2. MANAGEMENT DISCUSSION & ANALYSIS / OPERATIONS REPORT COMPANY'S PERFORMANCE

The spread of COVID-19 has severely impacted businesses around the globe, including India. There has been severe disruption to regular business operations due to lock-downs, disruptions in transportation, supply chain, travel bans, quarantines, social distancing and other emergency measures. Shipping industry was struggling since last few years and suffered more as compared to other industries due to this COVID 19 pandemic. Consequent to the Government advisories issued for controlling the spread of COVID 19, the operations of Company were suspended from 23rd March, 2020. The Company resumed the operations partially since 4th May, 2020 in line with the regular lockdown relaxation measures issued by Ministry of Home Affairs. As a result of lockdown, operations have been impacted to some extent.

The Net worth of the group as on 31.03.2021 is negative and current liabilities exceed its total assets by ₹ 1,601.33 lacs. The Management will take appropriate steps to improve operations Further the market value of the assets held by group would sufficiently cover shortfall if any. Hence the accounts have been prepared on a going concerns basis.

INTERNAL FINANCIAL CONTROL SYSTEM

The Company has effective systems of internal controls, which are periodically reviewed by the Audit Committee of the Board of Directors. Based on its evaluation (as defined in section 177 of Companies Act 2013 and Clause 18 of SEBI (LODR) Regulations 2015), our audit committee has concluded that, as of 31st March, 2021 our internal financial controls were adequate and operating effectively.

GOVERNMENT POLICIES

The Indian economy and many developed countries continue to make effort for speedy economic recovery. As part of overall strategy however, the Governments in various countries continue to give priority for development of overall infrastructure. This bodes well for overall trade.

INDUSTRIAL RELATIONS

The industrial relations during the year were very cordial and there were no industrial disputes.

THREATS, RISKS & CONCERNS

Freight Risks: The charter income is subject to freight rate risks and therefore the Company, at group level, follows the policy of mixture of short period and long period time charter contracts with first class charters to mitigate volatility in freight rates.

Annual Report 2020-21

Interest Rate Risk: With a view to avoid uncertainty in the interest rate, the necessary forward cover is taken at regular intervals wherever necessary.

Forex Risk: As major portion of the Group's revenues is generated from international business in the US Dollar terms, the same creates a natural hedge against foreign exchange exposures. The Company reviews Rupee - US Dollar parity on regular basis to protect itself from currency fluctuation risks.

At the Company standalone level, there is very limited forex risk for the Company.

Counter Party Risks: The Company engages into charter contracts with the reputed charters to avoid the risks to the freight earnings.

Government Policies: The Company regularly reviews the changes in the applicable government policies affecting operations of the Company.

Human Resources: There is a scarcity of floating staff. In view of outsourcing of crew management, the Company gets the benefit of having efficient and cost effective floating staff from the Ship Manager's pool.

3. DIVIDEND

Considering the liquidity and the cash flow position of the Company, the Board of Directors did not recommend any dividend for the financial year under review.

4. RESERVES

During the financial year under review, the Company was not required to transfer any amount to any reserves.

5. SHARE CAPITAL

The paid-up equity share capital of the Company as on 31st March, 2021 was ₹ 3,630.84 lakhs comprising of 36,308,425 shares of ₹ 10/- each. During the year under review, there has been no change in the capital structure of the Company.

6. SUBSIDIARIES

As on 31st March 2021, the Company has five overseas subsidiaries which includes one wholly owned subsidiary and four step-down subsidiaries. The four step down subsidiaries had vessel on bareboat charter under each step-down subsidiary. During the year, three vessels were returned to the owners. Two step-down subsidiaries are in the process of liquidation. The Board of Directors of the Company reviews the affairs of the subsidiaries periodically.

In accordance with Section 129(3) of the Companies Act, 2013, the Company has prepared consolidated financial statements of the Company and all its subsidiaries, which form part of the Annual Report. Further, a statement containing the salient features of the financial statement of the subsidiaries in the prescribed format AOC-1 is attached as **Annexure 1**

The Company will make available these documents / details upon request by any member of the Company. However, pursuant to Accounting Standard AS-21 of the Companies (Accounting Standards) Rules 2016, Consolidated Financial Statements presented by the Company include the financial information of its subsidiaries. The Company does not have any other joint venture/associate company in which it has significant influence.

7. INSURANCE

The fleet of the Company has been adequately insured against Marine and War Risks.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
CHOWGULE STEAMSHIPS LIMITED

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the Standalone financial statements of **Chowgule Steamships Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information. (hereinafter referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2021, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Material uncertainty related to going concern

We draw attention to the standalone financial statements regarding the Company's exposure to its Wholly Owned subsidiary as on 31st March 2021 of ₹ 12,410.76 lakhs consisting of investment in equity and convertible redeemable preference shares of ₹ 9,549.59 lakhs and loan (incl accrued interest) of ₹ 2,861.17 lakhs (against a net worth of ₹ 12,875.98 lakhs). Looking to the activities of the said subsidiary/step-subidiaries, in our opinion, recovery of the investment and the loans is doubtful on account of consistent losses for the past years, sale of major operational assets by the step-down subsidiaries, and inability to meet liabilities as and when they fall due. These events indicate that a material uncertainty exists which may cast a significant doubt on the company's ability to continue as a going concern.

Our opinion is not modified in respect of this matter.

Emphasis of Matter

- i. We draw attention to note 31 to the Financial Statements regarding Exceptional Items of ₹ 1,102.26 lakhs (net) consisting of writeback / write off of certain loans / receivables on account of their not being payable / recoverable by the Company for reasons stated therein.
- ii. Balances with respect to certain Borrowings and certain Trade Payables are subject to confirmation and reconciliation. In absence of such confirmation, the balances as per books of accounts have been relied upon.

Our opinion is not modified in respect of this matter

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matters described in the material Uncertainty related to going concern section , we have determined the matters described below to be the key audit matters to be communicated in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report including its annexures and Corporate Governance and Shareholders information but does not include the financial statements and our auditor's report thereon. The Directors' report including its annexures and Corporate Governance and Shareholders information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosures about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **CHOWGULE STEAMSHIPS LIMITED** (“the Company”) as of 31st March, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statements of the company that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements of the company were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls with reference to financial statements of the company and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annual Report 2020-21

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, internal financial controls with reference to financial statements of the company and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS

1. Corporate information

Chowgule Steamships Limited (CSL) ("the Company") is a limited Company incorporated and domiciled in India, whose shares are publically traded on Bombay Stock Exchange. CSL is a shipping Company which presently owns and operates a fleet of 1 vessels (including that of its wholly owned subsidiaries) for seaborne transportation of bulk cargo. CSL is principally engaged in the carriage of goods by sea and is committed to serve its customers to their satisfaction and mutual optimum benefits.

