audit evidence regarding the financial information of the branch, entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements of 23 subsidiaries, whose financial statements reflect total assets of ₹ 1,917.49 million as at December 31, 2020, total revenues of ₹ 3,212.55 million, total net profit after tax of ₹ 196.99 million and total comprehensive income of ₹ 180.31 million and net cash inflows amounting to ₹ 451.81 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by the other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements/ financial information of the subsidiaries referred to in the Other Matter section above we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the other auditors.

- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Parent as on December 31, 2020 taken on record by the Board of Directors of the Company and the reports of the statutory auditor of its subsidiary company incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on December 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent to its directors during the year is in accordance with the provisions of section 197 of the Act

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i) There were no pending litigations which would impact the consolidated financial position of the Group.
- ii) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
- iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary company, incorporated in India.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended December 31, 2020, we have audited the internal financial controls over financial reporting of **R Systems International Limited** (hereinafter referred to as “Parent”) and its subsidiary company, which is a company incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary company, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent and its subsidiary company, which is a company incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan

and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the subsidiary company, which is a company incorporated in India, in terms of their report referred to in the Other Matter section below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent and its subsidiary company, which is a company incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of other auditors referred to in the Other Matter section below, the Parent and its subsidiary company, which is a company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at December 31, 2020, based on "the criteria for internal financial control over financial reporting established by the respective companies

considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to subsidiary company, which is a company incorporated in India, is based solely on the corresponding report of the auditor of such company incorporated in India.

Our opinion is not modified in respect of the above matter.

2. Significant Accounting Policies

2.1 Basis of preparation and presentation

(a) Statement of compliance

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standard) Rules as amended from time to time.

The Group has consistently applied accounting policies to all periods except for the following changes in Ind AS.

The Group has adopted Ind AS 116 'Leases' with the date of initial application being January 01, 2020. Ind AS 116 replaces Ind AS 17 – Leases and related interpretation and guidance. The standard sets out principles for recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Group has applied Ind AS 116 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at January 01, 2020. As a result, the comparative information has not been restated. Refer to Note 33(a) for further details.

For policy and disclosures related to previous year under Ind AS 17 'Leases' refer annual report of the Company for the year ended December 31, 2019.

(b) Functional and presentation currency

Items included in the consolidated financial statements of each of the Company's subsidiaries are measured using the currency of the primary economic environment in which these entities operate (i.e. the "functional currency"). The Group uses the Indian Rupee (INR) as its reporting currency, which is the functional currency of the Parent Company. All amounts have been rounded-off to the nearest million, unless otherwise indicated.

(c) Basis of preparation and presentation

The consolidated financial statements of the Group have been prepared under the historical cost convention on an accrual and going concern basis except for certain financial instruments and equity settled employee stock options which have been measured at fair value. Historical cost is generally based on the fair value of consideration given in exchange of goods and services.

Based on the nature of activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.2 Principles of consolidation

The consolidated financial statements are prepared in accordance with the principles and procedures for the preparation and presentation of consolidated financial statements as laid down under Indian Accounting Standard (Ind AS) 110 Consolidated Financial Statements.

The consolidated financial statements include the financial statements of R Systems International Limited and its subsidiaries (as explained in note 1 above).

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's standalone financial statements. The Group follows uniform accounting year i.e. January to December.

The financial statements of the Company and its subsidiaries have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances / transactions.

Minority Interest's share in the net comprehensive income of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company. In case the losses applicable to consolidated minority are in excess of minority interest in the equity of the subsidiary, the excess, and any further losses applicable to the minority are adjusted against majority interest except to the extent minority has a binding obligation to, and is able to, make good losses. If the subsidiary subsequently reports profit, all such profits are allocated to the majority interest until the minority's share of losses previously absorbed by the majority has been recovered.

2.3 Summary of significant accounting policies

(a) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price and directly attributable costs of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Capital work-in-progress includes cost of Property, Plant and Equipment that are not ready to be put to use.

When part of an item of property plant and equipment has different useful lives, they are accounted for as separate items (major component) of property, plant and equipment. Subsequent expenditure related to an item of Property, Plant and Equipment is added to its book value only if it is probable that future economic benefits associated with the item will flow to the Group. All other expenses on existing Property, Plant and Equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the year during which such expenses are incurred.

Gains or losses arising from disposal of Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the

carrying amount of the asset and are recognised in the statement of profit and loss when the asset is disposed.

