Company Announcement

Escorts Agri Machinery sold 6,114 tractors in February 2022

MoM Volume up by 7.1%

Faridabad, March 1st, 2022: Escorts Agri Machinery (EAM) in February 2022 sold 6,114 tractors as against 11,230 tractors sold in February 2021, a drop of 45.6 percent year-on-year.

Domestic tractor sales in February 2022 was at 5,686 tractors as against 10,690 tractors in February 2021. The tractor industry wholesales continued to remain subdued in February 2022, due to high base of last year, steep price increases due to higher inflation in commodity prices impacting retails and above normal inventory levels with the channel.

Going forward, we expect overall higher rabi sowing this year, good level of water reservoirs, increased Union budget allocations to rural and agri sector and initial indicators of normal monsoon next year will drive positive momentum for tractor industry in coming year.

Export tractor sales in February 2022 was at 428 tractors against 540 tractors sold in February 2021.

Sales figure are as follows:

Company Announcement

Escorts Construction Equipment sold 386 machines in February 2022

Faridabad, March 1st, 2022: Escorts Ltd. Construction Equipment Segment (ECE) in February 2022 sold 386 machines against 449 machines sold in February 2021, a drop of 14.0 percent year-on-year.

Currently Construction equipment industry is facing short term challenges due to steep price increase led by unprecedented inflationary pressures and emission norm changes coupled with low equipment rental rates that is impacting retails.

However, given the Government thrust on infrastructure projects in coming year(s) and stabilisation of increased pricing in the market, we expect demand to start improving for construction equipment in the coming year
