NOTES

In view of the continuing COVID-19 Pandemic and Pursuant to the General Circular nos. 20/2020, 14/2020, 17/2020, 02/2021 issued by the Ministry of Corporate Affairs ("MCA") and Circular no. SEBI/HO/CFD/CMD1/CIR/P/2020/79 and SEBI/HO/CFD/CMD2/CIR/P/2021/11 issued by the SEBI, companies are allowed to hold AGM through VC, without the physical presence of members at a common venue. Hence, in compliance with the Circulars, the 31st AGM of the Company is being conducted through VC/OAVM Facility. The deemed venue for the 31st AGM shall be the Registered Office of the Company. Members can attend and participate in the ensuing AGM through VC/ OAVM.

1. In terms of the aforesaid circulars since the physical attendance of members has been dispensed with, there is no requirement of appointment of proxies. Accordingly, the facility of appointment of proxies by members under section 105 of the act will not be available for the 31st AGM. However, in pursuance of section 112 and section 113 of the act, representatives by Body Corporates may be appointed for the purpose of voting through remote e-voting, for participation in the 31st AGM through VC/OAVM facility and e-voting during the AGM.
2. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available for 1000 members on first come first served basis. However, this number does not include the large Shareholders i.e. Shareholders holding 2% or more shareholding, Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first serve basis.
3. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013.
4. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and the Circulars issued by the Ministry of Corporate Affairs dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with National Securities Depository Limited (NSDL) for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-Voting system as well as venue voting on the date of the AGM will be provided by NSDL.

5. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, Electronic copy of the Notice of the 31st Annual General Meeting of the Company inter-alia indicating the process and manner of e-voting along with Annual Report is being sent to all the members whose email IDs are registered with the Company/Depository Participants for communication purposes. The Notice calling the AGM has been uploaded on the website of the Company at www.kothariyeast.in, as part of the Annual Report for financial year 2020-21. The Notice can also be accessed from the website of the Stock Exchange i.e. BSE Ltd at www.bseindia.com and the AGM Notice is also available on the website of NSDL (agency for providing the Remote e-Voting facility) i.e. www.evotingindia.com
6. Corporate Members intending to attend and vote during the meeting or by Remote e-voting through their authorised representative(s) pursuant to Section 113 of the Act are requested to send to the Company, a certified copy of the relevant Board Resolution/ Authority Letter/ Power of Attorney, authorising their representatives at Company's email id viz. info@kothariyeast.in
7. The Register of Member and Share Transfer Books will remain closed from Thursday, 23rd September, 2021 to Thursday, 30th September, 2021 (both days inclusive) for the purpose of Annual General Meeting.
8. Since the AGM will be held through VC/OAVM, the Route Map is not annexed in this Notice.
9. In case of Joint holders attending the meeting, only such Joint holder who is higher in the order of names will be entitled to vote.
10. The Register of Directors' and Key Managerial Personnel and their shareholding maintained under Section 170 of the Companies Act, 2013, the Register of Contracts or arrangements in which the Directors are interested under Section 189 of the Companies Act, 2013 and all other documents referred to in the accompanying Notice and the Explanatory Statement will be available for inspection on the website of the Company during the Meeting.
11. The Company is providing facility for voting through electronic means before the date of AGM (Remote e-voting) as prescribed by the Companies (Management and Administration) Rules, 2014 and voting through electronic means during the AGM (E-Poll) available for such Members who are attending the Meeting and have not already cast their vote(s) by Remote e-voting. Information and instructions including details of User ID and password relating to e-voting are provided in the Notice separately.
12. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any member as soon as possible. Members are also advised not to leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned Depository Participant and holdings should be verified.
13. Pursuant to Section 72 of the Companies Act, 2013 read with Rule 19(1) of the Rules made thereunder, Shareholders are entitled to make nomination in respect of shares held by them in physical form. Shareholders desirous of making nominations are requested to send their requests in Form SH.13.
Further, Members desirous of cancelling/varying nomination pursuant to the Rule 19(9) of the Companies (Share Capital and Debentures) Rules, 2014, are requested to send their requests in FormNo. SH-14, to the Registrar and Transfer Agent of the Company.
14. Members holding shares under multiple folios are requested to submit their applications to RTA for consolidation of folios into a single folio.
15. The recorded transcript of the forthcoming AGM shall also be made available on the website of the Company www.Kothariyeast.in in the Investors Section, as soon as possible after the Meeting is over.
16. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number(PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN to the Company / Abhipra Capital Limited (Registrar & Share Transfer Agent).
17. Members are requested to notify immediately:
 - I. **In case shares are held in physical form:** any change in address, if any, to the Company at 16, Community Centre, 1st Floor, Saket, New Delhi-110017, India or to the Registrar and Share Transfer Agent of the Company viz. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Management of Kothari Fermentation & Biochem Ltd. is pleased to present its Nineteenth Analysis Report covering its overall performance and outlook.

