## COLLECTING DATA IN LOCAL LANGUAGES

# Aiming to bridge the digital divide, says Bhashini CEO

JATIN GROVER  
New Delhi, December 13

**BHASHINI, INDIA'S LANGUAGE** database platform, is working on collecting data sets in regional languages, which is essential to bridge the digital divide and gaps in terms of technology, Amitabh Nag, chief executive officer of Bhashini, told FE.

This assumes significance as currently, large-language models (LLMs) are mostly restricted to the English language to train generative AI models. With Bhashini investing to collect data in regional languages, the government will be able to provide generative AI services to people in their dialects.

"Bhashini has a lot of expertise within itself. It knows how to collect digital data from the field because we have spent about \$6-7 million in collecting digital data for 22 Indian languages, so that we can build AI models," Nag said.

Among the use cases, currently, PM Kisan, which is integrated with Bhashini, offers chatbot support in various Indian languages. Besides, the National Payment Corporation of India (NPCI) has collaborated with Bhashini to allow users to make conversational payments through UPI in Indian languages.

IIT Madras has also piloted the Bhashini platform to provide students with access to courses in regional languages.

What makes Bhashini dif-

### MULTILINGUAL SUPPORT

■ Large-language models mostly restricted to English language to train generative AI models

■ Bhashini making investments to collect data in regional languages

■ This would enable govt to provide gen AI services to people in dialects

■ PM Kisan, integrated with Bhashini, offers chatbot support in various Indian languages

AMITABH NAG,  
CEO, BHASHINI

THE FOCUS CURRENTLY IS TO INCREASE ADOPTION...WE WOULD UNMUTE ROADMAPS AS WE SEE INCREASE IN ADOPTION

ferent from other large-language models is its ability to understand scenic text, handwriting, and printed texts.

"Multimodality is still not there in large language models. Bhashini can understand computer text, it can understand voice, it can give you an output on voice, it can give you output on text," Nag said.

Besides working on collecting datasets in Indian languages, Bhashini is offering real-time translation from one language to another, machine translation APIs to developers for integration, and speech recognition/synthesis.

The government-owned platform is being used by over 20 organisations across industry and government, whereas the impact on people is huge.

### PUBLIC NOTICE

#### TO WHOMSOEVER IT MAY CONCERN

This is to inform the General Public that following share certificate of ABB India Ltd having its registered office at Plot No. 5 & 6, 2nd Stage, Disha - 3rd Floor, Peenya Industrial Area IV, Peenya, Bengaluru, Karnataka, 560058 registered in the name of the following shareholder/s has/have been lost by the registered holder(s).

Sl. No.	Name of the Shareholder/s	Folio No.	Certificate No/s	Distinctive Number/s	No. of Shares
1	Sudip Kumar Chakravarti	HLS0001471-0	905071	934138698 to 934138852	155 (FV Rs.10.00)

The Public are hereby cautioned against purchasing or dealing in any way with the above referred share certificates.

Any person who has any claim in respect of the said share certificate/s should lodge such claim with the company or its Registrar and Transfer Agents KFin Technologies Ltd., Karry Selenium Tower B, Plot 31-32, Gachibowli, Financial District, Nanakramguda, Hyderabad, Telangana, 500032 within 15 days of publication of this notice after which no claim will be entertained and the company shall proceed to issue Duplicate Share Certificate/s.

NP SRIDHAR, CEO, TITAN ENGINEERING & AUTOMATION

We are probably the first Indian company in the supply chain for semiconductor wafer fab equipment

"We are now making 200-250 components required for our semiconductor manufacturer client. We have invested ₹30-40 crore already in setting up processing lines and a 1,000-class cleaning room," Sridhar said. He declined to name the client, citing non-disclosure agreement.

TEAL has two business divisions – automation solutions and manufacturing services. The manufacturing services business primarily caters to aerospace and defence clients, providing precision components and sub-assemblies, but in 2020 as Covid hit the aerospace industry, TEAL started identifying industries where it could leverage its capabilities.

"The semiconductor wafer fab equipment space is akin to aerospace engineering requiring precision machinery and process discipline," Sridhar said, adding: "We started supplying components in 2022 and are probably the first Indian company in the supply chain for semiconductor wafer fab equipment."

