## From the Desk of the Chairperson

My Dear Shareholders,

First and foremost, I want to thank the Board of Directors, DCM Nouvelle, and the shareholders for allowing me to serve as Chairperson of this prestigious Company with a great history and tradition spanning over a century! I'm both humbled and honoured to be speaking to you once again.

Given these unique times, I would also like to offer my heartfelt condolences for the precious lives lost as a result of the current pandemic. I pray and hope for an early end to it, for the safety and health of all, and particularly yours, our dear shareholders.

As a responsible corporate citizen, DCM Nouvelle has followed and continues to respect the National mandate during the currently on-going pandemic in its true letter and spirit, keeping the safety, hygiene and health of its customers and employees as its utmost priority.

2020-21 has been tough for industry. Like most other industries, there were ripples within the textile sector too. Widespread job losses and reduced income among the general population resulted in reduced discretionary spending, and consumption of clothing saw a sharp downturn. At the same time, the industry faced labour shortages resulting in loss of production which cascaded to yarn shortages and consequent hike in yarn prices.

However, with the relentless drive of our management team, and cooperation of our employees, we were able to continue production and

export large quantities, as a result of which the company has shown significantly better overall performance.

DCM Nouvelle stands at the forefront to implement the values of sustainability, safety, and socially responsible practices in cotton consumption. We are also deeply committed to the wellbeing of the community. And this year has been no different in terms of the support provided to our workers' families and the community around us.

As is well known, DCM Nouvelle has always followed the highest standards of Corporate Governance and worked in the best interest of its valued members. At DCM Nouvelle, our members are our priority. I would like to take this opportunity to thank you all, our dear shareholders, for your continuing support.

On behalf of the Board and myself, I would also like to thank our Management Team, staff and workers headed by Shri Rakesh Goel working under the guidance of Shri Hemant Bharat Ram. This team exemplifies the words of **Tony Robbins** "The secret of success is... is no secret. It's called working hard and finding a way to add more value to people's lives than anyone else does!"

**Dr. Meenakshi Nayar**  
Chairperson

## From the Desk of the **Managing Director**

Dear Shareholders,

We are seeing an unprecedented and heartbreaking impact of the pandemic, which is destroying lives and livelihoods alike. We are tremendously inspired by and pay our respects to the many frontline workers, whose selfless service ensures that society and community continue to breathe. We will be eternally grateful to them.

The premium quality yarn of DCM Nouvelle is exported to a number of customers across the world and with the second wave of the pandemic, the global operations were affected badly. However, with a clear vision and well-placed systems, guided by a team of professionals and steered by an enterprising management, the company has been showing good recovery rates. DCM Nouvelle has shown substantial results and it is on a path of continual growth by diversifying its products and extending its customer reach.

Our profits for the year increased manyfold from ₹ 435 Lakh in the year 2019-2020 to ₹ 3053 Lakh for the year 2020-2021. Such huge growth is a reflection of our dedicated management and the employees of DCM Nouvelle. Irrespective of the Pandemic, our efforts to bring the best to our members did not reduce at all.

The earnings per share for our valued members have increased from ₹ 2.31 per share in the year 2019-2020 to ₹ 16.33 per share in the year 2020-2021. The company has also been adopting cost control measures and the same has been reflected through a decline in the expenses from ₹ 58243 Lakh for the

year 2019-2020 to ₹ 52807 Lakh in the year 2020-2021.

### **LOOKING AHEAD**

As the country navigates the second wave of the pandemic, where challenges have become even more difficult, we are committed to ensuring the safety of our employees, their families, and the communities in which we operate. Till the impact of the vaccine is fully felt, we continue to see our operations exposed to several challenges. We are actively encouraging our employees to get vaccinated, and also facilitate the same.

In every way, we are firmly on our way to becoming a more future-ready company and determined to keep formulating robust strategies and means to combat the challenges thrown by the pandemic. In every way we are focused towards increasing the production and sales of our products and expanding the markets towards the new horizons.

I hereby express my sincerest gratitude to our stakeholders for standing strong with us and believing in the company's values and our long heritage, in our abilities to navigate change and emerge even stronger out of these tough times.

At DCM Nouvelle, our commitment to delivering quality, affection, and thoughtfulness in everything and that remains unchanged.

### 3. OPERATIONAL PERFORMANCE

Your Directors inform the members that during the year under review, your Company faced unprecedented challenges due to global economic slowdown including the domestic markets. Your Company geared itself and took all measures to withstand the challenges. Though the Company recorded a lower turnover at ₹ 557.06 Crores as against ₹ 580.28 Crores, as the financial year started with the national lockdown. Due to these steps your Company was able to achieve better performance. The operating profit of the Company improved significantly due to good market demand that emerged in the second half of the year with the receding Covid19 impact. The Company recorded total profit after tax (including OCI) of ₹ 30.53 Crores in the current financial year against a profit of ₹ 4.34 Crores in the previous year.

### 4. COVID 19 & ITS IMPACT

The covid-19 epidemic in 2020 has been a major disaster. The impact of covid-19 on India has been

largely disruptive in terms of economic activity as well as a loss of human lives. Almost all the sectors have been adversely affected.

The physical and emotional wellbeing of employees continues to be a top priority for the Company, with several initiatives to support employees and their families during the pandemic.

Your Directors have been regularly reviewing with the Management, the impact of COVID-19 on the Company. During the 1st quarter of the year, your Company had to temporarily suspend operations for more than a month at its plant, keeping in mind the paramount need of safety of the employees.

Your Company quickly took measures to ensure the safety of all employees and assured of their well-being. The Manufacturing facility at Hisar had resumed its operations from the first week of May 2020, when lockdown was partially lifted after establishing thorough and well-rehearsed safety protocols. Proactive preparations were done in our

work locations during this transition to ensure our offices were safe.