Your company is in the business of Manufacturing Yeast and its derivatives during the year. Various types of Yeasts are produced, e.g. Baker's yeast, Nutritional yeast, feed yeast, Seasoning yeast, distiller yeast and bio-ethanol yeast. Yeast is used in various end-use applications in the Food, Distillery, Feed, Pharmaceuticals and Other Biotechnology sectors.

Industry Structure and Developments

The Yeast Industry in India comprises of three major companies which are manufacturing yeast including our company and there is also one small manufacturer producing a small quantity of bakers fresh yeast. The two other major manufacturers are AB Mauri and Saf Yeast which are multinational Companies.

There is increasing demand for yeast and yeast based products all over the world. The potential for expansion of yeast market in India is very large with country's own demand and export potential from neighboring countries. As one of the largest cane sugar producer country, India has sufficient supply of cane molasses which is the main raw material for yeast industry.

The capital cost of setting up yeast manufacturing plant is very high as practically all equipments are made in high grade stainless steel, power requirement is also very high as large aeration system and large volume of liquids are handled using high power pumps automated control systems, separation and packing systems. Molasses is available round the year but the prices are favourable during the 5 to 6 functioning months of Sugar Mills Production. Also the effluent generated with molasses as main raw material with high BOD and COD effluent requiring complex, elaborate and expensive treatment equipment posing challenges to the yeast industry. Making high quality yeast at low cost to meet continuously changing needs of baking industry, reducing carbon foot print and pollution control are biggest challenges in front of Indian and Global yeast industry.

Opportunities and Threats

The growth of yeast market is directly linked to the increasing trend of processed and fast food habits, especially bakery items. As per the current trend, India is presently one of the most promising markets for Baker's yeast, as its demand is continuously increasing with the rise in population and changing their eating habits to processed foods.

Due to presence of intense competition from multinational Companies, the company is constantly working to enter into new markets, other than Bakeries, and had developed technologies for the manufacturing of Yeast based products needed for Distilleries, Feed, Food Pharmaceuticals and Biotech Industries.

Segment wise Performance

Manufacturing of Yeast is the only business segment of the Company during the year 2020-2021. The brand names – Kothari "SUNRISE", "KF" and "FOUR SEASONS" have been well established in the domestic market.

The comparison of financial data with previous year's data, is provided as under:

KOTHARI FERMENTATION AND BIOCHEM LIMITED

Future Outlook

The accelerated outbreak of Coronavirus (Covid-19) across the globe and in India, has disrupted the economic activities with high uncertainty. The Government declared lockdown in the mid April, 2021 which was further extended from time to time till 7th June, 2021. The management has exercised due care in preventing the Company from the disruption to some extent. The production was slow during the period of lockdown but expected to regain the normal production in the second quarter of 2021-22. However, the management will continue to closely monitor any material changes to future economic conditions.

The Company is in the process of setting up of Yeast Extract Powder Plant at a production capacity of 50 MT/month. The project will be completed by the next 3 months, which will help in increasing production, turnover and profitability of the Company.