The Company's registered office address is at Chowgule House, Mormugao Harbour, Goa – 403 803 and the principal place of business is 4th Floor, Bakhtawar, Nariman Point, Mumbai 400 021.

2. Significant accounting policies

2.1 Statement of compliance

A. Basis of preparation and presentation

These financial statements are prepared in accordance with Indian Accounting Standards (herein after referred to as "Ind AS") notified under Section 133 of the Companies Act, 2013 ("Act") read with Companies (Indian Accounting Standards) Rules, 2015 as amended; and the other relevant provisions of the Act.

The Company's presentation and functional currency is Indian rupees. All amounts in these financial statements, except per share amounts and unless as stated otherwise, have been rounded off to two decimal places and have been presented in lakhs.

B. Authorisation of financial statements

The Financial statements were authorized for issue in accordance with a resolution of the Board of Directors in its meeting held on 8th June, 2021.

C. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities are measured at fair value.
- Defined benefit plans where plan assets measured at fair value.

Fair value is the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participations at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.2 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the accounts and reported amounts of income and expenses during the year. The management believes that the estimates used in the preparation of financial statements are prudent and reasonable. The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

Actual results could differ from those estimates. The most significant techniques for estimation are described in the accounting policies below. Critical accounting judgments and the key sources of estimation or uncertainty in applying the Company's accounting policies arise in relation to property, plant and equipment, impairment of assets, current asset provisions, deferred tax, retirement benefits and provisions. The detailed accounting policies, including underlying judgments and methods of estimations for each of these items are discussed below.

2.3 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of activities of the Company and the time between the acquisition of assets for processing and their realization in cash or cash equivalents the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.4 Property, plant and equipment (PPE)

Freehold land is carried at historical cost. All other items of property, plant and equipment (PPE) are stated at cost, less accumulated depreciation and impairment losses. Cost includes all direct costs and expenditures incurred to bring the asset to its working condition and location for its intended use. Historical cost includes expenditure that is directly attributable to the acquisition of the item.

An item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. This recognition principle is applied to the costs incurred initially to acquire an item of property, plant and equipment and also to costs incurred subsequently to add to, replace part of, or service it. All other repair and maintenance costs, including regular servicing, are recognised in the statement of profit and loss as incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on disposal of an asset is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

Depreciation

Depreciation is recognized to write off the cost of assets (other than freehold land) less their residual values over their useful lives. These charges are commenced from the dates the assets are available for their intended use and are spread over their estimated useful economic lives. The estimated useful lives, residual values and depreciation method are determined and reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis. When significant parts of PPE are required to be replaced at intervals, company depreciates them separately based on their specific useful lives.

NOTES TO THE FINANCIAL STATEMENTS

Depreciation on PPE is provided as per the useful life prescribed in Schedule II of the Companies Act, 2013 except in case of the following category of PPE in whose case the life of the items of PPE has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, manufacturer's warranties and maintenance support etc.

Depreciation on property, plant and equipment has been provided on the basis as indicated below.

<u>Assets</u>	<u>Basis</u>
Vessel	Straight line method
Other assets	Written down value method

Estimated useful lives of the property, plant and equipment are as follows:

Vessel	25 years
Buildings	60 years
Furniture and fixtures	10 years
Office equipment	3-6 years
Vehicles	8 years
Computers	3 years

Depreciation on PPE is provided as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Advances paid towards acquisition of property, plant and equipment outstanding at the year-end are classified as capital advances under other non-current assets.

Assets classified as held for sale

An item of Property Plant and Equipment is classified as held for sale at the time when the Management is committed to sell/ dispose off the asset based on agreements entered into with the customer, and the asset is expected to be sold , disposed off within one year from the date of classification. Assets classified as held for sale are measured at lower of cost and net realisable value.

2.5 Investment property

Investment Property is property (land or building or a part of building) held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in production or supply of goods or services or for administrative purposes.

Investment properties are measured initially at cost, including transaction costs, Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The Company depreciates building component of investment property over 30 years from the date of original purchase.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal.

The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of depreciation.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use.

2.6 Investment in subsidiaries

Investment in subsidiaries are recorded at cost and reviewed for impairment at each reporting date.

2.7 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

NOTES TO THE FINANCIAL STATEMENTS

2.8 Leasing

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

(A) Lease liability

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.

(B) Right-of-use assets

Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

Subsequent measurement

(A) Lease liability

Company measure the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amount to reflect any reassessment or lease modifications.

(B) Right-of-use assets

Subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the underlying asset.

Short term lease

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the company elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease income is recognised in the statement of profit and loss on straight line basis over the lease term.

2.9 Impairment of non financial assets

At each balance sheet date, the Company reviews the carrying amounts of its property, plant and equipment to determine whether there is any indication that the carrying amounts of those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If recoverable amount of asset (or cash-generating unit) is estimated to be less than carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss.

NOTES TO THE FINANCIAL STATEMENTS

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit and loss.

2.10 Foreign currency transactions and translation

The financial statements of the Company are presented in INR, which is the functional currency of the Company.

In preparing the financial statements of the Company, transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in the statement of profit and loss for the period. Exchange differences arising on retranslation of non-monetary items carried at fair value are included in statement of profit and loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income.

2.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognised in statement of profit or loss in the period in which they are incurred.

2.12 Employee benefits

2.12.1 Short term

Short term employee benefits are recognised as an expense at the undiscounted amount expected to be paid over the period of services rendered by the employees to the Company. These benefits include compensated absences such as paid annual leave.

2.12.2 Retirement benefit costs

The Company has both defined-contribution and defined-benefit plans, of which some have assets in special funds or securities. The plans are financed by the Company and in the case of some defined contribution plans are financed by the Company along with its employees.

2.12.2.1 Defined-contribution plans

These are plans in which the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. These comprise of contributions to the employees' provident fund and superannuation fund. The Company's payments to the defined-contribution plans are reported as expenses during the period in which the employees perform the services that the payment covers.

2.12.2.2 Defined-benefit plans

For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to statement of profit and loss. Past service cost is recognised as an expense when the plan amendment or curtailment occurs or when any related restructuring costs or termination benefits are recognised, whichever is earlier. The service cost, net interest on the net defined benefit liability/ (asset) is treated as a

NOTES TO THE FINANCIAL STATEMENTS

net expense within employment cost. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined-benefit obligation as reduced by the fair value plan assets.

