DATA BAG

# Feb inflation at 4-month high, factory production slows down in January

**Slowdown in industrial production notwithstanding, a marginal increase in inflation raised the clamour for another round of rate cut by the RBI on April 4**

PRESS TRUST OF INDIA  
New Delhi, March 12

**RETAIL INFLATION INCHED** up to a four-month high of 2.57% in February, though it is still below the RBI's benchmark, raising hopes of another round of rate cut in April to boost industrial growth which slipped to 1.7% on account of manufacturing sector slowdown.

According to the data released by the Central Statistics Office (CSO), the Index of Industrial Production (IIP) expanded by just 1.7% in January, significantly down from 7.5% growth in the year-ago month.

The CSO, however, revised marginally upwards the IIP growth number for December 2018 to 2.6% from the earlier estimate of 2.4%.

Slowdown in industrial production notwithstanding, a marginal increase in inflation raised the

clamour for another round of rate cut by the Reserve Bank on April 4 to boost economic activity. The central bank had reduced the key lending rate (repo) by 25 basis points in February.

Following the RBI rate cut, many banks announced up to 10 basis point reduction in their lending rates.

Another set of data released by CSO showed that retail inflation based on Consumer Price Index (CPI) inched up mainly due to firming up of food prices.

Though Headline (inflation) is showing an increase, the core CPI component moderated again to 5.3% in February 2019 from January 2019 level of 5.36%, the country's largest bank SBI said in a research report.

The retail inflation number for February 2019 is the highest since October 2018 when it stood at 3.38%, the data released by the

Central Statistics Office under the Ministry of Statistics and Programme Implementation (MoSPI) showed.

On monthly basis, consumer food price index moved up by 0.15% in February against January 2019. Food inflation was lower at (-)0.66% in February against 3.26% in the same month last year. The retail inflation in January 2018 was at 4.44%.

In fuel and light category, the rate of price rise slowed to 1.24% from 2.0% in January.

On IIP, SBI said the numbers are disappointing. The growth rate of manufacturing sector dropped sharply to 1.3% in January from 8.7% in January

2018. There was also slump in the power generation segment as the expansion was almost flat at 0.8% compared to 7.6% in the year-ago month.

However, the silver lining was the mining sector which grew by 3.9% in January this year compared to 0.3% in the year-ago period. Giving more details about the factory output in the country, the CSO said capital goods segments, considered to be barometer of investment, and the intermediate goods segment witnessed a contraction.

Data also revealed that both growth in production of consumer durable and non-durable goods grew at a slower rate in January

compared to the year-ago period. The IIP growth during April-January period of the current fiscal stood at 4.4% compared to 4.1% in the same time frame a year ago.

Commenting on the data, B Prasanna, Head, Global Markets Group, ICICI Bank, said industrial growth dipped below expectations in January 2019, with manufacturing and electricity sectors decelerating considerably.

On monetary policy, Prasanna said: "We expect another rate cut in the April meeting and subsequent action would be date dependent."

Ranjen Banerjee of PwC India opined that lower IIP numbers and inflation of slightly over 2.5% give headroom for further monetary policy action by the central bank.

RBI Bank Economist Rajni Thakur also suggested that the latest CSO data calls for a rate cut. "...there clearly is a case and space for one more rate cut of 25 bps by RBI in April to support growth," she said.

The six-member Monetary Policy Committee (MPC) of the RBI will meet for three days and announce the first bi-monthly monetary policy of the next fiscal on April 4.

## I-T dept searches at premises linked to Mayawati's ex-secy

PRESS TRUST OF INDIA  
New Delhi, March 12

**THE INCOME TAX** Department on Tuesday searched a dozen properties in Delhi and Lucknow linked to a retired IAS officer of Uttar Pradesh cadre, who served in top positions during Mayawati's chief ministership, in connection with an alleged tax evasion case, officials said.

They said the premises raided by the department are linked to 1979-batch Indian Administrative Service officer Net Ram, now retired.

The officer has served in various capacities in UP, including heading the excise, sugar industries and cane department, stamp and registration, food and civil supplies department. Meanwhile, in a blow to the prospects of an opposition grand alliance to take on the ruling BJP in the Lok Sabha polls, BSP chief Mayawati Tuesday said her party will not have an election tie-up with the Congress in any state.

Mayawati's statement drew a sharp retort from the Congress, with its Uttar Pradesh unit spokesperson saying, "We don't need her." Mayawati said, "It is being made clear again that the Bahujan Samaj Party will not have any electoral alliance with the Congress in any state."