The Board and the Management will continue to closely monitor the situation as it evolves and do its best to take all necessary measures, in the interests of all stakeholders of the Company.

#### CONSERVATION OF ENERGY AND TECHNOLOGY ABSORPTION

##### (A) CONSERVATION OF ENERGY

###### i. The steps taken or impact on conservation of energy

Conservation of energy is an essential step towards overcoming energy crisis, environmental degradation and global competitiveness. The Company is giving due importance to conservation of energy and makes continuous efforts to conserve energy by effecting process and machinery modifications, implementation of technological advancements, development of newer methods, energy audit, proper and timely maintenance etc., amongst others. These measures led to savings in terms of energy, money and time.

Besides continuing the measures taken in earlier years, following additional steps were taken during the year 2020-21 with a view to reduce cost of energy and consequently, the cost of production:

- Installation of inverter on H Plant supply of Ring Frame.
- Installation of inverter on Air Fan supply of Blow Room.

###### **Green Energy – Clean Energy**

The Company produced 29.17 Lacs units for in-house consumption through solar power plant during the previous financial year. Solar power is clean green electricity sourced from sunlight. Solar energy is a renewable free source of energy that is sustainable and totally inexhaustible, unlike fossil fuels that are finite. It is also a non-polluting source of energy and it does not emit any greenhouse gases when producing electricity. We are under process to increase solar power plant capacity by 10 MW.

###### (ii) The steps taken by the Company for utilizing alternate sources of energy

The Company had installed 355 KWp solar power plant during first quarter of financial year 2020-21.

# MANAGEMENT DISCUSSION AND ANALYSIS REPORT

## INDUSTRY STRUCTURE AND DEVELOPMENTS

Textile Industry provides for varying needs of human beings of all ages at home, during travel and at work locations. Multitudes of fibers and technologies are the backbone of the industry. Textile raw materials are natural fibers like cotton, jute, viscose and linen etc. make up 37% of the total consumption. Rest is made up from man made fibers like polyester, and nylon etc. Now the sustainability drive has also led to recycled fibers industry which is making its own space in the world. Fibers are spun or made into filament yarns which in turn are woven or knitted into fabrics. Non-woven textile industry has also made inroads.

The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in textile designing makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce wide variety of products suitable for different market segments, both within India and across the world. At present, Indian textiles sector occupies prominent position in the world textile trade.

### Spinning Industry Overview

In 2020 with an installed capacity of about 53 million plus spindles, India is one of the largest producers and exporter of cotton yarn in the world with a production of 5659 million kgs (FY 2019-20) of all types of spun yarn.

China is the largest importer of cotton yarn (28% share) from India, followed by Bangladesh with 23% share respectively. The top five importers share of India's total cotton yarn exports is 66%.

The high cotton yarn exports out of India can be attributed to the local availability of abundant raw material and modern technology in the spinning section of the value chain. Indian spinners over the last few decades have invested extensively in enlarging and modernizing the industry with latest machines and equipments procured locally as well as from outside the country. Central and State Governments has been pitching in with various incentives to help the industry in this endeavor so that it is able to export value added high quality products from India and simultaneously providing employment to the lowest earning population of the country.

## Investment

The textiles sector has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted Foreign Direct Investment (FDI) worth US\$ 3.09 billion during December 2018 to April 2020.

The Ministry of Textiles has sanctioned 59 Textile parks under the Scheme of Integrated Textile Park (SITP), out of which 22 Textile Parks have been completed.

DCM Nouvelle Limited is a leading manufacturer & exporter of 100% cotton carded and combed yarns in single and two-ply forms of count range Ne 12s to 40s. The Company has spindle capacity of 1,15,048 located at Hisar with approx 2500 MT of monthly production. State-of-art spinning machineries and Quality Assurance instruments from leading manufacturers have been installed for production of fault free 100 % cotton yarn. With the introduction of value added products, premium brands & sustainability certifications, the company has moved ahead in positioning itself as supplier of quality yarn for fine clothing. The company has successfully engraved its name in domestic markets and exports to more than 30 countries. It is moving on the path of Total Quality Management (TQM), its improved processes & products to achieve ultimate goal of "CUSTOMER DELIGHTNESS".

### Brands

The Company expanded its spinning capacity by setting up its latest world class automated spinning unit (Unit III) with 39168 spindles in 2014. From this New Spinning Unit, "PRIMERO" a brand of premium 100% Cotton Combed Yarn was launched in 2015. PRIMERO has gained immense recognition among the high-end customers due to controlled contaminations & good piling performance. The fabric knitted with Primero quality yarn has controlled contamination level suitable for bleach & light shades. The feel of fabric made up of primero quality is rich & luxurious having excellent appearance.

# Dinero

From the same New Spinning Unit III, "DINERO" a brand of premium 100% Cotton Carded Yarn was launched in 2016. The fabric knitted with Dinero quality yarn has exceptional uniformity. The feel of the finished fabric is smooth & soft. The yarn has better tensile properties suitable for knitting after cone dyeing. Dinero quality yarn performance excellently on high-end knitting machines.

CCY is contamination controlled 100% cotton combed knitting yarn processed through advanced contamination control systems "USTER® JOSSI VISION SHIELD with MAGIC EYE 2" and "Uster Quantum 3 with Polypropylene (PP) & Dark Foreign Fibre (FFD)" clearing devices that ensures removal of Polypropylene and colored contaminants. This combination these two control systems results in Contamination Controlled Yarn.

## Sustainability

The company is certified as per Global Organic Textile Standard (GOTS). GOTS defines high-level environmental criteria along the entire organic textiles supply chain and requires compliance with social criteria as well.

# BCI

Better Cotton Initiative

As Proud Member of BCI, We Stand at forefront to achieve BCI objective to make global cotton production better for the people who produce it, better for the environment it grows in and better for the sector's future.