(b) Depreciation

Depreciation is calculated on cost of items of Property, Plant and Equipment and investment property less their estimated residual values using the straight line method over the useful lives of the assets estimated by the management. The assets residual values and useful lives are reviewed at each financial year end or whenever there are indicators for review, and adjusted prospectively.

The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets and are in align with Part C of Schedule II of the Companies Act 2013.

The management estimates the useful lives are as follows:

Category	Useful life up to
Leasehold Land	Lease period
Buildings	30 years
Leasehold improvements	Lower of lease period or useful life
Plant and equipment - other than air conditioners	15 years
Air conditioners	5 years
Office Equipment (other than end user devices)	5 years
Computer hardware and network installations (other than end user devices)	6 years
End-user devices such as desktop, laptop, mobile phones etc.	3 years
Furniture and fittings	10 years
Vehicles	8 years
Electrical Installation	10 years

(c) Intangible assets

Intangible assets with finite useful lives that are acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Gains or losses arising from disposal of an intangible asset

are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is disposed.

Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

A summary of amortisation policies are as follows:

Category	Useful life up to
Computer software	Lower of license period or 3 to 5 years
Customer Contract	Over the period of contract
Non-Compete	Period of Non-Compete

(d) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with requirements of Ind AS 16 for cost model.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

(e) Business combination, Goodwill and Intangible assets

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

Transaction costs incurred in connection with a business combination are expensed as incurred.

a. Goodwill

The excess of the cost of acquisition over the Group's share in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities is recognised as goodwill. If the excess is negative, a bargain purchase gain is recognised in capital reserve.

b. Intangible assets

Ind AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

Business combinations arising from transfers of interest in entities that are under the control of the shareholder that controls the Company are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the financial statements of the Company in the same form in which they appeared in the financial statements of the transferor company.

(f) Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(g) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

- (i) Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):
 - the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
 - the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (FVTOCI) (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):
 - the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
 - the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the

fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

(iii) Investments in equity instruments at FVTOCI

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or

- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

(iv) Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the Group, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

De-recognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- (i) For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- (ii) Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.
- (iii) For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

(h) Financial liabilities

For the purpose of subsequent measurement, financial liabilities are classified as:

- Financial liabilities at amortised cost
Financial liabilities such as loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. The change in measurements is recognised as finance costs in the statement of profit and loss.
- Financial liabilities at fair value through profit or loss (FVTPL)
Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all change recognised in the statement of profit and loss.

De-recognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired.

The Group also derecognise a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit and loss.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in statement of profit or loss.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in statement of profit or loss.

(i) Impairment**i. Financial assets**

The Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortised cost and financial assets that are debts instruments and are measured at fair value through other comprehensive income (FVTOCI). ECL is the difference between contractual cash flows that are due and the cash flows that the Group expects to receive, discounted at the original effective interest rate.

For trade receivables, the Group recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. For other financial assets, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

ii. Non-financial assets

The Group's non-financial assets, excluding deferred tax assets, are reviewed at each balance sheet date or whenever there is any indication of impairment based on internal/external factors. If any indications exist, the Group estimates the asset's recoverable amount.

An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's fair value and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

(j) Derivative financial instruments

The Group enters into foreign exchange forward contracts to manage its exposure to foreign exchange rate risks.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and

are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

Hedge accounting

The Group designates certain hedging instruments, which include derivatives, embedded derivatives and non-derivatives in respect of foreign currency risk, as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Fair value hedges

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The change in the fair value of the designated portion of hedging instrument and the change in the hedged item attributable to the hedged risk are recognised in profit or loss in the line item relating to the hedged item.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to profit or loss from that date.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity (but not as a reclassification adjustment) and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

(k) Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or development of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. All other borrowing costs are recognised as an expense in the period in which they are incurred.

(l) Leases

Where the Group is a lessee

The Group lease asset classes primarily consist of leases for land, buildings, computer hardware, vehicle and furniture. The Group, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after January 01, 2020.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

On 24 July 2020, the MCA has issued amendments to Ind AS 116, "Leases" under which Para 46A read with Para 46B provides lessee an option not to assess COVID-19-related rent concession as a lease modification. The amendments allowed the expedient to be applied to COVID-19-related rent concessions to payments originally due on or before June 30, 2021 and also require disclosure of the amount recognized in profit or loss to reflect changes in lease payments that arise from COVID-19-related rent concessions. The reporting period in which a lessee first applies the amendment, it is not required to disclose certain quantitative information required under Ind AS 8.