In order to reduce the power cost, the management of the company has entered into contract with Indian Energy Exchange. This has reduced the power cost and the impact of the same shall be visible within 2021-22. Further, the Company is looking for the avenues to explore Solar Power, where the investment may be required to be made in the Solar Project(s), which will further reduce power cost in near future. The investment may be required to be made directly in the project or in securities of SPV of some other Mega Projects.

The company is regularly reviewing its whole structure and making changes for future improvements. Various control systems are also deployed for the reduction of costs and improving of the operating efficiencies. The Company is constantly trying to be profitable by utilizing its available resources more effectively and efficiently.

Internal Control System and their adequacy

The Company has an internal control system with proper internal delegation of authority, supervision, checks and procedures. This system is reviewed and updated periodically in order to improve the same to meet the business requirements. The Internal Auditor of the Company has ensured adequacy and compliance of Internal Control System and that it commensurate with the size and nature of the Company and also suggests necessary checks and balances to increase the effectiveness of the system. The Board of Directors, Audit Committee and the Management ensure that the internal control system operate effectively within the organization.

Material Developments in Human Resources/Industrial Relations Front, including number of people employed

The Company believes that the competence and commitment of its people are the key drivers for growth of the organization. There have been excellent relations between the employees at various levels and the management. The managers' help employees identify obstacles and teach them leadership techniques through training, mentoring and coaching. The Company responds to genuine grievances of employees in order to foster warm and cordial relationships between the management and the employees. This practice increases job satisfaction of employees and ensures that employees can add value to their lives. There were 206 persons directly employed by the Company during the previous financial year on an average basis. However, there was no job loss on the Company due to the COVID induced lockdown.

Independent Auditor's Report

To
The Members of
Kothari Fermentation & Biochem Limited

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of Kothari Fermentation & Biochem Limited ('the Company'), which comprise the balance sheet as at 31st March 2021, the statement of profit and loss including the statement of other comprehensive income, the cash flow statement and the Statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standard prescribed under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of Affairs of the Company as at March 31, 2021, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to note no.38 to the financial results, which describes the management's assessment of the impact of uncertainties related to Covid-19 and consequential effects on the business operations of the Company.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements for the financial year ended March 31, 2021. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements.

The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

S. No.	Key Audit Matter	Auditor's Response
1	<p>Existence of Inventories</p> <p>As at March 31, 2021, the Company inventories aggregating Rs. 1448.81 lakhs, comprising 12% of the total assets of the Company as on that date, which inventories are geographically spread across multiple locations such as factory/depots. These inventories are physically verified by the Management in accordance with a physical verification plan.</p>	<p>We have performed the following principal audit procedures in relation to validating the existence and condition of inventories, which include a combination of testing internal controls and substantive testing as under:</p> <ul style="list-style-type: none"> • Understood Management's control over physical inventory counts. • Evaluation of the design and testing the operating effectiveness of the internal controls relating to physical inventory counts. • Performed alternate procedures including inspection of documentation of the subsequent sale of inventories to audit the existence and condition of inventory as per guidance provided in SA 501 "Audit Evidence – Specific Considerations for Selected Items" and have obtained sufficient appropriate audit evidence.

S. No.	Key Audit Matter	Auditor's Response
	Owing to the COVID-19 related lockdown, we were unable to participate in the year-end physical verification of inventories carried out by the Management at the year-end. For the aforementioned reason and also since the inventory balance is material, the existence and condition thereof has been considered as a key audit matter. (Refer Note 2 and 6 to the financial statements)	<ul style="list-style-type: none"> We have also performed roll-forward procedures for establishing the existence of inventory as at year-end by validating purchases, sales, stock movement of inventory during the intervening period i.e. from the date physical verification was done till the year end date. Verification of documentary evidences of damaged and expired stock and the adequacy of recorded allowance in respect of Inventories.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's Report, Secretarial Audit Report, Management Discussion and Analysis (but does not include the standalone Ind AS financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Company (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements for the financial year ended March 31, 2021 and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor’s Report) Order, 2016 (“the Order”) issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure I, a statement on the matters specified in the paragraph 3 and 4 of the order.