2.12.3 Other long-term employee benefits

Compensated absences which accrue to employees and which can be carried to future periods but are expected to be availed in twelve months immediately following the year end are reported as expenses during the year in which the employees perform the services that the benefit covers and the liabilities are reported at the undiscounted amount of the benefits after deducting amounts already paid. Where there are restrictions on availment of encashment of such accrued benefit or where the availment is otherwise not expected to wholly occur in the next twelve months, the liability on account of the benefit is actuarially determined using the projected unit credit method.

2.13 Taxation

Income Tax expense represents the sum of current tax and deferred tax.

2.13.1 Current tax

The current tax is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.13.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward losses and allowances can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to cover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Deferred tax assets include unused tax credit on account of Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, unused tax credit are recognised as deferred tax asset in the Balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

2.14 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits with banks which are short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in Balance Sheet.

2.15 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

NOTES TO THE FINANCIAL STATEMENTS

The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.16 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation arising from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on Contingent Liability is disclosed in the notes to the financial statements.

Contingent assets are not recognized but disclosed when the inflow of economic benefits is probable. However, when the realization of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognized as an asset.

2.17 Revenue recognition

The Company earns revenues from contracts with customers from Charter Hire Earnings, demurrage and freight earnings.

2.17.1 Determining the timing of satisfaction of performance obligations

The Company recognises revenue when the entity satisfies the performance obligation by transferring promised goods or services to a customer. An asset is transferred when the customer obtains control of that asset. The typical timing of payment coincides with the issue of invoice for satisfaction of performance obligations or are within the normal credit period extended by the Company. The contract assets as at the year end pertain to the balance receivables in case of revenues of the Company.

Nature of income	Timing for satisfaction of performance obligation
Charter hire earnings, demurrage and freight earnings.	Time charter hire earnings represent the value of charter hire earnings, demurrage, freight earnings and are accounted on accrual basis. Freight earnings are recognised on a pro-rata basis for voyages in progress at balance sheet date after loading of the cargo is completed. Revenues and related expenses for voyages where cargo has not been loaded as on the balance sheet date are deferred and recognised in the following year.

Revenue is net of trade discounts and exclude Goods and Service Taxes (GST) or duties collected on behalf of the government.

Determining the transaction price and the amounts allocated to performance obligations

The transaction price is normally fixed as per the terms of contract and there are no significant judgements involved in allocating the same to the performance obligations as the prices are standalone for separate performance obligations.

As a practical expedient, the Company has not disclosed the information for a transaction price allocated to performance obligation which are unsatisfied as of the end of the reporting period for performance obligation which is part of a contract that has an original expected duration of one year or less.

NOTES TO THE FINANCIAL STATEMENTS

Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as Customer advances.

2.17.2 Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably)

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.17.3 Rental income

The Company's policy for recognition of revenue from operating leases is described in note 2.8 above

2.17.4 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.17.5 Other income

Other income is accounted for on accrual basis except where the receipt of income is uncertain in which case it is accounted for on receipt basis.

2.18 Operating expenses

All expenses relating to the operation of the vessel including crewing, insurance, stores, bunkers, charter hire and special survey costs are expensed under operating expenses on accrual basis. Dry-docking expenses are amortised over 30 months.

2.19 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial asset or financial liability, as appropriate, on initial recognition. The transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the statement of profit and loss.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

2.20 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company, or the counterparty.

2.21 Financial assets

Purchases or sales of financial assets which require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

NOTES TO THE FINANCIAL STATEMENTS

All recognised financial assets are subsequently measured in their entirety at their amortised cost or fair value, depending on the classification of the financial assets.

2.21.1 Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2.21.2 Financial assets at fair value through other comprehensive income

Financial assets are subsequently measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2.21.3 Financial assets at fair value through profit or loss

Financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

2.21.4 Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income.

Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition. For financial instruments whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised.

2.21.5 Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the assets and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing of the proceeds received.

2.22 Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

Interest-bearing bank loans, issued debts are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Company's accounting policy for borrowing costs.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expired.

NOTES TO THE FINANCIAL STATEMENTS

2.23 Earnings per equity share

Basic earnings per equity share is computed by dividing the profit/(loss) after tax (including the post-tax effect of extraordinary items, if any) attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the profit after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to dilutive potential equity shares attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations..The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

2.24 Segment reporting

Operating segments are defined as components of an enterprise for which available discrete financial information is evaluated based on the single operating segment 'Shipping', regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

2.25 Exceptional items

Exceptional items are those items that management considers, by virtue of their size or incidence (including but not limited to impairment charges), should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Such items are material by nature or amount to the year's result and require separate disclosure in accordance with Ind AS.

Capital reserve:

Capital reserve includes profit on forfeiture of shares.

Annual Report 2020-21

NOTES TO THE FINANCIAL STATEMENTS

Capital redemption reserve:

Capital redemption reserve is created out of profits on redemption of preference share capital.

Securities premium reserve:

Amount received on issue of shares in excess of the par value has been classified as securities premium.

General reserve:

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to profit or loss.

Retained earnings:

The amount that can be distributed by the Company as dividends to its equity shareholders is determined considering the requirements of the Companies Act, 2013.

- An amount of ₹ 811.72 was due from a party to whom the Company had sold a vessel. The Party has dishonoured the advance cheques issued at the time of sale and has also not made good the default. The Party has claimed that the vessel is not being operated and hence no further payments would be made. Accordingly, the Company has written off the amount due from this party as irrecoverable receivables.
- The Company had a loan from Chowgule & Company Pvt Ltd amounting to ₹ 1,913.98 (including interest accrued ₹ 143.98) outstanding as on 31.03.2020. During the year, the Company provided interest on this loan upto 31.12.2020 as per the terms then attached. A Memorandum of Family Settlement (MOFS) dated 11.01.2021 has been executed between the members of Chowgule Family (Promoters of the Company) to divide the businesses and other matters mentioned therein. MOFS provides that the aforesaid loan is not to be "repaid". Accordingly, the Company has written back the said loan as a liability no longer existing.

NOTES TO THE FINANCIAL STATEMENTS

32 Employee benefit plans

a) Defined contribution plans

Provident fund :

The Company makes contributions to Provident Fund which is defined contribution plan for qualifying employees. Under the Scheme, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The fund is administered by the Trustees. The contributions payable by the Company are at rates specified in the rules of the schemes. The Company has recognised amount in the statement of profit and loss under the head "Employee Benefit Expenses" as mentioned in the following table.

Superannuation fund :

All eligible employees are entitled to benefits under superannuation, a defined contribution plan. The Company makes yearly contribution until retirement or resignation of the employee. The Company recognises such contributions an expense. The Company has no further obligation beyond yearly contribution.