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the

lease payments associated with these leases as an expense over the lease term.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing activity under cash flows statements.

Where the Group is a lessor

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets comprising land and building which are subject to operating leases are included under non-current assets as investment property and are carried at cost less accumulated depreciation. Lease income on an operating lease is recognised in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognised as an expense in the statement of profit and loss.

(m) Revenue

The Group derives revenue primarily from software development and related services and business process outsourcing services. The Group recognises revenue when the performance obligations as promised have been satisfied with a transaction price and when there is no uncertainty as to measurement or collectability of the consideration.

The Group has applied the guidance in Ind AS 115, "Revenue from Contracts with Customers", by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering these services as distinct performance obligations. For allocating the transaction price, the Group has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The Group accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts / incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing

contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Group collects Goods and Service Tax, value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Group. Hence, they are excluded from revenue.

Arrangements with customers for services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognised ratably over the term of the underlying maintenance arrangement.

Revenue from licenses where the customer obtain a right to use are recognised at the time the licenses is made available to the customers.

Revenues in excess of invoicing are classified as contract assets (referred as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (referred as unearned revenues).

Unbilled revenue for fixed price contracts are classified as non-financial asset if the contractual right to consideration is dependent on completion of contractual milestones. Unbilled revenue on contracts other than above is classified as a financial asset.

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

(n) Other Income

Other income is comprised primarily of interest income, net gain on foreign exchange fluctuations, rental income and gain on investments. Interest income is recognised on a time proportion basis taking into account the carrying amount and the effective interest rate. Dividend income is recognised when the Group's right to receive dividend is established.

(o) Foreign currency transactions and balances

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit and loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

For the purposes of presenting the consolidated financial statements assets and liabilities of Group's foreign operations with functional currency different from the Company are translated into Company's functional currency i.e. INR using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period.

Exchange differences arising, if any are recognised in other comprehensive income and accumulated in equity.

On the disposal of foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to the statement of profit and loss.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the balance sheet date.

For translating income, expense and cash flows items, during the year ended December 31, 2020, the rates used were US \$ 1 = ₹ 73.90, Euro 1 = ₹ 84.34, Singapore \$ 1 = ₹ 53.57 and Canadian \$ 1 = ₹ 55.12. For translating assets and liabilities at the year-end, the rates used were US \$ 1 = ₹ 73.07, Euro 1 = ₹ 89.74, Singapore \$ 1 = ₹ 55.26 and Canadian \$ 1 = ₹ 57.31.

For translating income, expense and cash flows items, during the year ended December 31, 2019, the rates used were US \$ 1 = ₹ 70.27, Euro 1 = ₹ 78.66, Singapore \$ 1 = ₹ 51.50 and Canadian \$ 1 = ₹ 52.96. For translating assets and liabilities at the year-end, the rates used were US \$ 1 = ₹ 71.39, Euro 1 = ₹ 80.10, Singapore \$ 1 = ₹ 53.05 and Canadian \$ 1 = ₹ 54.79.

(p) Employee benefits

The Group participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Group's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee. The expenditure for defined contribution plans is recognised as expense during the period when the employee provides service. Under a defined benefit plan, it is the Group's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Group. The present value of the defined benefit obligations is calculated using the projected unit credit method.

(i) The Group's contribution to provident fund, employee state insurance scheme and other social security plans are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees

(ii) Gratuity is a defined benefit obligation plan operated by the Company for its employees covered under Group Gratuity Scheme. The cost of providing benefit under gratuity plan is determined on the basis of actuarial valuation using the projected unit credit method at

the reporting date and are charged to the statement of profit and loss except for the re-measurements comprising of actuarial gains and losses which are recognised in full in the statement of other comprehensive income in the reporting period in which they occur. Re-measurements are not reclassified to profit and loss subsequently.

(iii) **Compensated absences**

The employees of the Group are entitled to compensated absences. The employees of the Group can carry forward a portion of the unutilised accumulating compensated absences and utilise it in the future periods or receive cash at the retirement or termination of employment. The Group records an obligation for compensated absences in the period in which the employee renders the service that increases this entitlement.