Annexure - II to the Independent Auditors' Report -31st March, 2021

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kothari Fermentation and Biochem Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included

obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31st March 2021

1. Reporting Entity

Kothari Fermentation and Biochem Limited referred to as “the Company” is domiciled in India. The Company’s registered office is at 16, Community Centre, 1st Floor, Saket, New Delhi-110017. The Company is a manufacturer of Yeast and its derivatives. The Factory of the Company is situated at Village Rajarampur, Industrial Area Sikandrabad, Distt. Bulandshahr in the State of U.P.

These financial statements were authorised for issue by the Board of Directors on their meeting held on 24th July, 2021.

2. Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

2.1 Basis of preparation

The financial statements of the Company comply in all material aspects with Indian Accounting Standards (“Ind AS”) as prescribed under section 133 of the Companies Act, 2013 (“the Act”), as notified under the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India.

Accounting policies are consistently applied except when a newly issued accounting standard is initially adopted or a revision to an existing accounting standard required a change in the accounting policy hereto in use.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention on accrual basis and the following items, which are measured on following basis on each reporting date:

- Certain financial assets and liabilities (including derivative instruments) that is measured at fair value
- Defined benefit liability/ (assets): present value of defined benefit obligation less fair value of plan assets.

2.3 Functional and presentation currency

These financial statements are presented in Indian National Rupee (‘INR’), which is the Company’s functional currency. All amounts have been rounded to the nearest Lakhs, unless otherwise indicated.

2.4 Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the company’s accounting policies and the reported amounts of assets, liabilities, income and expenses. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial statements for every period ended is included below:

- Measurement of defined benefit obligations: key actuarial assumptions;
- Recognition of deferred tax assets: availability of future taxable profit against which carry-forward tax losses can be used;
- Impairment test: key assumptions underlying recoverable amounts.
- Useful life and residual value of fixed assets
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
- Impairment of financial assets: key assumptions used in estimating recoverable cash flows

2.5 Classification of Assets and Liabilities as Current and Non-Current

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset/liability is treated as current when it is:

- Expected to be realised/settled (liabilities) or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading
- Expected to be realised/settled within twelve months after the reporting period, or
- Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets/liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets/liabilities.

The operating cycle is the time between the acquisition of the assets for processing and their realisation in cash and cash equivalents.

2.6 Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred up to the date when the assets are ready to use.

On transition to Ind AS In Case of Property Plant and Equipment, The Company has availed the carrying Value as Deemed Cost on the date of Transition i.e. 1st April, 2016.

Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed less any impairment loss, if any.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate item (major components) of property, plant and equipment. As per the assessment made by the management, fixed assets (other than building and captive power plant) does not comprise any significant components with different useful life. Any gain on disposal of property, plant and equipment is recognised in Statement of Profit and loss.

Subsequent Measurement

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

Depreciation

Depreciation on fixed assets is calculated on Straight Line Method using the rates arrived at based on the estimated useful lives given in Schedule II of the Companies Act, 2013 or re-assessed by the Company on technical basis, as given below.

Assets	Useful lives estimated by the management
Factory and other buildings	30-60 Years
Plant & Machinery	10-18 Years
Factory, R&D and office equipments	5-10 Years
Furniture & Fixtures	10 Years
Vehicles	8 Years
Air conditioner	10 Years
Computers	3 years

Depreciation on additions to or on disposal of assets is calculated on pro-rata basis. Leasehold land is not being amortised over the period of lease tenure. Additions on rented premises are being amortised over the period of rent agreement.

Depreciation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively. Individual assets costing below Rs.5000 are fully depreciated in the year of purchase as these assets have no significant useful life.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

Capital work-in-progress

Capital work-in-progress assets in the course of construction for production or/and supply of goods or services or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. At the point when an asset is operating at management's intended use, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset are capitalised where the asset is available for use but incapable of operating at normal levels until a period of commissioning has been completed.