The Company has recognised the following amounts in the statement of profit and loss as contribution under defined contribution plans

	2020-21	2019-20
i) Provident fund	5.23	8.12
ii) Superannuation fund	6.81	16.11

(₹ in lakhs)

b) Defined benefit plan

The Company makes annual contributions to the Chowgule Steamships Limited Shore Employees Gratuity Fund (Income tax approved irrevocable trust), which in-turn, has taken group gratuity cum Life assurance scheme of the Life Insurance Corporation of India, which is a funded defined benefit plan for qualifying employees. This scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment as per the Company's gratuity scheme. Vesting occurs upon completion of five years of service.

The Company offers its employees defined benefit plan in the form of a gratuity scheme (a lump sum amount). For gratuity scheme the Company contributes funds to Gratuity Trust, which is irrevocable. Commitments are actuarially determined at year-end. The actuarial valuation is done based on "Projected Unit Credit" method. These plans typically expose the Company to actuarial risk such as: investment risk, interest rate risk, longevity risk and salary risk

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A decrease in the bond interest rate will increase the plan liability; however, this will be partially off set by an increase in the plan assets.

Longevity risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

NOTES TO THE FINANCIAL STATEMENTS

The principal actuarial assumptions are as follows:

	2020-21	2019-20
i) Discount rate at 31st March	6.71% p.a.	6.55% p.a.
ii) Rate of increase in compensation	5.00% p.a.	5.00% p.a.
iii) Attrition rate	0.50% p.a.	0.50% p.a.
vi) Mortality table	Indian Assured Lives Mortality (2012-14)	Indian Assured Lives Mortality (2012-14)

Foot notes:

- The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.
- The estimate of future salary increase considered, takes into account the inflation, seniority, promotion, increments and other relevant factors, such as supply and demand in the employment market.
- The fair value of the plan assets are based on the LIC Fund balance position as at the balance sheet date. The composition and the categories of plan assets are unavailable with the Company.
- The expected rate of return on plan assets is based on the average long-term rate of return expected on investment of funds during the estimated term of obligation.

Amounts recognised in statement of profit and loss in respect of these defined benefits plans are as follows:

	2020-21	2019-20

Sensitivity analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and employee turnover. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

		(₹ in lakhs)	
		Present value of obligation (PVO)	
		2020-21	2019-20
Discount rate (DR)	PVO DR + 1%	21.18	19.36
	PVO DR - 1%	24.73	22.96
Expected Salary escalation rate	PVO ER + 1%	24.74	22.96
	PVO ER - 1%	21.14	19.32

NOTES TO THE FINANCIAL STATEMENTS

PVO payouts	0.15	0.17	0.20	0.22	7.27	14.67

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

The above excludes investment in subsidiary.

In respect of financial instruments, measured at amortised cost, the fair value approximates the amortised cost.

36.3 Financial risk management objectives

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that generates directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. It is the Company's policy that no trading in derivatives for speculative purposes is undertaken.

36.4 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Financial instruments affected by market risk include loans and borrowings, deposits, trade and other receivables and investments.

36.5 Foreign currency risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities and lendings when transactions are denominated in a different currency from the Company's functional currency.

The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies. The Company's policy is not to hedge transactions and to buy and sell currency at spot rate where applicable. Sensitivity analysis

A 5% strengthening / weakening of Indian Rupee against key currencies to which the Company is exposed (net of hedge, if any), with all other variables being held constant, would have led to approximately a gain / loss as below.

(₹ in Lakhs)

	Financial assets	Impact
Closing assets as per financials	2,862.55	
Increase in exchange rate by 5%	3,005.67	143.13
Decrease in exchange rate by 5%	2,719.42	-143.13

36.6 Interest risk

Interest risk is the risk that the fair value or future cash flows of the financial instruments will fluctuate because of the changes in the market rate risk, the Company performs a comprehensive corporate interest rate risk management. The Company is not exposed to significant interest rate risk as at the respective reporting dates.

The Company’s exposure to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section.

36.7 Price risk

The Company is affected by the price volatility. The Company’s operating activities comprise of employment of ships on time charter contracts. Due to the cyclical nature of shipping industry, the revenue from shipping operations are subjected to price risk. To mitigate the impact of price risk the Company adopts mixture of short, medium and long term employment contract for its fleet.

36.8 Credit risk management

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the financial reliability of customers taking into account the financial conditions, current economic trends and analysis of historical bad debts and ageing of accounts receivable.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on-going basis throughout each reporting period. To assess whether there is significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date on initial recognition. Financial assets are written off when there is no reasonable expectation of recovery. When loans or receivables have been written off, the company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in statement of profit and loss. The Companies operations involves employment of the vessels on time charter contracts where receivables are collected periodically in advance and therefore credit risk is minimal.

36.9 Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the company’s short-term, medium - term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate banking facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
CHOWGULE STEAMSHIPS LIMITED

Report on the audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of **Chowgule Steamships Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at 31st March, 2021, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Equity and the Statement of consolidated Cash Flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information. (herein after referred to as "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Group as at 31st March, 2021, the consolidated profit and total comprehensive profit, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Material Uncertainty related to going concern

We draw attention to Note 40 to the consolidated financial statements, which indicates that the group's current liabilities exceeded its total current assets by ₹ 1,601.33 lakhs. The net worth of the group as on that date is also negative. Further, the group has also sold a majority of its operational assets. These events indicate that a material uncertainty exists which may cast a significant doubt on the group's ability to continue as a going concern.

Our opinion is not modified in respect of this matter.

Emphasis of Matter:

- We draw attention to note 33 to the statement regarding Exceptional Items of ₹ 1,102.26 lakhs (net) consisting of writeback / write off of certain loans / receivables on account of their not being payable / recoverable by the Company for reasons stated therein.
- The Auditors of subsidiary and one step down subsidiary have stated in their report regarding the financial statements of the said subsidiary / step down subsidiary being prepared on a going concern basis based on availability of financial support from the ultimate parent company.
- The auditors of two step down subsidiaries have stated in their report regarding the financial statements of the said subsidiary not being prepared on a going concern basis, due to their application for Liquidation.
- The auditors of a Step down subsidiary have stated in their report regarding the financial statements of the said subsidiary not being prepared on a going concern on account of the management's intention to liquidate the said step down subsidiary.
- Balances with respect to certain Borrowings and certain Trade Payables are subject to confirmation and reconciliation. In absence of such confirmation, the balances as per books of accounts have been relied upon

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matters

CHOWGULE STEAMSHIPS LIMITED

described in the material Uncertainty related to going concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report including its annexures and Corporate Governance and Shareholders information but does not include the consolidated financial statements and our auditor's report thereon. The Directors' report including its annexures and Corporate Governance and Shareholders information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the Companies included in the group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the consolidated Financial Statements by the directors of the Holding Company, as aforesaid.