Accumulated compensated absences which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulating compensated absences which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

The Group presents the entire leave encashment liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

(q) Employee stock compensation expenses

The employees of the Group receive remuneration in the form of share based payment transactions, whereby employees render services as consideration

for equity instruments granted (equity-settled transactions).

In accordance with Ind AS 102 – “Share Based Payments”, the cost of equity-settled transactions is determined by the fair value of the options at the date of the grant and recognised as employee compensation cost over the vesting period. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.

The expense recognised in the statement of profit and loss for a year represents the movement in cumulative expense recognised as at the beginning and end of that year and is recognised in employee benefits expense. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognised is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

(r) Income taxes

Tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Group operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

The Group off sets current tax assets and current tax liabilities only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred income taxes reflect the impact of temporary differences between tax base of assets and liabilities and their carrying amounts. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except deferred tax liability arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses, except deferred tax assets arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction. Deferred tax assets are recognised only to the extent that sufficient future taxable income will be available against which such deferred tax assets can be realised.

In the situations where the Group is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognised in the year in which the temporary differences originate.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available against which such deferred tax assets can be realised.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and

the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. MAT credit available is recognised as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement" under deferred tax assets.

(s) Government grants

Grants and subsidies from the government are recognised when there is reasonable assurance that the grant / subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is deducted in reporting the related expenses over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

When the grant or subsidy relates to a capital item in form of reduced duty on import, it is deducted in carrying amount of an item of property, plant and equipment grants i.e. the asset is accounted for on the basis of its net acquisition cost. The grant on capital item is recognised in profit or loss over the life of a depreciable asset in the form of reduced depreciation expense.

(t) Segment reporting

The Group determines reportable segment based on information reported to the Chief Operating Decision Maker (CODM) for the purposes of resource allocation and assessment of segmental performance. The CODM evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by business segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments.

Each segment item reported is measured at the measure used to report to the CODM for the purposes of making decisions about allocating resources to the segment and assessing its performance.

Inter segment transfers:

The Group generally accounts for inter segment sales and transfers as if the sales or transfers were to third parties at current market prices.

Allocation of common costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items:

The corporate and other segment includes general corporate income and expense items which are not allocated to any business segment.

(u) Earnings per share (EPS)

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the reporting period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any occurred during the reporting period, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year, are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potential dilutive equity shares are adjusted retrospectively for all periods presented for any bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

Further, the weighted average number of equity shares used in computing the basic earnings per share is reduced by the shares held by R Systems Employee Welfare Trust at the balance sheet date, which were obtained by subscription to the shares from finance provided by the Company.

(v) Provisions

A provision is recognised when the Group has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(w) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably.

(x) Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprises of cash at bank, cash in hand and short term deposits with an original maturity period of three months or less.

(y) Use of estimates and judgement

The preparation of the financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the end of year. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Group may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

Critical accounting estimates

i. Revenue recognition

The Group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Group to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

ii. Income taxes

The Group's major tax jurisdiction is India, though the Group also files tax returns in other overseas jurisdictions. Significant judgements are involved in determining the provision for income taxes.

The Group reviews carrying amount of deferred tax assets / liabilities at the end of each reporting period.

iii. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed periodically. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

iv. Leases

The Group considers all the extension-options under the commercial contract for determining the lease-term which forms the basis for the measurement of right-of-use asset and the corresponding lease-liability.

v. Impairment of investments

The Group reviews its carrying value of investments at each Balance Sheet date, or more frequently when there is an indication of impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

vi. Business Combination and Intangible Assets

Business combinations are accounted for using Ind AS 103, Business Combinations. Ind AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the fair value of contingent consideration and intangible assets.

New standards, interpretations and amendments not yet adopted

a. Amendments to definition of 'business' under Ind AS 103, Business Combinations

On July 24, 2020, Ministry of Corporate Affairs has notified the amendments to Ind AS 103 – Business Combinations in connection with the definition of 'Business'. As per the amended definition, emphasis is given on goods and services provided to customers and reference to an ability to reduce costs has been removed. It is provided that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. The requirement to assess whether market participants are capable of replacing any missing inputs or processes is removed. The presumption that presence of goodwill is an indicator that an integrated set of activities and assets is a business is removed. An optional fair value concentration test has been introduced for simplified assessment of whether an acquired set of activities and assets is not a business.

The amendments are effective for business combinations for which the acquisition date is on or after beginning of the first annual reporting period beginning on or after the April 01, 2020 and to asset acquisitions that occur on or after beginning of that period.