The company has applied for incentives under the government's scheme for the promotion of manufacturing of electronic components (SPECs).

The SPECs scheme was launched in 2020 with an outlay of ₹3,285 crore to promote production of electronic components and chipsets in the country to increase domestic value addition down the supply chain.

# Secure AI: GPAI members back India's approach

FE BUREAU  
New Delhi, December 13

### TWENTY-NINE-MEMBER

countries, including India, the UK, Japan and France, which are part of the Global Partnership on Artificial Intelligence (GPAI), on Wednesday affirmed their commitment to work towards advanced, safe, secure, and trustworthy artificial intelligence (AI), while also looking at relevant regulations, policies, standards, and other initiatives.

This assumes significance given that India, which is hosting the GPAI summit this year, and also the lead chair for GPAI in 2024, has been pitching for regulating AI through the prism of user harm, while not hindering the innovation.

Further, all the member-countries have also agreed to jointly come up with a global set of basic principles that will shape the path for AI regulations.

The 29-member countries have unanimously adopted the New Delhi declaration which promises to position GPAI at the front and the centre of shaping the future of AI in terms of both innovation and creating collaborative AI between partner nations," said Rajeev Chandrasekhar, minister of state for electronics and IT, on Day 2 of the GPAI summit in New Delhi.

"There is a serious consensus that we have to move fast as countries in broadly two directions. One is about deploying AI, collaborating work with like-minded countries in exploiting resources, to be considered, accounted for, or addressed in order for societies to benefit from and build competitive AI solutions.

"We underscore GPAI's pivotal role in addressing contemporary AI issues, including generative AI, through applied AI projects aimed at addressing societal problems and global challenges, maximising the benefits and mitigating associated risks," the document said.

The member countries also agreed to India's pitch on developing the use of AI innovation in supporting sustainable agriculture as a new thematic priority for GPAI.

AI for healthcare, agriculture, sustainability, language translation, etc. At the same time, the countries are concerned with safety and trust issues that emerge from AI," Chandra Sekhar added.

Over the next few months, the countries will work together to lay out some broad principles on AI, including what guardrails should be there.

"We recognise the rapid pace of improvement in advanced AI systems and their potential to generate economic growth, innovation, and jobs across various sectors as well as to benefit societies. We acknowledge the need to harness new opportunities and mitigate the risks arising from the development, deployment, and use of such technologies," the declaration document of the GPAI ministers said. They also acknowledged the need for equitable access to

resources, to be considered, accounted for, or addressed in order for societies to benefit from and build competitive AI solutions.

"We underscore GPAI's pivotal role in addressing contemporary AI issues, including generative AI, through applied AI projects aimed at addressing societal problems and global challenges, maximising the benefits and mitigating associated risks," the document said.

The member countries also agreed to India's pitch on developing the use of AI innovation in supporting sustainable agriculture as a new thematic priority for GPAI.

# Fairfax India buys additional 7% stake in Bengaluru airport

SWARAJ BAGGONKAR  
Mumbai, December 13

### FAIRFAX INDIA HOLDINGS

has announced the acquisition of an additional 7% equity interest in Bangalore International Airport (BIAL) from Siemens Project Ventures GmbH, part of Siemens Financial Services, for \$175 million.

As previously announced, in the initial transaction, Fairfax India had acquired an additional 3% equity interest in BIAL from Siemens Project Ventures GmbH, part of Siemens Financial Services, for \$75 million.

Following the completion of the second closing, Fairfax India's aggregate share ownership in Bangalore International Airport has increased to 64% (20.4% held by its wholly-owned subsidiary and 43.6% held by its indirect subsidiary, Anchorage Infrastructure Investments Holdings) from 54% last year.

Bangalore International Airport, under a concession agreement with the government of India till 2068, has the exclusive rights to carry out the development, design, financing, construction, commissioning, maintenance, operation and management of the Kempegowda International Airport Bengaluru (KIAB) through a public-private partnership.

"Long-term fundamentals of India's e-retail industry, including affordable data, improved logistics and fintech infrastructure and strong digital consumer ecosystems remain intact," Bain's innovation & design capability area, partner and global leader Arpan Sheth said in a statement.