Annual Report 2020-21

In preparing the consolidated financial statements, the respective Board of Directors of the Companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the group are also responsible for overseeing the financial reporting process of the group.

Auditor's Responsibilities for the Audit of Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements.
- We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities, included in the consolidated financial statements which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our audit work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosures about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

We did not audit the financial statements of five subsidiaries, which reflect total assets of ₹ 10,276.21 lakhs as at 31st March 2021, total revenues of ₹ 3,583.11 lakhs, total loss after tax of ₹ 522.65 lakhs, total comprehensive loss of ₹ 268.97 lakhs and net cash outflows of ₹ 202.12 lakhs for the year then ended, as considered in the Consolidated Financial Statements.

These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements in so far as relates to the amounts and disclosures included in respect of these aforesaid subsidiaries and our report in terms of subsections 3 and 11 of section 143 of the Act in so far as it related to the aforesaid subsidiaries is based solely on the reports of the other auditor.

Our opinion on the consolidated financial statements above and our report on the Other Legal and regulatory requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and reports of the other auditor.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report to the extent applicable that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Financial Statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept by the group so far as it appears from our examination of those books and reports of the other auditors.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Consolidated other comprehensive income), Consolidated statement of changes in equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of these consolidated Financial Statements
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014
 - (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2021 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding Company is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the group and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended; in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with requisite approvals mandated by the provisions of section 197 read with Schedule V of the Companies Act, 2013; and
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Group has disclosed the impact of pending litigations on its consolidated financial position in its consolidated financial statements – Refer Note 26 to the consolidated financial statements.
 - ii. The Group did not have any long-term contracts including derivative contracts for which there were material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company,
 - iv. a. The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly

Annual Report 2020-21

- lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b. The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material mis-statement.
 - d. The Company has not declared or paid any dividend during the year, hence Section 123 of the Companies Act, 2013 is not applicable.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **CHOWGULE STEAMSHIPS LIMITED** (“the Holding Company”) as of 31st March, 2021 in conjunction with our audit of the Consolidated Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statements of the company that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Holding Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Holding Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements of the company were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls with reference to financial statements of the company and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annual Report 2020-21

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company has, in all material respects, an internal financial controls with reference to financial statements and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate information

Chowgule Steamships Limited (CSL) (“the Company”) and its subsidiaries (collectively referred to as ‘The Group’) are shipping Company which presently owns and operates a fleet of one vessel for seaborne transportation of bulk cargo. CSL is a limited Company incorporated and domiciled in India, whose shares are publically traded on Bombay Stock Exchange. The Group is principally engaged in the carriage of goods by sea and is committed to serve its customers to their satisfaction and mutual optimum benefits.

The Company’s registered office address is at Chowgule House, Mormugao Harbour, Goa – 403 803 and principal place of business is 4th Floor, Bakhtawar, Nariman Point, Mumbai 400 021.

2. Significant accounting policies

2.1 A. Basis of preparation and presentation

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (herein after referred to as “Ind AS”) notified under Section 133 of the Companies Act, 2013 (“Act”) read with Companies (Indian Accounting Standards) Rules, 2015 as amended; and the other relevant provisions of the Act.

The Group’s presentation and functional currency is Indian rupees. All amounts in these financial statements, except per share amounts and unless as stated otherwise, have been rounded off to two decimal places and have been presented in lakhs.

B. Authorisation of financial statements

The Consolidated Financial Statements for the year ended March 31, 2021 were approved by the board of directors and authorised for issue on 8th June, 2021.

C. Historical cost convention

The Consolidated financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities are measured at fair value.
- Defined benefit plans where plan assets measured at fair value.

Fair value is the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participations at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.2.1 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. . The consolidated financial statements have been prepared in accordance with the requirements of Ind AS 110, ‘Consolidated Financial Statements’ on the following basis:

1. The financial statements of the subsidiary companies used in the consolidation are drawn upto the same reporting date as that of the Company i.e 31st March 2021.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, incomes and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealized profits or losses, unless cost cannot be recovered.
3. Control is achieved when the Company:
 - Has power over the investee;
 - Is exposed, or has rights, to variable returns from its involvement with the investee; and
 - Has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- The size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decision need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated statement of profit and loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. The proportion of profit or loss and changes in equity allocated to the owners of the Company and non controlling interest in preparing consolidated financial statements is determined solely on the basis of existing ownership interest and does not reflect the possible exercise or conversion of potential equity.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

4. Following subsidiary Companies have been considered in the preparation of consolidated financial statements:

Name of the Entity	Relationship	Country of Incorporation	Ownership held by	% of Holding and voting power either directly or indirectly through subsidiary as at	
				31st March 2021	31st March 2020
Chowgule Steamships Overseas Ltd (CSOL)	Subsidiary	Guernsey	CSL	100%	100%
Sea Bird LLC	Step-down subsidiary	The Marshall Islands	CSOL	100%	100%
Sea Lord LLC	Step-down subsidiary	The Marshall Islands	CSOL	100%	100%
Sea King LLC	Step-down subsidiary	The Marshall Islands	CSOL	100%	100%
Sea Link LLC	Step-down subsidiary	The Marshall Islands	CSOL	100%	100%

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2.3 Use of estimates

The Preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the accounts and reported amounts of income and expenses during the year. The management believes that the estimates used in the preparation of financial statements are prudent and reasonable. The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

Actual results could differ from those estimates. The most significant techniques for estimation are described in the accounting policies below. Critical accounting judgments and the key sources of estimation or uncertainty in applying the Company's accounting policies arise in relation to property, plant and equipment, impairment of assets, current asset provisions, deferred tax, retirement benefits and provisions. The detailed accounting policies, including underlying judgments and methods of estimations for each of these items are discussed below.

2.4 Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of activities of the Company and the time between the acquisition of assets for processing and their realization in cash or cash equivalents the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.5 Property, plant and equipment (PPE)

Freehold land is carried at historical cost. All other items of property, plant and equipment (PPE) are stated at cost, less accumulated depreciation and impairment losses. Cost includes all direct costs and expenditures incurred to bring the asset to its working condition and location for its intended use. Historical cost includes expenditure that is directly attributable to the acquisition of the item.

