EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013

As required under Section 102(1) of the Companies Act, 2013, setting out the material facts concerning ordinary and special business in respect of Item No. 3 to 7 as set out above is annexed hereto.

ITEM NO. 3

Ratification of remuneration of Joint Statutory Auditors as appointed by Comptroller and Auditor General of India and to fix their remuneration:

In terms of the provisions under Sections 139, 142 of the Companies Act, 2013 ("Act") read with the Companies (Audit and Auditors) Rules, 2014, (including any statutory modification(s) or re-enactment(s) thereof, for time being in force) and other applicable provisions, if any, and Guidelines issued by the Insurance Regulatory and Development Authority of India (IRDAI), the statutory auditors are yet to be appointed by Comptroller and Auditor General of India.

Pursuant to the provisions of the Companies Act, 2013, read with relevant rules made thereunder, it is proposed to ratify by the members for the appointment of Joint Statutory Auditors as appointed by Comptroller and Auditor General of India and to fix their remuneration until the conclusion of the next Annual General Meeting of the Company.

Based on the recommendation of the Audit Committee and the Board of Directors in their meeting held on August 24, 2021 have approved and it is proposed to pay the remuneration of Rs. 58 lakhs (Rs. 29 lakhs each) for annual audit and Rs. 15 lakhs (Rs. 7.50 lakhs each) for half yearly audit and Rs. 20 lakhs (Rs. 5 Lakhs each for June and December quarter) for limited review plus applicable taxes and reimbursement of out of pocket expenses incurred by the Auditors, if any, in connection with the audit of the accounts of the Company for the financial year 2021-22.

The Comptroller and Auditor General of India is yet to appoint the statutory auditor for the financial year 2021-22. Accordingly, it is proposed to ratify by approval of shareholders, the remuneration as decided by Board of Directors to be paid to statutory auditor on its appointment by the Comptroller and Auditor General of India.

The Board recommends passing of the Ordinary Resolution, as set out at Item No. 3 of this Notice, for approval of the members.

None of the Directors or Key Managerial Personnel of the Company or their relatives are in any way concerned or interested, financially or otherwise, in the said Resolution.

ITEM NO. 4

Mr. Mahesh Kumar Sharma (DIN:08740737) was appointed as the Managing Director and Chief Executive Officer of the Company for a period of 3 years with effect from May 9, 2020 and not liable to retire by rotation, in accordance with the consent of the members and approval of Insurance Regulatory Development Authority of India ("IRDAI") in terms of Section 34A of the Insurance Act, 1938.

The Nomination and Remuneration Committee, vide its resolution dated April 12, 2021, has approved the proposal

for revision in the remuneration of Mr. Mahesh Kumar Sharma with effect from April 1, 2021 on account of revision in SBI pay structure.

The revision in the remuneration was also subject to the prior approval of IRDAI under Section 34A of the Insurance Act, 1938 and IRDAI had granted approval vide its email dated August 23, 2021.

It may be noted that the Company, being an Indian Insurance Company in terms of the Insurance Act, 1938 and read with applicable notifications issued thereunder, the provisions relating to remuneration, including amendment thereof, of Managing Director / Whole Time Directors are regulated by the said Act, the Guidelines on Corporate Governance for Insurance Companies and the Guidelines on Remuneration of Non-Executive Directors & MD / CEO / WTD of Insurers issued by IRDAI.

As on March 31, 2021, Mr. Mahesh Kumar Sharma does not hold any shares in the Company. Except Mr. Sharma and his relatives, none of the Directors, Key Managerial Personnel of the Company or their relatives are in any way, concerned or interested, financially or otherwise, in the said resolution.

Mr. Mahesh Kumar Sharma is not related to any Director or Key Managerial Personnel of the Company. Further, the relatives of Mr. Mahesh Kumar Sharma may be deemed to be interested in the resolution to the extent of their shareholding interest, if any, in the Company.

The Board, accordingly, recommends passing of the Ordinary resolution as set out at Item No. 4 of this Notice, for the approval of the members.

The brief profile of Mr. Mahesh Kumar Sharma is annexed to this notice.

ITEM NO. 5

Pursuant to Sections 149, 150, 152, Schedule IV of the Companies Act, 2013 as amended and read with the applicable notifications issued thereunder ("Companies Act, 2013), it is proposed to appoint Mr. Shobinder Duggal (DIN: 00039580) as Independent Director of the Company for a term of 3 (three) consecutive years up to December 27, 2023.

The Board of Directors at its meeting held on December 28, 2020, on the recommendation of the Nomination and Remuneration Committee and based on the qualification background, experience, his association would be beneficial to the Company and the Board and it is desirable to appoint him as an Independent Director of the Company, not liable to retire by rotation. In the opinion of the Board, he fulfills the conditions specified in Sections 149, 150, 152, Schedule IV of the Companies Act, 2013 and other applicable provisions, if any, of the Companies Act, 2013 and regulation 25 of the Listing Regulations. It is therefore proposed that he will be appointed as an Independent Director of the Company in compliance with the provisions of Companies Act, 2013 and Listing Regulations. Accordingly, his tenure of appointment for 3 (three) years commencing from December 28, 2020 upto

December 27, 2023 is in accordance with the Companies Act, 2013 and the Listing Regulations.

Keeping in compliance with the provisions of Section 149 of the Companies Act, 2013 read with Schedule IV of the said Act, the appointment of Mr. Shobinder Duggal as Independent Director is now being placed before the members for approval by passing an Ordinary Resolution. The Company has received a notice proposing the candidature of Mr. Shobinder Duggal for the office of director under Section 160 of the Act.

Mr. Shobinder Duggal is not disqualified from being appointed as Directors in terms of Section 164 of the Act and have consented to act as Director of the Company. The Company has also received declarations from Mr. Shobinder Duggal confirming compliance of Section 149(6) of the Act. In opinion of the Board, Mr. Shobinder Duggal fulfills the conditions specified in the Act and the Rules made there under and Mr. Shobinder Duggal is independent of management.

Other than Mr. Shobinder Duggal, Independent Director of the Company to whom the resolution relates, none of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out at Item No. 5. This Explanatory Statement may also be regarded as a disclosure under regulation 27 of the Listing Regulations with the Stock Exchange and the Secretarial Standard - 2.

The brief profile of Mr. Shobinder Duggal, in terms of Regulation 36(3) of the SEBI Listing Regulations and the Secretarial Standards on General Meetings (SS-2) issued by Institute of Company Secretaries of India ('ICSI'), is annexed to this notice.

ITEM NO. 6

Legacy of Trust. Commitment to Perform.

In our two-decade journey, we have been at the forefront of transformation in India's private life insurance space. At SBI Life, we have built a formidable franchise over the years to emerge as of the country's one of the largest private insurers. On the way, we achieved many industry firsts to create a circle of trust that powers our abilities to deliver sustained value.

In an unprecedented year in every sense, we not only ensured seamless adaption to the new normal, but also delivered industry-leading performance, with our assets under management crossing the ₹2 trillion mark and gross written premium surpassing ₹500 billion. Further, our strong solvency ratio reflects the strength of our balance sheet while our record online renewals validates our preparedness for a digital future.

As the pandemic dramatically changes our way of life and thinking, we believe the long-term factors driving the Indian insurance industry remains unaltered. Building on our legacy of trust, the next phase of our growth will be driven by our aspirations to become a 'truly digital' organisation. With our unparalleled reach, diverse portfolio for every insurance need, and a vibrant stakeholder ecosystem, we are well positioned to continue creating a shared and, above all, secured future.

About this Report

Background

The Securities and Exchange Board of India (SEBI) had recommended the top 500 listed entities to voluntarily adopt the Integrated Reporting framework prescribed by the International Integrated Reporting Council (IIRC). SBI Life Insurance Company Limited (SBI Life) started preparing its Annual Report in accordance with the IR framework since FY19 to provide a holistic assessment of its financial and non-financial performance.

Framework and Reporting Principles

The IIRC has prescribed seven guiding principles for Integrated Reporting. These are strategic focus and future orientation, connectivity of information, stakeholder relationships, materiality, conciseness, reliability and completeness, consistency and comparability. In addition to aligning with these principles, the Report complies with the requirements of the Insurance Act, the Companies Act 2013, the Insurance Regulatory and Development Authority (IRDAI) (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Accounting Standards issued by Institute of Chartered Accountants of India (ICAI) and the Secretarial Standards issued by the Institute of Company Secretaries of India (ICSI).

Objective

The objective of Integrated Reporting is to provide shareholders and interested stakeholders with relevant financial and non-financial information that can enable them to take a well-informed investment decision. It aims to provide concise information about the Company's strategy, governance, performance and prospects, which it has created over a period of time.

Scope and Boundary

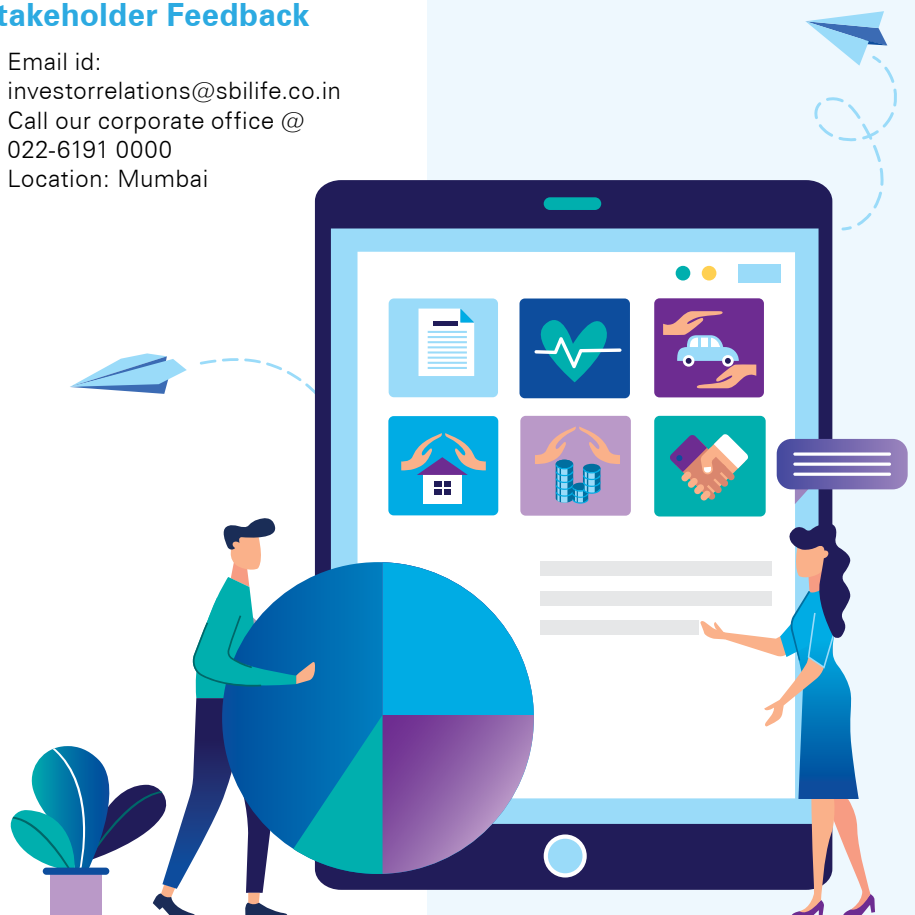

This is SBI Life's third Integrated Annual Report and includes information that is material to the Company's stakeholders, and presents an overview of its business and associated activities that impact value creation in the short, medium and long term. The Report also provides insights about SBI Life's competitive landscape, key strategies, business model, internal and external risks and mitigation strategies. SBI Life does not have any subsidiaries.

Responsibility Statement

The Audit Committee and the Board is responsible for ensuring the integrity and completeness of the Report. With assistance from the reporting team, the Audit Committee has put in its collective minds and efforts in preparation, presentation and validation of information of this Report.

GEOGRAPHIC PRESENCE

A promise of proximity to customers

We have the widest distribution network among private life insurers, enabling us to cover millions of lives and secure their financial future in a timely manner, even in the remotest corners of India.

Note: Map is not to scale

A seamless delivery amid challenges

Our strong performance track record, high customer satisfaction and best-in-class operating efficiency bear testimony to our unwavering focus on protecting the interest of all our stakeholders. The onset of COVID-19 has altered the operating landscape, given that insurance has traditionally been a 'push' business relying on in-person interactions. We engaged with all our stakeholders to ensure their safety and well-being while enabling our customers to navigate the health crisis that came with significant financial consequences.

A promise of a better and secured future

Dear Stakeholders,

It gives me immense delight and satisfaction to share with you the performance of our organization during the past financial year despite facing myriad challenges posed by the COVID-19 pandemic.

However, I would first like to express my immense respect and gratitude to all the frontline warriors and others who selflessly fought the daunting challenges posed by the pandemic to save and protect lives. I would also like to express my heartfelt condolences to the families of those who lost their loved ones during this long-drawn crisis.

The past year has been like no other in recent times and has posed unimaginable and unique challenges. These are uncertain times and our country, as also the rest of the world, has been confronted with unprecedented health, social and economic challenges. But there have also been many learnings and our organization has been working harder than ever before to mitigate various emerging risks with a view to protect the interests and future of our customers. This has been possible because of the relentless effort of our workforce who have shown tremendous resilience and adaptability to face the challenging circumstances.

During the past year, the global economy has slowed down with many economies coming to a standstill. India, the 5th largest economy in the world in terms of GDP, witnessed a record drop of 24.4% in its GDP in Q1, FY21. This was due to the complete lockdown imposed in India in April and May 2020. The month of June indicated some green shoots of revival in the Indian economy. It was estimated that India's real GDP would rise to record a 11.0% growth in FY22 and that the nominal GDP would grow by 15.4% – the highest

since independence. The return to normalcy has been accelerated by the initiation of a mega vaccination drive across the nation and India appears to be poised for a sharp economic upswing in FY22.

The pandemic has brought disruption across almost every sector and each industry has adapted to the challenge in its own manner. Although India is the 10th largest life insurance market worldwide, these numbers are growing in recent times, owing to rising levels of awareness about insurance among the Indian population. When the COVID-19 pandemic arrived in India, it initially slowed down the positive trends seen earlier. Life insurance businesses were hit hard while consumer behaviour indicated a paradigm shift. The insurance companies recorded contraction in new business premiums in Q1 of the FY21 with major stocks indices trading at year-to-date lows. However, the pandemic brought forth a structural transformation in consumer behaviour as people became more aware of the importance of insurance in protecting their future. As the year went by, the industry picked up momentum with consumer behaviour shifting sharply and permanently, seeing insurance as an essential spend.

Our processes have become smarter with implementation of Artificial Intelligence (AI) based solutions providing enriched experiences for our customers.

The Indian insurance industry has taken a growth approach by catering to the customers through new and innovative service-based models and innovative solutions. The Indian demography is one of the largest young population nations with median age of 28 years and a rising share in urbanization with growth in urban population at 2.4% CAGR between FY15 and FY20. Insurance companies have therefore modified their products to cover a wider range of risks, ranging from the pandemic to seasonal illnesses which come at varying prices and cater to a wider range of demography. Along with this, standard products are expected to regain their popularity in the coming year as the various medical issues caused by the pandemic and the sharp hike in the costs of treatment have compelled consumers to accord greater priority to insurance. Digitalization has also contributed significantly to the growth of this industry as the products and services continued to be available on the digital platform during the lockdown. Capitalising on the opportunity created by the changing consumer mindset, insurers are investing in product innovation and customization, enhancing digitalization, providing agile teams and dynamic work processes to facilitate value-added services to customers.

We are pleased to report another year of robust performance and maintaining our position as the leader among private players. We continue to be one of the most trusted life insurance companies in India and deliver a gamut of products and services in the remotest corners in the life insurance and pension segment. Our performance in FY21 has been driven with a focus on risk-calibrated profitable growth. We have been able to generate sustainable and stable growth in business through a robust framework of risk management practices. Our GWP crossed the ₹500 billion mark and the value of New Business grew by 16% to ₹23.34 billion. Our Indian Embedded Value (IEV) grew by 27% to reach ₹333.86 billion. Our steady and persistent growth helped to exceed the ₹2 trillion mark for AUM during this fiscal year.

While the world stayed indoors during the past year, the windows of connectivity were opened by rapid digitalization. Technology and enhanced digital connectivity facilitated transactions without requiring physical presence. Technological focus has enabled us to continue our operations seamlessly through a virtual mode and provide uninterrupted service to our

customers. Further, digitalization has helped us improve our service while becoming a more cost-effective way of doing transactions. Our processes have become smarter with implementation of Artificial Intelligence (AI) based solutions providing enriched experiences for our customers. The premium collected from online channels and web aggregators saw a 12.0% increase. The SBI YONO app has provided a convenient platform for our customers while helping us understand their needs better. Digitalization is the way ahead and we plan to invest more in technology to enhance our capabilities to serve our customers more effectively.

As we navigate our lives and adapt to the changing situations brought forth by the pandemic, SBI Life is committed to stand by its employees and make our workspace more safe and secure.

I would like to express my gratitude to the entire team who have braved these difficult times and provided uninterrupted service to our customers. We shall continue with our endeavors to do even better in the future.

I would like to extend my sincerest gratitude to all our stakeholders for reposing their trust in us and extending their support throughout. I also take this opportunity to convey my deep appreciation to the entire SBI Life Team for their excellent performance and extend my best wishes to them for their continued success.

Best wishes,

Dinesh Kumar Khara

A strong display of grit and determination

Dear Stakeholders,

We strive to go beyond expectations to lead the industry, taking on various challenges with integrity and agility in these times of global crisis. Looking back at FY21, we realize that the past year has been one of unprecedented situations and large-scale disruptions. Through these times, our customers remained at the heart of our operations.

Our sincere efforts to serve our customers to the best of our abilities has helped us secure their future while delivering another year of great performance in all aspects. Our strong brand recall, widespread distribution network and relentless workforce have helped us maintain our position as leaders in our industry.

We are happy to announce that we surpassed the ₹500 billion mark in GWP, touching over 12+ million lives in FY21. We saw a 38% rise in AUM to ₹2.21 trillion vis-à-vis FY20 which is one of the highest in the life insurance industry. Our operations are backed by stable profitability supported by strong back book surplus. We saw an overall prudent growth with ₹206.24 billion of New Business Premium (NBP). We strive to develop innovative solutions to create value for our stakeholders while contributing to high profitability.

All-round performance

FY21 brought about a wave of uncertainty and adapting to these changes was imperative. Through it all, we have not only managed to stay afloat but also continued to be one of the India's leading private life insurers. Although the start of the year was slow due to onset of the pandemic, our performance picked up speed in the third and fourth quarters. Our Individual NBP grew from ₹112.45 billion to ₹124.99 billion in FY21 showing a growth of 11% and GWP grew 24% to ₹502.54 billion. Our renewal premiums saw a growth of 23% y-o-y to ₹296.30 billion and New Business Premium saw a 24% y-o-y growth to ₹206.24 billion.

The PAT registered a 2% Y-o-Y increase at ₹14.56 billion over FY20. Our IEV saw a growth of 27% from ₹262.91 billion in FY20 to ₹333.86 billion in FY21. Our VoNB margin reported a growth of 170 bps from 18.7% in FY20 to 20.4% in FY21. We showed strong 13th month persistency at 87.92% and 61st month persistency at 61.63%. At the same time, we managed to improve our operating cost efficiency further to 4.8% from

5.9%, which was reflected in our robust margin expansion. Our solvency ratio remained strong at 2.15. Through the year, we maintained stable profitability and continued to grow as an organization, cementing our position as the industry leader.

Digital Transformation

The growth in digitalization in the past year was faster than ever. We employed digitalization to strengthen our processes, making our service effortless and easy for our customers. We introduced a simple and intuitive on-boarding experience based on E-submission of documents, E-payment, E-verification and E-policies. This system has 41% automated underwriting and reduced issuance TAT by 34%. The application process was completed within 10 minutes and led to an adoption by 99% of the customers.

Apart from this, our mobile app, web service and real-time dashboard were revamped to make all processes online and reduce physical contact. This made our systems faster, more efficient and time saving. We also conducted our employee trainings online through interactive courses, simulations, and gamified micro modules. Our recruitment process was done online as well and we recruited more than 50,000 individual agents through the year. We have 60+ API platforms for quick on-boarding of partners & faster system integration. Our digital quotient was raised substantially by empowering distributors, customers and employees and creating a robust end-to-end scalable and integrated digital system.

Wellbeing for all

We believe in creating a better life for all and this has pushed us to demonstrate our commitment to our employees and our communities by taking timely and adaptive decisions to ensure safety and well-being for

Our performance is a testament to our strong business model, strong financial profile and agile responses to a dynamic environment.

all. We also undertook initiatives to raise awareness about our insurance products to drive informed decision-making on the part of our customers. We went a step further to contribute to the COVID-19 relief fund and disaster relief funds for improving healthcare facilities and education infrastructure.

Delivering Excellence

As we continued with our best-in-class operations and services, our efforts were rewarded at prestigious forums, testifying to our commitment to our stakeholders and customers.

Road Ahead

As the Indian economy revives itself, a plethora of opportunities await for us to increase our reach and awareness about our insurance products and solutions. We are ready to delve into the exciting new future and tap these opportunities to grow together as a society. Our innovative solutions and our focus on digitalisation enable our vibrant distribution network to stay true to our promise of 'protection for life' to our customers. Our performance is a testament to our strong business model, strong financial profile and agile responses to a dynamic environment.

From the bottom of my heart, I thank our shareholders and investors for trusting us and pushing us to do better. I would like to express my gratitude to all our stakeholders for their continued support. I feel extremely proud to be working with our efficient and dedicated workforce, whose hard work has helped us achieve excellence. My wishes for good health and wellbeing to all. Together, we shall overcome all challenges and emerge stronger.

Warm regards,

A transition to a 'truly digital' experience

We deploy the best-in-class technologies to strengthen our system and provides while providing a seamless, safe and elevated omnichannel experience to our customers. We aspire to become a 'truly digital' organisation by making our IT infrastructure more robust and leverage the power of next-generation digital technologies like Artificial Intelligence [AI], Machine Learning, Data Analytics, among others.

FY21 key highlights

Transition to Work From Home (WFH)

Prioritising the health and safety of employees and adapting to the new normal, we transitioned them to a remote work environment swiftly, backed by our scalable, secure and sustainable VDI technology. We provided over 9,000 laptops, installed with the latest Windows edition and patches along with the antivirus, NAC and VPN agents, to ensure system availability and better productivity.

Improved technology infrastructure

- Proactively managed Data Centre (DC), Disaster Recovery (DR) and Wide Area Network (WAN) infrastructure to make our growing operations more efficient and provide quality service to customers
- Moved all email IDs to a single domain using a two-factor authentication, making online transactions easier, with enhanced security features
- Implemented volumetric Distributed Denial of Service (DDoS) attack mitigation services to enhance data security on all central corporate internet links in data centre
- Implemented the Network Access Control (NAC) feature on all systems in the Corporate Office, CPC and branch offices to evaluate security policy compliance of desktop systems, before permitting access to the corporate network
- Implemented the Symantec End Point Detection and Response solution in all the end points for identification, monitoring and automatically resolve external threats.
- Deployed the Algosec Firewall rule management system to monitor and manage the firewall rules that are being deployed/removed from a central console

Seamless onboarding for customers

We developed a virtual process for our customers to offer a simple and intuitive on-boarding experience that took less than 10 minutes for completion. Digital onboarding, training and performance management of distributors

We created a digital mobile application integrated with CRM for onboarding, training and performance monitoring of our distributors. The application has a real-time, hierarchy-based dashboard for assessing productivity levels. It also comes with auto-updated fly information for new business as well as renewal follow-ups.

A proactive response to a global crisis

The global pandemic that disrupted the way of life in 2020 continues to impact individuals and businesses. The heightened economic uncertainty and evolving risk factors tested the resilience and relevance of business models across industries. Our response was swift and comprehensive, keeping in mind the safety of our employees, customers, and other stakeholders while ensuring uninterrupted operations.

Providing medical facilities

Leveraging our resources and the expertise of our efficient team, we revived our medical aid facility to provide access to treatment and counselling. Seeing the non-uniform spread, we took a precautionary approach to contain the virus. We made monthly onsite Rapid Antigen tests and RT PCR tests mandatory for our in-house and outsourced staff.

Tests conducted since October 2020

Accelerating digital transformation

We leveraged technology to enhance our digital connectivity, making our processes digital. This helped our customers avail our services without having to visit our offices physically. We also customised our products and services as per the changing times to provide added security to our customers.

Ensuring safety of our stakeholders

We provided technological support and transitioned our operations to a Work From Home model. We also organised virtual sessions on wellness and mental health issues to help them cope with the stress. Provisions were made for additional holidays for employees who tested COVID-19 positive or had to take care for a family member contracting the virus.

Addressing COVID claim settlements

As the country grappled with the COVID situation, we made every effort to ensure that our customers received the claim amount that they were entitled to, quickly and easily.

Vaccinating our workforce

The Government of India has implemented the largest vaccination program effective from January 15, 2021. We conducted vaccination camp for our employees, their dependents and outsource staff at our head office in Natraj - Mumbai, CPC, Seawoods - Navi Mumbai. Further, we extended the vaccination facility to add staff across all SBI Life regions and branches pan India.

Creating shared value together

We endeavour to create long-term value for our stakeholders through our business activities, prudent strategies, focused execution, and robust risk management and governance. We are a resilient enterprise with the ability to adapt to the dynamic external environment.

