DO MORE WITH LESS

V-Mart has always been driven by the vision to create sustained value for the entire ecosystem. Our ethos of creating sustained value is even more relevant now, when resources are more scarce than ever before. Businesses, households and consumers are all searching for ways to create and derive more value from lesser resources at their disposal. In this uncertain time, making every rupee last longer and go farther is the spirit that is guiding our customers and other stakeholders.

The theme for our Annual and Integrated Report, 'Do More With Less' resonates with our vision and mission, and with these times.

V-Mart, as a responsible value retailer focusing on the aspirational Indian masses in smaller towns, has pivoted to the reality of Doing More With Less. In the way it conducts its business, it fulfils the needs and aspirations of its customers, employees and vendors, and creates sustained value for all its stakeholders.

OUR APPROACH TO REPORTING

V-Mart Retail Ltd. (V-Mart Retail/The Company) presents its first Annual and Integrated Report, comprising: an overview of the Company's business operations and performance, the stakeholder value creation approach and business model, and how the Company's strategic planning and execution create value over short, medium, and long term.

SCOPE AND BOUNDARY OF REPORT

The scope of this 2020 Integrated Annual Report incorporates the financial reporting boundary of V-Mart Retail. Beyond financial reporting and metrics, the report also includes non-financial performance, opportunities, strategic objectives, risks, and outcomes that our key stakeholders deeply care about and influence.

As a value retailer focusing on fashion, but also including merchandise for home and daily household consumption, our business model is based on long-term stakeholder relationships. We manage our broader business impact through comprehensive social, ethical, and environmental policies and practices.

REPORTING FRAMEWORK

At V-Mart Retail, we have been publishing a statutory Annual Report, in line with the Securities and Exchange Board of India (SEBI) (Listing Obligations and Disclosure Requirements) Regulations, 2015; Companies Act, 2013; and Secretarial Standards. This is our first Annual and Integrated Report, which is aligned with the principles of the International Integrated Reporting Framework (referred to as the <IR> framework) developed by the International Integrated Reporting Council (IIRC).

REPORTING PERIOD

The financial information is reported for the period April 1, 2019 to March 31, 2020. Comparative figures pertaining to financial, operating and stakeholder metrics have been incorporated for last three to five years to provide a holistic view to the stakeholders.

OUR APPROACH TO MATERIALITY

The Report presents an overview of our operational activities and strategic execution that help in long-term value creation. The Report also presents the issues that could substantively affect the organisation's ability to create value in the short, medium or long term and the process by which we address such issues.

FORWARD-LOOKING STATEMENTS

Certain statements in this Report regarding our business operations may constitute forward-looking statements. These include all statements other than statements of historical fact, including those regarding the financial position, business strategy, management plans and objectives for future operations. These are not intended to be a guarantee of future results, but constitute our current expectations based on reasonable assumptions.

CHAIRMAN AND MANAGING DIRECTOR'S MESSAGE

Dear Stakeholders,

It is a privilege, and also a humbling responsibility, to write to you again as the Chairman of the Board of V-Mart Retail.

The long-term consumption story of India remains intact: the largest base of young demographics globally (>800 million people below 35 years), per capita income crossing the retail spending 'inflection point' of USD 2,000, the 'aspirational' class accounting for nearly two-thirds of total households, and less than 30% organised retail penetration in the fashion segment.

Nearly two decades back, V-Mart pioneered the concept of value fashion in tier II and III cities, and has played an instrumental role in transforming the consumption landscape of small-town, aspirational India. Over the years, your Company has charted a consistent growth trajectory. This year was no exception. We opened a record number of new stores, expanding our footprint to more than 250 stores across 19

At V-Mart, we realise that COVID-19 has forced a 'Pause and Reset' button upon us. We did not have a choice. But, we do have a choice in what we do and how we act. Let me outline what your Company is doing to Respond, Renew and Reimagine in these times, and beyond.

states, surpassing the milestone of 2 million sq. ft. in retail area. Marking another significant milestone, we launched our omnichannel platform, taking affordable fashion to millions of more aspirational households across the country.

Keeping pace with our calibrated expansion, we enhanced our customer-centricity in significant ways - radically improving our merchandise depth and breadth, enhancing the customer experience of a V-Mart store as a fashion destination, personalising promotional and product suggestions through data analytics, and engaging more customers on digital media. All these efforts are synchronised and supported by a robust supply chain and technology backbone, which is crucial to realising our dream to 'take fashion to the remotest areas' of an aspirational India.

Faced with a constrained consumption environment during the year, we maintained a sharp focus on defending margins by improving productivity, and undertaking cost savings and efficiency enhancement initiatives. These measures exemplify our core value of Prudence and

will stand us in good stead for the unprecedented challenges arising from the COVID-19 pandemic, a crisis that will test us in many ways.

Let me share what your Company is doing, by outlining three themes - Respond, Renew and Reimagine.

RESPOND

Starting from the early days of coronavirus crisis, we activated our scenario planning-based risk management and response plan,

focusing on three priorities - keep our employees and customers safe, sustain the entire ecosystem, and prepare for rapid recovery and growth post-COVID.

For each of these priorities, guided by our Board of Directors, we have implemented specific initiatives, and are adapting to the changing situation.

- *For employee and customer safety*, we have prepared and implemented detailed 'Corona-Safe at V-Mart' SOPs at our head office, warehouse and stores. Apart from our store teams, the security, housekeeping and support staff were trained to follow and implement coronavirus safety guidelines and equipped with adequate supply of hand sanitizer, masks, gloves, thermal scanners and PPE. We have also developed a customer tokening system in-house and implemented it at all stores to prevent overcrowding.
- *Sustaining and caring for the broader ecosystem*, including vendors, business partners, and local communities has always been in the V-Mart DNA, and throughout the crisis, we are communicating with, engaging and supporting our stakeholders continuously. On the fiscal front, our early and prudent measures are aimed at ensuring that, through cash conservation and cost control, we can mitigate any financial risk to the Company and its ecosystem effectively. Also, I am happy to share that your Company has been at the forefront of providing relief and support to local communities through a dedicated CSR budget for our 260+ stores and store teams.
- *Preparing for rapid recovery and growth* means a playbook for contingent actions that will be needed to revive business operations, as the world stumbles back to activity. Acting with agility and acting before normalcy returns is a vital element of our 'play to win' approach, aimed at increasing mind share, share of wallet and market share. In a post-COVID world, as everyone learns to live with less and less becomes more, V-Mart is well-placed to tap into this opportunity as a value retailer with a proven ethos of value creation for all stakeholders.

The COVID-19 pandemic is redefining many aspects of the retailing business, and is altering consumer behavior, some in the short-term and some that could be permanent. While we are focused on protecting what is core to our business and business model, we are also pivoting to the new realities and opportunities.

RENEW

A shutdown brings the entire system to a halt and, is therefore, an opportunity to scrutinise each stationary nut-and-bolt, and identify what is not working well enough or can work better. In the manufacturing world, a planned shutdown is a fairly common and essential activity, to sustain and renew the efficiency and productivity of a production line. Faced with a sudden and forced shutdown, we switched our perspective to viewing this as an opportunity, and making the most of it.

An opportunity to review and renew core business processes, to change organisational habits and routines that may hinder productivity and

efficiency, and to mindfully unlearn and relearn what we may have held sacrosanct as the best or the only way of accomplishing business goals all these years. More specifically, this has meant a deep probing at a functional and process level, working more collaboratively internally and with our vendors and technology partners, to develop and pilot creative solutions in areas that remain in a constant whirl of activity in the normal times.

REIMAGINE

COVID-19 is predicted to trigger an economic contraction globally, adversely impacting consumer spending. However, looking beyond

the obvious writing on the wall, it also means discontinuous shifts could happen in how we live, work, use technology, consume products and services, and interact with brands and service providers. Many of these shifts will last beyond COVID-19, and compel retailers like us to rethink and reimagine their business and business model.

A low-touch and high-convenience shopping environment; cut back in discretionary spending; higher focus on wardrobe essentials; hygiene and wellness products; preference for seasonless design; a significant step up in digital interactions; search for brands that are more trustworthy and community-friendly – we foresee that many of these consumer shifts may endure in the mid to long term. Therefore, we are accelerating technology adoption, making processes and cost model more resilient and our supply chain more agile and localised, and adapting or even redesigning our value proposition to changing consumer preferences.

At V-Mart, we have been constantly raising the bar in every sphere of activity, to create higher value for all stakeholders. By adopting

better processes and technology, by enhancing capabilities and efficiency, by setting higher standards of customer service and corporate governance, and by caring for local communities - in every way, our endeavor is to be a better version of what we are today.

As we conclude this fiscal year, I am particularly delighted to note that our continued growth and market leadership journey is being achieved by staying true to our core values of Customer Centricity, Prudence, Commitment, Agility and Integrity. These values are part of the V-Mart DNA and continue to serve us well. With over 7,500 employees most of whom are from the economically underprivileged strata, 700+ vendors, and by further engaging over 10,000 people through indirect employment, you can be proud that your Company is actively contributing to the larger socio-economic betterment of our country.

In conclusion, I earnestly thank the V-Mart team for their exceptional resolve and commitment in facing the biggest crisis of our times. On behalf of our Board, and 7,500 plus V-Martians, I wish you a safe, peaceful and prosperous year ahead.

V-MART RETAIL TODAY

BUILDING ON OUR ROBUST FOUNDATION

Almost two decades back, V-Mart pioneered the concept of value fashion primarily in tier II, III and IV cities, providing a retail-mall-like shopping ambience to the newly-aspirational consumers.

Currently present across 191 cities in 19 states and UTs, we get nearly 393 lakhs footfalls annually, with 130 lakhs customers in our loyalty database, endorsing our growing pan-India popularity in the value fashion-seeking population of the country.

Since then, we have come a long way, evolving and growing with our customers and their aspirations in this new millennium. We exist to serve the new, aspirational India comprising millions of households in small towns, focusing on the youth and young families who dream of a better life, and for whom fashion is a small expression of that dream. Our journey has closely tracked the emergence of tier II, III and IV cities that barely existed on the map till two decades back, into hubs of rising aspirations that are fueling a rapid consumption growth.

V-Mart pioneered value fashion in the high population density clusters of North and East India, where aspirations have far outpaced the per capita income. Within a decade of its existence, V-Mart established a loyal customer base in its key catchments through its unique value proposition of Price “Less” Fashion, combined with the comfort and convenience of a retail mall-like ambience. As our markets and customers evolved over the years, V-Mart has continued to remain relevant for its customers, witnessed in more than 393 lakhs patrons visiting our stores annually. Now, with the customer landscape taking on a digital hue, V-Mart is

marching towards being a ‘connected retailer’ in step with a demographic that is increasingly digital-savvy.

Also, as less becomes more in a post-COVID world, and as everyone learns to live with less, we are adapting as a value retailer, building on the ethos of sustained value creation for all our stakeholders. With a ‘play-to-win’ approach, our aim is to increase mind share, share of customers’ wallet and our market share.

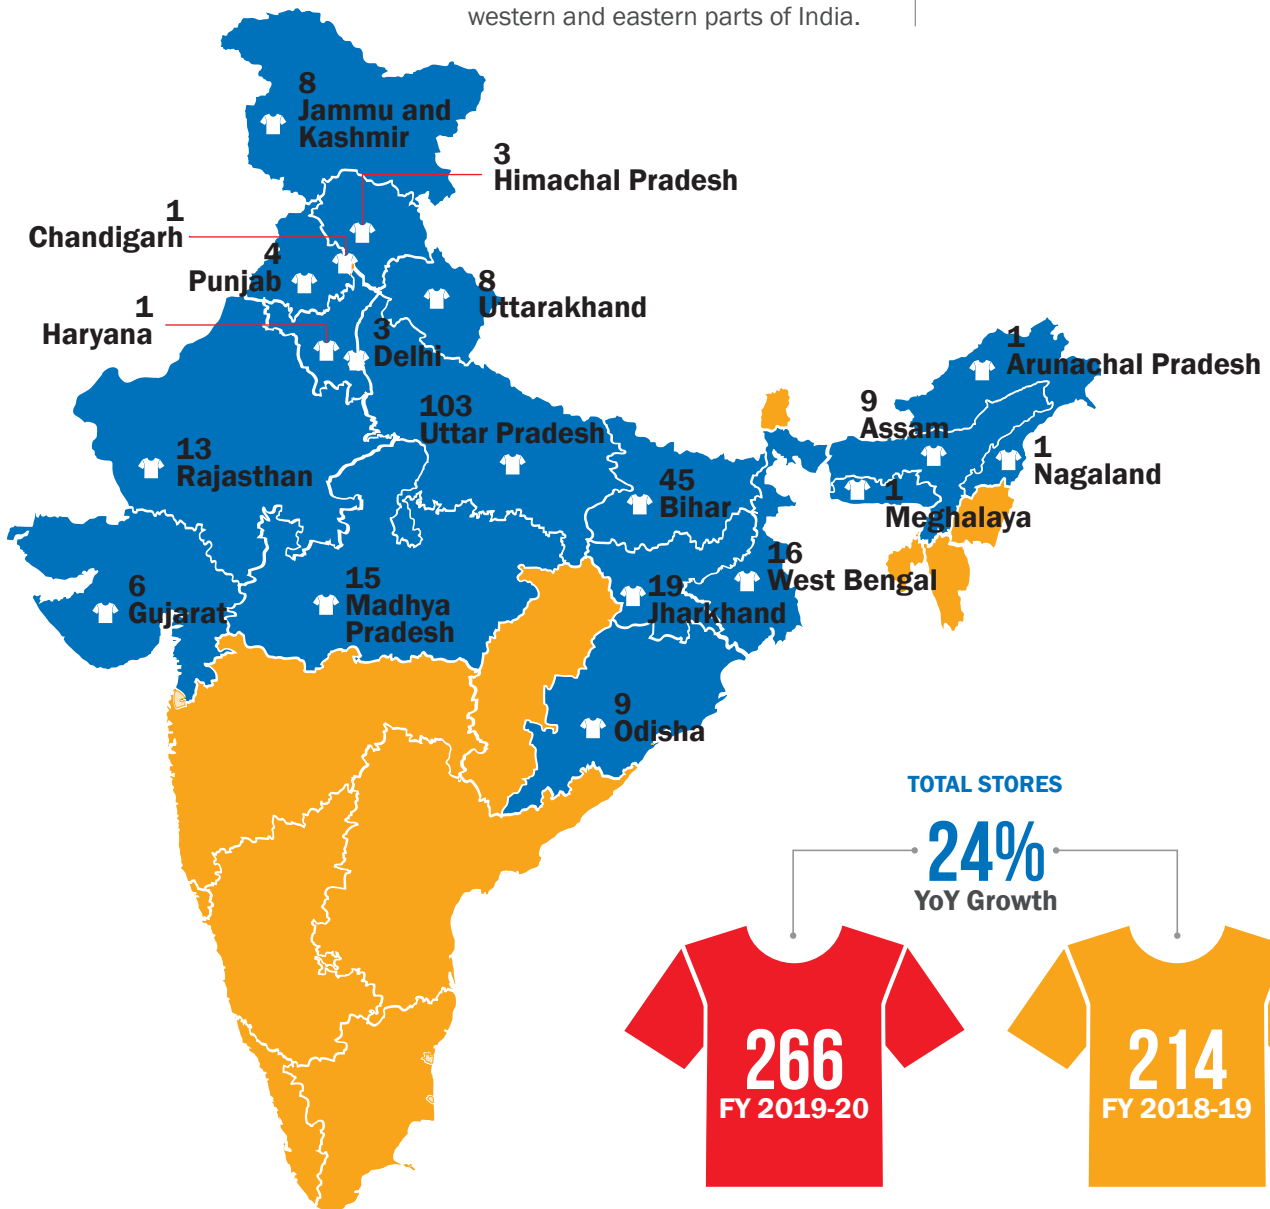

LEVERAGING GROWTH THROUGH A PAN-INDIA PRESENCE

Our stores, located over a total retail space of 22.1 lakhs sq. ft. in states/UTs such as Bihar, Chandigarh, Gujarat, Haryana, Jammu and Kashmir, Madhya Pradesh, New Delhi, Punjab, Rajasthan, Uttarakhand and Uttar Pradesh, are designed to cater to the needs of the entire family. Based in New Delhi, V-Mart has operations spread across northern, western and eastern parts of India.