The Group will adopt the standard on January 1, 2021. The effect of this amendment is expected to be insignificant.

b. Amendments to Ind AS 109 and Ind AS 107 in the context of interest rate benchmark reforms

The amendments deal with pre-replacement issues (issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark). The amendment is applicable to all hedging relationships directly affected by interest rate benchmark reforms.

A hedging relationship is directly affected by interest rate benchmark reform only if the reform gives rise to uncertainties about:

- Interest Rate benchmark designated as a hedged risk; and/or
- Timing or the amount of interest rate benchmark –based cash flows of the hedged item or of the hedging instrument.

The term ‘interest rate benchmark reform’ refers to the market-wide reform of an interest rate benchmark, including the replacement of an interest rate benchmark with an alternative benchmark rate such as that resulting from the recommendations set out in the Financial Stability Board’s July 2014 report ‘Reforming Major Interest Rate Benchmarks’.

The amendments are effective for annual periods beginning on or after 1 April 2020. As an exception to the general hedge accounting rule, an entity shall apply the amendments retrospectively in relation to:

- Those hedging relationships that existed at the beginning of the reporting period in which the amendments are first applied (or were designated thereafter), and
- Amount accumulated in the cash flow hedge reserve that existed at the beginning of the reporting period in which the amendments are first applied.

The Group will adopt the standard on January 1, 2021. The effect of this amendment is expected to be insignificant.

c. Amendments to Definition of ‘Material’

Amendments Ind AS 1 and consequential amendments to Ind AS 8, Ind AS 10, Ind AS 34, and Ind AS 37. The new definition clarifies that, information is considered material if omitting, misstating, or obscuring such information, could reasonably be expected to influence the decisions that the primary users of general-purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

The amendments are effective for annual periods beginning on or after 1 April 2020.

The Group will adopt the standard on January 1, 2021. The effect of this amendment is expected to be insignificant.

(f) Employees Stock Option Plan

(i) R Systems International Limited Employees Stock Option Plan – Year 2001 ('the Plan' or 'ESOP Plan 2001')

Indus Software Private Limited ('Indus') had outstanding options aggregating 21,967 equity shares as on March 31, 2002, to be issued to the eligible employees under the R Systems International Limited Employees Stock Option Plan – Year 2001 under various vesting periods as specified in the said Plan, duly approved by the erstwhile shareholders. Indus had established "R Systems Employees Welfare Trust" ('the R Systems Trust') (formerly known as Indus Software Employees Welfare Trust) to administer the plan, as approved by the members, for the benefits of the Company's employees and had provided an interest free loan of ₹ 3.38 million. Consequently, Indus had allotted 21,967 equity shares of ₹ 10 each at a premium of ₹ 144 per equity share to the R Systems Trust to be further issued to the Indus' eligible employees on the exercise of the underlying options granted to them.

As a result of the merger of Indus with the Company, all employees had surrendered their options in favour of the R Systems Trust to enable them to obtain options for shares in R Systems International Limited after the merger. The Company had issued 206,822 equity shares of ₹ 2 each at a premium of ₹ 113.42 per share to the R Systems Trust in exchange of 21,967 equity shares of Indus, apropos to the agreed swap ratio. During the earlier years out of the said 206,822 shares, 22,079 shares were issued to the employees on exercise of options.

The Company had consolidated each of its five equity shares of ₹ 2 each into one equity share of ₹ 10 each, then issued 1:1 bonus share to each of the then existing shareholder and further sub-divided each of the equity shares

of ₹ 10 each into 10 equity shares of ₹ 1 each. Consequently, the total number of shares issued are now 738,980 equity shares of ₹ 1 each, which are treated as Treasury Shares.

The account balances of the R Systems Trust have been included in the standalone financial statements of the Company as the trust was created for the benefit of the employees and administered by the Company and in substance the R Systems Trust functions as an extension of the Company. As at December 31, 2019, an amount of ₹ 0.74 million and ₹ 2.28 million has been adjusted against issued, subscribed and paid-up capital and Securities Premium Account, respectively.