Value creation model

Our robust business model is driven by our vision and core values. We constantly endeavour to maximise value for our stakeholders at every stage of our operations. Keeping our customers at the heart, we have built a legacy of trust through the years and strive to create a resilient business through each economic cycle.

External environment

We observe and analyse the developments in our external environment to identify and target various risks and opportunities in a timely manner. We leverage our expertise and foresight to optimise emerging opportunities and minimise risks. Our ability to respond to these trends with agility and efficacy is key to our success over the long run.

Stakeholder engagement

We strive to create long-term relationships with our stakeholder through meaningful and transparent communication. Our stakeholder-inclusive approach enables us to gain valuable and actionable insights about their needs, interests and expectations. This helps us make strategic decisions and devise our roadmap ensuring a balance between evolving socio-economic and regulatory environment.

Materiality assessment

We have adopted a collaborative approach to identify key material issues through constant stakeholder engagement. Through this, we align our business objectives with the market trends while preserving the interest of all our stakeholders.

An evolving landscape of opportunities

The life insurance industry in India is one of the fastest growing sectors. Although the pandemic has significantly altered consumer behaviour and expectations, the key factors driving the long-term potential of India’s life insurance industry remains intact. At SBI Life, we are well positioned to capitalise on the emerging opportunities, backed by a favourable regulatory environment and government policy support.

Life insurers recorded new business premium of ₹2.78 trillion (\$38 billion) in FY21, growing at 7.49% over the last year with private life insurers growing at 16.29%. Private life insurers accounted for 33.8% of the industry’s new business premium (FY21). The insurance regulator IRDAI has also undertaken various initiatives to boost insurance penetration, such as allowing insurers to conduct video-based KYC, launch standardised products and reward low-risk behaviour.

Under-penetration of life insurance in India

Insurance penetration is calculated as percentage of insurance premium to GDP. The life insurance industry in India has relatively low penetration as compared to other Asian countries with a marginal improvement to 3.20% in 2020 from 2.71% in 2001. However, the last decade has shown a steady growth in the industry owing to the increasing disposable income and rising awareness.

Premium as a % of GDP

Our response

We have a widespread distribution network operating through multiple channels, reaching the remotest of locations across India. We engage customers and potential customers through effective communication and innovative product and service offerings.

Rising disposable income with expanding middle class

India has a rapidly growing population of young, earning members with a disposable income. The share of working population is expected to reach 40% by 2030. Increased awareness about investments and life insurance makes India a captivating market for the life insurance industry. This has opened up a new and upcoming avenue for life insurers, backed by digital platforms, smart solutions and innovative technology.

Source: United Nations World Population Prospects, 2019

Our response

Our products cater to different types of customers across age groups. We are developing innovative, need-based products to capture a sizeable market share of the younger population.

Financialisation of savings

Over 90% of Indian households invest their hard-earned money in physical assets like real estate and gold. However, as India moves towards smart investment solutions aided by the government's thrust on formalisation of finances, the demand for savings and protection products is on a rise. Increasing diversity of transactions and asset diversification are the key components of financial planning.

Source: CSO, Reserve Bank of India, Handbook of Statistics on Indian Economy

Our response

We are creating awareness about the importance of financial security across India through our multiple communication channels and leveraging digital platforms to engage customers and guide them towards choosing the appropriate insurance solution.

Rising awareness

The pandemic made people realise the gaps in their financial security. Uncertainty of life and pandemic-induced financial spending on medical aid increased demand for critical illness riders and pure protection term plans. The third quarter saw a multi-fold increase in the number of people opting for insurance plans with a 16% increase in New Business Premium in September 2020.

Our response

We customised our products and service channels to make them more accessible and affordable for all types of across demographics. We introduced four new products, simplified issuance and easy payout including the Corona Rakshak Policy to encourage customers to secure their financial future in times of crisis. We increased our marketing and communication to increase our customer base and strengthened our infrastructure.

Digitalisation

The world is becoming more connected via internet and digital technologies. FY21 saw a shift of operation from a physical mode to a virtual mode and the advancement in digitalisation was accelerated owing to the ongoing pandemic. Digital technologies are key to the growth and continuation of businesses today. Further, the Government's 'Digital India' initiative is driving the penetration and proliferation of smart and innovative solutions in the insurance industry as well.

Our response

We invested in incorporating digital technologies at all level of our operations, emerging as a leader in driving digitalisation in the Indian insurance industry. We leverage data tools to strengthen our existing systems and introduced new online services which are easy to use and accessible to our customers, distributors and business partners.

A structured framework of engagement

Constructive, continuous and detailed dialogues with stakeholders are imperative for nurturing long-term relationships. We engage with our stakeholders to understand their needs and expectations, and factor in those while devising our business growth strategies.

We believe in maintaining a clear, accurate and transparent communication with our investors, communicating our business activities in a timely and consolidated manner. To engage our investors, we undertake the following initiatives:

- 

Organise our Annual General Meeting to discuss the performance of the year, issues and challenges faced and draw a roadmap to overcoming these challenges and performing better
- 

Publishing each update on our website to provide a single platform for investors to seek latest information and updates via public disclosures and various reports
- 

Publish our performance results through presentations and consolidated reports on a quarterly basis to keep a track of our activities throughout the year
- 

Publish intimations and announcements through multiple media channels such as newspapers, emails and letters
- 

Periodic meetings, conferences and roadshows with investors to deliberate on their expectations and designing solutions to achieve targets set by both parties
- 

Lastly, we publish our Annual Report, Sustainability/ ESG Report with third party assurance on an annual basis, highlighting our performance and updates on a public forum to ensure a transparent and open communication
- 

Our activities are made public via company announcements and media releases, highlighting noteworthy events, milestones and initiatives taken by us

CUSTOMERS

Prospering together

FY21 was a unique and challenging year in every respect. We decided to transform our customer experience, driven by digitalisation. We adopted new initiatives to provide our customer with online end-to-end services, right from on-boarding to customer service and claim settlement. We leveraged our digital capabilities to make our systems and processes faster, efficient, and error-free.

Smart Care – our customer engagement application

The 'Smart Care' has been developed with a Progressive Web Application (PWA) platform which makes this application user-friendly and device agnostic, providing the user with a hassle-free, smooth experience on any device ranging from mobile to web applications. A host of self-servicing options also have been provided that will enable the user to transact on their policy at the click of a button with minimum dependency.

Beta version of the Smart Care application was launched on 3rd February, 2021

CUSTOMERS CONT.

Introduction of Customer Services on WhatsApp

We introduced various Push Services along with a concept of 'Service on Demand' via WhatsApp application. Through this, we communicate updates, reminders and other information to the customer. Various new business services such as Proposal Status, Shortage link and Soft Copy of Policy Document have already been made live under this category.

Revival campaign

During the period under review, a very successful Revival Campaign was launched with the motive of reviving lapsed policies and rebuilding the relationship with our policyholders. Over 1 lakhs policies were revived leading to a renewal premium collection of ₹508 Cr. Strategic inputs generated through Renewal Analytics were utilized to identify likelihood of revival of any policy. Call centre engagement was done based on the Analytics by targeting the Likely & Moderate bucket customer through specialized callers. This has helped the Company to improve the persistency still further. Higher rate of revivals has been made from 61st Month (19.75%), 49th Month (14.29%) and 13th Month (13.28%).

BUSINESS PARTNERS

Fostering efficiency

Our Business Partners play a key role in delivering our products and services to our customers. We engage with them through conferences and workshops, one-to-one meetings, communication via telephone, email and other communication channels. We work closely with our business partners to build diversified distribution system and to achieve sustainable business growth.

Material issues

Adoption of strong corporate governance, transparency and ethics

Clear and consistent business strategy

Prompt communication of critical developments in our Company

What we did

Regular digital meetings via collaborative platforms

We organised virtual meetings on a regular basis for updates on various digital platforms. This helped for a regular communication between the two parties to ensure seamless operations and encouraged our business partners to perform better.

Digitalisation of communication

To ensure the safety and wellbeing of our business partners, we transitioned all internal and external communication to digital platforms to minimise physical contact and ensure continued workflow.

Review meets

Adapting to a new normal was a challenge in the beginning. However, through periodic review meets, we were able to review their work and identify key challenges as a result of transition to a digitalised workspace and developed ways to work around the problems and develop optimal solutions for them. We also closely monitored their performance and provided suggestions or guidance as and when needed.

Periodic surveys for feedbacks / suggestions

As we changed our system to adapt to the changing times, we created a communication channel to encourage feedback and suggestions from our business partners which were incorporated in our system, making it easier to work and with increased efficiency.

ENVIRONMENT

Contributing to a sustainable future

With human progress, natural resources are depleting rapidly. Although the insurance business does not have significant negative impact on the environment, we are proactively reducing our carbon footprint and contributing to the global fight against climate change. We have identified key areas of intervention as energy efficiency, water conservation, waste management, and reducing paper and plastics usage.

Prominent initiatives

Our corporate office is a green building, certified by Indian Green Building Council (IGBC).

A feasibility study on the viability of power generation through solar roof top panels is underway. The project, if implemented, could reduce electricity load by upto 35% from existing demand.

Digitalisation has enabled us to make several processes paperless – significantly lowering our total paper consumption; 99% of our new applications are now sourced digitally. Further, we have tied up with the Bombay Leprosy Project, an NGO engaged in leprosy relief work, to collect old newspapers/magazines. The NGO creates income-generation opportunities for the underprivileged by teaching them to make envelopes from waste paper.

Food wastage in the cafeteria is discouraged through awareness campaign through graffiti's. Leftover food and food waste generated in our cafeteria is collected and recycled through a composter biodegradation process into organic manure which is used as an organic fertiliser for plants in the premises.

All the plastic used in our premises are collected, packed and sent to the vendor for various recycling activities. The procurement of PET bottles has been completely stopped post August 2019 in response to the Prime Minister's call to reduce one-time-use plastics.

Installed a rainwater harvesting system to collect rainwater during the monsoon and recoup the existing underground sumps. The water so collected is being used in the cooling towers for air conditioning.

Rewarding outperformers

We have a well-defined rewards and recognition policy to identify deserving candidates. Our performance management system, LEAP (Leading through Excellence And Performance) is based on a clear framework of setting expectations, providing feedback and carrying out an effective assessment to link rewards directly with the Company performance.

We introduced Employees Stock Options (ESOPs) for rewarding high performing employees in FY19 and improve the retention rate. During the year, Board Nomination and Remuneration Committee (NRC) in its meeting held on July 21, 2020 approved the grant of 924,690 Employee Stock Options ('Options') to 263 eligible employees under the provisions of ESOS 2018.

Sexual Harassment Cases

The Company has an internal complaints committee to investigate and inquire into sexual harassment complaints in line with The Sexual Harassment of Women at Workplace act, 2013.

Cases at the beginning of the year	2
Cases filed during the year	2
Cases disposed during the year	3
Cases pending at the end of the year	1

During FY21 under review, 2 sexual harassment cases were filed excluding 2 cases pending from previous year. Of these, 3 were disposed-off during the year and appropriate actions were taken within timelines for 1 case in FY22. Having an adept POSH policy has enabled us in employer branding by creating employee value proposition, permeating a sense of safety amongst employees, retaining vital talent and promoting inclusively.

COMMUNITY

Impacting lives, empowering communities

We are making steady progress towards empowering communities and multiplying the positive impact we make on their lives. We have a two-fold approach to community initiatives – providing insurance solutions to the unorganised sector and undertaking multi-faceted corporate social responsibility (CSR) activities to improve community wellbeing.

Strengthening resilience

As an insurance company, we cover life, health and longevity risks of our policyholders. We invest the premiums received and provide long-term returns to our customers. We have a comprehensive risk management policy which specifies the process for identification, measurement and analysis of our risk exposures; develop risk management strategies and its monitoring. The key focus areas include strategic risk assessment and capital planning; governance; risk universe; and risk awareness.

Along with a robust risk management policy, we have formulated our risk appetite statements at a functional as well as corporate level, and we also carry out ICAAP (Internal Capital Adequacy Assessment Process), which specifies assessment of material risks, estimation of capital requirement and adequacy for maintaining solvency requirements. Our risk management practices are aligned to ISO 31000:2018 standard on Risk Management covering all departments and functions at Corporate Office, Central Processing Centre, Regional and Branch Offices of the Company.

Our risk management process

We carried out a maturity assessment of our cyber security practices through an independent consultant. The assessment was done using NIST framework and evaluated our security posture at a broad level. This would also assist in developing tactical and strategic directions to further mature and strengthen our security program. This would enable us to take a proactive approach to cyber security and thereby prevent unpleasant surprises later. Based on the assessment, we are taking additional steps to further enhance effectiveness and maturity of cyber security practices adopted by the Company.

Management Discussion and Analysis

I. GLOBAL ECONOMIC ENVIRONMENT

Since the start of the COVID-19 pandemic more than a million lives have been lost and the toll continues to rise. In these troubled times international solidarity has strengthened along some dimensions viz. lifting of trade restrictions on medical goods & services, financial assistance for vulnerable economies. Recent data suggests that the global economy is crawling towards recovery, better than expected, after the great lockdown in the first half of the fiscal year. The recovery is driven by 2nd & 3rd quarter GDP outturns boosted by the swift & unprecedented fiscal, monetary & regulatory responses.

Policy support in the form of liquidity injections, asset purchases, loan & credit guarantees have thwarted further slide in economic activity and bleak numbers that marked the COVID 19 recession have not fully materialised. Discretionary revenue and spending measures announced so far in advanced economies amount to more than 9 percent of GDP, with another 11 percent in various forms of liquidity support. The response in emerging & developing economies is smaller but sizable; about 3.5 percent of GDP in discretionary budget measures and more than 2 percent in liquidity support.

Vaccine approvals and staggered rollout of vaccines in some countries have raised the hopes of eventual end to the pandemic. As per the IMF projections the global economy is projected to contract an estimated 3.5% in 2020 and then grow by 5.5% in 2021 and 4.2% in 2022, reflecting the vaccine powered strengthening of economic activity combined with additional policy support in a few large economies.

II. INDIAN ECONOMY OUTLOOK

In response to the spread of the COVID-19 pandemic India went in to a stringent lockdown in March-April, 2020, followed by a gradual unlocking and phasing out of containment measures. A recession was inevitable as in absence of any containment measures, households would have voluntarily taken precautionary measures affecting demand especially of non-essential items. A lockdown reinforced this response to the pandemic. Public health measures adopted to contain the spread gave rise to immediate economic costs as they led to suspension of economic activity, curbed consumption and investment, as well as restricted labor supply and production. COVID-19, therefore led the world to the predicament of saving 'lives' or 'livelihood' as steps taken to flatten the infection curve, steepened the macroeconomic recession curve.

The great lockdown resulted in a GDP contraction of 24.4% in Q1, however India witnessed a V-shaped recovery in Q2 as evidenced by a GDP contraction of only 7.5% and recovery across all key economic indicators. The economic survey 2021 estimates

India's GDP to contract by 7.7% in FY 2020-21. The real GDP growth for FY 21-22 has been estimated at 11% supported by the initiation of a mega vaccination drive and robust growth in consumption & investments. The fiscal stimulus under AatmaNirbhar 2.0 and 3.0, coupled with increased allocation for capital expenditure under the Union Budget 2021-22, will definitely accelerate public investment and crowd in private investment. However, surge in infections, new mutants, partial lockdowns, high non-oil commodity prices and global financial market volatility impart downside risks to the growth.

The outlook for inflation will depend upon plethora of factors. While lingering supply chain disruptions, rising global crude oil prices and stronger pass-through of input costs could push up headline inflation, there is also a probability of softer international crude oil prices on the back of a weaker than anticipated global demand, bountiful food grains production and effective supply management. Preliminary estimates indicate that India will have normal monsoon this year (third time in a row).

With robust services exports and remittances, India is expected to see a current account surplus in FY2021. With strengthening US recovery leading to capital outflows, Rupee is expected to see depreciation pressures. However, the external sector metrics remain sustainable as RBI has ample forex reserves to defend the currency, which is not expected to see a speculative attack as the weakness stems only from current account deficit and less capital flows.

III. LIFE INSURANCE INDUSTRY DEVELOPMENTS

At the start of the FY 2020-21 there was a great uncertainty owing to the COVID-19 pandemic. However, as seen by the year end results of the Insurance industry has shown resilience and maintained a profitable path. Robust innovation and technological enhancements undertaken by the companies has been a major contributor. Also timely and proactive regulatory changes have ensured a healthy solvency position of the Insurance sector. The global life insurance market grew by 2.2% in 2019 with premium collection of USD 2916 bn.

As per data published by Swiss Re Group, the Indian life insurance industry is the 11th largest in the world in terms of total premium. India's share in the global life insurance market was 2.73% in 2019.

Life insurance penetration

The measure of insurance penetration and density reflects the level of development of insurance sector in a country. While insurance penetration is measured as the percentage of insurance premium to GDP, insurance density is calculated as the ratio of premium to population (per capita premium). After the Insurance sector liberalization life insurance penetration has increased from 2.15% in 2001 to

2.82% in 2019. The life insurance density has also increased from USD 9.1 in 2001 to USD 58 in 2019.

As of FY 2020, the size of the Indian Life Insurance sector was ₹ 5.73 trillion. Total premium growth was at CAGR of 14% between FY 2002 and FY 2020.

New Business Premium, Market Share, Product Mix and Distribution Mix

The domestic life insurance industry registered growth of 7.5% for new business premium in FY 2021. Private players grew by 16.3% while Life Insurance Corporation (LIC) grew by 3.5%. More than 28 million policies were sold in FY 2021 by all insurance players including LIC. While LIC grabbed a market share of 66.2% of total new business premium, the private players took a share of 33.8% in FY 2021. In terms of individual rated premium, private players have fared better, capturing a market share of 59.7% while LIC held a share of 40.3% in FY 2021.

The product mix for LIC has remained consistent in the recent years. LIC focuses more on traditional products and its share in ULIPs is negligible while private players have a well balanced mix of traditional and ULIP products. For private players, share of traditional products has increased from 58% in FY 2017 to 66% in FY 2020 while share of ULIPs has decreased from 42% in FY 2017 to 34% for FY 2020.

In terms of distribution mix of individual new business premium, private players are strengthening their presence through the bancassurance channel in the recent years. However, agency channel continues to be the predominant channel for LIC with a share of 95% in Individual new business premium in FY 2020. Share of agency channel in individual new business premium of private players has reduced from 30% in FY 2017 to 25% in FY 2020 while bancassurance share has been stable at 53% from FY 2017 to FY 2020.

IV. OPPORTUNITIES, RISKS AND WAY FORWARD

The Indian Life Insurance Industry has evolved considerably since 2000, when it was opened up for the private sector. In the past 20 years the distribution models of the Insurance companies have become more efficient. The industry has catered to evolving consumer needs by providing products which satisfy the needs of end consumer. The risk and the uncertainty which arose due to the COVID-19 pandemic has been efficiently tackled on the back of strong fundamentals. The Insurance regulator has also been proactive in these uncertain times providing the important regulatory support to the Industry. Insurance remains a long term growth opportunity and the Indian Insurance Industry is well poised to maximise the gains.

A. Opportunities and Strategy

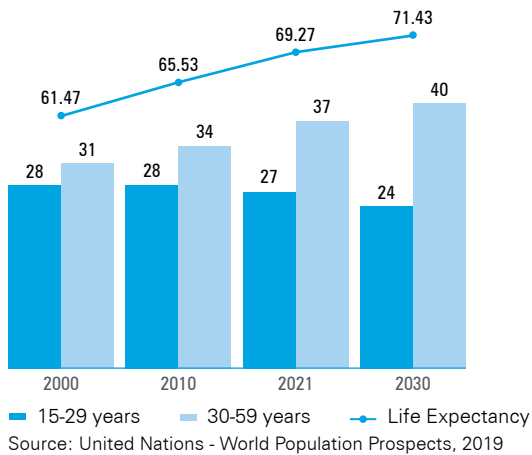

Life Insurance Industry has delivered a growth rate of approximately CAGR 14% on a total premium basis between FY 2002 and FY 2020 outpacing the growth in GDP for the same period. The Indian life insurance industry has 24 companies including Life Insurance Corporation. The share of private Life Insurance Companies in new business premium is 34% for FY 2021. The growth in New business premium is among the best globally. Despite this significant achievement the Insurance density & penetration remains very low in the Indian context. Thus there is a huge untapped potential for growth of Life Insurance Industry. Some of the factors which will provide growth opportunities are as below:

i. Demographic profile

Demographic profile on India has been its biggest strength for economic growth. India is estimated to surpass China as the most populous country in the world around 2027 according to United Nations- World Population Prospects, 2019. Nearly 40% of India's population will be between 30-59 years by 2030.

Management Discussion and Analysis (Contd.)

Increasing share of working population (%) and life expectancy (years)

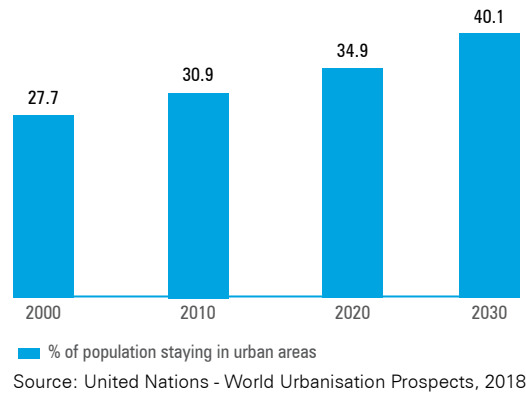

Strategy – Life Insurance provides financial risk mitigation by offering products which mobilize long term savings, provide life protection as well as annuity solutions for longevity risk. The wide variety of products offered by the company meets the insurance demand of all the age groups. Also, with the company’s focus on insurance awareness and diverse product portfolio helps in capturing sizeable market share. This is further supported by a wide distribution network of 225,381 trained insurance personnel comprising of 170,096 Individual agents, 50,240 Certified Insurance Facilitators (CIFs) and 5,045 Specified persons(SP) on the ground.

ii. Urbanisation

Over the years the world has seen an increase in urban population. India is no different. The share of urban population in India has been rising and from 27.7% in 2000 is expected to reach 40.1% by 2030. Increase in urbanisation leads to increase average income levels and also overall lifestyle improvement and awareness of insurance and financial products for savings and investments.

India’s growing urban population (%)

Strategy – Diverse product portfolio of the company is well suited to provide increased coverage through high ticket size policies and helps in catering to various customer needs in the life, health, pension, annuity & micro-insurance segments. Increase in per capita income levels and maintenance of higher living standard entails increase in insurance coverage. During the FY 2020-21, the Company has launched Smart Future Choices, saving product, especially designed for High Net worth Individual customers who are looking for a conservative product which offers liquidity.

iii. Digitisation

Technology is omnipresent today. It has proven to be a saviour of economic growth in such uncertain time of COVID-19 pandemic. Fast and efficient technological adoption is a major differentiator factor in company’s growth prospects. The government as well as the Insurance regulator has been proactively supporting the digital adoption journey.

India’s internet economy (US \$ in billion)

Source: IBEF – Ecommerce

Strategy – The company adopts various digital platforms powered by analytics, automation & artificial intelligence. This has led to opening up new distribution channels beyond the traditional modes of distribution. The new digital technology adopted by the company is used to increase insurance penetration and awareness. Continuing the thrust from the previous year to adopt 'Go Digital', more than 99% of the Individual New Proposals are sourced through our Mobile Application. 90% of renewal premium is collected through digital mode. Today a personalized customer experience is a norm. Adoption of various mobile and web based application has enabled the company in providing an efficient end to end customer experience.

iv. Insurance penetration

As compared to its Asian counterparts, India remains a highly under insured country. The protection margin for India was the highest amongst all the countries in Asia Pacific at 83%, as per a Swiss Re report, meaning only US\$17 is insured against the insurance need of US\$100. The protection gap in US dollar terms was US\$8.5 trillion as of 2014, which is very high as compared to its Asian counter parts. High protection gap combined with increased insurance awareness enhances growth opportunity.

Strategy – The company is focused to bridge the protection gap through its diverse range of protection products. During the year, Company has launched two Individual protection products like Corona Rakshak policy and Saral Jeevan Bima to increase the protection business. Corona Rakshak covers hospitalization of life insured on positive diagnosis of COVID-19 and Saral Jeevan Bima is pure risk premium product. Apart from this, company also has credit life protection (loan coverage) and group term products.

Management Discussion and Analysis (Contd.)

v. Financialisation of savings

Financial savings as a percentage of household savings has seen an upward growth trend, increasing to 39.6% in 2019 from 32.9% in 2013. Increased insurance awareness has led to higher percentage of savings being channelized to Life Insurance. The share of life insurance in financial savings has increased from 17.4% in FY 2018 to 23.2% in FY 2020. Government initiatives towards financial inclusion and insurance awareness like setting up of small finance banks, low cost insurance have also helped in the growth of household financial savings.

Strategy – Company's diverse product portfolio meets the twin goal of savings and protection. This makes an insurance an attractive proposition to channelize household savings. Traditional & digital distribution network of the company provides direct touch points for customer and an end to end smooth customer

journey. Company is also highly focused on increasing insurance awareness. The Company offers 38 different products to meet different end-goals (ranging from long-term investment to pure protection under individual as well group platform) depending on the risk profile of the customer through a strong distribution network of 225,381 trained insurance professionals and 947 offices.

vi. Pension and Annuities

India's share of population above the age of 60 years is expected to rise to 13% by 2030 and 19% by 2050 from the current level of 9%. Private pension assets to GDP ratio of India is around 5% due to young demographic profile, providing an opportunity of growth in pension and annuity business. Growth will be driven by changing demographics, increase in life expectancy and lack of formal social security for wider population.