## Export Markets

**Domestic Markets**

**OPPORTUNITIES, THREATS AND FUTURE OUTLOOK**

The outlook for the textile industry in India is quite optimistic. It is expected that the textile industry will continue to grow at an impressive rate.

The Indian textile industry currently estimated at around US\$ 140 billion and is expected to grow at CAGR of more than 5%. The industry is the second largest employer after agriculture providing employment to over 45 million people directly and 65 million people indirectly. The Indian textiles industry contributes approximately 2.3% to India’s GDP and 14% to overall Index of Industrial Production (IIP). The implementation of GST is another positive step to organize the textile sector and for revenue generation both for industry and the Government.

The production of raw cotton in India is estimated to have reached 350 Lacs bales in FY21. kg. However, due to COVID-19 pandemic cotton consumption has dipped.

The inherent strengths of the textile industry have seen it through rough days and hard times. There have been many periods of adversity, when growth charts dipped and the future appeared bleak. But like the phoenix, the textile industry has risen each time from the ashes.

With a tremendous growth in the economy along with Government support, the Indian economy is expected to overtake Japan to be the 3<sup>rd</sup> largest economy by 2028. India’s exports are also expected to improve in coming years benefitting from the trade war between US and China.

The relative success of the Spinning Industry is dependent on the availability of Raw Cotton at reasonable prices. The Raw cotton is the main Raw material (constituting approx. 60% of the total cost) for the manufacture of cotton yarn and it is dependent on the Nature i.e. Good/Bad Monsoon. So availability of raw cotton at reasonable prices is crucial for the spinning Industry. Any significant change in raw cotton prices can affect the performance of the Industry.

The Textile Industry is also not free from normal business risks and threats. The Outbreak of COVID-19 pandemic severely impacted the Textile industry. The slowdown in the Global Trade affected exports of textile products. Moreover, exports continue to face stiff challenges from the small countries like Bangladesh, Sri Lanka, Taiwan and Pakistan etc., who have got the preferred treatment from the countries of European Union and U.S. The currency fluctuations are also impacting the financial performance of the Textile Industry. The above-mentioned factors have had and will continue to have a significant bearing on the financial performance of the Industry in the coming period too.

**COVID-19 PANDEMIC**

The Outbreak of Coronavirus pandemic severely impacted the businesses across all sectors and geographies. The lockdown restrictions imposed by central / state government from 23 March, 2020 to 31 May, 2020 forced the company to temporarily suspend operations in its unit. Thereafter, the Government allowed some essential industries to operate and the company after seeking necessary approvals/permissions from the Government Authorities, commenced its operations partially in May, 2020 with limited workforce. The company gradually increased the capacity utilization and reached the pre COVID-19 manufacturing level shortly.

**RISK & CONCERNS**

Textile spinning sector globally seems to be quite unpredictable and uncertain for various reasons including fluctuating demand as against growing supply side, cotton futures, currency fluctuation and above all increasing competition from some countries like Vietnam, Bangladesh, and Cambodia etc. Recently initiatives launched by Govt envisages inviting FDI which may give impetus to growth in textiles, particularly the fabric and processing which will lead to balance out the demand supply position for spinning sector.

Competition from other developing countries, high volatility of cotton, yarn price and the Rupee to US\$ exchange rate are the major concern. The Company is trying to reduce the impact of volatility by reducing open position in respect of above. Labour shortage is another area which is affecting operations. This is being mitigated by increasing worker training programs and strengthening operational efficiency.

### INTERNAL CONTROLS

The Company's financial statements are accurate, sufficient and credible. All assets are safeguarded and protected against losses that may arise from unauthorized use or disposition, incorrect use, any incident of fraud and inappropriate storage. We continuously strive to integrate the entire organization – from strategic support functions like finance, human resources and regulatory affairs to core operations like manufacturing and supply chain management. Such internal control procedures are augmented by an extensive programme of internal and external audits, and regular reviews by the management. The Company has obtained ISO 9001-2015 and adheres to standard operating practices in its manufacturing and operating activities. Reasonable assurance is obtained based on evidence regarding processes followed and their appropriate testing of controls that such systems are adequate, comprehensive and are working effectively.

The Internal Auditors independently evaluate the adequacy of internal controls and concurrently audit the majority of the transactions in value terms. Independence of the audit and compliance is ensured by direct reporting of Internal Auditors to the Audit Committee of the Board.

All Internal Audit findings and control systems are regularly reviewed by the Audit Committee of the Board of Directors, which provides strategic guidance on Internal Controls.

### MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/ INDUSTRIAL RELATIONS

# Independent Auditor's Report

## To the Members of DCM Nouvelle Limited

### Report on the Audit of the Financial Statements

#### Opinion

1. We have audited the accompanying financial statements of DCM Nouvelle Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at 31 March 2021, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.
5. We have determined the matters described below to be the key audit matters to be communicated in our report.

#### Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<p><b>Valuation of Inventories</b></p> <p>At the balance sheet date 31 March 2021, the Company holds inventories comprising of raw materials and components, finished goods, work-in-progress aggregating to 13,691.51 lacs as disclosed in note 8 to the accompanying financial statements of the Company. Such inventory is carried at cost, or net realisable value whichever is lower, as per the accounting policy disclosed in note 2(e).</p> <p>Determination of cost of inventory involves allocation of various production and administration overheads incurred to bring the inventory to its present location and condition, which involves management judgement and estimation.</p> <p>Amongst the other overheads, fixed production overheads are allocated to the costs of conversion based on the normal capacity of the production facilities in accordance with the principles of Ind AS -2, Inventories.</p>	<p>Our audit work included, but was not limited to, the following procedures:</p> <ul style="list-style-type: none"> <li>• Evaluated the appropriateness of the Company's accounting policy and valuation method of inventory in accordance with the applicable accounting standards.</li> <li>• Assessed the design and implementation of controls in respect of the inventory valuation, and tested the effectiveness of key inventory controls.</li> <li>• Discussed with management the rationale supporting assumptions and estimates used in carrying out the inventory valuation, and corroborated the same to our understanding of the business. Tested the computation of various overhead absorption rates by tracing the underlying data to audited historical operational results of the company.</li> <li>• Verified the expenses considered as cost of conversion including estimates for apportionment of the conversion on the different classes of finished</li> </ul>

The management's judgements and assumptions are dependent upon the internal classification and groupings of the classes of inventory for valuation purpose, which can be difficult to analyse and be influenced by other economic factors including but not limited to uncertainty surrounding industry's trends.

Further, at the end of each reporting period, the management of the Company also assesses whether there is any objective evidence that net realisable value of any item of inventory is below the carrying value. If so, such inventories are written down to their net realisable value in accordance with Ind AS 2, Inventories.

Considering the aforesaid complexities involved in significant management judgements and estimates required with respect to valuation of inventory, this matter has been determined to be a key audit matter for the current year audit.

goods and work in progress and recomputed the arithmetical accuracy thereof for calculating the conversion cost considered as part of the finished goods and work in progress.

- Obtained understanding of management process for identification of slow moving, non-moving or obsolete inventories and ensured that the same is consistently applied.
- Recomputed the net realisable value of the finished goods and reviewed the management assessment for carrying inventory at lower of cost and net realisable value.
- Tested ageing of inventory items obtained through system reports, as applicable.

Evaluated the appropriateness and adequacy of disclosures made in the financial statements in accordance with the applicable accounting standards.

#### Information other than the Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

7. The accompanying financial statements have been

approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as

applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

9. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating

effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
  - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
  13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
  14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless

law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other Matter

15. The financial statements of the Company for the year ended 31 March 2020 were audited by the predecessor auditor, BSR & Co. LLP, who have expressed an unmodified opinion on those financial statements vide their audit report dated 25 June 2020.

#### Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
17. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.
18. Further to our comments in Annexure I, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
- we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying financial statements;
  - in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - the financial statements dealt with by this report are in agreement with the books of account;
  - in our opinion, the aforesaid financial statements comply with Ind AS specified under section 133 of the Act;
  - on the basis of the written representations

received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of section 164(2) of the Act;

- we have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 15 May 2021 as per Annexure II expressed unmodified opinion; and
- with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
  - the Company, as detailed in note 39 to the financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2021;
  - the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021;
  - there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2021; and
  - the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

## Annexure I to the Independent Auditor's Report of even date to the members of DCM Nouvelle Limited, on the financial statements for the year ended 31 March 2021

### Annexure I

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets comprising 'property, plant and equipment' and 'capital work-in-progress'.
- (b) The Company has a regular program of physical verification of its fixed assets comprising 'property, plant and equipment' and 'capital work-in-progress' under which fixed assets are verified in a phased manner over a period of — -3 years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-in-transit. No material discrepancies were noticed on the aforesaid verification.
- iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- iv) In our opinion, the Company has not entered into any transaction covered under Sections 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.
- v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) There are no dues in respect of income-tax, sales-tax, service tax, duty of customs, duty of excise and value added tax that have not been deposited with the appropriate authorities on account of any dispute.
- viii) The Company has not defaulted in repayment of loans or borrowings to any bank during the year. There are no loans or borrowings payable to financial institutions or government and no dues payable to debenture-holders.
- ix) The Company did not raise moneys by way of initial public offer or further public offer (including debt instruments). In our opinion, the term loans were applied for the purposes for which the loans were obtained.

- x) No fraud by the Company or on the company by its officers or employees has been noticed or reported during the period covered by our audit.
- xi) Managerial remuneration has been paid and provided by the company in accordance with the requisite approvals mandated by the provisions of Section 197 of the Act read with Schedule V to the Act.
- xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the financial statements etc., as required by the applicable Ind AS.
- xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.
- xvi) The company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

## Annexure II to the Independent Auditor's Report of even date to the members of DCM Nouvelle Limited on the financial statements for the year ended 31 March 2021

### Annexure II

#### Independent Auditor's Report on the internal financial controls with reference to the financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the financial statements of DCM Nouvelle Limited ('the Company') as at and for the year ended 31 March 2021, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

#### Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the

Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

#### Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and

that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls with Reference to Financial Statements**

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in

conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

# Summary of Significant Accounting Policies and Other explanatory Information for the year ended 31st March, 2021

## 1 Company Overview and basis of preparation and presentation

### 1.1 Company overview

DCM Nouvelle Limited (herein after referred to as 'the Company') is domiciled in India with its registered office situated at Vikrant Tower, 4, Rajendra Place, New Delhi-110008, (CIN: L17309DL2016PLC307204). The Company has been incorporated under the provision of Indian Companies Act and its equity shares are listed on the National Stock Exchanges (NSE) and Bombay Stock Exchange (BSE). The Company, primarily, engaged in the business of manufacturing and sale of Cotton Yarn.

### 1.2 General information and statement of compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as prescribed under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time and notified under Companies Act 2013, and other relevant provisions of the Act.

The financial statements were authorised for issue by the Company's Board of Directors on 15 May 2021.

#### a. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lacs, unless otherwise indicated and number of shares are mentioned in absolute numbers.

#### b. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Derivative instruments	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations
Other financial assets and liabilities	Amortised cost

### c. Use of estimates and judgements

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual result may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised prospectively.

#### Judgements

In the process of applying Company's accounting policies, there are no significant judgments established by the management.

#### Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2021 is included in the following notes:

Note 2 (b) - measurement of fair values

Note 2 (d) - measurement of useful lives and residual values to property, plant and equipment. Note 2 (e) – Valuation of inventory

Note 2 (f) – Estimated impairment of financial assets. Note 2 (g) – Estimated impairment of non-financial assets Note 2 (h) – Measurement of defined benefit obligations

Note 2 (i) – Recognition and measurement of provisions and contingencies

Note 2 (l) – Recognition of deferred tax assets availability of future taxable profit against which tax losses carried forward can be used.

#### Operating cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months

for the purpose of classification of its assets and liabilities as current and non-current.

## 2. Significant accounting policies

Following significant accounting policies are used in the preparation of the financial statements.

### a. Current and non-current classification:

All assets and liabilities are classified into current and non-current.

#### Assets

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is expected to be realised within 12 months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

#### Liabilities:

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include the current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

### b. Measurement of fair values

Company's certain accounting policies and disclosures require the measurement of fair values, for financial assets and financial liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The finance team has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and reports directly to the board of directors.

The finance team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind. AS, including the level in the fair value hierarchy in which the valuations, should be classified.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value

measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which change has occurred.

**c. Business Combination under Common Control**

A business combination involving entities or businesses under common control is a business combination in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory. The transactions between entities under common control are specifically covered by Ind. AS 103. Such transactions are accounted for using the pooling- of interest method.

The assets and liabilities of the acquired entities or businesses are recognised at their carrying amounts with the exception of certain income tax and deferred tax assets. No adjustments are made to reflect fair values or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies. The components of equity of the acquired entities or businesses are added to the same components within the acquirer's equity. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital held by the transferor is transferred to other equity. The acquirer's shares issued in consideration for the acquired entities or businesses are recognised from the moment the acquired entities or businesses are included in these financial statements and the financial statements are combined under common control, retrospectively, as if the transaction had occurred at the beginning of the earliest reporting period presented. Acquisition-related costs are expensed as incurred.

**d. Property, Plant and equipment**

*Recognition and measurement*

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non- refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use. The cost of self-constructed assets includes the cost of materials, direct labour, and any other costs directly attributable to bringing the assets to a working condition and location for their intended use.

When parts of an item of property, plant and equipment having significant cost have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Gains or losses on disposal of an item of property, plant and equipment is recognised in the statement of profit or loss.

All spare parts which are expected to be used for more than one accounting period are capitalised as property, plant and equipment.

Capital work-in-progress is stated at cost, net of impairment loss, if any.

The cost replacing part of an item of property, plant and equipment is recognised in the carrying amount of the cost of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in the statement of profit and loss as incurred.

Depreciation is provided on cost of items of property, plant and equipment less their estimated residual values over their

estimated useful lives using straight line method.

On assets sold, discarded, etc., during the year, depreciation is provided up to the date of sale/discard. Depreciation has been calculated on a pro-rata basis in respect of acquisition/installation during the year. Freehold land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at least at each financial year end and changes, if any, are accounted for prospectively.

The depreciation charged on all property, plant and equipment is on the basis of useful life specified in Part "C" of Schedule II to the Companies Act, 2013 which represents useful lives of the assets.

**e. Inventories**

Inventories are valued at lower of cost or net realisable value. Cost of raw material comprise cost of purchase and is determined after rebate and discounts. Cost of work-in-progress and finished goods comprises direct material, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity.

Cost of inventories also include all other cost incurred in bringing the inventories to their present location and condition. Costs are determined on weighted average cost basis.

Waste material is valued at net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. When a decline in the price of materials indicates that the cost of finished products exceeds net realisable value, the materials are written down to net realisable value. Net realisable value of raw material is determined with reference to the replacement cost of the raw materials.

**f. Financial instruments**

A financial instrument is any contract that

gives rise to a financial asset of one entity and a financial liability of equity instrument of another entity.

*Recognition and initial measurement*

**(i) Financial assets**

Financial assets are classified at initially recognised as subsequently measured at amortised cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL)

With the exception of trade receivable that do not contain a significant financing component, the Company initially measures financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables do not contain a significant financing component and are measured at the transaction price determined under Ind AS 115, Refer to the accounting policies in section (j) Revenue recognition.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e. the date that the Company commits to purchase or sell the asset.

**Classification and subsequent measurement**

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified

dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All equity investment in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applied are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. The Company elected to classify irrevocably its non-listed equity investments under this category. If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instruments, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the Statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

#### **Impairment**

The Company recognises loss allowance using the expected credit loss (ECL)

model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables is measured at an amount equal to lifetime ECL. For all financial assets with contractual cash flows other than trade receivable, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in the statement of profit and loss.

#### **(ii) Financial liabilities**

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement profit or loss.

#### **(iii) Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

#### *Derecognition*

#### **(i) Financial assets**

The Company derecognises a financial

asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

**(ii) Financial liabilities**

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit or loss.

**g. Impairment of non-financial assets**

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in estimate used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

**h. Employee benefits**

Short-term employee benefits:

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. Employee benefit liabilities such as salaries, wages, casual leave allowance and bonus, etc. that are expected to be settled wholly within twelve months after the end of the year in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting year and are measured at an

undiscounted amount expected to be paid when the liabilities are settled.

#### Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts.

**Provident Fund and Employees State Insurance:** The Company makes specified monthly contributions towards employee provident fund and employee state insurance to Government administered fund which is a defined contribution plan. The Company's contribution is recognised as an expense in the statement of profit or loss during the period in which the employee renders the related service and also includes contribution to national pension scheme.

**Superannuation Fund:** The Company makes specified monthly contribution towards superannuation fund to Superannuation Trust which is managed by the Life Insurance Corporation of India ("LIC").

#### Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The Company has following defined benefit plans:

**Gratuity:** The Company's gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation carried out by an independent actuary, using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured as the

present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans is based on the market yields on Government securities as at the balance sheet date for the estimated term of the obligation.

Re-measurements of the defined benefit liability, which comprise actuarial gains and losses, are recognised in OCI.

#### Other employee benefits plan

**Compensated absences:** Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year and are treated as short term employee benefit. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Accumulated compensated absences, which are expected to be available or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using market yields on Government securities. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the statement of profit and loss in the period in which they arise. Past-service costs are recognised immediately in the statement of profit and loss.

#### **i. Provisions, contingent liabilities and contingent assets**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the amount of time value of money is material, provisions are determined by discounting the expected future cash flows (representing the best

estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the possibility of an outflow of economic benefits is remote.

Contingent assets are neither recognised nor disclosed except when realisation of income is virtually certain, related asset is recognised.

**j. Revenue Recognition**

Revenue from contracts with customers is recognised when control of the goods are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods before transferring them to the customer.

**i Sale of goods**

Revenue from sale of products is recognised at the point in time when control of the asset is transferred to the customer. In case of domestic sales, control is transferred on actual delivery of goods and in case of export sales which are secured against letter of credit, control is transferred at the time of bill of lading and in case of other export sales, control is transferred when payment is received. Amounts disclosed as revenue are net of returns and allowances, trade discounts and rebates. The Company collects Goods and

Services Tax on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, these are excluded from the revenue.

Revenue is measured based on the transaction price, which is the consideration, adjusted for variable consideration such volume discounts, cash discounts etc. as specified in the contract with the customer.

Contact asset is the entity's right to consideration in exchange for goods or services that the entity has transferred to the customer. A contract asset becomes a receivable when the entity's right to consideration is unconditional, which is the case when only the passage of time is required before payment of the consideration is due. Contract assets are disclosed in Note 9 as Trade receivables.

Contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfer goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract. Contract liabilities are disclosed in Note 24 as advance received from customers.

**ii Rendering of services**

Revenue from sale of services is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and is recognised in the statement of profit and loss in proportion to the stage of completion of the transaction at the reporting date

### iii. Duty Drawback and other export benefits

The revenue in respect of duty drawback and similar other export benefits is recognised on accrual (subsequent to recording of export sales) basis at the rate at which the entitlements accrue.

Use of significant judgements in revenue recognition

- a) Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration of variable consideration with elements such as volume discounts, price concessions and incentives. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product of service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable consideration to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.
- b) The Company uses judgement to determine an appropriate selling price for a performance obligation. The Company allocates the transaction price to each performance obligations on the basis of the relative selling price of each distinct product promised in the contract.
- c) The Company's performance obligation under revenue

contracts, is satisfied at a point in time and judgement is exercised in determining point in time.

### iv. Other income

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability

When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

### k. Leases

**A contract is, or contains,** a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the

commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use asset is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses. If any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payment, that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and re-measuring the carrying amount to reflect any reassessment or lease

modifications or to reflect revised in-substance fixed lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and the statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognised any remaining amount of the re-measurement in the statement of profit and loss.

## I. Income taxes

Income tax comprises current and deferred tax. Current tax expenses is recognised in the statement of profit or loss except to the extent that is relates to items recognised directly in other comprehensive income or equity, in which case it is recognised in other comprehensive income or equity.

### i. Current tax

Current tax comprises the expected tax payable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rate (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amount, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

### ii. Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also

recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction.
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and taxable temporary differences arising on the initial recognition of goodwill

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax assets only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the assets is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date to recover or settle the carrying amount of its assets and liabilities

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be real.

#### **m. Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker.

In accordance with Ind AS 108-Operating Segments, the operating segments used to present segment information are identified on the basis of internal reports used by the Company's Management to allocate resources to the segments and assess their performance.

The Board of Directors is collectively the Company's 'Chief Operating Decision Maker' or 'CODM' within the meaning of Ind AS 108. The Company has only one reportable business segment i.e. manufacture of cotton yarn.

#### **n. Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

**o. Earnings per share**

Basis earning per equity share is computed by dividing:

- the net profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share adjust the figures used in the determination of basis earning per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity share, and
- the weighted average number of additional equity share that would have been outstanding assuming the conversion of all dilutive potential equity shares.

**p. Borrowing cost:**

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

**q. Government grant:**

Grants from the Government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the statement of profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other operating income/other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to statement of profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

**r. Foreign currency transactions and translation**

Company's functional currency is Indian Rupee (INR) and the financial statements are presented in Indian Rupee (INR).

Transactions in foreign currencies are translated into the functional currencies of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. The resulting difference is recorded in the statement of profit and loss.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in statement of profit or loss.

The Company uses derivative financial instruments such as forward exchange contracts to hedge its risk associated foreign currency fluctuations. Such derivatives are stated at fair value. Any gains or losses arising from changes in fair value are taken directly to statement of profit or loss.

**s. Recent accounting pronouncements.**

On 24 March 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act,

2013. The amendments revise Division I, II and III of Schedule III and are applicable from 01 April 2021. Key amendments relating to Division II which relate to Companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

**Balance Sheet:**

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.