POSTAL BALLOT NOTICE AND REMOTE E-VOTING INFORMATION

Members of the Company are hereby informed that pursuant to the provisions of Section 110 of the Companies Act, 2013 ("Act") read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014 and all other applicable provisions of the Act and rules framed thereunder, read with General Circular 09/2023 dated September 25, 2023 and other relevant and applicable circulars issued by the Ministry of Corporate Affairs ("MCA Circulars"), Regulation 44 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations, 2015"), Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India, and any other applicable laws, rules and regulations including any statutory modification(s), clarification(s), substitution(s) or re-enactment(s) thereof for the time being in force, the Company has dispatched the Postal Ballot Notice dated December 11, 2023 ("Postal Ballot Notice") on Wednesday, December 13, 2023, through electronic mode only, to those Members whose names are recorded in the Register of Members of the Company or in the Register of Beneficial Owners maintained by the depositaries as on the cut-off date, i.e. Friday, December 1, 2023 and whose e-mail addresses are registered with the Company / Depositories.

Members may note that the Postal Ballot Notice is also available on the website of the Company i.e. www.360.one and websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com, respectively, and on the website of Central Depository Services (India) Limited ("CDSL") at www.evotingindia.com. Members who do not receive the Postal Ballot Notice may download the same from the aforesaid websites.

In compliance with the aforesaid MCA Circulars, the business set out in the Postal Ballot Notice will be transacted through electronic voting system only and accordingly, the Company is providing facility of remote e-voting. For this purpose, necessary arrangements have been made by the Company with CDSL in compliance with Section 108 of the Act, read with Regulation 44 of Listing Regulations, 2015 and of extant applicable circulars issued by Securities and Exchange Board of India and Ministry of Corporate Affairs. In accordance with the MCA Circulars, the physical copies of the Postal Ballot Notice, along with postal ballot form and postage pre-paid business reply envelope, are not sent to any Member. Accordingly, the communication of the assent or dissent of the Members eligible to vote is restricted only to remote e-voting i.e. by casting their votes electronically instead of submitting postal ballot forms.

All the Members are informed that:

- Members holding shares either in physical form or in dematerialized form and whose names are recorded in the Register of Members of the Company or in Register of Beneficial Owners maintained by depositaries, as on the cut-off date i.e. Friday, December 1, 2023, are eligible to exercise their right to vote by remote e-voting system on the business specified in the Postal Ballot Notice.
- The voting rights of a Member shall be reckoned on the paid-up value of shares of the Company registered in the name of the Member / beneficial owner (in case of shareholding in dematerialised form) as on the aforesaid cut-off date.
- The remote e-voting shall commence on Thursday, December 14, 2023, at 9:00 a.m. (IST).
- The remote e-voting shall end on Friday, January 12, 2024, at 5:00 p.m. (IST).
- The remote e-voting will not be allowed before or beyond the aforesaid date and time and the remote e-voting module shall be disabled by CDSL after 5:00 p.m. (IST) on Friday, January 12, 2024.
- Once the vote is cast by a Member, he shall not be allowed to change it subsequently or cast the vote again.
- The manner of remote e-voting for Members holding shares in dematerialized mode, physical mode and for Members who have not registered their email address is provided in the Postal Ballot Notice.

A person who is not a Member as on the aforesaid cut-off date should treat this Notice for information purposes only.

The Board of Directors has appointed Mr. Nilesh Shah or failing him Ms. Hetal Shah or failing her Mr. Mahesh Darji, from Nilesh Shah & Associates, Company Secretaries, as scrutineer to scrutinize the remote e-voting process in a fair and transparent manner.

The Scrutinizer, after scrutinizing the votes cast through remote e-voting, will prepare a report in accordance with the applicable laws and shall submit the same to Chairperson of the Company or any other person authorised by him. The results of the remote e-voting along with the scrutinizer's report shall be declared and announced on or before 6:00 p.m. (IST) of Wednesday, January 17, 2024, at the registered office of the Company and the same shall be communicated to the Stock Exchanges where the equity shares of the Company are listed viz. BSE Limited and National Stock Exchange of India Limited. Further, the results shall be displayed on the website of the Company viz. www.360.one and on the notice board at the registered office of the Company and also on the website of CDSL viz. www.evotingindia.com.

The Resolution contained in the Postal Ballot Notice, if passed