2.7 Intangible assets

Intangible Assets acquired separately are stated at cost less accumulated amortization and impairment loss, if any. Intangible assets are amortized on straight line method basis over the estimated useful life.

Amortisation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the statement of profit and loss when the asset is derecognised.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired, impairment loss is recognised in the statement of profit & loss.

2.8 Non-current assets (or disposal groups) held for sale.

Non-current assets, or disposal groups comprising assets and liabilities, are classified as held-for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets, or disposal groups, are generally measured at the lower of their carrying amount and fair value less costs to sell. An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Once classified as held-for-sale, intangible assets and property, plant and equipment are no longer amortised or depreciated.

2.9 Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is recognised if the carrying amount of an asset exceeds its recoverable amount.

Impairment loss in respect of assets other than goodwill is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised in prior years. A reversal of impairment loss is recognised immediately in the Statement of Profit & Loss.

2.10 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets up to the assets are substantially ready for their intended use. The loan origination costs directly attributable to the acquisition of borrowings (e.g. loan processing fee, upfront fee) are amortised in the year in which they occur.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

2.11 Foreign currency transactions

Transactions in foreign currencies are recorded by the Company entities at their respective functional currency at the exchange rates prevailing at the date of the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date.

Non Monetary asset and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss with the exception that the exchange differences on foreign currency borrowings included in the borrowing cost when they are regarded as an adjustment to interest costs on those foreign currency borrowings;

2.12 Employee benefits

a. Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. The company has following defined contribution plans:

- a) Provident fund
- b) Gratuity

c. Defined benefit plans

For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The present value of the defined

benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss. Past service cost is recognised in the statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurement

The Company presents the first two components of defined benefit costs in the statement of profit and loss in the line item employee benefits expense.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

d. Other long-term employee benefits

Employee benefits in the form of long term compensated absences are considered as long term employee benefits. The company's net obligation in respect of long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise. The liability for long term compensated absences are provided on actual basis.

2.13 Revenue Recognition

a. Revenue from Contract with customers

The company derives revenue from sale of "Yeast".

IND AS -115 "Revenue from Contracts with customers" Provides a control based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to performance obligations;
- Recognize revenue when or as an entity satisfies performance obligation.

b. The Company recognises revenue from sale of goods when the titles have been passed at which time all the following conditions are satisfied:

- i) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- ii) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- iii) The amount of revenue can be measured reliably;
- iv) It is probable that the economic benefits associated with the transaction will flow to the Company; and
- v) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Sales of goods are recognized at the point of dispatch from factory to customers and sales from Depot are recognized at the time of billing to the customers. Sales are net of returns, rebate, trade discounts, rate differences, damaged goods and exclusive of taxes.

c. Revenue (other than sale) is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Export incentives and subsidies are recognized when the Company has complied with the conditions and there is a reasonable assurance the incentive will be received. Claim on insurance companies and others, where quantum of accrual cannot be ascertained with reasonable certainty, are accounted for on Receipt basis.

d. Interest other than interest on overdue debts from customers, is recognised on time proportion basis.

2.14 Government Grants and Subsidies

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company has complied with all attached conditions.

Government grants that compensate the Company for expenses incurred are recognised in the statement of profit and loss, as income or deduction from the relevant expense, on a systematic basis in the periods in which the expense is recognised.

Government grants relating to the purchase of property, plant and equipment are reduced from Plant, Property and Equipment and are credited to statement of profit and loss on a straight-line basis over the expected lives of the related assets.

2.15 Inventories

i. Inventories are valued as follows:

Raw materials, stores and spares	Lower of cost and net realisable value. Cost is determined on a weighted average basis. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.
Work-in-progress	Lower of cost and net realisable value. Cost includes direct materials, labour and a proportion of attributable overheads
Waste	At net realisable value

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

ii. Provision for obsolete/ old inventories is made, wherever required.

2.16 Trade Receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If the receivable is expected to be collected within a period of 12 months or less from the reporting date (or in the normal operating cycle of the business, if longer), they are classified as current assets otherwise as non-current assets..