Strategy - The company offers individual immediate annuity product, group immediate annuity product, a unit linked pension product and a participating pension product. NPS scheme of the government also offers a huge opportunity as at the time of vesting of the corpus 40% has to be annuitized. Due to continuous focus, there is growth in annuity new business by 169% and pension new business under linked segment by 111%. AUM of pension and annuity products account for 12.5% of the total AUM. SBI Life is also one of the insurance companies authorised as Annuity Service Providers under NPS scheme by PFRDA.

B. Risks and concerns

Awareness of the risks faced by a company is very important as it helps in managing the risks proactively. Risks such as change in customer preference, distribution challenges, change in regulatory environment can be estimated and mitigation measures can be planned for. However, risks emanating from black swan events like spread of COVID-19 cannot be forecasted and planned for in advance. While the social and medical consequences of COVID-19 have been significant, the shock to the economy and markets is having a large impact on life insurance companies. The COVID-19 pandemic poses risks such as adverse impact on business growth, mortality, persistency, capital, solvency and liquidity.

Life insurance industry also faces some macroeconomic risks like interest rate change,

slowdown in GDP, adverse change in tax structure etc. Risks emanating from ongoing pandemic for Insurance sector include but are not limited to growth, mortality, persistency and solvency which put short term pressure on the Industry. Insurance companies need to have a robust policy to tackle the risks. Digitization and innovation in all aspects of the functioning of insurance companies is necessary while simultaneously tackling the risks emanating from digitization.

The Company has instituted an enterprise risk management framework which details the governance and management of all aspects of risks that we face. Company's risks and the approach towards managing them has been highlighted in the Enterprise Risk Management section of the Annual Report.

C. Future Outlook

- As the world is experiencing once in a life time pandemic, the insurance industry growth will depend on the successful technological innovation and its adoption into the everyday functioning of the companies, better understanding of customer needs and product innovation.
- As per the economic survey, India is primed for a V-shaped economic recovery with FY 21-22 GDP growth projection at 11% supported by strong economic headwinds and improving macroeconomic fundamentals.
- Expanding young consumer base and increased financial awareness in particular about insurance will be a catalyst for insurance sector growth. Focus should be simple product and distribution structure with increased emphasis on protection as well as Annuity savings products.
- Increased technological awareness at both companies' as well as the consumer's end should be exploited to provide speedy and best in class product & service delivery.
- The future regulatory environment is expected to be stable and well positioned to drive insurance sector growth.
- Efficient investments in human & technological assets would be required to provide a platform for satisfactory growth of all the stakeholders involved.

V. REGULATORY UPDATES AND DEVELOPMENTS

The regulator has released a number of guidelines to tackle the unexpected challenges faced by all the stakeholders of the Insurance Industry. The key

highlights on recent regulatory changes impacting the Indian life insurance sector are as follows:

a) Regulatory instructions / relaxations related to COVID-19

In order to ensure safety of the employees, agents and policyholders of insurers and to protect the interest of policyholder's in the current pandemic situation and lockdown caused due to COVID-19, IRDAI issued various circulars and directions to insurers providing relaxations pertaining to:

- Extension of free look period, grace period and settlement options for maturity pay-out in ULIPs.
- Issuance of insurance policy electronically
- Issuance of e-Certificate of Insurance under Group Insurance Policies
- Dispensing with physical signatures on proposal form
- Facilitation for COVID-19 vaccination for the policyholders, employees and agents and create awareness about vaccination.,
- IRDAI has issued guidelines on COVID Standard benefit based health policy and mandated all insurers to launch a standard short term health insurance policy to specifically cover COVID – 19 diseases. The Company has launched SBI Life - Corona Rakshak, product in compliance with the regulatory directions.

b) IRDAI regulation on Minimum information for Inspection

IRDAI has issued regulations to specify the minimum information and records to be maintained by the insurers, intermediaries and insurance intermediaries in order to enable IRDAI's investigating officer undertake his/her duties and functions in accordance with Section 33 of the Insurance Act 1938.

- Maintain the physical and electronic records and destruction of old records as per the Board approved policy in this regard.
- Records shall be maintained for 10 years (12 years for claim records) or as per extant regulatory requirements, whichever is later, from the date of last transaction / expiry of the policy.

c) Video Based Identification Process (VBIP)

IRDAI has permitted Life and General insurers to carry out "Video Based Identification Process" ("VBIP") as an alternative consent based process of customer identification/ KYC in a paperless, secure, real-time basis for the purpose of customer due diligence.

Management Discussion and Analysis (Contd.)

d) Standard Pure Term and Individual Immediate Annuity product

To bring uniformity in insurance product offering across insurers with simple features and standard terms and conditions with identical product parameters, policy documents and terms and conditions IRDAI has notified Guidelines for standard individual term life insurance product, with named as "Saral Jeevan Bima, and Standard Individual Immediate Annuity Product, Saral Pension". All Life insurers are required to mandatorily offer this product.

e) Increase in FDI in Insurance Sector:

With notification of Insurance (Amendment) Act 2021 limit of foreign investment including

portfolio investment increased from 49% to 74% in Insurance sector.

VI. SEGMENT-WISE BUSINESS PERFORMANCE

The life insurance sector can be classified based on products into participating, non-linked and unit-linked products. Non-linked products are traditional products with a protection and savings element built in or only pure-protection products. Non-linked products are further classified into participating products and non-participating products. Participating products have variable returns, as it is linked to the performance of the insurance company. Linked products' returns, on the other hand, are tied to the performance of debt and equity markets.

New business performance of the Company can be analysed based on the following segments –

Sr. No.	Segments	FY 2021	FY 2020	Product Mix	Y-o-Y	CAGR
				(FY 2021) (%)	Growth (%)	(FY 2016 - FY 2021) (%)

	Total NBP	206.24	165.92	100.00	24.30	23.70

A brief description of the segments is given below:

1. Participating Segment

Participating life insurance products are products where the insured participates in the profits of the underlying investment pool during the term of the policy. These are savings cum protection products that provide a guaranteed sum assured and long term returns through participation in surplus, if any, generated from these policies. The policyholder is entitled to at least a 90% share of the surplus emerging in the participating fund and the remaining belongs to the shareholders. The Company offers participating insurance products that are designed to provide benefits over the entire life of the policyholders (whole life insurance), as well as products that provide benefits over defined periods (endowment life insurance).

New business premium from participating segment constitutes 4.7% of the total new business premium of FY 2021.

2. Non Participating Segment

The non-participating segment comprises of individual savings, group savings and protection segments. These products cover the insured for a specific period and the insured do not participate in profits of the underlying investment

pool. Surplus arising in case of Non-participating business is transferred to shareholders' account on recommendation of Appointed Actuary.

i) Individual Savings

The individual savings segment comprises of an endowment product, a variable insurance plan and an immediate annuity product.

An endowment product pays the sum assured to the beneficiary in case of any unfortunate event before the maturity date or pays the amount to the insured on completion of the specified term.

In a variable insurance plan, the benefits are partially or wholly dependent on the performance of an approved external index/benchmark which is linked to the product.

An immediate annuity product guarantees a defined income, commonly known as pension, for the lifetime of the policyholder thereby covering their longevity risk. These payouts begin immediately on purchasing the product.

New business premium of individual savings segment constitutes 10.8% of the total new business premium for FY 2021 and has increased from ₹ 15.09 billion in FY 2020 to ₹ 22.36 billion in FY 2021, registering growth of 48.2%.

ii) Group Savings

Group savings segment consists of group fund management products and an immediate annuity product.

Fund based group insurance products cater to the needs of employers looking at financial solutions to fund their employees' benefit schemes including gratuity, superannuation and leave encashment.

Group immediate annuity product is primarily for corporate clients (employer-employee groups) and other informal groups, who wish to purchase an annuity to provide for their annuity liability.

New business premium from group savings segment has increased by 69.0% in FY 2021 as compared to FY 2020. Increase in Group annuity premium is 634% and increase in Group savings premium excluding Annuity is 29%.

iii) Protection

The protection segment includes both individual as well as group products.

Individual protection products offer benefits that are guaranteed in absolute terms on occurrence of a particular event during the policy term. They expire if the designated event does not occur. The risk covered in most cases covers death of the insured but may also include permanent disability or diagnosis of critical illness. This segment also includes health products which insure against expenses arising due to medical

emergencies such as hospitalisation or critical illness.

Group protection segment includes credit life products which provide insurance to banks, financial institutions in relation to repayment of outstanding loan amount in event of death or disability of the insured members of the group.

Group protection segment also includes products which provide life insurance coverage to a group of individuals, where, upon the death of a member, the sum assured is paid to the member's nominee.

These products are employee- employer schemes where the Master Policy holder is the employer and members are employees.

New business premium from protection segment has registered a strong growth of 18.1%. Due to continuous focus, Individual New Business Premium for the Protection segment has increased by 40.4%.

3. Linked Segment

Linked products provide the benefit of investment as well as protection. They provide returns directly linked to the performance of the underlying funds and have a transparent charge structure which is explicitly stated at the outset. The investment risk on these products is borne by the policyholder. This segment also includes a fund based group gratuity, superannuation and leave encashment product for employers.

New business premium from linked segment comprises 41.7% of the total new business premium of FY 2021, has increased from ₹ 80.75 billion in FY 2020 to ₹ 85.89 billion in FY 2021, registering growth of 6.4%. The growing popularity of linked products is due to favourable market movement over a few years.

¹Interest and Dividend includes net of Accretion of discount/(Amortization of premium)

Total income from investment was ₹ 316.27 billion in FY 2021 comprised of ₹ 244.27 billion under unit-linked portfolio and ₹ 72.00 billion under traditional portfolio. Total investment income has increased by ₹ 287.54 billion from ₹ 28.73 billion in FY 2020 to ₹ 316.27 billion in FY 2021, mainly due to increase in change in fair value on account of rise in valuation of equity portfolio under linked segment. The yield on investments increased from 2.45% in FY 2020 to 20.52% in FY 2021.

Traditional Portfolio (Par and Non Par):

Total investment income under traditional portfolio has increased by ₹ 10.93 billion from ₹ 61.07 billion in FY 2020 to ₹ 72.00 billion in FY 2021 majorly due to following:

- Interest income under traditional portfolio has increased by ₹ 6.33 billion from ₹ 49.26 billion in FY 2020 to ₹ 55.59 billion in FY 2021 due to increase in investment of debt securities by 28.0% under traditional portfolio.
- Net profit on sale of investment under traditional portfolio has increased by ₹ 2.93 billion from ₹ 9.61 billion in FY 2020 to ₹ 12.54 billion in FY 2021 due to profit booking.

Unit Linked Portfolio:

Total investment income under unit linked portfolio has increased by ₹ 276.61 billion from ₹ (32.34) billion in FY 2020 to ₹ 244.27 billion in FY 2021 mainly due to fair value change. Fair value change has increased by ₹ 235.30 billion from a loss of ₹ 80.21 billion in FY 2020 to a gain of ₹ 155.14 billion in FY 2021 primarily due to mark to market gains in the unit linked segment in FY 2021 as compared to previous year. During FY 2021, Sensex has increased by 68.0% as against an decrease of 23.8% in the previous year. The change in fair value is an off-set with the corresponding increase in unit-linked liability (fund reserves) as it is pass-through to linked policyholders'.

The performance of the fund vis-a-vis the benchmark as on March 31, 2021 is given below:

The internal audit plan covers Information System Audit, different process audit as well as transaction based audits at the Head office, Regional Offices and across various branches of the Company. The approach of the audit is to verify compliance with the regulatory, operational and system related controls.

X. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES

We believe that our people are one of our most important investments and greatest assets. We are committed to attract, develop and retain a diverse population of talented, qualified and skilled employees at all levels of our organization and being among the industry's leading employers. To achieve this we promote a collaborative and transparent culture which rewards merit and high performance.

In this extraordinary year, we continued to stay focused on safety, health and wellbeing of our employees while they were providing essential services to people across the country. We were able to respond swiftly to the ever changing situation and ensure continued availability of services to our customers by embracing technology & acclimatizing to the new normal, while keeping employee safety as our topmost priority. We started with extending work from home facility to critical resources which was subsequently extended to all employees.

Some of the employee centred initiatives taken during the FY were coverage of Covid-19 expenses for tele-consultation services, diagnostic tests, medicines, ambulance charges, hospitalization expenses etc for employees as well as their dependent family members. We also extended facility of special leave to employees in case they or their family members tested positive for Covid-19. Frequent health and wellness sessions were conducted online for employees and their families providing a platform to connect with the experts to address their concerns. Senior management reached out to employees through E - Town hall meetings to convey the organizational initiatives, seek employee suggestions & resolve employee queries. We also ensured that all the benefits and rewards for the performance exhibited by employees were paid on time.

Employee recruitment continued to be focused on hiring the best fit candidates. With the social distancing norms in place, all our induction programs were conducted through digital tools with employees participating remotely. Organization also put extensive L&D efforts to upskill and reskill employees.

For us, each of our employees is a brand ambassador who represents our brand & conveys our values to the customer. Happy & Engaged employees create better experiences, which lead to more satisfied and loyal customers and, ultimately, brand and company growth. In our continued engagement efforts, we conducted our annual get together, 'Sangam', virtually for all our employees on a pan India level with the use of technology. The theme for this year's event was 'Shine Together, Thrive Together'.

The company, one of the most trusted private Life insurance brands, is now more than 20 years old. Our family has grown from 16,759 employees as on March 31, 2020 to 17,464 employees as on March 31, 2021 i.e. a growth of 4%. The average age of employees is around 36 years. The average tenure is around 5 years which demonstrates a sense of belongingness resulting from the mutual trust between employees and the organization.

It is our sense of resilience and the indomitable spirit that has helped us in making steady progress towards realising our vision 'to be the most trusted and preferred life insurance provider' in India.

3. INDUSTRY AND COMPANY OUTLOOK

The COVID-19 pandemic has taken more than a million lives as the toll continues to rise. Many countries are witnessing their second and third waves. During such times, there was an urgent need for lifting of trade restrictions on medical goods & services, financial assistance for vulnerable economies to cope with the impact and get back to some sort of recovery. Recent data has suggested that the global economy is slowly on the recovery path, after the great lockdown in the first half of the fiscal year. The swift regulatory and monetary policies have enabled the GDP recovery in the subsequent half of the year.

As the world continues on the path of recovery from the pandemic, India witnessed a tremendous contraction in GDP of 24.4% in the 1st quarter of this financial year. This contraction was bound to occur on account of complete lockdown across the entire country. The 2nd quarter of the year witnessed recovery with the GDP contraction reducing to 7.5%. The real GDP growth rate for FY 2021-22 is estimated to be 11% which would be supported by the mass vaccination of the huge population, increase in consumptions and various stimulus packages by the Government.

There was great uncertainty due to the pandemic but as we begin recovery from the same, insurance industry has demonstrated strong recovery. Further, innovation and technology continues to help

Directors' Report (Contd.)

the industry to cope up with the evolved needs of the stakeholders

The global life insurance market grew by 2.2% in 2019 with premium collection of USD 2,916 billion. As regards the Indian markets, the Total Rated Premium of the life insurance industry was reduced by 14% Y-o-Y. As regards the Individual Rated Premium, there was a marginal increase of 3% from ₹ 734.88 billion in FY 2019-20 to ₹ 756.58 billion in FY 2020-21. Thus, the industry is witnessing traction and expects to growth in the future.

Key challenges are listed below:

Second wave and a possible third wave of COVID-19: Our country is already into the second wave, which has caused more disruption to health and economic activities. Currently, the biggest challenge is to cope up with the opening up of all the activities and curbing further spread of virus at the same time as this is going to be difficult to find the right balance. The first lockdown has caused considerable damage to the economy and with the country already into the second wave, and a possible third wave, the recovery seems difficult.

Low consumption levels threaten to slow down any possible recovery of the economy. The best possible solution, which is vaccination of the entire population is also such a challenging task with the country's population and lack of proper distribution system.

All these factors would determine the revival of the economy and its impact on life insurance industry.

Cyber-crime: With the need to provide Work from Home (WFH) facilities to employees, the Company faces the risk of cyber-crime. It is important for an organisation to understand that cyber-security is very crucial in such times. During the lockdown, cyber-attacks have increased manifold. Thus, one of the biggest threats to the Company is the possibility of cyber-crimes, which may cause significant and irreparable damage. Thus, there is an utmost need of secure networks and stringent security of our IT assets to ensure safety.

Rising customer expectations: With the increasing competition and use of technology in insurance business, the customer expectations has been on the rise. Creating unique and personalized customer experiences has been a priority for many years, indicating that many companies are still playing catch-up and remain vulnerable to non-traditional players. Thus, better customer experiences have been a priority for years — and will remain one for the foreseeable future.

Regulatory update:

Regulatory instructions/relaxations related to COVID-19

In order to ensure safety of the employees, agents and policyholders of insurers and to protect the interest of policyholder's in the current pandemic situation

4. COVID 19

The COVID-19 pandemic has led to a great loss of human life worldwide and presents an unprecedented challenge to public health, food systems and the world of work. The economic and social disruption caused by the pandemic is devastating. The Company has responded swiftly to the pandemic, while ensuring business continuity along with safety and security of all the stakeholders. Listed below are the various measures undertaken by the Company.

Business Continuity Plan

The impact of COVID-19 pandemic was felt across the entire country and across all economic sectors. In initial stage, the Company responded actively and promptly with the Business Continuity Plan (BCP) to enable operations to run with minimal disruptions. With the onset of the lockdowns, the Company made a quick transition to Work from home (WFH), also ensuring secure connections for data safety. The Company also continued to deliver to its customers by providing 24x7 availability through our digital platforms.

Work from Home & Employee Safety

In this extra-ordinary year, we continued to stay focused on safety, health and wellbeing of our employees while they were providing essential services to people across the country. We were able to respond swiftly to the ever changing situation and ensure continued availability of services to our customers by embracing technology & acclimatizing to the new normal, while keeping employee safety as our topmost priority. We started with extending work from home facility to critical resources which was subsequently extended to all employees.

Some of the employee centred initiatives taken during the FY were coverage of Covid-19 expenses for tele-consultation services, diagnostic tests, medicines, ambulance charges, hospitalization expenses etc for employees as well as their dependent family members. We also extended facility of special leave to employees in case they or their family members tested positive for Covid-19. Frequent health and wellness sessions were conducted online for employees and their families providing a platform to connect with the experts to address their concerns.

Opening up

After the announcement of staggered unlock by the Government, the Company ensured strict compliance with the guidelines. Temperature checks, maintaining rosters, tracing and physical distancing was strictly complied with the opening of offices.

Customer focus and engagement

The Company continued to communicate with its existing customers to make them aware of services that they can avail and ensure continuous customer engagement. Post gradual unlock by the government, the Company was able to scale up the operations with the help of the vast network of various distributors. The Company's robust digital platform enabled our distributors to connect with customers digitally to enable sale of new policies.

Risk Assessment

Covid-19 virus continues to spread across the globe including India, resulting in significant impact on global and India's economic environment including volatility in the capital markets. The company has assessed the impact of the pandemic and has made additional provision of ₹ 183 Cr. Covid-19 impact is still evolving and there is uncertainty regarding the future impact. Company is well capitalised and maintains a healthy solvency ratio of 215% as at 31st March 2021. The Company will continue to closely monitor any future developments in this regard.

Stricter underwriting and enhanced medical examinations are undertaken in view of the current situation so as to mitigate the risk of covering sub-standard lives.'

The investment policy of the Company is to widely diversify the investments into Government Securities, Bonds & Debentures, Equity Shares, Money Market Instruments, Fixed Deposits, etc. A majority of the investments of the Company are in large cap Nifty 50 Index stocks, sovereign and AAA rated securities. We have evaluated and understand that there is no exposure to industries which will materially affected us because of the pandemic. The Company assesses the impact of Covid-19 prior to investing.

The Company has a robust Business Continuity Management (BCM) which has helped it in successfully managing the pandemic. All critical activities were successfully done on 'Work from Home' (WFH) basis. Adequate number from WFH connections ensured that the Company could carry out the year end activities (including statutory audit and announcing the financial results) on a timely basis. All statutory filings were done within the timelines specified by the relevant authority / regulations.

The Company made adequate arrangements for servicing of customers. Routine operations including logging in new business proposals, issuance of policies, collection of renewal premiums, processing & payout of survival / maturity benefits and settlement of death claims are being carried out. Salary to employees, commission to intermediaries & vendor invoices are being processed and payouts being released in a timely manner.

Directors' Report (Contd.)

Adequate measures in terms of sanitizing all offices, vaccinating employees & outsourced staff and closing / opening of offices are done in line with Local, State & Central Government prescriptions. Requisite Information security measures and sensitization of all employees in light of WFH is being done regularly.

Future outlook

It has been more than a year now, since the COVID-19 outbreak and still all businesses are facing the hardships. The second wave of COVID-19 in India continues to affect the economy adversely. However, with the roll-out of vaccination drive, we are hopeful that the impact of COVID-19 would gradually decline. The Company will continue to closely monitor any further developments relating to COVID-19 which may have any impact on the business and financial statements.

5. DIVIDEND AND RESERVES

IRDAI vide its circular no. IRDAI/F&A/CIR/MISC/099/04/2020 dated April 24, 2020 on prudent management of financial resources of insurers in context of COVID-19 Pandemic, had urged all insurers to take a conscious call to refrain from dividend pay-out from profits pertaining to FY ending March 31, 2020 till further instructions.

During the year, the Company has made policy payout (net of reinsurance) of ₹ 214.93 billion to individual policy holders and the group master policy members

We effectively organised and responded to crisis situation created by the outbreak of Covid-19 pandemic. During the pandemic period, the Company adopted various digital initiatives / strategies for end-to-end digital customer on-boarding to customer servicing. Customer experience has taken a new meaning against this backdrop. While working towards raising the bar in 'End-to-End' digital services, the Company has also ensured the health & safety of its stakeholders viz. Customers, Distributors, Employees and Business Partners.

With the help of newer technologies like Artificial Intelligence (AI) and Machine Learning (ML) capabilities, we have implemented the automation

Directors' Report (Contd.)

of high-volume and repeatable tasks. Further, Robotic Process Automation (RPA) helping in scalability in the long - run and to reduces the cycle time for processing of activities while keeping in mind error-free delivery. The introduction of Robotics has given a major boost to process automation and has the power to replicate human tasks without affecting the underlying systems.

Moreover, with an expeditious online Claims processing system in place, we have attempted to provide pragmatic help to customers in financial distress. Keeping in mind the situation and the substantial demand for digital servicing, the shift to online and digital servicing channels has proven effective in the day-to-day functioning of our organisation.

The snapshot of various activities undertaken by various departments under the overall Operations Business Unit, which are highlighted below:

The list of activities executed by the Company which benefitted more than one department in the Operations team are as below:

Robotic Process Automation (RPA):

Robotic process automation (RPA) is an emerging form of business process automation technology based on the notion of software robots. It uses software with artificial intelligence (AI) and machine learning (ML) capabilities to handle high-volume and repeatable tasks. RPA helps in scalability in the long run and also helps in decreasing the cycle time for processing of activities. Robots can replicate human tasks without affecting the underlying systems; this can lead to manifold increase in productivity levels without a corresponding increase in manpower budgets. Depending on the requirements on the process, robotics can help in making processes run 24x7x365, resulting in increased stakeholder satisfaction and service availability for customers. Under this project, currently, 25 processes in operations with a high ROI (Return over Investment) were taken up for automation in FY 2021.

Smart Care: (Customer Engagement app.)

The 'Smart Care' has been developed with the objective of re-defining the digital servicing experience of our policyholders as well as prospective clients, keeping in mind the expectations of the present-day users with digital platforms. The Progressive Web Application (PWA) platform makes this Smart Care application device agnostic; it provides the user with seamless experience and to have the same functionalities and experience on any device ranging from mobile to web applications. The user interface developed is very user friendly and has many features that will help engage the user right from choosing the right insurance up to maturity / claim settlement) of the policy. A host of self-servicing options also have been provided that will enable the user to transact

on their policy at the click of a button with minimum dependency. The beta version of the application was launched on 3rd February, 2021.

Leveraging IIBI information in risk evaluation:

Insurance Information Bureau of India (IIBI) maintains a central repository of life insurance policies of participating insurance companies. The participating insurers get the facility to raise query on this entire database. It is particularly used at the time of New Business Underwriting and also during Claims assessment as it helps in getting all the information in respect of the insurance policies held by the Proposer / Life Assured taken from other insurance companies. Other information, such as whether any of the LA's proposals was ever declined / accepted with extra rating etc., by other companies is also made available. This information proves very vital in detecting various Non-disclosures / claim frauds. This also helping the Company to take the right Underwriting decisions with proper pricing.

SBIL was the first Company to have an API Integration with IIBI wherein this information is received by us directly on real time basis, as and when we raise query for vital information on proposer / life assured.

Customer On-boarding experience:

New Business Department is pivotal in ensuring a smooth on-boarding experience to the customers as well as sourcing partners. The initiatives taken throughout the year are focussed on improving the customer on-boarding experience through improving the processes thereby leading to faster issuance, digitization and better communication.