Referring to her party's pre-poll alliance with Akhilesh Yadav's Samajwadi Party in Uttar Pradesh, Mayawati said it is based on "mutual respect" and "honest intentions".

## Govt defers bid deadline for OALP-II by a month to Apr 10

PRESS TRUST OF INDIA  
New Delhi, March 12

**THE GOVERNMENT** HAS deferred by one month the last date for bidding for the 14 oil and gas exploration blocks offered in the second round of Open Acreage Licensing Policy (OALP).

Bids for the 14 blocks offered in OALP-II bid round, covering an area of 29,333 square kilometres, were to close on Tuesday.

"Bid submission closing date for OALP-II Round-II stands extended up to April 10, 2019," the Director General of Hydrocarbon (DGH) said in a brief notice.

It did not give reasons for extending the deadline.

The last date of bidding coincides with the bid deadline for the 23 oil and gas and coal-bed methane (CBM) blocks offered in the third round of OALP, which was launched on February 10. OALP-II bid round was delayed at six months and its launch came barely a month before the third round. Officials said OALP-II and OALP-III will run concurrently. Oil minister Dharmendra Pradhan had at the time of launch of OALP-II bid round on January 7 stated that an investment of about ₹40,000 crore is expected in the prospecting of oil and gas in blocks offered.

In the first round of OALP last year, as much as ₹60,000 crore was committed in the exploration of oil and gas in 55 blocks or areas.

In the third round, the government is expecting up to \$700 million (about ₹49,000 crore) of investment that it hopes will help raise domestic output and cut imports.

India had in July 2017 allowed companies to carve out blocks of their choice with a view to bringing about 2.8 million sq km of unex-

**An investment of about ₹40,000 crore is expected in the prospecting of oil and gas in blocks offered**

plored area in the country under exploration.

Under this policy, called open acreage licensing policy or OALP, companies are allowed to put in an expression of interest (Eoi) for prospecting of oil and gas in any area that is presently not under any production or exploration licence. The Eois can be put in at any time of the year but they are accumulated twice annually.

The blocks or areas that receive Eois at the end of a cycle are put up for auction with the originator or the firm that originally selected the area getting a 5-mark advantage.

The two window of accumulating Eois end on May 15 and November 15 every year. Eois accumulated till May 15 are supposed to be put on auction by June 30 and those in the second window by December 31. The first OALP round was launched in 2017 and bids came in by May 2018. Eois for second round closed on May 15, 2018, and the blocks were supposed to be put for auction by June but the round was for reasons unknown delayed. OALP-II was finally launched on January 7.

In the meanwhile, Eois in the third window also closed on November 15, 2018 with as many as 18 blocks and five CBM blocks, measuring 31,722 sq km, being sought for. OALP-III bid round was launched on February 10 with April 10 as the last date for bidding.

Officials said the 14 blocks in OALP-II are estimated to hold in-place resource of 12,609 million tonne oil and oil equivalent gas.

In OALP-I, mining mogul Anil Agarwal-led Vedanta Ltd walked away with 41 out of 55 blocks bid out. State-owned Oil India Ltd won nine blocks while Oil and Natural Gas Corp (ONGC) managed to win just two.

State gas utility GAIL, upstream arm of Bharat Petroleum Corp Ltd (BPCL) and Hindustan Oil Exploration Co (HOEC) won one block each.

The 55 blocks have a total area of 59,282 sq km. This compares to about 1,02,000 sq km being under exploration prior to OALP.

Blocks are awarded to the company which offers the highest share of oil and gas to the government as well as commits to doing maximum exploration work by way of shooting 2D and 3D seismic survey and drilling exploration wells.

Increased exploration will lead to more oil and gas production, helping the world's third largest oil importer to cut import dependence.

Prime Minister Narendra Modi has set a target of cutting oil import bill by 10% to 67% by 2022 and to half by 2030.

Import dependence has increased since 2015 when Modi had set the target. India currently imports 83% of its oil needs.

The new policy replaced the old system of government carving out areas and bidding them

out. It guarantees marketing and pricing freedom and moves away from production sharing model of previous rounds to a revenue-sharing model, where companies offering the maximum share of oil and gas to the government are awarded the block.

The government prior to this had been selecting and demarcat-

ing areas it feels can be offered for bidding in an exploration licensing round.

Under this, 256 blocks had been offered for exploration and production since 2000. The last bid round happened in 2010. Of these, 254 blocks were awarded. But as many as 156 have already been relinquished due to poor prospect.