Trade receivables are measured at their transaction price unless it contains a significant financing component in accordance with Ind AS 18 (or when the entity applies the practical expedient) or pricing adjustments embedded in the contract.

2.17 Provisions and contingencies, Contingent liabilities and Contingent Assets

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that it is required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

A contingent liability is a possible obligation that arises from a past event, with the resolution of the contingency dependent on uncertain future events, or a present obligation where no outflow is probable. Major contingent liabilities are disclosed in the financial statements unless the possibility of an outflow of economic resources is remote. Contingent assets are not recognized in the financial statements but disclosed, where an inflow of economic benefit is probable.

2.18 Measurement of fair value

a. Financial instruments

The estimated fair value of the Company's financial instruments is based on market prices and valuation techniques. Valuations are made with the objective to include relevant factors that market participants would consider in setting a price, and to apply accepted economic and financial methodologies for the pricing of financial instruments. References for less active markets are carefully reviewed to establish relevant and comparable data.

b. Marketable and non-marketable equity securities

Fair value for listed shares is based on quoted market prices as of the reporting date. Fair value for unlisted shares is calculated based on commonly accepted valuation techniques utilizing significant unobservable data, primarily cash flow-based models. If fair value cannot be measured reliably unlisted shares are recognized at cost.

c. Derivatives

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value provided by the respective banks. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss.

2.19 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign exchange forward contracts and interest rate swaps.

a. Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classifications

The company classifies its financial assets as subsequently measured at either amortised cost or fair value depending on the company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Business model assessment

The company makes an assessment of the objective of a business model in which an asset is held at an instrument level because this best reflects the way the business is managed and information is provided to management.

Financial Assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met:

- It is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- The contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate ('EIR') method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Financial Assets at fair value through Other Comprehensive Income (FVOCI)

Financial Assets with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI.

Financial Assets at fair value through profit and loss (FVTPL)

Any Financial Asset, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

In addition, the company may elect to classify a financial asset, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Financial Assets included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

Impairment of financial assets

The Company assesses on a forward-looking basis the expected credit loss associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognised from the initial recognition of the trade receivables.

b. Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of amortised cost, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities measured at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These gains/loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

De-recognition of financial liabilities

The company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

c. Equity Instruments

All equity instruments in scope of Ind AS 109 are measured at fair value. On initial recognition an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis. All other Financial Instruments are classified as measured at FVTPL.

2.20 Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in Other Comprehensive Income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax assets and liabilities are offset only if, the Company:

- a) Has a legally enforceable right to set off the recognised amounts; and
- b) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

ii. Deferred tax

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow

from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination. Due to uncertainty, MAT Credit shall be accounted for as and when utilised under the Income-tax Act.

2.21 Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether, (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

The company applies a single recognition and measurement approach for all leases, except for leasehold land, short term leases (twelve month or less) and leases of low-value. For short-term and leases of low value, the Company recognises the lease payments as an operating expense on a straight line basis over the term of the lease. Leasehold land is carried at the acquisition cost i.e. one-time lease premium paid at the time of acquisition of leasehold rights. For all other leases, the Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the incremental borrowing rate at the lease commencement date. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Lease liability and ROU asset, if any, have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Leasehold Land represents land allotted by U P State Industrial Development Corporation Ltd. for 90 years on leasehold basis and is recognised at cost.

2.22 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker(CODM).

The board of directors of the Company has been identified as being the chief operating decision maker by the Management of the company. The Business activity of the company falls within one business segment viz "Yeast".

2.23 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of twelve months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents is as defined above. In the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

2.24 Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares.

2.25 Standards issued but not yet effective

Ministry of Corporate Affairs("MCA") notifies new standard or amendments to existing standards. There is no such notification which would have been applicable from April 1, 2021.

33' Employee benefits

The Company contributes to the following post-employment defined benefit plans in India.

