Add: Other Comprehensive Income	0.69	(0.65)
Add: Adjustment of excess tax provision	(22.77)	--
Earnings After Tax	102.60	94.15

❖ Highlights of Operations

□ Total Revenue:

During the year under review, the revenues of the Company decreased by 13.00%. The Company has reported turnover of Rs. 904.59 Crore for the financial year 2018 as compared to Rs. 1035.52 Crore financial year 2017. The major reason for reduction in the revenues has been due to unavoidable shut down of certain plant(s) for certain modifications for enduring product mix and repairs and maintenance required to manufacture certain other products.

□ Earning before Interest, Depreciation and Tax (EBIDTA):

During the year under review, Earning(s) before Interest, Depreciation and Tax has increased by 3% from Rs.129.57 Crore to Rs.133.41 Crore. The increase in EBIDTA is mainly on account of increase in gross margins which have increased by around 6% as compared to previous year.

□ Total Expense:

During the financial year 2018, the company has achieved a reduction in total expense of around 15%, a reduction of Rs.138.28 Crore from Rs.936.16 Crore to Rs.797.88 Crore as compared to previous financial year. Finance cost reduced by 80% from Rs.8.03 Crore to Rs.1.65 Crore, on account of reduction of debts of the Company.

□ Earnings After Tax:

During the financial year 2018, earning after tax (EAT) has increased by around 9%. Earning after Tax (EAT) is increased to Rs.102.60 Crore as compared to Rs. 94.15 Crore of the previous financial year ended March 31, 2017. Improvement in gross margins by around 6% and reduction in finance cost are the two major factors for increase in EAT of the Company.

- Legitimate expectation of Kiri under Share Subscription and Shareholders Agreement ("SSSA") with regard to DyStar be Board Managed Company, Senda alone can not control board of DyStar.
- Related Party Transactions with Longsheng related entities that only benefit to them at expenses of DyStar.
- Payment of Special Incentives of US\$ 2 million to Mr. Ruan Weixiang, Chairman of DyStar Board without approval of DyStar Board and without commercial justification.
- Exploitation of DyStar Patent.
- Payment of Fees to Longsheng for alleged service provided by Longsheng without approval of Board of DyStar.
- Denying Kiri for Dividend which is only benefit to Kiri for its investment in DyStar.
- Exclude Kiri's Directors from Management of DyStar by instructing DyStar Management not to provide information to Kiri.
- Payment of Special Incentive and Bonus to DyStar Management.
- DyStar's purchases from Kiri has stopped despite Kiri being a preferred supplier under the SSSA.

Director's Report (Contd...)

- Blocked proposed sale of Kiri's stake in DyStar to the State General Reserve Fund ("SGRF") by Senda.
- The refusal to carry out an IPO for DyStar.

Later on the said suit has been Transfer to Singapore International Commercial Court (SICC) as Suit No 4 of 2017.

DyStar has filed suit no. 3 of 2017 and Senda had raised following issue in their counter claim:

- The Company, Mr. Manish Kiri, Mr. Pravin Kiri have breached their contractual obligation under SSSA with regard to compete with DyStar, Solicit customers of DyStar, disclosure of Confidential Information of DyStar.
- Mr. Manish Kiri and Mr. Amit Mukherjee (Kiri's Nominated Directors on DyStar Board) have breached their fiduciary duties as Directors of DyStar and their harassing and disruptive conduct is harmful to the DyStar.
- Claim against Kiri for payment of Euro 1.7 Millions for Process Technology Development fees and SG\$ 443,813 for audit costs.

The Singapore International Commercial Court (SICC) has released its judgment on July 3, 2018 in the legal suit filed by the Company and also for the legal suit filed by DyStar for payment of certain outstanding amounts and breaches of agreed non-compete provisions.

The Singapore Court has found Senda committed numerous acts of minority oppression against the Company and has ordered a buy-out of KIL's 37.57% stake in DyStar. The Court has further ordered that the losses caused to DyStar by Senda's oppressive acts be written back into DyStar's value determining fair value of the Company's share.

A significant proportion of DyStar's claims in its legal suit for amounts outstanding and non-compete provisions and Senda's counterclaims in legal suit filed by the Company, were dismissed. The Court only awarded judgment for DyStar against the Company in respect of the sums of EUR 1.7 million and S\$443,813 (comprising monies due and owing in respect of Process Technology

Development fees and audit costs, respectively), and damages to be assessed for a breach of non-complete clause in the Share Subscription and Shareholders Agreement ("SSSA") executed by the Parties. The court has dismissed all the claims and counterclaims against Mr. Pravin Kiri, Mr. Manish Kiri, Mr. Amitava Mukherjee (the Company's nominated director on DyStar Board).

The Court has ordered parties to attend a case management conference for the fixing of timelines for further submissions on matters relating to the valuation of Company's stake in DyStar. The case management conference fixed on August 16, 2018 for the following matters:

- Whether the valuation of Kiri's shareholding should be undertaken by (A) the court, (B) a valuer appointed by the court or the parties, or (C) some other method and (if so) what method;
- Whether a discount should be factored into the valuation of Kiri's shareholding given that Kiri is a minority shareholder;
- How (if at all) the court's rulings allowing part of DyStar's claims in Suit 3 and Senda's counterclaims in Suit 4 may affect the valuation of Kiri's shareholding;
- Any other questions relevant to the valuation of Kiri's shareholding; and
- The appropriate order for costs.

Further, on August 1, 2018 and August 3, 2018, Senda and DyStar have respectively preferred an appeal before the Court of Appeals, Singapore.

❖ Acknowledgement:

The Board takes this opportunity to sincerely thank all its stakeholders namely, shareholders, customers, suppliers/ contractors, bankers, employees, Government agencies, local authorities for their un-stinted support and co-operation during the year.

FORM NO. MR-3
SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED ON 31ST MARCH, 2018

*[Pursuant to Section 204(1) of the Companies Act, 2013 and
Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]*

To,
The Members,
Kiri Industries Limited

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Kiri Industries Limited** [CIN: L24231GJ1998PLC034094] ('hereinafter called the Company') having Registered Office at 7th Floor, Hasubhai Chambers, Town Hall, Ellisbridge, Ahmedabad, Gujarat – 380 006. The Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on **31st March, 2018** complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009
 - (d) Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (Not Applicable during the audit period)
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not Applicable during the audit period); and
- (vi) Various common laws applicable to the manufacturing and other activities of the Company such as Labour Laws, Land Laws etc. and sector specific laws such as The Environment (Protection) Act, 1986, The Water (Prevention and Control of Pollution) Act, 1974, The Water (Prevention and Control of Pollution) Cess Act, 1977, The Air (Prevention and Control of Pollution) Act, 1981, The Public Liability Insurance Act, 1991 and Explosives Act, 1884 for which we have relied on Certificates/ Reports/ Declarations/Consents/Confirmations obtained by the Company from the experts of the relevant field such as Advocate, Labour Law Consultants, Engineers, Occupier

