## NGT pulls up states over degrading air quality

STATESMAN NEWS SERVICE  
NEW DELHI, 10 NOVEMBER

The National Green Tribunal on Friday pulled up various states where the air quality index dipped to 'severe', 'very poor' and 'poor' categories.

"We expected some improvement after the first order, but we do not find any," it said.

Madhya Pradesh, Gujarat and Bihar government lawyers said they have filed action taken reports, while Uttar Pradesh's counsel said all efforts are being taken to improve the air quality.

The tribunal had issued notices to chief secretaries of various states, including Delhi, and directed them to take immediate remedial

steps and submit the action taken reports.

"Most of the details in the action taken reports of the states are only up to October when the situation was not so bad. Bhiwani, Bathinda, Bulandshahar, Churu - the air quality is bad. Even after our order, the situation in Bihar is worrisome," it said. The bench headed by

Justice Prakash Shrivastava asked the Punjab government, "Is there any improvement in any place? Point out one city where the situation has improved? No improvement in Amritsar... Bathinda remains in poor category... We showed you satellite image last time, what is shown in report and shown in satellite image does not match."

"What will happen to residents of cities in Punjab. Cities in Punjab are engulfed in smoke. It rained today and God came to your rescue because he (God) also realised that nothing is being done at your end," it said. The NGT added that the maximum number of places in Haryana are affected by a spike in pollution.

# Mahua not treated fairly, claim some members of ethics panel

The committee has submitted the 500 page report to the Lok Sabha Speaker Om Birla

CHANDRANI BANERJEE  
NEW DELHI, 10 NOVEMBER

The recommendations of the Parliamentary Ethics Committee may lead to expulsion of Trinamool Congress MP Mahua Moitra but many in the committee are of the opinion that she has not been given a fair trial.

TMC MP Mahua Moitra is facing allegations that she has shared her internet login credentials that as an MP allocated to her to Darshan Hiranandani. And she allegedly accepted cash for the questions she asked in the Parliament. The Parliamentary Ethics Committee summoned her on the basis of a complaint filed against her by Darshan Hiranandani.

Darshan Hiranandani is CEO of Hiranandani Group and one of Indian billionaire businessman Niranjan Hiranandani. Bharatiya Janata Party (BJP) MP Nishikant Dubey wrote a letter to Lok Sabha

Speaker Om Birla demanding her immediate suspension. The matter was referred to the Parliamentary Ethics Committee for an inquiry. The Committee summoned Moitra and Dubey and submitted a 500 page report on Thursday. The committee recommended Moitra's suspension saying that the majority voted against her. Six people voted in favour of her suspension while 4 against it, sources confirmed.

The Statesman talked to some of the members of the Parliamentary Ethics Committee for an understanding.

The committee has submitted the 500 page report to the speaker Om Birla. There are members MPs of the Ethics Committee of different political parties who believe that she has not been treated fairly. The matter has not been investigated properly and a report is submitted.

Speaking to the Statesman, member of the Parliamentary Ethics Committee and Janata Dal MP Girdhari Lal Yadav said, "Ghor Anayaya hua hai Mahuaji ke saath (Mahuaji has been treated in an unfair manner). The man in question

Darshan Hiranandani has not even been summoned. What is the basis of this report on which she will be expelled. There are tens of thousands of fraud happening online and hacking happens. How did they determine in a day without talking to at least the people involved in the matter. This is scary. Any observer would say that this has been planned in a way to keep her out of Parliament.

He added, "I on my part asked and would want to know the basis of this recommendation. I also would like to ask why certain people have not been summoned? They told me that everything is based on the affidavit filed by Darshan Hiranandani. Point is anyone can allege whatever they wish to but there has to be a proper inquiry and the report should be prepared accordingly. This is a serious matter."

Airing similar views, another Ethics committee member and BSP MP Kunwar Danish Ali said that Ms Moitra has not

been given a fair chance to explain herself.

"How can a committee wind up everything in two minutes? Charges were serious and everyone involved should be summoned. Each one should be heard because the testimonies were an important part of the whole allegations. Without incorporating everything the report is incomplete to my understanding. And on the basis of an incomplete report one cannot be held guilty."