EXPANDING NETWORK OF STORES

To deliver on our promise of taking value fashion to the doorstep of our growing expanse of customers pan-India, we have developed a robust network of 266 stores, spread strategically across markets that we target.

BUILDING ON OUR VISION, MISSION AND VALUES

VISION STATEMENT

Create value and make
our ecosystem proud.

MISSION STATEMENT

Care for customer aspirations,
discover and nurture talent,
sustained ethical growth for
stakeholders and harness
vendor relationships.

OUR CORE VALUES

- ▶ Understanding customer fashion preferences and trends in how we plan, buy and allocate
- ▶ Proactively approaching and assisting customers in always making the best buying decision for themselves
- ▶ Implementing and following customer friendly processes/policies that enhance customer's in-store experience

KEY VALUE BEHAVIOURS:

- ▶ Meeting deadlines, as committed, and not giving up till the job is done
- ▶ Going the extra mile by demonstrating complete ownership of assigned tasks
- ▶ Not accepting sub-standard output from self, colleagues, business partners or vendors

KEY VALUE BEHAVIOURS:

- ▶ Understanding/anticipating changes in the external business environment – customer, competitor, technology - and preparing our response proactively
- ▶ Identifying and addressing gaps that may prevent the organization from achieving its short- and long-term goals
- ▶ Designing/Improving processes and policies that improve the organization's ability to respond to change
- ▶ Motivating self, our teams and colleagues to execute with speed

PRUDENCE

We Deliver Value to Our Stakeholders by **being Cost-Conscious**

KEY VALUE BEHAVIOURS:

- ▶ Continuously identifying and implementing cost savings opportunities, without compromising on pre-defined quality and service standards
- ▶ Rigorous commercial negotiation with vendors without compromising on pre-defined quality benchmarks/metrics
- ▶ Thinking and acting responsibly and sustainably towards local communities and environment

- ▶ Putting the organization's interest over that of the team and self
- ▶ Maintaining confidentiality of business-sensitive information and plans, internally and externally
- ▶ Not accepting any material gains or favours from subordinates/ vendors/customers
- ▶ Always displaying positivity and a problem-solving mindset and attitude

AN ADAPTIVE BUSINESS MODEL

We have created a business model that is agile and adaptive in responding to market, customer and competitive dynamics. Also, while we remain firmly in control of our strategic direction through our business model, our cost structure is geared to extract the most optimal value in every business activity. This has allowed us to remain cost-efficient even as we have expanded our business and invested in pursuing growth.

CLUSTER-BASED APPROACH

Our cluster-based approach of ‘creeping expansion’ is aimed at generating visibility, supply chain efficiencies, rapid scalability leading to buying/procurement flexibility and cost savings. Typically, our new locations are strategically placed within a 50-150 km radius from an existing store cluster. These locations are identified and vetted by an in-house new store operations (NSO) team, based on a multi-dimensional business assessment matrix.

SOURCING EFFICIENCIES

Our strong sourcing capability is backed by an efficient logistics network, which is supported by a robust IT infrastructure, systems and processes, thus enabling us to deliver on our value retailing promise. We secure our merchandise optimally to ensure there is no compromise on quality while keeping prices affordable. To optimise costs, we have implemented several technological changes at the warehouse, as well as at the stores.

ASSET-LIGHT MODEL

Our Company-Owned, Company-Operated (COCO) stores are on long-term rental lease, which prevents us

from getting saddled with expensive real estate, significant capex that would have compromised scalability and/or led to high debt burden. With over 700 districts in India, majority of which are in the tier II and III category, V-Mart has developed a scalable and efficient business model to grow and expand in a calibrated manner for several years to come. It is our endeavour to ‘take fashion to the remotest areas’.

SEAMLESS CUSTOMER EXPERIENCE (CX)

With our target customer segments, youth and young families, becoming more digital-savvy, we are transforming from a bricks-and-mortar-only retailer to an omnichannel retailer. This is a significant step forward for our business model to be digital-ready in ways that our customers seek and need.

CUSTOMER AT THE CORE

Our customers are at the heart of our business and strategy, the focus of our vision and deeply connected with our core values. The 'Customer at the Core' approach resonates outwards and inwards, impacting all elements of our business. We map our customers' evolution and journey both from an internal and external perspective, assess how we perform at all stages of their journey, and at key touchpoints, develop a brand promise that can be brought to life and lived daily in how our associates serve them.

SERVING OUR CUSTOMERS

V-Mart continues to bring affordable fashion to millions of households in remote towns, offering them trends and choices they aspire to have in their wardrobe, and in their daily lives. The mix of latest fashion, trendy designs and value pricing, makes our stores a preferred destination for family fashion. At a time when our customers and local communities are battling the COVID-19 pandemic and financial distress, we have adapted our customer-centric ethos to provide what they value the most – a safe shopping environment, higher value through assortment choices and price points, and helping customers prioritise and fulfil their family's fashion needs .

TARGET CUSTOMER

A V-Mart customer is typically in the age group of 18-35 years, aspirational, with a monthly household income of Rs 20,000 to Rs 50,000, and Residing in tier II, III and IV cities primarily. She aspires to live better, explore possibilities and spend wisely, and seeks trendy

and high value-for-money fashion. For her, buying fashion apparel is a much-awaited and generally carefully-budgeted shopping occasion, often also coinciding with a celebration or festival. She prefers the 'touch and feel' shopping experience in a comfortable retail mall-like environment.

RELEVANT AND DIFFERENTIATED ASSORTMENTS

The diversity of V-Mart's offerings has emerged as a key propeller of its journey to deliver value fashion to the aspirational consumers and their unique needs, across diverse regions of the country. Guiding our value fashion portfolio is our deep understanding of the emerging needs and aspirations of consumers.

Fashion has a dominant share in our product portfolio. This is a conscious choice, driven by our DNA and a deep understanding of fashion needs, preferences and aspirations of our target customer segments. Over the years, we have translated and strengthened this understanding into sourcing capabilities and long-standing vendor relationships that enable us to create relevant and differentiated product assortments. The uniqueness and popularity of our fashion merchandise is evident in the consistently high sell-throughs we are able to achieve across our basic, popular and premium categories.

Beyond fashion, we also offer a limited but relevant assortment of value-priced kirana and FMCG products, with the most popular categories being staples, snacks, spices and noodles. In the post-COVID world, we foresee that wellness, beauty and hygiene products will be more sought after by our customers, and plan to expand our product portfolio suitably. Even though we have a relatively limited assortment and a smaller store network (one-fourth of total) providing kirana and FMCG products, the suppliers and merchandise are rigorously chosen, to ensure our customers get quality they can trust at a price that suits their budget.

Our stores, located on a standalone basis in high-street areas and shopping hubs serve to provide a comfortable and aspirational shopping experience to new-age customers primarily in tier II, III and IV cities. We provide a vast range of products, including apparels, home furnishings, footwear, kirana and general merchandise, all under one roof.

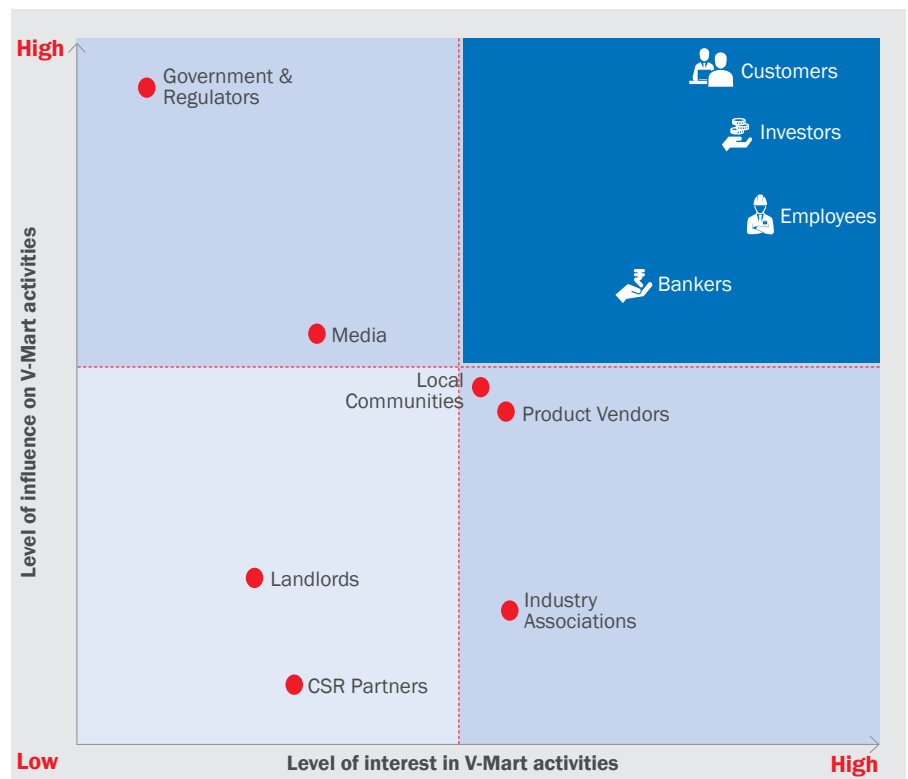

OUR STAKEHOLDERS

We recognise that our success is defined by the success and wellbeing of our stakeholders. The Company's relationship with its stakeholders is symbiotic. This is reflected in how we conduct our business activities and fulfil stakeholder priorities.

We fulfil fashion aspirations of nearly 400 lakhs customers every year, and directly touch or impact the lives of thousands of employees, and a broader stakeholder ecosystem primarily comprising vendors, business partners and investors. In addition, V-Mart regularly engages with government and regulatory agencies and media, and is also deeply connected with local communities through its CSR initiatives. Our extensive reach and diverse stakeholder landscape gives us the opportunity, and also places upon us the responsibility to engage with them. This is fundamental to enabling our strategic objectives and fulfilling our vision and mission.

ENABLING SKILL DEVELOPMENT

V-Mart Skill Academy has been envisioned with a focus on contributing to nation-building by providing training/skilling and employment opportunities to the underprivileged youth in our local communities.

Our Skill Development Academy is building its base across North and East India in a phased manner to bring the best possible training and skilling options, and provide employment opportunities in the retail sector to underprivileged youth looking for a brighter future. The Academy started its first training centre in May 2018 at Lucknow in Uttar Pradesh under the government's DDUGKY - UPSDM* programme, with a capacity of approximately 150 candidates, focusing on extremely poor families in remote villages. Today, it has grown to more than 3,000 enrolled candidates, who are being imparted job-centric, skill development training across eight centres in four states. The newly-skilled participants also serve as a captive source of quality manpower for V-Mart stores.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL ECONOMY IN A FRAGILE SITUATION, WITH RECOVERY TAKING A SLOW TRAJECTORY

Faced with the COVID-19 pandemic and its fallout, the global economy is experiencing a sudden and sharp setback, recovery from which may be prolonged and slow.

As recently as in January 2020, a World Bank report had projected the global GDP growth at 2.5% for 2020, recovering slightly from a 12-year low of 2.4% in 2019, which was due to weakened global trade and investment. However, within a span of a few months, the outbreak of the COVID-19 pandemic has reversed the needle sharply, with projections for

the global economy becoming worse with each passing month.

Alluding to the sudden and sharp reversal, Kristalina Georgieva, the Managing Director of the International Monetary Fund (IMF), stated in April 2020: “Today, we are confronted with a crisis like no other. In fact, we anticipate the worst economic fallout since the Great Depression. Just three months ago, we expected positive per capita income growth in over 160 of our member countries in 2020. Today, that number has been turned on its head: we now project that over 170 countries will experience negative per capita income growth this year. The bleak outlook applies to advanced

and developing economies alike. This crisis knows no boundaries.”

OUTLOOK

The IMF estimates the global economy to contract by 3% in 2020, far worse than the 0.7% contraction in 2009 following the financial crisis. The US and EU area economies may shrink by an alarming 5.9% and 7.5%, respectively. Asia, with zero percent growth, its worst performance in six decades, may still fare relatively better. China, the world’s second-largest economy, may scrape through with a 1.2% growth. However, projections for all the regions globally may be revised downwards, depending on the duration and

severity of extended and recurring national lockdowns required to contain the virus outbreak.

What could be the implication of these projections for the global fashion industry? As per McKinsey, the revenue for the industry (apparel and footwear sectors) could contract by 27% to 30% in 2020 year-on-year, although the industry may regain positive growth of 2% to 4% in 2021.

INDIAN ECONOMY CAUGHT ON A WEAK FOOTING BY COVID-19

In FY 2019-20, India's economy is estimated to have grown by 4.2%, the lowest since the 3.1% rate recorded in FY 2008-09, in the immediate aftermath of the global financial crisis. Furthermore, counting backwards from Q2 of the fiscal year under review, India witnessed six successive quarters of declining GDP growth, and its worst string of quarter-to-quarter performance in more than two decades. Even though GDP growth recovered marginally in the third quarter to 4.7%, it is evident that the Indian economy had been losing steam over the last two fiscal years. A slowdown in private consumption, weakness across core sectors, declining investment in infrastructure and construction, and lingering liquidity squeeze triggered by the NBFC crisis are some of the key factors dragging the Indian economy lower.

Further, underscoring the continued challenge in maintaining fiscal stability, the country's fiscal deficit reached 115% of the FY 2019-20 target in November 2019 itself, breaching the annual targeted threshold third year in a row.

Furthermore, counting backwards from Q2 of the fiscal year under review, India witnessed six successive quarters of declining GDP growth, and its worst string of quarter-to-quarter performance in more than two decades.

OUTLOOK

Given the already weakening economic and fiscal situation, the impact of COVID-19 will be felt far and deep in the Indian economy. As per the projections of rating agencies ICRA and Crisil, India's GDP will contract by around 5% in FY 2020-21, with the economy going into recession following two consecutive quarters of contraction, in Q1 and Q2, respectively. This could be deeper than any recession India has ever experienced. SBI Research has projected a much higher GDP contraction at 6.8% year-on-year in FY 2020-21, with the first quarter GDP shrinking more than 40%, followed by a recovery from Q2 onwards, if the pandemic situation stabilises.

An already precarious fiscal deficit, overstretched state and central government resources to battle COVID-19 and to provide relief and stimulus to the needy, and tax revenue collection falling off the cliff – all these factors severely limit the government's ability to take substantial measures to revive consumption.

A silver lining in the dark clouds could be rural consumption, bolstered by a record harvest of the Rabi crop, and nearly on-track food grain procurement by the government during Q1 FY 2020-21 despite the disruption caused by the lockdown. This would translate into substantial income for more than 200 million farmers, thus building a financial buffer for the months ahead, and could cushion the consumption shock in smaller towns and semi-urban pockets.

Also, with the forecast of a normal southwest monsoon in 2020, timely sowing and a rich harvest of Kharif crop, rural income may get a fillip later in the year. Another upside, in rural and semi-rural pockets, with millions of migrant workers headed home from big cities, could come from higher enlistment in the Mahatma Gandhi National Rural Employment Guarantee (MGNREGA) scheme, the rural employment guarantee scheme of the central government with 7.6 crore active job cardholders.