(i) Defined Contribution Plans:

The Company makes contributions towards provident fund to a defined contribution retirement benefit plan for qualifying employees. Under the plan, the Company is required to contribute a specified percentage of payroll cost to the retirement benefit plan to fund the benefits. During the year the Company has contributed to Government Provident Fund Rs. 37.11 (Previous year Rs. 37.11).

(ii) Defined Benefit Plan:

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. Gratuity liability is being contributed to the Group Gratuity-cum-life Assurance Cash Accumulation Policy administered by the LIC of India.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at 31 March 2021. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

A. Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

D. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

	31 March 2021	31 March 2020
Discount rate	7.00%	7.00%
Salary Growth Rate	8.00%	8.00%
Mortality (% of ILAM 2012-14)	100%	100%

Assumptions regarding future mortality have been based on published statistics and mortality tables.

E. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	31 March 2021		31 March 2020	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(19.55)	22.07	(17.85)	20.20
Expected rate of future salary increase (1% movement)	21.64	(19.55)	19.80	(17.85)

Sensitivities due to mortality & withdrawals are insignificant & hence ignored. Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

F. Description of Risk Exposures: Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such Company is exposed to various risks as follow - A) Salary Increases- Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability. B) Investment Risk – If Plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability. C) Discount Rate: Reduction in discount rate in subsequent valuations can increase the plan's liability.

B. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- recognised and measured at fair value and
- measured at amortised cost and for which fair values are disclosed in the financial statements.

There are no financial assets or financial liabilities which are required to be measured at fair value using recurring fair value measurements

Financial assets and liabilities measured at fair value - recurring fair value measurements

	As at 31 March 2021			
	Level 1	Level 2	Level 3	Total
Financial assets	-	-	-	-
Financial liabilities	-	-	-	-
Total financial liabilities	-	-	-	-

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

There are no transfers between level 1 and level 2 during the year

C. Fair value of financial assets and liabilities measured at amortised cost

	As at 31 March 2021		As at 31 March 2020	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets				
Other non-current financial assets	63.71	63.71	63.29	63.29
Trade receivables	616.85	616.85	756.46	756.46
Cash and cash equivalents	16.12	16.12	32.53	32.53
Bank balances other than above	54.48	54.48	22.69	22.69
Other current financial assets	3.47	3.47	4.15	4.15
	754.63	754.63	879.12	879.12

	As at 31 March 2021		As at 31 March 2020	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial liabilities				
Borrowings	2,376.84	2,376.84	2,004.27	2,004.27
Other non-current financial liabilities	-	-	-	-
Short term borrowings	1,163.94	1,163.94	1,040.67	1,040.67
Trade payables	312.73	312.73	480.38	480.38
Other current financial liabilities	609.34	609.34	532.06	532.06
	4,462.85	4,462.85	4,057.38	4,057.38

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents and other bank balances are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

II. Financial risk management

The Company has exposure to the following risks arising from financial instruments:- credit risk;- liquidity risk; and- market risk

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the processes to ensure that executive management controls risks through the mechanism of property defined framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed by the board annually to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

The carrying amount of financial assets represents the maximum credit exposure. The Company monitor credit risk very closely both in domestic and export market. The Management impact analysis shows credit risk and impact assessment as low.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company Management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback, past financials and external ratings, if they are available, and in some cases bank references. Sale limits are established for each customer and reviewed quarterly. Any sales exceeding those limits require approval from the Management of the Company.

More than 60 % of the Company's customers have been transacting with the Company for over four years, and no impairment loss has been recognized against these customers. In monitoring customer credit risk, customers are reviewed according

to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry and existence of previous financial difficulties

The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables and based on that no expected credit loss was estimated by the management as on March 31, 2021.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The carrying amount net of loss allowances of trade receivables is Rs. 616.85 (31 March 2020– Rs. 756.46).