The movement in the options (in equivalent number of shares of the Company) held by the R Systems Trust during the year ended December 31, 2020 and the year ended December 31, 2019 is set out below:

Particulars	Year ended December 31, 2020	Year ended December 31, 2019

At the end		
- Grants outstanding under the plan (₹ 1 per share)	-	-
- Grants pending determination by the Compensation Committee (₹1 per share)	-	738,980

*Consequent to the approval of Hon'ble National Company Law Tribunal, New Delhi vide order dated January 20, 2020, 738,980 fully paid up equity shares of ₹1/- each of the Company as held by R Systems Employees Welfare Trust have been cancelled and extinguished and accordingly issued, subscribed and paid-up capital and securities premium account has been reduced by ₹ 0.74 million and ₹ 2.28 million, respectively.

(ii) R Systems International Limited Employee Stock Option Scheme 2007 ('the Plan' or 'ESOP Plan 2007')

During the year 2007, the Company had instituted the plan for all eligible employees as specified in the rules in pursuance of the special resolution duly approved by the shareholders. The plan provides for the issuance of 650,000 options to eligible employees as recommended by the Compensation Committee constituted for this purpose.

The plan is administered by a Compensation Committee and exercise price in respect of 632,500 options granted on July 11, 2007 is ₹ 120.70 being the latest available closing price, prior to the date of the meeting of the Board of Directors / Compensation Committee, on the stock exchange on which the shares of the Company are listed. Accordingly, the intrinsic value of Employee Stock Option is taken as ₹ Nil. Further, during the year ended December 31, 2014, the Company had sub-divided equity shares of ₹ 10 each into 10 equity shares of ₹ 1 each, the exercise price is accordingly adjusted from ₹ 120.70 per share to ₹ 12.07 per share.

On the recommendation of the Compensation Committee and Nomination and Remuneration Committee, the Board of Directors at its meeting held on April 30, 2016, had further granted 150,000 options at an exercise price of ₹ 12.07 /- per option under R Systems International Limited Employee Stock Option Scheme 2007.

The vesting period is 4 years (25% in each year) commencing from the date of grant under the plan. The eligible employees have an option to exercise it over a period of 10 years from the date of grant under the plan.

Trade receivables and contract balances

The company classifies the right to consideration in exchange for deliverables as either receivable or as unbilled revenue.

A receivable is right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognised as related service are performed. Revenue for fixed price maintenance contracts is recognised on a straight line basis over the period of contract. Revenue in excess of billing is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to clients is based on milestones as defined in the contract. This would result in timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non financial assets as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in Balance Sheet.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosures provide the aggregate amount of transaction price yet to be recognised as of the end of the reporting period and an explanation as to when the Group expects to recognise these amounts as revenue. Applying the practical expedients as given in IND AS 115, the Group has not disclosed the remaining performance obligations related disclosures where the revenue recognised corresponds directly with the value to customer of the entity's performance completed to date, typically those contracts where invoicing is on the basis of time-and-material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment of revenue that has not materialised and adjustments for currency.

Disclosure relating to remaining performance obligation relating to fixed bid price contracts require the aggregate amounts of transaction price yet to be recognised as revenue at the reporting date and expected timelines to recognise these amounts. In view of the fact that all outstanding contracts have an original expected duration for completion of less than a year no disclosure is warranted.

Fair value hierarchy:

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

b. Fair value measurement using significant Unobservable Inputs (Level 3)

29. Financial risk management

Financial risk factors and risk management objectives

The Group's activities expose it to foreign currency risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimise potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. All derivative activities for risk management purposes are carried out by team that has the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivative for speculative purposes may be undertaken.

NOTES

TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2020

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

Foreign currency risk

The Group operates globally with its operations spread across various geographies and consequently the Group is exposed to foreign exchange risk where the currency in which revenue is generated is different from the currency in which expenses being incurred. A significant portion of the Group' revenue are in USD and Euro where as the costs are incurred in INR or other local currencies. The Group holds plain vanilla forward contracts against expected future sales in USD and EURO to mitigate the risk of changes in exchange rates primarily against INR.

Derivative financial instruments

The Group holds derivative foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. These derivative financial instruments are valued based on quoted prices for similar assets in active markets or inputs that are directly or indirectly observable in the marketplace. The Group has not applied hedge accounting as these forward contracts do not qualify for hedge accounting. As at December 31, 2020, the Group has recognised mark-to-market asset of ₹ 54.66 million (previous year : ₹ 13.29 million) relating to aforesaid foreign currency forward contracts resulting in to mark-to-market gain of ₹ 41.37 million (previous year mark-to-market loss of ₹ 9.3 million) for the year ended December 31, 2020 recorded as foreign exchange fluctuation.