INDIAN RETAIL SECTOR OVERVIEW

Retail-focused private consumption accounts for half of the total private consumption in India and contributes 30% to the national GDP. At 2012-17 CAGR of 12%, India was one of the fastest-growing and among the most preferred retail destinations globally.

Looking ahead, the growth of the retail sector comprising unorganised, organised and e-commerce segments will be driven primarily by organised retail and faster adoption of e-commerce. As compared to the overall retail sector CAGR growth of 12% during 2018-2021, organised

brick-and-mortar and e-commerce are projected to grow by 22% and 33% CAGR, respectively. Most of the organised retail segment growth will come from the under-penetrated tier II-V cities, where growing disposable income and improving physical infrastructure are some favourable developments. The growth potential for organised retail in India is underscored by the fact that its penetration is still around at 10%, significantly lower than that in China (20%), Brazil (63%), and the US and the UK (both 92%).

Chart 1: Indian Retail Industry Split

Source: Spencer's Retail, Technopak Analysis (Jan-2018), SSL

As per Redseer, e-commerce growth in India has been led by consumer electronics, primarily budget smartphones with 3-5% net margins. Overall, smartphones have accounted for half of the e-commerce market, followed by fashion (20%) and other electronics (19%). Indicating a distinct shift in market dynamics, Redseer estimates that during 2018-2023, e-commerce growth will be driven by grocery and fashion, with a CAGR of 60% and 35%, respectively. In the wake of COVID-19 crisis, as social distancing norms and fear of getting infected trigger a bigger consumer shift towards online shopping, many bricks-and-mortar retailers are adding or augmenting their online presence. Even though some of this surge in online shopping could be a short-term phenomenon, COVID-19 will likely alter consumer shopping behaviour in a more enduring and 'sticky' manner, increasing the appeal of an online or omnichannel proposition for brick-and-mortar retailers. The growing adoption of a digital 'way of living and consuming' as a sticky and sustained trend is well-established by multiple

waves of McKinsey Consumer Sentiment surveys conducted in India since April 2020.

Traditional retail, on a large existing base, is projected to grow at a CAGR of 10%. However, it will continue to command the dominant share of the retail pie due to its unmatched geographical reach, customer knowledge, personalised services and convenience. While the organised brick-and-mortar and e-commerce retail are witnessing dynamics shifts, the traditional retail base of more than 17 million independent shopkeepers and retailers in India is also undergoing a rapid transformation. This is being led by the Walmart-owned Flipkart, Amazon and also Reliance which is developing a hyperlocal online retailing platform to on-board small retailers, who do not have the resources and technological expertise required for an omnichannel access to their customer base.

OUTLOOK

The nationwide lockdown during Q1 FY 2020-21 had brought the retail business to a standstill, and the slow recovery commencing with Unlock 1.0 may be further prolonged due to recurring episodes of COVID-19 pandemic in various parts of the country. A weak economic environment, large scale job losses, and lower household income will hurt consumer sentiments and spending. Most of the retail members of the Retailers Association of India (RAI), the industry body representing the organised retail segment, believe the impact of COVID-19 may last at least 9-12 months and revenue may be impacted by 30-50% over nine months (Q2-Q4, FY 2020-21).

FASHION RETAILING IN INDIA

Fashion retailing in India is poised to reach a market size of USD 115 billion by 2026, growing at a ten-year CAGR of nearly 10%. As per McKinsey, by 2025, 45% of this market will be in the organised retail format, therefore still leaving a long runway for organised retailers to grow their share of the apparel retail pie.

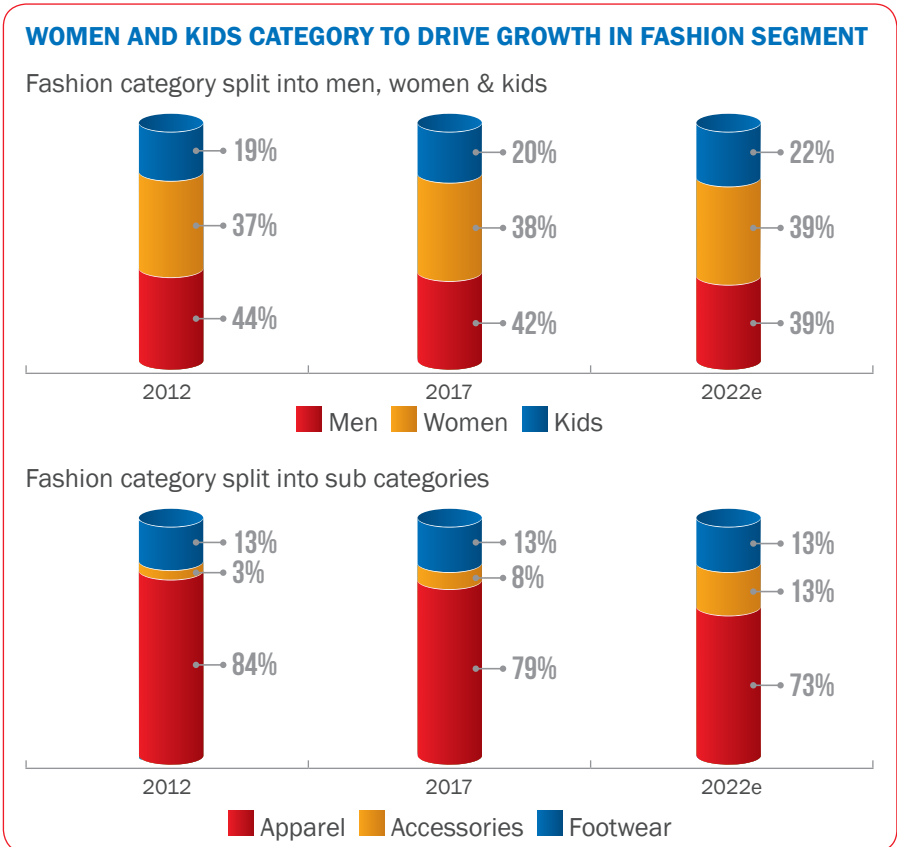

Chart 2: Fashion Retail Market Size

Broadly, the fashion apparel market is split into three distinct demographic segments - Men's, Women's and Kids. In contrast with other big retail markets globally, the share of Men's category in the Indian fashion apparel market has been substantially higher than that of Women's. However, this gap has been consistently narrowing over the years, and by 2022, Men's and Women's segments are likely to have 39% share each. Kids as a category accounted for 20% of the total market in 2017, and its share will increase to 22% by 2022, favoured by India's demographics wherein almost 28% of the population (325-350 million) is below 15 years of age.

Most of the retail members of the Retailers Association of India (RAI), the industry body representing the organised retail segment, believe the impact of COVID-19 may last at least 9-12 months and revenue may be impacted by 30-50% over nine months (Q2-Q4, FY 2020-21).

Chart 3: Fashion Retail Segment Split

VALUE FASHION (VF), A ‘DEFENSIVE’ SEGMENT WITH LUCRATIVE GROWTH POTENTIAL

With still only one-third of fashion apparel retailing in the organised retail format, and a majority of the merchandise in the Rs 500-1,000 price range, organised value fashion retail is at an inflexion point. As per HDFC Securities, at a market size of USD 27 billion currently, Value Fashion (VF) offers the biggest untapped opportunity in the Indian apparel sector. Moreover, in the current context, given its higher emphasis on value-for-money positioning, particularly in the ‘VF Mass’ segment where the average selling price (ASP) is less than Rs 350, value fashion among all apparel segments, is the least vulnerable to consumption shock resulting from a drastic fall in discretionary spending. Also, given its ‘defensive’ (i.e., more affordable) price positioning, Value Fashion is the most likely segment in apparel retail for an early bounce back, and will lead a gradual recovery that could span a few quarters.

Over the long term, the biggest sustained driver of Value Fashion in India will be favourable consumer demographics, riding on the back of an increasing per capita income and growing disposable income. As depicted in Chart 4, 140 million households in India will be classified as Next Billion by 2026, defined as those belonging to the annual income range of Rs 1.5-5 lakh/annum, and accounting for 46% of total Indian households. The next biggest household segment is Aspirers, in the annual income range of Rs 5-10 lakh/annum, accounting for one-fifth of total households in the country.

Chart 4: Indian Households by Annual Income Level

Source: Boston Consulting Group
Note: Income distribution is calculated in constant 2015 Dollars; \$1 = INR 65

Together, the household segments of the Next Billion and the Aspirers will comprise nearly two-thirds of India’s population, 65% of which is less than 35 years old. Despite the bleak consumption outlook in the immediate term as a fallout of COVID-19, India’s base of young and aspirational demographics, which is the largest globally, with a growing disposable income, presents a compelling case for the value fashion story to gather continuing momentum in the years to come.

Over the long term, the biggest sustained driver of Value Fashion in India will be favourable consumer demographics, riding on the back of an increasing per capita income and growing disposable income.

At the front-end, with customers becoming more digital-savvy in how they explore and consume fashion, retailers are relying on using advanced analytics and ERP systems to scan the consumer mindset and tailor retail formats, including omnichannel, and the pricing and promotion strategy accordingly.

KEY TRENDS

Value-centric buying to dominate

With reduced household income and discretionary spending due to COVID-induced economic turmoil, consumers will become even more value-conscious. However, the consumers' tendency to look for higher value may not be necessarily in terms of lower prices, but equally importantly, they may seek more value in new and different ways. It could mean retailers providing deeper product expertise and more involved product discovery experience, i.e., helping consumers decide what to buy and explain why it makes sense; a unique product education, i.e., helping consumers learn how to use the product better and do this over time, not just during the moment of purchase; or, a more connected experience spanning the entire consumer journey - before, during, and after the purchase.

Shift towards casualisation

Driven by the younger consumer segments, who are exhibiting more mobility, openness and desire to experiment, and are opting for more trendy and smart casual wear, fashion retailing is witnessing a distinct trend towards casualisation. This is reflected in the growing demand for categories such as denims, T-shirts, casual shirts, tops, and activewear like track pants and bermudas, outpacing the overall apparel segment growth. Even at the workplace, casual dressing is gaining wider acceptance, with consumers experimenting more with colours, designs and fits.

More occasion-specific wardrobe choices

Consumers, particularly the youth, no longer consider fashion apparel or even daily fashion wear as a basic, need-based product. Instead, they consider it as a choice that reflects their overall personality. 'Creating a look' that goes with an occasion, i.e., gym, work, festival, and party, in addition to 'looking good', is increasingly driving the choice of fashion apparel as well as accessories for younger consumers.

More digital-savvy fashion consumers

Driven by a continuously expanding digital landscape, the Indian fashion retail sector is heading for an efficiency-driven ecosystem with consumers at the core. In fashion retail, at the back-end, this is translating into rapid automation of core processes in supply chain management, vendor management, training and development, and tracking of industry trends, among

others. At the front-end, with customers becoming more digital-savvy in how they explore and consume fashion, retailers are relying on using advanced analytics and ERP systems to scan the consumer mindset and tailor retail formats, including omnichannel, and the pricing and promotion strategy accordingly.

Shortening supply chain cycle and mind-to-market

With easy and faster access to fashion trends through digital media, consumers are demanding faster availability of latest trends in stores. Apparel retailers are, therefore, moving towards shorter supply chain cycle to reduce the mind-to-market timeframe and to minimise obsolete inventory.

KEY CHALLENGES

A highly heterogeneous market

The fashion apparel market in India is amongst the most diverse globally, owing to a variety of geographical (topography and weather), cultural and ethnic factors. This heterogeneity of the market is compounded further as one moves away from the metros and tier 1 cities to smaller clusters in tier II, III and IV cities. While there is a strong clustering of consumption across the 12-15 major metros and the largest cities, the bulk of the consumption is spread across more than 5,500 towns and 600,000 villages in the country. From a retailer's perspective, this 'long tail' of the consumer spend and trends require a thorough understanding of the consumer's diverse fashion preferences and the similarity and differences in consumer buying patterns.

High rental lease and low availability

Low availability of real estate with sufficient footfalls and the growing presence of organised retail players in smaller towns, has resulted in a sharp escalation in rental lease rates in recent years. Moreover, unlike retail malls, commercial real estate for standalone retail shops or in market complexes, is characterised by fragmented ownership, non-transparent business practices, and inappropriate store designs.

STRATEGIC OVERVIEW AND GUIDANCE

Our organisational vision of creating sustained value for the entire ecosystem acquires greater relevance in this challenging time, when there is unprecedented economic stress for all stakeholders. Adopting the theme of ‘Doing More With Less’ for this year’s report is symbolic of the emphasis we place on fulfilling the needs and aspirations of all our stakeholders, despite the financial hardship we all have to endure.

Along with the rising humanitarian toll, COVID-19 and its multiple impacts are undeniably destabilising businesses and economies around the world bringing about a ‘new normal’ in the way business is done. Undoubtedly, with the health and economic crisis brought about by the COVID-19 pandemic, we have to recalibrate our strategies for the medium and long term keeping in view survival of the ecosystem, back-to-business measures and pursuit of growth opportunities.

To that end, we have adapted and attuned our organisational strategy execution within the three broad themes of Respond, Renew and Reimagine.

RESPOND

DIGITAL AND ORGANISATIONAL TRANSFORMATION

- ▶ Best processes and systems
- ▶ Leveraging decentralised structure
- ▶ Continue swapping of bottom performing stores with new attractive locations
- ▶ Continuous investment in digital ecosystem in technology, customer experience, CRM and online operations
- ▶ Driving cost reductions, optimising resources and operating costs

STRATEGIC OBJECTIVES AND ENABLERS

The three adaptive themes in our COVID-19 strategies resonate across the strategic objectives and the enablers of the organisation.

OUR KEY STRATEGIC LEVERS TO ACHIEVE STRATEGIC OBJECTIVES
BUILD BRAND SALIENCE

As a fashion-focused value retailer, our ability to create and sustain a unique brand is the key to drive customer stickiness and stimulate repeat purchase.

We will

- ▶ Deepen our understanding of our customers
- ▶ Lead the market in customer retention and increase the share of wallet
- ▶ Provide products that are closer to customer needs and aspirations in different catchments and clusters
- ▶ Deliver an in-store visual and sensory customer experience that is unique and memorable

BE CLOSER TO FASHION

We aim to create the 'fad for fashion' in our markets, to make exciting but affordable fashion available to aspiring youth and young families.

We will

- ▶ Continue to develop our value-for-money proposition
- ▶ Lead our target markets in bringing the latest fashion first
- ▶ Dial up the fashion quotient in our seasonal merchandise
- ▶ Closely track the emerging fashion trends globally and adapt for our markets
- ▶ Continuously reduce the mind-to-market cycle

CONSOLIDATE EARLY MOVER ADVANTAGE

We want to consolidate our position as a value fashion pioneer in tier II, III and IV cities, by aiming for sustained market leadership in all our key clusters.

We will

- ▶ Maintain our focus on cluster-based expansion model
- ▶ Penetrate deeper into markets where we have established brand legacy
- ▶ Expand into newer markets that have high growth potential
- ▶ Experiment and innovate in retail formats and business models

BUILD 'FUTURE-READY' PROCESSES & CAPABILITIES

We will continue to develop processes and people capabilities that meet the unique needs of value retailing and value fashion, through low-cost innovation and rapid scalability.

We will

- ▶ Innovate in and improve our core business processes that drive value creation
- ▶ Identify and address capability gaps, by leveraging resources available in-house and in our ecosystem of vendors and business partners
- ▶ Embed data and analytics across processes as a core competency

EMBRACE DIGITAL AND AUTOMATION

We will drive efficiency and productivity by adopting technology, both at the back-end and front-end. But, in doing so, we will continue to have a no-frills, high-impact approach.