Director's Report (Contd...)

of the Factories, Registered Valuers, Chartered Engineers, Factory Manager, Chief Technology Officer of the Company, Local Authorities, Effluent Treatment Adviser etc. and have found that the Company is generally regular in complying with the provisions of various applicable Acts.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards (SS-1 & SS-2) issued by The Institute of Company Secretaries of India
- (ii) Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Listing Agreements entered into by the Company with the Stock Exchanges

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above subject to the following observations:

1. Ownership of an agricultural land intended for industrial purpose will be transferred in the name of the company upon receiving necessary approval for conversion into non agriculture land.
2. During the year under review, the Company has received a show cause notice from Securities and Exchange Board of India ("SEBI") dated August 04, 2017 regarding delayed disclosure to BSE and non-disclosure to NSE under Regulation 13(6) of SEBI (Prohibition of Insider Trading) Regulations, 1992 in respect of acquisition of 19,48,968 shares by Ms. Anupama M. Kiri, Promoter on 19th December, 2014. Based on our analysis of documents provided by the Company for audit, we observe that while the Company had made disclosure to both the exchanges, there was a delay of one (1) day in respect of making such a disclosure. The Company made a settlement application dated December 18, 2017 to SEBI and a subsequent offer dated May 30, 2018 proposing to pay Rs. 2,88,682 towards settlement terms and offered to undertake to comply with direction(s) which may be issued by SEBI. The matter is under consideration at the relevant forum at SEBI.
3. The Company has filed all due ECB-2 returns for the financial year under review in respect of FCCB with some delays for certain months. Revision of drawdown dates

for FCCB has been intimated directly in the relevant ECB-2 returns.

We further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. There is no change in the composition of the Board of Directors during the period under review.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period the Company has:

Duly passed Board Resolution for allotment of 24,00,000 Equity Shares to Promoter Group upon conversion of equal number of Equity Warrants allotted on preferential basis after compliance of necessary laws and guidelines.

Management Discussion and Analysis Report

Industry Structure and Development:

Development in Indian Chemical Industries

The Indian Chemical Industry is backbone of other industries such as agriculture, infrastructure, textiles, food processing plastic, paper etc. It is also play major role in growth of Indian GDP as well as export of India. The chemical sector has witnessed growth of 13-14% in the last 5 years. The Government of India has allowed 100% Foreign Direct Investment in Chemical Sector and recognizes Chemical industry as a key growth element of Indian economy.

China, one of the largest manufacturers of various chemicals is facing challenges on account of implementation of stringent environment norms in China in recent times. The structural changes in environment regulations in China have increase capital cost and operating cost for the companies in China. This has also resulted in decline in capacity utilization for chemical industries in China and reduction in supplies from China which in turn has improved competitiveness of Indian chemical companies in international chemical market. Further with a growing markets and purchasing power, the domestic industry is likely to growth at over 10-13% in the coming years. Increasing incomes and urbanization are driving the end consumption demand for paints, textiles, adhesives and construction, which has led to substantial growth opportunity for chemicals companies. The chemicals industry in India is the largest consumer of its own products, consuming 33% of its output. With promising growth trends in the chemicals industry, this internal consumption is also set to rise.

Contribution of Indian Chemicals Industries in Exports around 5.4% of India's total exports. India already has a strong presence in the export market of dyes, pharmaceuticals and agro chemicals. India exports dyes to Europe, USA and other Asian Countries showing upward trends.

Indian chemical industry is expected to register a growth of 8-9% in the next decade and is expected to double its share in global chemical industry to 5-6% by 2021. Indian Chemical industry has the potential to grow significantly provided some of the key growth imperatives are taken care of. Securing raw materials, Right Product Mix, Research and development activities, M&A opportunities are currently the key imperatives for chemical industry in India.

The domestic specialty chemical sector is expected to grow by about 10 per cent annually to almost double the market

size by FY25, driven by growth in end-user industries. The Indian chemicals sector is a market worth about USD 160 billion, with specialty chemicals representing about 20 per cent of the value. The specialty chemicals sector registered double-digit growth over FY13-FY17, supported by subdued oil prices and strong domestic and export demand. It is anticipate FY19 to be a strong year for the domestic specialty chemicals sector on anticipation of a continued increase in demand from end-user industries and tight global supply due to stringent environmental norms in China. Specialty chemical end-use industries such as textile, automotive, personal care, construction chemical, agrochemicals, as well as application-driven segments such as surfactants, paints, coatings and colorants, to experience high growth in the medium-term.

Company Overview and Sustainable Profitable Growth Strategy

Kiri is the largest manufacturer of Reactive Dyes, Dye Intermediates and Basic Chemicals with support of backward integration to manufacture from basic chemicals to dyes. The Company is also a total solution provider across the entire textile value chain.

The Company's facilities are also versatile enough to allow it the flexibility to produce Reactive Dyes, acid / metal complex dyes and wool reactive dyes. This in turn has enabled the Company to meet the time, quantity and quality requirement of its customers. By virtue of the large scale facilities and fully integrated operations from manufacturing of basic chemicals, manufacturing of dye intermediaries and dyes, the Company derives benefits of economies of scales and quality control. This along with the Company's wide product range makes it a preferred partner for sourcing of dyes.

Kiri's R&D activities broadly comprise various processes for developing new products and standardizing new analytical methods. It's R&D center focuses especially on products and technologies that improve products and processes for a better ecological profile and provide cost advantages for customers. Through the R&D center, the Company continuously interacts with consumers to obtain feedback on its existing as well as new products to complement its new product development activities.

Outlook and Opportunities

Indian chemical companies support a sizable and highly diversified industry that includes commodities, specialty

chemicals, polymers, agrochemicals and a range of other groups. Total chemical sales are expected to grow from US\$ 139 billion in 2014 to US\$214 billion by 2019. By 2025, the Indian chemical industry is projected to reach US\$403 billion.

Further domestic chemical industry has been supported by the Government by providing protection against cheap imports by levying anti-dumping import duties on raw material and finished chemical products. There are more opportunities to Indian chemical industries to grow through innovation and invention and optimizing better production technologies and using cost effective energy sources. Indian companies are well positioned to take advantage of the structural changes on environment front in China. The benefits accrue to Indian Chemical Industry, since China has to now import many of its requirements from overseas markets, especially from India where it was earlier a net exporter of many specialty chemical.

Independent Auditor's Report

To
The Members of
Kiri Industries Ltd.

Report on the Financial Statements

We have audited the accompanying Standalone Ind AS financial statements of **Kiri Industries Ltd.** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS Financial Statements").

