Dear Sir/Madam,

Newspaper Publication: Intimation of Board Meeting to be held on 03.08.2021

We refer our letter No. IRC/148/2021-22 dated 26.07.2021 intimating a meeting of the Board of Directors of our Bank to be held on **Tuesday, 03rd August 2021** to consider and approve the Unaudited (Reviewed) Financial Results of the Bank for the Quarter ended 30th June 2021.

In this regard, we have published Notice to Shareholders in three Newspapers viz. Dinamani (Tamil), Jansatta (Hindi) and Financial Express (English) on 28.07.2021 for the information of our shareholders. We enclose newspaper publication of the Notice to Shareholders.

Please take the same on record.

Thanking You

Yours faithfully,

S Nandakumaran

BSES targets 50% green energy for Delhi discoms

FE BUREAU New Delhi, July 27

DELHI'S POWER DISTRIBUTION COMPANY (DISCOM) BSES intends to have more than 50% of its long-term power arrangements from green energy by FY24, sources in the company have said.

The Reliance Infrastructure-led private discom is increasing its procurement of renewables-based power, and recently inked power sale agreements (PSA) with the Solar Energy Corporation of India (SECI) to source 510 MW of solar and bundled hybrid power. BSES supplies power to the national capital through its two units, BYPL and BRPL.

At present, around 22% of long-term arrangements of BSES comprise green power, which includes 3.65 megawatt (MW), or 9% of solar and wind energy and about 13%, or 548 MW, of hydro power. The FY24 target renewable energy will include 2,291 MW of solar, wind and waste-to-energy systems and 1,040 MW of hydro power. Since renewable energy is intermittent in nature and is not available round-the-clock, the discom will likely increase its dependence on real-time market in power exchanges for contingencies.

Sector experts said inclusion of storage systems into grid management operations will help discoms procure more renewable energy. The government is already planning to come up with bids for 4,000 megawatt-hour (MWh) of electricity storage contracts, which will be utilised by power systems operators to enhance the security of the electricity grid to balance supply fluctuations. BSES may also have to install power storage capacities on its own to maintain supply quality with more renewable energy in its basket.