We will

- ▶ Benchmark ourselves with the most relevant technologies in retail and adapt them cost-effectively to our business needs
- ▶ Be a pioneer in using technology to drive business metrics and KPIs
- ▶ Implement the best practices for data security, disaster recovery and business continuity

CREATE A 'CONNECTED RETAIL' PLATFORM

We will create a seamless shopping journey for our customers, who, as they become more mature digitally, will traverse along the physical and digital worlds in how they consume and live.

We will

- ▶ Drive the adoption of omnichannel platform through our stores
- ▶ Bolster our online presence through the marketplace model
- ▶ Digitally transform our stores, to enable staff and customers to engage seamlessly across channels
- ▶ Connect with our customers to build a community of fashion-lovers

V-MART RETAIL LTD.

Incorporated in 2002, V-Mart's business model has been built around 'value retailing for the emerging India', to address unmet needs and rising aspirations of the consuming class. Three-fourths of the Company's stores are located in the relatively 'underserved' India, extending across tier II, III and IV locations. Over nearly two decades of its existence, the Company has consistently delivered on its brand promise of affordable fashion and merchandise to fulfil the daily needs of households. With a network of 266 stores across 19 states and 187 towns, the Company's key differentiators have been its ability to understand the needs and aspirations of its target consumer segments, and create the right product assortment and retail ambience for them.

V-Mart is a leading value fashion retailer in the country and has developed several private label brands like Flick, Twist, Kidistan and Charcoal. The Company is taking several initiatives towards enhancing its value proposition by focusing on widening product portfolio, creating a more digital-ready and knowledgeable customer service team, and enhancing visual merchandising and display, and in-store experience.

Concurrently, the thrust is on enhancing inventory efficiency and store productivity, and strengthening back-end operations which translates into an improved cost structure and a stronger competitive position.

Over nearly two decades of its existence, the Company has consistently delivered on its brand promise of affordable fashion and merchandise to fulfil the daily needs of households.

OPERATIONAL REVIEW

Marking a new milestone in its retail footprint expansion, the Company opened 55 new stores in FY 2019-20, its highest-ever tally in a single year, taking the total store count to 266. This surpassed yet another highest-ever achievement of 44 stores added last year, growing the total retail area by 23% y-o-y to 2.2 million sq. ft. at the end of the fiscal year. While the new store additions focused on penetrating deeper and wider in existing clusters, the Company also ventured into two new states, Arunachal Pradesh and Nagaland, both in the North East. Another significant milestone was the launch of our omnichannel platform during the Q3 festive season in FY 2019-20, thereby ushering the Company on the path of providing a seamless shopping experience to its customers. The Company's omnichannel foray started as a pilot in October 2019

We are sharpening our focus on providing a differentiated experience to the customer across their pre-purchase, shopping and post-purchase journey, by presenting them with relevant assortments at price points that bring them the best value.

and has been steadily expanding to be now present across its entire store network, as well as several pan-India locations where V-Mart does not yet have its physical presence. In retrospect, with digital shopping becoming the new norm in the post-COVID era for millions of uninitiated customers, V-Mart's omnichannel launch and build-up is tactically and strategically opportune.

The Company had a noteworthy performance during most of FY 2019-20 and, Q4 in particular saw revenue growth of 29%, like-to-like (LTL) growth of 8% and EBITDA growth of 60% till March 15, 2020. However, store closures resulting from lockdowns adversely affected our business operations and led to 40% decline in revenue during March, which was otherwise growing at 29% over last year. As a result, Same Store Sales Growth (SSSG) for the full year came in at (-2.3%), down from +3.7% last year, while sales per sq. feet (SPSF per month)

stood at Rs. 759, declining 6% from last year. The growth in footfalls at 12% was accompanied by higher average bill size (ABS) and average selling price (ASP), which increased by 4% and 8% y-o-y, respectively. This indicates the successful execution of Company's value retailing approach of targeting aspirational customers who seek differentiated and higher-value products, but which are not necessarily the cheapest. In line with our strategy, revenue contribution continued to be largely weighted on Fashion, which contributed close to 93%, with the remaining 7% coming from Kirana and FMCG products.

We are sharpening our focus on providing a differentiated experience to the customer across their pre-purchase, shopping and post-purchase journey, by presenting them with relevant assortments at price points that bring them the best value. In the post-COVID context, with lower household income and reduced purchasing power, we foresee that consumers' trust in retailers who can consistently deliver higher value, will increase further.

Anticipating the high emphasis on a safe shopping environment, the Company has taken proactive steps to ensure the safety of our customers and employees – hygiene and social distancing SOPs were formulated and implemented at stores and workplace, early implementation of Company-wide work-from-home measures, and person-level daily 'roll call' and health monitoring of 7500+ employees.

The Company was cash positive as of March year-end and had sufficient working capital arrangements to meet

its operational requirements on a sustained basis. The Company had recently got its credit rating re-assessed as AA- (pronounced ICRA AA negative), and also increased its sanctioned limits by Rs 80 Cr in Feb 2020, over and above the existing Rs 150 Cr. All the limits were completely un-utilised, and the Company did not have any debt obligations as of March 31, 2020. Further, to drive significant cost reductions and cash preservation, our focus will be around optimising resources, store network, operating costs and exploring innovative models.

OPPORTUNITIES & THREATS

The Company's operating environment is highly dynamic with the customer and competitive landscape rapidly evolving. The market transition from unorganised to organised retail, changing consumption and digital habits, and newer fashion preferences of the aspirational youth and young families in tier 2, 3 and 4 markets is dismantling established assumptions about customers and creating new opportunities. On the flip side, growing competitor presence in key markets, higher focus of national e-tailers on customer base expansion in smaller towns, and a challenging near-term outlook for discretionary consumption due to COVID-19 pandemic present significant threats to be considered and managed.

We are fully cognisant of the opportunities and threats in our operating environment, and have incorporated these in our strategic management process.

Opportunities

- ▶ Consolidating our market leadership in key geographic clusters, through brand salience and differentiated value proposition
- ▶ Market share expansion in product segments where V-Mart has established customer loyalty and visibility, e.g. in men's casual wear
- ▶ Faster omnichannel adoption by our customers, who are more receptive to experimenting with the online channel post-COVID-19
- ▶ Create market presence and brand visibility pan-India, through the e-commerce marketplace platform
- ▶ Launching innovative retail formats and business models that are adapted to the changing customer and competitive dynamics

Threats

- ▶ Weak consumption outlook due to economic distress and fear caused by COVID-19 pandemic
- ▶ Growing competitive intensity in key market clusters in Uttar Pradesh and Bihar
- ▶ Aggressive expansion focus of national e-tailers like Amazon and FlipKart in the fashion apparel segment

Your Company has performed very well for the whole year till mid March, post which 50% of our stores were closed and a complete lockdown was announced from March 22, 2020 due to the COVID-19 pandemic.

Revenue growth of 21% YTD March 15, 2020 was reduced to 16% for the full year due to ensuing lockdown and loss of sales.

The Company also postponed opening of 5 new stores which were planned to open in March due to COVID-19 pandemic, also leading to a buildup in the inventory as the sales were impacted since mid-March.

The Company also increased provision on inventory by Rs 400 lakhs as a one time provision on account of COVID-19. The Company has generated Free Cash Flow to Firm (FCFF) of Rs 3,167 lakhs after opening 55 new stores and inspite of difficult situations at the year end.

The Company has adopted modified retrospective approach as per para C8(c)(ii) of IND AS 116 - "Leases" for its store, warehouse, office premises and other assets taken on leases, effective from the annual reporting period beginning April 1, 2019. This has resulted in recognising a right to use assets (an amount equal to the lease liability, adjusted by the prepaid lease rent) of Rs 39,859.07 lakhs as at April 1, 2019. In the statement of profit and loss for the current period, operating lease expenses has been changed from rent to depreciation charge for the right to use assets and finance cost for interest accrued on lease liability. To this extent performance for the quarter and year ending March 31, 2020 is not comparable with the previous period results.

The effects of the transition on statement of profit and loss for the quarter and year ended March 31, 2020 is as follows:

(Amount in Rs lakhs)

	Quarter Ended	Quarter Ended	Quarter Ended	Quarter Ended	Year Ended

V-Mart has an open door policy that ensures employees can freely approach the management in case of any issue and that all complaints are resolved within 24 hours.

This year we have become a Great Place to Work® organisation certified by Great Place to Work® Institute. This certification is the first step in journey of building a High- Trust,

High-Performance Culture™ and we have successfully accomplished this milestone.

Your Company is committed to maintaining a workplace where each employee's privacy and personal dignity is respected and protected from offensive or threatening behavior including violence. The Company had a total of 7,987 (excludes employees resigned in March 2020) permanent employees as on March 31, 2020

INTERNAL CONTROL

Keeping pace with the steady growth of our business and scale of operations, we have been upgrading our systems and processes to ensure higher transparency in financial reporting, compliance with relevant laws and regulations and more efficient ways of working. We have a robust system of management reporting and periodic review of businesses to ensure timely decision-

making. These internal control procedures ensure the following:

- ▶ Orderly and efficient conduct of business
- ▶ Safeguarding Company assets and infrastructure
- ▶ Compliance with policies, procedures and statutes
- ▶ Accuracy, promptness and completeness of financial reports

We use ERP Systems as a business enabler and also to keep control over all parts of the business including financials. The SOPs in tandem with transactional controls built into the ERP Systems ensure appropriate segregation of duties, tiered approval mechanisms and maintenance of supporting records. The systems, SOPs and controls are reviewed by management and audited by Internal Auditors whose findings and recommendations are reviewed by the Audit Committee and tracked through to implementation.

The Company has in place adequate internal financial controls regarding the Financial Statements. Such controls have been assessed during the year taking into consideration the essential components of Internal Controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India.

Regular MIS forms an integral part of our control mechanism. All operating parameters are monitored and controlled, with material deviations from the annual planning and budgeting and business outlook including capital expenditure reported to the Board on at least a quarterly basis. In adherence to the Companies Act 2013, we have documented and tested all the key internal controls related to both financial reporting and operational controls. Reports of internal auditors are reviewed by the Audit Committee and corrective measures are carried out towards further improvement in systems and

procedures as well as compliance with the internal controls. The Board recognises the work of the auditors as an independent check on the information received from the management on our operations and performance.

RISK MANAGEMENT FRAMEWORK

Enterprise Risk Management (ERM) remains an integral part of our areas of operations. The Company has implemented a robust risk management framework, closely embedded with the strategy and business performance processes. Our ERM framework is developed by incorporating the best practices based on COSO and ISO 31000 and then tailored to suit our unique business requirements. Through the organisational culture, capabilities and practices, the Company has integrated risk management with strategy-setting and it is being rigorously applied during the implementation to manage risk in creating, preserving and realising value.

V-Mart is leveraging on the comprehensive implementation of enterprise risk management for:

- ▶ Increasing the range of available opportunities
- ▶ Identifying & managing the entity-wide risks
- ▶ Augmenting positive outcomes and advantages along with minimising negative surprises
- ▶ Reducing variability in performance by minimising disruption and maximising opportunities
- ▶ Assessing, prioritisation and optimisation of resource allocation
- ▶ Enhancing enterprise resilience amid increasing business complexities

The Board of Directors at V-Mart has formed a Risk Management Committee to design, implement and monitor the risk management strategy for the Company. The Company has implemented a well-defined risk management policy in place to identify, plan, lead and control the activities of the Company to minimise the effects of risk on its capital and earnings.

Our approach to risk management is designed to provide a reasonable, but not absolute, assurance that significant business risks are assessed and mitigated and all information that may be required to be disclosed is reported to the stakeholders. We have identified the risks that we regard as the most relevant and material to our business and performance at this time.

As stated earlier, the most significant emerging risk is the ongoing outbreak of the novel coronavirus (COVID-19). The pandemic has impacted the entire ecosystem with an adverse impact on economic activities, supply chain sustainability and reduction in consumer spending. While the uncertainty and complexity continue, we are closely monitoring the situation and ensuring that business continuity plans are in place and implemented to mitigate the risks for our customers, employees and suppliers. The summary of significant risks, its nature and management of risk is given below:

Significant Risk Areas	Likelihood	Impact
Intensifying competition and limited online operations	High	High
Maintaining liquidity and conserving cash	Likely	Severe
Crisis and disasters	High	Severe
Manging complex and dynamic regulations	Likely	High
Increase in information and cybersecurity vulnerability	High	High
Social media, brand and reputation risks	Likely	High
Human capital sustenance and development	Likely	Likely
Supply chain sustainability	Likely	Likely

● Less Likely ▲ Likely ■ High ◆ Severe

Significant Risks
Risk Management
Intensifying Competition and Limited online presence

There is intensifying competition due to the convergence of global retailers with local retailers, changing customer preferences, the possibility of disruption in markets with new formats and unprecedented increase in digital penetration in the markets we operate. The consumer preference for e-commerce and direct-to-home deliveries have also increased. V-Mart is cautiously progressing with existing sustainable model and has started its omnichannel journey to create a distinguished competitive advantage.

- ▶ Augmenting omnichannel network and scale
- ▶ Exploring new categories
- ▶ Partnerships with online marketplaces
- ▶ Exploring innovative models to serve customers
- ▶ Embarking on creating, communicating and leveraging on brand loyalty
- ▶ Strengthening logistics and inventory optimisation for greater omniplay
- ▶ Focused expansion of store footprint

Liquidity & Cash Conservation

The unprecedented business disruption has warranted a continuous need to maintain healthy and adequate cash reserves and creditworthiness for sustaining the operations. Due to temporary store closures and weak demand, the cash generation ability is likely to shrink. Blockage of working capital in the required inventory may also lead to dependence on credit limits for sustaining the operations.

- ▶ Creditworthiness being sustained
- ▶ Initiated effective cash conservation measures
- ▶ Implemented cost reduction, control and monitoring measures
- ▶ Extended bank credit limits and utilising the limits responsibly
- ▶ Renegotiating long-term fixed costs and extending credit terms

Crisis & Disasters

There is an adverse impact on business operations due to Global and local macro-economic factors and unforeseen events like COVID-19. Lockdown, temporary closure of business due to health and safety concerns in the minds of consumers have significantly impacted the consumer buying behaviour and days of operations. COVID-19 has warranted the businesses to increase the focus and resources on establishment and communication of emergency protocols to mitigate the risks from disaster and crisis.

- ▶ Creating 'Safe place to Shop' with COVID-19 Preparedness Programmes - Successfully rebooted majority of stores
- ▶ Instituted Business Continuity Planning and Disaster Recovery policies
- ▶ Formulated a phase-wise business continuity plan and actively monitoring responses
- ▶ SOP defined for securing shops and workplaces
- ▶ Instituted training framework for imparting regular training for full adoption

Significant Risks
Risk Management
Legal & Regulatory

The dynamic and ambiguous regulatory environment along with unprecedented changes in taxation, environment, governance, disclosure and regulatory policies necessitates close & regular monitoring and adherence to the changing regulations. During a crisis, compliance processes could get oversight and deadlines could get missed. The resultant inquiries, damages, fines, criminal sanctions and litigations can adversely affect the growth and profitability and corporate reputation. Changes to laws and regulations also pose a material impact on the cost of doing business.