- If a Company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of Company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

**Statement of profit and loss:**

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of the financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

### iv) Actuarial assumptions :

The Principal assumptions used at the reporting date (expressed as weighted averages):

Particulars	As at 31 March 2021	As at 31 March 2020
<b>Financial assumptions</b>		
Discount rate per annum	6.79%	6.79%
Future salary growth rate	5.00%	5.00%
<b>Demographic assumptions</b>		
Retirement age (years)	58 years	58 years
Mortality rates inclusive of provision for disability	"IALM( 2012-14) ultimate"	"IALM( 2012-14) ultimate"
<b>Attrition rate</b>		
Upto 30 years	5.84%	5.84%
31 to 44 years	2.19%	2.19%
Above 44 years	0.73%	0.73%

**Note:** As at 31 March 2021, the weighted average duration of the defined benefit obligation was 16.37 years (31 March 2020: 16.50 years)

### v) Bifurcation of actuarial gain/loss on obligation

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Actuarial (gain)/loss on arising from change in demographic assumption	-	0.22
Actuarial (gain)/loss on arising from change in financial assumption	-	(13.64)

### vi) Expected contributions to the Fund in next year :

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Gratuity	108.63	100.91

### vii) Sensitivity analysis

The sensitivity of defined benefit obligation to changes in the weighted principal assumptions is :

	As at 31 March 2021		As at 31 March 2020	
	Increase in obligation	Decrease in obligation	Increase in obligation	Decrease in obligation
Discount rate per annum (0.50 %)	(21.67)	23.44	(21.06)	22.79
Future salary growth rate (0.50 %)	23.74	(22.13)	23.08	(21.50)

Above sensitivity analysis is based on a change in assumption while holding all the other assumptions constant. In practice, this is unlikely to occur, and change in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognized in balance sheet.

### viii) Maturity profile

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date:

Particulars	31 March 2021	31 March 2020
Year 1	113.79	130.91
Year 2	22.29	10.32
Year 3	166.30	20.62
Year 4	16.50	155.07
Year 5	10.15	13.66
Year 6	18.94	8.86
Next to 6 years	293.27	270.74

### ix) Description of Risk Exposures:

The gratuity scheme is a final salary Defined Benefit Plan that provides for lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The plan design means the risk commonly affecting the liabilities and the financial results are expected to be:

- Interest rate risk:** The defined benefit obligation calculated uses a discount rate based on government bonds, if bond yield fall, the defined benefit obligation will tend to increase
- Salary inflation risk:** Higher than expected increases in salary will increase the defined benefit obligation.
- Demographic risk:** This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria.

# The Company's borrowings have been contracted at floating rates of interest. Accordingly, the carrying value of such borrowings (including interest accrued but not due) approximates fair value.

\* The carrying amounts of trade receivables, trade payables, cash and cash equivalents, bank balances other than cash and cash equivalents, loans and other financial assets and liabilities, approximates the fair values, due to their short-term nature. The carrying value of loans and other non-current financial assets and other non-current financial liabilities approximates the fair values as on the reporting date.

There have been no transfers between Level 1, Level 2 and Level 3 for the years ended 31 March 2021 and 31 March 2020.

### Valuation technique used to determine fair value

The fair values of Long term interest-bearing borrowings and loans are determined by using Discounted Cash Flow (DCF) method using risk free rate, adjusted for risk premium and other factors that market participants would take into account in the circumstances, as discount rate at the end of the reporting period. The own nonperformance risk was assessed to be insignificant.

Other non-current assets and liabilities are evaluated by the Company based on parameters such as interest rate, risk factors, risk characteristics and individual credit-worthiness of the counterparty. Based on this evaluation, allowances are taken into account for the expected losses.

### b. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk

#### Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors have authorised senior management to establish the processes, who ensures that executive management controls risks through the mechanism of properly defined framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risks limits and controls, to monitor risks and adherence to limits. Risk management policies are reviewed regularly to reflect changes in market conditions and the Company's activities.

## Notes for the year ended 31st March, 2021

(All amounts in ₹ lacs, unless stated otherwise)

### (i) Credit risk

**The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the balance sheet**

Particulars	As at 31 March 2021	As at 31 March 2020
Trade receivables (net of allowances for expected credit loss)	9,306.16	5,662.44
Cash and cash equivalents	11.89	22.46
Balances other than cash and cash equivalents	12.61	79.84
Loans	38.98	38.05
Other financial assets	1,047.41	780.51

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

The maximum exposure to the credit risk at the reporting date is primarily from domestic trade receivables as export receivables are secured through letter of credit and are derived from revenue earned from customers primarily located to China and Bangladesh. Domestic trade receivables are generally unsecured and are derived from revenue earned from customers primarily located in India. The Company continuously monitors the economic environment in which it operates. The Company manages its Credit risk through credit approvals, establishing credit limits and continuously monitoring credit worthiness of customers to which the Company grants credit terms in the normal course of business.

Majority of trade receivables are from customers, which are fragmented and are not concentrated to individual customers. Trade receivables are generally realised within the credit period.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience (including of the period prior to acquisition of the related business) and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and are not expected to be recoverable. Ageing matrix is disclosed below:

**The Company's exposure to credit risk for trade receivables are as follows:**

#### Gross carrying amount

Particulars	As at 31 March 2021	As at 31 March 2020
0-30 days due	2,678.72	1,357.45
31-90 days past due	5,000.59	3,736.95
91 to 180 days past due	1,624.49	570.40
More than 180 days past due	109.07	115.91
<b>Total</b>	<b>9,412.87</b>	<b>5,780.71</b>

The credit risk for cash and cash equivalents, balances other than cash and cash equivalents, loans and Other financial assets is considered negligible, since the counterparties are reputable organisations with high quality external credit ratings.

### (ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company believes that its liquidity position, anticipated future internally generated funds from operations, and its fully available, revolving undrawn credit facility will enable it to meet its future known obligations in the ordinary course of business. However, if a liquidity needs were to arise, the Company believes it would be able to approach and materialise new financing arrangements, which should enable it to meet its ongoing capital, operating, and other liquidity requirements. The Company will continue to consider various borrowing or leasing options to maximise liquidity and supplement cash requirements as necessary.

The Company's liquidity management process as monitored by management, includes the following:

- Day to day funding, managed by monitoring future cash flows to ensure that requirements can be met.
- Maintaining rolling forecasts of the Company's liquidity position on the basis of expected cash flows.
- Maintaining diversified credit lines.