● **Introduction of Alternate Sales Process -**

With the outbreak of Covid-19, the traditional form of customer interaction and business sourcing was no longer possible. This gave impetus to development of Alternate Sales Process (ASP) on MConnect for uninterrupted customer on boarding through Digital platform. With the launch of ASP process, the entire on boarding journey became 'Paperless – Penless', wherein no documents were required to be provided by the customer towards KYC or signature verification. This has been achieved through two digital KYC options introduced in MConnect i.e. ASP eKYC (OTP based Aadhaar verification process) and ASP Video KYC (Video based verification process).

With the implementation of ASP process, we have been able to completely eliminate the need to submit physical documents or the movement of physical document across offices. Further, we have also been able to create a complete digital ecosystem for the on boarding process.

- NPS Online -**
Your Company has introduced a digital onboarding module specifically for onboarding of NPS (National Pension System) Proposals. 'Parivartan' in NPS has levered SBI Life to a leading position in Private insurance sector and has made life easy for all stakeholders. Improved service standards, removal of manual activities such as data entry and logistics, faster issuance TAT reduction in cost to Company are other important benefits of Parivartan.
- Automation of Excess Deposit Refund -**
One of the important parameters of PPI (Protection of Policy Holder Interest) guideline is to refund any Excess Deposit paid by customer towards the policy within a stipulated TAT. We have moved to a complete seamless movement integration of various systems like Ingenium (our Policy Management System) & I Pay (Integrated Payment module). This has resulted in faster payouts with less of manual intervention and efforts thereby enabling the Company to better adherence to PPI guidelines and other Regulatory provisions.
- Introduction of Customer Services on WhatsApp -**
SBI Life has introduced various Push Services on WhatsApp platform. We have now introduced a concept of "Service on Demand" wherein information will be imparted to the customer on request by the customer on WhatsApp. With the help of these services, we have empowered the customer to get information as per their needs and convenience by maintain all the required security and safety of the same. Various New Business services such as Proposal Status, Shortage link and Soft Copy of Policy Document have already been made live under this category
- Email ID verification -**
Email Id is one of the most critical contact details shared by the customer taking into consideration the substantial number of communications sent to customers through email. Hence, it is critical to ensure that the email Id as shared by the customer is correct and it pertains to the proposer. In order to facilitate the capturing and storing of correct email Id, Company initiated email Id verification process, wherein the customer verifies the correctness of the email Id mentioned in the proposal form. This in turn will help to ensure that communication is sent to customers on correct email ids for posterity.
- Real Time Bank Account Verification in Workflow -**
Capturing and storing of correct bank account details of the client is of utmost importance as these bank account details are used for making various payouts to customers. Hence, it is critical to ensure that the account details being captured at the time of proposal on boarding are authentic, still valid and also pertain to the customer, for which Penny Drop service has been implemented. This service helps to verify the authenticity of the customer's bank account number mentioned in the proposal. This gives your Company the confidence that the amount due to the customer has been credited to the correct account and that the customer receives the amount on time.
- Implementation of Realtime services- Dedupe and Rural Services Mapping -**
Your Company has appointed a vendor who has a software with the ability to match the details of any new business proposer with our existing client database and provide us different matches with the probability of the matching.

Apart from the dedupe service, another service has been integrated to identify whether policy - holder pertains to Rural or Urban area. An algorithm developed for all the new cases issued the service maps the cases as Rural or Urban based on the communication address of the customer against Census data of 2011 on a real time basis. This helps us in submitting the details of Rural Policies to IRDAI, to ensure submission of the IRDAI Rural Regulation.

Underwriting process simplification:

In view of the pandemic situation, Work From Home (WFH) was the only mantra for business continuity. The WFH facility was not only required for company employees but for vendors also. There was need to build fool-proof systems to facilitate processing of various business activities. The processes were revisited with an aim to ensure business continuity. Also, the application is integrated with various external systems like CRIF, Credit bureau, IIBI, NSDL, vendors' system and Ingenium (our Policy Management Systems). Seamless synchronization of systems was a critical task, which has been implemented, successfully resulting in a fully integrated Workflow system that is being used by various stakeholders.

Described below are the major Digital Enablers and process changes your Company introduced in the Underwriting Department during the year under review. These were aimed at improving the overall process efficiency at the same time ensuring proper risk mitigation. The concept was improvised in accordance with the ideology of Digital Transformation and Customer oriented approach, aimed at reduction of issuance TAT, thus ensuring improved customer satisfaction.

Underwriting department played a key role in devising and implementation of Alternate Sales Process for On-Boarding of New Business Proposals.

Directors' Report (Contd.)

Other Major Initiatives/process changes implemented in Underwriting Department are as follows:

- **UW Checks at sourcing -**
These aim at guiding the sales person on proposal quality with underwriting rules incorporated in mConnect through rule engine. Basic checks introduced on parameters including Occupation, Qualification, Age and Annual income, etc. For all eligible cases user can continue with proposal, which ensures minimal requirements and faster proposing / issuance.
- **Improved User Experience for Frontline Sales using OCR Technology -**
Auto capture of data using Optical Character Recognition (OCR) technology has ensures higher accuracy, reduced manual data entry with improved accuracy.
- **Require management through Bitly link -**
Requirements including Consent for Revised terms, various Questionnaires required for Underwriting purpose and Shortage received through bitly link. Pending requirements are being flagged through SMS bitly link to customer's registered mobile number for Consent for extra premium, Shortage payment and various medical & non-medical questionnaires / requirements.
- **Digital Moral Hazard Report: (eMHR / Short MHR/ MHR through BITLY Link – to be submitted by the sales intermediary) -**
Captures detailed and meaningful information from the primary underwriter (front end sales intermediary) who at times is the only person to meet the customer thus maintaining authenticity, improving legibility, providing convenience to the issuing authority and ensuring that MHR is received from the correct authority.
- **Propagating Videography -**
In Videography certified Third Party Administrators (TPA), technician conducts medicals through home visit. Equipped with ECG and medical kit for doing blood test, MER is conducted through video conference with doctors at Head Office of TPA. Benefits include Reduced TAT, Real time ECG verification to eliminating wrong ECG's, Transparency in medicals conducted and Reduction in fraudulent medicals.
- **Profile score Underwriting -**
Parameters like age group, occupation, qualification, product type and other factors like Good persistency, Absence of Claims and fraud, Customer location, various rating agencies scores are considered. The model provides relaxed financial underwriting including reduced documentation. This has helped minimize requirements and improve AUTO underwriting percentage.

- **Online IMPS Bank Verification -**
Online bank verification (Digitalized collection of bank account details) has been introduced in MConnect, which validates customer bank account details (Name, Bank Account number and IFSC code). On successful verification, the proposal would be processed without asking for documentary evidence for bank details.
- **Medical Grid Relaxation (in pandemic to Tele MER) -**
In view of the pandemic situation and subsequent lockdown, medical business was impacted to a certain extent. Tele MER proved to be a quick resolution. In consultation with Reinsurers and Actuaries, full medicals were converted to Tele MER / Video MER. This has resulted in conversion of medical business with reduced TAT without compromising on the risk.
- **Volume Management -**
Underwriting volumes were managed effectively by process changes, coordinating with Regional Underwriting Units (RUUs) and with vendors. Auto underwriting percentage plays a crucial role in management of volume and to maintain non-medical TAT, at desired level. The Auto underwriting percentage has been maintained around 42% to 45%. Various steps were taken by the Company to improve the auto-u/w percentage, which has later been improved and maintained at above level. This has helped the Company in managing the volumes well.

Policy holder services and customer retention:

Policy Servicing is a critical aspect of a policyholder journey with the Company as they gain several experiences during the policy. During the times of pandemic, it became outmost important to provide customers with digital servicing platforms for faster hassle-free services and also abiding to the new normal of social distancing.

Similarly, Renewals is an important function of the Company and this helps the Company to understand the quality of sales. It gives an insight into what the customer feels about the product, the Company and its services rendered. This is also an important parameter in assessing the *persistency of the policies*. This also gives the Company a view of how long the customer might stay with the Company and keep on paying their premiums regularly. 87.9% 13th month persistency and 61.6% of 61st month persistency is an exhibit of customer retention.

The Company has taken several steps to enhance customer experience in Policy Servicing and improve the Renewals thereby resulting in higher persistency of the policies. Longer the duration and good persistency of the policy creates great value for the customer, Company and shareholders. Major initiatives being given below:

Revival campaign – Customer Retention initiative:

During the period under review, a very successful Revival Campaign was launched with the motive of reviving lapsed policies and rebuilding the relationship with our policyholders. Over 1 lakhs policies were revived leading to a renewal premium collection of ₹ 508 Cr. Strategic inputs generated through Renewal Analytics were utilized to identify likelihood of revival of any policy. Call centre engagement was done based on the Analytics by targeting the Likely & Moderate bucket customer through specialized callers. This has helped the Company to improve the persistency. Higher rate of revivals has been made from 61st Month (19.75%), 49th Month (14.29%) and 13th Month (13.28%).

Digital Initiatives -

SBI Life Insurance Co Ltd. is steadily continuing its path of Digital transformation by adopting various Digital initiatives. The whole motive is to make the transition from Customer Satisfaction to Customer Delight. Our Digital Platforms are contributing towards making processes & services faster and automated. Listed below are some of the initiatives taken by the PS / Payouts and the Renewals Vertical during FY 2021. These initiatives were introduced for customers, both internal and external.

Digital Platforms for Policyholders:

- **Easy Access -**

Enhancements were made to the Easy Access App (Customer Engagement app) to enable customers to place requests for FLC, Partial Withdrawal, LTR Withdrawal, Correction in personal details. These requests are being authenticated using OTP and Geo Tagging of Location based verification.

- **Customer Self Service Portal – (CSSP)**

Similarly, enhancements were made to the CSSP enabling the Customers to submit COVID and NRI questionnaire along with an e-DGH revival request. It should be noted that during FY 21, the Digital Transactions on our self-service portal increased by a staggering 124% compared to FY 20.

- **Smart Care App -**

The latest customer app Smart Care, has been enabled with various functionalities to provide policyholders a digital platform to service his policies with SBI Life. They can create service requests, download quotes and forms, generate statements, pay premiums. On successful launch of the same the current Easy Access and CSSP will integrate into this app making this the only app for Customer engagement.

- **Missed Call Service was enabled for Customers -**

When customer gives a missed call to the designated number, a payment link is sent to the customer depending on their policy status.

- **Mobile POS -**

Premium collection through Cheque / DD is an effort oriented, time consuming process. Hence, your Company adopted the “mPOS” (Mobile Point of Sale) device for Renewal premium payments. mPOS is a portable point of sale which functions as a register, it's an ideal way for businesses to take card payments on the go. Usage of the m-POS machine eliminates the need for Cheque / DD collections / submission to branch, manual cashing, awaiting realization and chances of CDA of instrument. It is a real-time flow of transactions, auto-cashiering and realization. Selected IAs were given mPOS devices enabling them to collect premium on the go.

- **BBPS Online Payment -**

In our continual effort to provide policyholders a base for making digital payments, SBI Life is onboarded as a Biller with NPCI for their popular bill payment service known as Bharat Bill Pay Services. This has opened up a platform for SBI Life to be able to collect premium through policyholders having their accounts with banking and non- banking institutions.

- **OneConnect -** A single page module is developed where the policyholder can view, update, verify his personal details, like email id, PAN, account number, register for CSS, auto-pay, demat, **WhatsApp** services.

With the growing popularity and usage of **WhatsApp** for providing information / services to policyholders. We also broadened the scope of WhatsApp use by enabling the following functions -

- Sending Renewal intimation,
- Payout details to policyholders
- Enabling options for generating Premium Paid Certificates, Renewal Premium Receipts, TDS Certificate
- Using it as a medium to popularize various servicing options

- **Sales Digital Platforms -**

Similarly, in order to disseminate information to sales team, we brought in further enablement in the Smart Advisor app (Sales Intermediary app) for Sales Monitoring of unrealized premium data and Sending e-Mandate link in addition to the existing feature of tracking unpaid dues. Further, integration of the SMS functionality was made for the Sales Intermediaries. Geolocation feature for Sales intermediaries was enabled - now Google Map is integrated in the mobile app, which shows Renewal dues details, location and distance-wise.

Directors' Report (Contd.)

Assisted Digital servicing is introduced with collection of revival requests through Smart Advisor. LM/CIF can simply login to Smart Advisor and fill eDGH, Covid Q in the app, complete KYC, collect online premium and complete the revival initiation process under one umbrella.

- **Enhancing Process Efficiency -**

Several projects have been conceptualized and developed in order to bring in efficiency in the current processes handled in SBI Life, keeping in mind both branches and CPC. Some of the important projects has been enumerated below:

- **Revival Workflow:** Development of revival workflow was completed and introduced done to bring in seamless revival of policy. Today we have multiple resources for receiving revival request - customer walk-in, sales request, online revival request. All such request has been brought on the common platform of processing the request. The rule-based workflow provides a better risk control on the requests received in a transparent manner.
- Enhanced the scope and functionality of CRM module of SBI Life, to make it more informative, inclusion of straight through processing, workflow management.
- Robotics Process Automation (RPA) was successfully rolled out. The processes identified were repetitive manual tasks nature. We have been able to gain faster processing, better reconciliation, error free smoother monitoring in terms of flow of transactions.

- **Smart Advisor - Desktop Version -**

Access was provided on the mobile platform to all users across the Regions. This was enabled during the initial phase of the Lockdown to help in remote servicing during WFH phase. It was enabled with the following functionalities

- The Renewal due list was updated and details were made available on this app.
- The granular data with regards to Persistency was made available. This platform was fully leveraged during the lockdown where our staff in the Region / Branches effortlessly switched to Renewal follow up through their Mobile Handsets.
- Revival Campaign updates were made available on the Smart Advisor (Desktop Version).
- Dashboards to display Digital Campaign Data (Region/HPC and Primary Branch wise) were made available.

- Updating and view rights were made available in order to update the calling disposition and sub dispositions.
- Different month-wise persistency for various channel were also updated for intermediaries.

Claims settlement – the ultimate customer service goal:

Claims management is at the heart of any insurance company. Today, when product offerings from Life insurance companies are similar in nature, efficient claim management can be one of the differentiator.

Year 2020-21 had presented some unique challenges in the form of a pandemic, sudden lockdowns resulting in uneven claim intimations etc. FY 2021 also saw surge in total claim intimations under, both, Individual and Group Portfolio. Total claim intimation jumped by 40.66% as compared to FY 2019-20. Despite this surge, Total claims settlement for FY 2020-21 stood at healthy 96.1% and Individual claim settlement stood at 93.1%.

As far as Living Benefit Portfolio is concerned, your Company has processed highest ever payouts. Total Survival benefits transactions processing stood at 3.43 lakhs. In the year under review, the Company has also processed another 2.17 lakh policies for maturity payout. Payout involved in Individual living benefit portfolio stood at ₹ 74.28 billion. 98.85% of these payouts were made thru EFT bettering last year's ratio of 98.54%. This was achieved, despite lockdown constraints, which made timely document submission difficult for policyholders.

Covid related Claims:

Your Company has reported COVID Claims amounting to ₹ 4.11 billion (Gross of reinsurance) during the year.

Digital Initiatives / Enablers to assist claimants & claim processing:

- **Option to upload Living Benefits documents in Easy Access app -**
SMSs are being sent to policyholders whose policies were due (either Maturity / Survival Benefits) with Bitly links for accessing SBI Life's "Easy Access" mobile app. With this link, policyholders could upload the required documents such as bank account proof, KYC docs and scan copy of policy document. This has played vital role in last FY since this option has enabled policyholders to submit necessary docs right from their homes without need of physical submission
- **Introduction of simplified Maturity process -**
In FY 2021, we have started processing living benefit claims (up to payout of ₹ 5 lakhs and with the exception of assignment policies), on basis of the bank account details available with us post verification through NPCI / IMPS and without insisting for submission of original policy

document. This simplified maturity process along with online upload option as mentioned in point (a), has ensured better YoY performance in terms of 'On or Before Settlement' despite lockdown constraints.

- **Risk Score for Early Claims -**

Each year, we have seen growth in claims numbers and this year was no different. In both Early and Non-Early portfolio, we saw surge in intimations. Early claims needed to be investigated and till now the process of subjecting the case to investigation was a manual activity. Not all claims that are investigated are repudiated, which mean there was need of a predictive / analytical model to identify cases for either 'likelihood of a claim being a Fraud / misrepresentation case' or 'probability of claim being repudiated'.

In FY 2021, "Risk Score" was implemented for Early Claim. This analytical model provides a predictive score as well as Red-Amber-Green (RAG) categorization indicating the probability of 'Fraud Risk'.

- **Decentralization of Non-Early Claims -**

This year, we have witnessed a whopping 85% jump in Non-Early Claims. To ensure faster processing and to facilitate / enable regions, we have enhanced regional limit to ₹ 15 lakhs from earlier ₹ 5 Lakhs. This has facilitated timely processing of claims despite surge in intimations and lockdown / Work from Home constraints.

Post Issuance Profile Verification (PIPV) Process -

In view of revised Section 45 of the Insurance Act, profile verification of high-risk cases, through external investigation, was started from April 2017. This exercise has helped us in early identification of fraudulent cases and initiate appropriate action to curb recurring frauds.

In the year under review, Company cancelled 371 policies Post Issuance Profile Verification (PIPV) as against 294 policies cancellation in FY 2019-2020. These policy cancellations have helped us to reduce our repudiation ratio by 1.03%. Sum Assured for policies cancelled under PIPV process is ₹ 21.76 crores.

Group business process redesign:

The core activities of the Group Operations department involve processing of New Business generated through Group Term Insurance, Fund Management & Group Claims Management, including PMJJBY. Apart from this, servicing Group Corporate & Group Non-Corporate Customers. With the focus on Digitization, Process improvements & Enhancing Customer Experience, following initiatives were undertaken during the period under review.

- **Digital On-Boarding for Group Products -**

Towards facilitating digital On-boarding under various Group insurance products (Sampoorn

Suraksha, Kalyan Ulip & Cap Assure Gold etc.) provision for digital downloading & submission of master proposals form was created.

- **e-Certificate of Insurance (COI) & Annuity Certificate -**

In line with IRDAI guidelines wherein Insurers can promote e-COI, Bitly SMS, WhatsApp, email, to ensure better delivery of COI's, and support green initiatives to align with Digital India. For Group customers provision was created for sending the COI & Annuity Certificates through (1) SMS Bitly Link (2) Availability on Group Customer Portal (3) Availability on Group Corporate Portal.

- **New Enrolments under YONO Insta Suraksha (Banks app) -**

During the period under review, a total 6.29 lakhs new members were enrolled, thus total lives covered under master policy stand at 7.25 lakhs, as on March 31, 2021. In this policy group members can avail upto a maximum of ₹ 40 lakhs sum assured risk coverage just on three clicks, a most seamless process enabling issuance of e-COI instantly upon completion of on-boarding process. This is by far the best example of close integration with the banking partner app to market Life Insurance to its customers through API integration.

- **Group work flow application for Processing GTI Business -**

Work flow Module for end to end system processing of Group Term Insurance New Business and Renewal Business was established. This has helped in Real time tracking of cases & status availability thereby eliminating the person dependent processing.

- **Digital procurement of e-CHQ -**

In order to meet changing requirements under the GTI product member level Declaration of Good Health & Covid Questionnaires, we switched over from manual collection of CHQ / DGH to digital modes. Facility was created for digital submission of Common Health & Covid questionnaire through bitly Link to remove time - consuming physical movement of documents with added convenience to customers.

- **New Enrolments under PMJJBY Scheme -**

During the period under review, 80.19 lakhs fresh members were enrolled through various partner Banks. During the corresponding period last year, 51.37 lakhs members were enrolled. There is a growth of 56% in new enrolments under PMJJBY Scheme during the period under review. As on March 31, 2021, there were total 1.73 Crores active members under PMJJBY Scheme, highest in the private sector life insurance segment.

Directors' Report (Contd.)

- **Settlement of claims under PMJJBY Scheme -**
During the year under review, the Company has settled 17,820 claims thereby achieving a claim settlement ratio of 99.94% under PMJJBY Scheme.
- **Virtual Account for Premium Remittance -**
For facilitating the premium payment & premium allocation, separate Virtual Account Number (VAN) was created for master policy holders. VAN a technology solution that serves the purpose of masking actual account number and managing real time status with remitters details.

Customer grievance redressal and engagement:

The Client Relationship Department plays a pivotal role in ensuring that Customer Queries and Grievances are resolved swiftly to the full satisfaction of the customer and within the defined timelines. Client Relationship includes both Reactive Functions (efforts to solve customers' issues) and Proactive Functions (measures taken to ensure a long-term relationship with customers) performed by the Company. Therefore, the Company's initiatives in the year under review has been to empower its employees to improve the Query / Grievance handling techniques, provide efficient and effective Resolution to Customers' Grievances and to devise mechanisms to enhance the Customers' overall experience at the post-sale service stage.

We have developed and are constantly upgrading our Portals and Digital Tools to improve our processes. CRM Next is an automated workflow that has been created for handling Customer Grievances, obtaining Sales Teams' comments & Recommendation from the Regional Leadership Group, initiating Investigation wherever necessary, and seeking necessary approvals from the Competent Authority.

A web-based, real-time integration of Parivartan Module with our CRM Next Module has also been established. This is a module designed to empower SBI (Partner Banks) to log in Customer Queries / Complaints pertaining to SBI Life received at their end, to help us track and provide a quick Resolution to the same.

Over the years, your Company has seen a rise in Customer Satisfaction levels resulting in substantial decrease in the number of Complaints thereby giving an excellent Ratio to Total Issuance for Complaints Received across all categories and also in the whole industry. On comparing the total complaints received in the year under review with its corresponding period of the previous FY, we have recorded a dip in

- Mis-selling Complaints by 28%,
- Policy Not Received (PNR) Complaints by 29%,
- Non-Mis-selling Complaints by 17% and an

- Overall Reduction of 26% in total Complaints received.

This shows that the number of happy customers is increasing and we are striving hard to ensure sustainable growth in this area.

- **Contact Center -**
Your Company in-bound Call Center handled over 11 lac calls during the year under review and 93 thousand of the calls were responded through the IVR.

In the current pandemic situation, SBI Life continued its Contact Centre Services in Q1 (FY 20-21) with the active involvement and support from Employees of CR & CE Team at CPC & Regions and later through WFH set up for Contact Centres. Necessary infrastructure (safe & secured) was set up in coordination with SBI Life IT Team to continue the services remotely on the Mobile of Employees and later on the Mobile of CCE at contact centers.

- We successfully handled more than 2 lacs calls from April '20 to July '20, out of which more than 1 lacs calls were handled through the WFH Model.
- CR & CE Team at CPC and Regions handled 18,907 calls during the complete lock down i.e between April '20 – May '20.

SBI Life's Contact Center was the only one across the Industry, which was made operational in the shortest possible time during the lockdown period. This activity helped us to gain the trust of our customers. Your Company turned the pandemic challenge into an opportunity and promoted our Digital Platforms like the CSS Portal to our customers to use it to their advantage.

Despite having unseen, unheard challenges, the Customer Engagement Department thought out of the box to provide uninterrupted services to our Customers by taking various initiatives. Some of the Customer-centric initiatives in the FY 2021 are elaborated below.

- **Initiatives that improves Services offered by the Company -**
 - Self Service option on IVR has been introduced to Customer to access bitly link of 10 commonly used services via SMS on their Mobile number (Services like CSS Portal, Address change, Policy Revival, E Mandate Registration, TDS Certificate, Renewal Payment, Premium Paid Certificate, E Policy document, Branch Locator, E-mail ID updation). This has helped us to handle high call volumes at the Contact Centre and reduce Call Abundance Rate.

- We have introduced Automated out-calling on the abandoned calls to ensure Nil Call Abundant Rate.
- We are also triggering Auto SMS for out-bound Non-Contactable Cases with Contact Center details. Currently SMS's are being triggered for Call Back Request/Missed Call and for Lead/SMS Celebration & Solve/Abandoned Calls/NPS SRs.
- Monthly "Learning cum Training" Model is introduced for Branches/HPCs at Regions and Contact Center Agents.
- POC is also done for E-mail Automation Project. This project will help us to give a quick response to customer queries with a high Accuracy Level.

Leveraging Big Data Analytics:

SBI Life has been leveraging Analytics to help mitigate and control Risks in various business functions like Underwriting, Claims, Persistency etc. The outcomes of the various models are helping the respective functions to take more informed decisions, and helping in creating more efficient business processes.

- **Profile Score Model -**
The model holistically estimates future behaviour of the customer considering all aspects of fraud, lapsation, surrender and early claim propensity. A unified score called the 'Profile Score' is generated at the time of proposal submission for aiding Underwriting decision. The model indicates the propensity of the proposal towards Good Behaviour (Good Persistency, Low Risk of Early Claims/Surrenders).
Model provides R-A-G categorisation. Your Company intend to use this Score for financial underwriting. The model output helps to waive off financial documentation requirements for green flagged proposals. Model score is also being utilized to increase the Auto Underwriting percentage. The Profile Score is being made available on Real Time basis in Work Flow Module. Scores output is being monitored on a regular basis to ensure that the Model stays in conformity with the Actual Experience. The Model has been made live in the month of May 2020. Monthly basis scoring being done for 1 to 1.5 Lakhs proposals.
- **Re-development of Lapse Revival Model -**
Your Company used this model for Lapse Revival & also to predict the revival propensity for policies in Lapsed status. The model was developed utilising existing policy data with the Company. However, present evaluation of model output shows that there is significant change in bucket size in prediction from development time, and change in data proportion for most

significant variables. Subsequently there was performance drop & inconsistency in terms of revival and capture rate by the model. Based on the observations the Lapse model has been taken up for re-development with Revised Model Approach.