Management's Responsibility for the Financial Statements

Management is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the state of affairs (financial position), Profit (financial performance including Other Comprehensive Income), cash flows and Changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit

report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2018;
- (b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Other Matter

The comparative financial information of the company for the year ended 31st March 2017 and the transition date opening

Independent Auditor's Report (Contd...)

balance sheet as 1st April 2016 included in these Standalone Ind AS financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting Standards), Rules, 2006 audited by another firm of auditors whose report for year ended 31st March 2017 and 31st March 2016 dated May 25, 2017 and May 30, 2016 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Report on Other Legal and Regulatory Requirements

Annexure-2 to The Independent Auditors' Report for the year ended March 31, 2018

(Referred to in Paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" section of our report of even date on the Standalone Ind AS financial statements of the company for the year ended March 31, 2018.)

Report on the Internal Financial Controls under Clause (I) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("The Act")

We have audited the internal financial controls over financial reporting of **Kiri Industries Ltd.** ("the Company") as of March 31, 2018 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform

the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally

Annexure to the Independent Auditor's Report (Contd..)

accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Statement on Significant Accounting Policies

BACKGROUND

Kiri Industries Limited (the Company) is a public company limited by shares domiciled in India, incorporated under the provisions of Companies Act, 1956. Its shares are listed on National Stock Exchange of India Limited and BSE Limited. Its registered office is situated at 7TH Floor, Hasubhai Chambers, Nr. Town Hall, Ellisbridge, Ahmedabad-380 006 Gujarat India. The Company is engaged in manufacturing and selling of Dyes, Dyes Intermediates and Basic Chemicals.

1. STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the Significant Accounting Policies adopted in the preparation of the Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.1 BASIS FOR PREPARATION OF ACCOUNTS

a) Statement of compliance with Ind AS

The Standalone Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The Financial statements for the year ended 31st March 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These Financial Statements for the year ended 31st March 2018 are the first financial statements of the Company under Ind AS. The date of transition to Ind AS is 1st April, 2016. Refer Note 44 for an explanation of how the transition from Indian GAAP (IGAAP) to Ind AS has affected the Company's financial position, financial performance and Cash Flows.

b) Current versus Non-Current classification

All assets and liabilities have been classified as Current or Non Current as per the Company's normal operation cycle i.e. twelve months and other criteria set out in the Schedule III of the Act.

c) Historical Cost Convention

The financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with Generally Accepted Accounting Principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following:

- Certain financial assets and liabilities measured at fair value;
- Defined benefit plans - plan assets measured at fair value

1.2 USE OF ESTIMATES

The presentation of the financial statements are in conformity with the Ind AS which requires the management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial statements. The actual outcome may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in

Statement on Significant Accounting Policies (Contd...)

relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

Note 20 - Current/deferred tax expense

Note 35 - Measurement of defined benefit obligations

Note 34 - Provisions and contingencies

1.3 REVENUE RECOGNITION

i) Sale of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, related discounts and volume rebates. It includes excise duty and subsidy and excludes Value Added Tax / Sales Tax and Goods and Service Tax.

ii) Export Benefits

- Incomes in respect of Duty Drawback in respect of exports made during the year are accounted on accrual basis.
- Merchandise Exports from India Scheme (MEIS) income is recognised on accrual basis when considering the related expenses to the same profit or losses on transfer of licenses are accounted in year of the sales.

iii) Dividend

Dividend income is recognised when the right to receive the same is established.

iv) Insurance Claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

1.4 FOREIGN CURRENCY TRANSACTIONS

Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR), which is company's functional and presentation currency.

Transactions and Balances

- (i) Transactions in foreign currencies are recorded in Indian Rupees using the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, recorded monetary balance are reported in Indian Rupees at the rates of exchange prevailing at the balance sheet date. All realised and unrealised exchange adjustment gains and losses are dealt with in the Statement of Profit and Loss.
- (ii) In order to hedge exposure to foreign exchange risks arising from Export or Import foreign currency, bank borrowings and trade receivables, the Company may enters into forward contracts. Any profit or loss arising on the cancellation or renewal of a forward exchange contract is recognised as income or expenses for the year.

Statement on Significant Accounting Policies (Contd...)

- (iii) Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/ (losses).
- (iv) Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

1.5 PROPERTY, PLANT AND EQUIPMENTS

TANGIBLE ASSETS

- (i) Freehold Land is carried at historical cost. All other items of Property, Plant and Equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.
- (ii) The cost of self-constructed assets includes cost of materials plus any other directly attributable costs of bringing the assets to working condition for its intended use.
- (iii) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.
- (iv) An item of Property, Plant or Equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.
- (v) Items of fixed assets that are retired from active use and are held for disposal are stated at the lower of their net book value and net realizable value and are presented separately in the Financial Statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.
- (vi) The gain or loss arising on the disposal or retirement of an asset is determined as the difference between sales proceeds and the carrying amount of the asset and is recognized in Statement of Profit and Loss for the relevant financial year.
- (vii) Capital Work in Progress includes expenditure directly related to construction and incidental thereto. The same is transferred or allocated to respective item Property, Plant, and Equipment on commissioning of the project.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as at 1 April 2016 measured as per the IGAAP and use that carrying value as the deemed cost of the property, plant and equipment. Hence regarded thereafter as historical cost.

1.6 INTANGIBLE ASSETS

Intangible Assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment Losses.

Internally-generated intangible assets - Research and Development expenditure

Assessment of whether an internally generated Intangible Asset meets the criteria for recognition, the expenditure on generation of the asset is classified into research phase and development phase. Expenses incurred during research phase are recognized immediately in the Statement of Profit and Loss. Expenditure

Statement on Significant Accounting Policies (Contd...)

during the development phase is recognized as an Intangible Asset under development on fulfilment of following conditions:-

- The technical feasibility of completing the Intangible Asset so that it will be available for use or sale;
- The intention to complete the Intangible Asset and use or sell it;
- The ability to use or sell the Intangible Asset;
- The Intangible Asset will generate probable future economic benefits;
- The availability of adequate technical, financial and other resources to complete the development and to use or sell the Intangible Asset; and
- The ability to measure reliably the expenditure attributable to the Intangible Asset during its development.

The amount initially recognised for internally-generated Intangible Assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in the Statement of Profit and Loss in the period in which it is incurred.

Derecognition of Intangible Assets

An Intangible Asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal.

Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Statement of Profit and Loss when the asset is de-recognised

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all its intangible assets recognised as at 1st April 2016 measured as per the IGAAP and use that carrying value as the deemed cost of the intangible assets

1.7 IMPAIRMENT OF INVESTMENT

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

1.8 IMPAIRMENT OF NON- FINANCIAL ASSETS

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

1.9 DEPRECIATION AND AMORTISATION

Depreciation is calculated to systematically allocate the cost of Property, Plant and Equipment and Intangible Asset net of the estimated residual values over the estimated useful life. Freehold land is not depreciated. Depreciation is computed using Straight Line Method (SLM) over the useful lives of the assets as specified in Schedule II to the Companies Act, 2013.

