**4. RATIONALE OF THE SCHEME**

The rationale and benefits of the Scheme are briefed in Part C of the Scheme as follows,

(i) SCL has built up substantial surplus reserves, over the years from its retained profits. The surplus reserves are well above SCL's current and likely future business needs. Further, barring unforeseen circumstances, SCL is confident of generating incremental cash over the next few years. Overall reserves position is expected to improve further even after considering cash requirements for SCL's capex programme and working capital requirements.

(ii) Further, upon taking into consideration SCL's capability to generate strong cash flow and the surplus reserves being more than what is needed to fund SCL's future growth, SCL is of the view that these excess funds can be optimally utilized to reward its shareholders in such difficult and unprecedented times by way of distribution.

(iii) At the same time, in keeping with SCL's tradition of conventional cash management and being mindful of the

challenging business environment, SCL is of the view that it would be prudent to retain liquidity as well. Accordingly, SCL has proposed, inter alia, to distribute such funds amongst its shareholders by issuing fully paid-up non-convertible redeemable preference shares by way of bonus in terms of this Scheme.

(iv) Non-convertible redeemable preference shares, while giving near-cash (traded, encashable) instrument in the hands of shareholders, give increased flexibility to SCL in managing its liquidity through options like buyback, redemptions, etc.

(v) In view of the aforesaid factors, SCL has concluded that it can optimally utilize its surplus reserves by distributing a considerable portion of the same to the equity shareholders. In order to maintain a high level of corporate governance and transparency, SCL proposes the issuance of preference shares by way of bonus under Section 230 of the Act which will be subject to necessary statutory, regulatory and corporate approvals.

(vi) As part of the restructuring exercise, it is proposed to consolidate all the resources of the Transferor Companies with the Transferee Company. The said amalgamation will result in the following benefits:

- (a) Streamline the promoter holding structure;
- (b) Optimal utilisation of resources and better corporate governance; and
- (c) Reduction of administrative responsibilities, multiplicity of records and legal and regulatory compliances.

- (vii) Given its diversified business, it has become imperative for the Demerged Company to reorient and reorganize itself in a manner that allows imparting greater focus on each of its businesses. With this repositioning, the Demerged Company is desirous of enhancing its operational efficiency.
- (viii) The Scheme proposes to reorganise, segregate and demerge the Demerged Undertaking comprising of manufacturing non-ferrous gravity and pressure die castings from Demerged Company into the Resulting Company and the Demerged Company will be left with group management services' business, trading business and manufacturing of two & three wheeler vehicles through TVS Motor Company Limited.
- (ix) The proposed demerger pursuant to this Scheme is expected, inter alia, to result in the following benefits:
- a) segregation and unbundling of the businesses of the Demerged Company into the Resulting Company, which will enable enhanced focus on the Demerged Company and Resulting Company for exploiting opportunities of each of the said companies;
  - b) unlocking value for the shareholders of the Demerged Company, attracting investors and providing better flexibility in accessing capital, focused strategy and specialization for sustained growth;
  - c) logistics alignment leading to economies of scale for the Resulting Company and creation of sectoral efficiencies and benefitting stakeholders as well as optimization of operation and capital expenditure; and
  - d) enhancing competitive strength, achieving cost optimisation, ensuring benefits through focused management of the financial, managerial and technical

resources, personnel capabilities, skills, expertise and technologies of the Resulting Company and the Demerged Company thereby significantly contributing to future growth and maximizing shareholders' value.

The proposed restructuring is in the interest of the shareholders, creditors, employees, and other stakeholders in each of the companies.

**B. BACKGROUND OF THE COMPANIES**

- (i) **Sundaram - Clayton Limited** ("Transferor Company" or "Demerged Company" or "SCL") is a public company incorporated under the provisions of the Companies Act, 1956. SCL is engaged, *inter alia*, in the business of manufacturing non-ferrous gravity and pressure die castings and has four manufacturing plants located in Tamil Nadu, group management services' business and business of manufacturing and distributing two & three wheeler vehicles through TVS Motor Company Limited. - (iii) **VS Investments Private Limited** ("Transferor Company 2") is a private company incorporated under the provisions of the Act. The Transferor Company 2 is engaged in the business *inter alia* of making and holding investments and trading in raw materials and components relating to automobiles.