- ▶ Implemented a centralised monitoring system for licenses and regulations
- ▶ Augmented capacity for legal and secretarial function
- ▶ Closely monitoring the new local regulations related to COVID-19 pandemic control
- ▶ Our legal and regulatory specialists closely involved in assessing the impact of new regulations
- ▶ Monitoring practices to provide reasonable assurance that organisation remain compliant to all relevant laws and legal obligations

Information Systems and Cyber Security

The business operations are increasingly dependent on IT systems, cloud computing, mobile devices, machine learning, applications and management information systems. The increasing cyber-attacks, the threat of unauthorised access, privacy breach and the possibility of misuse of sensitive information or operational disruption continuously poses threat to Information and Cyber Security. Lapses in managing these threats could inhibit the business operations and may also lead to data leakage and loss of sensitive data.

- ▶ Upgraded digital strategy, complemented by an enhanced Information System strategy
- ▶ Firewalls and threat monitoring systems in place
- ▶ Periodically conducting awareness sessions
- ▶ Established asset handling and Work-from-Home Protocols
- ▶ Implementing monitoring tools, Privacy, Information Security and Management framework
- ▶ Non-Disclosure Agreement and Data protection contracts are in place
- ▶ Re-evaluating IT Infra and process resilience

Social Media, Brand and Reputation

We are living in a digitally connecting world like never before. Any negative social media communication may undesirably affect the Brand Equity. Social media and other internet-based applications also significantly impact customer relationships, regulatory compliances and the business. Miscommunication in media interaction can also increase the impact of this risk. Though we have limited digital presence but planned increase in the scale of omnichannel will also increase the possibility of occurrence of such events.

- ▶ Centralised Customer Experience Team monitoring and actively responding to feedback, posts and complaints
- ▶ Created a robust crisis communication plan for infusing positivity and a sense of safety among employees and key stakeholders
- ▶ Implementing an Online Reputation Management (ORM) tool
- ▶ Implemented social media policy with periodic communication to employees

Significant Risks
Risk Management
Human Capital Sustenance and Development

COVID-19 outbreak may negatively impact employee productivity owing to health, economic and social uncertainties. The loss of key & talented employees or drop in employee productivity & motivation can impact the achievement of business recovery and long-term objectives. Our capability to attract, develop and retain a diverse range of skilled people is vital for growth and achievement of long term objectives. Additionally, during COVID-19, employees may also be sceptical to resume work due to periodical lockdowns and risk of infection.

- ▶ Protecting Jobs and Livelihoods at V-Mart amidst COVID-19
- ▶ Implemented Work-from-Home Policy
- ▶ Optimally utilising Human Capital
- ▶ Workspace and stores being regularly sanitised to create a secured workplace
- ▶ Series of awareness activities conducted to harness and unleash new potential
- ▶ Digital communication actively used for engaging with employees and stakeholders
- ▶ Focus on training and development to augment skills and productivity

Supply Chain Sustainability

The retail business is inherently dependent on the suppliers and trade partners to create a value-adding supply chain network. Supply chains may be disrupted for many factors such as lack of staff with suppliers due to illness or lockdowns, disruption of transport or import/export bans, cross border controls, strikes and unforeseen physical disruptions. Inability to manage the crisis by the strategic partners may also impact the business operations and pose a reasonable threat to our supply chain.

- ▶ Invested in long-term and sustainable relationships with vendors and partners
- ▶ Procurement risk diffused due to wide vendor base - Contingency plans in place to source key supplies at short notice
- ▶ Risk of disruption by strategic partners contractually hedged
- ▶ Contractual obligations with other trade partners are under revision

However, if in future, the Company opts for expensing of share based employee benefits using the intrinsic value, then the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognised if it had used the fair value, shall be disclosed in the Directors' report and the impact of this difference on profits and on earnings per share ("EPS") of the company shall also be disclosed in the Directors' report.

Directors / Key Managerial Personnel of the Company / their relatives who may be granted stock options under ESOP Plan 2020 may be deemed to be concerned or interested in the special resolutions set out in Item No. 5 of this Notice. Save as aforesaid, none of the Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the said special resolutions.

The Board recommends the special resolutions set out at Item No. 5 of this Notice for approval by the members.

Item No 6.

Pursuant to Sections 23, 42, 62, 71 of the Companies Act, 2013, Companies (Prospectus and Allotment of Securities) Rules, 2014, the Companies (Share Capital and Debentures) Rules, 2014 and other applicable provisions, if any, including any amendment(s), statutory modification(s)

and/ or re-enactment thereof for the time being in force, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (the "ICDR Regulations") and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations"), the approval of members is required to be obtained by a special resolution for making any further issue of equity shares or Securities to any person(s) other than the existing members of the Company.

In view of the future outlook of the Company, its growth targets and prospects, the Company may need to raise additional funds. The Company proposes to raise capital inter alia to augment long-term resources for financing and to meet the future expansion plans of the Company as well as for general corporate purposes. Accordingly, the Board of Directors, at its meeting held on September 5, 2020,

has approved, and decided to obtain an enabling approval from the Company's Members to raise funds for an amount aggregating up to Rs 500 Crore (Rupees Five Hundred Crore Only).

This Special Resolution seeks to empower the Board to explore various avenues for raising funds by way of issue of Equity Shares or by way of issue of any instrument or security including fully/partly convertible debentures, securities convertible into Equity Shares, Global Depository Receipts (the "GDRs"), American Depository Receipts (the "ADRs"), Foreign Currency Convertible Bonds (the "FCCBs"), or by way of a composite issue of non-convertible debentures and warrants entitling the warrant holder(s) to apply for Equity Shares or any other eligible securities and/or any combination thereof (the "Securities") for an aggregate amount of up to Rs 500 Crore (Rupees Five Hundred Crore Only) including through qualified institutions placement (the "QIP") to qualified institutional buyers (the "QIBs") as defined in ICDR Regulations or private placement or preferential issue or public issue or through any other permissible mode and/or combination thereof as may be considered appropriate under the applicable laws. The issue of Securities may be consummated in one or more tranches at such time or times at such price as may be determined by the Board in its absolute discretion, taking into consideration prevailing market conditions and other relevant factors and wherever necessary in consultation with advisors, lead managers, underwriters and such other authority or authorities as may be necessary and subject, as applicable, to the ICDR Regulations, and other applicable guidelines, notifications, rules and regulations, each as amended.

The proposed Special Resolution seeks to confer upon the Board (including any Committee thereof) the absolute discretion to determine the terms of the aforementioned issuance of Securities, including the exact price, proportion and timing of such issuance, based on an analysis of the specific requirements. The detailed terms and conditions of such issuance will be determined by the Board or any Committee duly authorized by the Board, considering prevailing market conditions, practices and in accordance with the applicable laws. Accordingly, the Board (including a Committee thereof) may, in its discretion, adopt any one or more of the mechanisms prescribed above to meet its objectives as stated in the aforesaid paragraphs without the need for fresh approval from the Members of the Company.

The Securities offered, issued, and allotted by the Company pursuant to the QIP in terms of the resolution would be subject to the provisions of the memorandum of association

and articles of association of the Company and any Equity Shares that may be created, offered, issued and allotted by the Company shall rank, in all respects, pari-passu with the existing Equity Shares of the Company.

The relevant date for the purpose of pricing the Securities shall be the date of meeting in which the Board or any Committee duly authorized by the Board decides to open the issue of such Securities, subsequent to receipt of Members' approval in terms of the applicable laws. In the event that convertible securities (as defined under the ICDR Regulations) are issued to QIBs by way of a QIP, the relevant date for the purpose of pricing of such Securities shall be either the date of the meeting in which the Board decides to open the issue of such convertible securities or the date on which the holders of such convertible securities become entitled to apply for the Equity Shares, as determined by the Board or any Committee duly authorized by the Board.

In the event of issuance of Securities by way of a QIP, as per the provisions of Chapter VI of the ICDR Regulations, an issue of Securities shall be made at a price not less than the floor price calculated in accordance with Chapter VI of the ICDR Regulations. The Board or any Committee duly authorized by the Board may offer a discount of not more than five percent on such price determined in accordance with the pricing formula provided under the said Chapter, in accordance with the applicable laws.

Further, in the event that such issuance of Securities is undertaken by way of a QIP, the allotment of Securities shall be completed within a period of 365 days from passing the Special Resolution by the Members.

The Securities shall not be eligible to be sold for a period of one year from the date of allotment, except on the recognized Stock Exchanges, or except as may be permitted under the ICDR Regulations from time to time.

The Securities that may be allotted as above would be listed on BSE Limited and/or National Stock Exchange of India Limited (the "Stock Exchanges"). The offer/issue/allotment would be subject to the regulatory approvals, if any. The conversion of Securities, if any, held by foreign investors into Equity Shares would be subject to the applicable foreign investment cap, if any, and the applicable foreign exchange regulations. As and when the Board takes a decision on matters on which it has the discretion, necessary disclosures will be made to the Stock Exchanges as may be required under the applicable provisions of the Listing Regulations.

The Board recommends passing of the Special Resolution set out at item no. 6 of the accompanying Notice.

None of the Directors/Key Managerial Personnel of the Company, or their respective relatives is, in any way, concerned or interested, financially or otherwise, except to the extent of their shareholding, if any, in the Company in the Special Resolution set out in the accompanying Notice.

Item No 7:

The current Authorised Share Capital of the Company is Rs 20,00,00,000/- (Rupees Twenty crore Only) divided into 2,00,00,000 (Two crore only) equity shares of Rs 10/- (Rupees Ten only) each and paid up share capital of the Company is Rs 18,16,88,980 (Rupees Eighteen Crore Sixteen Lakhs Eighty Eight Thousand Nine Hundred and Eighty only) divided into 1,81,68,898 (One crore Eighty One lakhs Sixty Eight Thousand Eight Hundred and Ninety Eight only)) equity shares of Rs 10/- (Rupees Ten only) each.

In order to enable the Company to raise fund and issue Equity Shares during any unforeseen exigencies, the Board of Directors in its Board Meeting held on September 5, 2020 proposed to increase the authorized share capital of the Company to Rs 25,00,00,000 (Rupees twenty five crores only) divided into 2,50,00,000 (Two crores and fifty lakhs only) Equity shares of Rs 10/- (Rupee ten each).

Members are requested to note that the aforesaid proposed increase in the Authorised Share Capital of the Company will also require alteration of Clause V(a) of the Memorandum of Association of the Company

Pursuant to section 61 of the Companies Act, 2013, the proposed increase in Authorised Capital and the consequential changes in Clause V of the Memorandum will require the approval of the Members of the Company.

Accordingly, the Board of Directors recommend the Ordinary Resolution as set out at Item No: 7 of the accompanying notice for approval of the Members to increase the authorised share capital of the Company and amend the authorised Share capital clause in the memorandum of Association as well, accordingly Members are requested to consider and pass this resolution.

The existing Memorandum of Association with proposed modification is available at the Registered Office of Company for inspection during business hours from dispatch of the notice of Annual General Meeting till the conclusion of the meeting.

None of the Directors and Key Managerial Personnel of the Company or their relatives are in anyway concerned or interested in this resolution.

The Board of Directors accordingly, recommends the Ordinary resolution as stated at Item No. 7 for approval of the Members.

PERFORMANCE REVIEW

The Net Sales of the Company increased by 16% to Rs 166,159 lakhs in financial year 2019-20 from Rs 143,217 lakhs in F.Y. 18-19. The Company has posted Operating Profits (EBITDA) of Rs 21,376 lakhs in FY 19-20. The Company posted Profit after Tax (PAT) of Rs 4,935 lakhs in the current financial year as against a PAT of Rs 6,163 lakhs and EBITDA of Rs 13,293 lakhs in the previous financial year.

A detailed analysis of Company's operations in terms of performance in markets, business outlook, risks and concerns forms part of the Management Discussion and Analysis, a separate section of the Annual Report.

OPERATIONS REVIEW

During the year under review your Company maintained its stable performance, sustaining it well into Q4 until the business disruption caused by the Covid-19 pandemic. With the late onset of winters and an early Holi, the last quarter had witnessed revenue growth of 29%, LTL growth of 8% and EBITDA growth of 60% until March 15, when store closures started due to the pandemic. Despite a challenging operating outlook in the near term, your Company is committed to and focused on its long-term strategic intent to create sustained value for all stakeholders, while being resilient and agile in adapting business execution to the changing environment.

Marking a new milestone in its retail footprint expansion, your Company opened 55 new stores in F.Y. 2019-20, its highest-ever tally in a single year, taking the total store count to 266. This surpassed yet another highest-ever achievement of 44 stores added last year, growing the total retail area by 23% y-o-y to 22 lakh sq. ft. at the end of F.Y. 2019-20. While the new store additions focused on penetrating deeper and wider in existing clusters, the Company also ventured into two new states, Arunachal Pradesh and Nagaland, both in the North East. During the year under review 3 stores were closed.

With the zonal structure that was introduced in quarter one of F.Y. 2019-20, your Company has embarked on large-scale coordinated initiatives at the store level to enhance inventory efficiency, improving people and space productivity, and visual merchandising and display standards.

The Company's product assortment underscores its continued commitment to identify and bring latest and differentiated fashion to its customers at highly affordable price points.

In the last month of F.Y. 2019-20, the COVID-19 pandemic developed rapidly into a global crisis, forcing governments to

enforce lock-downs of all economic activity. For the Company, the focus immediately shifted to ensuring the health and well-being of all employees' customers and all stakeholders. The Company has also taken proactive steps to ensure the safety of our customers and employees — hygiene and social distancing SOPs formulated and implemented at stores and workplaces, early implementation of company-wide work-from-home measures, and person level daily 'roll call' and health monitoring of its 7,500+ employees. Starting from March 22 and until early May, stores remained closed for operations. During this time, the centralised warehouse in Haryana maintained a minimal level of operations during the lockdown, to support the very few functional stores selling essentials and the Company's CSR activities. The company's front-line store teams distributed food supplies to thousands of stranded migrants, slum dwellers and other needy segments daily.

FY20 Performance Highlights

- Keeping product at the core of its value proposition, the Company is focusing on faster mind-to-market and more trendy collections e.g. its range of casual and street wear, denim jackets, sweat shirts, hoodies and ladies dresses, to meet the fashion aspirations of youth and young families. Also, with a steady growth in its private label contribution, which now nears 70%, the Company is undertaking product and vendor development programs to enhance product quality, design and fashion quotient across its men's, women's and kids wear portfolios
- Acknowledging that its customers are becoming more aspirational and fashion-aware, the Company has introduced an Integrated Go-To-Market (IGTM) mechanism, through better synchronisation and more real-time collaboration between buying, merchandising, planning and supply chain, and visual merchandising functions. This has enabled the Company to improve key internal metrics pertaining to on-time product availability, better sell through, faster replenishment, more attractive VM and product display and an overall enhanced customer experience
- On the people front, the retail zonal structure that was introduced in Q1, to enhance inventory efficiency, and people and space productivity, has started yielding results. Further, a more robust goal-setting and performance management framework introduced last year is driving the alignment between individual efforts and organisational objectives. In Dec 2019, the Company achieved the Great Place to Work (GPtW) certification, which is indicative of its thriving work culture and high employee trust

- The Company launched its omni channel platform in Oct, 2019 and has subsequently expanded it across its store network. In the wake of Covid-19, the Company is aiming to leverage the accelerated digital adoption by scaling up its Omni channel operations and also expanding its digital footprints across e-commerce marketplace platforms

DIVIDENDS

The Board on the recommendations of the Audit Committee and considering the current pandemic situation and financial position of the Company including liquidity constraints and cash flow position, decided not to declare any dividend for the F.Y. 2019-20.