Statement on Significant Accounting Policies (Contd...)

The residual values are not more than 5% of the original cost of the item of Property, Plant and Equipment. The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Useful lives of the items of Property, Plant and Equipment are as follows:

Asset	Estimated Useful Life
Leasehold Land	99 years
Building	30 years
Plant & Machinery	15 years
Furniture and Fixtures	10 years
Vehicles	8 years
Computers	3 years

Intangible Assets are amortized over their individual estimated useful lives on a Straight Line basis, commencing from the year in which the same are available to the Company for its intended use. The useful life so determined is as follows:

Asset	Amortisation Period
Software Licenses	3 years

Depreciation on items of Property, Plant and Equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

Depreciation is not provided on Freehold Land. Leasehold land is amortized over the available balance lease period.

1.10 NON-DERIVATIVE FINANCIAL INSTRUMENTS

Financial Assets and Liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets and Financial Liabilities (other than financial assets and financial liabilities valued at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of Financial Asset or Financial Liability.

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and Cash Equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial Assets at Amortised cost

Financial Assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual Cash Flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Statement on Significant Accounting Policies (Contd...)

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in Other Comprehensive Income.

Financial Assets at Fair Value Through Profit or Loss (FVTPL)

Financial Assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial Liabilities

Financial Liabilities are measured at amortised cost using the effective interest method.

Equity Investment

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Loan and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Trade and Other Payables

These amounts represent liability for good and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

I. Investments in Subsidiaries

A Subsidiary is an entity that is controlled by the Company.

The Company accounts for the each category of investments in subsidiaries at cost in accordance with Ind AS 27- Separate Financial Statements.

II. Impairment

Financial Assets (other than at fair value)

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Statement on Significant Accounting Policies (Contd...)

1.11 INVENTORIES

Inventories are stated at the lower of cost and net realizable value.

Cost of Raw Material is determined on FIFO basis.

Stores and Consumables are valued at cost or net realizable value whichever is lower.

Finished goods are valued at cost or net realizable value whichever is lower. Cost comprises direct materials and where applicable, direct labour costs, those overheads that have been incurred in bringing the inventories to their present location and condition.

Net realizable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

Work in Progress is valued at cost or net realizable value whichever is less. Cost comprises direct materials and appropriate portion of direct labour costs, manufacturing overheads and depreciation.

1.12 RECOVERABILITY OF TRADE RECEIVABLE

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

1.13 LITIGATION

From time to time, the Company is subject to legal proceedings, the ultimate outcome of each being always subject to many uncertainties inherent in litigation. A provision for litigation is made when it is considered probable that a payment will be made and the amount of the loss can be reasonably estimated. Significant judgement is made when evaluating, among other factors, the probability of unfavourable outcome and the ability to make a reasonable estimate of the amount of potential loss. Litigation provisions are reviewed at each accounting period and revisions made for the changes in facts and circumstances.

1.14 BORROWING COSTS

Borrowing Costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets, wherever applicable, till the assets are ready for their intended use. Such capitalisation is done only when it is probable that the asset will result in future economic benefits and the costs can be measured reliably. Capitalisation of borrowing costs commences when all the following conditions are satisfied:

- i. Expenditure for the acquisition, construction or production of a qualifying asset is being incurred;
- ii. Borrowing costs are being incurred; and
- iii. Activities that are necessary to prepare the asset for its intended use are in progress.

A qualifying asset is one which necessarily takes substantial period to get ready for intended use. All other borrowing costs are charged to revenue account. Capitalisation of borrowing cost is suspended when active development is interrupted

1.15 EMPLOYEE BENEFITS

i. Short term employee benefit obligations

Liabilities for wages, salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are to be settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Statement on Significant Accounting Policies (Contd...)

ii. Other long term employee benefit obligations

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market yield at the end of reporting period that have terms approximating to the terms of related obligation. Remeasurement as a result of experience adjustments and changes in actuarial assumptions are recognised in the other comprehensive income.

The obligations are presented as current liabilities in the balance sheet if the Company does not have unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

iii. Post-employment obligations

The Company operates the following post-employment schemes:

- A. Defined benefit plans such as Gratuity; and
- B. Defined contribution plan such as Provident Fund

Gratuity Obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligations is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in present value of the defined benefit obligation resulting from plan amendment or curtailments are recognised immediately in profit or loss as past service cost.

Defined Contribution Plans

The Company pays provident fund contributions to publicly administered funds as per the local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payment is available.

1.16 CENVAT / GST

CENVAT/GST Credit of Raw Materials and Other Consumables is accounted at the time of purchase and the same is being adjusted to the cost of Raw Materials and Other Consumables.

Statement on Significant Accounting Policies (Contd...)

1.17 ACCOUNTING FOR TAXES ON INCOME

Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in Deferred Tax Assets and Liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on the rates and tax laws enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred Taxes

Deferred tax is provided in full on temporary difference arising between the tax bases of the assets and liabilities and their carrying amounts in standalone financial statements. Deferred tax amounts of income taxes recoverable in future periods in respect of deductible temporary differences, the carry forward of unused tax losses and the carry forward of unused tax credits.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred Tax Assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred Tax Assets and Liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and Deferred Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the Deferred Tax Asset to be utilised. Unrecognised Deferred Tax Assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

1.18 PROVISIONS AND CONTINGENT LIABILITIES

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. Provisions are not recognised for future operating losses.

Statement on Significant Accounting Policies (Contd...)

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

As a policy, the company is regularly accessing the liability arising due to delay in fulfillment of the obligation against advance licenses taken for duty free import of the goods / various investment related schemes and required provisions are carried out in the books.

Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

Contingent liabilities are not provided for and if material, are disclosed by way of notes to accounts. Contingent assets are not recognized in financial statements. However, the same is disclosed, where an inflow of economic benefit is probable.

1.19 LEASES

Leases are classified as finance leases whenever the terms of lease transfer substantially all the risks and rewards of ownership to the Lessee. Leases where a significant portion of the risks and rewards of ownership are retained by the Lessor are classified as operating leases.

(i) Operating Lease:

Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where another systematic basis is more representative of the time pattern in which economic benefits from leased assets are consumed. The aggregate benefit of incentives (excluding inflationary increases where rentals are structured solely to increase in line with the expected general inflation to compensate for the Lessor's inflationary cost increases, such increases are recognised in the year in which the benefits accrue) provided by the Lessor is recognized as a reduction of rental expense over the lease term on a straight-line basis.