- (iv) **Sundaram - Clayton DCD Limited ("Resulting Company")** is a public company incorporated under the provisions of the Act. The Resulting Company is incorporated to carry on the business of manufacturing non-ferrous gravity and pressure die castings. The Resulting Company is a wholly owned subsidiary of SCL.

**C. RATIONALE FOR THIS SCHEME**

- (i) SCL has built up substantial surplus reserves, over the years from its retained profits. The surplus reserves are well above SCL's current and likely future business needs. Further, barring unforeseen circumstances, SCL is confident of generating incremental cash over the next few years. Overall reserves position is expected to improve further even after considering cash requirements for SCL's capex programme and working capital requirements.
- (ii) Further, upon taking into consideration SCL's capability to generate strong cash flow and the surplus reserves being more than what is needed to fund SCL's future growth, SCL is of the view that these excess funds can be optimally utilized to reward its shareholders in such difficult and unprecedented times by way of distribution.
- (iii) At the same time, in keeping with SCL's tradition of conventional cash management and being mindful of the challenging business environment, SCL is of the view that it would be prudent to retain liquidity as well. Accordingly, SCL has proposed, *inter alia*, to distribute such funds amongst its shareholders by issuing fully paid up non-convertible redeemable preference shares by way of bonus in terms of this Scheme.
- (iv) Non-convertible redeemable preference shares, while giving near-cash (traded, encashable) instrument in the hands of shareholders, give increased flexibility to SCL in managing its liquidity through options like buy back, redemptions, etc.
- (v) In view of the aforesaid factors, SCL has concluded that it can optimally utilize its surplus reserves by distributing a considerable portion of the same to the equity shareholders. In order to maintain high level of corporate governance and transparency, SCL proposes issuance of preference shares by way of bonus under Section 230 of the Act which will be subject to necessary statutory, regulatory and corporate approvals.
- (vi) As part of the restructuring exercise, it is proposed to consolidate all the resources of the Transferor Companies with the Transferee Company. The said amalgamation will result in the following benefits:
- (a) Streamline the promoter holding structure;
  - (b) Optimal utilisation of resources and better corporate governance; and
  - (c) Reduction of administrative responsibilities, multiplicity of records and legal and regulatory compliances.
- (vii) Given its diversified business, it has become imperative for the Demerged Company to reorient and reorganize itself in a manner that allows imparting greater focus on each of its businesses. With this repositioning, the Demerged Company is desirous of

enhancing its operational efficiency.

- (viii) The Scheme proposes to reorganise, segregate and demerge the Demerged Undertaking comprising of manufacturing non-ferrous gravity and pressure die castings from Demerged Company into the Resulting Company and the Demerged Company will be left with group management services' business, trading business and manufacturing of two & three wheeler vehicles through TVS Motor Company Limited.
- (ix) The proposed demerger pursuant to this Scheme is expected, *inter alia*, to result in following benefits:
- (a) segregation and unbundling of the businesses of the Demerged Company into the Resulting Company, which will enable enhanced focus on the Demerged Company and Resulting Company for exploiting opportunities of each of the said companies;
  - (b) unlocking of value for the shareholders of the Demerged Company, attracting investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;
  - (c) logistics alignment leading to economies of scale for the Resulting Company and creation of sectoral efficiencies and benefitting stakeholders as well as optimization of operation and capital expenditure; and
  - (d) enhancing competitive strength, achieving cost optimisation, ensuring benefits through focused management of the financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies of the Resulting Company and the Demerged Company thereby significantly contributing to future growth and maximizing shareholders' value.

The proposed restructuring is in the interest of the shareholders, creditors, employees, and other stakeholders in each of the companies.