An item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the Group and its cost can be measured reliably. This recognition principle is applied to the costs incurred initially to acquire an item of property, plant and equipment and also to costs incurred subsequently to add to, replace part of, or service it. All other repair and maintenance costs, including regular servicing, are recognised in the statement of profit and loss as incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on disposal of an asset is determined as the difference between the sale proceeds and the carrying amount of the asset, and is recognised in the statement of profit and loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Depreciation

Depreciation is recognised to write off the cost of assets (other than freehold land) less their residual values over their useful lives. These charges are commenced from the dates the assets are available for their intended use and are spread over their estimated useful economic lives. The estimated useful lives, residual values and depreciation method are determined and reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis. When significant parts of PPE are required to be replaced at intervals, company depreciates them separately based on their specific useful lives

Depreciation on property, plant and equipment has been provided on the basis as indicated below.

<u>Assets</u>	<u>Basis</u>
Vessel	Straight line method
Other assets	Written down value method

Estimated useful lives of the property, plant and equipment are as follows:

Vessel	20-25 years
Buildings	60 years
Furniture and fixtures	10 years
Office equipment	3-6 years
Vehicles	8 years
Computers	3 years

Depreciation on PPE is provided as per the useful life prescribed in Schedule II of the Companies Act, 2013.

The subsidiary companies, also based on technical assessment made by technical expert and management estimate, depreciates vessels over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the vessels are likely to be used.

The property plant and equipment acquired under financial lease is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Company will obtain ownership at the end of the lease term.

Advances paid towards acquisition of property, plant and equipment outstanding at the year-end are classified as capital advances under other non-current assets.

Assets classified as held for sale

An item of Property Plant and Equipment is classified as held for sale at the time when the Management is committed to sell/ dispose off the asset based on agreements entered into with the customer, and the asset is expected to be sold , disposed off within one year from the date of classification. Assets classified as held for sale are measured at lower of cost and net realisable value.

2.6 Investment property

Investment Property is property (land or building or a part of building) held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in production or supply of goods or services or for administrative purposes.

Investment properties are measured initially at cost, including transaction costs, Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The Group depreciates building component of investment property over 30 years from the date of original purchase.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal.

The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of depreciation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use.

2.7 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

2.8 Leasing

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

(A) Lease liability

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.

(B) Right-of-use assets

Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

Subsequent measurement

(A) Lease Liability

Company measure the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amount to reflect any reassessment or lease modifications.

(B) Right-of-use assets

Subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the underlying asset.

Short term lease

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the company elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease income is recognised in the statement of profit and loss on straight line basis over the lease term.

Bareboat hire purchase / sale and lease back

As per Ind AS 116 Leases, the Group measures right-of-use assets as property, plant and equipment and lease liabilities as other financial liabilities. As a consequence, the Company recognises depreciation of the right-of-use asset and interest on the lease liability. The depreciation is recognised on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. The measurement includes non-cancellable lease payments (including inflation-linked payments), and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. The initial lease asset equals the lease liability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The lease asset is the right to use the underlying asset and is presented in the statement of financial position as part of property, plant and equipment

2.9 Impairment of non-financial assets

At each balance sheet date, the Group reviews the carrying amounts of its property, plant and equipment to determine whether there is any indication that the carrying amounts of those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If recoverable amount of asset (or cash-generating unit) is estimated to be less than carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit and loss.

2.10 Foreign currency transactions and translation

The consolidated financial statements of the Group are presented in INR, which is the functional currency of the Company and the presentation currency for the consolidated financial statement.

In preparing the individual financial statements of the Companies transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in the statement of profit and loss for the period. Exchange differences arising on retranslation on non-monetary items carried at fair value are included in statement of profit and loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income.

For the purpose of presenting consolidated financial statement, the assets and liabilities of the Group's foreign operations are expressed in INR using exchange rate prevailing at the end of the reporting period. Income and expenses are translated at the average exchange rate for the period. Exchange differences arising if any, are recognised in other comprehensive income and accumulated in the separate component of equity. On the disposal of a foreign operation, all of the accumulated exchange differences in respect of that operation attributes to the Group are reclassified to the consolidated statement of profit and loss.

2.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognised in statement of profit or loss in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2.12 Employee benefits

2.12.1 Short term

Short term employee benefits are recognised as an expense at the undiscounted amount expected to be paid over the period of services rendered by the employees to the Company. These benefits include compensated absences such as paid annual leave.

2.12.2 Retirement benefit costs

The Company has both defined-contribution and defined-benefit plans, of which some have assets in special funds or securities. The plans are financed by the Company and in the case of some defined contribution plans are financed by the Company along with its employees.

2.12.2.1 Defined-contribution plans

These are plans in which the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. These comprise of contributions to the employees' provident fund and superannuation fund. The Company's payments to the defined-contribution plans are reported as expenses during the period in which the employees perform the services that the payment covers.

2.12.2.2 Defined-benefit plans

For defined benefit retirement plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuation being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to statement of profit and loss. Past service cost is recognised as an expense when the plan amendment or curtailment occurs or when any related restructuring costs or termination benefits are recognised, whichever is earlier. The service cost, net interest on the net defined benefit liability/ (asset) is treated as a net expense within employment cost. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined-benefit obligation as reduced by the fair value plan assets.

2.12.3 Other long-term employee benefits

Compensated absences which accrue to employees and which can be carried to future periods but are expected to be availed in twelve months immediately following the year end are reported as expenses during the year in which the employees perform the services that the benefit covers and the liabilities are reported at the undiscounted amount of the benefits after deducting amounts already paid. Where there are restrictions on availment of encashment of such accrued benefit or where the availment is otherwise not expected to wholly occur in the next twelve months, the liability on account of the benefit is actuarially determined using the projected unit credit method.

2.13 Taxation

Income Tax expense represents the sum of current tax payable and deferred tax.

2.13.1 Current tax

The current tax is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.13.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that taxable profits will be available against which those deductible temporary differences, carry forward losses and allowances can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither taxable profit nor the accounting profit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to cover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the Balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

2.14 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits with banks which are short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.. Bank overdrafts are shown within borrowings in current liabilities in Consolidated Balance Sheet.

2.15 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.16 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each Balance Sheet date and are adjusted to reflect the current best estimate.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation arising from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the notes to the consolidated financial statements.

Contingent assets are not recognized but disclosed when the inflow of economic benefits is probable. However, when the realization of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognized as an asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2.17 Revenue recognition

The Company earns revenues from contracts with customers for below streams of revenue (also refer Note no. 28)

a) Charter Hire Earnings, demurrage and freight earnings.