(ii) Finance Lease:

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the Lessor is included in the Balance Sheet as a finance lease obligation.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in Statement of Profit or Loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

1.20 EARNING PER SHARE

Basic Earnings Per Share

Basic Earnings Per Share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining

Statement on Significant Accounting Policies (Contd...)

the company's earnings per share is the net profit for the period after deducting preference dividends, if any, and any attributable distribution tax thereto for the period.

Diluted Earnings Per Share

Diluted Earnings Per Share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares

1.21 CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise cash and deposits with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.22 STATEMENT OF CASH FLOWS

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing Cash Flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and noncash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

1.23 EVENTS OCCURRING AFTER THE REPORTING DATE

Adjusting events occurring after the balance sheet date are recognized in the financial statements. Material non adjusting events occurring after the balance sheet date that represents material change and commitment affecting the financial position are disclosed in the Director's Report.

1.24 Exceptional Items

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

40. CAPITAL MANAGEMENT

The Company's policy is to maintain a strong capital base and to sustain future development of the business. Management monitors the return on capital.

Notes to the Financial Statements (Contd...)

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity.

J. Measurement of Fair Value:

Investment in Subsidiary/Joint Venture /Associates carried at amortised cost. Further Fair Value of the Financial Assets and Liabilities are not disclosed separately as they are measured at Amortised Cost and it is materially same.

Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.

K. Fair Value Hierarchy:

The fair value of financial instruments as referred to above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

42. FINANCIAL RISK MANAGEMENT

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activities expose it to a variety of its financial risk including

- **Credit Risk**
- **Liquidity Risk and**
- **Market Risk**

Risk Management Framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company manages this risk through treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies which are approved by Board of directors and which ultimately provides principles on foreign exchange risk, interest rate risk, credit risk, use of financial derivatives etc. Compliance with policies and exposure limits is reviewed by risk management committee and internal auditors. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purpose.

The Company's audit committee also oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

A. Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade and other receivables. The carrying amounts of financial assets represent the maximum credit risk exposure.

Trade Receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references. Sale limits are established for each customer and reviewed periodically.

The Company measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, as per management perceptions, loss on collection of receivable is not material hence no additional provision considered

More than 180 days	4,203.16	3,136.90	3,168.67

Management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behavior and extensive analysis of customer Credit Risk, including underlying customers' Credit Ratings if they are available.

B. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Maturity of financial liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payments and exclude the impact of netting agreements.

C. Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates and foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short-term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk and interest rate risk.

i. Foreign currency risk

The Company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EURO and SGD. The Company has in place the Risk management policy to manage the foreign exchange exposure.

The Foreign currency exchange rate exposure is partly balanced through natural hedge. This provide an economic hedge without derivatives being entered into and therefore hedge accounting not applied in these circumstances.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

The company can enter into foreign currency forward contracts and other authorized derivative contracts, which are not intended for trading or speculative purposes but for hedge purposes to establish the amount of reporting currency required or available at the settlement date of certain payables/receivables and borrowings.

C Sensitivity

A reasonably possible strengthening (weakening) of the Indian Rupee against various currency mentioned in the table below as at March 31 would have affected the measurement of financial instruments denominated in foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

43. TAX EXPENSES

Based on legal opinion obtained by the company, the company does not expect any regular/MAT tax liability for both the years.

44. TRANSITION TO IND AS

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31st March 2018, the comparative information presented in these financial statements for the year ended 31st March, 2017 and in the preparation of an opening Ind AS Balance Sheet at 1st April, 2016 (the Company's date of transition).

In preparing its opening Ind AS Balance Sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and Cash Flows is set out in the following tables and notes

Exemption applied

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

Optional – Exemption

(i) Deemed cost- Fair value of Property, Plant and Equipment (PPE)

The Company has elected to measure all the items of PPE, intangible assets and investment property at its Indian GAAP carrying values which shall be the deemed cost as at the date of transition. As per Frequently Asked Questions (FAQs) issued by Accounting Standards Board (ASB) by Ind AS Transition Facilitation Group of Ind AS (IFRS) Implementation Committee of ICAI, deemed cost, is the amount used as a surrogate for the cost or depreciated cost and for the purpose of subsequent depreciation or amortisation, deemed cost becomes the cost as the starting point. Information regarding gross block of assets, accumulated depreciation and provision for impairment under Indian GAAP has been disclosed by way of a note forming part of the financial statements

(ii) Investments in Subsidiaries, Joint Ventures and Associates

Under, Ind AS 101 an entity can determine the value of investment in a Subsidiary, Associate or Joint ventures as either of the below:-

Cost determined in accordance with Ind AS 27 (i.e. retrospective application of Ind AS 27)- Fair value at the entity's date of transition to Ind AS- Previous GAAP carrying amount Accordingly, if an entity chooses to measure its investment at fair value at the date of transition then that is deemed to be cost of such investment for the Company and, therefore, it shall carry its investment at that amount (i.e. fair value at the date of transition) after the date of transition. The Company has elected to carry forward the previous GAAP amounts as the deemed cost for investment in equity shares of Subsidiary, Associates and Joint Ventures in the Standalone Financial Statements."

Mandatory – Exemption

1. Estimates

On an assessment of the estimates made under Indian GAAP the Company has concluded that there was no necessity to revise the estimates under Ind AS except where estimates were required by Ind AS and not required by Indian GAAP or the basis of measurement were different.

2. Classification and Measurement of Financial Assets

Ind AS 101 requires an entity to assess classification and measurement of Financial Assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Independent Auditor's Report

To
The Members of
Kiri Industries Ltd.

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Kiri Industries Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates comprising of the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS Financial Statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS Financial Statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated Ind AS Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Consolidated Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the Consolidated Ind AS Financial Statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their report referred to in Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate Ind AS financial statements and on other financial information of the subsidiaries, the aforesaid Consolidated Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India

Annexure to the Independent Auditor's Report

Annexure-1 to The Independent Auditors' Report of even date on consolidated Ind AS financial statements for the year ended 31st March 2018

Report on The Internal Financial Controls Under Clause (I) Of Sub-Section 3 Of Section 143 Of The Companies Act, 2013 ("The Act")

We have audited the internal financial controls over financial reporting of **Kiri Industries Ltd.** ("the Company") (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates comprising of the Consolidated Balance Sheet as at March 31, 2018 in conjunction with our audit of the Consolidated Ind AS financial statements of the Company as of and for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether

adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

Annexure to the Independent Auditor's Report (Contd..)

- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Statement on Significant Accounting Policies

BACKGROUND

Kiri Industries Limited (the Company) is a public company limited by shares domiciled in India, incorporated under the provisions of Companies Act, 1956. Its shares are listed on National Stock Exchange of India Limited and BSE Limited. Its registered office is situated at 7TH Floor, Hasubhai Chambers, Nr. Town Hall, Ellisbridge, Ahmedabad-380 006 Gujarat India. The Company is engaged in manufacturing and selling of Dyes, Dyes Intermediates and Basic Chemicals.

