ANNEXURE-2
TO THE INDEPENDENT
AUDITORS' REPORT

(Referred to in paragraph 2(f) of our Report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of CJ Gelatine Products Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material aspects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedure selected depend upon the auditor's judgement, including the assessment of

the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has in all material respects an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

With effect from April,2018 i.e for the financial year ended March 31,2019, the Company has adopted and followed the Indian Accounting Standards (Ind AS) in the preparation of its financial statements. The financial statements have been prepared on a historical cost basis except when otherwise indicated.

2.2 Significant accounting policies**a. Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is treated as current when it is :

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading

- Expected to be realized within twelve (12) months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve (12) months after the reporting period.

All other assets are classified as non-current.

A liability is current when :

- It is held primarily for the purpose of trading
- It is due to be settled within twelve (12) months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve (12) months after the reporting period

All other liabilities are classified as non-current. The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve (12) months as its operating cycle.

b. Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and that the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government. The Company assesses its revenue arrangements against specific criteria , i.e whether it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services, in order to determine if it is acting as a principal or as an agent. Revenue is recognized, net of trade discounts, central excise duty, GST, VAT, service tax or other taxes, as applicable.

Sale of goods

Revenue from sale of goods is recognized in the statement of profit and loss when the significant risks and rewards in respect of ownership of goods have been transferred to the buyer as per the terms of the respective sales order. Revenue from the sale of goods is measured at the fair value of

consideration received or receivable, net of returns and allowances and discounts.

Interest income

For all financial assets measured either at amortised cost or at fair value, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating EIR, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in Other Income in the statement of profit and loss.

c. Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted at the reporting date. The Management periodically evaluates the positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases and operating loss carry forwards. Deferred tax assets are recognized subject to the management's judgement that realization is more likely than not. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled. The effect on Deferred tax assets and liabilities of a change in tax rates is recognized in the income statement in the period of enactment of the change. Provision relating to Deferred tax liability / asset is not made in the books.

d. Property, plant and equipment ("PPE")

Since there is no change in the functional currency, the Company has elected to continue with the carrying cost for all of its property, plant and equipment as recognized in its IGAAP financial statements as deemed cost at the transition date viz. April 1,2017.

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any. Such costs includes the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Capital work in progress comprises cost of PPE that are not yet ready for intended use as at the balance sheet date.

While cost of replacing parts of the plant and equipment is recognized in the carrying amount of the plant and equipment, if the recognition criteria are satisfied, all other repair and maintenance costs are recognized in the statement of profit and loss as and when they are incurred.

Depreciation is calculated on the written down value method (WDV) based on the useful lives and Residual values estimated by the management in accordance with Schedule II to the Companies Act, 2013. The identified components are depreciated separately over their useful lives and the remaining components are depreciated over the life of the principal asset.

Depreciation is calculated on Written down value over the estimated useful lives of the assets (As per Schedule II of the Companies Act,2013) as follows:

Type of Asset Useful Lives (Years)

Building - Factory	30
Plant & Machinery	15
Furniture & Fixtures	10
Computers & Accessories	03
Office Equipments	05
Vehicles	08

Gains or losses arising from de recognition of asset are measured as the difference between the net Disposal proceeds and the carrying amount of the asset on the date of disposal and are recognized in the statement of profit and loss when the asset is de recognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year and adjusted prospectively, if appropriate.

e. Inventories

Inventories of raw materials including stores and spares and consumables, packing materials, semi-finished goods, components, work-in-progress and finished goods are valued at the lower of cost and estimated net realizable value. Cost is determined on weighted average basis.

f. Retirement and other employee Benefits :

Retirement benefits in the form of provident fund, employee state insurance, gratuity and leave encashment are the contribution Schemes. The Company's contribution to Provident Fund and ESI are charged to Statement of Profit & Loss. Gratuity and Leave encashment benefits at the time of retirement are charged to Profit & Loss Account on the basis of actual payment.

g. Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- i. Financial assets that are debt instruments and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- ii. Financial assets that are debt instruments and are measured as at FVTOCI.
- iii. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18
- iv. Loan commitments which are not measured as at FVTPL
- v. Financial guarantee contracts which are not measured as at FVTPL

The Company follows simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

h. Contingent Liabilities:

A Contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resource embodying economic benefit will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

The Company does not recognize a contingent liability but discloses it as per Ind AS 37 in the financial statement.