Further considering the request from Renewal vertical team "to map the behavioural pattern of revival for 13th Month persistency policy bucket separately", lapsed model has been refined for carrying out in-depth analysis in different buckets.

These Models are run on monthly basis and the outcome from the model provides the likelihood of revival within the next six months from the prediction date. All our Revival Campaigns utilize the data generated by this Model to improve the hit ratio.

- **Surrender prediction model -**
'Surrender Risk Prediction' helps to predict likelihood of Surrender which helps in initiating proactive steps for Surrender prevention. Customer engagement strategies have been formulated to focus more on very high and highly likely buckets of surrenders. Defined process has been formulated to flag customer issues to the concerned departments for resolution. This helps to reduce the amount of surrenders. By using this model your Company is successful in having a very low Surrender to AUM ratio.
The in-force policy portfolio has been divided into 3 sub-groups which have historically shown very different behaviour in terms of the Surrender experience. Separate predictive models have been developed for each of these sub-groups. The Model went live in the month of Jun' 2020.
- **Post Issuance Profile Verification (PIPV) Analytics –**
Even though the Risk Score Models are in place, it was a little difficult to detect all Fraudulent Customers at inception stage. Hence, suspicious policies must be identified immediately post issuance via Post Issuance Profile Verification (PIPV) model to prevent fraudulent claims from arising in the future. The PIPV Analytics Model was developed with the aim of identifying the right set of policies that to be sent / selected for PIPV. Identifying the right set for PIPV increases the likelihood of capturing all fraudulent customers. By targeting a focus group of the total policy base, we were able to capture major events that includes Repudiations and PIPV Cancelled cases. By utilizing this model, we aim to increase success ratio of PIPV investigation. This also helps to reduce the PIPV investigation costs.
- **"Claim Fraud Detection" model-**
The Model was developed with an objective to flag every early death claim based on risk

Directors' Report (Contd.)

propensity score of being fraudulent at death claim intimation stage. Flags generated by the Model has been integrated in I-Pay worksheet Panel under "Additional Policy details" against each early death claim on real-time basis. This helps assessors in claim evaluation to identify claims with higher propensity of being fraudulent and take further decision to go for investigation. The model provides output flags as very High, High Moderate and Low based on the propensity of the claims of being fraudulent. Top five influencers from prediction output are also displayed along with the risk flag and risk score in the assessment sheet. This helps in increasing the success ratio of Claim investigation and reduce Claim Settlement TAT. The model has been made live in the month of January, 2021.

12. INFORMATION TECHNOLOGY

FY 2021 has been a landmark year for SBI Life in Digital transformation. We continued our digital journey by implementing innovative solutions for business and customer support, using cutting - edge technology.

The improved digital tools and intuitive customizations have played a significant role in enhancing the experience of both, our internal and external customers. We have progressively enhanced the capacity and capabilities of our technology infrastructure that has consistently improved the availability of systems and applications for the business.

New normal in "Work From Home" (WFH) was maintained throughout the year with increased number of processes and employees ratio with scalable, secure and sustainable VDI technology. We ensured seamless transition of work environment while working at office to WFH without change in user experience, look and feel and desktop environment. All business operations, working from home or office, were carried out throughout the year by the respective stakeholder seamlessly, validating the technology capabilities and versatility of SBI Life, yet again.

In view of the continuing situation of the pandemic, laptops had been provided to all the staff to enable them to seamlessly switch between WFH and office depending on the local situation.

Some of the improvements implemented during the year are listed below:

A. Infrastructure

- **Data Centre (DC), Disaster Recovery (DR) and Wide Area Network (WAN)**
 - We have been proactively managing our DC/DR/WAN infrastructure to ensure that our Head office, CPC and 940+ branches are adequately supported to handle the business volumes and to provide quality service to our customers.

- During the year under review, the reach of MPLS network increased from 836 branches to 947 branches thereby consuming 1,722 MPLS links from 6 telecommunication companies, thus providing customer services at branches with dual redundant links.
- **Email Security**
 - The Company has upgraded the existing email infrastructure thereby moving all users to a single email domain. This has increased the user experience and significantly enhanced the security features including data loss prevention (DLP) capabilities. 2-Factor authentication in the webmail has been implemented and tested. Roll out for all users would be completed by Apr 2021 with enhancing security.
- **VPN solution**
 - During Covid-19 locked down 1,800 plus employees were enabled with VPN to work from home (WFH) to continue critical business processes at Regions and Branches.
- **DDoS (Distributed Denial of Services) Mitigation Services**
 - The Company obtained volumetric DDoS attack mitigation services on all central corporate Internet links in Data Centre. This will prevent DDoS attacks initiated globally across the Internet.
 - The solution is also configured to prevent legit based (low & slow) DDoS attacks.
- **Network Access Control (NAC)**
 - The Company has implemented NAC security feature of industry leading OEM, on all desktop /laptops systems in Corporate Office, CPC & branch offices.
 - This is being effectively utilised to evaluate security policy compliance of desktop systems, before permitting access to corporate network.
- **End Point Detection and Response**
 - Implemented the Symantec End Point Detection and Response solution in all the end points.
 - This helps monitor and collect activity data from endpoints that could indicate a threat, analyze the data to identify threat patterns and automatically respond to identified threats to remove or contain them, and notify IT and IS personnel.
 - Helps discover and resolve threats with deep endpoint visibility and superior

detection analytics, reducing mean time to remediation.

- Integrated with our SOC so that any attack can be immediately acted upon and remediation activities can be initiated.
- **Trend Micro Deep Security Antivirus**
 - Upgraded the existing Symantec Antivirus to Trend Micro Deep Security Anti-virus in our servers.
 - Deep Security features integrated modules including anti-malware, predictive machine learning, web reputation, firewall, intrusion prevention, integrity monitoring, application control, and log inspection to ensure server, application, and data security across physical, virtual, and cloud environments.
- **Laptops for enabling WFH for employees**
 - Provided over 9000 laptops to employees across the country to enable them to WFH in case of pandemics. This has improved employees' productivity and ensured that the work gets completed on time.
 - These laptops are already with the latest Windows edition and patches along with the antivirus, NAC and VPN agents configured for ready to use and monitored for security.
- **Firewall Management Rule system**
 - Deployed the AlgoSec Firewall rule management system to help monitor and manage the firewall rules that are being deployed / removed from all the firewalls in the Company from a central console.
 - AlgoSec Firewall Analyzer delivers visibility and analysis of complex network security policies across on-premise and cloud networks. It automates and simplifies security operations including troubleshooting, auditing, and risk analysis.
- **Security Operation Centre: (SOC)**

In the year under review, the Company have further strengthened the existing, state of art, SOC to monitor 24x7 all critical IT devices, websites, mobile applications and other domains, owned or used by the Company.

SOC monitors all production applications & related infrastructure devices for security alerts. Technology based on machine learning/artificial intelligence, data analytics, Threat Intelligence, Anticipation and Analytics with Threat Hunting, network behavior and user behavior are deployed. It has capability to quickly identify and detect cyber threats. Brand protection services for Internet facing websites, mobile application and social media handles are in operation. Dark Web are monitored for SBI Life contents

with Intelligence Feed and action based on Incident are taken.

Implemented deception & decoy technology to provide a layer of protection to stop attackers who have penetrated the network level up to traps (decoy) IT asset.

- **Adoption of Virtualisation environment**
 - Over 990 Virtual servers created on 56Host Servers resulting in power and space saving with optimum use of compute and storage.
 - During Covid-19 lockdown and continued WFH, 1600 plus employees were enabled to WFH for Head Office and Central Processing Centre (CPC) employees, using VDI technology. Further, security of VDI was enhanced by deployment of unified access gateway (UAG) with second factor authentication which helped the Company in carrying out all departmental activities by employees throughout the year, while working from home, in a risk free environment.
- B. Process Area**

Following are the major process improvements done during the FY 2021:

 - **New Policy Management System (PMS): "Ingenium"**, the new Policy Management system, has been fully implemented in the FY 2021. This has resulted in drastic improvement of customer service quality and shorter TAT (Turnaround Time) for new Product Launches. It is now successfully managing multiple lines of business.
 - The balance of the older (Closed products) policies have also been migrated in the year under review as per schedule. This migration was a massive exercise, the biggest project in the insurance industry in India, and has been carried out in a smooth manner without any adverse impact to the end-customer.
 - **Customer Relationship Management (CRM) system: "CRM Next"** is the core system providing 360-degree view of the customer, leading to better service across all touch-points. It has recently been upgraded to the latest version and further enhancements have been carried out in the year under review to further enhance the quality of customer engagement.
 - **Call-center during pandemic:** Continuing the inbound calling service was crucial to support the customers when the lockdown commenced in March'20. SBI Life devised a solution to this end and came out with a WFH solution in April'20 itself making

Directors' Report (Contd.)

SBI Life the only Insurer to have an operational call-center.

- **Robust Applications:** Applications are continuously tuned to be at an optimal state to be in position to process huge transactional volumes each day smoothly.
- **Work Flow System:** The New Business Work Flow System caters to the on boarding and Underwriting of new proposals for Individual business. The Group Workflow caters to the Underwriting of new proposals for Group and Credit-Life business. These platforms have greatly improved the efficiency of New Business and Underwriting Processes.
- **Robotic Process Automation, (RPA):** The existing operational processes were evaluated in the year under review and around 25 processes have been transformed into RPA during the year under review, leading to improved efficiency and cost savings. This is a continuous activity with many more scheduled to be taken up in the coming year.
- **Mobile Solutions:** Continuing the thrust from the previous year to adopt 'Go Digital', more than 99% of the Individual New Proposals are sourced through our Mobile Application – mConnect. We strengthened our stack of mobility solutions for our sales force, internal users and customers. *mConnect* application is the proposal sourcing application that enables our sales force to procure business anywhere any time. *Smart advisor Plus* is extensively used by our sales intermediaries for providing pre and post-sales support to their customers. This tool provides a bouquet of services to the Sales manager and they can get any policy related information on the fly. This tool reduced the burden on our branch offices by enabling the sales executive (Life Mitra, CIF in the bank or Business Development Manager or Unit Managers) to provide prompt information and services to their customers. ***Smart Advisor Plus is like a "mini Office in the pocket" for our sales intermediaries.***

We also provide a dedicated application to our customers known as 'Easy Access'. Premium due alerts, ability to raise queries, submission of e-COE (Certificate of Existence) for pension products, are some of the key features of this application.

In the year under review, with the focus continuing on "Go Digital", many new

initiatives were expedited and we are at the forefront in its adaptation in all areas starting from Customer enrichment, Distributor efficiency and / or Employee empowerment. This journey is here to remain for a long time for us.

- **Digital bouquet for partner on-boarding:** Your Company has developed a ready set of digital platform bouquet including mobility and **API (application program Interface)** and has been made available for quick integration and on-boarding of partners for new business and renewal premiums.

In the year under review, we have integrated Real time EFT for Allahabad Bank, Indian Bank and RinnRakha apart from already running 60 API's which includes SBI YONO.

C. Business Intelligence and Reporting

13. INVESTMENTS

Equity markets rebounded strongly in FY21 after the sharp fall it had experienced in March 2020 on back of COVID-19 related disruption and uncertainty. Indian equities had a stellar year with Nifty touching an all-time high and ending the year with ~ 70% returns for the year. The small cap and midcap indices outperformed the large caps and ended the year with over 100% gains erasing some its past underperformance. The recovery was driven by large monetary and fiscal stimulus measures globally, high global and domestic liquidity, lower cost of capital, good recovery in economic activity post easing of lockdowns, lower than anticipated impact of COVID-19 on corporate earnings and economy,

optimism on roll out of vaccines, etc. Indian markets witnessed strong FPI inflows of ~ USD 37 billion in FY 2021 even as domestic mutual funds witnessed outflows of ~ ₹ 63,000 crore. Retail participation in financial markets saw a sharp uptick through the year. India is expected to witness a 9.5% growth of real GDP based on estimates of various international agencies after a 7.3% contraction in FY 2021. INR appreciated by 3.2% from 75.54 to 73.11 thanks to the weakening of USD index. The index started falling with high twin deficits in the US and massive QE buying by the Federal Reserve.

Yield on 10-year Government of India Bond stayed almost entirely flat and moved marginally upwards by 2 basis points to end the year at 6.15%. Markets reacted positively with huge monetary support by RBI cutting policy rates by 135 bps to battle against Covid-19. Yields fell to 5.7% after the monetary support including OMO purchases. However, rising inflation amidst supply shocks, started pushing yields up to almost 6.27%, especially with the recovery of growth emerging. However, continued monetary accommodation and emergence of a second wave of the virus brought yields back to 6.15% by March end.

The Assets under Management (AUM) of the Company has increased by 37.7% from ₹ 1,603.63 billion as on March 31, 2020 to ₹ 2,208.71 billion as at March 31, 2021. The AUM was made up of ₹ 1,046.56 billion of traditional funds (including shareholders') and ₹ 1,162.15 billion of Unit Linked Funds. The Unit linked portfolio majorly comprises of Equity funds, Bond funds and NAV guaranteed funds.

Corporate Governance Report

INTRODUCTION

Our Company is explicitly committed to creating value for all its stakeholders – policyholders, employees, investors, vendors and the community. Fairness in words, actions and deeds with all stakeholders form the base of the Company's Corporate Governance philosophy. Corporate Governance enables the Company to perform efficiently and ethically towards the long term wealth and create value for all its stakeholders.

The imperative need to have good governance surfaced to demarcate the division between its ownership and its management. Concept of corporate governance rests on the fulcrum of transparency behind all decisions taken, accountability for the said decisions and safeguarding the interests of stakeholders.

Company continues to lay great emphasis on the highest standards of Corporate Governance which are an integral part of all Company activities to ensure efficient conduct of the affairs of the Company, without compromising its core values. Effective corporate governance practices constitute the strong foundation on which successful commercial enterprises are built to last.

Through the Governance mechanism in the Company, the Board along with its committees undertakes its fiduciary responsibilities to all its stakeholders by ensuring transparency, accountability, fairness and independence in its decision making. It helps to adopt sound and prudent principles and practices for the governance of the Company.

COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE:

Company's philosophy on Corporate Governance is laid on a foundation of Integrity, Excellence and Ethical values, which have been in practice since its inception. Strong leadership and effective corporate governance practices have been the Company's inherited values from the SBI culture and ethos. The Board is committed to meet expectation of all the stakeholders and strive hard to fulfill them. SBI Life, in this pursuit, places emphasis in the philosophy of Corporate Governance by embedding values like transparency, accountability, integrity and fair disclosures in the Company Structure. This is ensured by taking ethical business decisions and conducting business with a firm commitment to values.

The Company believes in adopting and adhering to the best standards of corporate governance. Certain tenets of our Corporate Governance Philosophy are:

- Appropriate composition, size of the Board and commitment to adequately discharge its responsibilities and duties.
- Transparency and independence in the functions of the Board.
- Maximum disclosure of information to the Board and its Committees for focused and meaningful discussions in the meetings.

- Operating in a sound system of internal control and risk management with a thrust on integrity and accountability.
- Independent verification and assured integrity of financial reporting.
- Timely and adequate disclosure of all material information to all stakeholders.
- Compliance of applicable laws, rules, regulations & guidelines.
- Fair and equitable treatment of all its stakeholders including employees, vendors, policyholders and shareholders.

The Company complies with the Corporate Governance Guidelines issued by the IRDAI. Further, the Company also complies with the Corporate Governance provisions prescribed under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and as amended thereto.

(I) Board of Directors ('Board')

The composition of the Board of Directors of the Company is governed by the provisions of Companies Act, 2013, Listing Regulations issued by SEBI and Corporate Governance Guidelines, 2016 issued by IRDAI.

The role of the Board is that of trusteeship, to protect and enhance the shareholder value through strategic direction to the Company. The role of the Chairman and the Chief Executive Officer are distinct and separate. The Chairman is primarily responsible for ensuring that the Board provides effective governance to the Company and the responsibility of Chief Executive Officer is to execute the corporate strategy in consultation with the Board.

The Board of Directors comprises of Executive director, Non-Executive Non-Independent directors as well as Independent Directors. There is an optimum combination of Executive, Non-Executive and Independent Directors. Except the Managing Director and CEO, all other directors including Chairman of the Board are Non-Executive Directors. There is one Woman Independent Director on the Board of Company. The Directors possess experience in diverse fields including Banking, Finance, Insurance, Human Resource, Information Technology, Marketing and Actuarial. The skill and knowledge of the Directors have proved to be of immense value to the Company. There is no inter-se relationship between the Directors.

Video or tele-conferencing facilities are also used to facilitate Directors travelling or residing abroad or at other locations to participate in the meetings.

During the year, the Non-Executive Directors of the Company had no pecuniary relationship or transactions with the Company. They play a critical role in balancing the functioning of the Board by

providing independent judgments on various issues raised in the Board meetings like formulation of business strategies, monitoring of performances etc.

The Company has issued formal letters of appointment to Independent Directors in the manner as provided in the Companies Act, 2013. All the Independent Directors have confirmed that they meet the criteria of independence as laid down under Corporate Governance Guidelines issued by IRDAI and Listing Regulations issued by SEBI.

The Company has well-defined Policy for determining criteria for appointment of Directors and Senior Management personnel.

COMPOSITION OF THE BOARD

As on March 31, 2021, the Board comprised of six (6) Directors i.e., four (4) Independent Directors, two (2) Directors nominated by State Bank of India ("SBI") including Managing Director & CEO. On April 12, 2021, two (2) Directors were appointed on the Board, one Independent Director and another Director nominated by SBI.

The Board functions either as a full Board or through various Committees constituted to oversee specific areas. The Board has constituted nine Committees, namely, Board Audit Committee, Board Risk Management Committee, Board Investment Committee, Board Policyholders' Protection Committee, Board Nomination and Remuneration Committee, Board Corporate Social Responsibility Committee, Board Stakeholders Relationship Committee, Board With Profits Committee and Board Information Technology & Information Security Committee.

FORM NO. MR-3 FOR THE FINANCIAL YEAR ENDED MARCH 31, 2021

[Pursuant to section 204(1) of the Companies Act, 2013 and RuleNo.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,

SBI Life Insurance Company Limited

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by SBI Life Insurance Company Limited (herein after called "**the Company**"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, we hereby report that in our opinion, the Company has, during the financial year ended March 31, 2021 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended March 31, 2021 according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the Rules made there under;
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made thereunder;
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- iv. Foreign Exchange Management Act, 1999 ("FEMA") and the Rules and Regulations made thereunder to the extent applicable;
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - a. The Securities and Exchange Board of India (Listing Obligation and Disclosure Requirement) Regulations, 2015;
 - b. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

These feedbacks aid in tracking, measuring & improving the client experience effectively.

Enterprise Risk Management

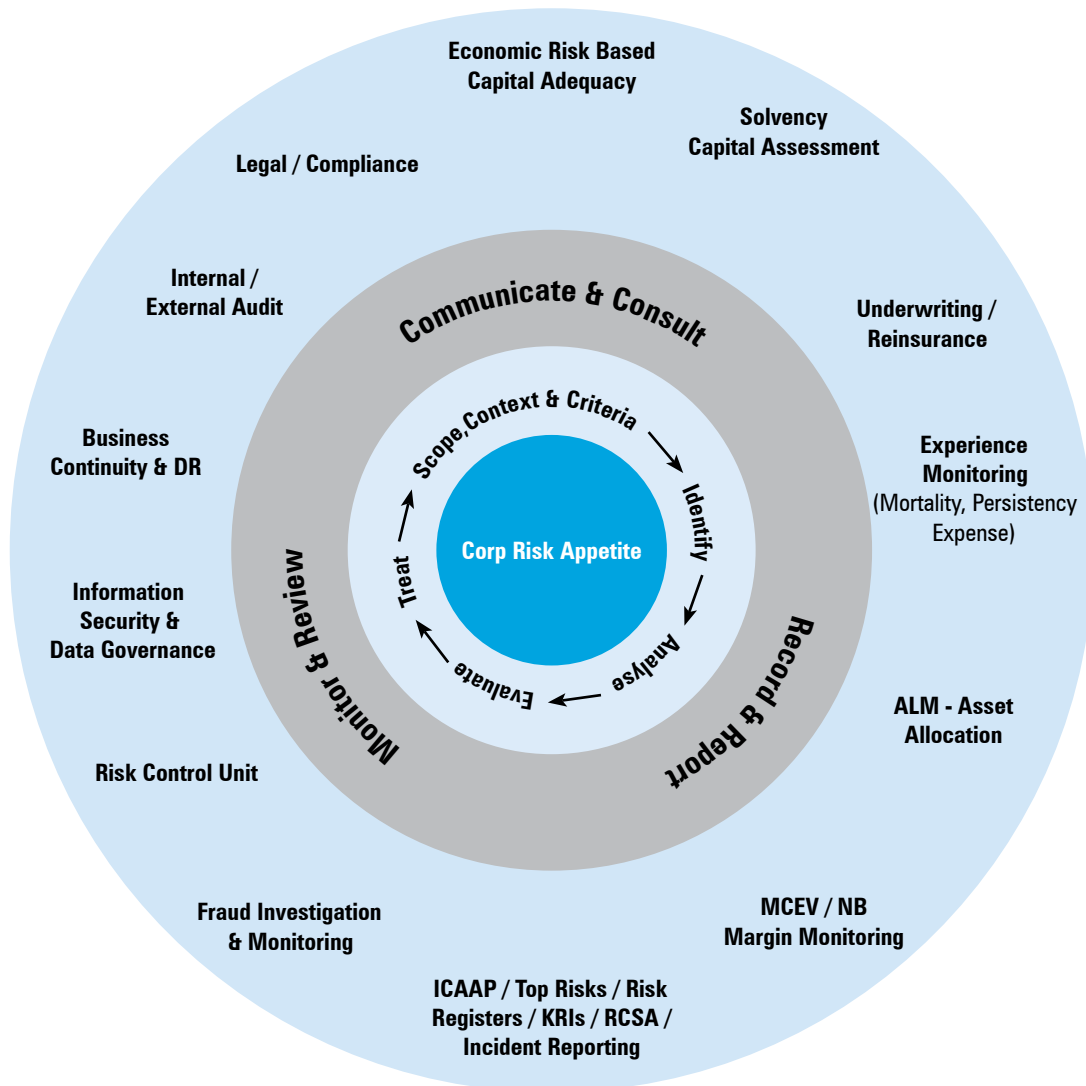

RISK MANAGEMENT FRAMEWORK

Effective management of risks is essential to achieve the Company’s strategic, business and operational objectives and goals with a degree of assurance. In line with its quest for implementation of Enterprise Risk Management, SBI Life has developed a robust Risk Management Framework to identify, assess and mitigate its key business & strategic risks. The Company has also formulated a set of Risk Appetite Statements as the centrepiece of this framework so as to integrate risk management with strategic business objectives and lay down the overall risk appetite for the organisation.

The Enterprise Risk Management at SBI Life encompasses all risks including Strategic Risk, Insurance Risk, Investment / Market Risk, Reputation Risk and Operational Risks like Fraud Risk, Information & Cyber Security Risk, Compliance Risk, Business Continuity Risk, etc.,

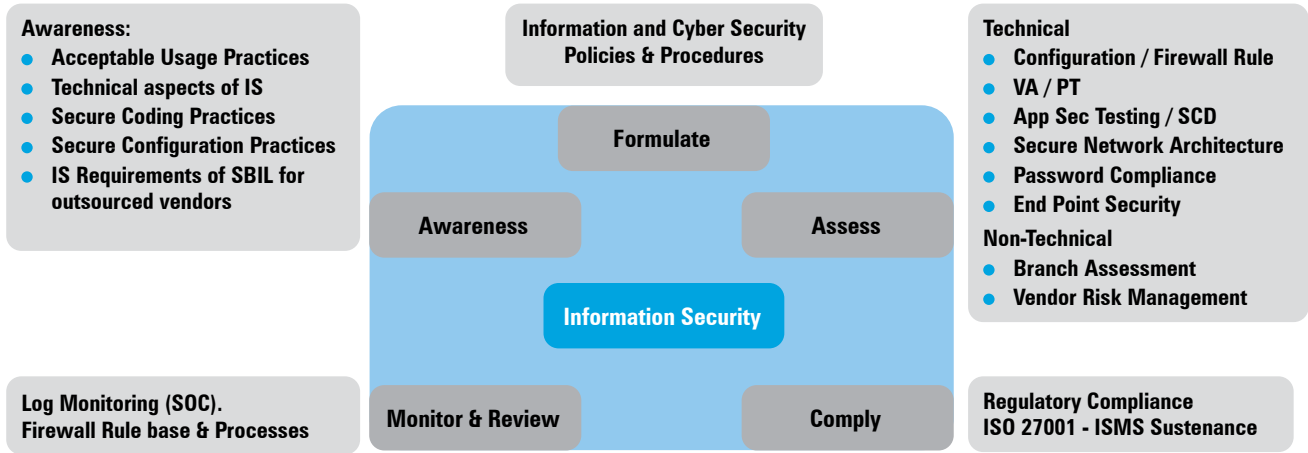

The ISO 31000:2018 ‘Statement of Compliance’ issued by British Standards Institution (BSI), in May 2018, for Enterprise Risk Management System of SBI Life covers all departments and functions at Corporate Office, Central Processing Centre, Regional & Branch Offices of the Company.