Kiri Industries Limited along with its Subsidiaries is collectively referred to as 'the Group'.

1. STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the Significant Accounting Policies adopted in the preparation of the Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.1 BASIS FOR PREPARATION OF ACCOUNTS

a) Statement of compliance with Ind AS

The Consolidated Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The Financial Statements up to year ended 31st March, 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These Financial Statements for the year ended 31st March, 2018 are the first financial statements of the Group under Ind AS. The date of transition to Ind AS is 1st April, 2016. Refer Note 43 for an explanation of how the transition from Indian GAAP (IGAAP) to Ind AS has affected the Group's financial position, financial performance and cash flows.

b) Current versus Non-Current classification

All assets and liabilities have been classified as Current or Non Current as per the Group's normal operation cycle i.e. twelve months and other criteria set out in the Schedule III of the Act.

c) Historical Cost Convention

The financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with Generally Accepted Accounting Principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following:

- Certain financial assets and liabilities measured at fair value;
- Defined benefit plans - plan assets measured at fair value

d) Basis of Consolidation

The consolidated financial statements comprise the financial statements of Kiri Industries Limited, (hereinafter referred to as "the Parent company" or "The Company"), its subsidiary and a joint venture (together referred to as 'The Group').

Subsidiaries

Subsidiaries are all entities that are controlled by the Company. Control exist when the Company is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affects those returns through power over the entity. In accessing control, potential voting rights are considered only if the rights are

Statement on Significant Accounting Policies (Contd...)

substantive. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, income and expenses. For the purpose of preparing these consolidated financial statements, the accounting policies of the subsidiaries have been changed where necessary to align them with the policies adopted by the Company.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the Consolidated Statement of Profit and Loss, Consolidated Statement of Changes in Equity and Consolidated Balance sheet respectively.

Joint Venture

The Group recognizes its interest in the joint venture using the proportionate consolidation method as the Group is having interest in the Joint operations. The Group combines its proportionate share of each of the assets, liabilities, income and expenses of the joint venture with similar items, line by line, in its consolidated financial statements

Associate Company

Associates are those entities over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the entities but is not control or joint control of those policies. Significant influence is generally presumed to exist when the Company holds between 20% and 50% of the voting power of another entity. Investments in associate entities are accounted for using the equity method and are initially recognized at cost. Investments in such entities are accounted by the equity method of accounting. When the Company's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to zero and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

For the purpose of estimating share of interest in 1 (One) associate whose financial year ends on 31st December of every year, Latest audit report of that associate is adjusted by incorporating provisional financial results of First quarter w.r.t. next year and eliminating First Quarter of the latest audit report, thereby arriving at the financial results for year ending on 31st March.

Note:

The Financial Statement of Synthesis International Limited, Hong Kong is not consolidated as the subsidiary has discontinued its operations and is in the process of being wound up.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in full while preparing these consolidated financial statements. Unrealized gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Company's interest in the investee.

1.2 USE OF ESTIMATES

The presentation of the financial statements are in conformity with the Ind AS which requires the management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial statements. The actual outcome may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

Note 19 - Current/deferred tax expense

Note 35 - Measurement of defined benefit obligations

Note 34 - Provisions and contingencies

1.3 REVENUE RECOGNITION

i) **Sale of Goods**

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, related discounts and volume rebates. It includes excise duty and excludes Value Added Tax / Sales Tax and Goods and Service Tax.

Statement on Significant Accounting Policies (Contd...)

ii) **Export Benefits**

- Incomes in respect of Duty Drawback in respect of exports made during the year are accounted on accrual basis.
- Merchandise Exports from India Scheme (MEIS) income is recognised on accrual basis when considering the related expenses to the same profit or losses on transfer of licenses are accounted in year of the sales.

iii) **Dividend**

Dividend income is recognised when the right to receive the same is established.

iv) **Insurance Claims**

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

1.4 FOREIGN CURRENCY TRANSACTIONS

Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR), which is company's functional and presentation currency.

Transactions and Balances

- (i) Transactions in foreign currencies are recorded in Indian Rupees using the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, recorded monetary balance are reported in Indian Rupees at the rates of exchange prevailing at the balance sheet date. All realised and unrealised exchange adjustment gains and losses are dealt with in the Statement of Profit and Loss.
- (ii) In order to hedge exposure to foreign exchange risks arising from Export or Import foreign currency, bank borrowings and trade receivables, the Group may enters into forward contracts. Any profit or loss arising on the cancellation or renewal of a forward exchange contract is recognised as income or expenses for the year.
- (iii) Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/ (losses).
- (iv) Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

1.5 PROPERTY, PLANT AND EQUIPMENTS

TANGIBLE ASSETS

- (i) Freehold Land is carried at historical cost. All other items of Property, Plant and Equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.
- (ii) The cost of self-constructed assets includes cost of materials plus any other directly attributable costs of bringing the assets to working condition for its intended use.
- (iii) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.
- (iv) An item of Property, Plant or Equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

Statement on Significant Accounting Policies (Contd...)

- (v) Items of fixed assets that are retired from active use and are held for disposal are stated at the lower of their net book value and net realizable value and are presented separately in the Financial Statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.
- (vi) The gain or loss arising on the disposal or retirement of an asset is determined as the difference between sales proceeds and the carrying amount of the asset and is recognized in Statement of Profit and Loss for the relevant financial year.
- (vii) Capital Work in Progress includes expenditure directly related to construction and incidental thereto. The same is transferred or allocated to respective item Property, Plant, and Equipment on commissioning of the project.

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as at 1 April 2016 measured as per the IGAAP and use that carrying value as the deemed cost of the property, plant and equipment. Hence regarded thereafter as historical cost.

1.6 INTANGIBLE ASSETS

Intangible Assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment Losses.

Internally-generated intangible assets - Research and Development expenditure

Assessment of whether an internally generated Intangible Asset meets the criteria for recognition, the expenditure on generation of the asset is classified into research phase and development phase. Expenses incurred during research phase are recognized immediately in the Statement of Profit and Loss. Expenditure during the development phase is recognized as an Intangible Asset under development on fulfilment of following conditions:-

- The technical feasibility of completing the Intangible Asset so that it will be available for use or sale;
- The intention to complete the Intangible Asset and use or sell it;
- The ability to use or sell the Intangible Asset;
- The Intangible Asset will generate probable future economic benefits;
- The availability of adequate technical, financial and other resources to complete the development and to use or sell the Intangible Asset; and
- The ability to measure reliably the expenditure attributable to the Intangible Asset during its development.

The amount initially recognised for internally-generated Intangible Assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in the Statement of Profit and Loss in the period in which it is incurred.