The following table gives details in respect of outstanding foreign currency forward contracts:

Foreign currency sensitivity analysis

For the year ended December 31, 2020 and December 31, 2019, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and foreign currencies, would decrease / increase Group's profit before tax margin by approximately 0.95% and 1.06%, respectively.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk arises from deposits held with banks, investments with financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

The following table gives details in respect of revenues generated from top customer and top 5 customers:

Particulars	(₹ in million)	
	Year ended December 31, 2020	Year ended December 31, 2019
Revenue from top customer	675.86	480.61
Revenue from top 5 customers	1,669.25	1,650.54

No customer accounted for more than 10% of the revenue for the year ended December 31, 2020 and December 31, 2019. Further, there is one customer account for more than 10% of the receivable as at December 31, 2020 and no customer had more than 10% of the receivable as at December 31, 2019.

Investments including bank deposits

Credit risk on cash and bank balance is limited as the Group generally invests in deposits with banks. Investments primarily includes investment in liquid mutual funds having good rating. The Group does not expect any losses from non-performance by the counterparties.

Liquidity risk

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The investment of surplus cash is governed by the Group's investment policy approved by the Board of Directors. The Group believes that the working capital is sufficient to meet its current requirements.

As at December 31, 2020, the Group had a working capital of ₹ 3,589.12 million including cash and cash equivalents and current fixed deposits of ₹ 3,127.05 million and current investments of ₹ 128.02 million. As at December 31, 2019, the Group had a working capital of ₹ 2,657.38 million including cash and cash equivalents and current fixed deposits of ₹ 1,551.40 million and current investments of ₹ 342.45 million. Accordingly, no liquidity risk is perceived.

30. Capital Management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group monitors the return on capital as well as the level of dividends on its equity shares. The Group's objective, when managing capital, is to maintain an optimal structure so as to maximise shareholder value. The capital structure is as follows:

(₹ in million)

Particular	As at December 31, 2020	As at December 31, 2019
Total equity attributable to the equity share holders of the Group	4,266.15	3,382.34

The Group is predominantly equity financed which is evident from the capital structure table. Further, the Group always has surplus cash and bank balances invested in fixed deposit with banks, commercial deposits and liquid mutual funds.

31. Segment information

Information reported to the Chief Operating Decision Maker (CODM) for the purpose of resource allocation and assessment of segment performance focuses on the types of services provided. The CODM has identified the following as its reportable segments.

- Information technology services
- Business process outsourcing services

Revenues and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly identifiable to each reportable segment have been allocated on the basis of associated revenues of the segment and manpower efforts. All other expenses which are not attributable or allocable to segments have been disclosed as unallocable expenses.

Assets and liabilities of the Group are used interchangeably between segments and the CODM does not review assets and liabilities at reportable segment level. Accordingly, segment disclosure relating to assets and liabilities has not been provided as per Ind AS 108.

Geographic segments are based on the areas in which the major customers of the Group operate and / or the area in which the assets are located. Although the Group's major operating divisions are managed on a worldwide basis, they operate in five principal geographical areas of the world which are: India, North America, South East Asian countries, Europe and Other areas.

33. Leases

a. Group as a lessee - Transition to Ind AS 116

Effective January 01, 2020, the Group adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on January 01, 2020 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Group recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the rate implicit in the lease or the incremental borrowing rate at the date of initial application.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.
2. Applied the exemption not to recognise right-of-use assets and liabilities for low value leases.
3. Excluded the initial direct costs from the measurement of the right-of-use asset.
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

On adoption of Ind AS 116,

- a. The Group has recognised right-of use assets of ₹ 294.53 million and corresponding lease liability ₹ 314.04 million by adjusting retained earnings net of taxes of ₹ 14.43 million (including the impact of deferred tax asset created of ₹ 5.09 million as at January 01, 2020).
- b. Net carrying value of assets procured under the finance lease of ₹ 56.41 million (gross carrying and accumulated depreciation value ₹ 65.52 million and ₹ 9.11 million respectively) have been reclassified from Property, Plant and Equipment and Intangibles assets to Right- Of-Use assets.
- c. Obligations under Finance leases ₹ 48.89 million (non-current and current obligation under finance leases ₹ 44.96 million and ₹ 3.93 million respectively) have been reclassified to lease liabilities.
- d. Prepaid rent on leasehold land and other assets, which were earlier classified under other assets have been reclassified to right-of-use assets by ₹ 9.66 million.

