ZEN TECHNOLOGIES LIMITED SECURES ORDER FROM MINISTRY OF DEFENCE FOR ADVANCED TANK TRAINING SYSTEM

Zen Technologies Limited is pleased to announce that it has been awarded an order valued at approximately ₹100 Cr (inclusive of taxes) by the Ministry of Defence, India, for its state-of-the-art Force-On-Force Tank training system. This innovative system empowers Tank Units and Sub-Units to engage in training on real terrains under authentic conditions using their equipment, without the necessity for live ammunition.

The system has been designed, developed, and tested in-house by Zen. Following comprehensive trials, the Army recognised its immense suitability for their training needs. As this marks our inaugural order for the force-on-force tank training simulators, we anticipate a robust demand for this product in both domestic and international markets in the forthcoming period.

Furthermore, Zen remains optimistic about the Army's potential transition to the Zen Armoured Combat Training System (ACTS) for their force-on-force training requirements. The ACTS, which seamlessly integrates with the Zen Tactical Engagement Simulator (TacSim), is capable of facilitating the force-on-force training of combined arms detachments, encompassing armour, infantry, and supporting arms. Impressively, the system can be deployed to coordinate exercises for a combined arms battle group, based on an infantry brigade and a mechanised forces combat group, across various wartime operations.

This acquisition of such equipment serves as a testament to the unwavering commitment of the Indian Armed Forces to modernise and elevate their training methods, in alignment with the Framework for Simulators issued by the MoD in September 2021. Opting for simulated training not only offers substantial cost and time savings but also significantly boosts efficiency.

For a more in-depth understanding of Live Simulation, we invite stakeholders to visit zen.in/ACTSVideo, where a brief overview of the Zen ACTS can be viewed.

About Zen Technologies Limited

Zen Technologies Limited is a renowned industry leader with over three decades of expertise in delivering cutting-edge Military Training and Anti-Drone solutions. The company specializes in manufacturing state-of-the-art land-based military training simulators, driving simulators, live range equipment, and anti-drone systems. With a dedicated Research and Development (R&D) facility in Hyderabad, recognized by the Ministry of Science and Technology, Government of India, Zen Technologies has demonstrated its commitment to innovation. The company has filed for over 130 patents, of which over 50 have been granted and has successfully shipped more than 1000 training systems worldwide.