Derecognition of Intangible Assets

An Intangible Asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal.

Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Statement of Profit and Loss when the asset is de-recognised

Statement on Significant Accounting Policies (Contd...)

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all its intangible assets recognised as at 1st April 2016 measured as per the IGAAP and use that carrying value as the deemed cost of the intangible assets

1.7 IMPAIRMENT OF INVESTMENT

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

1.8 IMPAIRMENT OF NON- FINANCIAL ASSETS

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

1.9 DEPRECIATION AND AMORTISATION

Depreciation is calculated to systematically allocate the cost of Property, Plant and Equipment and Intangible Asset net of the estimated residual values over the estimated useful life. Freehold land is not depreciated. Depreciation is computed using Straight Line Method (SLM) over the useful lives of the assets as specified in Schedule II to the Companies Act, 2013.

The residual values are not more than 5% of the original cost of the item of Property, Plant and Equipment. The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Useful lives of the items of Property, Plant and Equipment are as follows:

Asset	Estimated Useful Life
Leasehold Land	99 years
Building	30 years
Plant & Machinery	15 years
Furniture and Fixtures	10 years
Vehicles	8 years
Computers	3 years

Intangible Assets are amortized over their individual estimated useful lives on a Straight Line basis, commencing from the year in which the same are available to the Group for its intended use. The useful life so determined is as follows:

Asset	Amortisation Period
Software Licenses	3 years

Depreciation on items of Property, Plant and Equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

Depreciation is not provided on Freehold Land. Leasehold land is amortized over the available balance lease period.

Statement on Significant Accounting Policies (Contd...)

1.10 NON-DERIVATIVE FINANCIAL INSTRUMENTS

Financial Assets and Liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets and Financial Liabilities (other than financial assets and financial liabilities valued at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of Financial Asset or Financial Liability.

Cash and Cash Equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and Cash Equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial Assets at Amortised cost

Financial Assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual Cash Flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

The Group has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in Other Comprehensive Income.

Financial Assets at Fair Value Through Profit or Loss (FVTPL)

Financial Assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial Liabilities

Financial Liabilities are measured at amortised cost using the effective interest method.

Equity Investment

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Loan and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Trade and Other Payables

These amounts represent liability for good and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting

Statement on Significant Accounting Policies (Contd...)

period. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

I. Investments in Subsidiaries

A Subsidiary is an entity that is controlled by the Company.

The Group accounts for the each category of investments in subsidiaries at cost in accordance with Ind AS 27- Separate Financial Statements.

II. Impairment

Financial Assets (other than at fair value)

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

1.11 INVENTORIES

Inventories are stated at the lower of cost and net realizable value.

Cost of Raw Material is determined on FIFO basis.

Stores and Consumables are valued at cost or net realizable value whichever is lower.

Finished goods are valued at cost or net realizable value whichever is lower. Cost comprises direct materials and where applicable, direct labour costs, those overheads that have been incurred in bringing the inventories to their present location and condition.

Net realizable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

Work in Progress is valued at cost or net realizable value whichever is less. Cost comprises direct materials and appropriate portion of direct labour costs, manufacturing overheads and depreciation.

1.12 RECOVERABILITY OF TRADE RECEIVABLE

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

1.13 LITIGATION

From time to time, the Company is subject to legal proceedings, the ultimate outcome of each being always subject to many uncertainties inherent in litigation. A provision for litigation is made when it is considered probable that a payment will be made and the amount of the loss can be reasonably estimated. Significant judgement is made when evaluating, among other factors, the probability of unfavourable outcome and the ability to make a reasonable estimate of the amount of potential loss. Litigation provisions are reviewed at each accounting period and revisions made for the changes in facts and circumstances.

Statement on Significant Accounting Policies (Contd...)

1.14 BORROWING COSTS

Borrowing Costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets, wherever applicable, till the assets are ready for their intended use. Such capitalisation is done only when it is probable that the asset will result in future economic benefits and the costs can be measured reliably. Capitalisation of borrowing costs commences when all the following conditions are satisfied:

- i. Expenditure for the acquisition, construction or production of a qualifying asset is being incurred;
- ii. Borrowing costs are being incurred; and
- iii. Activities that are necessary to prepare the asset for its intended use are in progress.

A qualifying asset is one which necessarily takes substantial period to get ready for intended use. All other borrowing costs are charged to revenue account. Capitalisation of borrowing cost is suspended when active development is interrupted

1.15 EMPLOYEE BENEFITS

i. Short term employee benefit obligations

Liabilities for wages, salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are to be settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. Other long term employee benefit obligations

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market yield at the end of reporting period that have terms approximating to the terms of related obligation. Remeasurement as a result of experience adjustments and changes in actuarial assumptions are recognised in the other comprehensive income.

The obligations are presented as current liabilities in the balance sheet if the Group does not have unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

iii. Post-employment obligations

The Group operates the following post-employment schemes:

- A. Defined benefit plans such as Gratuity; and
- B. Defined contribution plan such as Provident Fund

Gratuity Obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligations is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit and loss.

Statement on Significant Accounting Policies (Contd...)

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in present value of the defined benefit obligation resulting from plan amendment or curtailments are recognised immediately in profit or loss as past service cost.

Defined Contribution Plans

The Group pays provident fund contributions to publicly administered funds as per the local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payment is available.

1.16 CENVAT / GST

CENVAT / GST Credit of Raw Materials and Other Consumables is accounted at the time of purchase and the same is being adjusted to the cost of Raw Materials and Other Consumables.

1.17 ACCOUNTING FOR TAXES ON INCOME

Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in Deferred Tax Assets and Liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on the rates and tax laws enacted or substantively enacted, at the reporting date in the country where the Group operates and generates taxable income. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred Taxes

Deferred tax is provided in full on temporary difference arising between the tax bases of the assets and liabilities and their carrying amounts in standalone financial statements. Deferred tax amounts of income taxes recoverable in future periods in respect of deductible temporary differences, the carry forward of unused tax losses and the carry forward of unused tax credits.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred Tax Assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred Tax Assets and Liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Statement on Significant Accounting Policies (Contd...)

Current and Deferred Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the Deferred Tax Asset to be utilised. Unrecognised Deferred Tax Assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

1.18 PROVISIONS AND CONTINGENT LIABILITIES

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

As a policy, the company is regularly accessing the liability arising due to delay in fulfillment of the obligation against advance licenses taken for duty free import of the goods / various investment related schemes and required provisions are carried out in the books.

Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

Contingent liabilities are not provided for and if material, are disclosed by way of notes to accounts. Contingent assets are not recognized in financial statements. However, the same is disclosed, where an inflow of economic benefit is probable.