Ageing of trade receivables are as under:-

Particulars	Less than 6 months	6-12 months	More than 12 months	Total
As at 31.03.2021	592.30	0.92	23.63	616.85
As at 31.03.2020	742.18	4.69	9.59	756.46

The Company management also pursue all legal option for recovery of dues wherever necessary based on its internal assessment

A default on a financial asset is when counterparty fails to make payments within 60 days when they fall due.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected future cash flows. This is generally carried out at unit level and monitored through caproate office of the Company in accordance with practice and limits set by the Company. These limits vary by location to take into account requirement, future cash flow and the liquidity in which the entity operates. In addition, the Company's liquidity management strategy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(a) Financing arrangements

The company had access to the following undrawn borrowing facilities at the end of the reporting period:

	As at 31 March 2021	As at 31 March 2020
Floating rate		
Expiring within one year (bank overdraft and other facilities)	84.00	259.33
Expiring beyond one year (bank loans)	151.88	
	235.88	259.33

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities may be drawn at any time in indian rupee and have an average maturity within a year.

(b) Maturities of financial liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and exclude contractual interest payments and the impact of netting agreements.

	Carrying Amounts			Contractual cash flows		
	31 March 2021	Total	0- 1 Year	1-3 years	3-5 years	More than 5 years
Non-derivative financial liabilities						
Borrowings	2749.10	2,749.10	372.26	729.19	1479.44	168.21
Short term borrowings	1163.94	1163.94	1163.94	-	-	-
Trade & Other payables	549.81	549.81	549.81	-	-	-
Total non-derivative liabilities	4462.85	4462.85	2086.01	729.19	1479.44	168.21

	Carrying Amounts			Contractual cash flows		
	31 March 2020	Total	0- 1 Year	1-3 years	3-5 years	More than 5 years
Non-derivative financial liabilities						
Borrowings	2364.01	2364.01	359.74	812.55	946.86	244.87
Short term borrowings	1040.67	1040.67	1,040.67	-	-	-
Trade & Others payables	652.70	652.70	652.70	-	-	-
Total non-derivative liabilities	4,057.38	4,057.38	2,053.11	812.55	946.86	244.87

The inflows/(outflows) disclosed in the above table represent the contractual undiscounted cash flows relating to derivative financial liabilities held for risk management purposes and which are not usually closed out before contractual maturity. The interest payments on variable interest rate loans in the table above reflect market forward interest rates at the reporting date and these amounts may change as market interest rates change.

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Company uses derivatives like forward contracts to manage market risk on account of foreign exchange and various debt instruments on account of interest rates. All such transactions are carried out within the guidelines set by the Board of Directors.

v. Currency risk

Foreign currency exposure not hedged by derivatives instrument or otherwise :

	31 March 2021	31 March 2020
i. Receivable	-	-
ii. Payable	27.62	12.46

Interest rate risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During 31 March 2021 and 31 March 2020, the Company's borrowings at variable rate were denominated in Indian Rupees.

Currently the Company's borrowings are within acceptable risk levels, as determined by the management, hence the Company has not taken any swaps to hedge the interest rate risk.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

	Nominal Amount	
	31 March 2021	31 March 2020
Fixed-rate instruments		
Financial assets	118.19	85.98
Financial liabilities	-	-
	118.19	85.98
Variable-rate instruments		
Financial assets	-	-
Financial liabilities	3,913.03	3,404.67
	3,913.03	3,404.67

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 50 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	Profit or loss		Equity, net of tax	
	50 bp increase	50 bp decrease	50 bp increase	50 bp decrease
31 March 2021				
Variable-rate instruments	19.57	(19.57)	14.12	(14.12)
Cash flow sensitivity	19.57	(19.57)	14.12	(14.12)
31 March 2020				
Variable-rate instruments	17.02	(17.02)	12.07	(12.07)
Cash flow sensitivity	17.02	(17.02)	12.07	(12.07)

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

36' Balances of certain trade receivables, advances, trade payables and other liabilities are in the process of confirmation and/or reconciliation.

37' Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders. The following table summarises the capital of the Company :

Particulars	31.03.2021	31.03.2020
Equity Share Capital	1,500.00	1,500.00
Other Equity	4,528.96	4,054.52