Another Ethics Committee member and Shiv Sena MP Hemant Godse said that the members have considered the affidavit.

"This is a serious allegation. If something like this is allowed then there will be no sanctity of the system. I do not think that she has not been heard. I think there was enough time for her to present her story."

He added that the members have made the recommendation, and the final decision will be taken by the Speaker.

## Matter of national security if our systems become vulnerable: Member of Ethics Committee

AGENCIES  
NEW DELHI, 10 NOVEMBER

Aparajita Sarangi, member of the Ethics Committee probing the 'Case for Query' scam against Trinamool Congress MP Mahua Moitra has said that it is a matter of national security and the TMC MP should understand that she is a parliamentarian.

Speaking to ANI, Aparajita Sarangi said "In the meeting yesterday, it was decided that we will send the application of the suspension of TMC MP Mahua Moitra to the Lok Sabha Speaker. Voting was done yesterday, in which 6 people were in favour and 4 against.

I think that the Chairman of the Ethics Committee Vinod Sonkar will send the report today or tomorrow. After that, the Lok Sabha Speaker will decide the further course of action."

She further pressed that Dubai-based Businessman Hiranandani will not be called for cross-examination as the latter has already submitted an affidavit.

"The Ethics Committee has made it clear that Hiranandani will not be called for cross-examination as he has given an affidavit.

This was also discussed with the Ministry of IT, Home Affairs and External Affairs and it is a matter of national security. If we make our

system vulnerable, then it becomes a matter of national security. Such a negative reaction from Mahua was bound to come. She should understand that she is a parliamentarian. She is a public representative. We all have to exercise restraint somewhere in our conduct, thoughts and values," she added. She also mentioned that according to the rules of the National Informatics Centre (NIC), the first thing is to not share your credentials with anyone.

"It is wrong if people share these credentials with anyone. You can do this with your staff, it's not a problem then but she gave the credentials to a businessman from Dubai who was interested in doing business in India. If we look at the rules of NIC, the first thing is that credentials should not be shared," Aparajita said.

## Child slap case: SC slams UP gov't for not counselling student

AGENCIES  
NEW DELHI, 10 NOVEMBER

The Supreme Court on Friday slammed the Uttar Pradesh government for not providing counselling to the Muslim student who was slapped by classmates on the instruction of a teacher in Muzaffarnagar, as per reports.

A bench of Justices AS Oka and Pankaj Mishal pulled up the government, saying the state "will not do anything" unless the court passes orders and termed the approach of the government "shocking".

"Unless we pass the order, they won't do anything. You have to decide whether you will do something or only face-saving. We passed the order on September 25. If students are treated in your state like this, then what is the use of expert counselling now after three months?" the bench said.

It asked the Principal Secretary of the Education Department to be virtually present before it on December 11.

## Centre's advisory to states/UTs on health issues arising from air pollution

STATESMAN NEWS SERVICE  
NEW DELHI, 10 NOVEMBER

The Union Health Ministry has issued an updated health advisory to the states and Union Territories (UTs) making several recommendations and action plans to be actively considered by them while tackling health issues related to air pollution besides creating awareness.

The advisory came in the wake of overall air quality in Delhi, which continued to be in 'severe category', is likely to improve in various places in the national capital due to the light rain that occurred on

Saturday morning. The updated advisory to the states/UTs, which was shared by the Health ministry on Friday, recommended school health authorities, heads,

teachers and parents to develop a mechanism to create awareness and convince them to motivate their wards to adopt better practices to mitigate air pollution. In addition, the ministry advised the states/UTs to avoid outdoor activities if AQI levels are poor or above. Schools should encourage students to use vehicles (cars, vans, school buses) provided by them for commuting to reduce emissions, it said.

"Schools should ensure proper classroom ventilation by opening windows properly or install exhaust fans, close the windows if the air quality level is poor and

above. To adopt wet mopping for floor cleaning in school or before students arrive at school. Marker pens may be used for writing on board instead of chalks," the advisory added.

The ministry advised medical officials/staffs at school to sensitise students and staff on air pollution related health issues and ways to manage emergencies if required.