### I. Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at 31 March 2021	As at 31 March 2020
From banks	5,183.17	3,373.02

### II. Maturities of financial liabilities

The following are the remaining contractual maturities of financial liabilities at the 31 March 2021. The amounts are gross and undiscounted:

## Notes for the year ended 31st March, 2021

(All amounts in ₹ lacs, unless stated otherwise)

The following are the remaining contractual maturities of financial liabilities at the 31 March 2020. The amounts are gross and undiscounted:

Particulars	Carrying amount	Contractual cash flows			
		Less than one year	Between one year and five years	More than 5 years	Total
<b>Non-current liabilities</b>

\* Contractual cash flow includes the interest to be incurred and paid in subsequent periods.

### iii. Market risk

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

#### Currency risk

Currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to the effects of fluctuation in the prevailing foreign currency exchange rates on its financial position and cash flows. Exposure arises primarily due to exchange rate fluctuations between the functional currency and other currencies from the Company's operating, investing and financing activities.

#### Exposure to currency risk

The summary of quantitative data about the Company's exposure to currency risk, as expressed in Indian Rupees, as at 31 March 2021 and 31 March 2020 are as below:

Particulars	As at	As at

### Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against below currencies at 31 March 2021 (previous year ended as on 31 March 2020) would have affected the measurement of financial instruments denominated in functional currency and affected equity and profit or loss by the amounts shown below. This analysis is performed on foreign currency denominated monetary financial assets and financial liabilities outstanding as at the year end. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars	Profit or (loss) before tax		Credit or (debit) to equity (net of tax)

### Foreign exchange derivative contracts

The Company uses derivative financial instruments exclusively for hedging financial risks that arise from its commercial business or financing activities. The Company's Corporate treasury team manages its foreign currency risk by hedging transactions that are expected to occur within 1 to 12 months for hedges of forecasted sales and purchases. When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions, the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency. All identified exposures are managed as per the policy duly approved by the Board of Directors.

The following table details the foreign currency derivative contracts outstanding at the end of the reporting period:

Outstanding contracts	No. of Deals		Contract value of foreign currency (USD in lacs)		Maturity upto 12 months (₹ in lacs)	
	As at 31 March 2021	As at 31 March 2020	As at 31 March 2021	As at 31 March 2020	As at 31 March 2021	As at 31 March 2020
USD/INR sell forward	6	-	31.72	-	2,338.55	-

The following table demonstrates the Company's sensitivity to 1% increase and decrease in the ₹ against the relevant foreign currency. The sensitivity analysis includes only outstanding forward exchange contracts as tabulated above and adjusts their translation at the period end for 1% change in foreign currency rates. A positive number below indicates an increase in profit before tax or vice-versa.

### Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which exposes the Company to cash flow interest rate risk.

### Exposure to interest rate risk

The Company's interest rate risk arises majorly from the term loans from banks carrying floating rate of interest. These obligations expose the Company to cash flow interest rate risk. The exposure of the Company's borrowing to interest rate changes as reported to the management at the end of the reporting period are as follows:

Variable-rate instruments	As at 31 March 2021	As at 31 March 2020
Term loans from banks	2,531.87	5,429.23
Loans repayable on demand from banks	14,016.83	12,496.98
<b>Total</b>	<b>16,548.70</b>	<b>17,926.21</b>

### Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points (bps) in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars	Profit or (loss) before tax		Credit or (debit) to equity (net of tax)

### Note No. 46 : Capital management

For the purpose of the Company's capital management, capital includes issued equity share capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the management of the Company's capital structure is to maintain an efficient mix of debt and equity in order to achieve a low cost of capital, while taking into account the desirability of retaining financial flexibility to pursue business opportunities and adequate access to liquidity to mitigate the effect of unforeseen events on cash flows. The Company monitors capital on the basis of the debt to capital ratio, which is calculated as interest-bearing debts adjusted with available cash and bank balances divided by total capital (equity attributable to owners of the Company).

Particulars	As at 31 March 2021	As at 31 March 2020

### Note No. 47 : Impact of Covid-19

The Company has considered the possible effects that may result from the Covid 19 pandemic on the carrying amounts of property, plant and equipment, inventories, receivables and other current assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the management, as at the date of approval of these financial statements, has used internal and external sources on the expected future performance of the Company. The management has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, expects that the carrying amount of these assets will be recovered and sufficient liquidity is available to fund the business operations for at least another 12 months. Given the uncertainties of the pandemic, the final impact on the Company's assets in future may differ from that estimated as at the date of approval of these financial results, and the Company will continue to closely monitor any material changes to future economic conditions.

### Note No. 48 : Scheme of Arrangement (Demerger of Textile Division)

The National Company Law Tribunal ("NCLT"), vide its order dated 1 May 2019, approved the Scheme of Arrangement ('the Scheme') between DCM Limited and DCM Nouvelle Limited, for the demerger of the Textile Division of DCM Limited, on a going concern basis with effect from 1 April 2019 (i.e. the appointed date). Consequently, the assets and liabilities aggregating ₹ 35,758 lacs and ₹ 20,833 lacs respectively, of the Textile Division of DCM Limited have been transferred with effect from the aforesaid appointed date to DCM Nouvelle Limited at their carrying values, determined in accordance with the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS) prescribed under Section 133 of the Companies Act, 2013 and other accounting principles generally accepted in India. The Company has also taken over securities premium of ₹ 5,518 lacs and free reserves of ₹ 7,544 lacs and issued equity shares of ₹ 1,868 lacs after cancelling the entire share capital held by the DCM Limited as on effective date (1 April 2019) in DCM Nouvelle Limited amounting to ₹ 5 lacs, pursuant to the aforesaid scheme.