The Company has various Committees’ to manage its risks. The Company considers risk management to be fundamental to prudent management practice and a significant aspect of Corporate Governance. The Risk Management framework at SBI Life is depicted in the following diagram-

Enterprise Risk Management (Contd.)

INFORMATION SECURITY FRAMEWORK

The Company considers information security as a critical area and has a fully functional Information Security Team (IST) headed by Chief Information Security Officer (CISO). Information security practices of the Company are ISO 27001:2013 certified. The Information Security Committee (ISC), convened by the CISO, oversees all information security related activities that are carried out by the Company. Update of information security activities are presented to the Board Risk Management Committee on a regular basis.

The Company's Business Continuity Management (BCM) practices are ISO 22301:2012 certified. BCM activities are planned in such a manner that testing of the business continuity plans is regularly done in coordination with the concerned department / function. Proper planning and regular testing enabled the Company to successfully continue its essential / critical processes even during the complete lockdown due to Covid-19. Adequate Work from Home (WFH) connections were extended to Employees to continue the operations of the Company.

BUSINESS CONTINUITY MANAGEMENT FRAMEWORK

Data Governance Framework

The Company is in the process of implementing a Data Governance Framework. As a first step in this regard a Data Governance Policy (DGP) was formulated and approved by the Board. The policy provides a set of principles and rules for managing and protecting data across the Company. A Data Governance Committee has been formed to overlook the Data Privacy and Protection aspects. A Data Protection Team headed by a Data Protection Officer has been set up and is responsible for planning, organizing, directing and coordinating data governance activities across the Company.

The key focus areas of the above Risk Management frameworks are:

- Strategic Risk Assessment & Capital Planning
- Governance
- Risk Universe
- Risk Awareness

a. Strategic Risk Assessment & Capital Planning – SBI Life conducts Strategic Risk Assessment activity for identification, assessment, mitigation, monitoring and controlling Top risks facing the Company on an annual basis. There is a well established Asset Liability Management process along with Strategic Asset Allocation based on matching of liabilities with different asset classes & duration. As a part of

Capital Budgeting activity, the Company develops a 5-year Capital Rolling Plan which is regularly monitored. Risk assessment and risk management forms an integral part of these activities. Further, the risk categories have been standardised to ensure seamless assessment. The same are described in SBI Life Risk Management Policy & Internal Capital Adequacy Assessment Process (ICAAP) document. These documents are reviewed by the Risk Management Committee of the Board on an annual basis.

b. Governance

A risk reporting process has been formulated and implemented to manage risk governance requirements. Risk management is considered to be the responsibility of every employee of the Company and the same is driven by the Board.

The Company conducts an annual risk assessment exercise to identify the major risks faced by the Company for the ensuing year. Based on the same, top risks are identified and assigned to relevant risk owner for appropriate mitigation. Mitigation plans are monitored on a periodic basis.

A quarterly Risk Management Committee (RMC) of Executives and Asset Liability Committee (ALCO) is convened to discuss the ongoing risk management issues. In accordance with the IRDAI Corporate Governance guidelines, the Company has also set up RMC at the Board level. These Committees meet on a quarterly basis. The RMC of the Board provides directions on Risk Management & Asset Liability Management.

c. Risk Universe-

The Company is exposed to several risks in pursuit of its business goals and objectives. The Company has put in place adequate safeguard(s) to mitigate these risks. In the capital adequacy framework, various risks are assessed and quantified by allocating capital to each risk at the desired level of confidence. Some of the key risk areas and their assessment are detailed below:

Operational Risk - Operational risks are managed through tools like Risk Registers, Risk Control Self-Assessment (RCSA), Incident Reporting, Business Continuity Planning, Information Security assessments and Key Risk Indicators (KRIs). The risks are discussed with stakeholders and mitigation strategies are devised with appropriate monitoring & control.

Market Risk - The Investments department complies with all regulations on Investments issued by IRDAI from time to time. Investments are done strictly in line with the IRDAI regulations. The Investment Policy is exhaustive and covers all the key areas of risk management & reporting with regard to Market Risk. Market risk is further mitigated by matching assets and liabilities by type and duration and matching cashflows. A strategic asset allocation is approved by the ALCO for each business segment optimizing risk and reward of each asset class in the context of the asset liability profile of the segment. Guarantees provided on the products are assessed and monitored on an ongoing basis.

The Company undertakes economic capital assessment periodically to assess its capital adequacy on an economic basis.

Insurance Risk - Insurance risk is managed at the process level through appropriate system validations and functional structuring with the aid of analytical & modeling tools. The Actuarial team has formulated policies like Stress Test Policy, Reinsurance Policy and ALM Policy for Asset Liability Management.

d. Risk Awareness –

Sensitization and awareness creation of Risk Management across the Company is done through Training, Workshops, E-mailers, Seminars, Conferences, Quizzes, and Compendium of Loss incidents. 1st September of every year is celebrated as Risk Awareness Day wherein customized messages / emailers / audio visuals are broadcasted to enhance the risk awareness levels among employees. 30th November of every year is observed as 'Computer Security Day.' This occasion is used to create awareness in respect of information and cyber security in the Company. January 28th of every year is celebrated as 'Data Protection Day' and used to sensitise employees on data privacy and protection.

8. RISK EXPOSURE AND MITIGATION

The Company has a comprehensive Risk Management Policy covering a wide gamut of risks. The policy is reviewed on an annual basis. Together with policies on all key functions and a system of documented standard operating procedures, the Company's risk management policy ensures a robust risk management framework for its operations. The Risk Management Committee of the Board (RMC-B) is responsible for overseeing the Company's risk management program and for ensuring that significant risks to the Company are monitored and reported to the Board on a timely basis.

The Risk Management Committee of the Executives (RMC-E) and the Asset Liability Committee (ALCO) are jointly responsible for reviewing the risk management framework of the Company and periodically evaluating the various risk management initiatives undertaken by the Company and provide updates to the RMC-B on a regular basis.

At the apex level, the Company has the Corporate Risk Appetite statement basis which it decides the extent

of risk it is willing to take in pursuance of its strategic objectives. At the departmental / regional level, the Company has functional risk appetite statements.

(I) Risk Mitigation Strategies

Risk mitigation strategies for major risks faced by the Company are as under:

(a) Market risk:

To manage the interest risk, the Company monitors the duration of assets and liabilities for different portfolios on quarterly basis. Also, expected cash-flows of the assets and liabilities are monitored closely to identify any potential re-investment risk.

Investment strategy for each line of business is laid down so that the assets are appropriately matched by the nature and duration of liabilities. A range is provided for each asset class and the investment front office team takes tactical investment decision within the stated range. The Corporate Risk Appetite is the basis on which the risk reward framework is optimized for this purpose.

All investments are made strictly in compliance to the IRDAI Investment Regulations issued from time to time.

Market risk is monitored at the fund level and the Company level. This risk is measured using certain real world stress test scenarios. The results provide insights into the ability the Company has in terms of asset allocation. The limit on some volatile / risky assets is decided based on the risk appetite / limits laid down by the Board. Within these constraints, the Company decides on a strategy so as to improve policyholders and company value.

The Company's product mix is also monitored in the context of the level and concentration of market risk within overall risks of the Company.

(b) Credit risk:

The Company manages the credit risk through the following measures:

- (i) Exposure limits for companies, groups and industries are in accordance with IRDAI (Investment) Regulations, 2016, and regulations/orders/directions issued by IRDAI thereafter.
- (ii) Internal risk assessment and constant monitoring of the Investment portfolio for change in credit ratings.
- (iii) Limit Credit Exposure by setting a range for investments in Corporate Bonds, in the context of risk reward framework.

(iv) Counterparty risk is mitigated by placing reinsurance only with reputed and highly rated reinsurers.

(v) Counterparty credit risk under derivative transactions is mitigated through exchange of margin once MTM threshold is crossed.

(c) Liquidity risk:

The Company faces limited liquidity risk due to the nature of its liabilities & business structure. The cash investment along with expected future premium from existing business provides the liquidity to meet outgoes; this is monitored to be sufficient to cover expected outgo of the Company as forecasted by the ALM team under normal condition as well as under stressed conditions.

(d) Morbidity and Mortality risk:

The Company uses the following approaches to manage its mortality and morbidity risk:

- (i) **Reinsurance:** The Company uses a combination of surplus, quota share and catastrophe reinsurance treaties. The reinsurance treaties are reviewed and compliant with the relevant IRDAI regulations.
- (ii) **Experience Analysis:** The Company monitors the expected vs. actual mortality experience on quarterly basis and takes corrective action, if need be.
- (iii) **Repricing:** The Company reserves the right to review risk charges, in case of adverse experience, with appropriate IRDAI approval.
- (iv) **Underwriting and claims controls:** Underwriting and claims policies and procedures are in place to assess and manage the risks. The Company conducts periodic reviews of both underwriting and claims procedures and policies to ascertain the mortality risk experience. The underwriting norms are generally aligned to pricing basis.
- (v) **Others:** Various measures have been recently introduced to combat fraudulent death claims and as response to the modification of section 45 of the Insurance Act. These include:
 - a. Monitoring the early claims at agent, unit manager, branch and regional level.
 - b. Introduction of risk based underwriting through claim analysis.

Management Report (contd.)

(e) **Persistency risk:**

The persistency risk is managed with the following approaches:

- (i) **Experience analysis:** The Company conducts its experience analysis quarterly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions used in product pricing and embedded value are in line with experience.
- (ii) **Product features:** The Company uses features like bonuses, guaranteed additions and additional allocation of units to encourage policyholders to continue with the policy. However, such features are included strictly in compliance with the IRDAI product regulations issued from time to time.
- (iii) **Service initiatives:** The Company uses a combination of proactive and reactive interventions to manage persistency. The interventions could include sending communication via different media like email, mailers, SMS to customers and distributors, reminders and telephonic interviews with customers, and visits to customers. Various customer education initiatives are also taken up for this cause.
- (iv) **Aligning key performance areas:** The Company uses different key performance areas for different levels of hierarchy in Sales and Operations to align interests and ensure adequate focus on persistency. Persistency Managers at regional level help focus on the need and requirements matching of the customers besides contributing to the renewal business.

(f) **Expense risk:**

The Company actively monitors its expense levels, which are then fed back into new product pricing, calculation of reserves and management reporting. In case of any adverse deviations between actual unit costs and planned unit costs, mitigation measures are taken.

Regular monitoring ensures that the actual expense does not vary a great deal from the budgeted expense level.

Stress testing for Expense Risk is being done with deterministic shocks as per historical experience given for entire portfolio.

(g) **Operational risk:**

The Company manages its Operational Risks through-

(i) **Risk Registers**

Risk Registers document the high level risks for all the offices based on likelihood &

impact rating. Controls in place to manage the risks are captured and rated to arrive at the residual risk.

(ii) **Risk Control Self-Assessment (RCSA)**

RCSA requires each business unit within the Company to identify and assess inherent risks and controls relevant to the risk. The risk events are then mapped to the existing control framework to determine the residual risk. The controls are periodically assessed for its effectiveness.

(iii) **Incident Reporting**

The Company also has a web-based incident reporting process to collect loss incidents to track the extent of operational risk. The incident reporting tool has helped the company in development of system based modules for operational efficiency and to prevent recurrence. Loss data records may be used to estimate the capital required for operational risk.

(iv) **Risk Control Unit (RCU)**

A 'Risk Control Unit' (RCU) is in place to undertake proactive measures for detecting process gaps / weakness so as to mitigate frauds / leakages. Lacunae observed are addressed in consultation with the relevant stakeholder. The RCU carries out 'Risk Assessments,' reviews processes and provide inputs to mitigate risks.

(v) **Fraud Monitoring**

The Company takes a holistic approach to identify, measure, control and monitor fraud risk through the Fraud Prevention Policy. Various measures taken in coordination with the concerned stakeholders to mitigate fraud risk. The Company also participates in Industry forums to proactively obtain information on latest fraud trends.

(vi) **Information Security**

The Information Security Committee (ISC) monitors information and cyber security risks. The Company complies with relevant regulatory and statutory information security requirements and is ISO 27001 certified. To further enhance the information security, the Company periodically conducts user awareness campaigns across locations.

(vii) **Data Protection**

The Company employs various data protection solutions to ensure that the data of its customers, employees, vendors and other stakeholders is appropriately

11. VALUATION OF INVESTMENTS

We certify that the investments made out of Shareholders' funds and Non-Linked Policyholders' funds in debt securities, redeemable preference shares are classified as "held to maturity" and stated at historical cost subject to amortization of premium or accretion of discount over a period of holding / maturity on yield to maturity basis. Fixed Deposit and Reverse Repo are valued at cost.

The book value and the market value of these investments are as follows:

₹ ('000)

Particulars	As at March 31, 2021		As at March 31, 2020	
	Book Value	Market Value	Book Value	Market Value
Non-linked and shareholder funds' Investments valued at book value subject to amortisation of premium & discount	901,545,567	945,034,826	711,988,243	759,071,200
Non-linked and shareholder funds' Investments valued at market value	114,639,916	145,016,384	125,252,145	105,993,306
Total investments in non-linked and shareholder funds	1,016,185,483	1,090,051,210	837,240,388	865,064,506

i. Valuation – shareholders' investments and non-linked policyholders' investments

Debt securities

Debt securities, including Government securities and money market securities are stated at historical cost subject to amortisation of premium or accretion of discount over a period of holding/ maturity on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, the closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing ('SLB'), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from Credit Rating Information Services of India Limited ('CRISIL').

Unrealised gains or losses arising due to change in the fair value of equity shares are recognised in the Balance Sheet under "Fair value change account".

On each balance sheet date, the Company assess whether impairment of listed equity securities has occurred. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its weighted average cost as reduced by any previous impairment loss recognised as an expense in the Revenue or Profit and Loss Account. Any reversal of impairment loss, earlier recognised in Revenue or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Balance Sheet under "Fair value change account".

Alternative Investment Funds (AIFs)

Investments in Alternative Investment Funds (AIFs) are valued at latest available NAV. Unrealised gains or losses arising due to change in the fair value of Alternative Investment Funds (AIFs) are recognised in the Balance Sheet under "Fair value change account".

Interest Rate Derivatives (IRDs)

Interest Rate Derivative (IRD) contracts for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2016-17, IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') and IRDAI Investment Master Circular issued in May 2017.

The Company has well defined Board approved interest rate risk hedging Policy and Process document covering various aspects related to functioning of the derivative transactions undertaken to mitigate interest rate risk as per the Interest rate risk hedging strategy. At the inception of the hedge, the Company designates and documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of

inception of the hedge and periodically thereafter at Balance Sheet date.

Forward Rate Agreement ("FRA") is a forward contract to hedge the risk of movements in interest rates. In a FRA contract, the Company fixes the yield on the government bond for the period till the maturity of the contract. The Company enters into FRA to hedge interest rate risk on forecasted transactions: a) Reinvestment of maturity proceeds of existing fixed income investments; b) Investment of interest income receivable; and c) Expected policy premium income receivable on insurance contracts which are already underwritten in Life, Pension & Annuity business.

The Company follows "hedge accounting" for accounting of all Interest rate derivative financial instruments as per Guidance Note on Accounting for Derivative Contracts issued by Institute of Chartered Accountants of India (ICAI).

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, at applicable INR-OIS rate curve. The fair valuation or Mark to market valuation of the derivative financial instruments is done independently by both the parties i.e. the Company and the counter party. The counter party (bank) valuation is considered for margin settlement as the counter party (bank) is the valuation agent as per forward rate agreement.

Hedging instruments are initially recognised at fair value and are re-measured at fair value at subsequent reporting dates. The effective portion of fair value gain / loss on the interest rate derivative that is determined to be an effective hedge is recognised in equity account i.e. "Hedge Fluctuation Reserve" or "HFR" under the head 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet and the ineffective portion of the change in fair value of such derivative instruments is recognised in the revenue account or profit and loss account in the period in which they arise. The fair value gain / loss on the interest rate derivative that is determined to be an ineffective hedge is recognised in the revenue account or profit and loss account in the period in which they arise.

The accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or profit and loss account, in the same period during which the income from investments acquired from underlying forecasted cash flow is recognized in the Revenue Account or profit and loss account. Hedge accounting

Management Report (contd.)

is discontinued when the hedging instrument is terminated or it becomes probable that the expected forecast transaction will no longer occur or the risk management objective is changed or no longer expected to be met. On such termination, accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or profit and loss account. Costs associated with derivative contracts are considered as at a point in time cost.

Real Estate Investment Trusts (REITs)/ Infrastructure Investments Trusts (InvITs)

The Investment in Units of REITs / InvITs are valued at Market Value (last quoted price should not be later than 30 days). For the purpose of determining market value, the closing price at primary exchange i.e. NSE is considered. If NSE closing price is not available for any security, then BSE closing price is used for valuation. Where market quote is not available for the last 30 days, the units are valued as per the latest NAV (not more than 6 months old) of the units published by the trust. Unrealised gains or losses arising due to change in the fair value of Real Estate Investment Trust (REITs)/Infrastructure Investments Trusts (InvITs) are recognised in the Balance Sheet under "Fair value change account".

ii. Valuation – Linked business

Debt securities

Debt securities including Government securities with remaining maturity of more than one year are valued at prices obtained from CRISIL.

Debt securities including government securities with remaining maturity of less than one year are valued on yield to maturity basis, where yield is derived using market price provided by CRISIL on the day when security is classified as short term. If security is purchased during its short term tenor, it is valued at amortized cost using yield to maturity method. In case of securities with options, earliest Call Option / Put Option date will be taken as maturity date for this purpose.

Money market securities are valued at historical cost subject to amortisation of premium or accretion of discount on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing (SLB), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from CRISIL.

Unrealised gains or losses arising due to change in the fair value are recognised in the Revenue Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

Real Estate Investment Trusts (REITs)/ Infrastructure Investments Trusts (InvIT)

The Investment in Units of REITs / InvITs are valued at Market Value (last quoted price should not be later than 30 days). For the purpose of determining market value, the closing price at primary exchange i.e. NSE is considered. If NSE closing price is not available for any security, then BSE closing price is used for valuation. Where market quote is not available for the last 30 days, the units are valued as per the latest NAV (not more than 6 months old) of the units published by the trust. Unrealised gains or losses arising due to change in the fair value of REITs units are recognised in the Revenue Account.

Independent Auditors' Report

**To the Members of
SBI Life Insurance Company Limited**

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying Standalone Financial statements of **SBI Life Insurance Company Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the related Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Receipts and Payments Account (also called the "Cash Flow Statement") for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required in accordance with The Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations") and the Companies Act, 2013 ("the Act"), to the extent applicable, in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, as applicable to Insurance companies:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2021;
- b) in the case of the Revenue Account, of the net surplus for the year ended on that date;
- c) in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
- d) in the case of the Receipts and Payments Account, of the Receipts and Payments for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and

appropriate to provide a basis for our audit opinion on the standalone financial statements.

EMPHASIS OF MATTER

We invite attention to Note No 40 regarding the uncertainties arising out of the outbreak of COVID-19 pandemic and the assessment made by the management on its business and financials, including valuation of assets, policy liabilities and solvency for the year ended March 31, 2021, this assessment and the outcome of the pandemic is as made by the management and is highly dependent on the circumstances as they evolve in the subsequent periods. Our Opinion is not modified on the above matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

- a) **Valuation of Investments (AUM March 31, 2021: 2,208,712,137 March 31, 2020: 1603,634,820) (₹ in Thousands) (Refer Significant Accounting Policies in note no.16 B (k) (Investments) and Schedule 8, 8A and 8B, note no. 16 C (20 & 21) (Impairment of investment assets) to the standalone financial statements)**

The Company's investment portfolio consists of Policyholders' investments (traditional and unit linked policy holders) and Shareholders investments.

Total investment portfolio of the Company (i.e. Assets under Management (AUM)) represents 99.2 per cent of the Company's total assets.

Investments are made and valued in accordance with the Insurance Act, 1938, IRDAI (Investment) Regulations, 2016 ("Investment Regulations"), IRDAI (Preparation of Financial Statement Regulations) 2002 ("Financial Statement Regulations"), Investment Policy of the Company and relevant Indian GAAPs.

These valuation methods use multiple observable market inputs, including observable interest rates, index levels, credit spreads, equity prices, counterparty credit quality, and corresponding market volatility levels etc.

The portfolio of quoted investments is 35.3 per cent of the Company's AUM and the portfolio of investments that are valued primarily using observable inputs is 62.8 per cent of the Company's AUM. We do not consider these investments to be at a high risk of significant misstatement, or to be subject to a significant level of judgement because they comprise liquid, quoted investments. However, due to their materiality in the context of the standalone financial statements as a

whole, they are considered to be one of the areas which had the significant impact on our overall audit strategy.

The portfolio of unquoted investments is 1.2 per cent of the Company's AUM. The valuation of unquoted investments involves judgement depending on the observability of the inputs into the valuation and further judgement in determining the appropriate valuation methodology where external pricing sources are either not readily available or are unreliable.

The valuation of these investments was considered to be one of the areas which required significant auditor attention and was one of the matter of most significance in the financial statements due to the materiality of total value of investments to the financial statements.

Auditors' Responses

Principal Audit Procedures

- We assessed appropriateness of the pricing methodologies with reference to IRDAI Investment Regulations, Financial Statement Regulations, Company's internal investment and valuation policy;
- Assessed the process and tested the operating effectiveness of the key controls, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorisation and data input controls;
- Fair value is best evidenced by quoted market prices in an active market. Where quoted market prices are not available, the quoted prices of similar products or valuation models with observable market based inputs are used to estimate fair value. The calculation of estimated fair value is based on market conditions at a specific point in time and may not be reflective of future fair values.
- For quoted investments, the valuation was done in accordance with the independent pricing sources / market prices in an active market;
- For unquoted investments, we critically evaluated the valuation assessment and resulting conclusions in order to determine the appropriateness of the valuations recorded with reference to the assessment made by the management for such valuation.

b) Information technology systems and controls (IT Controls)

All insurance companies are highly dependent on technology due to the significant number of transactions that are processed daily. A significant part of the Company's financial processes is heavily reliant on IT systems with automated processes and controls over the capturing, valuing and recording of transactions. Thus, there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated.

The Company uses several systems for its overall financial reporting. We have identified 'IT systems and controls' as key audit matter because of significant use of IT system and the scale and complexity of the IT architecture.

Auditors' Responses

Principal Audit Procedures

- Sample testing of key control over IT systems having impact on financial accounting and reporting;
 - Assessed the IT system processes for effectiveness of some of the key controls with respect to financial accounting and reporting records by sample testing; and
 - Our audit approach relies on automated controls and therefore procedures are designed to test control over IT systems, segregation of duties, interface and system application controls over key financial accounting and reporting systems.
 - Reviewed the report of independent information system auditors which has further confirmed the various system control measures adopted by the Company.
- c) **Contingent Liabilities and Litigations**
(Refer Significant Accounting Policies in note no. 16 B (r) (Provisions and contingent liabilities) and note no. 16 C (1) to the standalone financial statements)

The Company has pending litigation matters with various appellate authorities and at different forums. The same involves judgements in accordance with applicable Accounting Standards to determine the final outcome of such open litigation matters.

The management with the help of its experts, as needed, have made judgments relating to the likelihood of an obligation arising and whether there is a need to recognize a provision or disclose a contingent liability. We therefore focused on this area as a result of uncertainty and potential material impact.

Auditors' Responses

Principal Audit Procedures

- We read the various regulatory correspondences and related documents pertaining to litigation cases and corroborated them with our understanding of legal position as per various statutes;
- We obtained legal opinion sought by management from the independent legal counsel including opinion of our own team to review the sustainability of the dispute. We discussed the status and potential exposures in respect of significant litigation with the company's internal legal team and obtaining details regarding the progress of various litigations including management views on the likely outcome of each litigation and the magnitude of potential exposure;
- The various litigation matters were reviewed in order to assess the facts and circumstances and to identify the potential exposures and to satisfy ourselves that it is not probable that an outflow of economic benefits will be required, or in certain cases where the amount cannot be estimated reliably, such obligation is disclosed by the company as a contingent liability.

Independent Auditors' Report (contd.)

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the Balance Sheet, the related Revenue Account, the Profit and Loss Account and the Receipts and Payments Account of the Company in accordance with accounting principles generally accepted in India, including the provisions of The Insurance Act as amended from time to time, the IRDA Act, the IRDA Financial Statements Regulations, orders/directions/circulars issued by IRDAI in this regard and the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014 further amended by Companies (Accounting Standards) Amendment Rules, 2016, to the extent applicable.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue

as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the

date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

- The actuarial valuation of liabilities for life policies in force is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2021 has been duly certified by the Appointed Actuary, and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by IRDAI and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as contained in the standalone financial statements of the Company (Refer Note no. 5 of Schedule 16(C)).
- Due to the COVID-19 pandemic and the lockdown and other restrictions imposed by the Government and local administration, the audit processes were carried out based on the remote access to the extent available/feasible and necessary records made available by the management through digital medium.
- The standalone financial statements of the Company for the year ended March 31, 2020 were jointly audited by joint Auditors of the company one of which is the predecessor

audit firm, and have expressed an unmodified opinion dated May 05, 2020 on such financial statements.

