## PT TVS Motor Company showcases TVS iQube Electric scooter at the Jakarta Fair in Indonesia

- *TVS iQube has cutting-edge EV technology, robust build quality and class leading comfort of a premium scooter with zero tail pipe emission*

**Jakarta, June 12, 2024:** PT TVS Motor - a subsidiary of TVS Motor Company – which operates in the two and three-wheeler segment, is displaying its electric scooter, TVS iQube, at the Jakarta Fair in Indonesia. This is the first time that TVS iQube – a choice of more than 300,000 customers globally – will be on display in Indonesia. TVS iQube has cutting-edge EV technology, robust build quality and class leading comfort of a premium scooter with zero tail pipe emission. It represents the future of urban commuting – a perfect blend of style, performance, and environmental responsibility.

TVS iQube comes with a real-world range of 100 KM on a single charge, a top rated speed of 78 KM/H, choice of ECO and POWER modes and acceleration from 0-40 KM/H in just 4.2 seconds. It has two Lithium-Ion battery packs with a 650W carry-along-charger that helps charge the vehicle from 0-80% in 4 hours and 30 minutes. The carry-along-charger can be plugged into any 5A household socket.

TVS iQube also offers a host of intelligent connected features such as 7 inch TFT cluster with HMI\* control, intuitive music player control, Over-the-air (OTA) updates, vehicle health and safety notifications. It has multiple bluetooth and cloud connectivity options, geofencing, QPark assist, infinity theme personalisation, voice assist and much more.

The Jakarta Fair generates sustained interest from auto enthusiasts and TVSM looks forward to apprising visitors of its technological prowess and eco-friendly transportation solutions.

### **TVS iQube S is built on three pillars:**

**1. Modern & Practical Design:** This electric vehicle (EV) has a contemporary look and impeccable build quality. With 5 exciting colours, one can choose a style statement of their own. Powerful LED headlamps with bright hazard lamps are designed for enhanced visibility and safety. A **seven-inch TFT** cluster, with an **intuitive five-way joystick** makes the cluster very easy to interact with. A **large 32 litre storage** under the seat, a wide floorboard and baggage hooks provide ample space and utility, on-the-move. **The long and wide seat** is comfortable for both individual and family use making the TVS iQube S a practical and smart mobility choice.

**2. Unmatched Performance:** The TVS iQube S is powered by a powerful **4.6 kW** hub mounted motor that gives a top speed of **78 km/h** and acceleration from **0-40 km/h in just 4.2 seconds** at rated load. It comes with two battery packs of advanced Lithium-ion chemistry with a total capacity of **3.4 kWh**, designed and manufactured in-house. Combined with an intelligent in-house Battery Management System (BMS), the vehicle delivers a real-world

# PRESS NOTE

range of **100 kms** per charge. The EV powertrain in TVS iQube is **IP-67 compliant** providing strong resistance to water and dust exposure. TVS iQube S comes with a **650 W** portable carry along charger with a charging time of **4.5 hours from 0-80% SOC** and ease of use with any **5 Amp** household socket that makes home charging very convenient and affordable.

**3. Connected Technology – TVS SMARTXONNECT™** a proprietary, connected, intelligent system in TVS iQube, is power packed with new age technology and smart features. The platform has **enhanced navigation system, telematics unit, anti-theft device, geofencing features, crash/fall alert** just to name a few. Any smart phone with the TVS Connect app pairs with TVS SMARTXONNECT™ and displays real-time battery status, ride statistics. It also enables music control when riding using the HMI interface. The platform also ensures 100% vehicle wellness through proactive diagnosis and timely service alerts available on the dashboard. Not only incoming calls and SMS alerts but also social media app notifications are displayed.

Product Specifications - TVS iQube S	
Peak Power	4.6 kW
No. of Batteries/Type	2 / Lithium-Ion
Battery Capacity	3.4 kWh
Range Per Charge	Real world range of 100 kms.
Top Speed	78 km/h
Acceleration 0-40 km/h	4.2 s