2.17.1 Determining the timing of satisfaction of performance obligations:

The Company recognises revenue when the entity satisfies the performance obligation by transferring promised goods or services to a customer. An asset is transferred when the customer obtains control of that asset the typical timing of payment coincides with the issue of invoice for satisfaction of performance obligations or is within the normal credit period extended by the Company. The contract assets as at the year end pertain to the balance receivables in case of revenues of the Company.

Nature of income	Timing for satisfaction of performance obligation
Time charter hire and freight income	Time charter hire earnings represent the value of charter hire earnings, demurrage, freight earnings and are accounted on accrual basis. Freight earnings are recognised on a pro-rata basis for voyages in progress at balance sheet date after loading of the cargo is completed. Revenues and related expenses for voyages where cargo has not been loaded as on the balance sheet date are deferred and recognised in the following year.

Revenue is net of trade discounts and excludes goods and service taxes or duties collected on behalf of the government.

Determining the transaction price and the amounts allocated to performance obligations

The transaction price is normally fixed as per the terms of contract and there are no significant judgments involved in allocating the same to the performance obligations as the prices are standalone for separate performance obligations.

As a practical expedient, the Company has not disclosed the information for a transaction price allocated to performance obligations which are unsatisfied as of the end of the reporting period for performance obligation which is part of a contract that has an original expected duration of one year or less.

Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as Customer advances.

2.17.2 Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.17.3 Rental income

The Group's policy for recognition of revenue from operating leases is described in note 2.7 above

2.17.4 Other income

Other income is accounted for on accrual basis except where the receipt of income is uncertain in which case it is accounted for on receipt basis.

2.17.5 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.18 Operating expenses

All expenses relating to the operation of the vessel including crewing, insurance, stores, bunkers, charter hire and special survey costs are expensed under operating expenses on accrual basis. Dry-docking expenses are amortised over 30 months.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2.19 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial asset or financial liability, as appropriate, on initial recognition. The transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the statement of profit and loss.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

2.20 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company, or the counterparty.

2.21 Financial assets

Purchases or sales of financial assets which require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

All recognised financial assets are subsequently measured in their entirety at their amortised cost or fair value, depending on the classification of the financial assets.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are subsequently measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income.

Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition. For financial instruments whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

asset, the Group recognises its retained interest in the assets and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing of the proceeds received.

2.22 Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

Interest-bearing bank loans issued debts are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Group's accounting policy for borrowing costs.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

2.23 Earnings per equity share

Basic earnings per equity share is computed by dividing the profit/ (loss) after tax (including the post-tax effect of extraordinary items, if any) attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the profit after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to dilutive potential equity shares attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

2.24 Segment reporting

Operating segments are defined as components of an enterprise for which available discrete financial information is evaluated based on the single operating segment 'Shipping', regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

2.25 Exceptional items

Exceptional items are those items that management considers, by virtue of their size or incidence (including but not limited to impairment charges), should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Such items are material by nature or amount to the year's result and require separate disclosure in accordance with Ind AS.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Foot notes:

Nature of reserves

Capital reserve:

Capital reserve includes profit on forfeiture of shares.

Capital redemption reserve:

Capital redemption reserve is created out of profits on redemption of preference capital.

Securities premium reserve:

Amount received on issue of shares in excess of the par value has been classified as securities premium.

General reserve:

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to profit or loss.

Foreign currency translation reserve :

Exchange differences relating to the translation of the results and net assets of the Group's foreign operation from their functional currencies to the Group's presentation currency (i.e. ₹) are recognised directly in the other comprehensive income and accumulated in the foreign currency translation reserve.

Investment revaluation reserve

Investment revaluation reserve includes Profits/(Loss) on fair valuation of investments.

Retained earnings:

The amount that can be distributed by the Group as dividends to its equity shareholders is determined based on the separate financial statements of the Companies in the Group and also considering the requirements of the Companies Act, 2013.

<p>The Company has filed appeal in respect of the same.</p>		
	32.72	32.72
<p>Note : Future cash outflows in respect of the above matters are determinable only on receipt of judgments / decisions pending at various forums / authorities.</p> <p>The Company believes the probability of the assessments in accordance with Ind AS 12 in these cases is nil, no provision is made in books of accounts</p>		
c) The Vietnamese Court has upheld the first instance judgment on all grounds, in the sum of VND 78,777,007,456 (equivalent to USD 3,400,691.02) (₹ 2,499.67 lakhs). The written judgement has been handed over and the principal judgment amount has been remitted by H&M&P&I to Bao Minh (who issued the bank undertaking in respect of the claim) in Vietnam. Bao Minh in turn remitted the judgement amount to the enforcement agency on 30 March 2021 who have been approached by the opponent Loc Phat. The parties are to meet shortly to conclude the payment and sort out any remaining issues. Other than the developments in Vietnam as mentioned above, there are outstanding legal fees estimated to be about USD 200,000 (₹ 147.01 lakhs) that remains outstanding / to be invoiced by the lawyers / average adjusters etc which are to be dealt with later. However out of total legal fees payable to lawyers etc. Sea King LLC liability is restricted to approximately not more than USD 60,000 (₹ 44.10 lakhs) US Dollars. USD 45,000 (₹ 33.08 lakhs) have been already provided under trade and other payable.	44.10	2,763.17
d) The Group has terminated bareboat hire purchase agreements in respect to three vessels of the Step Down Subsidiaries. Consequently, ship Management agreements with ASP Ship Management India Pvt Ltd and ASP Crew Management Singapore Pvt Ltd have been terminated against which they have raised invoices to the extent of USD 94,500 (₹ 69.46 lakhs) on account of termination fees. The Management has requested for the waiver and expecting favorable response. Hence the same has been treated as Contingent liability claim not acknowledge as debt and no provision is made in the financial statements of the Group.	69.46	-

Notes:

1. An amount of ₹ 811.72 was due from a party to whom the Company had sold a vessel. The Party has dishonoured the advance cheques issued at the time of sale and has also not made good the default. The Party has claimed that the vessel is not being operated and hence no further payments would be made. Accordingly, the Company has written off the amount due from this party as irrecoverable receivables.
2. The Company had a loan from Chowgule & Company Pvt Ltd amounting to ₹ 1,913.98 (including interest accrued ₹ 143.98) outstanding as on 31.03.2020. During the year, the Company provided interest on this loan upto 31.12.2020 as per the terms then attached. A Memorandum of Family Settlement (MOFS) dated 11.01.2021 has been executed between the members of Chowgule Family (Promoters of the Company) to divide the businesses and other matters mentioned therein. MOFS provides that the aforesaid loan is not to be "repaid". Accordingly, the Company has written back the said loan as a liability no longer existing.