In its advisory, the ministry also asked concerned authorities to prepare 'health sector response action plans during high levels of air pollution (particularly post-Diwali, stubble burning and winter days/ months in state/ district/city).

# Hindalco profit growth flat

Aditya Birla Group's metal flagship Hindalco Industries on Friday said its consolidated profit for the July-September quarter of 2023-24 (Q2FY24) was flat at ₹2,196 crore due to accounting-related adjustments at its US subsidiary.

The revenue for the quarter under review stood at ₹54,169 crores, a dip of 3.6 per cent on a year-on-year (Y-o-Y) basis. In a media call post-Q2FY24 earnings, Satish Pai, managing director, said the dip in revenues was on the back of lower London Metal Exchange (LME) prices. He added that the net profit was flat on a year-on-year (Y-o-Y) basis owing to adjustments made for accounting standards at its US subsidiary Novelis.

The company beat Street estimates on revenue but missed it on profit reported in the quarter under review. In a Bloomberg poll, nine analysts estimated a revenue of ₹47,805 crore, and 10 analysts estimated an adjusted net income of ₹2,214 crore. Sequentially, Hindalco's net profit was down 10.5 per cent. Hindalco said, the net profit was in line with the prior year quarter, and down sequentially due to accounting adjustments.

# For RIL, oil and gas business likely to be nearing a peak

Reliance Industries Ltd's (RIL's) oil and gas vertical reported its record quarterly profit in the latest quarter (July-September), when the business reported an Ebitda (earnings before interest, taxation, depreciation, and amortisation) of ₹4,766 crore.

In the quarter, a little over 10 per cent of RIL's consolidated Ebitda came from its oil and gas business.

Even as this business finally claims a larger share in overall profits, analysts say it may be nearing its peak for now. RIL's oil and gas business performance for several years has been lacklustre in comparison to profits its other divisions have returned.

The business has, however, looked up in the past several quarters with gas production commencing from the KG-D6 block.

"The turnaround began with the start of gas production at KG-D6 (commenced gas production from satellite cluster in April 2021 and R-cluster in December 2020)," analysts with BNP Paribas noted in their report on the company.

"This was further boosted by the commencement of gas production from the MJ field,

which yielded 29 MMSCMD (million metric standard cubic metres a day) of gas in 2QFY24 and is on course to achieve 30 MMSCMD production in the near term," they wrote.

However, analysts from foreign and domestic brokerages say this is nearing its peak.

Analysts with Motilal Oswal in their latest post-earnings report on RIL said FY25 would see the full benefit from the ramped up volumes at the MJ field.

Those at JP Morgan are calling it "the last hurrah". "Much was expected by the market of Reliance's E&P

business earlier, but the large D1/ D3 fields eventually disappointed in terms of output. That seems to have led to RIL scaling back its upstream ambitions," the analysts said, noting the company has exited most of its overseas assets and the US shale properties it had acquired.

"There is little else beyond this -- no major exploration/development activities in this part of the business (are) anticipated. RIL's cash flow/Ebitda will likely see significant albeit temporary gains as output hits the peak," the analysts noted. The peak for KG-D6 gas

production of around 30 MMSCMD isn't far from now. Production, according to the company's quarterly results, stands at ₹29 MMSCMD.

"Combined, the KG-D6 project in completion (three phases) will develop more than 3 trillion cubic feet (TCF) of gas with gross production of 30 MMSCMD and should reach peak production in 2023 (FY24). This contributes to 30 per cent of India's domestic gas production," analysts with Goldman Sachs noted in their earnings review. In their multi-year estimates of up to FY26, brokerages JM Financials, Emkay, UBS, and Kotak Securities see this segment's Ebitda peaking either this financial year or the next.

"Agree, this is the best it gets for this business segment of RIL," said an oil and gas analyst, adding, "But upside could be in steps if they stumble upon new discoveries."

RIL is working on ultra-deep projects such as KG-UDW1, where the first exploration well is planned to be drilled in the second half of the current year.

It has commenced a programme of an additional 40 wells as part of its production augmentation plan, with output anticipated to be ramped by Q4FY24.