1.19 LEASES

Leases are classified as finance leases whenever the terms of lease transfer substantially all the risks and rewards of ownership to the Lessee. Leases where a significant portion of the risks and rewards of ownership are retained by the Lessor are classified as operating leases.

(i) Operating Lease:

Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where another systematic basis is more representative of the time pattern in which economic benefits from leased assets are consumed. The aggregate benefit of incentives (excluding inflationary increases where rentals are structured solely to increase in line with the expected general inflation to compensate for the Lessor's inflationary cost increases, such increases are recognised in the year in which the benefits accrue) provided by the Lessor is recognized as a reduction of rental expense over the lease term on a straight-line basis.

Statement on Significant Accounting Policies (Contd...)

(ii) Finance Lease:

Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the Lessor is included in the Balance Sheet as a finance lease obligation.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in Statement of Profit or Loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

1.20 EARNING PER SHARE

Basic Earnings Per Share

Basic Earnings Per Share is calculated by dividing the profit attributable to owners of the Group by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Group's earnings per share is the net profit for the period after deducting preference dividends, if any, and any attributable distribution tax thereto for the period.

Diluted Earnings Per Share

Diluted Earnings Per Share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares

1.21 CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise cash and deposits with banks. The Group considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.22 STATEMENT OF CASH FLOWS

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing Cash Flows. The cash flows from operating, investing and financing activities of the Group are segregated.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and noncash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

Statement on Significant Accounting Policies (Contd...)

1.23 EVENTS OCCURRING AFTER THE REPORTING DATE

Adjusting events occurring after the balance sheet date are recognized in the financial statements. Material non adjusting events occurring after the balance sheet date that represents material change and commitment affecting the financial position are disclosed in the Director's Report.

1.24 Exceptional Items

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Group is such that disclosure improves the understanding of the performance of the Group, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

40. CAPITAL MANAGEMENT

The Group's policy is to maintain a strong capital base and to sustain future development of the business. Management monitors the return on capital.

The Group monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity.

J. Measurement of Fair Value:

Investment in Subsidiary/Joint Venture /Associates carried at amortised cost. Further Fair Value of the Financial Assets and Liabilities are not disclosed separately as they are measured at Amortised Cost and it is materially same.

Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.

K. Fair Value Hierarchy:

The fair value of financial instruments as referred to above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

Notes to the Consolidated Financial Statements (Contd...)

42. FINANCIAL RISK MANAGEMENT

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group's activities expose it to a variety of its financial risk including

- **Credit Risk**
- **Liquidity Risk and**
- **Market Risk**

Risk Management Framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's activities expose it to market risk, liquidity risk and credit risk. The Group manages this risk through treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies which are approved by Board of directors and which ultimately provides principles on foreign exchange risk, interest rate risk, credit risk, use of financial derivatives etc. Compliance with policies and exposure limits is reviewed by risk management committee and internal auditors. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purpose.

The Group's audit committee also oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

A. Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's trade and other receivables. The carrying amounts of financial assets represent the maximum credit risk exposure.

Trade Receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Group has established a credit policy under which each new customer is analysed individually for creditworthiness before the standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references. Sale limits are established for each customer and reviewed periodically.

The Group measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, as per management perceptions, loss on collection of receivable is not material hence no additional provision considered

More than 180 days	4,041.22	3,219.77	3,392.18

Management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behavior and extensive analysis of customer Credit Risk, including underlying customers' Credit Ratings if they are available.

B. Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Maturity of financial liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payments and exclude the impact of netting agreements.

C. Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates and foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short-term and long-term debt. The Group is exposed to market risk primarily related to foreign exchange rate risk and interest rate risk.

i. Foreign currency risk

The Group operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EURO and SGD. The Group has in place the Risk management policy to manage the foreign exchange exposure.

The Foreign currency exchange rate exposure is partly balanced through natural hedge. This provide an economic hedge without derivatives being entered into and therefore hedge accounting not applied in these circumstances.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

The Group can enter into foreign currency forward contracts and other authorized derivative contracts, which are not intended for trading or speculative purposes but for hedge purposes to establish the amount of reporting currency required or available at the settlement date of certain payables/receivables and borrowings.

Notes to the Consolidated Financial Statements (Contd...)

Foreign currency risk exposure:

The currency profile of Financial Assets and Financial Liabilities with exposure to foreign currency risk at the end of the reporting period expressed in rupees, are as follows.

C Sensitivity

A reasonably possible strengthening (weakening) of the Indian Rupee against various currency mentioned in the table below as at March 31 would have affected the measurement of financial instruments denominated in foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

43. TRANSITION TO Ind AS

These are the Group's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31st March 2018, the comparative information presented in these financial statements for the year ended 31st March, 2017 and in the preparation of an opening Ind AS Balance Sheet at 1st April, 2016 (the Group's date of transition).

In preparing its opening Ind AS Balance Sheet, the Group has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Group's financial position, financial performance and Cash Flows is set out in the following tables and notes

Exemption applied

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Group has applied the following exemptions:

Optional – Exemption

(i) Deemed cost- Fair value of Property, Plant and Equipment (PPE)

The Group has elected to measure all the items of PPE, intangible assets and investment property at its Indian GAAP carrying values which shall be the deemed cost as at the date of transition. As per Frequently Asked Questions (FAQs) issued by Accounting Standards Board (ASB) by Ind AS Transition Facilitation Group of Ind AS (IFRS) Implementation Committee of ICAI, deemed cost, is the amount used as a surrogate for the cost or depreciated cost and for the purpose of subsequent depreciation or amortisation, deemed cost becomes the cost as the starting point. Information regarding gross block of assets, accumulated depreciation and provision for impairment under Indian GAAP has been disclosed by way of a note forming part of the financial statements

(ii) Investments in Subsidiaries, Joint Ventures and Associates

Under, Ind AS 101 an entity can determine the value of investment in a Subsidiary, Associate or Joint ventures as either of the below:-

Cost determined in accordance with Ind AS 27 (i.e. retrospective application of Ind AS 27)- Fair value at the entity's date of transition to Ind AS- Previous GAAP carrying amount Accordingly, if an entity chooses to measure its investment at fair value at the date of transition then that is deemed to be cost of such investment for the Group and, therefore, it shall carry its investment at that amount (i.e. fair value at the date of transition) after the date of transition. The Group has elected to carry forward the previous GAAP amounts as the deemed cost for investment in equity shares of Subsidiary, Associates and Joint Ventures in the Standalone Financial Statements."

Mandatory – Exemption

1. Estimates

On an assessment of the estimates made under Indian GAAP, the Group has concluded that there was no necessity to revise the estimates under Ind AS except where estimates were required by Ind AS and not required by Indian GAAP or the basis of measurement were different.

2. Classification and Measurement of Financial Assets

Ind AS 101 requires an entity to assess classification and measurement of Financial Assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.