Our opinion is not modified in respect of these matters.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- As required by the IRDA Financial Statements Regulations, we have issued a separate certificate dated May 03, 2021 certifying the matters specified in paragraphs 3 and 4 of Schedule C to the IRDA Financial Statements Regulations.
- As required under section 143(5) of the Act, based on our audit as aforesaid, we enclose herewith as per Annexure I, a report on the directions including additional directions issued by the Comptroller and Auditor-General of India ('C&AG') action taken thereon and its impact on the accounts and financial statements of the company.
- As required under the IRDA Financial Statements Regulations, read with section 143(3) of the Act, we report that:
 - We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - In our opinion and to the best of our information and according to the explanations given to us, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books;
 - As the Company's financial accounting system is centralized at Head Office, no returns are prepared at the branches and other offices of the company;
 - The Balance Sheet, the Revenue Account, the Profit and Loss Account and the Receipts and Payments Account dealt with by this Report are in agreement with the books of account;
 - The actuarial valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2021 has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that, in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by IRDAI and the Institute of Actuaries of India in concurrence with the Authority.
 - In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 further amended by Companies (Accounting Standards) Amendment Rules, 2016, to the extent not inconsistent with the accounting principles prescribed in the IRDA Financial Statements Regulations and orders/directions/circulars issued by IRDAI in this behalf;

Independent Auditors' Report (contd.)

- (g) In our opinion and to the best of our information and according to the explanations given to us, investments have been valued in accordance with the provisions of the Insurance Act, the Regulations and orders / directions issued by IRDAI in this behalf;
- (h) In our opinion and to the best of our information and according to the explanations given to us, the accounting policies selected by the Company are appropriate and are in compliance with the Accounting Standards specified under Section 133 of the Act to the extent not inconsistent with the accounting principles prescribed in the IRDA Financial Statements Regulations and orders/ directions/circulars issued by IRDAI in this behalf;
- (i) On the basis of written representations received from the directors and taken on record by the Board of Directors, none of the Directors are disqualified as on March 31, 2021 from being appointed as a director in terms of section 164 (2) of the Act.
- (j) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to Annexure 'II' to this report.
- (k) With respect to the other matter to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

Annexure 'I' to the Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our Independent Auditors' report of even date to the Members of SBI Life Insurance Company Limited)

Based on the verification of records of the Company and based on information and explanations given to us, we give below a report on the directions/additional directions issued by the Comptroller and Auditor General of India in terms of the section 143(5) of the Act.

Sr. No.	Directions under section 143(5) of the Act	Auditors' Comments
1.	Whether the Company has system in place to process all the accounting transactions through IT system? If yes, the implications of processing of accounting transactions outside IT system on the integrity of the accounts along with the financial implications, if any, may be stated.	<p>As per the information and explanations furnished to us, The Company's financial processes are heavily reliant on IT systems with automated processes and controls over the capturing, valuing and recording of transactions. The Company has different IT systems in place for processing the accounting transactions such as premium, commission, claims, investments etc. All the transactions from these IT systems flows into the accounting system which is used for preparation of standalone financial statements and other reporting purposes.</p> <p>As a part of our general review of IT controls, we have carried out the review of major controls in existence in the applications with regard to integrity of data flowing to accounting system. Basis our sample verification, nothing significant has come to our attention that causes us to believe that there are material gaps pertaining to IT controls.</p> <p>Further management has conducted the system audit with the help of the consultants which has not reported any significant gaps.</p>
2.	<p>Whether there is any restructuring of an existing loan or cases of waiver/write off of debts/loans/interest etc. made by a lender to the company due to the company's inability to repay the loan? If yes, the financial impact may be stated.</p> <p>Whether such cases are properly accounted for? (in case, lender is a Government company, then its direction is also applicable for statutory auditor of lender company)</p>	<p>The Company has not taken any loans, thus restructuring of an existing loan or cases of waiver/write off of debts /loans/interest etc. made by a lender to the company due to the company's inability to repay the loan is not applicable.</p> <p>Accordingly, clause in respect of accounting for such cases is not applicable.</p>
3.	Whether funds (grants/subsidy etc.) received/receivable for specific schemes from Central/ State Government or its agencies were properly accounted for/utilized as per its term and conditions? List the cases of deviation.	<p>The Company has not received any funds (grant/subsidy etc) for specific schemes from Central / State Government or its agencies, thus proper accounting and utilisation of fund as per terms and conditions of the scheme is not applicable.</p>

Additional directions issued by C&AG as applicable to SBI Life Insurance Company Limited for the year 2020-21

Sr. No.	Additional Directions under section 143(5) of the Act	Auditors' Comments
1.	Number of titles of ownership in respect of CGS/SGS/Bonds/Debentures etc. available in physical/demat form and out of these, number of cases which are not in agreement with the respective amounts shown in the Company's books of accounts may be verified and discrepancy found may be suitably reported.	The Company holds investments both in physical and dematerialized form with clear title of ownership. The holdings are in agreement with the respective amounts shown in the books of accounts of the Company as on 31.03.2021.
2.	Whether stop loss limits have been prescribed in respect of investments. If yes, whether or not the limit was adhered to. If not, the details may be given.	<p>The Company's cut loss policy for equity investments in Linked and Non-linked portfolios have been prescribed in the Investment Policy as approved by the Board.</p> <p>As per the cut loss policy of the Company, Investment compliance team monitors market price of all equity securities falling below 30% of the 'Average Purchase Price'. The decision on to hold, partially sell or completely sell of cut loss securities is recorded and reported to investment sub-committee and Board investment committee periodically. During the year, the Company has adhered to the cut loss policy.</p>
3.	Whether the Company has complied with IRDAI circular {No. IRDA/F&A/CIR/MISC/052/03/2018 dated 27 March 2018} regarding exemption of reinsurance schemes in respect of specified insurance schemes such as Pradhan Mantri Jeevan Jyoti Bima Yojna (PMJJBY), from the purview of GST and passed on to the insured/Government the benefit of reduction in premium?	<p>As per the IRDA Circular dated 27.03.2018, "the proposal to exempt reinsurance schemes in respect of specified insurance schemes has been approved by the GST Council in its 25th meeting held on 18.01.2018, on the condition that the benefit of reduction in the premium on such Insurance schemes, must be passed on to the beneficiaries and the State and Central Exchequers. Insurers shall avoid any undue enrichment on this account. "</p> <p>A copy of the DO. No. 354/12/2018-TRU dated 24th January 2018, issued by the Hon'ble Finance secretary, Government of India (enclosed with IRDAI Circular) states as under:</p> <p>"Considering the fact that no GST is payable on insurance premium of such schemes and the GST paid on the re-insurance is included in the cost of insurance premium charged by the Insurance companies from the beneficiaries and also shared between the Centre and State Governments, the proposal to exempt reinsurance schemes in respect of specified insurance schemes has been approved by the GST council in its 25th meeting held at New Delhi on 18.01.2018."</p> <p>No reduction of premium has been passed on to the insured/Government on account of the exemption of the reinsurance scheme as envisaged in the directions.</p> <p>As per the management of the company, the pricing under the PMJJBY scheme is arrived at as per advice of the 'Department of Financial Services of Ministry of Finance' and no benefit is available to the company due to the exemption.</p>

Annexure 'II' to the Independent Auditor's Report

(Referred to in paragraph 3(j) under 'Report on Other Legal and Regulatory Requirements' section of our Independent Auditors' report of even date to the Members of SBI Life Insurance Company Limited)

Report on the Internal Financial Controls with reference to standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls with reference to standalone financial statements of SBI Life Insurance Company Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and as prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements,

assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of internal financial controls with reference to standalone financial statements

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of internal financial controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2021, based on the internal financial control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Other Matter

The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at March 31, 2021 has been certified by the Appointed Actuary as per the IRDA Financial Statements Regulations, and has been relied upon by us, as mentioned in "Other Matter" of our audit report on the standalone financial statements for the year ended March 31, 2021. Accordingly, our opinion on the internal financial controls with reference to the standalone financial statements does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation. Our opinion is not modified in respect of the above matter.

Independent Auditors' Certificate

[Ref: Independent Auditor's Certificate in accordance with the Schedule I (B) (11)(d) of Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 dated August 1, 2016]

To
The Board of Directors
SBI Life Insurance Company Limited

1. This certificate is issued in accordance with terms of our engagement letter with SBI Life Insurance Company Limited (the "Company"). Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 dated August 1, 2016 (the "Regulations") require the auditors to issue certificate regarding applicable Net Asset Value ("NAV") for applications received as at March 31, 2021 in terms of Schedule I (B) (11)(d) of the Regulations.

MANAGEMENT'S RESPONSIBILITY:

2. The preparation and maintenance of all accounting and other relevant supporting records and documents is the responsibility of the management of the Company. This responsibility includes the design, implementation and maintenance of internal controls relevant to the applicability of NAV for applications received as at March 31, 2021.
3. The Company's management is responsible for complying with conditions stated in the Regulations.

AUDITOR'S RESPONSIBILITY:

4. Pursuant to the requirement of this certificate, it is our responsibility to provide reasonable assurance as to whether:
 - a) The Company has declared March 31, 2021 as a business day for accepting applications;
 - b) The Company has declared NAV for March 31, 2021 on a basis consistent with its accounting policy as disclosed in its financial statements for the year ended March 31, 2021;
 - c) The applications received on March 31, 2021, upto 3.00 p.m. have been stamped and that the NAV of March 31, 2021 is applied for applications received upto 3.00 p.m as per Policy Issuance Procedure;
 - d) The applications received on March 31, 2021, after 3.00 p.m. have been stamped and that the NAV of next business day of financial year i.e. April 1, 2021 is applied for applications received after 3.00 p.m. as per Policy Issuance Procedure.
5. We audited financial statements of the Company as of and financial year ended March 31, 2021 on which we issued an unmodified audit opinion vide our report dated May 3, 2021. Our audit of these financial statements was conducted in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act,

2013 and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India (the "ICAI"). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free of material misstatement. Our audits were not planned and performed in connection with any transactions to identify matters that may be of potential interest to third parties.

6. In this connection, we have performed the following procedures:
 - a) Obtained representation from the management that the Company has declared March 31, 2021 as a business day for accepting application forms and that it has declared NAV for March 31, 2021;
 - b) Obtained the list of applications for New Business, Renewal Premium, Top-up, Surrender, Free – Look Cancellation, Fund Switches, Withdrawal, and Partial Withdrawal in respect of Unit linked Products on March 31, 2021 (together referred to as "Application Forms"), from the Company;
 - c) Selected samples of Application Forms from the listing mentioned in paragraph 6(b) above and verified whether:
 - i. The applications received on March 31, 2021, upto 3.00 p.m. have been appropriately stamped; and the NAV of March 31, 2021 is applied for such applications for the selected samples as per Policy Issuance Procedure; and
 - ii. The applications received on March 31, 2021, after 3.00 p.m. hours have been appropriately stamped; and the NAV of next business day of financial year i.e. April 1, 2021 is applied for such applications for the selected samples as per Policy Issuance Procedure.
 - d) We have read the certificate dated 27th April 2021 of the concurrent auditors of the Company, M/s. Haribhakti & Co. LLP, Chartered Accountants which has been furnished to us certifying compliance with Regulation 5 of Schedule I(B).
7. We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.
8. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

OPINION:

9. Based on the procedures performed by us, as mentioned in paragraph 6 above, and according to the information and explanations and representations provided to us by the Company's management, we report that:
- (a) The Company has declared March 31, 2021 as a business day for accepting applications;
 - (b) The Company has declared NAV for March 31, 2021 on a basis consistent with its accounting policy as disclosed in its financial statements for the year ended March 31, 2021;
 - (c) The applications received on March 31, 2021 upto 3.00 p.m. have been stamped and that the NAV of March 31, 2021 is applied for applications received upto 3.00 p.m. as per Policy Issuance Procedure and
 - (d) The applications received on March 31, 2021 after 3.00 p.m. have been stamped and that the NAV of next business day of financial year i.e. April 1, 2021 is applied for applications received after 3.00 p.m as per Policy Issuance Procedure.
10. This certificate is addressed to and provided to the Board of Directors of the Company, solely for inclusion in the annual accounts of the Company as per Schedule I (B) (11)(d) of the Regulations and should not to be used by any other person or distributed for any other purpose. We have no responsibility to update this certificate for events and circumstances occurring after the date of this certificate.

Comments of the Comptroller and Auditor General of India (C&AG)

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF SBI LIFE INSURANCE COMPANY LIMITED FOR THE YEAR ENDED 31 MARCH 2021

The preparation of financial statements of SBI Life Insurance Company Limited for the year ended 31 March 2021 in accordance with the financial reporting framework prescribed under the Insurance Act, 1938 read with Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 and the Companies Act, 2013 (Act) is the responsibility of the management of the Company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139(5) of the Act are responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 03 May 2021.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the Financial Statements of SBI Life Insurance Company Limited for the year ended 31 March 2021 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to Statutory Auditor's Report under section 143(6)(b) of the Act.

B. Basis of Preparation and Significant Accounting Policies

a. Basis of preparation and presentation

The Financial Statements are prepared under the historical cost convention, on accrual basis in accordance with the generally accepted accounting principles in India (Indian GAAP) and in compliance with the Accounting Standards notified under Section 133 of the Companies Act, 2013, read together with Rule 7 of the Company (Accounts) Rules, 2014, further amended by Companies (Accounting Standards) Amendment Rules, 2016, to the extent applicable, the provisions of the Insurance Act, 1938, as amended by the Insurance Laws (Amendment) Act, 2015 and Insurance (Amendment) Act, 2021, the Insurance Regulatory and Development Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the Accounting Regulations), the Master Circular on Preparation of Financial Statements and Filing of Returns of Life Insurance Business dated December 11, 2013 and various other circulars and notifications issued by the Insurance Regulatory and Development Authority of India thereafter.

The accounting policies used in preparation of the financial statements are consistent with those followed in the previous year.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities as of the date of the financial statements.

The reliance upon estimates and assumptions used in the accompanying financial statements are based on management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Difference between the actual and estimates are recognised in the period in which the actual results materialise or are known. Any revision to accounting estimates is recognised prospectively in current and future periods.

b. Revenue recognition

i. Premium Income

Premium of non-linked business is recognised as income (net of goods and service tax) when due from policyholders. In respect of linked business, premium income is recognised when the associated units are allotted. In case of variable insurance products (VIPs), premium income is recognised on the date when the Policy Account Value is credited. Uncollected premium from lapsed policies is not recognised as income until such policies are revived.

Top up premiums are considered as single premium.

ii. Income from Linked funds

Income from linked funds which includes fund management charges, policy administration charges, mortality charges, etc. are recovered from linked fund in accordance with terms and conditions of policy and recognised when recovered.

iii. Investment Income

Dividend income for quoted shares is recognised on ex-dividend date, for non-quoted shares the dividend is recognised when the right to receive dividend is established.

Investment income on Alternate Investment Funds (AIFs), Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), are recognized as and when declared by respective Fund/Trust.

Interest income is recognised on accrual basis. Pre-acquisition interest paid/received to/from counterparty on purchase/sale transaction is debited/credited to interest accrued and not due account. Accretion of discount and amortisation of premium in respect of debt securities are effected over the remaining term of such instruments on the basis of the related Yield-to-Maturity.

Realised gains and losses in respect of equity securities and units of mutual funds, Equity Exchange Traded funds (ETFs), Infrastructure Investment Trusts (InvITs) and Real Estate Investments Trusts (REITs) are calculated as the difference between the net sales proceeds and their cost. In respect of debt securities, the realised gains and losses are calculated as difference between net sales proceeds or redemption proceeds and weighted

Schedules Forming Part of Financial Statements

average amortised cost. Cost in respect of equity shares and units of mutual funds, Equity Exchange Traded funds (ETFs), Infrastructure Investment Trusts (InvITs) and Real Estate Investments Trusts (REITs) are computed using the weighted average method.

Fees received on lending of equity shares under Securities lending and borrowing scheme (SLB) is recognised as income over the period of the lending on straight-line basis.

iv. Income from loans

Interest income on loans is recognised on an accrual basis. Loan processing fee is recognised on receipt basis.

v. Rental Income

Rental income is recognised in the income statement on the straight line basis over the lease period.

c. Reinsurance premium ceded

Premium ceded on re-insurance is accounted in accordance with the terms of the re-insurance treaty or in-principle arrangement with the re-insurer.

d. Liability for life policies (Policy liabilities)

The actuarial liability of all the life insurance policies has been calculated by the Appointed Actuary in accordance with the Insurance Act 1938, and as per the rules & regulations and circulars issued by IRDAI from time to time and the relevant Guidance Notes (GN) and / or Actuarial Practice Standards (APS) issued by the Institute of Actuaries of India.

Non-linked business is reserved using a prospective gross premium valuation method. Mathematical reserves are calculated based on future assumptions having regard to current and future experience e.g. interest rates, mortality and expenses.

For participating products, vested bonuses are those which were distributed by the Company consequent to the actuarial valuations carried out annually at the end of each financial year dated 31st March, 2002 to 31st March, 2021. For participating pension products, special one-time bonus declared during financial year 2003-04 and 2004-05 have been taken into account. Appropriate future bonus assumptions have been made.

For Group - Par - Pension, the reserve is the Accumulated Fund Value.

For Non-Linked – Individual fund-based products and Non-Linked – Group fund-based products, the policy liability in respect of savings portion is equal to the fund value as on the date of valuation.

The unit liability in respect of Individual – Linked and Group – Linked business has been considered as the value of the units standing to the credit of the policy holders, using the net asset value (NAV) as on the valuation date.

The adequacy of charges under individual unit linked policies to meet future expenses has been tested and

provision made as appropriate. Provision has also been made for the cost of guarantee under Unit Linked products offered with Guarantee.

Variable insurance policies (VIPs) have also been valued in a manner similar to the ULIP business by considering liability as the policy account standing to the credit of the policyholders plus additional provisions for adequacy of charges to meet expenses.

Appointed Actuary is satisfied that the nature and extent of re-insurance arrangements require no additional reserve to be set aside apart from reinsurance reserves set aside based on Unearned Premium Reserve (UPR) methodology.

Considering the prudence of the valuation basis and the margins in the assumptions, our assessment is that, the reserve set aside is sufficient to meet all future policy outgoes under adverse conditions.

e. Funds for future appropriation

For non-linked participating business, the balance in the funds for future appropriations account represents funds, the allocation of which, either to participating policyholders' or to shareholders', has not been determined at the Balance Sheet date. Transfers to and from the fund reflect the excess or deficit of income over expenses and appropriations in each accounting period arising in the Company's policyholders' fund. In respect of participating policies any allocation to the policyholder would also give rise to a shareholder transfer in the required proportion.

The fund for future appropriations held in the unit-linked funds, represents surplus that has arisen from lapsed policies unlikely to be revived. This surplus is required to be held within the policyholders' fund till the point at which the policyholders' can no longer revive their policy.

f. Benefits paid

- i. Claims cost consist of the policy benefit amounts and claims settlement costs, where applicable.
- ii. Claims by death and rider are accounted when intimated. Intimations up to the end of the period are considered for accounting of such claims.
- iii. Claims by maturity are accounted on the policy maturity date.
- iv. Survival and annuity benefit claims are accounted when due.
- v. Surrenders and withdrawals are accounted as and when intimated. Benefits paid also includes amount payable on lapsed policies which are accounted for as and when due. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable.
- vi. Repudiated claims disputed before judicial authorities are provided for based on management prudence considering the facts and evidences available in respect of such claims.

Schedules Forming Part of Financial Statements

vii. Amount recoverable from re-insurers are accounted for in the same period as the related claim and are reduced from claims.

g. Acquisition costs

Acquisition costs such as commission, medical fees, etc. are costs that are primarily related to the acquisition of new and renewal insurance contracts. The same are expensed in the period in which they are incurred.

h. Fixed assets, intangibles and depreciation

Fixed assets

Fixed assets are stated at cost, less accumulated depreciation and impairment, if any. Cost includes the purchase price and any other cost which can be directly attributed to bringing the asset to its working condition for its intended use. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets.

Intangibles

Intangible assets are stated at cost, less accumulated amortisation and impairment, if any. Expenditure incurred on major application software and their customisation or further development is recognised as an intangible asset. The same is capitalised under fixed assets if such expenditure results in a benefit of enduring nature. Other software expenses are expensed in the period in which they are incurred. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Capital work in progress

Costs of assets as at the Balance sheet date not ready for its intended use are disclosed as capital work-in-progress. Advances paid towards the acquisition of fixed assets and intangibles at the Balance Sheet date are disclosed as capital work-in-progress.

Depreciation/ amortisation

The Company is following straight line method of depreciation provided on pro rata (monthly) basis for period of use for the following type of assets based on useful life as prescribed under Part "C" of Schedule II to the Companies Act, 2013:

Nature of Asset	Useful life
Furniture & fittings	10 Years
Office equipments	5 Years
Vehicles	8 Years
Building	60 Years
Information technology equipment	3 Years
Servers & networks	6 Years

Software expenses are amortised over a maximum period of 3 years.

Leasehold improvements are amortised equally over the period of lease. Capital expenditure on individual assets up to ₹ 1,000 are not capitalized and expensed out as revenue expenditure. Assets individually costing more than ₹ 1,000 and up to ₹ 20,000 are fully depreciated in the month of acquisition.

Depreciation is charged to Revenue and Profit & Loss Account based on the "put to use" criteria as per IRDAI guidelines.

i. Impairment of fixed assets

The carrying values of assets at each Balance Sheet date are reviewed for impairment. If any indication of such impairment exists, the recoverable amounts of those assets are estimated and impairment is recognised, if the carrying amount of those assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived by discounting the estimated future cash flows to their present value based on an appropriate discount factor. If at the Balance sheet date, there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer required or has decreased; reversal of impairment loss is recognised. The recoverable amount is reassessed and the asset is reflected at recoverable amount, subject to a maximum of depreciable historical cost.

j. Foreign currency transactions

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction.

Monetary assets and liabilities in foreign currency as at the Balance Sheet date are converted at the exchange rates prevailing on that date.

Non-monetary items like fixed assets which are recorded at historical cost are reported using the exchange rate at the date of transaction.

Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation are reported using exchange rate at the date when such value was determined.

Exchange differences either on settlement or on translation are recognised in the Revenue Account or Profit and Loss Account, as the case may be.

k. Investments

Investments are made and accounted in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, and Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, Investment Policy of the Company and various other circulars/ notifications as issued by IRDAI from time to time.

Investments are recorded on the trade date at cost, which includes brokerage, security transaction tax,

Schedules Forming Part of Financial Statements

education cess and stamp duty, wherever applicable and excludes interest paid, if any, on purchase.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Rights entitlements are recognised as investments on the 'ex-rights date'.

i. Classification of Investments

Investments maturing within twelve months from balance sheet date and investments made with the specific intention to dispose-off within twelve months from balance sheet date shall be classified as short-term investments.

Investments other than Short-term investments are classified as "Long-term investments".

ii. Valuation – shareholders' investments and non-linked policyholders' investments

Debt securities

Debt securities, including Government securities and money market securities are stated at historical cost subject to amortisation of premium or accretion of discount over a period of holding/ maturity on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, the closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing ("SLB"), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from Credit Rating Information Services of India Limited ('CRISIL').

Unrealised gains or losses arising due to change in the fair value of equity shares are recognised in the Balance Sheet under "Fair value change account".

On each balance sheet date, the Company assess whether impairment of listed equity securities has occurred. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its weighted average cost as reduced by any previous impairment loss recognised as an expense in the Revenue or Profit and Loss Account. Any reversal

of impairment loss, earlier recognised in Revenue or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Balance Sheet under "Fair value change account".

Alternative Investment Funds (AIFs)

Investments in Alternative Investment Funds (AIFs) are valued at latest available NAV. Unrealised gains or losses arising due to change in the fair value of Alternative Investment Funds (AIFs) are recognised in the Balance Sheet under "Fair value change account".

Interest Rate Derivatives (IRDs)

Interest Rate Derivative (IRD) contracts for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2016-17, IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') and IRDAI Investment Master Circular issued in May 2017.

The Company has well defined Board approved interest rate risk hedging Policy and Process document covering various aspects related to functioning of the derivative transactions undertaken to mitigate interest rate risk as per the Interest rate risk hedging strategy. At the inception of the hedge, the Company designates and documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter at Balance Sheet date.

Forward Rate Agreement ("FRA") is a forward contract to hedge the risk of movements in interest rates. In a FRA contract, the Company fixes the yield on the government bond for the period till the maturity of the contract. The Company enters into FRA to hedge interest rate risk on forecasted transactions: a) Reinvestment of maturity proceeds of existing fixed income investments; b) Investment of interest income receivable; and c) Expected policy premium income receivable on insurance

Schedules Forming Part of Financial Statements

contracts which are already underwritten in Life, Pension & Annuity business.

The Company follows "hedge accounting" for accounting of all Interest rate derivative financial instruments as per Guidance Note on Accounting for Derivative Contracts issued by Institute of Chartered Accountants of India (ICAI).

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, at applicable INR-OIS rate curve. The fair valuation or Mark to market valuation of the derivative financial instruments is done independently by both the parties i.e. the Company and the counter party. The counter party (bank) valuation is considered for margin settlement as the counter party (bank) is the valuation agent as per forward rate agreement.