RESERVES

The Company during the year transferred Rs 4,963.60 lakhs to the reserves. Post transfer, the reserves stood at Rs 44,077.64 lakhs for financial year 2019-20.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Your Company has constituted a Corporate Social Responsibility Committee of the Board comprising of five members, namely Mr. Lalit Agarwal (Chairman), Mr. Madan Gopal Agarwal, (Member) Mr. Aakash Moondhra, (Member) Ms. Sonal Mattoo (Member) and Mr. Govind Shridhar Shrikhande (Member). The Committee is responsible for formulating and monitoring the CSR policy of the Company. Details about the CSR policy of the Company and initiatives taken by the Company on CSR during the year are available on the company's website.

As per the Companies Act, 2013, every company having net worth of rupees five hundred crores or more, or turnover of rupees one thousand crores or more or a net profit of rupees five crores or more during immediately preceding financial year shall spend in every financial year, at least two percent of the average net profits of the company made during the three immediately preceding financial year, or where the company has not completed the period of three financial years since its incorporation, during such immediately preceding financial years in pursuance of its Corporate Social Responsibility Policy. Accordingly, our Company was required to spend Rs 186.28 lakhs on CSR activities during the year.

During the year under review your Company has spent amount Rs 108.77 lakhs towards Corporate Social Responsibility.

The annual report on CSR Activities is appended as Annexure-C to this Board Report.

Justification for not spending the prescribed amount on CSR activities:

Our CSR vision is to enhance the quality of life indicators of the local communities where we conduct our business. This is by way of various initiatives, e.g. in education, sports coaching, skill development and capacity building, social infrastructure upkeep and maintenance (school, parks, etc.) and livelihood programs.

In order to spend the average of 2% of Average Net profits of preceding three financial years, the CSR Steering Committee (CSR STECO) had regular review meetings during the year. Many potential funding avenues and initiatives were discussed and implemented, while several more proposals are continually evaluated. The Company has designed and put in place a rigorous project evaluation process, including onsite assessment through its store teams, to validate the authenticity and genuineness of potential CSR funding initiatives being considered. Much needed due diligence is involved in this process to ensure funds reach the real

beneficiaries and impact local communities. Only projects that pass through this due diligence process are considered by the CSR STECO for potential funding discussions. The Company couldn't spend the prescribed full CSR amount under Companies Act, 2013 as it did not have an adequate number of initiatives that could qualify through the due diligence process.

We are committed to spending the mandated CSR funds in line with our vision and objectives, and the project pipeline is being streamlined accordingly. We are committed to fulfill our CSR spending commitments on projects that are in the impact areas related to our CSR vision.

ANNEXURE – B to Board Report

NOMINATION & REMUNERATION POLICY FOR THE MEMBERS OF BOARD AND EXECUTIVE MANAGEMENT

1. Preamble

- 1.1 The Nomination & Remuneration policy provides a framework for remuneration paid to the members of the Board of Directors (“Board”), Key Managerial Personnel (“KMP”) and the Senior Management Personnel (“SMP”) of the Company (collectively referred to as “Executives”). The expression “senior management” means personnel of the company who are members of its core management team excluding Board of Directors comprising all members of management one level below the executive directors, including the functional heads.
- 1.2 The policy would be reviewed every year by the Nomination and Remuneration Committee of the Board of Directors.

2. Aims & Objectives

- 2.1 The aims and objectives of this Nomination & Remuneration policy may be summarised as follows:
 - 2.1.1 The Nomination & Remuneration policy aims to enable the company to attract, retain and motivate highly qualified members for the Board and Executive level.
 - 2.1.2 The Nomination & Remuneration policy seeks to enable the company to provide a well-balanced and performance-related compensation package, taking into account shareholder interests, industry standards and relevant Indian corporate regulations.
 - 2.1.3 The Nomination & Remuneration policy will ensure that the interests of Board members & Executives are aligned with the business strategy and risk tolerance, objectives, values and long-term interests of the company and will be consistent with the “pay-for-performance” principle.
 - 2.1.4 The Nomination & Remuneration policy will ensure that remuneration to Directors and Executives involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

3. Principles of remuneration

- 3.1 **Support for Strategic Objectives:** Remuneration and reward frameworks and decisions shall be developed in a manner that is consistent with, supports and reinforces the achievement of the Company’s vision and strategy.
- 3.2 **Transparency:** The process of remuneration management shall be transparent, conducted in good faith and in accordance with appropriate levels of confidentiality.
- 3.3 **Internal equity:** The Company shall remunerate the board members and the Executives in terms of their roles within the organisation. Positions shall be formally evaluated to determine their relative weight in relation to other positions within the Company.
- 3.4 **External equity:** The Company strives to pay an equitable remuneration, capable of attracting and retaining high quality personnel. Therefore, the Company will remain logically mindful of the ongoing need to attract and retain high quality people and the influence of external remuneration pressures.
- 3.5 **Flexibility:** Remuneration and reward offerings shall be sufficiently flexible to meet both the needs of individuals and those of the Company whilst complying with relevant tax and other legislation.

5. Procedure for selection and appointment of the Board Members

5.1 Board membership criteria

The Committee, along with the Board, reviews on an annual basis, appropriate skills, characteristics and experience required of the Board as a whole and its individual members. The objective is to have a Board with diverse background and experience in business, government, academics, technology and in areas that are relevant for the Company's global operations.

In evaluating the suitability of individual Board members, the Committee takes into account many factors, including general understanding of the Company's business dynamics, global business and social perspective, educational and professional background and personal achievements.

In addition, Directors must be willing to devote sufficient time and energy in carrying out their duties and responsibilities effectively. They must have the aptitude to critically evaluate management's working as part of a team in an environment of collegiality and trust.

The Committee evaluates each individual with the objective of having a group that best enables the success of the Company's business.

5.2 Selection of Board Members/ extending invitation to a potential director to join the Board

One of the roles of the Committee is to periodically identify competency gaps in the Board, evaluate potential candidates as per the criteria laid

above, ascertain their availability and make suitable recommendations to the Board. The objective is to ensure that the Company's Board is appropriate at all points of time to be able to take decisions commensurate with the size and scale of operations of the Company. The Committee also identifies suitable candidates in the event of a vacancy being created on the Board on account of retirement, resignation or demise of an existing Board member. Based on the recommendations of the Committee, the Board evaluates the candidate(s) and decides on the selection of the appropriate member.

The Board then makes an invitation (verbal / written) to the new member to join the Board as a Director. On acceptance of the same, the new Director is appointed by the Board.

6. Procedure for selection and appointment of Executives other than Board Members

- 6.1 The Committee shall actively liaise with the relevant departments of the Company to study the requirement for management personnel, and produce a written document thereon;
- 6.2 The Committee may conduct a wide-ranging search for candidates for the positions of Employees within the Company, within enterprises controlled by the Company or within enterprises in which the Company holds equity, if any, and on the human resources market;
- 6.3 The professional, academic qualifications, professional titles, detailed work experience and all concurrently held positions of the initial candidates shall be compiled as a written document;
- 6.4 A meeting of the Committee shall be convened, and the qualifications of the initial candidates shall be examined on the basis of the conditions for appointment of the Employees;
- 6.5 Before the selection of Employee, the recommendations and relevant information on the relevant candidate(s) shall be submitted to the Board of Directors;
- 6.6 The Committee shall carry out other follow-up tasks based on the decisions of and feedback from the Board of Directors.

JUSTIFICATION FOR NOT SPENDING THE PRESCRIBED AMOUNT ON CSR ACTIVITIES

Our CSR vision is to enhance the quality of life indicators of the local communities where we conduct our business. This is by way of various initiatives, e.g. in education, sports coaching, skill development and capacity building, social infrastructure upkeep and maintenance (school, parks, etc.) and livelihood programs.

In order to spend the average of 2% of Average Net profits of preceding three financial years, the CSR Steering Committee (CSR SteCo) had regular review meetings during the year. Many potential funding avenues and initiatives were discussed and implemented, while several more proposals are continually evaluated. The Company has designed and put in place a rigorous project evaluation process, including onsite assessment through its store teams, to validate the authenticity and genuineness of potential CSR funding initiatives being considered. Much needed due diligence is involved in this process to ensure funds reach the real beneficiaries and impact local communities. Only projects that pass through this due diligence process are considered by the CSR SteCo for potential funding discussions. The Company couldn't spend the prescribed full CSR amount

under Companies Act, 2013 as it did not have an adequate number of initiatives that could qualify through the due diligence process.

We are committed to spending the mandated CSR funds in line with our vision and objectives, and the project pipeline is being streamlined accordingly. We are committed to fulfill our CSR spending commitments on projects that are in the impact areas related to our CSR vision.

Our CSR Responsibilities

We hereby affirm that the CSR Policy, as approved, by the Board, has been implemented and the CSR Committee monitors the implementation of the CSR Projects and activities in compliance with our CSR Objectives.

ANNEXURE – F to Board Report

DIVIDEND DISTRIBUTION POLICY

1. Background and Applicability

In terms of Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), which requires top 500 listed entities (based on market capitalisation of every financial year) to formulate a Dividend Distribution Policy which shall be disclosed in its Annual Report and on its website.

V-Mart Retail Limited being one of the top 500 listed entities as per market capitalisation as on the last day of immediately preceding financial year, has framed this Dividend Distribution Policy in compliance with this regulation.

2. Dividend distribution philosophy

The Company is deeply committed to driving superior value creation for all its stakeholders. The focus will continue to be on sustainable returns, through an appropriate capital strategy for both medium term and longer-term value creation. Accordingly, the Board would continue to adopt a progressive and dynamic dividend policy, ensuring the immediate as well as long term needs of the business.

3. Circumstances Under Which The Shareholders Of The Company May Or May Not Expect Dividend

The decision regarding dividend pay-out is a crucial decision as it determines the amount of profit to be distributed among shareholders of the Company and the amount of profit to be retained in business. The decision seeks to balance the dual objectives of appropriately rewarding shareholders through dividends and retaining profits in order to maintain a healthy capital adequacy ratio to support future growth.

The Board will assess the Company's financial requirements, including present and future organic and inorganic growth opportunities and other relevant factors (as mentioned elsewhere in this policy) and declare Dividend in any financial year.

The Dividend for any financial year shall normally be paid out of the Company profits for that year. This will be arrived at after providing for depreciation in accordance with the provisions of the Companies Act,

2013. If circumstances require, the Board may also declare dividend out of accumulated profits of any previous financial year(s) in accordance with provisions of the Act and Regulations, as applicable.

The shareholders of the Company may not expect dividend in the following circumstances, subject to discretion of the Board of Directors:

- i. Proposed expansion plans requiring higher capital allocation
- ii. Decision to undertake any acquisitions, amalgamation, merger, joint ventures, new product launches etc. which requires significant capital outflow
- iii. Requirement of higher working capital for the purpose of business of the Company
- iv. Proposal for buy-back of securities
- v. In the event of loss or inadequacy of profit

4. Parameters/Factors considered by the Company while declaring dividend

The Board of Directors of the Company shall consider the following parameters before declaring or recommending dividend to shareholders:

A) Financial Parameters / Internal Factors:

- (a) Financial performance including profits earned (standalone), available distributable reserves etc;
- (b) Impact of dividend payout on Company's return on equity, while simultaneously maintaining prudent and reasonably conservative leveraging in every respect viz. interest coverage, DSCR (Debt Service Coverage Ratio) Net Debt: EBITDA and Net debt: Equity, including maintaining a targeted rating – domestically and internationally;

INDEPENDENT AUDITOR'S REPORT

To the Members of V-Mart Retail Limited

Report on the Audit of the Ind AS Financial Statements Opinion

We have audited the accompanying Ind AS financial statements of V-Mart Retail Limited ("the Company"), which comprise the Balance sheet as at March 31 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities

in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Emphasis of Matter

We draw attention to note no. 49 to the Ind AS financial statement, which describes the uncertainties and impact of COVID-19 pandemic on the Company's operations and results as assessed by the management. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

Key audit matters

Assessment of impact of Corona Virus Disease (COVID-19) on existence and valuation of inventory with respect to estimated markdown due to slow moving and obsolete inventories (including shrinkage) (as described in note 33, 45 and 49 of the Ind AS financial statements)

As at March 31, 2020, the carrying value of inventories (including packing and accessories) amounted to Rs. 47,792.24 lakhs, after considering markdown on account of slow moving and obsolete inventory and shrinkage of Rs. 2,053.00 lakhs.

How our audit addressed the key audit matter

As a part of our audit we have, carried out the following procedures:

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over receipts, sorting and tagging and dispatch of inventories to various stores, maintenance of stock records and assessment of carrying value of inventory including markdown.

INDEPENDENT AUDITOR'S REPORT

To the Members of V-Mart Retail Limited

Key audit matters

The prevalent financial, economic and health crises caused due to global pandemic – COVID-19, which has impacted the business operations of the Company has a further impact on the assessment of existence and valuation of inventory.

Accordingly, the Company has assessed inventory levels at warehouse and stores and re-evaluated the process of determining the markdown to be made to the inventory including shrinkage. It involves significant estimates of anticipated future recoverability of such inventory items, the estimated costs to sell (if any) and after taking into consideration the potential impact of COVID 19.

Further, due to restrictions caused by lockdown imposed by Central and State Governments effective March 23, 2020 resulting in restrictions on movement of people from one State to another, we have performed alternate additional procedures in respect of observation of inventories at the warehouse and few stores when restrictions were partially eased and local client personnel were able to conduct stock counts.

Since, it involves significant management's judgement and estimate and significant event occurred during the year, this area has been treated as a Key Audit Matter.

How our audit addressed the key audit matter

We obtained ageing of inventory and tested on a sample basis the ageing of inventories and have further obtained calculation for inventory markdown from the Company.

We have re-performed the calculation of the inventory markdown as per the policy of the Company basis the historic and anticipated sales trend.

We have assessed the evaluation of markdown and estimated loss on account of inventory shrinkage based on various factors such as historical and anticipated sales performance of the products and average value of inventory loss from last inventory count as a % of sales respectively.

We assessed the adequacy of the disclosures concerning this in Note 33 on significant accounting estimates and judgements and Note 45 to the financial statements.

We have obtained an understanding of the process and reviewed the management documentation and controls over the physical count of inventories at stores and warehouse.

We have observed physical verification of inventory carried out by the management at some of the stores selected on random basis covered by the perpetual count prior to lockdown.

We have obtained the stock count report conducted by the stock auditor and have traced their report to the shrinkage actualized during the year.

Additional procedures performed wherein we could not attend stock count due to lockdown includes

engagement of an independent auditor (chartered accountant) to observe the stock count under our supervision.

Issued instructions for stock count and obtained responses

Traced the samples tested and adjustments made to the inventory records of the Company.

Rolled back the stock as on date of stock count to March 31, 2020.

Performed analytical procedures on stock as on March 31, 2020 and March 31, 2019.

We have obtained management representation in respect of control over inventory count procedures and appropriateness of management assessment for estimated markdown due to slow moving and obsolete inventories (including shrinkage).

Other Information

The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Ind AS financial statements and our auditor’s report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are

required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Ind AS Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities;

INDEPENDENT AUDITOR'S REPORT

To the Members of V-Mart Retail Limited

selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements for the financial year ended March 31, 2020

and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:

ANNEXURE 1

referred to in paragraph 1 under the heading “Report on other legal and regulatory requirements” of our report

Re: V-Mart Retail Limited (“the Company”)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets except for location of few assets which are transferred from one store to another.
- (b) All fixed assets have not been physically verified by the management during the year but there is regular programme of verifying them once in three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management, there are no immovable properties, included in property, plant and equipment of the company and accordingly, the requirements under paragraph 3(i)(c) of the Order are not applicable to the Company.
- (ii) The management has conducted physical verification of inventory at reasonable intervals. Discrepancies noted on physical verification were material and have been properly dealt with in the books of accounts.
- (iii) (a) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees, and securities given in respect of which provisions of section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company. Accordingly, the provision of clause 3(vi) of the Order are not applicable.
- (vii) (a) Undisputed statutory dues including provident fund, employees’ state insurance, income-tax, sales-tax, service tax, value added tax, goods and service tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. The provision relating to duty of custom and duty of excise is not applicable to the Company.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees’ state insurance, income-tax, service tax, sales-tax, value added tax, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable. The provision relating to duty of custom and duty of excise is not applicable to the Company.