34 Employee benefit plans

a) Defined contribution plans

Provident fund :

The Company makes contributions to Provident Fund which is defined contribution plan for qualifying employees. Under the Scheme, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The fund is administered by the Trustees. The contributions payable by the Company are at rates specified in the rules of the schemes. The Company has recognised amount in the statement of profit and loss under the head "Employee Benefit Expenses" as mentioned in the following table.

Superannuation fund :

All eligible employees are entitled to benefits under superannuation, a defined contribution plan. The Company makes yearly contribution until retirement or resignation of the employee. The Company recognises such contributions an expense. The Company has no further obligation beyond yearly contribution.

The Company has recognised the following amounts in the statement of profit and loss as contribution under defined contribution plans

	(₹ in lakhs)	
	2020-21	2019-20
i) Provident fund	5.23	8.12
ii) Superannuation fund	6.81	16.11

b) Defined benefit plan

The Company makes annual contributions to the Chowgule Steamships Limited Shore Employees Gratuity Fund (Income tax approved irrevocable trust), which in-turn, has taken group gratuity cum Life assurance scheme of the Life Insurance Corporation of India, which is a funded defined benefit plan for qualifying employees. This scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment as per the Company's gratuity scheme. Vesting occurs upon completion of five years of service.

The Company offers its employees defined benefit plan in the form of a gratuity scheme (a lump sum amount). For gratuity scheme the Company contributes funds to Gratuity Trust, which is irrevocable. Commitments are actuarially determined at year-end. The actuarial valuation is done based on "Projected Unit Credit" method. These plans typically expose the Company to actuarial risk such as: investment risk, interest rate risk, longevity risk and salary risk

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A decrease in the bond interest rate will increase the plan liability; however, this will be partially off set by an increase in the plan assets.

Longevity risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The principal actuarial assumptions are as follows:

	2020-21	2019-20
i) Discount rate at 31st March	6.71% p.a.	6.55% p.a.
ii) Rate of increase in compensation	5.00% p.a.	5.00% p.a.
iii) Attrition rate	0.50% p.a.	0.50% p.a.
vi) Mortality table	Indian Assured Lives Mortality (2012-14)	Indian Assured Lives Mortality (2012-14)

Foot notes:

- The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.
- The estimate of future salary increase considered, takes into account the inflation, seniority, promotion, increments and other relevant factors, such as supply and demand in the employment market.
- The fair value of the plan assets are based on the LIC Fund balance position as at the balance sheet date. The composition and the categories of plan assets are unavailable with the Company.
- The expected rate of return on plan assets is based on the average long-term rate of return expected on investment of funds during the estimated term of obligation.

Sensitivity analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and employee turnover. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

		(₹ in lakhs)	
		Present Value of Obligation (PVO)	
		2020-21	2019-20
Discount rate (DR)	PVO DR + 1%	21.18	19.36
	PVO DR - 1%	24.73	22.96
Expected Salary escalation rate	PVO ER + 1%	24.74	22.96
	PVO ER - 1%	21.14	19.32

Expected payout

							(₹ in lakhs)
Year	Expected outgo first	Expected outgo second	Expected outgo third	Expected outgo fourth	Expected outgo fifth	Expected outgo six to tenth	
PVO payouts	0.15	0.17	0.20	0.22	7.27	14.67	

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

38.3 Financial risk management objectives

The Group’s principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the operations. The Group’s principal financial assets include loans, trade and other receivables, and cash and cash equivalents that are generated directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group’s senior management oversees the management of these risks. It is the Group’s policy that no trading in derivatives for speculative purposes is undertaken.

38.4 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Financial instruments affected by market risk include loans and borrowings, deposits, trade and other receivables and investments.

38.5 Foreign currency risk

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Group’s exposure to currency risk relates primarily to the Group’s operating activities and borrowings when transactions are denominated in a different currency from the Group’s functional currency.

The Group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies. The Group’s Policy is not to hedge transactions, and to buy and sell currency at spot rate where applicable. The carrying amounts of the Group’s foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows

	2020-21		2019-20	
	(₹ in lakhs)	USD in Million	(₹ in lakhs)	USD in Million

Other current assets	1.27	# –	1.30	# –
Cash and cash equivalents	0.10	–	26.49	0.04

Note : USD = US Dollar

Value less than USD 10,000

Sensitivity analysis

The Group has not disclosed foreign currency sensitivity analysis. Since the exposure is not significant.

38.6 Interest risk

Interest risk is the risk that the fair value or future cash flows of the financial instruments will fluctuate because of the changes in the market rate risk, the Group performs a comprehensive corporate interest rate risk management. The Group is not exposed to significant interest rate risk as at the respective reporting dates.

The Group’s exposure to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section.

38.7 Price risk

The Group is affected by the price volatility. The Group’s operating activities comprise of employment of ships on time charter contracts. Due to the cyclical nature of shipping industry, the revenue from shipping operations are subjected to price risk. To mitigate the impact of price risk the Group adopts mixture of short, medium and long term employment contract for its fleet.

38.8 Credit risk management

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the Group periodically assesses the financial reliability of customers taking into account the financial conditions, current economic trends and analysis of historical bad debts and ageing of accounts receivable.

Annual Report 2020-21

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on-going basis throughout each reporting period. To assess whether there is significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date on initial recognition. Financial assets are written off when there is no reasonable expectation of recovery. When loans or receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit or loss. The Group operations involves employment of the vessels on time charter contracts where receivables are collected periodically in advance and therefore credit risk is minimal.

38.9 Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-term, medium - term and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate banking facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

38.9.1 Expected maturity for non-derivative financial liability

The following table details the Group's remaining contractual maturity for the non-derivative financial liabilities with agreed repayment periods. 40 Going concern

The net worth of the Group as on 31.3.2021 is negative and the current liabilities exceed its total current assets by ₹ 1,601.33 lakhs. The Management, on the basis of future operational plans, is confident of restructuring the operations to recoup the losses and arranging requisite financing as has been done in the past years also. Further the market value of the assets held by the Group would sufficiently cover shortfall if any. In view of above financial statements have been prepared on Going Concern Basis.

41 Expenditure on corporate social responsibility (CSR)

In pursuance of the provisions of the Companies Act, 2013, the Company is required to spend two percent of the average net profits for the three immediately preceding financial years towards CSR activities. Due to the occurrence of average net loss in three preceding financial years, as per the provisions of Section 198 of the Companies Act, 2013, the company is not required to spend any amount on corporate social responsibility.

42 Previous year figures

Previous year figures have been regrouped /reclassified wherever necessary to confirm to the current year classification / disclosure