Hedging instruments are initially recognised at fair value and are re-measured at fair value at subsequent reporting dates. The effective portion of fair value gain / loss on the interest rate derivative that is determined to be an effective hedge is recognised in equity account i.e. "Hedge Fluctuation Reserve" or "HFR" under the head 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet and the ineffective portion of the change in fair value of such derivative instruments is recognised in the Revenue Account or Profit and Loss account in the period in which they arise. The fair value gain / loss on the interest rate derivative that is determined to be an ineffective hedge is recognised in the revenue account or profit and loss account in the period in which they arise.

The accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or profit and loss account, in the same period during which the income from investments acquired from underlying forecasted cash flow is recognized in the Revenue Account or profit and loss account. Hedge accounting is discontinued when the hedging instrument is terminated or it becomes probable that the expected forecast transaction will no longer occur or the risk management objective is changed or no longer expected to be met. On such termination, accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or Profit and Loss account. Costs associated with derivative contracts are considered as at a point in time cost.

Real Estate Investment Trusts (REITs)/ Infrastructure Investments Trusts (InvITs)

The Investment in Units of REITs / InvITs are valued at Market Value (last quoted price should not be later than 30 days). For the purpose of determining market value, the closing price at primary exchange i.e. NSE is considered. If NSE closing price is not available for any security, then BSE closing price is used for valuation. Where market quote is not available for the last 30 days, the units are valued as per the latest NAV (not more than 6 months old) of the units published by the trust. Unrealised gains or losses arising due to change in the fair value of Real Estate Investment Trust (REITs)/Infrastructure Investments Trusts (InvITs) are recognised in the Balance Sheet under "Fair value change account".

iii. Valuation – Linked business

Debt securities

Debt securities including Government securities with remaining maturity of more than one year are valued at prices obtained from CRISIL.

Debt securities including government securities with remaining maturity of less than one year are valued on yield to maturity basis, where yield is derived using market price provided by CRISIL on the day when security is classified as short term. If security is purchased during its short term tenor, it is valued at amortized cost using yield to maturity method. In case of securities with options, earliest Call Option / Put Option date will be taken as maturity date for this purpose.

Money market securities are valued at historical cost subject to amortisation of premium or accretion of discount on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing (SLB), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from CRISIL.

Schedules Forming Part of Financial Statements

Unrealised gains or losses arising due to change in the fair value are recognised in the Revenue Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

Real Estate Investment Trusts (REITs)/ Infrastructure Investments Trusts (InvIT)

The Investment in Units of REITs / InvITs are valued at Market Value (last quoted price should not be later than 30 days). For the purpose of determining market value, the closing price at primary exchange i.e. NSE is considered. If NSE closing price is not available for any security, then BSE closing price is used for valuation. Where market quote is not available for the last 30 days, the units are valued as per the latest NAV (not more than 6 months old) of the units published by the trust. Unrealised gains or losses arising due to change in the fair value of REITs units are recognised in the Revenue Account.

iv. Transfer of investments

In the case of deficit in Revenue Account, transfer of securities from shareholders to policyholders is done as below:

- (i) Debt securities are transferred at lower of net amortised cost or market value on the date of transfer;
- (ii) Equity securities are transferred at lower of cost or market value on the date of transfer.

In the case of surplus in Revenue Account, transfer of securities from policyholders' to shareholders' is done as below:

- (i) Debt securities are transferred at net amortised cost;
- (ii) Equity securities are transferred at market value on the date of transfer.

No transfer of investments is carried out between non-linked policyholders' funds. In case of unit linked fund, inter schemes transfers are affected at prevailing market value at the time of transfer.

v. Impairment of Investments

On each balance sheet date, the Company assesses whether there is any indication of impairment of investments or reversal of impairment loss recognised in prior periods. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its weighted average cost as reduced by any previous impairment loss recognised as an expense in the Revenue or Profit and Loss Account. Any reversal of impairment loss, earlier recognised in Revenue

or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

vi. Provision for Non-Performing Assets (NPAs)

All assets where the interest and/or principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in accordance with the requirement of applicable IRDAI Regulations/circulars.

i. Loans

Investments in Loans are stated at historical cost, less repayments, subject to provision for impairment losses & non-performing asset (NPA) provision, if any.

m. Provision for Standard Assets

In accordance with the IRDAI guidelines on 'Prudential norms for income recognition, asset classification, provisioning and other related matters in respect of debt portfolio' vide the Master circular, adequate provisions are made for estimated loss arising on account from/under recovery of loans and advances (other than loans and advances granted against insurance policies issued by the insurer) outstanding at the balance sheet date in respect of standard assets.

n. Employee benefits

(i) Post-employment benefit

Defined benefit plans

Provident Fund

The Company makes contribution towards provident fund, a defined benefit retirement plan. The provident fund is administered by the trustees of the SBI Life Insurance Company Limited Employees PF Trust. The contribution paid or payable under the schemes is charged to the Revenue Account during the period in which the employee renders the related service. Further, an actuarial valuation is conducted annually by an independent actuary to recognise the deficiency, if any, in the interest payable on the contributions as compared to the interest liability as per the statutory rate.

Gratuity

The Company has incorporated a gratuity trust. The Company makes contribution to a Gratuity Fund administered by trustees of SBI Life Insurance Company Limited Employees Gratuity Fund. The plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee's salary and the years of employment with the Company.

The Company accounts for the liability for future gratuity benefits based in accordance with Accounting Standard – 15 (Revised). The net present value of the Company's obligation towards the same is actuarially determined based on the projected unit credit method as at the Balance Sheet date. Actuarial gains and losses are recognised in the Revenue Account.

Schedules Forming Part of Financial Statements

(ii) Other long-term employee benefits

Compensated Absences and Long Term Service Awards

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the Balance Sheet date.

Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation at the Balance Sheet date.

The Company accrues the liability for compensated absences and long term service awards in accordance with Accounting Standard – 15 (Revised). The net present value of the Company's obligation is determined based on the projected unit credit method as at the Balance Sheet date.

(iii) Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid for the services rendered by employees is recognised during the period when the employees renders the service. These benefits include salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalization), premium for employee group term insurance scheme etc.

(iv) Employee share based payments

The Company follows the intrinsic value method to account for its share-based employee compensation plans in accordance with the Guidance Note on Accounting for Employee Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is measured as the excess, if any, of the fair market price of the underlying stock over the exercise price on the grant date. The intrinsic value of options, if any, at the grant date is amortised over the vesting period. The fair market price is the latest closing price, immediately prior to the grant date, on the stock exchange on which the shares of the Company are listed. If the shares are listed on more than one stock exchange, then, the stock exchange which records the highest trading volume on the date, immediately prior to the grant date is considered.

o. Accounting for Leases

(i) Operating Lease

Where the Company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership over the lease term are classified as operating leases. Operating lease rentals are recognised as an expense over the lease period on a straight line basis.

Where the Company is the lessor

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the Profit and Loss Account on a straight-line basis over

the lease term. Costs, including depreciation are recognised as expense in the Profit and Loss Account.

(ii) Finance Lease

Leases under which the Company assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

p. Taxation

Direct Taxes

Provision for current income tax, if any, is made on an accrual basis after taking credit for all allowances and exemptions in accordance with the Income Tax Act, 1961.

Deferred income tax is recognised for future tax consequences attributable to timing differences between income as determined by the financial statements and the recognition for tax purposes. The effect of deferred tax asset or liability of a change in the tax rates are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent that there is a virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets or liabilities are reviewed as at each Balance Sheet date and written down or written up to reflect the amount that is reasonably or virtually certain to be realised.

Indirect Taxes

Goods and service tax liability on output service is set-off against the input tax credits available from tax paid on input services. Unutilised credits, if any, are carried forward under "Advances and other assets" for future set off and are deferred for recognition to the extent there is reasonable certainty that the assets can be realised in future.

q. Segmental reporting

As per Accounting Standard 17 on "Segmental Reporting" read with IRDA (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, the Company has classified and disclosed segmental information in to participating, non-participating and linked businesses, which are further segmented into Individual life, group, health, pension, variable and annuity.

r. Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made. Loss contingencies

Schedules Forming Part of Financial Statements

arising from litigation etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Contingent assets are neither recognised nor disclosed.

s. Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period in the shareholders' account by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Receipts and Payments Account comprises of cash and cheques in hand, bank balances, deposits with banks and other short-term highly liquid investments with original maturities of three months or less.

Note 3:

There has been a Supreme Court judgment dated February 28, 2019 relating to components of salary structure that need to be considered while computing provident fund contribution under the Employees' Provident Funds and Miscellaneous Provident Act, 1952. The Company has prospectively included the component of salary in the definition of basic salary and accordingly deducted PF in line with the said judgement of Supreme Court. However, there are interpretive aspects related to the judgment which require clarification. The Company will continue to assess any further development in this matter for the implication on the financial statements, if any on receiving additional clarity on the subject.

Note 4:

These cases pertain to litigation pending with various appellate forums/courts.

2. Pending Litigation

The Company's pending litigations comprise of claims against the Company primarily by customers and proceedings pending with tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liability (refer note 1 of Schedule 16 (C)) where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a material adverse effect on its financial results as at March 31, 2021.

3. Encumbrances on assets

The Assets of the Company are free from any encumbrances as at March 31, 2021 except for:

a. Securities or cash deposited as margin for investment trade obligations of the Company:

5. Actuarial assumptions

The assumptions used in valuation of liabilities are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with IRDAI.

The actuarial assumptions certified by the Appointed Actuary are as under:

- a. In the actuarial valuation all the policies, which were in the books of the Company and where there is a liability as at March 31, 2021 have been taken into account.

The portfolio consists of Participating, Non-Participating and Linked segments.

'Participating' segment is further classified in to the following Lines of Businesses (LoBs): Individual – Life – Participating, Individual – Pension – Participating, Group – Pension – Participating and Individual – VIP – Participating.

'Non-Participating' segment is further classified in to the following LoBs: Individual – Life – Non-Participating, Individual – Pension – Non-Participating, Group Savings – Non-Participating, Group One Year Renewable Group Term Assurance (OYRGTA) – Non-Participating, Group Other – Non-Participating, Annuity – Non-Participating (Individual and Group), Health – Non-Participating (Individual and Group), and VIP – Non-Participating (Individual and Group).

'Linked' segment is further classified in to the following LoBs: Individual – Life – Linked, Group – Linked and Individual – Pension – Linked.

- b. For policies which are likely to get cancelled during their "free look period", premium less stamp duty and medical expenses as per the policy contract need to be refunded. Adequate provision is provided for such policies.
- c. The following parametric values are used to carry out the actuarial valuation:

For mortality assumption under life business 'Indian Assured Lives (2012-2014) Ultimate Mortality table' and under general annuity business 'Mortality for Annuitants-LIC (a) (1996-98) Ultimate Rates' has been used. For Morbidity assumption, the Morbidity Tables provided by re-insurers has been used with suitable adjustment.

The interest rate for valuation lies in the range of 5.50% to 6.00% per annum as shown in the table below. While allocating expenses for the current year, the entire policyholders' expenses have been allocated product-wise.

Line of Business	Valuation basis as on March 31, 2021	Valuation basis as on March 31, 2020

For fully paid-up and reduced paid-up policies, fixed expenses are considered same as for single premium policies.

An inflation rate of 5.50% per annum (previous year ended March 31, 2020: 5.50% per annum) has been assumed while estimating future expenses.

For participating products, the vested bonuses are those which were distributed by the Company consequent to the actuarial valuations carried out annually at the end of each financial year dated March 31, 2002 to March 31, 2021. Regarding bonus provisions for the current financial year and bonus provision for future years, the bonus rates have been assessed by carrying out Bonus Earning Capacity (BEC)/ asset share investigations and taking into consideration the policyholder's reasonable expectations.

Margin for Adverse Deviation (MAD) has been provided, wherever applicable and required.

In addition to this, Incurred but Not Reported (IBNR) claims reserve is also provided wherever required.

The above parameters and the MAD provision have been observed to ensure prudence and are in accordance with the GN / APS issued by the Institute of Actuaries of India and in concurrence with the Regulations and circulars of IRDAI.

The Surplus emerged from Non-participating segment has been transferred to Profit & Loss Account for the year ended March 31, 2021 based on the recommendation of the Appointed Actuary and the necessary fund transfer will be made after the year end on the basis of Audited financials with required recommendations by the Appointed Actuary.

Fair value methodology

Method of computation of Fair Value of Options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions considered for calculating fair value of the options as on the grant date are as follows:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020	Year ended March 31, 2019	Basis
Risk free interest rate	5.02%	6.52%	7.30%	Determined based on G-Sec yield on the grant date corresponding to maturity period equal to expected life of options
Expected life of the options (years)	4.55	4.55	4.55	Average of the weighted-average time to vesting and the contractual life of options
Expected dividend yield	0.20%	0.30%	0.36%	Calculated based on recent rate of dividend declared
Expected volatility	35%	25%	26.78%	Based on historical stock prices using annualised standard deviation of daily change in stock price.

Impact of the fair value method on the net profit and earnings per share:

Had the compensation cost for the Company's stock option plans been determined based on the fair value approach, the Company's net profit for the year and earnings per share (both basic and diluted) would have been as per the proforma amounts indicated below:

Sr. No.	Particulars	Year ended March 31, 2021	Year ended March 31, 2020
		₹ ('000)	
1	Net Profit after tax as per Profit & Loss Account available for both basic and diluted earnings per share ₹ ('000)	14,558,494	14,221,831

In FY 2020, the Company has classified its investment in Dewan Housing Finance Ltd.(DHFL) as NPA on account of default in interest and principal repayment of non-convertible debenture (NCDs) held in Unit

Linked Funds. The provision of ₹ 525,790 thousands at 100% of face value and interest accrued till the date of default has been made in FY 2020.

22. Investment Properties - Real Estate Investment Trusts (REITs)

The investment in Real Estate Investment Trusts (REIT's) of ₹ 3,298,563 thousands (Previous year ended March 31, 2020 ₹ Nil) has been disclosed as part of the Investment Property in accordance with the IRDAI circular no. IRDAI/CIR/F&I/INV/056/03/2016-17 dated March 14, 2017 and IRDAI (Investment) Regulations, 2016.

23. Forward Rate Agreement

The Company offers guaranteed products wherein the Policyholders are assured of a fixed rate of return for premiums to be received in future. These premiums are likely to be received over a longer tenure and the guaranteed rate of return is fixed at the beginning of the policy term. Any fall in interest rates would mean that each incremental investment of the Company would earn a lower rate of return. Accordingly, the Company manages the Interest Rate Risk in accordance with the IRDAI circular no. IRDA/F&I/ INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') and IRDAI Investment Master Circular issued in May 2017 which allows insurers to deal in rupee interest rate derivatives such as Forward Rate Agreements ("FRAs"), Interest Rate Swaps ("IRS") and Exchange Traded Interest Rate Futures ("IRF").

Schedules Forming Part of Financial Statements

The Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

The Company has during the year, as part of its Hedging strategy, entered into Forward Rate Agreements (FRA) transactions to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Forward Rate Agreement derivative contracts are over-the-counter (OTC) transactions wherein, the Company lock-in the yield on the government bond for the period till the maturity of the contract with an objective to lock in the price of an interest bearing security at a future date.

Derivatives (FRA) are undertaken by Company solely for the purpose of hedging interest rate risks on account of following forecasted transactions: a) Reinvestment of maturity proceeds of existing fixed income investments; b) Investment of interest income receivable; and c) Expected policy premium income receivable on insurance contracts which are already underwritten in Life, Pension & Annuity business.

B. Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes:

a) Fixed Income Derivative Hedging instruments:

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company during the financial year has entered into FRA derivative instrument to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, strategy, objective and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

b) Derivative policy/process and Hedge effectiveness assessment:

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment and accounting.

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

c) Scope and nature of risk identification, risk measurement, and risk monitoring:

The Derivative and related Policies as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives. All financial risks of the derivative portfolio are measured and monitored on periodic basis.

C. Quantitative disclosure on risk exposure in Forward Rate Agreement

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (FRA). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account.

The tenure of the hedging instrument may be less than or equal to the tenure of underlying hedged asset/liability.

44. Segment reporting

In accordance with the Accounting regulations read with Accounting Standard – 17 on “Segment reporting” notified under Section 133 of the Companies Act, 2013, read together with Paragraph 7 of the Company (Accounts) Rules, 2014, further amended by Companies (Accounting Standards) Amendment Rules, 2016, life insurance companies are required to prepare Segmental Revenue Account and Segmental Balance Sheet. The Company’s business is segmented into traditional -par business, non-par business and unit-linked business. Since the Company has conducted business only in India, the same is considered as one geographical segment. The accounting policies used in segmental reporting are same as those used in the preparation of the financial statements.

(a) Segmental Revenue Account

The methodology for determining segmental revenue and expenses adopted in the current year is described below:

Premium income, commission, investment income and profit or loss on sale or disposal of investments is directly allocated to the respective segments to which they relate. Within the Non-Participating segment, investment income and profit or loss on sale or disposal of investments are directly allocated if a segregated investment portfolio is maintained. The remaining investment income and profit or loss on sale of investments is apportioned on the basis of the average policy liabilities in the individual business and the group business.

Operating expenses that are directly attributable and identifiable to the business segments are allocated on actual basis. Other operating expenses, which are not directly identifiable and attributable, are allocated after considering the following:

- i. Cost centres identified by the Management
- ii. Channels used for the business segments
- iii. New business premium and renewal premium
- iv. New lives added during the year
- v. Total number of lives covered as at the end of the year
- vi. New business sum assured
- vii. Actuarial Liability

(b) Segmental Balance Sheet

Investments are effected from the respective funds and have been reflected accordingly. Fixed assets have been allocated to shareholders’ funds, net current assets have been directly allocated among shareholders, life business, pension business, group business, unit – linked business and variable insurance business segments. Other net current assets have been allocated to life business and pension business in the ratio of the respective policy liabilities as at the year end.

Within life business, certain assets and liabilities have been directly identified to the respective segments. Other assets and liabilities under Life business have been allocated in the ratio of the respective policy liabilities as at the year end.

Appointed Actuary's Certificate

As at the year ended 31st March 2021

(Amounts in thousands of Indian Rupees)

I have valued the policy liabilities of SBI Life Insurance Company Limited as at 31st March 2021, in accordance with accepted actuarial practice and in line with relevant professional guidance issued by the Institute of Actuaries of India, including that covering the selection of appropriate assumptions.

In my opinion, the amount of policy liabilities ₹ 2,086,224,936 (net of reinsurance) makes appropriate provision for all policyholders' obligations, and the financial statements fairly present the result of the valuation.

Prithesh Chaubey

Appointed Actuary

Tax Rate Change to 25% on Normal Tax basis	(8.6%)	(12.7%)

* Mass lapse sensitivity (of 25% or 50%) for ULIP business is applied at the end of surrender penalty period as defined by APS 10, which is taken to be the beginning of 5th policy year for current generation of our ULIP products.

1. VoNB sensitivity: New Business sensitivities assumes that the scenario arises after the point of sale; and consider impacts on both new business liability cash-flows and the asset backing the reserves at the respective month ends.
2. The sensitivities are being calculated without any lag from Q3 FY21.

3. METHODOLOGY AND APPROACH

IEV is calculated as the sum of Adjusted Net Worth (ANW) and Value of In-Force business (VIF).

ANW comprises Free Surplus (FS) and Required Capital (RC).

VIF consists of the following components:

Present Value of Future Profits (PVFP) expected to emerge from the covered business;

Less Frictional Cost of Capital (FCoC);

Less Time Value of Financial Options and Guarantees (TVFOG);

Less Cost of Residual Non-Hedgeable Risks (CRNHR).

3.1 Components of Adjusted Net Worth (ANW):

This is the value of all assets allocated to the covered business that are not required to back the liabilities of the covered business.

Free Surplus (FS): Free Surplus represents the market value of any assets in excess of liabilities and Required Capital which is potentially distributable to shareholders immediately. Free Surplus has been calculated as the excess of ANW over the Required Capital.

Required Capital (RC): Required Capital is the amount of assets attributed to the covered business over and above that required to back liabilities for the covered business whose distribution to shareholders is restricted. Required Capital has been set at 180% of the Required Solvency Margin (RSM), based on the Company's internal capital target. RSM has been projected by applying the solvency margin factors prescribed by the IRDAI appropriate to each line of business.

3.2 Components of Value of Inforce (VIF) business:

Present Value of Future Profits (PVFP): PVFP represents the present value of future post taxation shareholder cash-flows projected to emerge from the in-force covered business and the assets backing liabilities of the in-force covered business. The PVFP incorporates

an allowance for the intrinsic value of financial options and guarantees.

Frictional Cost of Capital (FCoC): FCoC reflects the impact of taxation on investment returns and investment costs on the assets backing required capital. FCoC has been estimated as the present value of:

- tax on investment earnings on assets backing the required capital; and
- investment expenses (after tax) incurred in holding such assets.

Required Capital is assumed to be maintained throughout the lifetime of the underlying liabilities, at the internal target level of 180% of the RSM, calculated based on the prescribed factors.

Time Value of Financial Options and Guarantees (TVFOG):

Allowance is made for asymmetric impact on shareholder value due to any financial options and guarantees within the covered business.

Cost of Residual Non-Hedgeable Risks (CRNHR): A bottom-up assessment of risks has been undertaken to allow for

Embedded Value Report (Contd.)

the cost of residual non-hedgeable risks not already allowed for elsewhere. CRNHR has been estimated using a cost of capital approach.

3.3 Assumptions used for IEV Calculation:

The expense assumptions used in the IEV (Indian Embedded Value) estimation represent the unit costs arising out of actual experience of the FY 2021 and makes no allowance for any productivity gains/cost efficiencies beyond what is achieved up to the valuation date. Allowance has been made for future inflation on the expenses. Further, any one-off costs incurred during FY 2021 and development expenditure have not been

identified separately or excluded when determining the unit cost assumptions.

The Required Capital is taken at 180% of the Statutory RSM, which is the internally approved norm for the Company.

The rate of income tax applied to the surplus is set at 14.56%. Tax deductions available by way of dividend income from equity etc. are not taken into consideration. Rate of taxation applied to individual pension business is zero.

The zero coupon government bond yield curve published by FIMMDA-PDAI was used as the assumed reference rates.

Independent Actuary's Opinion

3 May 2021

The Board of Directors

SBI Life Insurance Company Limited

Natraj, M.V. Road and Western Express Highway Junction
Andheri (East), Mumbai - 400 069

Dear Sirs,

WILLIS TOWERS WATSON OPINION ON EMBEDDED VALUE AS AT 31 MARCH 2021

Willis Towers Watson Actuarial Advisory LLP ("Willis Towers Watson", "we", "us" or "our") has been engaged by SBI Life Insurance Company Limited ("SBI Life" or "the Company") to review and provide an independent actuarial opinion on the embedded value results prepared by SBI Life.

The review covered the embedded value as at 31 March 2021 and the value of one year's new business written during the period 1 April 2020 to 31 March 2021 of INR 333.9 billion (together, "embedded value results").

Scope of work

Our scope of work covered:

- A review of the methodology and assumptions used to determine the embedded value results;
- A review of the results of SBI Life's calculation of the embedded value results;
- A review of the analysis of movement in embedded value from 31 March 2020 to 31 March 2021; and
- A review of select sensitivities as defined by the Company.

OPINION

Willis Towers Watson has concluded that the methodology and assumptions used to determine the embedded value results of SBI Life comply with the standards issued by the Institute of Actuaries of India within the Actuarial Practice Standard 10 ("Indian Embedded Value Principles"), and in particular that:

- the economic assumptions used are internally consistent and result in the projected cash-flows being valued in line with the prices of similar cash-flows that are traded on the capital markets;

- the operating assumptions have been set with appropriate regard to the past, current and expected future experience;
- the Required Capital has been determined and projected on the basis of SBI Life's internal capital target of 180% of the Required Solvency Margin and has been assessed from a shareholders' perspective;
- allowance has been made for the Cost of Residual Non-Hedgeable Risks; and
- for participating business, the assumed bonus rates, and allocation of profit between policyholders and shareholders, are consistent with the projection assumptions, established company practice and local market practice.

Willis Towers Watson has also performed a number of checks on the models, processes and results of the calculations performed by SBI Life. On the basis of this review, Willis Towers Watson has confirmed that no issues have been discovered that have a material impact on the disclosed embedded value as at 31 March 2021, the value of one year's new business written during the period 1 April 2020 to 31 March 2021, the analysis of movement in embedded value for FY2020-21 and the sensitivity analysis as at 31 March 2021.

In arriving at these conclusions, Willis Towers Watson has relied on data and information provided by SBI Life. This Opinion is made solely to SBI Life in accordance with the terms of Willis Towers Watson's engagement letter dated 25 September 2020. To the fullest extent permitted by applicable law, Willis Towers Watson does not accept or assume any responsibility, duty of care or liability to anyone other than SBI Life for or in connection with its review work, the opinions it has formed or for any statements set forth in this opinion.

COVID-19 is an ongoing and continuously evolving issue which has and will continue to have significant effects on global economic activity and insurance experience. The actual effects of COVID-19 could have an unexpected material impact on our findings. The level of uncertainty affecting our conclusions and the underlying volatility of actual outcomes is increased because of the emergence and contingent evolution of COVID-19.