- (c) According to the records of the Company, the dues of income-tax, sales-tax, service tax, value added tax and cess on account of any dispute, are as follows:

Name of Statute	Nature of Dues	Amount (in Rs. lakhs)	Amount paid under protest (in Rs. lakhs)	Period to which the amount relates	Forum where the dispute is pending

ANNEXURE 2

to The Independent Auditor's Report of Even Date On The Financial Statements Of V-Mart Retail Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of V-Mart Retail limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these financial statements and such internal financial controls over financial reporting with reference to these financial statements were operating

effectively as at March 31,2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS

for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

1 Corporate Information

V-Mart Retail Limited (the 'Company'), incorporated on July 24, 2002, is a public limited company with its equity shares listed on Bombay Stock Exchange Limited (BSE) and National Stock Exchange of India (NSE). The Company retails readymade garments, accessories, etc. and is engaged in the business of "Value Retailing" through the chain of stores situated at various cities in India. The Company is domiciled in India with registered office situated at 610-611, Guru Ram Dass Nagar, Main Market, Opposite SBI Bank, Laxmi Nagar, New Delhi and corporate office situated at Plot No-862, Udyog Vihar Industrial Area, Phase V, Gurugram.

The financial statements of the Company for the year ended March 31, 2020 are authorised for issue on May 29, 2020 in accordance with a resolution of the Board of Directors.

2 Significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the FS.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Certain financial assets and liabilities measured at fair value;
- Defined benefit plans – plan assets measured at fair value;
- Share based payments;

The financial statements are presented in INR and all values are rounded to the nearest lakhs (INR 100,000), except when otherwise indicated.

2.2 Summary of significant accounting policies

a. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

Expected to be realised or intended to be sold or consumed in normal operating cycle.

Held primarily for the purpose of trading.

Expected to be realised within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

It is expected to be settled in normal operating cycle

It is held primarily for the purpose of trading

It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified 12 months as its operating cycle.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

b. Foreign Currencies

The Company's financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency. Functional currency is the currency of the primary economic environment in which a Company operates and is normally the currency in which the Company primarily generates and expends cash. All the financial information is presented in "lakhs", except where otherwise stated.

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

Transactions in foreign currencies are initially recorded by the Company's at functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses rate at the beginning of each month which approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

c. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, In the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would

use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

NOTES TO FINANCIAL STATEMENTS

for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosure for valuation method, significant estimates and assumption (note 34)
- Quantitative disclosures of fair value measurement hierarchy (note 44)
- Financial instruments (including those carried at amortized cost) (note 44 and 43)

d. Revenue from contract with customer

Revenue from contract with customer is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue from contract with customer is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory risk.

Sale of goods:

Revenue from sale of goods is recognised on delivery of merchandise to the customer, when the property in the goods is transferred for a price, and significant risks and rewards have been transferred and no effective ownership control is retained. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. It is the Company's policy to sell its products to the end customers with a right of return within 7 days. Historical experience is used to estimate and provide for such returns at the time of sales. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory risk.

Loyalty points programme:

The Company has a loyalty points programme, which allows customers to accumulate points

that can be redeemed for free products. The loyalty points give rise to a separate performance obligation as they provide a material right to the customer. A portion of the transaction price is allocated to the loyalty points awarded to customers based on relative stand-alone selling price and recognised as a contract liability until the points are redeemed. Revenue is recognised upon redemption of products by the customer.

When estimating the stand-alone selling price of the loyalty points, the Company considers the likelihood that the customer will redeem the points. The Group updates its estimates of the points that will be redeemed on a quarterly basis and any adjustments to the contract liability balance are charged against revenue.

The Company during the year has discontinued the customer loyalty program.

Interest Income:

Interest income is recognised on time proportion basis taking into account the amount outstanding and rate applicable. Interest income is included in finance income in the Statement of Profit and Loss.

e. Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss

(either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

f. **Property, plant and equipment**

Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

g. **Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as finite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

h. Depreciation on Property, plant and equipment

Depreciation on PPE is provided on the straight-line method computed on the basis of useful life prescribed in Schedule II to the Companies Act, 2013 ('Schedule II') on a pro-rata basis from the date the asset is ready to put to use. Considering the applicability of Schedule II as mentioned above, in respect of certain class of assets- the Company has assessed the useful lives (as mentioned in the table below) lower than as prescribed in Schedule II, based on the technical assessment.

Asset Category	Useful life estimated by the management based on technical assessment (years)	Useful life as per Schedule II (years)
Plant and equipment	6-9 years	15 years
Office equipment	5 years	5 years
Computers	3-6 years	3-6 years
Furniture and fixtures	10 years	10 years
Vehicles	8 years	8 years

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

i. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

j. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

- (iii) the Company has the right to direct the use of the asset"

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company has adopted modified retrospective approach as per para C8(c)(ii) of IND AS 116 - "Leases" for its store, warehouse, office premises and other assets taken on leases, effective from the annual reporting period beginning April 1, 2019. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Stores, ware house and office premises
9 to 15 years
- Plant and Machinery/ Office equipments
3 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (I) Impairment of non-financial assets.

Lease Liabilities

The Company recognises lease liabilities at the present value of lease payments to be made over the remaining lease term effective April 1, 2019. The lease payments include fixed payments

less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. In calculating the present value of lease payments, the Company uses its incremental borrowing rate because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset."

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of rented premises, Plant and machinery and office equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

k. Inventories

Inventories are valued as follows:

- a) **Packing and accessories:** At lower of cost and net realisable value. Cost represents purchase price and other direct costs and is determined on a "first in, first out" basis.
- b) **Traded goods:** At lower of cost and net realisable value. Cost of inventories comprises all costs of purchase price and

NOTES TO FINANCIAL STATEMENTS

for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

other incidental costs incurred in bringing the inventories to their present location and condition. Cost is determined based on first in first out method. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

I. Impairment of non-financial assets

The company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth

rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life (including right of use assets).

An assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Impairment losses are recognized in the statement of profit and loss.

m. Provisions

Provision are recognized when the company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligations, the provision is reversed.

n. Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Gratuity liability is defined benefit plan and is provided for on the basis of an actuarial valuation on projected unit credit (PUC) method made at the end of each year. Actuarial gain and loss for defined plan benefit plan is recognized in full in the year in which occur in the statement of profit and loss.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Accumulated leave, which are expected to be utilized within the next twelve months are treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of unused entitlement that has accumulated at that reporting period.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for twelve months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond twelve months, the same is presented as non-current liability.

Remeasurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- (a) The date of the plan amendment or curtailment, and
- (b) The date that the Company recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- (a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- (b) Net interest expense or income

o. Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of

NOTES TO FINANCIAL STATEMENTS

for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

share-based payments, whereby employees render services as consideration for equity instruments which are classified as equity-settled transactions.

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised as an employee benefit expense with a corresponding increase in 'Share Option Outstanding Account' in other equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company best estimate of the number of equity instruments that will ultimately vest.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions.

Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms not been modified,

if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through the Statement of Profit and Loss.

p. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- Those measured at amortized cost

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss (i.e. fair value

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

through profit or loss) or recognized in other comprehensive income (i.e. fair value through other comprehensive income).

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. Cash flow characteristics test: The contractual terms of the Debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

After initial measurement, financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (ii) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified

from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Investments

Investments in mutual fund are measured at FVTPL.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

NOTES TO FINANCIAL STATEMENTS

for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e. removed from the company's balance sheet) when:

- (i) The rights to receive cash flows from the assets have expired, or
- (ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all the risks and rewards of the ownership of the financial assets. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all the risks and rewards of the ownership of the financial assets, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss. All financial liabilities are recognized initially at fair value and, in the case of payables, net of directly attributable transaction costs.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

Offsetting of financial instruments:

Financials assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

q. Segment reporting

Identification of segments:

Business segment:

The company operates in single segment of retails of readymade garments, accessories, etc. and is engaged in the business of "Value Retailing" through the chain of stores situated at various cities in India..

Geographical segment:

The analysis of geographical segments is based on the geographical location of the customers. The company operates in single geographical segment i.e. India.

r. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and

short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of Company's cash management.

s. Cash dividend and non-cash distribution to equity holders

The Company recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

t. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss attributable to equity holder by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

attributable to equity shareholders of the company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.3 Changes in accounting policies and disclosures

New and amended standards

The Company applied Ind AS 116 Leases for the first time. The nature and effect of the changes as a result of adoption of this new accounting standard is described below.

Several other amendments apply for the first time for the year ending March 31, 2020, but do not have an impact on the financial statements of the Company. The Company has not early adopted any standards, amendments that have been issued but are not yet effective/notified.

(i) Ind AS 116 Leases

Ind AS 116 supersedes Ind AS 17 Leases including its appendices (Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease, Appendix A of Ind AS 17 Operating Leases-Incentives and Appendix B of Ind AS 17 Evaluating the Substance of Transactions Involving the Legal Form of a Lease). The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet.

The Company has adopted Ind AS 116 using the modified retrospective method of adoption with the date of initial application of April 1, 2019. Under this method, the right of use asset is measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.. The Company elected to use the transition practical expedient to not reassess whether a contract is or contains a lease at April 1, 2019. Instead, the Company applied the standard only to contracts that were previously identified as leases applying Ind AS 17 and Appendix C to Ind AS 17 at the date of initial application.

Comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended March 31, 2019.

The Company has adopted modified retrospective approach as per para C8(c)(ii) of IND AS 116 - "Leases" for its store, warehouse, office premises and other assets taken on leases, effective from the annual reporting period beginning April 1, 2019. This has resulted in recognizing a right of use assets (an amount equal to the lease liability, adjusted by the prepaid lease rent) of ₹ 39,859.07 lakhs as at April 1, 2019. In the statement of profit and loss for the current year, operating lease expenses has been changed from rent to depreciation charge for the right of use assets and finance cost for interest accrued on lease liability.

The effect of adoption of Ind AS 116 is as follows;

Impact on balance sheet [increase / (decrease)] as at April 1, 2019:

Particulars	(₹ Lakhs)
Assets	
Right-of-use assets	41,073.63
Property, plant and equipments	(670.45)
Capital work-in-progress	(25.58)
Other assets	
Prepaid lease rent	(518.53)
Total Assets	39,859.07
Liabilities	
Lease liabilities	40,555.10
Other financial liabilities	
Lease related payables	(696.03)
	39,859.07

The Company recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The Company has recognised a right of use assets (an amount equal to the lease liability, adjusted by the prepaid lease rent).

The Group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease
- For leases which are expired and under discussion for renewal, the Company considers such leases as short term leases since, the Company is not certain that option to extend the lease will be exercised as lessor has right to terminate the lease.
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

Upon adoption of the Appendix C to Ind AS 12, the Company considered whether it has any uncertain tax positions, particularly those relating to Deduction / allowance with respect to 80JJAA, allowance of education cess as tax deductible expenditure, etc. The Company, based on prudent basis has made provision for tax in respect to these un-certain tax treatments.

Based on the above, as at April 1, 2019:

Right-of -use assets of ₹ 41,073.63 lakhs were recognised and presented separately in the balance sheet. This includes the rent free period capitalised previously under leasehold improvements of ₹ 670.45 lakhs that were reclassified from Property, plant and equipment, ₹ 25.58 lakhs from capital work-in-progress and prepaid portion of security deposits of ₹ 518.53 lakhs re-classified from other assets.

Additional lease liabilities of ₹ 40,555.10 lakhs were recognised. This includes lease related payable in respect of rent free period.

Refer note 47 for impact of Ind AS 116 on balance sheet for year ended March 31, 2020 and statement of profit and loss for the year.

(ii) Appendix C to Ind AS 12 Uncertainty over Income Tax Treatment

The appendix addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of Ind AS 12 Income Taxes. It does not apply to taxes or levies outside the scope of Ind AS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Appendix specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately

Further refer note 20 for details.

(iii) Amendments to Ind AS 109: Prepayment Features with Negative Compensation

Under Ind AS 109, a debt instrument can be measured at amortised cost or at fair value through other comprehensive income, provided that the contractual cash flows are 'solely payments of principal and interest on the principal amount outstanding' (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to Ind AS 109 clarify that a financial asset passes the SPPI criterion regardless of the event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. These amendments have no impact on the financial statements of the Company.

(iv) Amendments to Ind AS 19: Plan Amendment, Curtailment or Settlement

The amendments to Ind AS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan

NOTES TO FINANCIAL STATEMENTS

for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- (a) Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event.
- (b) Determine net interest for the remainder of the period after the plan amendment, curtailment or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments had no impact on the financial statements of the Company as it did not have any plan amendments, curtailments, or settlements during the period.

(v) **Amendments to Ind AS 28: Long-term interests in associates and joint ventures**

The Company does not have any investment in associate or have joint venture and hence, these amendments had no impact on the financial statements as the Company is in compliance with the said amendment.

Annual Improvements to Ind AS 2018

(i) **Ind AS 103 Business Combinations**

There is no transaction on which Ind AS 103 on business combination is applicable, hence these amendments had no impact on the standalone financial statements of the Company as there is no transaction where joint control is obtained.

(ii) **Ind AS 111 Joint Arrangements**

"An entity that participates in, but does not have joint control of, a joint operation might obtain joint control of the joint operation in which the activity of the joint operation constitutes a

business as defined in Ind AS 103. The amendments clarify that the previously held interests in that joint operation are not remeasured. An entity applies those amendments to transactions in which it obtains joint control on or after the beginning of the first annual reporting period beginning on or after 1 April 2019."

These amendments had no impact on the financial statements of the company as there is no transaction where a joint control is obtained.

(iii) **Ind AS 12 Income Taxes**

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognises the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where it originally recognised those past transactions or events.

An entity applies the amendments for annual reporting periods beginning on or after 1 April 2019. Since the Company's current practice is in line with these amendments, they had no impact on the financial statements of the Company.

(iv) **Ind AS 23 Borrowing Costs**

"The amendments clarify that an entity treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete. The entity applies the amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. An entity applies those amendments for annual reporting periods beginning on or after 1 April 2019. Since the Company's current practice is in line with these amendments, they had no impact on the financial statements of the Company."

34. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Company has identified the following areas where significant judgements, estimates and assumptions are required. Further information on each of these areas and how they impact the various accounting policies are described below and also in the relevant notes to the financial statements. Changes in estimates are accounted for prospectively.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

a) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease, and the importance of the underlying asset to Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that it reflects the current economic circumstances.

For leases which are expired and under discussion for renewal, the Company considers such leases as short term leases since, the Company is not certain that option to extend the lease will be exercised as lessor has right to terminate the lease.

Further, the Company has exercised its judgement in using a single discount rate to a portfolio of leases with reasonably similar characteristics.

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

b) Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgments and the use of estimates regarding the outcome of future events.

c) Recognition of deferred tax

The extent to which deferred tax asset to be recognized is based on the assessment of the probability of the future taxable income against which the deferred tax asset can be utilized.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Useful lives of depreciable assets

The Company reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets.

(ii) Defined benefit obligation

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future trends salary increases, mortality rates and future pension increases. In view of the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(iii) Impairment of assets

In assessing impairment, the Company estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

(iv) Share based payments

The Company initially measures the cost of equity-settled transactions with employees using a black Scholes model to determine the fair value of the liability incurred. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For equity-settled share-based payment transactions, the liability is recognised at the vesting date. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 38.

