SHASHANK NAYAR Mumbai, August 13

NON-BANKING FINANCIAL COMPANIES (NBFCs), which account for 90% of corporate bond issuances, are seeing higher redemptions. In the three months to June, redemptions have surpassed corporate bond issuances as the sector continues to battle a liquidity crunch.

Consequently, the value of net issuances in the June quarterwasanegative ₹5,751 crore, latest data from the Securities and Exchange Board of India (Sebi) website showed. "During the June quarter, with rising political uncertainty regarding the elections and the looming credit crisis, investors were not willing to take credit calls," said Ajay Manglunia, head-institutional fixed income, JM Financial. In addition, redemption pressures faced by mutual

## SBI MF warns of consumption-driven consumer over-leverage

PRESS TRUST OF INDIA

CONSUMERS ARE SPENDING The value of net is much more than their income in the June quarte and also resorting to loans to fund their lifestyle since the past few years, resulting in a "serious slowdown" in consumption, a leading asset management company said Tuesday.

> Given the concerns like weak auto sales which slumped to a

19-year-low in July, SBI Mutual Fund refused to give an outlook on the markets for the nearterm, pointing to the "volatilities" on both the domestic and global fronts.

'Consumers were dis-saving and consuming more than their income, helped by increasing access to the leverage. Such growth has its own limits," the fund house's chief investment officer Navneet Muhnot told reporters. He said personal consumption spend has outgrown household income, leading to household savings plummeting to alow 21% in FY18 from 34% in FY10, while the share of consumption has gone up 290 bps to 59.1% of GDP in FY18 during this period. At the same time, annual household liabilities have been building up at 3-4% of GDP annually or 4-5% of the disposable income, he said.