Reconciliation of operating lease commitments as at December 31, 2019 under Ind AS 17 disclosed under Note 33 of annual consolidated financial statements forming part of 2019 Annual Report with the lease liabilities recognised in the Balance Sheet as at January 01, 2020:

	(₹ in million)
Particulars	Amount
Operating lease commitment as on December 31, 2019	483.27
Recognition exemption for low value and short term lease	(12.36)
Impact of discounting future lease payments	(156.88)
Lease liabilities recognized as on January 01, 2020	314.04

Where the rate implicit in the lease is not determinable, the Group has discounted lease payments using the applicable incremental borrowing rate as at January 01, 2020. The weighted average incremental borrowing rate used by the Group is 7.80%.

NOTES

1. As you are aware, in view of the situation arising due to COVID-19 global pandemic, the Ministry of Corporate Affairs ("MCA") vide its circular dated May 5, 2020 read with circulars dated April 8, 2020, April 13, 2020 and January 13, 2021 (collectively referred to as "MCA Circulars") has permitted the holding of the Annual General Meeting ("AGM") through VC / OAVM, without the physical presence of the Members at a common venue. In compliance with the provisions of the Companies Act, 2013 ("Act"), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and MCA Circulars, the AGM of the Company is being held through VC / OAVM.
2. Since, the AGM is being conducted through VC/ OAVM, there is no provision for appointment of proxies. Accordingly, appointment of proxies by the members will not be available.
3. Corporate members intending to attend the AGM through authorised representatives are requested to send a scanned copy of duly certified copy of the board or governing body resolution authorising the representatives to attend and vote at the AGM. The said Resolution/ Authorization shall be sent to the Scrutinizer by email through its registered email address to sanjaygrover7@gmail.com with a copy marked to investors@rsystems.com.
4. The register of members and share transfer books of the Company shall remain closed from Saturday, May 15, 2021 to Wednesday, May 19, 2021 (both days inclusive) for the purpose of AGM.
5. Members holding shares in electronic form are advised to notify the changes, if any, in their address/ bank details/ mandate to their respective depository participants.
6. Members holding shares in physical form, may write to the Company or to the registrar and share transfer agent Link Intime India Private Limited ("RTA") for any change in their addresses and bank mandate.
7. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are therefore requested to submit the PAN to their Depository Participants with whom they are maintaining their Demat accounts. Members holding shares in physical form can submit their PAN details to the Company or to the RTA.
8. The statutory registers maintained under Section 170, 189 of the Act and all documents referred to in the Notice and accompanying explanatory statements will be available for inspection by members in electronic mode. Members can inspect the same by sending an email to investors@rsystems.com.
9. Pursuant to the provisions of Section 72 of the Act, shareholders are entitled to make nomination in respect of shares held by them in physical form. Shareholders desirous of making nominations are requested to send their requests in Form SH-13 (which will be made available on request) to the RTA or can be downloaded from the following URL: <https://www.rsystems.com/investors-info/corporate-governance/>.
10. Pursuant to provisions of Section 124 of the Act, dividend which remains unpaid or unclaimed for a period of seven years from the date of its transfer to unpaid dividend account, is required to be transferred by the Company to Investor Education and Protection Fund ("IEPF"), established by the Central Government under the provisions of Section 125 of the Act. Shareholders are advised to claim the unclaimed dividend lying in the unpaid dividend account from the Company's RTA or directly from the Company. It may be noted that once the unclaimed dividend is transferred to IEPF as above, no claim shall lie in respect thereof against the Company.
11. As per Section 124 of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, shares on which dividend remains unpaid/ unclaimed for seven consecutive years are required to be compulsorily transferred to IEPF. The Company has individually sent notices to such members whose shares are required to be transferred to the demat Account of IEPF Authority. An advertisement to this effect was also published in leading English and Hindi Newspapers, from time to time. The same is available on Company's website at the following Link: <https://www.rsystems.com/investors-info/unpaid-and-unclaimed-dividend/>.
12. In compliance with the aforesaid MCA Circulars and SEBI Circular dated May 12, 2020 & January 15, 2021, the Annual Report including audited financial statements for the financial year 2020 including notice of 27th AGM is being sent only through electronic mode to those Members whose email addresses are registered with the Company/ Depositories. Therefore, those Members whose email addresses are not registered with the Company or with their respective Depository Participant/s, and who wish to