(v) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

(vi) Assessment of potential markdown inventory

The Company at each reporting date makes an assessment of potential markdown due to aged inventory. In doing so, it estimates the net reliable value of aged inventory based on historic trend of sale of such/ similar aged inventory. Further, it also estimate the provision for shrink based on past trends which it believes is more than or near to actual shrink to be booked as and when stores are counted annually.

(vii) Incremental borrowing rate for leases

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Demand amounting to ₹ 17.38 lakhs (March 31, 2019 : ₹ 17.38 lakhs) was raised by the income tax department for AY 13-14 and AY 16-17 in respect of addition made under rule 8D of section 14A of Income Tax Act, 1961 and other non deductible expenses. The Company has reduced the refund due to it against such demand. However, the Company has filed an appeal before CIT (A) for assessment year 13-14 and has also filed a rectification application for assessment year 16-17.

Demand amounting to ₹ 80.20 lakhs (March 31, 2019 : ₹ Nil) was raised by the income tax department for AY 17-18 in respect of addition made under rule 8D of section 14A of Income Tax Act, 1961, allowance of education cess, delay in payment of PF and disallowance of interest on delayed payment of Income Tax. The Company has reduced the refund due to it against such demand. However, the Company has filed an appeal an appeal before CIT (A).

Demand amounting to ₹ 74.97 lakhs (March 31, 2019 : ₹ Nil) was raised by the income tax department for AY 12-13 in respect of addition made on disallowance of certain purchases based on inadvertent assumption. The Company has reduced the refund due to it against such demand. However, the Company has filed an appeal an appeal before CIT (A). The Company does not believe any liability devolving against the Company.

Value added tax²

₹ 450.30 lakhs (March 31, 2019: ₹ 451.60 lakhs) represents demand relating to the appropriateness of forms/ declaration made by the Company under relevant sales tax legislations which were primarily procedural and on interstate movement of goods. Pending final decisions, the Company has deposited amounts under protest with statutory authorities for certain cases amounting to ₹ 120.26 (March 31, 2019: ₹ 120.26).

Service tax³

Pursuant to levy of service tax on renting of immovable properties given for commercial use, retrospectively with effect from June 1, 2007 by the Finance Act, 2010, the Retailer Association of India (the Company being a member of such Association) has challenged the said levy and, inter-alia, its retrospective application. The Hon'ble Supreme Court has issued an interim order dated October 14, 2011, directing to deposit 50% of the arrears of service tax due upto September 30, 2011 and the balance, if any, at the time of final disposal of the appeal. The amount of service tax on rent in respect of rented stores from June 1, 2007 till September 30, 2011 amounted to ₹ 108.26 lacs of which ₹ 77.93 lacs has been provided for in the Statement of Profit and Loss till March 31, 2017 and the balance ₹ 30.33 lacs has been disclosed as contingent liability in current and previous year. As per directions of the Hon'ble Supreme Court, the Company, has deposited ₹ 37.69 lacs under protest with the concerned authorities and has disclosed this balance as "Service tax deposit" under other non-current assets.

Payment of Bonus (Amendment) Act, 2015⁴

The Payment of Bonus (Amendment) Act, 2015 dated December 31, 2015 (which was made effective from April 1, 2014) revised the thresholds for coverage of employees eligible for bonus and also enhanced the ceiling limits for computation of bonus. However, taking cognizance of the stay granted by Hon'ble High Courts of Kerala (Ernakulam), Karnataka (Bengaluru), Uttar Pradesh (Allahabad) and Madhya Pradesh (Indore) and pending disposal of such matter, the Company, in accordance with the Payment of Bonus (Amendment) Act, 2015, has only recognized an additional expense of ₹ 213.81 lakhs for the period April 1, 2015 to March 31, 2016 during previous year ended March 31, 2016 and has not recognised the differential amount of bonus of ₹ 107.61 lakhs for the period April 1, 2014 to March 31, 2015.

Minimum Wages Act, 1948⁵

₹ 94.45 lakhs (March 31, 2019 : ₹ 63.98 lakhs) represents demand under imposed by the labour enforcement officer under The Minimum Wages Act, 1948 mainly on classification of employees into skilled, semi-skilled and un-skilled. The Company has contested the demand and does not anticipate any material liability devolving on the Company.

Further there are various labour, legal metrology, food adulteration and cases under other acts pending against the Company, the liability of which cannot be ascertained. However, management does not expect significant or material liability devolving on the Company.

Demographic assumptions

	As at March 31, 2020	As at March 31, 2019
Retirement age	60	60
Withdrawal rate, based on period of service		
up to 5 years	40.00%	40.00%
5 years or more	10.00%	10.00%
Mortality rate	100% of IALM 2012-14	100% of IALM 2006-08

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Change in assumption		Increase in assumption		Decrease in assumption	
	March 31, 2020	March 31, 2019	March 31, 2020	March 31, 2019	March 31, 2020	March 31, 2019
Discount rate	- / +1%	- / +1%	668.11	547.92	773.49	634.98
Salary growth rate	- / +1%	- / +1%	772.81	633.74	668.02	548.30
Attrition Rate	- / + 0.50%	- / + 0.50%	698.73	569.02	713.45	594.18
Mortality Rate	- / + 0.10%	- / + 0.10%	717.50	588.70	716.95	588.25

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Sensitivities due to demographics are insignificant. Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected credit unit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(i) Risk analysis

The Company is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefits plans and management estimation of the impact of these risks are as follows:

Interest rate risk

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields falls, the defined benefit obligation will tend to increase.

Salary Inflation risk

Higher than expected increases in salary will increase the defined benefit obligation

Demographic risk

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary Increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Detailed information to the extent provided by the actuary in the actuarial certificate has been included in the disclosure given above.

38. Share Based Payments

Employee Stock Options (ESOP)

The Company has implemented an Employee Stock Option Scheme, which was approved by the Board of Directors and the shareholders vide resolution dated July 2, 2012 and July 10, 2012 respectively ('the V-Mart ESOP Scheme 2012' or the "Scheme"), consequent to which 300,000 equity shares with a nominal value of ₹ 10 each will be granted upon exercise of as stock options (ESOPs) to eligible employees. Further, the Members of the Company in its meeting held on September 18, 2017 had further approved the amendment in V-Mart ESOP scheme, 2012 by increasing the total number of options from 300,000 (Three Lakhs) to 600,000 (Six Lakhs) options The exercise price of these options will be determined by the Remuneration Committee and the options will vest over a period of twelve months to thirty six months of continued employment from the grant date.

(a) Below are the details in respect of ESOPs granted and outstanding as at March 31, 2020

Particulars	Grant date	ESOPs granted	Exercise price (in ₹)	Vesting option (in Nos.)			Market price of equity shares on the date of grant (in ₹)
				Completion of twelve months	Completion of twenty four months	Completion of thirty six months	
Grant IV	30-Jan-17	76,225	470	22,867	22,867	30,491	522.35
Grant V	12-Jul-17	6,395	900	1,918	1,919	2,558	1,243.90
Grant VI	9-Nov-17	9,300	1,260	2,790	2,790	3,720	1,412.60

No. of equity shares of ₹ 10 each fully paid up to be issued on exercise of option	103,777	1,642.59	123,106	1,320.27

Weighted average remaining contractual life (in years)

	As at March 31, 2020	As at March 31, 2019
Weighted average remaining contractual life (in years)	5.99	6.56

(c) The fair value of the options was estimated on the date of grant using the Black-Scholes Model with the following significant assumptions

Particulars	Risk free interest rates (in %)	Expected life (in years)	Volatility (in %)	Dividend yield (in %)	Weighted average exercise price (in ₹)	Weighted average fair value of stock option (in ₹)
Grant III	8.16%	4 years	38.74%	0.20%	573	248
Grant IV	7.93%	4 years	30.13%	0.24%	470	211
Grant V	7.80%	4 years	42.48%	0.18%	900	673
Grant VI	7.64%	4 years	50.76%	0.10%	1,260	727
Grant VII	7.45%	3 years	40.30%	0.10%	2,047	902
Grant VIII	7.42%	3 years	41.49%	0.10%	2,044	913
Grant IX	7.37%	3 years	22.23%	0.10%	2,286	792
Grant X	7.33%	3 years	22.90%	0.10%	2,347	2,595
Grant XI	7.26%	3 years	23.61%	0.10%	1,683	1,871

The expected life of the stock is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not also necessary be the actual outcome.

39. Segment information

Ind AS 108 establishes standards for the way that the Company report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The Company's operations comprises of only one segment i.e. Retail sale business of various merchandise products. The Company operates primarily in India and does not have operations in economic environments with different risks and returns. Hence, it is considered operating in single geographical segment. Based on the "management approach" as defined in Ind AS 108, the management also reviews and measure the operating results taking the whole business as one segment. In view of the same, separate segment information is not required to be given as per the requirements of Ind AS 108 on "Operating Segments". The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

42. Financial risk management

A. Capital risk management

The Company's objectives when managing capital are to safeguard continuity as a going concern, provide appropriate return to shareholders and maintain a cost efficient capital structure. The Company determines the amount of capital required on the basis of an annual budget and a five year plan, including, for working capital, capital investment in stores and technology. The Company's funding requirements are met through internal accruals and a combination of both long-term (Vehicle loans only) and short-term borrowings.

The Company monitors capital on the basis of total debt to total equity on a periodic basis. The following table summarizes the capital of the Company:

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

	As at March 31, 2020	As at March 31, 2019
Long term borrowings (including current maturities)	2.60	32.25
Working capital demand loan	104.65	-
Less: Cash and cash equivalents	(480.83)	(1,231.71)
Total debt	(373.58)	(1,199.46)
Equity share capital	1,815.55	1,813.00
Other equity	44,077.64	39,114.04
Total equity	45,893.19	40,927.04
Gearing ratio	-0.81%	-2.93%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2020 and March 31, 2019.

B. Financial risk management

A wide range of risks may affect the Company's business and operational / financial performance. The risks that could have significant influence on the Company are market risk and liquidity risk. The Company's Board of Directors reviews and sets out policies for managing these risks and monitors suitable actions taken by management to minimise potential adverse effects of such risks on the Company's operational and financial performance.

Market risk :

Market Risk is the risk that changes in market place could affect the future cash flows to the Company. The market risk for the Company arises primarily from interest rate risk and product price risk.

- i) **Interest risk:** The Company is exposed to interest rate risk primarily due to borrowings having floating interest rates. The Company uses available working capital limits for availing short term cash credits. The Company mitigates the same through efficient use of working capital limits and regular monitoring of Interest Coverage ratio. The Company is not exposed to significant interest rate risk as at the respective reporting dates.
- ii) **Product price risk:** In a potentially inflationary economy, the Company expects periodical price increases across its retail product lines. Product price increases which are not in line with the levels of customers' discretionary spends, may affect the business/retail sales volumes. In such a scenario, the risk is managed by offering judicious product discounts to retail customers to sustain volumes. The Company negotiates with its vendors for purchase price rebates such that the rebates substantially absorb the product discounts offered to the retail customers. This helps the Company protect itself from significant product margin losses. This mechanism also works in case of a downturn in the retail sector, although overall volumes would get affected.

Liquidity risk:

Liquidity risk is a risk that the Company may not be able to meet its financial obligations on a timely basis through its cash and cash equivalents, and funds available by way of committed credit facilities from banks Management manages the liquidity risk by monitoring rolling cash flow forecasts and maturity profiles of financial assets and liabilities. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents and additional undrawn financing facilities.

The table below summarises the maturity profile (remaining period of contractual maturity at the balance sheet date) of the Company's financial liabilities based on contractual undiscounted cash flows.

Credit risk:

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of account receivables. Individual risk limits are also set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. The Company considers reasonable and supportive forward-looking information.

The Company provides for twelve month expected credit losses for the following financial assets

The management assessed that cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

The following methods and assumptions were used to estimate the fair values:

The fair value of quoted investments are based on price quotations as on the reporting date.

The security deposits paid are evaluated by the company based on parameters such as interest rate, risk factors, risk characteristics, and individual credit worthiness of the counterparty. Based on this evaluation allowances are taken into account for the expected losses of the security deposits.

44. Fair hierarchy

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities. Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2019:

Particulars	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets					
Investments in mutual funds	March 31, 2020	789.01	789.01	-	-
	March 31, 2019	6,067.77	6,067.77	-	-
Investments in Bonds	March 31, 2020	-	-	-	-
	March 31, 2019	-	-	-	-
Loans	March 31, 2020	1,191.94	-	-	1,191.94
	March 31, 2019	965.78	-	-	965.78

There have been no transfers between Level 1 and Level 2 during the year.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed traded mutual funds that have quoted price. The mutual funds are reported using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximises the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

Note :

The carrying amount of trade receivables, trade payables, capital creditors, borrowing, employee payables and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

The fair values for security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

45. The Company on a periodic basis assesses the markdown of its aged and obsolete inventories (including shrinkage due to various reasons). The exercise has been carried out throughout the year and also at the year end. The estimated markdown including shrinkage in consumption of stock-in-trade amounts to ₹ 3,502.15 lakhs including provision at year end of ₹ 2,053 lakhs [March 31, 2019: ₹ 2,343.13 lakhs including provision at year end of ₹ 795 lakhs]. The management is confident that above estimation is adequate both in line with the industry standards and as well as considering the current COVID-19 situation. Also refer note 49 below

48. The Company has opted reduced rates as per section 115BAA of the Income Tax Act, 1961 (introduced by the Taxation Laws Amendment Ordinance, 2019). Accordingly, the Company has recognised Provision for Income Tax for the year and re-measured deferred tax assets on the basis of rates prescribed in the said ordinance.
49. World Health Organization (WHO) declared outbreak of Corona virus disease (COVID-19) a global pandemic on March 24, 2020. Consequent to this, Government of India has declared lockdown w.e.f. March 24, 2020 which has temporarily impacted the business activities of the Company such as closure of stores and warehouse, disruption of supply chain, etc.

On account of this, the Company has prepared cash flow projections to assess the cash flow requirements and funds available from various sources including bank borrowings, etc for next 12 months. On the basis of its evaluation considering various internal and external information up to the date of approval of these financial statements / financial results and current indicators of future economic conditions, the Company believes that it has sufficient funds to operate for next 12 months. It has also assessed recoverability and carrying value of its assets comprising property, plant and equipment, intangible assets, right of use assets, investments and inventories. Based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets.

NOTES TO FINANCIAL STATEMENTS for the year ended March 31, 2020

(All amounts in ₹ Lakhs, except for share data, per share data and unless otherwise stated)

Further, the Company has re-assessed valuation and recoverability of inventory. In its assessment the management has considered projected sales, purchase, discounts, promotion schemes, other logistic costs, etc. It has carried out sensitivity analysis and based on the same it is of the opinion that provision for markdown and shrink is sufficient and appropriate to cover any loss that may arise due to various un-certainties involved. Also refer note no. 45.

With respect to operating leases, the Company is under discussion with the landlords to waive the lease rentals for the lockdown period, re-negotiate rentals, waive off the future escalations, etc. Till the date of approval of these financial statements/ results, the conclusion is not arrived and hence lease accounting has been done on the basis of lease deeds/ MOU, etc. entered up to March 31, 2020. Consequent to this, right to use asset and lease liability will change and therefore impact the future finance cost on leased liabilities, depreciation on right to use and rental payments.

The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of the COVID-19 which may be different from that estimated as at the date of approval of these financial statements / results. The Company will continue to closely monitor any material changes arising of future economic conditions and impact on its business.
